SUBJECT : Allocation of Italian Shipping to Coastwise Minor Sailings.

TO : The distribution.

1. The Mediterranean Shipping Authorities have agreed to establish a certain number of liner sailings for the carriage of civil cargoes coastwise as well as between the islands and the mainland of Italy.

2. Attached is a copy of a schedule showing the names of vessels allocated to these sailings together with ports and estimated dates of readiness of these vessels. This schedule is purely provisional and after trial voyages have been completed itineraries or voyage durations may prove to require adjustment. It is emphasized that information relative to the sailing dates or movement of vessels within the Mediterranean is still "secret", and information contained within this schedule is solely for your information and must not therefore be revealed to unauthorized persons.

3. All vessels allocated to these Coastwise liner sailings will be operated under the control of the "Comitato Costiere Navale" (Co-Ge-Ne), but remain subject to the overall supervision of the Mediterranean Shipping Authorities in a manner similar to that under which "ASNA21" and "LINOANO" are operating at present.

4. Cargoes for shipment on these services will continue to be bid for in the normal way based on current shipping instructions.

5. Shipping agencies nominated by Co-Ge-Ne to control these vessels are being permitted to accept cargo for shipment if space permits, only after all cargo against bids nominated by this Commission have been loaded.

For the Chief Commissioner:
