Subject :- Movement of Italian Military Stores Traffic in Northern Italy.

To :- SHAE. (Ufficio Trasporti)

Land Forces Sub Commission. AC,
(12MIA) Tel: ROME 478206.
Ref: Mov.M 54/4.
15 Sep 45.

The following details in respect of the movement of Italian Military stores traffic in Northern Italy (North of the Southern boundary of EMILIA) is forwarded at the request of Col. BERRETTI.

(1) The only line in Northern Italy which is controlled by the AFHQ. Priority of Movements Conference, is the line from BOLOGNA to VERONA. Traffic over this line will in ALL cases be included in the programme of movements requests submitted by the Ufficio Trasporti to this office.

(2) Local moves within the limitations shown in paragraph 1 above, will be arranged by direct Liaison between the Delegazioni, and British Movement Control.

(3) Details of local movement arranged by Delegazioni, will be sent to your H.Q., and to this office weekly, in order that a close check may be kept that the traffic is in fact solely for the maintenance of the Italian armed forces.

(4) This procedure has been agreed with M.M.I.A. L.O. Milan, who states that he discussed the matter with 2 District after being approached by heads of Delegazioni Trasporti. Owing to distances involved and difficulties of communications, it would appear that this is the best procedure that can be adopted, as much time would be wasted if all local movement requests were passed to M.M.I.A. L.O. Milan for screening.

(5) In any cases of doubt, M.M.I.A. L.O. will be approached directly.

S/Capt. [illegible] (M).
(The Lord Westbury),
Movements Liaison Officer.

Declassified E.O. 12356 Section 3.3/NND No. 785020

Col. CLEMENTI.

(1) The only line in Northern Italy which is controlled by the A.M.G. Priority of Movements Conference, is the line from BOLOGNA to VERONA. Traffic over this line will in ALL cases be included in the programme of movements requests submitted by the Ufficio Trasporti to this office.

(2) Local moves within the limitations shown in paragraph 1 above, will be arranged by direct Liaison between the Delegazioni, and British Movement Control.

(3) Details of local movement arranged by Delegazioni, will be sent to your H.Q., and to this office weekly, in order that a close check may be kept that the traffic is in fact solely for the maintenance of the Italian armed forces.

(4) This procedure has been agreed with M.M.I.A. L.O. Milan, who states that he discussed the matter with 2 District after being approached by heads of Delegazioni Trasporti. Owing to distances involved and difficulties of communications, it would appear that this is the best procedure that can be adopted, as much time would be wasted if all local movement requests were passed to M.M.I.A. L.O. Milan for screening.

(5) In any cases of doubt, M.M.I.A. L.O. will be approached directly.

Subject: Prevention of pilferage of stores in transit.

Land Forces Sub Comm. A.C.
(M.M.I.A.) ROMR.
Q.14.6

27 August 1945.

To: MINISTRY OF WAR.

Stores continue to be lost by pilferage during transit by rail, and you are requested to instruct Territorial and Div. H.Qs. to take the following precautions against such loss:

(a) Wagons must not be accepted for loading if they are so damaged as to be unift to hold stores.

(b) Vents and doors must be properly closed immediately on completion of loading.

(c) Wagons must be securely locked and sealed.

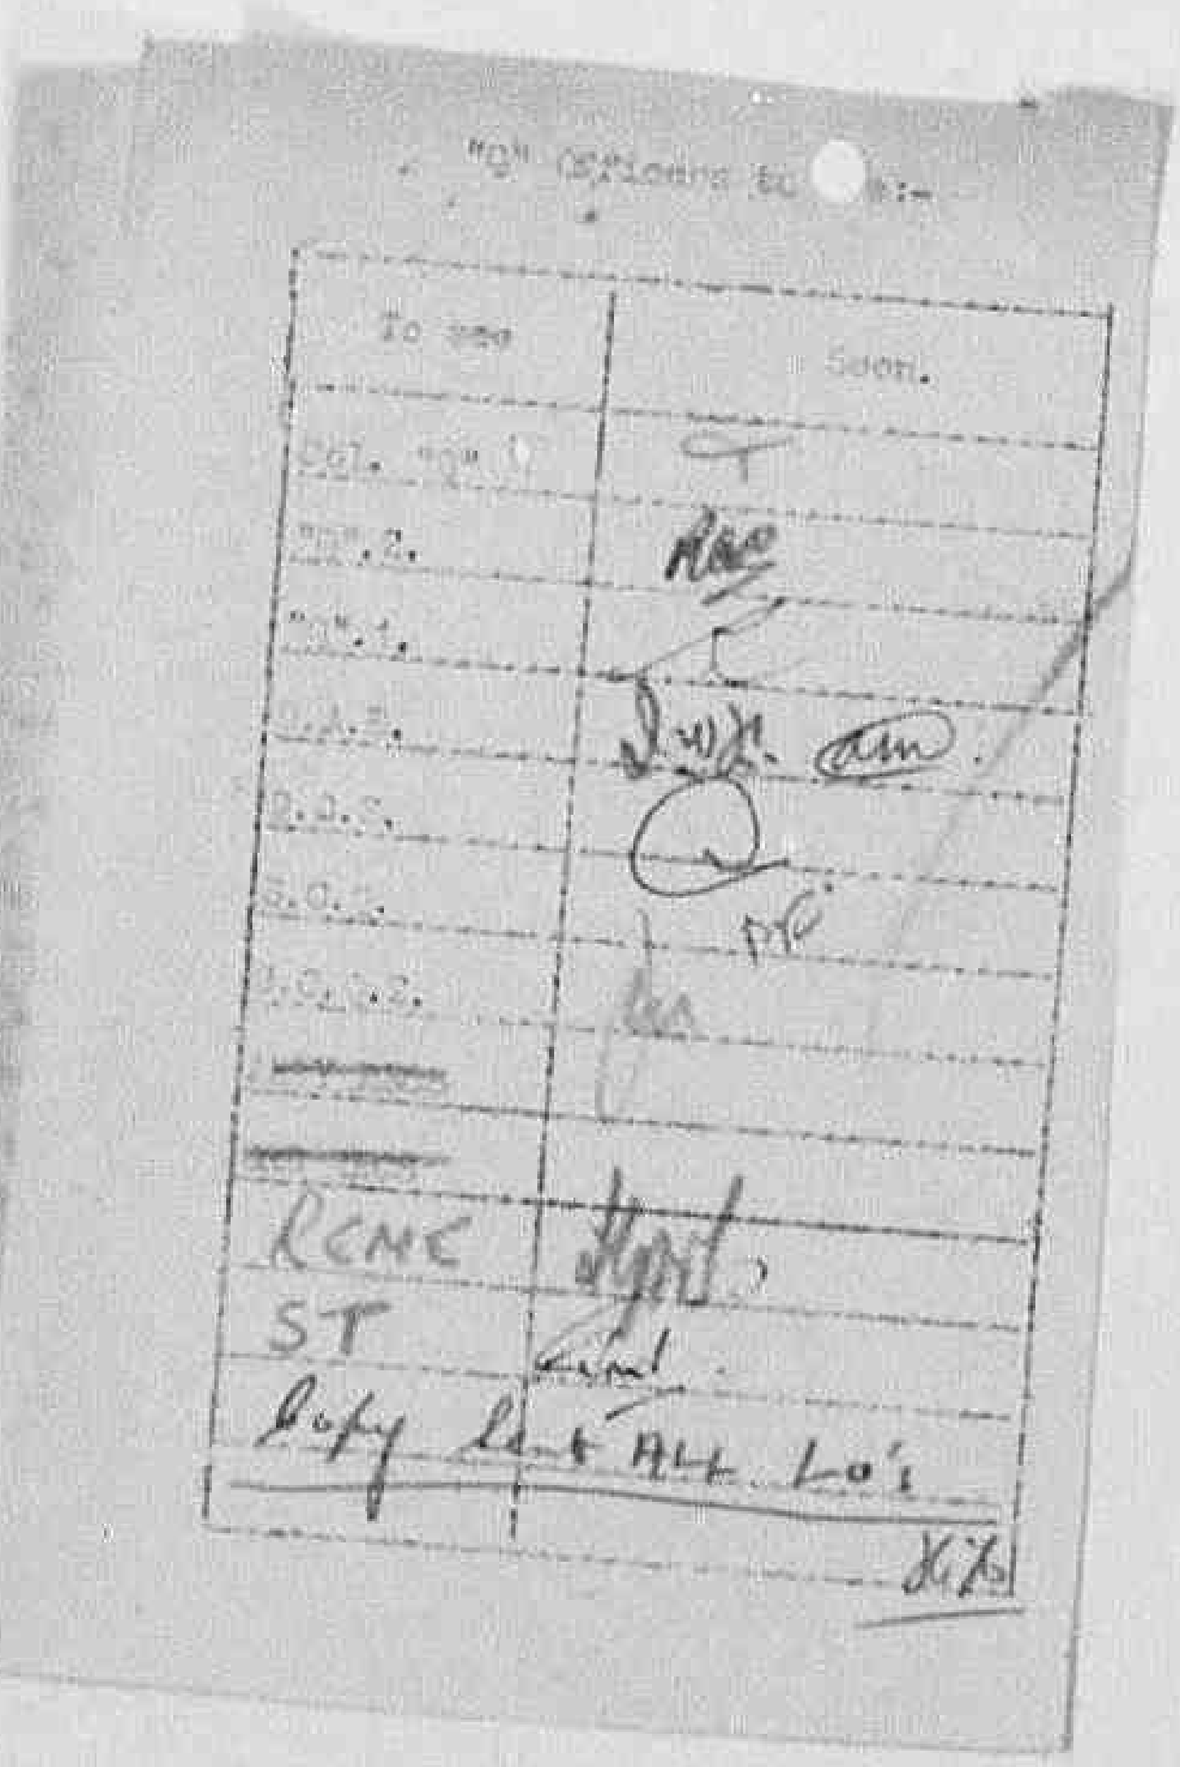

If these precautions are taken, the checking of wagons in transit by Train Guards, and the investigation of pilferage, will be made much easier.

F.J. NOAKES, Col.
for Major General.
Land Forces Sub Comm.
M.M.I.A.

1. There is still much that can be done by Services to assist Train Guards and depleted Movement Staffs in their efforts to prevent pilferage of freight traffic.

2. The following irregularities in loading are prevalent at the moment:-

(a) Wagons are accepted and loaded which are already damaged and unfit to hold stores. Movements personnel are not numerous enough to check every wagon before it is placed for loading.

(b) Wagon vents and doors are not properly closed.

(c) Sealing and securing of wagons is carried out either imperfectly or not at all.

3. The checking of wagons in transit by Train Guards, the investigation of pilferage and establishment of "black spots" where thefts are usually prevalent, are all made more difficult as a result.

4. Services are asked to give closer attention to loadings in their installations and at railheads. Shortage of Acme Seals and Shackles wagon sealing should be reported to this Section.
