Ref. your A/3/166 of 6 Aug/45.

1. The Combat Force is equipped from Br Sources.

2. The present stock of handkerchiefs for the whole Italian Army represents about ½ handkerchief per man. There is therefore no immediate prospect of a large issue to the Combat Force unless made by Br Ord.

4221

3. As soon as the prospect improves you will be advised. We have not yet obtained release from AFHQ of any captured stock which will help. There is also the snag that as handkerchiefs are not on the scale I have no basis to demand from Br Army. We will do what we can.

Ref your Q/OS/29 of 8 Aug.(Indents-382 Ord.Coy) and Q/OS/29 of 8 Aug.(Indents-21 and 22 Engr.Coys), I am afraid I am NOT in a position to go through indents in detail with BR-ITI units, situated as far apart as FOGGIA, TARANTO and SALERNO, after they have been certified by the British supervising officer, and I can NOT believe that it is intended to be part of my functions.

2. 3 District have already justifiably complained of the delay involved in equipping BR-ITI units, which will be seriously aggravated if this additional hurdle is to be interposed.

3. All that is required according to MMIA directives is for the stores if available from Italian sources to be released through Italian channels, or if NOT available, a certificate to that effect from War Ministry endorsed by you, so that application can be made to British supply sources.

4. I am returning the indents herewith.

1. The War Ministry copies of indents for stores by 21 and 22 Engr.Coys vouched this H.Q. on 1 Aug/43, they are dated 15 May and 7/10 May respectively.

2. These indents appear to have been prepared with the object of equipping the unit with all items on the UEL, as the latter were a scale of equipment which the unit should hold.

3. It should be stressed to the units concerned that this is not the case, and that the UEL is in fact a list of equipment which may be issued to units, (and beyond which issues cannot be made) if that equipment is needed for the work on which the unit is employed.

4. The indents in question have been examined by the competent branches of this H.Q., and in general it is considered that many of the items should not be required in the present circumstances.

5. In view of this opinion and the length of time which has elapsed since the indents were prepared, these indents should be returned to the units with an explanation of the position. They should then indent again for any items which are genuinely needed in their work.
