Date. 29 Dec 44

Request for Acetylene

AQ/54

192

Ref to letter AQ/54 Dated 19th inst 6219
This Ministry points out that all the requests
for assignment of Acetylene and Oxigene,
material which is under the control of the allies,
made to the competent units accordingly with the
instructions issued by MMIA, have not yet been
fulfilled.

On other hand the continual requests
for these gases cannot be satisfied by any other
means, because of non availability in distribution
depots. This because lack of replenishment from
the production plants.

Therefore at the end of August 44 with letter
15320/E and also in further letters we point out
the necessity of assignment of a reasonable
quantity of said material to face the increasing
demands for repairs of vehicles, and since no
assignment have been made, we renew our
request to MMIA to contact the competent units
of the allied forces to obtain the assignment of the
minimum of Acetylene and Oxigene bottles required

ALLA SOTTOCOMMISSIONE PER L'ESERCITO DELLA
COMMISSIONE ALLEATA. ~~MANCANTO~~

= R O M A =

O G G E T T O: Richieste di acetilene.-

6218

Con riferimento al foglio AQ/54 del 19 dicembre, questo Ministero fa rilevare che, tutte le richieste di assegnazione di acetilene ed ossigeno, materiali sottoposti a controllo da parte alleata, inoltrate agli organi competenti in ottemperanza alla procedura prescritta da codesta Sottocommissione, sono rimaste inevase.

D'altra parte le continue richieste di detto materiale non possono essere soddisfatte altrimenti, sia per l'assoluta indisponibilità presso i magazzini distributori, sia per la mancata fornitura da parte degli stabilimenti di produzione.

Pertanto fin dall'agosto scorso con foglio 15820/2 e successivi, si rappresentava la necessità di assegnare un congruo quantitativo di detto materiale per far fronte alle aumentate esigenze di riparazione degli autoveicoli.- E poichè nessuna cessione è stata fatta ai dipendenti reperti, si rinnova la preghiera d'interessare i competenti organi alleati per l'assegnazione di un minimo di bombole di acetilene ed ossigeno indispensabili al fabbisogno occorrente per le impellenti necessità del momento.-

Translation:
 From Min. of War
 To MMBA
 Subject Raw materials for the repairing
 of clothing and boots.

The Commissariat Directorate of the
 CALABRIA Mil. Hq. has sent a request for
 the following raw materials which are
 required by the CATANZARO Regiment
 Carabinieri Legion for the repairing
 of clothing and boots of military (324) located
 at their dependent stations (324) located
 in the provinces of CALABRIA and

LUCANIA:

900,00	kilos	leather
30,00	kilos	shoemaker's thread
20,00	kilos	tacks
20,00	kilos	grey-green sewing thread
50,00	kilos	black sewing thread
10,00	kilos	white sewing thread

The g/m Hq has reported that,
 owing to the considerable distance which
 separates it from the stations, it cannot
 procure in the dependent

Canadian Legion for the repairing of clothing and boots of military on duty at their dependent station. (327) located in the provinces of CALABRIA and

LUCANIA:

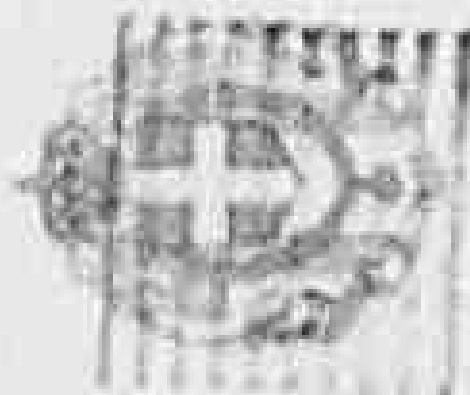

200,00	hulas	leather
20,00	hulas	shoemaker's thread
20,00	hulas	Tacks
20,00	hulas	grey-green sewing thread
50,00	hulas	black sewing thread
10,00	hulas	white sewing thread

The g/m has reported that, owing to the considerable distance which separates it from the station, it cannot centralize its repairs in the dependent warehouse, and as the other hand, as it does not have the articles of clothing in which to substitute those which are to be repaired, it must have the repairs carried out at each station by means of private enterprise. We beg the MIA to let us know if in its limits of availability, this Ministry may address to

its report, bearing in mind
that on the basis of the agreement
made on October 2, and under the
stent of the projected measure
for the substitution of worn out boats
with repaired boats, it is this Ministry
which must assign the new
materials as requested above.

DIREZIONE GENERALE
DEI SERVIZI DI COMMISSARIATO MILITARE

DIV. V.E.

Prot.n. 24722/V

OGGETTO: Materie prime per riparazione vestiario e calzature. -

6210

Dalla Direzione di Com/to del Comando Militare della Calabria è pervenuta la richiesta delle sottoelencate materie prime occorrenti alla Legione Terr/le del CC.RR. di Catanzaro per la riparazione degli oggetti di vestiario e calzature del militare in servizio presso le dipendenti Stazioni (n. 327), dislocate nelle provincie della Calabria e della Lucania:

Kg.	900,00	cuoio
"	20,00	spago per calcolato
"	20,00	sempre
"	20,00	filati cucitini g.v.
"	50,00	" neri
"	10,00	" bianchi

Il suddetto Comando ha fatto presente che, data la notevole distanza che lo separa dalle stazioni, non può accentrare le riparazioni nei dipendente magazzino, e non disponendo, d'altra parte, di oggetti per la sostituzione di quelli da riparare, deve far eseguire le riparazioni direttamente dalle singole stazioni a mezzo di assuntori

Dalla Direzione di Com. del Comando Militare della Calabria è pervenuta la richiesta delle sottostate materie prime occorrenti alla Legione Terr./le del CC.RR. di Catanzaro per la riparazione degli oggetti di vestiario e calzature del militare in servizio presso le dipendenti Stazioni (n. 327), dislocate nelle provincie della Calabria e della Lucania:

Kg.	900,00	cuoio
"	20,00	spago per calcolato
"	20,00	sempre
"	20,00	filati cucitini g.v.
"	5 0,00	" " neri
"	10,00	" " bianchi

Il suddetto Comando ha fatto presente che, data la notevole distanza che lo separa dalle stazioni, non può concentrare le riparazioni nel dipendente magazzino, e non disponendo, d'altra parte, di oggetti per la sostituzione di quelli da riparare, deve far eseguire le riparazioni direttamente dalle singole stazioni a mezzo di assuntori privati.

Si prega cos'è M.M.I.A. di far conoscere se, nei limiti della disponibilità, questo Ministero può aderire alla richiesta, facendo presente che in base ai noti accordi del 2 ottobre, e fino a quando non si darà inizio al progettato provvedimento di effettuare anche per i CC.RR. la sostituzione della calzature logore con quelle rittate, è questo stesso Ministero che deve provvedere all'assegnazione delle materie prime come sopra richieste.

SUBJECT: Nails for Shoe Repair.

LAND FORCES SUB COMMISSION
ALCON (M. M. I. A.)
R O M E
AQ/54
22 December 1944.

TO : MMIA LO Naples
(Attn: Capt. Charles Bennatti.)

1. Reference letter Espettorato Uff/Stamento Recup-
eri Calzatura Napoli No. 435 dated 10 December 1944. — 181

2. The above reference letter, written by Major
Parone, advises us that the Release Order for nails to
be withdrawn for the month of December is a duplicate of
a similar release for nails to be withdrawn for the month
of October. We do not agree with Major Parone in this
assumption. It may appear to be a duplicate because the
quantities requested for October are identical with the
quantities requested for December, but the December Order
is in no way a duplicate of the release granted for the
month of October.

3. In view of the acute shortage of nails for shoe
repair, we do not want to fall down on the collection
of any allotments, even though the manufacturer may
attempt to refuse delivery on the grounds that the quan-
tity which he delivered against the October allotment
also fills the December release, because the quantities
are the same. In other words, it is up to the manufac-
turer to fill both releases in full, and pressure should
be brought against him to accomplish that result.

4. Please take the matter up with Major Parone, and
make certain that a firm demand is made against the man-
ufacturer for all nails. In the event, he refuses del-
ivery, advise this office at once and we will in turn
press the case with the A.C. Commerce Sub Commission.

Ref. LA/Q4.

12 December 44.

To:- HQ., I District.

1. Reference ID/2701/Q of 16 November which states that if dubbin, grindery and cobblers tools cannot be supplied from Italian sources, British Ordnance will give such aid as stocks permit. Reference also M.E.I.A. letter AG/15 of 5 December which states that repairing materials are not available from Italian Army stocks for issue to BRI-ITIs.

2. The following request is submitted for BRI-ITIs in I District, their strength being approximately 10,000 men.

Leather 1500 Lbs.
Wax 4 Lbs.
Shoemakers thread 10 Lbs.

6180

3. It is pointed out that BRI-ITIs are originally issued only with repaired boots and the wastage rate is very high. Given the above material, they would be able to confront the serious boot problem which is continually prejudicing the efficiency of Italian Units. Cobblers already exist among the units and such tools as they need can be obtained from local resources. They need the above material to start a repair system.

W.H. Bourne
Capt.
MMIA., IO., I District.

Release order. N° 1707 dated 6 Dec. 44 for
 Mail for Boot repairs.

The Tirm. SA. FERRIERE GIOVANNI GEROSA has already
 issued as result of release orders issued directly by A.C.
 1400 kgs of small nails (needed for October) and 1400 kgs (needed for
 November. and have received the release order for the needs
 for the month of December.

We point out that the refused to release order is only
 a Duplicate.

1500 kgs of nails for heads 1" or the A.C. release order
 cannot be issued as they are not available at the A.C. first 18
 Post VANCE. A.C. stated that he was unable to
 provide such type of nails.

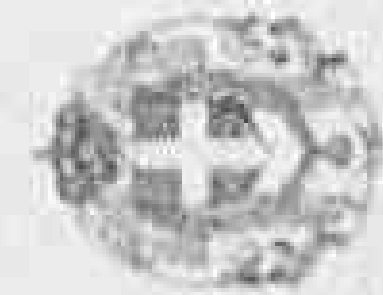

We therefore return the release order. refused to (2 copies)

Escort for transport of material.
We have recently been notified of thefts of material (i.e. a. Due to the facts that the soldier who was escorting the railway carriage absconded himself amongst the stolen material no allied material was included as these authorities demand for each movement of material by rail, sea or road an adequate escort.

The addressees are therefore begged to issue orders to all units under their command to ensure an adequate escort to all transport and especially when material of a certain value is being dealt with in all cases the escort should include a minimum of 1 O.C.O. and 1 or more soldiers. The honesty of the escort should be checked in all cases.

Please acknowledge.

PELLIGRA.

Si è recentemente verificata la sottrazione da un vagone ferroviario di numerosi materiali v.e., in conseguenza dell'abbandono del carico da parte dell'unico militare incaricato di scortare il trasporto. Tra gli oggetti sottratti ne figurano alcuni di provenienza alleata, le cui Autorità desiderano che qualunque movimento di materiali, sia che si effettui per ferrovia, per mare o per via ordinaria, deve avere sicura protezione da parte di un'adeguata scorta.

I Comandi in indirizzo sono pertanto pregati di impartire agli enti della propria circoscrizione precise norme, intese a destinare ai trasporti scorte qualitativamente e quantitativamente idonee al servizio, curando che, specialmente materiali di una certa entità e destinati a lunghi percorsi, siano affidati a graduati responsabili accompagnati da uno o più soldati, dei quali sia in ogni caso accertata la piena idoneità morale.

Questo Ministero gradirà avere assicurazione al riguardo.

SUBJECT: S.M.I. and others.

TO : Commerce Sub-Commission, HQ AC.

1. Industry Sub-Commission's letter AC/5680/IND dated 21st. November 1944 refers, copy attached.

2. We are glad to have this letter for it opens up the whole question of which plants for try and rehabilitate and reactivate. 6167

3. Electricity, transport, raw materials and fuel being in such short supply it has been our policy to concentrate on those firms which could supply the needs of the Armies and who had definite orders from Army sources. An exception to that was of course the firm of de Micheli who had a definite order for 10,000 barrels of 44 gallon capacity from A.C. for the purpose of amassing olive oil.

4. There are quite a number of firms, some small, some large, which can produce a variety of articles just as S.M.I. can but cannot produce any orders to justify our giving them our support. To make for stock would be a terrible waste of primary materials just now and then again unless firms sell their output they cannot continue to pay wages indefinitely.

5. Will you kindly look into this question of ordering:-

(a) Can we have a recognised channel of enquiry from A.C. for essential civilian articles to be made, giving specifications and approximate prices.

(b) After submission of samples and/or quotations will official orders be placed by A.C. or individuals?

SUBJECT : Raw Rubber.

TO : H.Q., A.C., Land Forces Sub-Commission,
(M.M.I.A.).

COPY TO : L.R.S., HQ AAL.

1. D.W. is in urgent need of raw rubber, either real or artificial (Buna) and 5 tons Resin for emulsifying Bitumen, and information was forwarded to this Section from A.C. Commerce Sub-Commission, their letter reference AC/5000/2/Commerce dated 22 Nov 44. that these items were available at R. Spolettificio, Via Flaminia, Rome.

2. When D.W. went to collect, the rubber had all been removed from this firm by the Italian Army to Ottavo Autocentro which is a Transport Barracks in Via Flaminia..

3. Can speedy action be taken to release to D.W. the undermentioned rubber, which is urgently and operationally required:-

Details of rubber found at Transport Barracks are:-

(a) Sheets of Para Latex (in about 30 No. bundles, each bundle approx. 2 cubic feet).
In books as 3,738 Kilos.

(b) Regenerated old tyre rubber, in stocks 4" diameter, approx. 2' 3" long.
In books as 8,115 Kilos.

AG/54 170/1

From: Maj W

Ref: 2383/D-1579

To: Maj. Comm. Labor Min.

Date: 2 Dec. 1944

(To 41/A for info.)

S. 57 10/12 R

Subject: Allotment of raw materials for the manufacture of soap and toilet-soap cakes for units of Italian Army.

(Further to Comm. 1946/D of Nov. 30.)

Further to letter 1677/D of the 18 Nov. by which this Ministry asked your Ministry the allotment of 13,860 quintals of sulfuretted oil and 1390 quintals of caustic soda for the manufacture of 21,000 quintals of soap with a percentage of 60-62% of acid fats, to cover the needs of all units of the Army for 1/2 year, we inform:

In view of the difficulties of obtaining tallow ~~known~~ in local purchase and its very high cost this Ministry has decided to substitute this component, in the manufacture of the soap-cakes, with a greater percentage of fatty materials.

Therefore the quantity of raw materials requested with letter 1677/D must be increased to 14,280 quintals of sulfuretted oil and 1460 quintals of caustic soda.

(over)

The allotment of the raw materials (which may be divided into three equal lots, the first of which must be allotted and consigned at once, the second at the end of January 1945 and the third at the end of March 1945) must be thus distributed:

Firm	Pulp oil	Caustic soda
MILIT + N2A, Rome	5,700 quint.	990 quint.
ZORZI ENLIO, "	1,980 "	270 "
FASORINENGO, Bari	2,040 "	300 "
MAEDU + Son, Cagliari	1,320 "	180 "

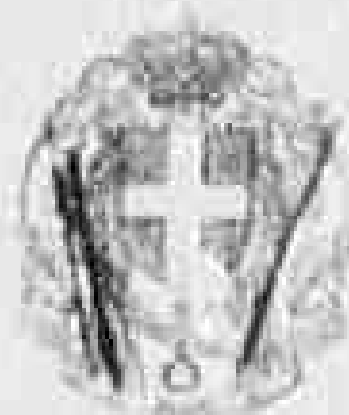

We shall communicate later the name or names of the firm or firms in SICILY to which the remaining 2,040 quint. of pulp oil and 300 quint. of caustic soda must be assigned.

We ask your Ministry to direct at once the allotment of the first lot of above raw materials, since, as we have already informed the war must be issued to the troops by the 1 January 1945.

 Risposta al f. del
 Dir. Sez. N.

Roma,

2 DIC 1944

MINISTERO INDUSTRIA COMMERCIO
E LAVOROROMA

Assegnazione materie
 prime per la fabbricazione
 del sapone e delle saponette
 per gli enti del R. Esercito.

e, per conoscenza:

ALLA LAND FORGES SUB-COMMISSION
 A.C. (MMA)

ROMA

(prosec. disp. 1946/D del 30/11)

A seguito della nota n. 1677/D del 18/11 c.a. con la quale questo Ministero chiedeva a codesto l'assegnazione di Q.li 13.860 di olio al zolfo e di Q.li 1890 di soda caustica per la fabbricazione di Q.li 21.000 di sapone, con percentuale del 60/62% di acidi grassi, quale fabbisogno per tutti gli enti del R. Esercito per un semestre, si comunica quanto appresso:

Date le difficoltà di approvvigionamento dal libero commercio del talco ed il suo elevatissimo costo, questo Ministero è venuto nella determinazione di sostituire detto elemento, nella fabbricazione delle saponette, con una maggiore percentuale di materie grasse.

Pertanto il quantitativo di materie prime richiesto con la nota 1677/D deve essere elevato a Q.li 14.280 per l'olio al zolfo, ed a Q.li 2160 per la soda caustica.

L'assegnazione delle dette materie prime (che potrà essere diviso in tre lotti uguali, di cui

o/o

785020

il primo dovrà essere assegnato e consegnato subito,
il secondo alla fine di gennaio 1945 ed il terzo
alla fine di marzo 1945) dovrà essere così ripartito:

DITTA	Olio al solf.	Soda ca
- MIRA LANZA- Roma	Q.11 5.700	Q.11 990
- ZORZI EMILIO - Roma	" 1.980	" 270
- RISORGIMENTO-Bari	" 2.640	" 360
- MASEDU & FIGLIO-Cagliari	" 1.320	" 180

Si fa riserva di comunicare il nominativo della
ditta o delle ditte della Sicilia cui dovranno essere
assegnati i residuali quintali 2.640 di olio al sol
furo e Q.11 360 di soda caustica.

Si prega codesto Ministero di ~~subito~~ disporre
subito per l'assegnazione del primo lotto di dette
materie prime, dato che, come già comunicato, il
sapone dovrà essere distribuito alla truppa per il
primo gennaio 1945.

SUBJECT: Aluminum Scrap.

LAND FORCES SUB COMMISSION
ALCOM (M. M. I. A.)
R O M S
AG/54
26 November 1944.

TO : Ministry of War.

1. Reference your 23071/V dated 23 November 1944.
2. This Headquarters has no objection to the movement of aluminum scrap now on hand at Bari to Naples as requested in the above reference letter.

3. It is understood however, that a considerable quantity of aluminum scrap is available throughout liberated Italy, and that its sale and distribution is not controlled by either Allied Commission or the Italian Government. In view of the above, the authorization to move aluminum scrap from Bari to Naples should be exercised only if the Direzione di Comm/to del Comando Militare della Campania is unable to obtain his requirements from salvage already located in Campania. If the scrap can be collected locally in the vicinity of Naples, the use of available transport facilities to move it from Bari would not only be a waste but contrary to the best for the war effort.

Subject: Aluminium Salvage

Direc de Comptes Campagna has asked ~~Director~~ for about 100 qts (10 tons) of aluminium salvage, available at the Direc de Comptes, Pougha & Lucania, required for the fabrication of bottoms and bows.

May please M J W. authorize the above issue? It is mentioned that, owing to the difficulties in obtaining the aluminium, it is considered necessary to accept the request of Direc de Comptes ~~Director~~ and put to a good use aluminium salvage which is ~~being~~ not requested for any use in Beni.

Ref. No 8878/03

P.M. 126, 11 November, 1944.

Subject: Glass substitute.To : L.O., Land Forces Sub Commission A.C. (M.M.I.A.),
c/o A.C. Sicily Region V.C., A.F.O. 394.

Our Engineers H.Q., because of the difficulty of finding on the market the glass needed for the various Military Buildings and especially for the Hospitals and Restricted P.W. Transit Camps now being formed, has asked the War Ministry to supply this material directly, substituting the glass, if necessary, with glass substitute, made up of a mica-dipped wire net, as widely used by the Allied Troops.

The War Ministry, Engineer G.H.Q., has now informed us that, owing to the fact that no glass substitute could be found on the market, a request has been made to the Allies for an allotment of a sufficient quantity of the said material.

Because of the climatic conditions it would be appreciated if the Allies could arrange for this allotment to take place soon.

We ask you to kindly inform the Higher Allied Authorities of this, and we point out that this H.Q. needs 6000 Square meters of glass substitute.

Thanking you.

by order,

Caustic soda abandoned by the Germans

During the Period immediately preceding the fall of ARS 220 the German Depot units reported and abandoned in the CARACCIO station about 40 tons of caustic soda destined for the Italian Depots of the south.

The AM material was then transferred to the storing plant of CORTORS and although the said material was taken by an Italian officer of the "T" Detachment of SARE, has been placed at the disposal of private firms.

Now this Ministry has been informed that the barrels of soda are yet in the Commercial Depot. This we communicate to this MRS because the AM material is essential to the military administration (facts well known by the Ministry owing to the application in providing soap to the troops) be placed at the disposal of the Italian army giving to the Allied authorities of ARS 220

station about 40 tons of caustic soda
destined for the Italian depots of the south

The Am material was then transferred
to the storing plant of CORTINA and although
the said material was frozen by an
Italian officer of the "T" delegations of SUSE, has
been placed at the disposal of private persons.

Now this chemistry has been informed that
the barrels of soda are yet in the Communal depot.
This was communicated to this MSS because
the Am material is essential to the military
administration (facts well known by the various
arms to the diffidence in providing cover to the
troops) be placed at the disposal of the Italian
army giving to the Allied authorities of ARFELC
the facts about the case, because they have not
seen to its withdrawal.

Subject: Caustic soda abandoned by the Germans.

Just before the liberation of Arezzo German units abandoned at the Casuccia station 400 quintals of caustic soda which they had taken from Italian depots in the South of Italy.

This material was later transferred to the Town Hall and appropriated by the Mayor of Cortona in spite of the fact that it had been blocked or frozen by the Italian officer of the "T" Delegation of the SMRS and later placed on sale by auction.

This Ministry has now learned that the barrels of soda are still stored in the Town hall buildings.

WVIA is therefore requested to issue the necessary instructions to the Allied Authorities on the spot in order that this material may be recovered, its sale prohibited and that it be placed at the disposal of the Italian Military Administration, bearing in mind the difficulties encountered in finding this material which is so necessary for the manufacture of soap for the troops.

Request for deepening of soling alloy

In the supply report of the State Railway Agency of the State Railway. U.S. BAVSAR 24. WAPES There is 540 kgs of soling alloy (50% SA) belonging to the metal work form of COPVA (I.L.M.) to which it was assigned for fabrication of 11,000 ammoo boxes U.S. 35.

since, following the news of sept 28, the fabrication of said boxes was suspended this 6128 manifesting has come to the attention to exchange the 540 kgs of soling alloy.

The maintenance agency has however informed that they cannot receive such material because it is now at the disposal of the Allied Forces Command.

As we are dealing with a material very scarce and difficult to find, and also indispensable for the work of the city factories we beg you to, if they have no objections otherwise the command, the command, the command.

away of the State Railway - 117. BDU SAN 24 - NAFAS.
There is 540 lbs of ordinary alloy (50% Sn) belonging
to the metal work firm of CNDPA (I.L.M.) to which
it was assigned for fabrication of 20,000 armor
braces 44.35.

since, following the news of Sept. 45, the
fabrication of said braces was suspended the DIB
ministry has come to the decision to reduce
the 540 lbs of ordinary alloy.

The maritime agency has likewise informed
that they cannot receive such material because it is
now at the disposal of the Allied Forces Command

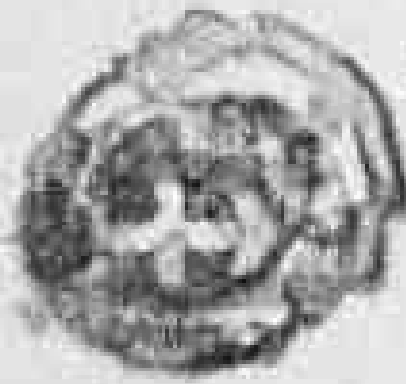

As we are dealing with a material very
scarce and difficult to find, and also indispensable
for the work of the city electronics we beg
you to, if they have no objections otherwise
the suspending of the 540 lbs of ordinary alloy
in favour of the NAFAS arsenal for use
for work for the allied forces and to other
ministries of the city reactors

ALIBERTY.

OGGETTO Richiesta sblocco lega saldante.-

Presso il magazzino approvvigionamenti delle FF.SS. di Napoli Poggioreale, dipendente dall'Agenzia Marittima FF.SS.- Via Bausan 24 - Napoli - trovansi accantonati Kg. 540 di lega saldante al 50% di Sn, di proprietà della Ditta Industria Lavorazione Metalli (I.L.M.) di Capua, che li ha avuti assegnati per l'espletamento di una fornitura all'Amm.ne Militare di 31.000 controcasce per cancelli mod.35.-

Poichè, in seguito agli eventi del settembre 1943, l'allevamento delle anzidette controcasce è stato sospeso, questo Ministero è venuto nella determinazione di recuperare i 540 Kg. di lega saldante.-

L'Agenzia Marittima di Napoli ha però fatto noto di non poter consegnare il materiale in questione perchè esso trovasi a disposizione del Comando delle Forze Armate Alleate.

Tuttandosi di materiale di difficile approvvigionamento ed indispensabile al funzionamento degli stabilimenti d'artiglieria, si prega codesta M.M.I.A. compiacersi, qualora nulla osti, voler concedere lo sblocco dei 540 Kg. di lega saldante a favore dell'Arsenale R.S. di Napoli che l'impiegherà per il proprio fabbisogno per quello degli altri stabilimenti e direzioni d'arti-

SUBJECT : Control of Printing Paper and Newsprint

TO : All Concerned

II II

1. Reference circular letter of this Sub-Commission, ACC/5100/Commerce of 25 October 1944 entitled "Freezing and Relicensing of Controlled Materials, Availability Reports".

2. Printing paper and newsprint were included in the list of materials formerly controlled by AFMS and by the terms of the a/m. directive, turned over to the control of the Italian Government in liberated Italy.

3. Newsprint and printing paper were and remain under the control of the Allied Publications Board (APB). At present negotiations are pending between APB and the Italian authorities with a view to handing over the control of these materials in liberated Italy to a competent Italian Agency. A decision in this matter is expected in the near future.

4. However, until the time arrives when the new system is put into operation, the freezing and releasing of printing paper and newsprint remain as heretofore within the jurisdiction of APB, and these materials are not subject in any way to the terms of the a/m. directive.

Ref 1st 303789/109.
Date 2 Nov 44
Refer to letter AP/54 of the 5 Sept - 80. Int. J. 11/11/44

The society which dealt with the study of salvage of brass for the production of Copper sulfate sent their final report to A.C.
The A.C. society must without fail start the necessary work to obtain the 6112 Copper sulfate needed for the destruction of insects.

We therefore by M. S. S. to inform us of the salvaged brass referred to us at the disposal of this ministry for assignment to Commercial and Technical Industry.

ROMA

Riferimento lettera AQ/54 del 5 settembre u.s.

La società interessata agli studi per ricavare il solfato di rame dai rottami di ottone, ha trasmesso le sue conclusioni alla Commissione alleata.

La società stessa dovrebbe ora iniziare senz'altro la lavorazione per poter avere il solfato di rame disponibile per la prossima campagna antierittogamica.

Prego pertanto codesta Missione di compiacersi segnalare se i rottami di ottone di cui trattasi possono ora considerarsi a disposizione di questo Ministero per la cessione a quello dell'Industria, Commercio e Lavoro.

SUBJECT: Leather

TO : Ministry of Industry, Commerce and Labour.

1. Reference is made to the meeting which took place at the Ministry of Industry, Commerce and Labour on 27 October 1944 between Prof. Gerbella and his advisers and Lt. Col. Shipley and Meiter and Maj. Green.

2. Enclosed is copy of letter signed Pelligra which was discussed at this meeting.

3. It is not intended to recapitulate the many points brought up during the discussion, but only to clarify the final agreement that:

In order to fulfill the shoe-repairing programme of the Italian Army, as presented by Lt. Col. Shipley of Army Sub-Commission, forty-six tons of sole leather per month for three months are needed. This requirement must be filled in accordance with priorities already established by higher authority; before allocations can be made to civilian needs. It was further agreed that your Ministry will submit to this Sub-Commission estimated production of sole and upper leather for November, December and January, with reasonable accuracy, together with a prediction as to the production for the months of February, March and April, making a six months forecast. Similarly a forecast of civilian requirements for this same leather, for the months November to April, are to be submitted.

4. The remarks of Prof. Gerbella on the subject of leather for civilian workers, especially of those essential industries such as Dock Labourers, Road and Railway workers, etc. so closely linked with the Allied and Italian Military effort, were very carefully noted by the representatives of Commerce Sub-Commission. It is recommended that facts, figures and the fullest justifi-

6108

OGGETTO: assegnazione cuoiarmi

e, per conoscenza

ALLA DIREZIONE DI COMMISSARIATO DEL COMANDO
MILITARE CAMPANIA (Per il Maggiore Parone)

P. M. 120

Il Maggiore Parone informa che il Commissario speciale per le pelli, prof. Simoncini, ha consegnato finora, a fronte dell'assegnazione Agosto (Kg. 45896 di cuoia e pq. 15000 di tomaia), ordini di sbocco per soli Kg. 18.800 di cuoia ~~6.180~~ 15.000 di tomaia.

Si ha così una differenza in meno di:

<u>Cuoia</u>	Kg. 27096	oltre l'intera assegnazione per settembre
<u>Tomaia</u>	pq. 12122	" " " " " "

Il predetto Commissario ha inoltre fatto presente di non potere per ora fare altre assegnazioni dovendo soddisfare altre richieste di cuoio e tomaia.

Così stando le cose si prega codesta Direzione, ed ove lo creda opportuno, di chiarire la questione in modo che possano effettuarsi regolari ritiri del cuoio necessario al proseguimento delle lavorazioni in corso.

Capitano Benatti informato.

Date: 22 Oct. '44

Subject: 100 pounds of leather at SIENA.

Referring to letter 139, 25 September '44. of the Detached Recovery Office, Clothing + Equipments, NAPDES (copy attached) we inform that the owner of the leather referred to in the letter has refused to hand over the material, claiming: 1) authorization is needed from the Allied Military Command, as the city is now under control of this command.

2) his own wish to have the work done in his place in order to keep his workers busy.

The officer in charge of the withdrawal of the leather, 2nd Lt. G.M. GALASSO Giovanni, contacted the Allied Command of SIENA, which informed that it is still studying the question and that it would make a decision about the 20 inst., adding that it means to make a decision.

Subject: 100 quintals of leather at SIENA.

Referring to letter 139, 25 September 1944. of 6091

the Detached Recovery Office, Clothing & Equipment, NAPLES (copy attached) we inform that the owner of the leather referred to in the letter has refused to hand over the material, claiming:

1) authorization is needed from the Allied Military Command, as the city is now under control of this Command.

2) his own wish to have the work done in his place in order to keep his workers busy.

The officer in charge of the withdrawal of the leather, 2nd Lt. G.M. GALASSO, has contacted the Allied Command of SIENA, which informed that it is still studying the question and that it would make a decision about

the 20 inst., adding that it was probable that a certain amount (50%?) would be reserved for the local civil needs (over)

Leather from NAPLES

We have made known the above facts so that MMIA, if it be deemed possible and opportune, may intervene with the Allied Command at SLENA in order to learn the amount of losses in question sustained for the Italian Army.

There are no objections to leaving the work done in SLENA.

OGGETTO 2.11 100 cuoio a Siena.-

e, per conoscenza:

AL MINISTERO INDUSTRIA, COMMERCIO E LAVORO

ALLA M. M. I. A.

ALL'UFFICIO MINISTERIALE RICUPERI (Magg. Parone)

AL DOTT. SIMONCINI - R. Stazione Sperimentale per

l'Industria delle pelli e delle materie con-

cianti - Via S. Maria in Portico No 54 -

Con riferimento al foglio n° 139 in data 25 settembre u.s. dell'Ufficio Staccato Ricuperi v.s. di Napoli (unito in copia) si fa presente che il proprietario del cuoio di cui al foglio stesso ha rifiutato la consegna del materiale adducendo:

1° - la necessità che tale consegna sia autorizzata dal Comando Militare Alleato, essendo tuttora la città sotto il controllo di tale Comando;

2° - il proprio desiderio di ultimare la lavorazione in sito per dare lavoro ai propri operai.

L'ufficiale incaricato del ritiro del cuoio, sottotenente commissario GILLESIO GIOVANNI, prese contatto col Comandante Alleato di Siena, il quale fece conoscere di avere ancora allo studio la questione e che avrebbe preso in merito una decisione verso il 20 corrente, aggiungendo che era da ritenere come probabile che venisse riservato un certo quantitativo (50% 7) per le esigenze civili locali.

Si è rappresentato quanto sopra perché codesta Missione - ove lo creda possibile ed opportuno - voglia intervenire presso il Comando Alleato di Siena al fine di ottenere che la partita di cuoio di cui trattasi venga riservata all'Esercito Italiano.

PER IL MINISTRO

Transmittal

From: Bureau, Office (HofW)

Ref: 139

To: HMIA (see other addresses)

Date: 25 Sept. '44

Subject: Allotment of Antism.

6089

The special Commissioner for Cider, Prof. SICHONCINI, whom this office addressed again today in order to obtain orders for releasing Antism to complete the August allotment and for the September allotment (the latter not yet received by this office, but known unofficially),

has informed that he cannot issue any more orders for release until the 28 inst., and that, even at that time, he will be unable to fill the allotments for August - September under any XE to the Italian Army through HMIA.

Said Commissioner has forwarded us, instead, the enclosed letter of today 2996/44, in duplicate, one of which was to go to the Treasury Office.

The special Commissioner for Italy, Prof. SIMONCINI, whom this office addressed again today in order to obtain orders for releasing together to complete the August allotment and for the September allotment (the latter not yet received by this office, but known unofficially),

was informed that he cannot issue any more orders for release until the 28 inst., and that, even at that time, he will be unable to fill the allotments for August - September awarded by PCI to the Italian Army through MHA.

Said commissioner was furnished in, instead, the enclosed letter of today 2996/44, in duplicate, one of which was to go to the Temporary GRALL-GRAMI Azelio (formerly BELATTI) of SIEVA, and the other for information of the Ministry, together with a direct letter to the Ministry, No. 2997/44 of today, (over)

attached here in original.

Whether or not it is proposed to withdraw, through and with the Bureau of the Military Administration, from the above training, 100 quintals of unfinished leather to be sent to the finishing plant at NAPLES and thence to receive, from the M. A. the allotment after the finishing.

We believe the proposal should be accepted.

If our opinion is cleared, it will be necessary that the Ministry effect the withdrawal ~~and~~ as well as, the shipment to NAPLES of the leather in question at once in order to make it available as soon as possible.

An answer would be appreciated

A. M. Hays P. MONE.

ALLA M. M. I. A. (Capitano sig. Benetti)

AL SIG. COMMISSARIO SPECIALE PER LE PELLI

NAPOLI

NAPOLI

Regia stazione sperimentale per l'industria delle pelli
 e delle materie concianti

Il commissario speciale per le pelli, prof. Simoncini, al quale questo ufficio si è nuovamente rivolto oggi per ottenere ordini di sblocco cuoiari e completamente assegnazione agosto e per l'assegnazione settembre (non ancora ricevuta, quest'ultima, da questo ufficio ma nota in via privata) ha fatto presente di non poter consegnare fino al 28 corrente alcun altro ordine di sblocco e che, anche in tale data, non potrà coprire le assegnazioni agosto e settembre fatte dell'A.C.C. per l'Esercito italiano su interessamento della M.M.I.A.

Il predetto commissario ha consegnato, invece, l'unito foglio 2996/44 odierno, in doppio esemplare di cui uno da recapitare alla conseria Galligani Azelio (già Becatti) di Siena e l'altro per conoscenza di codesto Ministero, accompagnandolo con lettera diretta a codesto Ministero stesso, N° 2997/44 odierno, e qui unita in originale.

Con tale lettera viene proposto il ritiro a cura e con mezzi dell'Amministrazione Militare, presso l'accennata conseria, di q.li 100 di cuoio non finito da passare al finissaggio a Napoli e quindi da ricevere dall'A.M., dopo ultimata la rifinitura, quale assegnazione.

Si è del parere che la proposta sia da accogliere.

Qualora condiviso tale parere, sarà necessario che codesto Ministero faccia eseguire prontamente il ritiro e l'invio a Napoli del cuoio in questione allo scopo di poterne disporre al più presto.

Si sarebbe grati per un cortese cenno di riscontro.

The Quartermaster Hq. in APULIA has informed this Ministry, that, at the time of the occupation of several sheds of the General Stores of BARI, Via VALENZANO 185 by the special food depot, 25 barrels of caustic soda ⁶⁰⁵¹ were found, approx to about 70 gallons, belonging to an Albanian and at the disposal of the A.C. - Provincial Office of BARI.

As such a quantity of soda would find good use in:

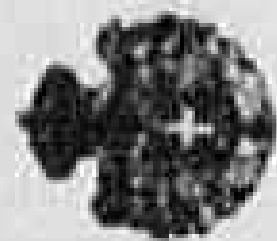

- the cleaning of several thousand milk-tins and water-bottles undergoing repairs.

21/10 - the treatment of the tin of ex-Biscuit-cans
See Folio 133
4136/1

to be made into mess-ties.
- in the washing and clearing of
various pieces of equipment -
we ask MIA to examine the possibi-
lity of assigning the whole lot, or, at
least, part of it, to the Italian Military
Administration, for the above-mentioned
uses.

La Direzione di Commissariato della Puglia ha segnalato a questo Ministero che, in occasione della occupazione di alcuni capannoni dei Magazzini Generali di Bari, Via Valensano n° 105, da parte del Deposito Speciale Viveri, è stata accertata la giacenza di 2.25 fusti di soda caustica, pari a circa q.li 70, di proprietà di una ditta albanese ed a disposizione della Commissione Alleata - Ufficio Provinciale di Bari.

Poichè tale quantitativo di soda troverebbe utile impiego:

- nella sgrassatura di diverse migliaia di gavette e borracce in corso di riparazione,
- nel trattamento della lamiera delle casse ex biscotti da trasportare in gavette,
- nella lavatura e smacchiatura di oggetti vari di equipaggiamento, di praga odoata Sottocommissione di voler esaminare la possibilità di disporre l'assegnazione dell'intera partita, o almeno di parte di essa, a favore dell'Amministrazione Militare italiana, per gli usi sopramenzionati.

SUBJECT: Leather

TO : The Ministry of Industry, Commerce and Labour
Direzionale Generale delle Esportazioni e delle Importazioni
(Attention: Direzione Generale del Commercio Interno)

1. The following correspondence is forwarded to your Ministry for information:

- a) copy RLS 721 Sa M/3 from Southern Region, Commerce Sub-Commission Sub Section, Naples, dated 6 Oct. 44.
- b) Copy letter from Ministero della Guerra, Direzione Generale Servizi Commissariato Militare, Ispettorato, Naples, dated 2 Oct. 44 addressed to the Ministero della Guerra, D.G.S.G.M., Ispettorato, Rome.
- c) Copy letter from this Sub-Commission addressed to Prof. Simoncini on 19 Sept. 44.
- d) Copy letter No. 5086/44 from Prof. Simoncini dated 3 Oct. 44.
- e) Copy letter AOC/5158 Commerce from this Sub-Commission to your Ministry dated 3 Oct. 44.

2. From our letter mentioned in sub para e) it appears that Prof. Simoncini has been directed to observe in the allotment of leather the priorities indicated therein. Release for the Italian Army program had to be fulfilled first.

3. The statement of Prof. Simoncini claimed in the last para of the letter of the Ministry of War mentioned in sub-para b), that he did not receive any instructions regarding release orders is, according to what is pointed out in para 2, not correct. This Sub-Commission has stressed that the requirements of the Italian Armed Forces must be met fully prior to other demands.

4. Referring to the information contained in the inclosure as per sub para a) it would be appreciated if your Ministry would check the distribution of leather by the Special Commissioner for the Leather Industry,

* 2 *

in order that the interests of the Ministry of War and other Italian armed forces are protected and that the directives of the Allied Forces are followed.

Re: Post Repair material

We have approached M of A about the necessity for the relational expense for assistance and protection of the war materials, the expense efficient by their works to the best of their ability mainly in their prime object that is to supply entopedical implements to wounded.

Thanking you for your concern and with regards to meet as far as it is possible the needs of the war unit we communicate the list of some material requested by the Persian Entopedic office to make an aware the first entopedic loads and apparatus for some uses war supplies

leather for supplies	545	11,700
" for cables	26	4,130
storing thread	80	35

Since the actual availability does not permit the full assignment of the material requested since it would have to be covered from our 10,000 kg allowed each month for repairs the app. quantities would be reduced for the time being to a tenth of the quantities requested.

785020

to supply entomological implements to wounded

Thanking you for your concern and with regards
to meet as far as it is possible the needs of the area
must we communicate the list of some material
requested by the Program Antepedic office to make an
issue the first antepedic books and apparatus for some
4000 was supplied

leather for copper. S9F 1700

for sales 25 4.130

stewing	Ro	35
---------	----	----

Hence the actual availability does not
 permit the full assignment of the material expected,
 since it would have to be moved from our 0000s,
 allowed each month for repairs the approx quantities would
 be reduced for the time being to a tenth of the quantities ^{requested}
 except, should MHA grant an extra assignment of
 new material owing to the latest they have shown
 towards helping a class of citizens who have
 suffered so much.

We would be grateful to MMA to let us know their views on regards of those facts so that we illustrating many other the necessary steps.

Sono state prospettate verbalmente a codesta Army Sub Commission le necessità dell'Opera Nazionale per la Protezione ed Assistenza degli Invalidi di Guerra per poter assolvere efficacemente al primo dei suoi compiti assistenziali, quello cioè della concessione degli apparecchi ortopedici ai mutilati di guerra.-

Nel mentre si ringrazia vivamente per l'interessamento ed il desiderio mostrati di venire incontro, per quanto possibile, ai bisogni del predetto Ente, si segnalano qui di seguito le materie prime richieste dalle Officine Romane di Ortopedia per effettuare una prima fornitura di scarpe ed apparecchi di protesi occorrenti a 4.000 mutilati :

- pellame per tomaie	pq.	11.700
- cuoio per suole	kg.	4.130
- filati cuoirini	kg.	35.-

Poiché le attuali disponibilità non consentono l'assegnazione dell'intero quantitativo di cuoio richiesto, che dovrebbe gravare sui noti kg. 10.000 mensili destinati alle riparazioni, il suddetto quantitativo potrebbe essere ridotto, per il momento, ad un decimo, salvo che codesta Army Sub Commission non voglia provvedere ad una assegnazione suppletiva della suddetta materia prima, trattandosi nella fattispecie di venire incontro ai bisogni di una categoria di cittadini tanto provata.-

Sarà gradito conoscere le decisioni che codesta A.S.C. vorrà adottare al riguardo, affinché questo Ministero possa disporre in conseguenza.-

In the meantime, the contingent,
 which was being for said assignment and
 the other contingent of 100 mounted at
 1000, with the funds to purchase
 the distribution of soap (25.9%) to
 the troops in the area, as has

produced of about 800 quintals of soap.
(25% acid grease)

In order to obtain the same quantity of soap, but of better quality (42-67% acid grease), as advised by you, we have 100 quintals of grease available as required. Please request said material from the Ministry of Industry, Commerce, 6074 and Saffar.

In the meantime, the undersigned, while awaiting the said assignment and the further assignment of 100 quintals of soap, will be forced to postpone the distribution of soap (25%) to the troops in the area, as has been the case up till now.

SUBJECT: Leather.

TO : Ministry of Industry, Commerce and Labor.
~~Atte: Direzione Generale delle Industrie.~~

NT

1. Reference letter N°3086/44 from Prof. Siamencini dated 3 October 1944, copy of which is in your possession.

2. In reply to para 2. of the above mentioned letter it is pointed out that for the distribution of finished leather the priorities are in the following order:-

- a. Shoes and repairs for Italian Military Forces
- b. Essential military and civil requirements for transmission Belting.
- c. Shoes and repairs for essential civilian require-
- d. Excess, if any, to Allied Military Forces.

6662

This means that demands of priority as per sub-para a. must be met first to the full extent of the monthly availability.

3. In this connection it is understood from Southern Region ACC that Italian Army authorities are not satisfied with supplies allotted to them and it is recommended that the situation be explained to them in conjunction with Prof. Siamencini.

4. As to para 4 and 5 of the letter referred to it is noted that during the months September and October together 31,947 kg. leather have been distributed by Prof. Siamencini upon various release-orders, kg. 17,700 of which went to the Italian Armed Forces.

5. Accordingly to para 6 of the letter in question a further

785020

100 qls. blocked at the Conceria Galligani, Siena, and 15 qls. at the Conceria Morelli, Cosenza, have been released to Italian Armed Forces. It is however not clear whether these quantities have actually been also supplied. Likewise unclear is the statement of Prof. Simoncini as to the total quantity released (or supplied?) to the Italian Armed Forces, namely 28,800 kgs. sole leather and 15,000 Sq. ft. upper leather. Against these figures there are in the a/m letter of Prof. Simoncini the following indications:-

17,700 kgs actual supplies during the months of Sept. and Oct.
11,500 kgs (100 qls + 15 qls) blocked at Siena and Cosenza
and released (or supplied?) to the Italian Armed
Forces, amounting together to:

29,200 kgs. The balance between this figure and those of
28,800 kgs and 15,000 Sq.ft. claimed as total quantity released
(or supplied?) during these last two months ought to be clarified.

6. Your Ministry is requested to take up the matter with Prof. Simoncini and notify this Sub-Commission, so that any assistance necessary may be given to satisfy the Italian Army Authorities.

By order of the Acting Chief Commissioner:

6686

W. D. Evans

W. D. EVANS

Proposta al. Topla 14.2

OCCORRENZA Materiali di canapa assegnati dagli alleati.

Allegato: Book of Army Materials

L'A.C.C. con ordine di consegna 1117 del 16 ^{sept} corr.

ha assegnato per riparazione calzature mese di settembre:

refe da pesca per lacci da scarpe	kg.	400
spago a mano per calcolato	"	3600
filato canapa per macchine calz. 7 c.	"	600
idem 10 c.	"	315

Mentre si conferma che verrà proceduto al ritiro

ro di tutto il quantitativo di spago a mano assegnato, per quanto in misura doppia rispetto al fabbisogno mensile, si ritiene opportuno di non avvalersi della facoltà concessa di ritirare altro spago a mano in sostituzione del filato a 10 capi, non assegnato per indisponibilità.

Si propone invece di trasferire sull'assegnazione ottobre la differenza (kg. 485 di filato canapa per macchine calzaturificio).

Capitano Benatti informato.

EAC/IDA/edg

Ref. AGO/5300/Commerce

1 October 1944

SUBJECT: Needs of Italian Armed Forces

TO : ~~AGO/5300/Commerce~~

1. Many of the needs of the Italian Armed Forces for Controlled and Restricted Materials are transmitted to the Committee of APCR(I)B by the Commerce Subcommittee who receives the demands from the Navy, Army, and Air Subcommittees.
2. The demands for Controlled Materials for these Forces are then bulked by Commerce Subcommittee with those for civilian needs and are accorded priorities identical with civilian demands. This results in only a portion of these demands being fulfilled and to a feeling that the urgency of the needs of the Italian Armed Forces have not been recognized.
3. The Commerce Subcommittee handles essentially civilian demands and is not really in a position to present forcefully demands for the Italian Army, Navy, and Air Forces, being unaware of their activities with regard to the War Effort and of the true relationship existing between them and the Allied Forces.
4. With a view to assisting the Air Subcommittee, Lt. Col. Editor of Commerce Subcommittee and W/Comdr. Winton of Air Force Subcommittee, went last May to HQ AAI and discussed with them the possibility of increased allowances for cement, pipes, etc., for Italian Airfield construction. Lt. Col. Hartman, W/Comdr. suggested that the Air Force Subcommittee submit their demands directly to the appropriate Allied Air Service Command for participation in the all-over Air program. The Army Subcommittee (W/Comdr.) had been following this procedure, for Italian Army needs. In this manner, proper evaluation of the demands of the Italian Armed Forces would be made and would be fulfilled accordingly. It is understood that no policy has been established, nor is it known to what extent direct collaboration has taken place.
5. It is apparent, however, that a certain odium has been incurred by Commerce Subcommittee vis-a-vis the Air Subcommittee, through its failure to obtain larger allocations of Controlled Materials needed by the Italian Air Force in order that it might become equipped to undertake such operational duties as would be assigned to it by the Allied Military Command; apart from the fact that such failure has been a direct means of contributing support to Black Market activities.
6. It is herewith stressed that, as Commerce Subcommittee's representation at the meetings of the APCR(I)B Committee is regarded in the light of fostering the interests of essential civilian requirements, - over which military requirements necessarily take precedence, - the needs of the

785020

Service Subcommittees are not being adequately sponsored, and the situation would appear to call for a representative to be chosen from among the Subcommittees dealing with the affairs of the Italian Armed Forces. This representative would handle only their demands, where General Subcommittees would continue to handle all availabilities and civilian demands.

7. Rather than continue with the present unsatisfactory procedure of bulked demands of Italian Armed Forces with civilian needs by the General Subcommittees, this Section, HQ ACP, recommends the following course, i.e.:

Demands for Italian armed forces to be channelled through their respective subcommittees to their opposite organizations in the Allied Forces.

For The Acting Chief Commissioners:

MF/105/II
30 Sep 44.

Military Mission Italian Army.

1. Ref your AQ/60/20 of 19 Sep 44. Bari Comm. have suggested that the request by 924 Docks Operating Coy is not justified as for some time now the Boot Repair Factory at BRINDISI has been repairing the Coy's boots.
2. They further state that the quantities requested are of small moment and out of proportion, eg; 25 kgs of sole leather would repair 50 prs boots, 5 kgs of twine would be sufficient for 300 prs; 5 kgs of nails are sufficient for only 25 prs.
3. Further, in view of the shortage of raw materials, the Commissariato would find difficulty in supplying the items. 6045
4. Please let me have your ideas on the matter.

Military H.Q. of Sicily
Military Commissary H.Q.,
3rd Section.

Ref. No 2992

P.M. 126, 29 September, 1944.

Subject: Manufacture of Boot-blackening.

To Liaison Office, M.M.I.A., c/o A.C.C. Sicily Region H.Q., Palermo.
(Ref. letter No 708 dated September 28, '44)

and, for information,

To Military H.Q. of Sicily, "Servizi" Office,

P.M. 126.

Since the War Ministry, because of the well known difficulty of purchase on the Main-land, could not supply Boot-blackening for the Troops in Sicily, this Commissary H.Q., on authorization from higher up, at first bought 30.07 Qls of Boot-blackening the S/A "Roccalumera", at Roccalumera.

The product was however not very satisfactory so the undersigned contacted the Guttadauria Salvatore firm at S. Cataldo (Caltanissetta) which supplied 10 Qls of good quality Boot-blackening, now being drawn, to be distributed to the Troops for the month of October.

Arrangements are being made with the same firm for a further supply of 100 Qls of Boot-blackening, in monthly issues, for which it appears the said firm can itself provide the raw materials needed.

For economy's sake it would however be better that the raw materials were supplied directly by the Military Administration, and, as instructed in your letter No 708 dated September 28, addressed to M.M.S., hereunder are the amounts of raw materials needed for the manufacture of Boot-blackening, shown in percentages:

- mountain (montana) wax	20%	- 2	Qls p/month
- bee's wax	4%	- 0.4	" "
- colofonia	3%	- 0.3	" "
- potassium carbonate	3%	- 0.3	" "
- microsina	4%	- 0.4	" "
	34%		
	66%		water
	100%		

6044

If your M.M.I.A. has the possibility of supplying or allotting the said raw materials, we ask you to kindly let us know.

The monthly need of Boot-blackening is 10 Qls.

25 September 1944

SUBJECT: Leather

TO : Army Sub-Commission (MMIA)
Attn: Lt.Col. Shipley.

1. The situation with regard to leather for the shoe program for the Italian Army was discussed by Lt.Col. Reiter on his recent visit to Naples with Major Birt, Southern Region, and Prof. Simoncini.

2. Prof. Simoncini claimed that the reason for the shortage of leather for this program during the month of September was the issuance of leather to the Services and other agencies on prior unfilled releases.

3. On the basis of priorities established by higher authority, while in Naples, Lt.Col. Reiter gave to Prof. Simoncini the attached directive.

4. Prof. Simoncini asserted that he expected to have 25 tons of shoe leather ready by 25 September. This leather is to be applied to Release orders No 748 for 45 tons. October's production will be applied as first priority to your release order No 1095 for 45 tons.

5. The availability figures provided for the months of September and October were based upon tannic materials issued, but the time required for curing, approximately two months, is a factor that introduce a variable. We have asked Sig. Simoncini not to submit optimistic figures in the future, but assured production. At present 130 tons of tannic materials have been issued, which should supply approximately 150 tons of leather. Prof. Simoncini expected 150 tons of leather in the three-month period. He was directed to supply this leather for the Italian Army program on regular releases.

SUBJECT: Mercury, Release Orders 430,431,438,585-

TO : ~~Local Resources Director~~
~~2.4.44.~~

1. In respect to the release orders numbered above, a letter was received on 19 September from Spolettificio RM, stating that the mercury was not available. An investigation has developed the following information.

2. The original declaration of availability was taken from a comprehensive report submitted by Industrie Chimiche Nazionali Riunite, Largo Chigi, 19, Roma, dated 30 June, 1944. This report sets forth a list of items, including 130 tons of mercury, which this firm states was removed from their plant at Cesano in May 1944 by the German forces and stored in the Spolettificio RM.

3. The M.H.I.A. advises that the Italian Army did not gain effective control of these premises until some time in August. In the meantime other services had access to the premises.

4. A complete inventory of all materials on hand, as of 31 August and prepared by the Spolettificio RM at the request of M.H.I.A., shows no mercury as being available. Unfortunately this information, which reached us early in September, was received after the August 8 meeting, at which time the availability was not in question.

5. We are listing below the other large supplies of mercury from which the required quantities can easily be obtained.

MINISTRY OF WAR

Ref your 186444 dated 18 Sep 44.

1. The request for the raw rubber in Spoletoificio, R.F., Via Flaminia to be transferred to the Ministry of War, was made by this HQ upon Allied Force Local Resources Board, HQ AAI.
2. The rubber therefore was released by Allied Force Local Resources Board through this HQ to the Ministry of War.
3. The ALC release note No. 1140 authorizing the Ministry of War to collect the rubber was passed to the Ministry of War on 19 Sep 44 (our AQ/54 dated 19 Sep 44 refers.)
4. It is therefore for the Ministry of War to assign this material to B Centro Riparazioni e Ricupero.
5. You are reminded that all communications to Allied HQ will be passed through SMIA.

AMHQ (Q Maint)

1. Amongst a large variety of materials lying in the Pyrotechnic Depot, CAPUA, there is a large quantity of salvaged brass.
2. The Italian Ministry of Industry and Commerce has applied through the Italian Ministry of War and Navy for the release of this brass, from which they wish to extract sulphate of copper for agricultural purposes.
3. Could you please deal with Army Sub Commission, ACC, on this question.

1. Your co-operation in the preparation and submission of an inventory of the above firm is greatly appreciated. Those items which are 'controlled' materials have been scheduled for allocation between Services at the next meeting of the Engineering Materials Committee.

2. The two items to which you refer, namely:

Rubber Blocks (raw)	4,000 Kgs
and Re-processed Rubber	8,000 Kgs

are not controlled materials and may be utilised without further authority from this Section.

 Subject: Defreezing of texture at
 Catonine M. and M. 40th fact

102/2

Ref. 26 11/1/50

Date Sept

In reply to your AG 54 dated
 Aug 27, please note that the request
 for the defreezing, in favor of the
 "military union" of the material
 existing at the "Catonine M. and M.",
 has been advanced, inasmuch as
 said material is not suitable
 for the manufacture of clothing
 for troops.

We are awaiting samples of the
 cotton and line material from the
 Catonine M. and M. These will
 be sent to you for examination
 & for ^{the} decisions.

99, 1st fact.

1. Replying to your letter dated 16 September 1944.
2. You are correct in assuming that "Allied Armed Forces" does not include "Italian Armed Forces", in so far as relates to the question of "restricted" materials. It is regretted that this point was not made clear in this Sub-Commission's letter of 8 September 1944.
