In agreement with AMMA, it has been decided that in order to avoid inconveniences and abuses, and also any possibility of inequality of treatment, henceforth no move of stores on behalf of civilians will be granted under the allocation allowed to the Military Administration, even though they may be destined for the use of that Administration.

As a result of the above, as from the next programme (24 - 30 Jun 1945) requests will be made only for stores which are already the property of the Military Administration.

For this purpose the following details of the stores requested are required :-

(1) Whether the Stores belong to the Military Administration.

562 MINE CLEARANCE COY (A.C.)
563 MINE CLEARANCE COY (A.C.) Move from PESCARA to CESENA.

1. Ref your 9/8A/CA of 21 April.

2. Movement of these units, together with move of all other ITALIAN Units under command Allied HQs is arranged by AFHQ when the Allied HQ cannot make its own arrangements. Application should therefore be made direct to AFHQ (attention G-3 ORG FOREIGN) stating actual strengths by offrs and OR's of the parties to be moved by rail; together with a note of a tonnage of stores and equipment to be lifted. For your information unless reasons for special urgency are quoted in the request the move would not normally be arranged for a date prior to 6 May. There is however no railway between PESCARA - CESENA (except via FOGGIA - ROME). Perhaps Tn Sub-Com.could assist.

3. Reference your para 2. On receipt of a copy of the movement order - which should state under whose command the companies are going to operate - the War Ministry will be ordered by this HQ to make the necessary Adm arrangements which in the case of Cat 5 ITI-ITI Units would probably be through Territorial HQs.

4. Telephone conversation Maj Remkes - Capt Mann today refere.

Declassified E.O. 12356 Section 3.3/NND No. 785020

1. Ref your 9/8A/CA of 21 April.

2. Movement of these units, together with move of all other ITALIAN Units under command Allied HQs is arranged by AFHQ when the Allied HQ cannot make its own arrangements. Application should therefore be made direct to AFHQ (attention G-3 ORG FOREIGN) stating actual strengths by offrs and OR's of the parties to be moved by rail; together with a note of a tonnage of stores and equipment to be lifted. For your information unless reasons for special urgency are quoted in the request the move would not normally be arranged for a date prior to 6 May. There is however no railway between PESCARA - CESENA (except via FOGGIA - ROME). Perhaps In Sub-Com.could assist.

3. Reference your para 2. On receipt of a copy of the movement order - which should state under whose command the companies are going to operate - the War Ministry will be ordered by this HQ to make the necessary Adm arrangements which in the case of Cat 5 ITI-ITI Units would probably be through Territorial HQs.

4. Telephone conversation Maj Reakes - Capt Mann today refers.

MGIA (in reply to GT/102/11 of 28 Mar 45)

SUBJECT:- SOLDIER ESCORT FOR MILITARY TRANSPORT.

The rule of military escorts for the transportation of materials, rations, etc, is governed by the orders in our 653/519 of 22 Jan, copy attached for MGIA.

In accordance with the orders referred to, Military escorts must accompany the transport - whether by rail or ordinary means - from the place of departure to the destination.

Therefore we ask the Comandi Militari Territoriali to give orders so that the difficulties quoted by MGIA should cease, which are due to the system adopted by various units allowing a change of escort during the journey. Such difficulties are known to be prevalent in Catania.

We ask the Territorial Commands to acknowledge this letter.

SUBJECT:- DEFICIENCIES IN MATERIALS, RATIONS ETC BELONGING TO THE MILITARY ADMINISTRATION DURING TRANSPORTATION. SHIPMENTS UNDER ESCORT.

This Ministry is frequently informed, by various units under its command, of deficiencies in materials, rations, etc, belonging to the Military Administration, which are discovered on the arrival of the goods, whether despatched by ordinary means or rail.

It should be borned in mind that such deficiencies would not take place if the units concerned arranged a more efficient escort for the transport, and also it should be remembered that in accordance with our order N° L189 of 17 August, the transportation of goods on the State Railways is accepted only at the risk of the consignor. In order to guarantee the transportation of the goods belonging to the Military Administration and to check up upon the eventual responsibility of units held responsible, this Ministry considers it opportune to call the attention of all to the relevant orders, which are reiterated below:-

1. Whatever the means of transportation may be, whether by rail or ordinary means, the unit responsible is obliged to see that the safety of the load and the discipline are guaranteed by means of arranging a suitable escort, having first come to an agreement with the local Allied Authorities on their armament (See Min of War - Cabinet - circular N° 305777/2/CA of 7 Dec 44). This Ministry is frequently informed, by various units under its command, of deficiencies in materials, rations, etc, belonging to the Military Administration, which are discovered on the arrival of the goods, whether despatched by ordinary means or rail.

It should be borned in mind that such deficiencies would not take place if the units concerned arranged a more efficient escort for the transport, and also it should be remembered that in accordance with our order N° L189 of 17 August, the transportation of goods on the State Railways is accepted only at the risk of the consignor. In order to guarantee the transportation of the goods belonging to the Military Administration and to check up upon the eventual responsibility of units held responsible, this Ministry considers it opportune to call the attention of all to the relevant orders, which are reiterated below:-

1. Whatever the means of transportation may be, whether by rail or ordinary means, the unit responsible is obliged to see that the safety of the load and the discipline are guaranteed by means of arranging a suitable escort, having first come to an agreement with the local Allied Authorities on their armament (See Min of War - Cabinet - circular N° 305777/2/UA of 7 Dec 44). This is both in the utmost interest of the transportation and also to avoid any impression that the Allied Authorities may get of lack of interest on the part of the Military Administration.

2. The escort must be found out of personnel who can be absolutely trusted in their ability and character, and when possible it should be formed out of the unit re[illegible] the goods. The escorting personnel, by order of the Allied [illegible] will wear a red distinguishing band on their l[illegible] supplied by the consignor unit. Personnel not [illegible] armbands will not be recognised as escorts by Allied railway authorities, and will be remove[illegible] wagons. precise instructions to the commander of the escort party, so that he makes certain during the halts that the load has not been tampered with and that the seals attached when the railway wagon was closed are still intact. The nearest Garrison, Carabinieri, Military or station authority should be told at once if there is any suspicion of the goods having been tampered with or any abnormality during the journey which could endanger the rest of the transport.

4. When the truck or railway wagons are uncovered, the escort must be adapted to these circumstances and must take post at the back of the truck or wagon, so as to be in the position to intervene for the safety of the wagon, the goods and the escorting personnel.

5. Any irregularities whatsoever must be reported at once in writing at the time of the arrival of the transport to the Mil Territ unit concerned, and to this Ministry and the consigning unit, for information.

6. Any deficiencies discovered must be certified with all urgency, in the form laid down by the Article 17 of our "Administrative Instructions for Troops in the Field". In such a case, the receiving unit will at once provide for the compiling of the prescribed report by the commander of the escort, bearing in mind that the same report, before the Authorities concerned are to decide if the charge has to be made or not, should be sent to the Mil Territ unit under whose command is the unit sending the transport, so that it may be able to examine the escort commander's reasons and excuses. When units are under command of different Mil authorities, the question will be sent to this Ministry for a decision.

7. When a determination of the causes has been reached, a detailed report of the crime must be supplied at once by the unit concerned for the Tribunal which is to deal with the person held responsible.

Addressees must give the maximum amount of publication to these rules which corroborate those in our Circular 329/98 di prot of 8 Dec 1944. Everyone must be reminded that the Commanders are held responsible if these rules are not carried out exactly. 5797
