"Servizi" Office. P.M. 126.

****

-Taking into consideration the difficulty of obtaining boot-blacking on the Mainland, which does not permit the War Ministry to supply us with same for use of troops located on Island;
-Remembering that the first purchase of boot-blacking, which took place locally, has not given the desired results, because on account of the lack of raw materials, the quality of the product was such as to counsel that nofurther quantities be bought;
-This H.Q. has decided to supply, if possible, the raw materials needed in the direct manufacture of Boot-Blacking to local industry.
- Consequently, we ask your Sub Commission to examine the possibility of obtaining for us, or having released, the following raw materials:
Black and Brown Anyline dyes.
"Cernauba" Wax - Essence of turpentine or Benzole,
so that we can see to the direct manufacture of the product required, ensuring a sufficient supply for the good maintenance of Boots and at a convenient price for the Military Administration.
We would be grateful if your Sub Commission could be in condition to let us have the required raw materials.

1. In accordance with our telephonic conversation this date submit the following details regarding the demand made for tannin which originated at Allied Forces Local Resources (Sicilian) Board:

a On 11 July 1944 Allied Force Local Resources (Sicilian) Board requested verbally (as substantiated by Encl No.2) to be advised of the monthly requirements of "Tannin" for the Italian Military in Sicily.

b On 11 July 1944 we requested same from XII Italian Corps,(see Encl No.1).

c On 28 July AFLR (Sicilian) Board sent letter (Encl No.2), to which we replied by 1st Ind, (Encl No.3) having been advised by Military Hq Sicily (formerly XII Corps) by phone that none would be required. This was confirmed by letter from Military Hq of Sicily 11 Aug (Encl No.4)

d On 18 Aug Military Hq of Sicily Director of Commerce sent in a request for Tannin, which we replied to by Indorsement (Encl No.5).

e On 25 Aug Military Hq of Sicily resubmitted their demand for Tannin (Encl No.6)

f We contacted Allied Force Local Resources (Sicilian) Board and advised to forward the request, as was done (Encl No.7).

2. We are cancelling, this date, the demand for "TANNIN" Ref our No.460 dated 26 Aug 1944 (Encl No.7). And will advise Military Hq of Sicily to submit their demand for leather to Ministry of War in accordance with your telephonic instructions

Refering to the monthly requirements of tannin by Italian Army in Sicily, we inform you that this H.Q. has made a contract with civilian firm Mazzarino & Savasta, from Catania, which has agreed to supply to the Military Administration a monthly supply, w.e.f. next September, of 2.5 Tons of Sole leather and 500 Square feet of Uppers, which are needed for the manufacture and repair of military boots.

The firm has promised to supply this leather on condition that it be given, beforehand, the following raw materials:

2 Tons of dried chest-nut tree (tannin), and
0.5 Tons of molten "sego", Per month.

Remembering that it is both urgent and necessary that the manufacture and repair-work of military boots be carried out, because of the well known conditions of our military boots, and also keeping in mind that no boots can be sent from the Mainland because of a similar lack there, we would be grateful to you if you would arrange for the said quantity (monthly) of raw materials to be supplied us, to be then handed by us to Mazzarino & Savasta firm.

Because of the transport difficulties, we ask that a three-month quantity be supplied to us (6 tons dry chest-nut & 0.5 Tons molten "sego" 5972

It would seem there is a complete lack of appreciation by all concerned of the operational commitments of the Italian Air Force which is operating daily with the Royal Air Force in combat against the common enemy.

3. It is absolutely impossible to make accurate bids a month beforehand for the quantity of Oxygen & Acetylene required, because the quantity required is controlled by the work to be done and this again is controlled by the number of aircraft which crash and the number of aircraft salvaged & recovered from freshly liberated areas.

4. The natural tendency of the Italian Air Force to over bid and over estimate would be encouraged if such a course of prior bidding is to be followed. The work of this Sub Commission would be considerably increased by having to check each month the amount drawn against actual requirements for the current month, and against the bid and allocation made for that month.

5. Under the scheme which worked so satisfactorily the Engineer Staff Officer was always able to advise the Equipment Staff Officer of the work in hand and the quantity of Oxygen & Acetylene required for current work.

6. At the present time with Balkan Air Force pressing the Operational Air Force for an ever increasing number of serviceable operational aircraft, work has been brought to a standstill through lack of supplies of Oxygen & Acetylene, occasioned by the cumbersome machinery which has been put into operation for the control of these commodities, incidentally put into operation without consultation or prior warning to this Sub Commission which is vitally interested.

1. As you are aware for some time past we have been submitting requests for the above materials direct to the Supply Officer Engineer Service, P.B.S. , (Naples) who has always issued the necessary releases.

2. Now, however, Hq. P.B.S., G-4 Section inform us that it has recently been laid down that all requests for materials required for Italian Firms working for the Italian Armed Forces must be submitted by Hq ACC en bloc to the Local Resources Board. 3949

Questo Ministero è spiacente di dovere comunicare che non è possibile consentire la cessione di mt.35.000 di tela per tende da usarsi per confezionare materassi per profughi italiani.-

Le disponibilità di detto tessuto, infatti, sono oltremodo inadeguate rispetto al fabbisogno globale che diverrà, nella prossima stagione invernale, sempre più intenso e pressante dato l'accentuato logorio cui i teli da tenda saranno sottoposti.-

ALLIED GARRISON OF SARDINIA.

APO 534 C-5

400.22

18 July 1944.

SUBJECT: Explosives in Italian Depots In Sardinia.

To ; Commander in Chief, Allied Armies in Italy.

1. Reference is made to your letter, same subject, file 1041/36/Q1 dated 28 June 1944, and the enclosed letter to Headquarters AAI from Army Sub Commission, ACC.

2. It has been confirmed through investigation here, that the 130 tons of explosives as stated are located in the Italian Army Engineer Depots in Sardinia.

3. The requests from civilian contractors now in file in the office of the High Commissioner of Sardinia are :-

a. I.C.I.M. Alghero - 400 lbs for Alghero Airport.

b. Ferrari & Co., Sassari - 400 lbs for quarrying.

c. Angius, Sassari - 400 lbs. for military roads.

d. Rossi, Sassari - 1,000 lbs. for wood factory (?).

e. Cossa, Tonara - quantity unknown for wood (?).

f. Tassi, Sassari - 1,000 lbs, for roads.

Total of not over 2½ tons.

4. The Italian Military Engineers wish to hold 50 tons for future military engineering requirements. They concur in the view that the remaining quantity of Tritolo should be made available to civilian contractors. 5907

5. The engineers state that Tritolo does not deteriorate very quickly and in their opinion the stocks on hand will be good for two more years.

6. It is believed that there are no detonating caps or fuses available from Italian sources in Sardinia.

For the Commanding General.

2. It has been confirmed through investigation here, that the 130 tons of explosives as stated are located in the Italian Army Engineer Depots in Sardinia.

3. The requests from civilian contractors now in file in the office of the High Commissioner of Sardinia are :-

a. I.C.I.M. Alghero - 400 lbs for Alghero Airport.

b. Ferrari & Co., Sassari - 400 lbs for quarrying.

c. Angius, Sassari - 400 lbs. for military roads.

d. Rossi, Sassari - 1,000 lbs. for wood factory (?).

e. Gessa, Tonara - quantity unknown for wood (?).

f. Tasni, Sassari - 1,000 lbs, for roads.

Total of not over 2½ tons.

4. The Italian Military Engineers wish to hold 50 tons for future military engineering requirements. They concur in the view that the remaining quantity of Tritolo should be made available to civilian contractors. 5907

5. The engineers state that Tritolo does not deteriorate very quickly and in their opinion the stocks on hand will be good for two more years.

6. It is believed that there are no detonating caps or fuses available from Italian sources in Sardinia.

Subject: Request for allotment of oxygen containers.

With the aim of meeting the increased requirement of the MT Depots Annex of our MT units we would like to have a quantity of oxygen containers.

As it is impossible in any way to evade the request of the various units because of absolute unavailability by local production establishments, please approach the Allied supply organs concerned for the issue of at least 500 containers, to be assigned to our MT Repl. Depot.

In conformity with the instructions contained in your favour of the 12th inst., we have gone to the Spolettificio R.E. in Via Flaminia, in order to proceed to the inventory of our materials deposited there by the Germans.

General Aiello and Maj. Pelaia have communicated to us that they cannot allow us in the Spolettificio's warehouse without a written order of the Army Sub-Commission - ACC (Col. Pidzei or Maj. Dobbs). At all events, Maj. 1. Attached are two demands, forwarded in triplicate, for:
   a) Caustic Soda for Soap Manufacture.
   b) Nitrogen for work in Italian Artillery Workshops.

2. The quantities of Caustic Soda requested are the same as the quantity released to the Italian War Ministry, during April for the month of May. (AGF No.18 dated 11 April 44 refers)

3. The monthly requirements of Soap for the Italian Armed Forces are estimated at 160 tons per month. The Italian War Ministry has the other ingredients for soap manufacture, except Caustic Soda, at its disposal.

4. This Sub Commission would be grateful if you would amend, as necessary, the quantities of Caustic Soda requested, to meet a monthly requirement of 160 tons of soap.

The Italian Ministry of War have informed us that they have available approximately 130 tons of an explosive which they call Ditolo.

This is lying in one of their Depots in SARDINIA, and the Ministry request permission to sell 80 tons to civilian contractors. They state that the explosive deteriorates quickly.

In view of the large quantity involved, it is considered that the matter should be referred to you.

Will you please say if you are interested in this explosive and if so your early disposal instructions will be appreciated. Should you not require it please confirm that you have no objection to the Ministry of War selling to approved contractors.

1. Application has been made to I. & C. Sub Commission, A.C.C. for the release of certain materials in order to enlarge the factory of LANIFICIO LATTANZIO - GIOIA DEL COLLE. This textile factory produces materials for supplying the Italian Army with much needed clothing.

2. It has been suggested by the Director, I. & C. Sub Commission, that the request should be forwarded to you in view of the quasi-military nature of the scheme.

3. In order to carry out the proposed extensions the following materials are required - spread over the next 3 months.

		1st month	2nd month	3rd month
Cement	qli	2200	2200	2100
Reinforcing rods	qli	250	250	230
Beams	no	50	50	-
Planks	no	215	215	-

4. It is hoped that you may be able to release the a/q materials as the needs of the Italian Army is so critical that it is essential to take every possible step to increase the output of clothing.

5. On receipt of your confirmation, specifications of the reinforcing rods and timber required will be forwarded.

ANGLIA. (ASCOI). _____

Italian Ministry of War have asked XXXI Italian Corps to purchase 1,000 M.3. timber of various types and dimensions from merchants in CALABRIA.

1. The position here is that all available timber is required urgently for the 5th. and 8th. Armies, and the Allied Forestry State employees in CALABRIA have orders from D.D.F., A.M.I. that unauthorised demands must not be met.

2. This demand by Italian Ministry of War does not appear to comply with instructions laid down in your AQ/54 of 1 June 44 addressed to Ministry of War.

3. I have advised XXXI Italian Corps to inform their Ministry of War that this demand can not be met, and I shall be glad if you will take necessary action to ensure that the Ministry of War does not in future make XXXI Corps for materials which are not in a position to furnish.

Ref your 9343/M dated 23 May.

I. Controlled Material

(a) A list of Engineer materials now controlled by the Allies is forwarded at Appendix 'A'. 5782

(b) All other materials not on this list will be procured in the open market without reference to this HQ.

2. Procedure for making demands

(a) Bulk demands will be forwarded to this HQ showing separately for each material demand

(i) quantity and size required
(ii) purpose for which required in detail
(iii) location at which release is required
(iv) present location of material (if known)

(b) All demands will be forwarded to reach this HQ by the 15th of each month and will show the requirements for the following month.

3. In order to obtain the maximum amount of controlled material, you should make every effort to locate the source of supply of the material as in sub-para 2(a)(iv) above.

4. Will you please include in your demand all requirements for Engineer material from other departments of the Ministry of War.

AQ Ref attached which I have just seen. I think I was one sending in frequent demands for controlled stores. Send to this HQ

2. I suggest that the HQW be instructed either -

(a) To send all demands for controlled stores to the Regional Supply Officer as per 5(d)

or

(b) Send in bulk monthly demands to this HQ and we pass them on to the I/C Sub Area

3. I will be grateful if you will inform me of your decision.

ACC/5304/10

SUBJECT: Supply of Controlled Materials for Essential Needs.

TO : All concerned.

1. It is necessary that demands for "controlled" materials for essential civilian needs be properly routed so that bids can be presented to the appropriate Committees of the Allied Forces Local Resources (Italian) Board, AFLR(I)B, at their monthly meetings for the allocation of materials. In order to avoid delays in procurement and to ensure proper channeling of demands, the procedure enumerated hereafter will provide the quickest and surest means of obtaining favourable consideration of the Board.

2. Controlled Materials.

a. A list of the materials now under the control of the various committees of the Allied Forces Local Resources (Italian) Board, is attached (Appendix A) and the Board's approval must be obtained before any such material can be used.

b. Materials not on this list, can be procured by civilians from any available sources without reference to the Board or this HQ.

3. Timber.

a. Timber is only controlled in the areas allocated to P.B.S. and Directorate of Works. This area covers the forest region of Cosenza, Cerdigliatello and Ten Cloverard in Fiore district of Calabria and the Gargano Promontory, Foggia.

b. Timber in all other areas is not "controlled", with the exception of "Bulk" Timber", i.e. Over 6" x 6", which is controlled by HQ ACC, Public Works and Utilities Sub-Commission and should, therefore, be applied for as for any other controlled material.

4. Initiation of Demands.

a. Civilian requirements should be presented to the local Provincial

civilian needs be properly routed so that bids can be presented to the appropriate Committees of the Allied Forces Local Resources (Italian) Board, AFLR(I)B, at their monthly meetings for the allocation of materials. In order to avoid delays in procurement and to ensure proper channeling of demands, the procedure enumerated hereafter will provide the quickest and surest means of obtaining favourable consideration of the Board.

2. Controlled Materials.

a. A list of the materials now under the control of the various committees of the Allied Forces Local Resources (Italian) Board, is attached (Appendix A) and the Board's approval must be obtained before any such material can be used.

b. Materials not on this list, can be procured by civilians from any available sources without reference to the Board or this HQ.

3. Timber.

a. Timber is only controlled in the areas allocated to P.B.H. and Directorate of Works. This area covers the forest region of Casenza, Cardigliatello and Mon Giovanni in Pisoro district of Calabria and the Gargano Promontory, Foggia.

b. Timber in all other areas is not "controlled", with the exception of "Bulk Timber", i.e. over 6" x 6", which is controlled by HQ ACC, Public Works and Utilities Sub-Commission and should, therefore, be applied for as for any other controlled material.

4. Initiation of Demands.

a. Civilian requirements should be presented to the local Provincial Supply Officer who will, after careful screening, fill out form ACC-AOT. No. 10 in triplicate for each commodity demanded, making certain that: 5165

(1) No more material is requested than necessary for the approved purpose.

(2) Full details of quantities, types, dimensions and other descriptive data of the material are given, in order that allocation from known stocks can be made. For example, wire or sheets should give type of metal, gauge or thickness, length or sizes, quantity, tonnage, etc.

(3) Complete justification is given and the back of the form used for this purpose.

(4) If known, the nearest source of supply is indicated.

c. Where the need may cover a period of several months, the successive months' requirements should be filled in under para. 4 of the form. However,

Declassified E.O. 12356 Section 3.3/NND No. 785020

Declassified E.O. 12356 Section 3.3/NND No. 785020

new demands must be submitted each month. Where a demand has been denied or only partially granted by AFHQ (I) B for reasons of temporary shortage of materials, this office will resupply the following month.

4. Where application has been denied due to non- availability or for other reasons, demands will be returned through channels, with comments and recommendations.

5. Forms ACC-MAT No. 10 are available at Industry & Commerce Sub-Commission, HQ-ACC and will be sent on request.

5. Channel of Demand.

a. Provincial Supply Officers will forward demands to the Regional Supply Officer who, after scrutiny, will transmit demands to Industry & Commerce Sub-Commission, HQ-ACC, for collation and presentation to the appropriate committee of AFHQ (I) B at its next meeting.

b. Civilians will not be sent personally nor will their letters be sent directly to HQ-ACC; to the Work Control Office; or to the Local Resources Section, HQ-AAI.

c. Where a civilian is doing work for a Military Unit, he may request the Military Unit to obtain the required materials from stocks already allocated to the branch concerned, such as S.B.S., D.A.D.O.S., R.N., etc. Procurement will thus be expedited.

d. Demands for material for use by the Italian Army should be sent by Regional Supply Officers, to the Army Sub-Commission, Lequile (Lecce) for approval or comment; for the Italian Air Force, to the Air Force Sub-Commission; and for the Italian Naval Forces, to the Naval Sub-Commission. These Sub-Commissions will forward the demands to Industry & Commerce Sub-Commission.

e. Demands for controlled materials must be in the hands of Industry & Commerce Sub-Commission by the 25th of each month.

f. Only exceptional emergency demands will be accepted by Industry & Commerce Sub-Commission for special consideration and reference to Local Resources Section, HQ-AAI, between regular meetings.

6. Demands by Sub-Commissions or other Agencies.

a. Sub-Commissions or other Agencies needing controlled materials for purposes outside the sphere of Provinces or Regions will submit their demands on Form ACC-MAT No. 10 in triplicate directly to Industry & Commerce Sub-Commission, in accordance with the procedure outlined above.

7. Demands for Uncontrolled Materials.

a. Where no sources can be located within the Region, requests for uncontrolled materials may be made directly upon other Regions where the material

Sub-Commission, HQ-ACC, for collation and presentation to the appropriate committee of AFLE (I) B at its next meeting.

b. Civilians will not be sent personally nor will their letters be sent directly to HQ-ACC; to the Navy Control Officer; or to the Local Resources Section, HQ-AAI.

c. Where a civilian is doing work for a Military Unit, he may request the Military Unit to obtain the required materials from stocks already allocated to the branch concerned, such as P.B.S., D.A.D.O.S., R.N., etc. Procurement will thus be expedited.

d. Demands for material for use by the Italian Army should be sent by Regional Supply Officers, to the Army Sub-Commission, Loquile (Lecce) for approval or comment; for the Italian Air Force, to the Air Force Sub-Commission; and for the Italian Naval Forces, to the Naval Sub-Commission. These Sub-Commissions will forward the demands to Industry & Commerce Sub-Commission.

e. Demands for controlled materials must be in the hands of Industry & Commerce Sub-Commission by the 25th of each month.

f. Only exceptional emergency demands will be accepted by Industry & Commerce Sub-Commission for special consideration and reference to Local Resources Section, HQ-AAI, between regular meetings.

6. Demands by Sub-Commissions or other Agencies.

a. Sub-Commissions or other Agencies needing controlled materials for purposes outside the sphere of Provinces or Regions will submit their demands on Form ACC-MAT No. 10 in triplicate directly to Industry & Commerce Sub-Commission, in accordance with the procedure outlined above.

7. Demands for Uncontrolled Materials.

a. Where no sources can be located within the Region, requests for uncontrolled materials may be made directly upon other Regions where the material may be available.

b. Where it is known that wanted materials are not available in Italy, proper requisitions for import should be initiated.

c. If uncontrolled materials are unobtainable because the local sources have been blocked by Military, Form ACC-MAT No. 10 should be forwarded through channels to the Industry & Commerce Sub-Commission, giving the details of requirements and justification, the quantity available at the blocked source, location of source and name of Unit concerned. Efforts will be then made to obtain release

Declassified E.O. 12356 Section 3.3/NND No. 785020

of the desired materials.

8. Relations.

a. Upon acceptance of the Demand, Local Resources Section, HQ-AAI, issue release orders to Industry & Commerce Sub-Commission giving authority for procurement, sources, etc., notifying these sources at the same time that the material is available to the applicant. A time limit is usually set within which collection must be made or the release order becomes void.

b. These Release Orders, (Form ACC-MAT No. 11) are then forwarded by us to the initiating Region, Sub-Commission or Agency, together with a copy of the original demand attached, or extracted therefrom.
