(a) Attacks with automatic fire arms have been made during the last nights to Dumps (ex Ports) round the height of Genoa, containing ammunition, explosives and other Army material.

(b) All attacks have been repulsed by the guards. The exchange of firing lasting, in certain occasions, between half to one hour. In certain nights the attack has been repeated at different hours.

(c) The guards to all such Dumps has been reinforced.

(d) It is evident that the object of such attacks is not to get hold of the material. To such end trucks ought to be in the neighbourhood etc. etc.. The object seems to be to keep the population under a state of alarm, and create with the general public the impression of a strength that is not in reality existent.

The general opinion is that there is at work a minority that intends to create troubles at a suitable opportunity. Any step intended to stop such nuisance would give tranquillity and confidence to the vast majority of this region who is, traditionally, of a steady and working attitude.

1. Mostly routine matters have been the activity of the past week.

2. Labour troubles.

a) Rumours of possible disturbances on the 1st October by the labourers owing to the end of employment block caused a conference between General Frattini, Commander 2 Territorial Hq., Genoa and Col. Purves, Commander 60 Sub Area, Genoa. Were also present Col. Purves' Security Officers.

b) No great weight was given to such rumours, all informations obtained by the Security Office pointed out that the labourers, as a class, were quite calm, but, of course, some extremists were trying to excite them to some action.

c) However Col. Purves decided to have here on Sunday a squadron of armoured cars and to parade them on Monday, as a healthy tonic, in town.

d) So far everything is quiet and calm. No disturbances are anticipated, specially that at the eleven hours the block forbidding dismissal of labourers has been extended until 15th October 1945.

3. Explosion at Lagaccio

8862

a) Last night an explosion took place in an ammunition dump controlled by No.2 Territorial Command, Genoa.

b) No loss of life is to be ascertained, and no precise informations have been available as to damages to property.

c) This is the second explosion taking place during the last month.

1. Collecting Materials.

- a) Provincial Commissioner Lt.Col. McPhee called on the 20th inst. a conference at ASG. Genoa Province Offices to discuss, with the assistance of Allied officers, the above subject between the Prefettura (Comitato Ricupero) and Italian Military Authorities (No.2 Territorial Command).
- b) The arguments of Comitato Ricupero (Mr. Queirolo) were not very constructive. The largest part was personal tending to impute and justify actions by Comitato Ricupero and his men as ex Partisans. Lt.Col. McPhee had to call him back two or three times to the subject under discussion.
- c) Major Davies (RAF) Mines Officer - 60 One Area declared that the collection, handling, storage of munitions and explosives done by Comitato Ricupero was simply bestial. He closed his remarks by saying: "How no more serious accidents did not take place I do not know".
- d) After further general exchange of arguments by General Pratini, Commander 2 Territorial, Col. Amiel, Avv. Pertusio (Vice-prefect) the following was agreed upon:
 1. Immediate visit by Italian Military Authorities to all dumps at present under Comitato Ricupero's management and/or control.
 2. All Italian Army materials to be handed over to No.2 Territorial Command, Genoa.
 3. Civilian material to be dealt with by Comitato Ricupero.
 4. All other materials (American, British, French, German) to be disposed as per Allied's instructions.
- e) Port of Genoa. Someone called attention to the vast amount of larceny taking place daily in the Port. Such robberies to run into very high figures. Everybody agreed that more severe control should be exercised, but when it came to indicate the authority to take charge no reply was found. In other words, it was not clear whether it was a matter for the British Navy or Italian Navy, Allied Military Command or Italian Military Command.
- f) Prefettura of Genoa. The No.2 Territorial

b) The arguments of Comitato Ricuperi (Mr. Queirolo) were not very constructive. The largest part was personal tending to indicate and justify actions by Comitato Ricuperi and his men as ex-partisans. Lt. Col. McPhee had to call him back two or three times to the subject under discussion.

c) Major Davies (PAB) Mines Officer - 50 Sub Area declared that the collection, handling, storage of munitions and explosives done by Comitato Ricuperi was simply bestial. He closed his remarks by saying: "How no more serious accidents did not take place I do not know".

d) After further general exchange of arguments by General Fiammini, Commander 2 Territorial, Col. Alimici, Avv. Pertusio (Vice-Procureur) the following was agreed upon:

1. Immediate visit by Italian Military Authorities to all dumps at present under Comitato Ricuperi's management and/or control.

2. All Italian Army materials to be handed over to No. 2 Territorial Command, Genoa.

3. Civilian material to be dealt with by Comitato Ricuperi.

4. All other materials (American, British, French, German) to be disposed as per Allied's instructions.

e) Port of Genoa. Someone called attention to the vast amount of larceny taking place daily in the Port. Such robberies to run into very high figures. In other words, it was not clear whether it was a matter for the British Navy or Italian Navy, Allied Military Command or Italian Military Command.

f) Prefettura of Cuneo. The No. 2 Territorial Command informs:

1. The Prefect of Cuneo takes no notice whatever of the dispositions given by A.P.H.C. regarding collecting all Italian Military Vehicles. In fact the Prefect sent a circular signal to all Cuneo Province's Lord Mayors to resist any request of the Military Command, to inform of such all civilians holding any such vehicles.

2. In compliance with instructions issued by the Prefettura of Savona, the Provincial Recovering Office, Savona order that all consignees of vehicles or animals, also of Italian Army origin as property, now under A.M.C.'s control stipulate a special contract lasting six months with which they take the responsibility for ensuring that the traffic permit be released to the vehicle, and on the other hand the possessor will be responsible for paying the amount as follows:

785020

- 2 -

1. Load Carriers: from 1000 to 3000 lire daily if consigned to civilians.
2. Load Carriers: 10% of profit if consigned to Cooperative.
3. Horses: from 70 to 150 daily according with the type of animal.

Information received by the CC.RR. state that the turn-in of profit is carried out by the Prefettura of Savona and not to Intendenza di Finanze.

g) Public Opinion: The same part of the public opinion is greatly disturbed by the above facts, that is the attitude of certain bodies named by Partisans or so called Partisans. Many people point out that it is another form of fascism when "Marcia su Roma" or "Squadrista" were titles to occupy places for which they had neither preparation nor competence.

b) The Prefect's attitude is often a disturbing factor for the best part of the public, thus it is said that political or party convenience is the dictating factor instead of the public general welfare.

c) Many hope in the Allied intervention to clear away what is only a continuance of older systems, many do not hope any more, some slip on the profiteers' lines having lost all faith.

1. Capt. Benatti left for Rome on the 4th Sept., and any normal routine matters are being dealt with by Capt. Cotton, SGT W.S.H. Italy. However, the following major matters have arisen and have been passed to Major Bird in Milan.
 - a) Illegal removal of men from Portofino (read this off. 7/9/45)
 - b) Entry into Recruiting Office of Savona Prov. " " 80
 - c) A visit from the Division Dept. in connection with the removal of all Italian troops from schools; it was suggested that AMG communicate direct with Major Bird.

2. Ref Points.

1. Supplies - Supplies for second half of Sept Maintenance are proceeding satisfactorily. Approx. 120-130 tons are being lifted a day. It is necessary to have a British representative always at the S.S.D. and Railway sidings otherwise the loading would never be completed. The completion of Sept Maintenance is expected by to-night the 8th Sept. Monday the 10th will see the commencement of the distribution of 60,000x30 rations released during the period 6-20 Sept.

2. Visit and Inspections

a) Col. Landolfi visited Genoa on the 3rd Sept. and requested a visit to a British Installation and a visit was arranged to 42 S.S.D. during which the Col. displayed great interest. Afterwards the Italian Bulk Depot was visited. For about three weeks the Genoa Commissionaire have been repeatedly told to look for additional accommodation for the Bulk Depot, but said none was available; however Col. Landolfi and Capt. Cotton located further accommodation at the Miro Lanza Soap Factory, approx. 1 1/2 mile from present location.

b) An inspection was carried out on Genoa Dist. Depot and various points were brought to the notice of the CO who stated he would rectify same. It is suggested that Lt. Minervile be sent to the depot as he has little supply knowledge.

2. 322 Points.

1. Supplies - Supplies for second half of Sept Maintenance are proceeding satisfactorily. Approx. 120-130 Tons are being lifted a day. It is necessary to have a British representative always at the B.S.D. and Railway sidings otherwise the loading would never be completed. The completion of Sept Maintenance is expected by 16-18 Sept. Monday the 19th will see the commencement of the distribution of 60,000x30 rations released during the period 6-20 Sept.

2. Visit and Inspections

a) Col. Landolfi visited Genoa on the 1st Sept. and requested a visit to a British Installation and a visit was arranged to 42 B.S.D. during which the Col. displayed great interest. Afterwards the Italian Bulk Depot was visited. For about three weeks the Genoa Commission have been repeatedly told to look for additional accommodation for the Bulk Depot, but said none was available; however Col. Landolfi and Capt. Cotton located further accommodation at the Mire Lanza Soap Factory, approx. 1 1/2 mile from present location.

b) An inspection was carried out on Genoa East. Depot and various points were brought to the notice of the OC who stated he would rectify same. It is suggested that Lt. Minerale be found other employment as he has little supply knowledge.

c) Accompanied by Major Miles (DART), who arrived on the evening of the 5th, a visit was paid on the 6th Sept. to Territorial Hq., the Administrative Transport Coy, 56 BIV and 3 C.I. Coy. Major Miles gathered useful information in connection with Transport and this will be the subject of a separate report by him.

d) Col. Piccoler visited this office on the 6th Sept. and was "put in the picture".

3. Transport - On inspection from 50 Sub Area, new accommodation had to be found for 3 C.I. Coy owing to the present location being required for the keeping of livestock. Town Major offered the R.I.A.S. Gens Ovans Furnace & Rolling Mill and Major Vinciguerra is carrying out a house on the 8th Sept.

a. Movements of Italian Units:

Anticipating arrival of 503 Guard Bn., Engr. Rft. from Orvieto, III PF Rfts.

b. Arrivals and Departures:

Capt Cotton arrived 25 August 1945 to take over the responsibilities of NW Italy. Lieut Col Egerton visited this office and 2 Territorial Hq. while passing through.

c. Conferences:

Routine conferences, Gen Frattini, Lieut Col Mc Ehee, Capt Ducet, Delegation Naval Francaise & Gènes, Major Hepburn, War Disposal.

d. Items of interest:

The City of Genoa in my opinion is another Naples with a little more "refinement". Outside of my office window in front of Columbus' House flourishes the biggest "Black Market" in NW Italy. One can buy almost anything from these "curbstone" merchants. I can see the "light of day" why Columbus went seeking other lands.

1. No "open" French problems.

2. Tho, there are French officers circulating about for the purpose of recovering French materials. On or about the 28th August 1945 I was visited by Captain de Fregate Douet, "Chief d'D.N.F."; he stated to me that he was here in Genoa to collect French equipment etc. and that he was authorized to do so by A.F.H.Q. I expressed my deep regrets to the Capitaine that I could not permit him to make inspections of Italian warehouses, etc. unless I was so ordered by HQ. M.M.I.A. Rome. I took the Capitaine's telephone number and address. (phone 56267 - Navy Home c/o 60 Sub Area). I advised him that he should keep in contact with me for further developments. The other Naval Captain working with him is Capitain de Vaisseau Delpouch. I have not seen in AFHQ Directives issued to us where the French were mentioned and it is my understanding that such equipment etc. come under the heading of "CEM".

3. In my liaison log N° 10 dated 25 August 1945, Appx "A"- "G" Matters, I reported facts about discovering an organization recovering abandoned materials. I held a conference with Lieut Col Mc Phee (A), Provincial Commissioner, Genoa; he stated that we could collect the Italian Army Property in the Sestri Depot. I am to contact Mr. Guirelo, Director of the Commissariato Ricupero di Liguria; he is rather an elusive type "away" most of the time. I know the gentleman and will see him later. In the meantime, Major Hepburn, War Eqp't Disposal, came into the scene and he too had a look, and some of the equipment that General Frattini was "growing" about not being returned to the Italian Army is German or U.S. The Chief warehouseman of the Sestri Depot, belonging to the Commissariato Ricupero di Liguria stated he had prepared a list of all items stored in this warehouse and that he passed it on to Capt Buckley.

4. In one of my previous reports I stated that the Italian here could not get information on themselves. Attached hereto letters and documents about "Fratelli Milone" Shoe Factory explains my more serious vein.

5. I had no previous knowledge about the shoe Factory. Colonel Giuliani called me and all excited told me about the Questore taking shoes belonging to the Italian Army. The next morning accompanied by Capt Cotton we visited the Shoe Factory. The Milena Brothers, owners, were there. Colonel Giuliani tried to take the remaining shoes finished or unfinished out of factory "by force". I prevented this because had he done so, the prestige of the Italian Army would have been "double zero" as I once stated that it is only being "tolerated" here. A compromise was hastily reached. Attached, see para 3, the Fratelli Milane had offered the shoes for sale to the Questore. The original copy accidentally got mixed up with my papers. The copy of the letter was returned to Mr. Milane with great apologies, he understands now.

Subject: boots supply.

With reference to your letter 13th inst. n.2640/2b and to verbal agreement with our Director Mr. Milone, we inform you that for the manufacturing of well known 940 pairs of boots we miss of the shoe-edge, of which we did not receive the supply and that consequently we are compelled to purchase on the free market.

Such a purchase involves an increase in the price of 80 lire per pair and in consequence said 940 pairs of boots will be sold at L. 930 per pair.

We beg you to confirm your agreement to the price in question, and thereafter we shall purchase the shoe-edge and in the delivery of the shoes will follow, we hope, in a short time.

We avail ourselves of this occasion to ask you to kindly dispose for the payment of the 300 pairs of shoes already delivery inasmuch as we cannot keep in suspense such amount which is necessary for the regular course of our business.

Trusting to be favoured, we thank you in advance and remain

SECRETAPPX "D"S & T POINTS - NW ITALYa - Transport.

The situation regarding transport is becoming more than critical especially in view of the forthcoming disbandment of 3 G.T. Coy. Twelve 3 Ton lorries will be required daily until 20th October if the plan laid down in HQ. AREA SI/191 of 27 August 1945 is to be carried out, after that date 8x3 Ton vehicles will be sufficient.

b - Supplies.1.- Allied Element.

Transfer to all Distribution Depots only commenced on the 30th August, despite the fact that G.S.M. Tudor in the absence of Capt Cotton, informed the Commissariato Genoa on the 26th Aug that September maintenance had been released and loading should commence immediately; loading finally commenced on the 30th after Capt Cotton's visit to the Commissariato Genoa on the 28th Aug 45.

Advance information was received that after releases up to the 20th Sept from 42 B.S.D. supplies would be forwarded by rail direct from ANCONA. This change of plan being due to the closure of 42 B.S.D. The Maintenance Plan after that date depends on the location of the Bulk Depot. For economy in rail cars Milan would appear to be best location as the line is ANCONA-VERONA-MILAN-GENOA, but it is certain that Milan can not give such excellent Railway Siding facilities as are available at Genoa Bulk Depot.

2.- Italian Element.

Stock of Italian Provided Items in British Installations are in the progress of being transferred to Italian Depots and it is hoped that this will be completed by the 2nd September.

3.- Visits and Inspections.

a.- Two visits were paid to Colonel Giuliani, Commissariato Genoa, on the 27th and 31st August to discuss despatches to Distribution Depots etc.

b.- Whilst in Milan on the 25th August a visit was paid to the Distribution Depot accompanied by Major Kyle and it was found that an improvement had taken place since his last visit on the 18th August.

8027

c.- A general discussion took place on Supplies with Capt O' Donnell in Turin on 27th August and all appears to be satisfactory in that Territorial Command.

4.- General.

a.- On the night of 28th August 1945 the Distribution Depot of Genoa was broken into and 2000 lbs of tinned cheese was stolen; a full report will be submitted later together with reports from the Commissariato and Italian Police.

1. No French problems.

2. Reference list supplied to AMG, Genoa Province, Military Buildings in Genoa Province. At the request of AMG a list of Military Buildings in Genoa was supplied to them (see attached correspondence) as it was considered that it was in conformity with EMIA policy to assist in every way possible AMG even though it does not appear to be their policy to assist us.

3. The Prefect is making no attempt to hand over recaptured Italian equipment to the Italian Army. On 21 August 45 in the company of General Frattini and Colonel Alaïol we inspected the Depot Sestri (Fontarolo) No. 7 Via Giacomo Puccini, Genoa. This depot is being used by the Commissariato Recupero di Liguria, Director Pillade Gucirolo, Palazzo Galini, No. 7 Via Dante, Genoa. This organization is a C.N.L. outfit and AMG has knowledge of their existence. This is entirely civilian (Italian) recovering all types of abandoned materials, etc. In the Depot Sestri I saw many items of equipment, Italian origin; also, French, German and American equipment lying about this depot; some of the items are: a M-1 U.S. rifle, G-I gas cans, a French Renault car, and Italian SPA 39 made expressly for the Italian Army; other types of vehicles camouflaged for war operations if closely scrutinized perhaps could be classed as Italian Army vehicles. Also, in this Depot were Italian Field phones, meat cases. I made note of the above items because I am of the opinion that no list has ever been delivered to any Allied Authority. I told the Chief warehouseman I was only observing and not "encroaching". General Frattini lacks diplomacy and tact; I had to check the General in his manner of approach. The General asked me if I desired to see their books; I declined because I was only observing and had seen the items physically there. The Commissariato Recupero di Liguria has several depots filled with recovered property. Also an Ammo Dump under guard by ex partisans, S. Siro, Genoa. I saw the Director Gucirolo, a rather "cunning" individual and I said to him I would hold a conference with him.

on a later date. I uncovered the name of Capt Buckly (B), Liaison Officer for AMG Genoa Province for this recovery agency; he was quite perplexed. He agreed that we should have the Italian items but I told him we would later and take those items of Italian origin from them under a gentlemen's agreement. I quoted him para 9 a of Subject Disposition of Captured Enemy Materials in Italy, dated 22 June 1945. He appeared a bit disturbed; I tabled the matter and I am to see Lt Col Mc Phee on Monday for a further discussion on the matter. It is not my aim here to jeopardize my position here or M.M.I.A.'s. I will report about conference with Lt Col Mc Phee, Genoa Provincial Commissioner later.

At the Institute of Santa Rosa, Specialized Civil Hospital, First Category, by law dispositions in force at present, there were permanently sheltered 1500 bedridden people suffering from bone illnesses, limbs in general, and others from pleuritis, peritonitis, tuberculosis etc. with a daily movement of about 400 people. During 1943 the inmates, civil and military, have been 432.

In the actual circumstances and owing to transport difficulty, to shortage of food and sanitation material the inmates in the Civil Section are at the present date 3582 of whom 2171 in the orthopedic-Bureau and 1411 in the Medical Section. Furthermore the inmates in the Military Section are 49.

In June 1940 was created the Hospital Center at the Institute's technical-education implements which has worked regularly with good results. At the Orthopedic workshop have been constructed the protheses by specialized workmen.

In the Hospital Center have been received 1122 mutilated or foto-injured but from July 1944 the activity has been greatly reduced owing to the almost total transfer of the Center.

The protheses apparatus furnished to mutilated Officers and soldiers have been 8,358 for the period June 1940 July 1945.

Out of the 49 inmates the military section No 24 are Partisans, the other 25 are as follows:
 10 Officers ex Royal Army
 13 Soldiers " "
 1 M.C.O. " republican army

In the actual circumstances and owing to transport difficulty, to shortage of food and sanitation material the inmates in the Civil Section are at the present date 84532 of whom 8374 in the orthopedic-surgery and 14008 in the medical section. Furthermore the inmates in the military section are 49.

In June 1946 was created the Mat-lated Center that has 8000 the Institute's technical-education implements which has worked regularly with good results. At the Orthopedic workshop have been constructed the prothesis by specialized workmen.

In the Mat-lated Center have been received 11222 mutilated or Moto-injured but from July 1944 the activity has been greatly reduced owing to the almost total transfer of the Center.

The prothesis apparatus furnished to mutilated Officers and soldiers have been 5.2558 for the period June 1940 July 1943.

Out of the 49 inmates the military section No 24 are Partisans, the other 25 are as follows:
 " 10 Officers ex Royal Army
 " 13 Soldiers " " "
 " 1 R.S.O. " republican army
 " 1 German soldier prisoner of war.

The expenses for all military inmates were account of the military Sanitation Directorate of Genoa through the Administration of the Military Hospital of Genoa (Stanza: Villa Sanitas)

The Genoa's Military Sanitation Directorate with letter dated 17th. July last No 348 771 R.S. has communicated the disposition dated 15th July 1945 c/o 60 Sub arma. Genoa from Allied Control Sub Commission (Land Forces) to the Military Command Territoriale of Genoa where it is stated at paragraph 3^o that the Partisans are civilians and therefore must be transferred from the Italian Military Hospital to Civilian Hospitals. Furthermore paragraph No 4 states that Partisans cannot be accepted any more.

With note dated 27th July last No 339, 1945, enclosure 4, this directive has addressed to the Prefects of Genova and Imperia giving communication by copy of letter 15th July of this Sub-Section, Genoa, and asking that for the Partisans belonging

(2)

in part to Savona Province and in part to Imperia Province a Civil Authority should take on and defray the expenses caused to the Institute.

Also the Partisans Association of Savona has been notified pointing out that all the Partisans inmates must be considered for all purposes as bed-ridden civilians.

Since that, up to the present, no Civil Authority has assumed the expenses of the bed-ridden Partisans this Directorate find itself in the necessity to discharge the Partisans whom would thus be abandoned to themselves.

It is the case of wounded and trauatic men through participation to Partisan actions, all needing an ortopedic cure in a specialized Institute, some must be furnished with ortopedic apparatus. For all of it is imperative to continue the cure at Santa Corona.

This Directorate makes appeal to the humanitarian sense of the Allied Sub Commission of Control to authorize their permanence in this Civil Hospital remaining for account of the Italian Military Administration the expenses concerning them.

It is requested to give kindly a word of acknowledgement. 8019

Presso questi Istituti di Santa Corona, Ospedale Civile Specializzato di prima categoria, secondo le vigenti disposizioni legislative, sono ricoverati permanentemente 1.500 malati, affetti da malattie delle ossa e delle articolazioni in genere, ed infermi con tutti di pleuriti, peritoniti croniche, stati pre-tubercolari, ecc., con un avvicendamento annuo di circa 4.300 malati. Nel 1943 i malati accolti, civili e militari sono stati 4.338.

Per le attuali contingenze e data le difficoltà dei mezzi di comunicazione, la mancanza dei generi di vitte e del materiale sanitario, i degenti nella sezione civile sono alla data odierna n° 588 di cui nella divisione chirurgico-ortopedica n. 374, e nella divisione medica n. 208. Inoltre i ricoverati nella sezione militare sono 49.

Nel giugno 1940 venne creato il Centro Mutilati che si è servito dell'attrezzatura tecnico-sanitaria degli Istituti, ed ha funzionato regolarmente con ottimi risultati. Presso l'Officina ortopedica sono state costruite le protesi da parte di personale specializzato.

Nel Centro Mutilati sono stati accolti 1.225 Mutilati e Metolesi, mentre dal luglio 1944 l'attività è stata notevolmente ridotta in seguito al quasi totale trasferimento del Centro.

Gli apparecchi di protesi forniti agli Ufficiali e Militari mutilati, nel periodo dal giugno 1940 al luglio 1945 sono stati n. 2.338.

Dei 49 degenti nella sezione militare, n. 24 sono Partigiani. Gli altri 25 militari appartengono alle seguenti categorie: n. 10 Ufficiali dell'ex Esercito Reale, n. 13 soldati dell'ex Esercito Reale, n. 1 sottufficiale dell'ex Esercito Repubblicano, n° 1 soldato germanico prigioniero di guerra.

Le spese di ospedalità di tutti i ricoverati nella sezione militare sono a carico della Direzione di Sanità militare di Genova per tramite dell'Amministrazione Militare di Genova (Sturla: Villa Sanitas).

La Direzione di Sanità di Genova con lettera del 17 luglio u.s. n° SAN 7/1 M.L. ha comunicato la disposizione del 13/7/45 C/O 60 Sottosegretario di Genova della Sottosegretaria Alleata di controllo delle Forze terrestri, al Comando Militare Territoriale di Genova, dove è stata segnalata al Capo 3° - che i Partigiani sono civili e quindi devono essere trasferiti dagli ospedali militari italiani agli Ospedali civili. Inoltre al capo 4 è prescritto che nessun partigiano deve essere più accettato.

- 2 -

Con foglio del 27/7/45 n. 339.1945 all. 4 questa Direzione si è rivolta ai Prefetti delle Province di Savona e di Imperia comunicando copia della lettera in data 13 luglio di codesta Sottosezione di Genova e chiedendo che per i partigiani, provenienti in parte dalla Provincia di Savona e parte dalla Provincia di Imperia, un Ente Civile assumesse le spese della specialità.

E' stata pure interessata l'Ass. partigiani di Savona segnalando che i partigiani ricoverati dovevano essere considerati a tutti gli effetti come malati civili.

Poiché sinora nessun ente civile ha assunto la spesa delle degenze, questa Direzione si trova nella necessità di dover dimettere i partigiani che verrebbero abbandonati a se stessi.

Si tratta di feriti e traumatizzati in seguito alla partecipazione ad azioni partigiane, bisognevoli del trattamento ortopedico presso un Istituto specializzato, ed alcuni devono essere forniti di apparecchi ortopedici. Per tutti è assolutamente indispensabile che continuino la cura a Santa Corona.

Questa Direzione fa appello al senso umanitario della Sottocommissione Alleata di controllo perché autorizzi la continuazione della degenza in questo Ospedale Civile, restando a carico dell'Amministrazione Militare Italiana l'onere relativo alle spese di specialità.

Si prega di favorire un cenno di risposta. Ringraziando.

3. T. POINTS N.W. ITALY

A - TRANSPORT

An attempt was made to lay a basis for proper organization for 3 Italian G.F. Coy. These arrangements were however aborted by the news that the Company was to disband. It has had a very unsatisfactory history as far as R.W. Italy is concerned, for neither the Company Commander nor his Hq. have ever arrived here. Capt. Delia of this Company appears very keen, but is working under difficulties. The lti-lti transport position does not appear to improve. AMG still retain Italian Army vehicles.

B - SUPPLIES

1) Allied Element

Transfer to Distribution Depots, including outlying ones, was completed by 19 August, and distribution has commenced. So far no complaints have been received. Considerable delay in submission of completed ST/8's has been caused by the local Comando Territoriale, who issued instructions to the effect that all units were lti-lti as from 6 Aug 45. All completed ST/8's so far passed to this office have been ^{thoroughly} scrutinised and in every case returned for revision of categories. O.C. Bulk Depot, despite prods by CSM Tudor, is very slow in submitting ST/3's to this office. CSM Tudor however, is clearing up outstanding vouchers, both ST/3's and AP's 801033, since my departure on release is now being effected.

2) Italian Element

Stocks of Italian elements have been transferred from 42 B.S.D. to Bulk Depot, more are now arriving and will be transferred in due course. It has not been found expedient to unload direct ex ship to Bulk Depot, since the Italian items are discharged mixed with British supplies. All three Commissariati appear to have been quite successful in obtaining supplies of Italian items locally by contract. Complaint has been made by 519 Guard Battalion concerning the quality of the wine and Olive Oil. However samples were obtained which seem fairly reasonable, and no further action in this matter has therefore been taken.

- 2 -

3) Inspections & Visits

Inspection was carried out of 2 Bulk Depot, Rivarelo; report has been submitted to you. It would appear that the floor space is hardly sufficient, but the local Command are unwilling or nervous of requisitioning further floor space.

~~Genoa Distribution Depot was also inspected. Report is being despatched under separate cover.~~

4) General

Milan Distribution Depot again complain of increasing feeding strengths. This caused a check to be made with Major Bird and recent tentative information shows a probable increase in feeding strengths to 60,000.

No.2 Territorial Hq. - Genoa

no.09/1092

APQ 216, 17 August, 1945

Subject:- Guards for military premises.

To:- Capt. Benatti MMIA.LO.

GENOA

Recently unknown persons have made renewed attempts to enter military premises located in the neighbourhood of Saluzzo.

At Savigliano, by the Trossarelli Barracks, attempts have been made to carry away some windows.

At Saluzzo some window-grates have been carried away from large huts located in Piazza d'Armi.

At Saluzzo, in the Vittorie Veneto Barracks, the door of a store has been broken.

In view of these facts, it is necessary a stricter guarding of the military premises which at present, owing to missing military personnel, are guarded by civil personnel, unarmed and insufficient.

I beg you therefore to kindly intervene by MMIA HQ. in order that authorization be granted for the formation of sworn civil guards for the guarding of military premises. These personnel will be composed by three or four men armed with rifles and with orders like the ones laid down by Rules on the Territorial Service regarding military guards.

The Military Commander
s/Gen. Enrico Pristini

Uff. Terr.le - Affari Vari

N.09/1092 di pret.ord.

P.M. 216, 17 Agosto 1945

OGGETTO: Sorveglianza immobili militari.

AL CAPITANO BENATTI
Uff.le di Collegamento con MMIA GENOVA

Recentemente si sono verificati nel circondario di Saluzzo tentativi e più riprese da parte di ignoti, di entrare negli stabilimenti militari.

A Savigliano presso la Caserma Trossarelli è stata tentata di asportare finestre.

A Saluzzo sono state asportate alcune griglie di finestre ai capannoni di Piazza d'Armi.

Nella Caserma Vittorio Veneto di Saluzzo è stata forzata la porta di un magazzino.

Tali fatti rendono necessaria una maggiore sorveglianza degli stabilimenti militari i quali sono ora sorvegliati, in mancanza di personale militare, soltanto da personale civile disarmato, e insufficiente.

Prege pertanto la S.V. voler interessare il Comando della M.M.I.A. affinché autorizzi, per la sorveglianza degli immobili militari, la costituzione di guardie civili giurate, composte di tre-quattro uomini, armati di moschetti, con consegne analoghe a quelle stabilite dal regolamento sul servizio territoriale per le guardie militari.

U T P O I N T SA - Transport

3 (Italian) G.T. Coy are still employed in ferrying supplies from Leghorn to Genoa. They have also been used for train loading etc. from 42 BSD for next maintenance period. The unit are stated to have moved in to their new location in Genoa, although it appears that only a representation of Company Hq. is here. Major Vincentelli has still not yet arrived; the company lacks organization and discipline. An effort will be made by myself to provide the basis for some Standing Orders, and internal administration, neither of which at present exist, but in view of my impending departure only a start can possibly be attempted.

B - Supplies(1) Allied Elements

Arrangements were made to load direct to train the Allied element of the ration for outlying Distribution Depots, the balance for Genoa Depot to be ferried direct by lorry. This was done on a basis of feeding strengths of each Depot and written instructions issued to this effect (STC/4/18 of 14 August 45). The Genoa Commissariate again failed to comply with instructions, and actually drew only sufficient to place in Depots the number of rations equivalent to feeding strengths. Existing stocks were deducted before drawing and accordingly no reserves have been accumulated in Distribution Depots.

Friction has again arisen with 42 B.S.D. owing to the unreasonable attitude of Italian officers taking over supplies in that Depot. These latter appear to think that supplies signed for and taken over by them at 42 B.S.D. will be replaced by if they are pilfered or damaged after they have left the depot. And this after repeated conversations and written instructions on the matter! CC 42 B.S.D. has been very helpful, but is becoming a little tired of these endless disputes. My STC/4/19 of 16 August may ensure a temporary improvement but it is requested that ample time margin be given for future release; for CC 42 B.S.D. may become exasperated, and only agree to one bulk transfer, as opposed to direct loading to train.

All despatches of supplies to outlying Distribution Depots have been completed; the transfer to Genoa is not yet completed. Pepper has not been available from 42 B.S.D. for these loadings.

(2) Italian Elements.

Direttore di Commissariato, Col. Giuliani was notified verbally and in writing that the Italian Army was responsible for the provision and distribution of Italian items. This was done in implementation of the policy as laid down by ADST on his visit here. The Italian items, sufficient to maintain the feeding strengths of each Depot have been already despatched under these arrangements. Wine is the only item short on delivery. The contract made by Turin Commissariato specified dates of delivery which do not coincide with the needs of M.S. Italy. It is anticipated that with stocks now coming forward from Leghorn, and supplies from British Stocks sufficient will be available for next maintenance period 21 August-5 September. Some trouble was caused by the fact that BR-Iti officers of 519 Guard Battalion had not acquainted themselves with the local arrangements made for provision of wood for cooking.

No transfers of stocks of Italian elements in DPs have yet been effected: this is held over pending reply to my query in liaison log of last week dated 11 August 45.

(3) Visits & Inspections

On 18th August an inspection was made of Milan Distribution Depot; the report is forwarded to you under separate cover. This depot is the "black-spot" in M.S. Italy, and in view of ADST's remarks regarding the importance of Milan in future policy it is recommended that immediate action be made to provide reasonably efficient officers.

A visit was made to a neighbouring barracks, but owing to the absence of Major Bird in Turin, the future availability of this location for supply storage could not be precisely ascertained. This matter will be cleared as soon as possible.

77^o Firemen Corp SAVONA

The 77th Firemen Corp informs in letter No 2371 dated 15 June 45 that, since the emergency reasons which caused the requisitioning of premises, being used as their Hqs. and Central Barracks, no longer exists, the owners of property in question are requesting the restitution of said premises; consequently both the Hq. and Central Barracks should be transferred to the original stations, which was abandoned because unsuitable in regard to the increased number of vehicles and personnel; such insufficiency still exists.

To avoid such inconveniency, 77th Firemen Corps requests that approval be granted to occupy the ex Milizia Barracks located in this Town, Corso Ricci, partly damaged and not occupied; at present, the Military District of Savona holding it.

Since the request from the Firemen Corps is properly justified, your Hq. is kindly requested to take it into consideration, issuing necessary instructions to the Military District of Savona, in order to enable us to settle such a important service for the Province.

No. 02/1843/SERV.

Genoa, 5 August 1943

SUBJECT: Request for a Guard Company.

TO : Captain Benatti, GSO.

As you know, the 1st Guard Company has been assigned to this Headquarters with a total strength of 190 men. Excluding personnel sick on hospital and on furlough, 137 are these available.

Said company, beside the Food, Clothing & Supt. and Regional Distribution Depots should provide personnel for guarding ammunition dumps and Ammunition Factory as well as armed escorts for convoys of food and equipment.

With the above available personnel it is only possible to supply guard service for Commissary Depots and for Ammunition Factory of Legnecis.

Present situation and the possibility of accidents at the ammunition dumps requires that also the remaining dumps be properly guarded by armed personnel.

You are, therefore, kindly requested to inform Higher Authorities in order that another guard company be assigned to this Headquarters.

APPX "D"S T POINTSA - TRANSPORT

Allocations are at present still being made by SR SMIA.10. N.E. Italy; allocations to the Genoa Territorial HQ remain uncollected, due to the existing shortage of A.F. here, and the consequent difficulty found in transporting P.O.L. economically to Milan to withdraw the vehicles.

3 G.F. Company have continued to ferry supplies of the Italian Element; they are being turned round much faster now that it is no longer imperative that these supplies be fed direct to Distribution Depots. Some trouble has already been caused to Italian Depots by shortages on the loads carried on the vehicles of this Company. It is understood that the whole of this Company less 1 Pln and Maintenance Party at Naples will now be based on Genoa and suitable accommodation for them on this basis has been found here (see APPX "C"). Major Vinciguelli, OC of the Company, due here 5th August 42 (your signal ST/1803 of 7 August refers) has not arrived. If, as appears probable, this unit is moved to new location before his arrival it would appear that he is not by any means essential to the functions of the Company.

Italian Military vehicles are still retained by AMG. It is requested that orders to hand over these vehicles be issued before AMG leave this area.

B - SUPPLIES1- Allied Elements.

No movements of Allied elements except detail issues from Distribution Depots have taken place in the period covered.

2- Italian Elements.

Thanks to the fact that Gruppi were rationed up to 8 August from British sources, all Italian Elements of the yr with the exception of wine were available in Distribution Depots in time for issue.

It has not been found possible or practicable to issue 12 days wine in bulk to these Gruppi; in any case, at Milan and Alessandria the wine was not received in time to issue on this basis. This commodity has proved a

7490
Difficult

785020

- 2 -

APPENDIX "B"

difficult problem and supply to Distribution Depots has been a hand-to-mouth affair. Had it not been that Allied stocks of wine proved locally sufficient at Genoa and Milan, units would have been issued short on this item as from 6 August.

Stocks of Italian Elements in 42 B.S.D. are being handed over to Bulk Depot. Difficulty has arisen in the transaction in the usual inevitable manner; instructions have been issued verbally in no uncertain terms that Italian Detachments in the B.S.D. will not count every cigarette in sealed boxes, that every sack of macaroni will not be weighed but will be accepted if intact at the marked weight, etc. etc. . It is now hoped that in future a little commonsense may possibly be used by the 42 Bulk Depot in these matters.

42 B.S.D. complained that the Italian officers were of the opinion that they had a perfect right to make his depot into one huge broken store! With the assistance of CSM Tudor, who has proved invaluable, these transfers are now almost completed with diminished friction. It is considered essential that an M.S.I.A. representative must be actually present the whole time that such transfers are taking place.

3- Visits and Inspections.

During this week visits have been paid to all Distribution Depots. Formal inspections will begin next week.

Bulk Depot, Genoa. is running smoothly after external difficulties as above have been overcome.

Distribution Depots.

Genoa - After a bad start, the arrival of Capt. Eschelle appeared to cause a marked improvement; and the depot was issuing systematically and smoothly when visited. Various improvements have been suggested and are now being carried out.

Turin - This Distribution Depot was very clean and well organized. It was easily the best depot visited. Major Capuccio of the Commissariate is obviously an efficient, energetic, capable officer, and he has the whole situation well under control.

Alessandria - The location of this depot is very bad, but the depot itself is as clean as possible and well organized. Major Paloski of the Commissariate who supervises the depot, was advised to carry out a reconnaissance with a view to requisition of more suitable premises. A request was received from the Italian Supply Officer of the Cremona Group that one of his two supply platoons feeding 2 Inf. Regts

7949

- 3 -

APFA "D"

and other elements from Novara, should draw from Milan. This will be arranged, but since it will reduce the feeding strength of Alessandria depot to

Cresona	4000)	9665 (maximum)
others	1665)	

is submitted for consideration that it may be more economical to move this Distribution Depot to Piacenza; existing commitments as above to be fed from Turin; the overload in Milan being relieved by Piacenza feeding all units in that area, at present fed from Milan. It has been found that the estimated figure of 13000 for Alessandria was too high by approximately 3000 and Milan too low by 3000. Adjustment has been effected by immediate transfer.

Milan. Commissariato Representative, Major Cartalisano had had two major problems, one of which was the increased feeding strength, already adjusted by the above transfer from Alessandria. The other was that the wine had failed to materialize. He was fully aware that a consignment intended for Milan D.I.D. was being diverted to him, but had not contacted the D.I.D. when it did not arrive. This problem was cleared, in liaison with Major Bard and Major Muirhead DABOT(S) 59 Area, by road transfer from Milan D.I.D. to Distribution Depot of 60,000 litres, now being effected. The Distribution depot does not appear to be very efficient from a cursory inspection. They seem too preoccupied by the baking of bread in the military bakery attached. OC Depot and Major Cartalisano were warned that a detailed inspection would take place in the near future. In view of the fact that the feeding strength of this Depot will probably increase to the vicinity of 28,000 (see under Alessandria above) and accommodation only exists for 18,000x15 days in the Caserma Besozzi it is proposed that immediate reconnaissance be made for one large depot to replace the two existing small ones.

4- QUESTIONS

- a) May a destination address please be given for consignments of empty barrels direct from outlying distribution depots.
- b) Under GRC 842/45 Italian personnel employed in Transit Hotels are fed at the scale applicable to Italian Armed Forces. Since it is understood locally that all Italian Elements in Allied Depots were paid for by the Italian Government by A.F.G. 1680 on receipt into Allied Depot it would appear

that/

- 4 -

APPEL "D"

that these personnel have been fed at the expense of the Italian Army. May this please be clarified, and also the future feeding of these British Employed personnel cleared with AFHQ, since DID's are unwilling to release all stocks of Italian Elements until this is done.

1. At 0900 hours of 20 July ten French Military under command of a lieutenant and belonging to an Alpine Unit placed in a locality near the Italian Frontier, arrived, through the Stroppia Pass to the Chiappara Section of Acoeglio. After been informed by the local people that in the land there were not Anglo-American Troops, they remained there in friendly conversation with the inhabitants without causing any trouble. After having had lunch in local inn and written some post cards, they went back in French Territory at 1500 hours. They were armed with Remington guns and French guns of unknown makes.
2. At 0900 hours of 26 July 45, 24 French Military under command of two officers (a lieutenant and a 2nd lieutenant) all belonging to an Alpine Unit displaced in locality near the Italian Frontier, arrived to the locality named the Chiappara di Acoeglio. Said 24 servicemen, 14 armed with "tapun" guns, 6 with pistols and 3 with a weapon of "Stein" type, met with a party of G.C.M. on patrol duty. On seeing our military the French remained at first surprised and then uncertain as to how to act. In the circumstances the NCC commanding the patrol deemed opportune to inform only that the passage over the frontier was an irregular action and that however would signal their presence to his superiors. At this notification and with a correct attitude toward the carabinieri, the 24 Frenchmen returned immediately at the Frontier and through the Stroppia pass they went back to French Territory. From the carabinieri of Acoeglio it was ascertained that the French Military come in Italian Territory to sell tobacco and salt to civilians taking Italian money on the basis of 100 Italian lire for 50 French francs. No violence or propaganda is made by the French Military to the valley people; they only inquire if there are Anglo-American troops by the Frontier.

SECRETAPPX "D"ST POINTSa - Transport

Little time has been available for devotion to transport problems during this weekly period. Allocation of 2 motorcycles and 2 Load Carriers to 2 Territorial Command has been received and arrangements made for withdrawal. Vehicles of 3 Italian G.T. Coy are employed in carrying supplies from Leghorn.

b - Supplies1- Allied Elements

The loading of pack trains to Alessandria and Milan did not run exactly to schedule, due to teething troubles, especially with regard to the placing of Railcars. These difficulties have now been overcome, and the last loading made was carried out with reasonable celerity. Owing to the weakness in arithmetic of the Genoa Commissariato supplementary consignments were found necessary, but all items of the Allied element were transferred to all distribution Depots including Genoa by 4 August 45.

2- Italian Element

Owing to the shortage of time available, recourse was made to diversion to Distribution Depots of vehicles of 3 Italian G.T. Company arriving with consignments of the Italian Element of the ration. By this means all distribution depots were in physical possession of the necessary stocks by 5th August, with the exception of wine, which had not come forward in sufficient quantities. In conjunction with ST 2 District local transfers of wine from British Stocks were therefore made; from 42 B.S.B. to Genoa Distribution Depot, from BID consignments for Milan and Piacenza to Milan Distribution Depot. It was ascertained that 5500 quintals had been purchased under contract by Direzione Commissariato Turin who were instructed to arrange immediate delivery of 100,000 litres to Alessandria Depot. They were also instructed to increase the stock of Turin Depot to a figure of 50,000 litres, each to be completed by 6 August 45.

3- Inspections & Visits

On 31 August visit was made to DOST 2 District at his request, and many doubtful points cleared with Major Bidwell DADST (Supplies). Agreement was also made on

/principle

785020

- 2 -

ARFX "D"

to take over all stocks of Italian Element commodities in 2 District Depots. The instructions issued by this office allocating units to Distribution Depots were discussed and agreement made for the issue of instructions through British channels for Bri-Iti units. It was also agreed that D.I.D.'s should warn all units drawing of the arrangements made for drawing from Distribution Depots w.e.f. 6 August 45 (This office letters STG/13a and STG/13b of 26 July 45 refer). AMIA LO, N.E. Italy and Direzione Commissariato Milan were also visited, and the latter informed in detail of these agreements.

On 1st August visit was made to the Distribution Depot Milan, where an unsatisfactory state of affairs was found (This office letter STG/11 of 2 August refers). C.C. Depot and Major Cartalano of Direzione Commissariato Milan were told that more readiness was needed in every direction. AMIA LO N.E. Italy was informed by telephone as to this

unsatisfactory state of affairs, and his direct supervision requested to ensure readiness to issue on 6 August 45.

ADST AMIA, Lt Col Penrose and Capt Cotton arrived p.m. 3rd August and on 4th August visits were made with them in company with Direttore di Commissariato Col. Giuliani to 2 Bulk Depot and Distribution Depot Genoa.

Instructions were afterwards issued to accelerate preparation of this letter.

4-Queries

These were all cleared verbally with ADST, with the exception of those relating to Medical Supplies, Miscellaneous and Disinfectants which are being cleared by Capt Cotton.

b - P.O.L.

Monthly allocation of P.O.L. for Genoa was received here and transmitted to Comando Territoriale (This office letter STG/101 of 30 July 45 refers).

Enquiry was made by Major Peak, Liaison Officer to 509 Guard Battalion regarding the supply of Diesel for cooking purposes for Bri-Iti units. May information please be given as to allocations and supply for this purpose.

No. 856/AR/45

To Major MARSHALL
a/c A.M.S.
G. E. R. S.

The sender is Engineer MARCHESE, technician of one Cooperative founded by Partisans with the purpose to assist Italian Military Authorities for the recovery of war material still lying in every place in the Liguria Region.

Agreements have already been made between the General Bontini and our Major Ardesio with a view to solve this problem through the work of unemployed partisans and through the institution of one Cooperative which will effect transport partly by carts and vehicles which have already started to work and for which, partly, the necessary had been done for testing and registration.

He is in possession of an approval for the first vehicle but this approval depended from the Allied Authorities so the I beg you to kindly consider this enterprise as an effort to effect a work necessary to our country and also to meet the unemployment problem of partisans.

Will you please give the necessary instructions as to the development of this enterprise.

Thanking you in anticipation, we remain

CONTRATTO DI LIBERAZIONE NAZIONALE PER LA LIBERIA
CONSO VOLONTARI DELLA LIBERIA

Genova 11 Luglio 1945

CONTRATTO MILITARE
n. 555/AA/30 di prot.

Al Maggiore Marshall
presso l'A.M.G.
Genova

Il testo della presente è in l'Ing. MARSHALL,
tenente di una Cooperativa promossa da partigiani che si
propono l'assistenza alle Forze Armate Italiane per il recu-
peri del materiale bellico ancora giacente in ogni località
della Liguria.

Sono stati presi da noi accordi, fra il Gen. Frattini
ed il nostro Com. Armato per risolvere questo problema
attraverso l'impiego di partigiani disarmati e con l'insti-
tuzione di una Cooperativa che effettuerà i trasporti, in
particolarmente con carri a cavallo e veicoli di cui aveva in carico le
materie in funzione e già superite, in parte, le pratiche di
colloquio e di amministrazione.

Sgli infatti è in possesso di un certificato di
necessità per un primo veicolo, ma l'approvazione dipendeva
dagli organi Alleati, per cui la prego vivamente di considera-
re che questa iniziativa è intesa a svolgere un compito neces-
sario al nostro Paese ed a ridurre la nostra parte partigiana
disoccupata.

Vede lei che orientamento deve essere dato alla
questione ed di suggerire quali iniziative ritiene più oppor-
tune.

Centamente ringraziamo per il suo cortese intervento.

G/31S A T POINTS

a. Transport. Italian transport for ITI ITI Units is still in short supply. 2 Guard Companies has arrived from 5th Army with only one vehicle for all domestic purposes and also for changing and feeding scattered guard detachments. This is hopelessly insufficient. There is still only a nucleus of vehicles with 2 Adm. Transport Company as per attached state. A.M.G. are using a number of vehicles with Italian Army markings.

b. Rations.

(1) Allied Element.

Close liaison on a friendly basis has been established with 42 B.S.D., and also liaison with them and O.C. 2 Deposits Speciale Vivari very satisfactorily arranged. A/O.C. 42 B.S.D. has been very helpful despite the fact that he is at present overwhelmed with other work. Liaison has been established between this office and Sq. Movements Genoa, and a very satisfactory working arrangement made with them. Bids for local moves of supplies, to Distribution Depots were not considered necessary by Major Haygreen DAQMS (M), since the majority of the Italian troops are in any case under British Command (i.e. Bri ITI's), and there is no local shortage of rail wagons. A/O.C. 42 B.S.D. has consented to load the initial 15 days consignment of Allied items for Distribution Depots direct to train in their sidings, and the first of such loading for Turin has been successfully carried out today (28 July). Remainder of loadings are being carried out as speedily as 42 B.S.D. can issue. O.C. RASC 60 Sub Area has provided transport for loading from 42 B.S.D. to train.

236418 lbs flour has been received from Naples Depots (50 & 51 B.S.D.'s).

(2) Italian Element.

Consignments have been received by road from Leghorn, and have been diverted direct to Distribution Depots. Lorries are arriving daily and will be sent direct to Distribution Depots until these hold the required figure for 15 days maintenance; the balance will be accepted in the Bulk Depot. No detailed figures are available as this situation is still fluid.

(3) Difficulties.

An unfavourable impression has been made by

7847

785020

Ten. Col. ROTTURA of the Commissariato who appears impetuous but inaccurate. Capt Eanallo, O.C. Bulk Depot, however, and Lieut Striglia, i/c movements, appear experienced, efficient and reliable. Some confusion has been caused by the fact that this office was not supplied with an up to-date ration scale of Italian items. May this please be provided?

Owing to domestic transport being V.O.R. it has not yet been possible to visit Alessandria and Turin. Efforts have been made to secure temporarily the use of an Italian Army vehicle through MMIA LO, NW Italy, since transport is an urgent necessity.

(4) Queries.

a. Is there any authorized scale for provision of a midday meal for Italian Civil Labour employed by the Italian Army?

b. 42 B.S.D. are enquiring as to the submission of AF'S 61680, to MMIA. Are they responsible? May present arrangements please be advised.

"G" Matters

1. The French are quiet; they must be watching every step they take.

2. There is still a little bit of uneasiness about the politics here.

3. No. 2 Territorial Hq. is moving an Italian Military Hospital from Savigliano, Italy to Hospital Colonia Bergamasca, 290 beds, Varasce, Italy. The Mantova Division will be staged in this area. Will this Hospital become an authorized Italian Military Installation?

4. The GOC, 2 Territorial Hq. has asked me the following questions about Nazi-Fascists, Republican Army, also.

a. The GOC, 2 Territorial Hq. is concerned about turning over to the Allies persons who collaborated with the Germans.

(i) All personnel who swore allegiance to the Nazi-Fasciste combine to be turned over?

(ii) Or only those who really collaborated with the Germans?

(iii) Or only those who committed crimes?

(iv) Who will take care of the turn over?

(v) Do we have to inform you only?

5. I took up the above matters with 60 Sub Area about ex-Republicans and they are completely in the dark. District 2 has referred the matter to AFHQ because here in Genoa they have over 500 ex-Republican Army Members in prison and AMG authorities were considering of turning them loose.

6. Is the responsibility of the GOC No. 2 Territorial Hq. ^{to} become involve in this sort of politics or should be "steer" clear?

7. Attached hereto letter from GOC 2 Terr. Hq. Genoa.

I would be grateful to you if you would kindly give me written information in regard to the matter that I took up both with General Bressan and you during conference held 3 July 1945, concerning the turn over to Allied agencies of personnel who collaborated with Germans.

The following are the informations required:

- all personnel who swore allegiance to the Naz-Fascist combined are to be turned over?
- or only those who really collaborated with Germans?
- or only those who committed crimes?
- who will take care of the turn over?
- do we have to inform you only?

SUBJECT: Military Hospital of Savigliano.

INFO to: MILITARY TERRITORIAL HEADQUARTER (II) GENOA

Ref.: Letter No. 566/OL dated 18/6/1945

1. Land Forces Sub Commission A.C. (MMA) has authorized for the Ligurian Region the reorganization of the Military Hospital of Genoa only and this at military rationing;

2. Military Hospital of Savigliano must be therefore either closed or changed at civil rationing;

3. Partisans, whose qualification has been recognized by competent Allied Military Authorities, should be entitled to the same treatment as servicemen of the Royal Army, as per circular No. 1/5757/Gen. dated 30/12/44 of this Ministry (D.G.S.M.): *Major Biondini no strictly civilian.*

4. Servicemen of the Fascist Republican Army should be turned over to Allied Authorities, as their prisoners of, being this impossible owing to their need of further medical treatment, transferred to civil Hospitals upon agreement to be reached with the local Allied Military Authorities.

SUBJECT: Drawing of rations for Military Hospital.

I am supplying you with requested informations concerning rations drawn by the Military Hospital of Genoa.

Hospital start to draw 9 June 1945 at the 203 DID.

The following are rations drawn from 9 June:

1. 1,740 military rations instead of 1,590, which correspond to the permanent service personnel. The 150 overdrawn rations were used by patients under medical examination (erroneously attached to the medical unit) who should have been fed, instead, with civilian rations.

2. 29 overdrawn rations for patients of the Royal Finance Guard and Public Security Agents, who should have been fed with civilian rations.

Hospital assured me that will underdraw above overdrew rations with the next drawing at the 203 DID, covering it with items to be purchased at the "Sepral".

Prot. No. 1400/1

OGGETTO: Prelevamento viveri Ospedale Militare.

Fornisco le informazioni chieste circa i prelevamenti
viveri effettuati dall'Ospedale Militare di Genova.

L'Ospedale ha iniziato i prelevamenti presso il 203 DID
il 9 Giugno c.a.

Dal 9 Giugno c.a. ha prelevato:

- 1°) - N°. 1740 razioni militari, anziché 1590, corrispondenti alla
forza del personale fisso di governo. La differenza di
150 razioni prelevate in più fu consumata da ricoverati in
osservazione (passati erroneamente in forza al reparto sa-
nità), i quali avrebbero potuto, invece, essere vettov-
agliati con approvvigionamenti presso gli organi dell'Alli-
mentazione civile.
- 2°) - N°. 29 razioni in più per militari ricoverati della R.O. di Fi-
nanza ed Agenti di Pubblica Sicurezza, che avrebbero dovuto
essere vettovagliati con approvvigionamento presso gli
organi dell'Alimentazione civile.

L'Ospedale ha assicurato che conguaglierà le razioni prelevate
in più con altrettante che ritirerà in meno nel prossimo preleve-
mento presso il 203 DID, soppianto con acquisti presso la "Seprel"

"Q" Matters

1. The French problem has eased off and have heard of no further developments.
2. With this new project, granting a special autonomous regime to the Aosta Valley may help tremendously.
3. Hand Bills were thrown about Genoa with a white hand on bill warning the populace of Genoa that something would happen in the near future to take head.
4. Major General Carter E. Magrason newly appointed Deputy to the Chief Adm. Officer AFHQ will also be interested in the Partisans.
5. Partisan activities are quiet in Genoa but very well "Oliques".
6. The 34th Division is still bivouached along the Ligurian sea. The 168th Rainbow Regiment, 1st Battalion patrols the International Boundary in the Italian Alps.
7. Hospital, Italian military in Savigliano all that I have knowledge is the Hospital "Villa Sanitas" in Genoa.
8. The artillery equipment recovered once stored in basement of apartment house, Via Pinocchio Aprile, Poca, has been transferred to Fort S. Martino. South Africans and 60 Sub Area assisted with load carriers.
9. Attached hereto messages intercepted by Civil Censorship. One created a bit of a stir, Major Ravens (Pavoni) speaking to Cingolani all matters were straightened out. The General mentioned as high officer inspecting Italian troops is General Cadorna.

HIGH OFFICERS INSPECTING ITALIAN BORDERS

Caller: I wanted to know if A.E. is left.
Callee: Yes, he left at 0800 hours for Alexandria. He inspected both the authorities and the battalion and he wants that the latter be fully efficient at earliest possible date. I brought to his attention that we are short of officers. He inspected the men in their quarter, and he spoke to each one of them; he gives consideration to the matter of hair-cut and shaving. I had everything ready for a parade but he didn't want it; he said that this is not a proper moment. He held an half hour conference with the officers insisting very much on the morale and material assistance to the troops. He wanted to quarter and eat with the officers at the barracks; He will be in Turin tomorrow. Usually he lives at 0730 hours in the morning. Now I give you the schedule: Thursday the 12th, he lives for Turin; he will arrive there the 13th. He will live for Milan the 14th morning, and the 16th from Milan for Verona I think.
Caller: Thank you very much for above informations

Caller: Volevo sapere se l'Eccellenza è partito.

Callee: Si è partito per Alessandria alle ore 9. Ha visitato le Autorità ed il Battaglione, vuole che al più presto questo sia in perfetta efficienza. Io gli ho fatto presente che scorreggiano gli ufficiali. Ha visitato tutti i militari nelle caserme, parlando molto con ciascuno di essi, tiene molto alla questione della barba e dei capelli. Io avevo preparato una rivista ma lui non ha voluto perché ha detto non sono i momenti. Ha tenuto rapporti agli ufficiali per una ora insistendo molto nell'assistenza morale e materiale alla truppa. Ha voluto alloggiare e pranzare in caserma con gli ufficiali. Domani sarà a Torino. Si solita lui parte alle 7,30 del mattino. Ora ti do il programma: Giovedì 12, parte per Torino, dove arriverà alle 9,30. Vi si tratterà tutto il 13. Il 14 mattina partirà per Milano. Lunedì 16 da Milano crede per Verona.

1. Inspected the 2nd Auto Trasporti Co. in the Proietificio at Legaccio, Genoa. Not much open car space; they do have two very large buildings, one for a repair shop and another for an indoor car park (garage). The roads and approaches used by this unit are very poor. The 304 S.E., 212 Army Truck Co. (B) occupy the main building to the main approach of the building occupied by the 2nd Auto Trasporti Co., Captain Sollen c/o of 212 Army Truck Co.

2. The Italian Military Bakery, civilian, which I inspected has only one oven. The bread was baked very well. The only disadvantage is that the civilian baker, bakes bread for civilian trade.

3. I previously reported the following unit drawing rations from 205 D.I.C. on an MIA OT/E form:

Transportation A.M.G.
Polizia Controllo Economico Compartimento della

Liguria.

This unit as reported by MIA, is unknown and does not appear on the order of battle; under this condition should this unit be denied rations, military, from D.I.C.'s ? This unit is under the command of the Ministry of Interior. Shouldn't the employing agency A.M.G. furnish the ration, civilian component ? This unit draws approximately 127 rations daily.

M.M.I.A. LG. GENOA
C/O 60 SUB AREA

7 July 1945

SUBJECT: Liaison Report No. 3

TO : Hq. Land Forces Sub Commission
A.C. (M.M.I.A.), APO 394, U.S. Army

1. Herewith is a report of activities of this office for the week commencing 1 July 1945.

- a. Movements of Italian Units: None
- b. Arrivals and Departures: Major General Browning and party.
- c. Conferences: Conference with Major Gen. Browning, Gen. Prattini, Col Chievarino, Brigadier Carr, Col Purves, Major Fairweather, Capt Pear, 503rd Guard Bn, 1st Guard Regiment, Major Archibald, RASC, 60 Sub Area, Major Frost, c/o 877 Co-Operators Art, U.S. Company B.S., Major Perry A/C 60 Sub Area, 1st Col Bovone, Comando Artiglieria No. 2 Territorial Hq. Genoa, and the usual routine conferences.
- d. Inspections:
 - (i) Special Food Depot (Bulk)
Warehouses of the Society "Macinazione Molini Certosa" located at Genoa-Riverolo, No. 15 Via Palavicini. Capacity: about 2,000 tons - 7,000 cubic meters.
 - (ii) Regional Military Food Distribution Depot
"Marebotto" Barracks (Caserma), Via Francesco Rolla. Capacity: about 1,000 tons - 4,000 cubic meters.
- e. Items of general interests:
 - (i) After conference with Major General Browning, General Prattini, GOC, No. 2 Territorial Hq. was enlightened to many of M.M.I.A.'s policies and he appreciated the conference.

7938

785020

- 2 -

I brought to light many matters and all were taken under consideration and action was taken.

- (ii) I have heard that some of the elements of the 5th Army may move into Genoa. This will be a hardship on Genoa for one thing the water supply is low and they too will want accommodations of some kind or another.
- (iii) It is my opinion that these Hqs here are going to "play ball" more as times going on.
- (iv) The No.2 Territorial Hq. will have to vacate one of its premises but 60 Sub Area is assisting with trucks, to move some recovered artillery stores. The building that the Italian Command must vacate is the "Magazzino Artiglieria" No. 31, Via Pinocchiaris Aprile. It was the basement of an apartment house on the shore front of Genoa that the Italian Command was using and now will billet South Africans. The whole matter was handled amicably and with satisfaction for all concerned.

f. Attached hereto appendixes A-B-C to this report.

"G" Matters

1. The French have encroached on Italian Territory. Attached hereto letter and list of items removed. The C.A.O. of San Remo is Captain Garigne and Val Savano comes under his jurisdiction. The Provincial Commissioner, Province of Imperia is Major H.R.S. Moddinotti.

2. Phase I is not completed yet and the Territorial Hq. has little or no power here. They have a passive position here.

3. The arms which are still in the hand of former partisans are a deep concern to all and all are a bit worried.

4. A strike in Genoa was averted the other day. The populace are getting a little uneasy about the politics being played here.

5. Major Hulze, No. 17 Town Major Genoa with the help of the Italian Army is reconnoitring the Area Monday for suitable billets and bivouac areas for the "Mantova" Division.

6. In Italian Military Hospitals are about 47 ex Republican Army Members. I took this matter up with 60 Sub Area and was told to table the matter until a decision was reached by District 2 with IV Corps. Awaiting decision.

7. Attached herewith copies of messages intercepted by Civil Censorship.

ARTILLERY DEPOT
ARMA DI TAGGIA

File No. 18

ARMA di Taggia, 6 July 1945

Subject: Ammunition dump of Val Gavano.

To : Artillery Detached Section

GENOVA

You are informed that today at 1200 hours a French non commissioned officer reported to subject depot stating that he was verbally authorized by the Allied Headquarters to withdraw all the ammunition existing at the depot. Workers of depot in question asked said NCO several times for proper documents without any result.

The non commissioned officer had 105 heavy trucks with him.

One of the two workers reached this depot by bicycle informing us of the above and thereafter the Allied Governor was informed through the local C.C.R.; the content of letter No. 177 dated 28 June 1945 from the Artillery Headquarters of Genoa was also explained to the Allied Governor.

Since above said Governor could not make any decisions, the matter was brought up to the Governor of S. Remo who answered exactly as follow: "the matter is of a minor importance - it only concerns a few ammunition and of course there will be an agreement between the Allied and French Headquarters".

Your Section is informed of the above requesting that we be notified, through Serg/Maj Bertolus Giacchino, if approval is granted; if no, we will comply with all instructions that your Section will deem it necessary to issue.

Loading of materiel started since 1215 hours; the amount of materiel already loaded and removed is not known.

SHADY DEALINGS OF GLYCERINE FACTORIES

Caller: The current price of distilled glycerine type S.U.- The one back in 1944 was of 40 lire and in the meantime I would like to know whether in Turin is the same price, and more or less even if they don't allow a black market price. I think that the black market price will be around 70 lire.

Callee: It would ~~not~~ be impossible to sell it here in Turin but certainly authorities wouldn't permit it.

Caller: But I don't want to sell it at an exaggerated price but at least I would like to make up my expenses plus those effected for the transport.

Callee: But of course you don't have to loose money on, you have to do your own interest; now I would like to know if you can supply me with said item.

Caller: It is impossible at the present since we are organizing the firm and furthermore because we are short of carbonate.

Callee: O.K.

Caller: Well, I have to come up to Turin, so we will discuss that up in a better way. Good bye.

SHADY DEALINGS OF GLYCERINE FACTORIES

Caller: Un prezzo di vendita della glicerina distillata ti 3.5. è quello che era in vigore nel 1944 cioè L.44; intanto io volevo sapere se a Torino fanno lo stesso prezzo, e più o meno anche se non aumentano il prezzo di borsa nera che non tollerino un aumento. Io credo che il prezzo di borsa nera si avvicini sulle 70 lire.

Callee: Qui a Torino è impossibile venderla ma certo che le autorità si appellano.

Caller: Ma io non voglio fare un prezzo cagurato, almeno da ricavare le spese maggiori che occorrono per il trasporto.

Callee: Ma sicuro, non vuole mica rimetterci; bisogna che anche lei faccia i suoi interessi; adesso vorrei sapere se potrebbe farmi avere di quella merce.

Caller: Per adesso non è possibile perché stiamo mettendo su lo stabilimento e poi manca il carbonato.

Callee: Va bene

Caller: Beh! io dovrò venire a Torino così parleremo meglio.
Arrivederci

This Command is doing all his best in order to make efficient as much vehicles as possible either through the skillfulness of his maintenance-personnel or through private repairing-enterprises.

As far as tyres are concerned, from which inefficiencies chiefly depend, this Command has brought the matter to the attention of the Ministry either proposing substitution and furnishing or purchasing from private enterprises.

"G" MATTERS

Ret APP. "A"

1. There may be some encroachment by the French. No. 2 Territorial Hd. received a telegram from one of their employees at Val Gavano. Telegram attached hereto. I immediately left for this place. The main road and bridges have been "knocked-out". The mountain road is full of obstacles and renders the road impassable. The only way that they could enter this town is from the north. I consulted Capt. Footen, C.A.O. Taggia and he did not know of any French units in the area. I went as far as San Remo and could not see any units. The C.A.O. was not in. Also that there were no French units in VENTIMIGLIA. I advised No. 2 Terr. Hq. to send a telegram to their employee and get more information i.e. name of French officer encroaching, unit, etc. and to have him send by post a complete list of items at this depot. I am waiting for further information.

2. It may have been only a French "Play-boy" Captain. I am not alarmed by this.

3. The composition of the forces encroaching may be small parties or individuals as this one showed.

4. Fifth Army has a rest Center in this area - Imperia to Ventimiglia. The 34th Div. is staged throughout this area.

5. If there are any French units here they will be "relieved" about the 10th of July. The politics about the French are on a "fine line".

6. The 1st Cd. Regt. Genoa, 60 Sub AREA is understrength by 35% caused by desertions. From cables received about incoming personnel it will relieve this situation.

7. The Territorial Hq. is function on all ITI-ITI matters. This is still a command area. Also, AMG Territory. The Terr. Hq. is working on the problem of depots. The districts are in position: Genoa, Savona, Cuneo, Mondovì.

8. There are no patriot bands roaming in this territory.

9. Many arms or weapons have not been turned in. They have kept small arms, the partisans. It is my opinion that with the coming of winter they may become active. The former, patriot bands may form into "gangs" and terrorise the countryside, for "hijacking" trucks. To use the arms against us. To wait until the time is ripe for a revolution. The situation can become extremely sensitive. Hereto attached list showing what is being recovered by AMG. Attached, list showing ammo dumps under allied control, 60 Sub Area.

10. Former patriot leaders are cooperating with the Italian command and the allies.

11. It is my opinion that the Italian are not trying to get "I" information on other nations. They cannot even get "I" information on themselves.

12. Coals has not yet arrived in Genoa. The factories are at a stand still. The employees are being paid full time. The employees have little or nothing to do in these idle factories. This gives them plenty of time to discuss politics and other matters. Which tends to make it dangerous. I did see one collier enter Savona.

13. The industrialists and politicians are "sparring" for positions here in their own fields.

14. The population of this city, Genoa, is very calm. Perhaps too calm. The other near by towns are full of communists.

15. Many posters are on walls but nothing detrimental towards the allies; everything not so nice has been removed.

16. The population resents are presences here. Sometime their attitudes towards us does not appear too "friendly".

17. I cannot see where the Italian Army is respected or wanted. They may tolerate its coming here again.

18. My conference with Lt. Col. McPhee, Prov. Comm. Genoa, was to bring about a general understanding of the Italian Army and the property being retrieved by the squads from the Prefettura. He also had knowledge of the prefect selling retrieved property, ammo, explosives, etc. . It was agreed upon that a commission be set up or formed for the sole purpose of determining the rightful owners of properties retrieved. The practice of selling items retrieved would cease forthwith. To publish a decree for the return of all enemy or State properties in conformity with order published by 5th Army AMG. The explosives were needed for demolition work, to keep mines operating, etc. The rightful ownership of the explosives was never determined. This came to my attention after the explosives had been removed. The Prov. Comm. brought out the fact of public safety and where these particular items of explosives were stored was in a tunnel coming away from the Port with railroad connection. Making this a hazard. The No. 2 Terr. Hq. will have to speed operations up a bit. Major Davis, 5030 Area is in charge of removing mines in the Port of Genoa.

19. Gen. Frettini GOC No. 2 Terr. Hq. lacks tact and diplomacy. He had a bit of an argument with the Prefect Errico Martino but I believe I smoothed the affair over. Prefect Errico Martino is a liberal.

20. The Port of Genoa is indefinitely closed. A mine-sweeper was blown up killing about 18 about the sweeper. Although one quay is working.

21. It is the belief that by the middle of July the railroad will be operating from the south to Milan.

22. Major Bird has full knowledge of the above.

1. Recruiting is going very slow here.
2. These ex-patriots do not want the discipline of a regular army. They had it figured out that they would be brought into the army as units and that the leaders would receive army commission.
3. The pick of the partisans are with the S.A.P.
4. It is my opinion that there is a lack of interest on the part of the civilians coming into the Italian Army. They may change their mind when winter comes and they have to tighten their belts a few notches. They want to see a radical change over the Italian Army.
5. They would rather recruit for the Far East than do "Homeguard duty". Attached message intercepted by Civil Censor, for recruiting.

ARMY RECRUITING - PAR EAST

Caller: Si è sparata la voce qui che c'è un arruolamento volontario per l'Estremo Oriente.

Calles: Anche qui sono venuti vari giovanotti per vedere, ma noi non dell'arruolamento nell'esercito regolare non abbiamo.

Caller: anche qui c'è questo. Pare però che questo arruolamento sia stato indotto a Milano, quindi è bene interessarsene.

Calles: Bene, guarderò ed interverrà presso il Comando Generale.

COMMENT
ARMY RECRUITING - FAR EAST

Caller: Rumours spread out here that there is a volunteer recruiting for the Far East.

Callee: Also here some youngsters called and asked about this matter but we are charged only for the enrolment in the Regular Army.

Caller: Just the same, here. It seems however that the enrolment in question be announced in Milan. Hence it is advisable to look after the matter.

Callee: Well, I shall see and will intervene by the General Headquarters.

Via Balbi, tel. No. 62509, CO. "N" 2675
Regt. AC.
- (ii) Office - M.E.I.A. 10. Genoa, Gaslini
Building - No. 7 Piazza Dante, Stairway
No. 2 (rear) 4th floor.
Town Major Genoa in front part of building.
Request for telephone has been submitted
to 60 Sub Area.
- (iii) This is still an Army controlled area
and I am using a "yellow light".
- (iv) 57 Sub Area is no longer in Genoa. 60
Sub Area has taken over. Commander of
60 Sub Area - Col. A.G.L. Purves, M.C.
- (v) Reception and transmission of communications
arranged with 60 Sub Area.

- (vi) "Off Limit signs M.M.I.A." are invalid here. Received instructions from Major Bird as to procedure.
- (vii) No. 2 Territorial Hq. is preparing a list of buildings now in use and those anticipated to be used in the near future. Copies will be forwarded.
- (viii) The Italian Command here is busy collecting properties and storing it.
- (ix) I proposed to Gen. Prattini it was the desire of M.M.I.A. that inventories of all properties under his control be prepared. Upon completion of inventories list will be forwarded.
- (x) It appears to me that officers living in or about this area are being transferred illegally. The policy laid down by M.M.I.A. is not being adhered to. The officers in question are seeking rations with orders written by other Commands. The cases I can cite for the present are as follows: Capt. Bruno Perrati, Comando Genio ? in the employ of Claims and Hirings. Capt. Aldo Mordiglia attached to the Legal Office Liguria Region A.M.G., formerly with Legnano Combat Group. There is still another group to arrive here; they will work with P.W.B. as Military Censor? I believe also that they are being secured away from their original employment. Major Bird has full details and no unauthorized rations without the knowledge of MMIA.
- (xi) I am in contact with Major Bird for policy and complete instructions as to new developments.
