Q/15/1

Subject: Clothing for military hospital patients.

Further to request by this Ministry, M.M.I.A. has granted the authority for the forming in military hospitals of a clothing store for meeting the indispensable needs of the patients on discharge.

A list of the hospitals which are considered to have need of such stocks is shown in Appendix A, together with the number of sets of clothing authorised. This quantity is based on 5% of the patient strength.

The items of clothing to be issued are shown in Appendix "B". These will be issued at the discretion of the Director of the Hospital who must make sure that the discharged patients are in possession of only one of indispensable items of clothing.

Under no circumstances must it be attempted to issue to a complete scale.

For the replacement of items issued, the hospitals, on the 10th of each month, will

- forward direct to this Ministry, using the correct form, the request for the items to be replaced.

It must be made clear on the form that the items are being requested in order to maintain the authorised stocks, making reference to M.M.I.A. letter AQ/10/1 of 5.2.45.

129

~~Together with form~~

The situation in respect of the materials, as at the 10th of the month in which the request is made, must be enclosed with the form.

It remains understood that the said requests must be sent only for the replacement, in view of the fact that the initial forming of the stores referred to in Appendix "A", is arranged for, separately, on the basis of specific authorisations already received from M.M.I.A.

TO : MMIA LO Bari for Capt. Castner.

1. You will recall our conversation when I was last in Bari on the matter of a Weekly Report similar to the one which you had furnished for the period 18th of December to the 13th of January.

2. Arrangements for a similar report from Naples area has already been made, and attached hereto is a copy of the original Weekly Report forwarded to us by Capt. Pennatti. The information given is the same as requested from you, with the exception that it shows only the production for the period concerned, and omits any reference to the accumulated totals.

3. The arrangement of the report from Pennatti is very good, and for the sake of uniformity and comparison, we would like to have your reports made out in the same general form. It will not be necessary to add an additional column listing the accumulated totals, unless you specifically care to do so for your own information. Arrangements will be made to keep an accumulated and consolidated total of both Bari and Naples reports here in the main office.

4. It will be noted that Naples reports are coming in covering weekly periods from Sunday to Saturday inclusive. For the sake of comparison, your reports should be spaced in the same manner and cover the same periods.

2/15/16

1. It appears that in the former Italian Army Handkerchiefs were issued on the scale of two per man.
2. Cremona Gruppo being deficient of 3200 approached the Ministry of War with a request for the supply of this number.
3. The Ministry of War in their letter 5971 dated 18 Jan stated that they could not deal with this demand in view of the fact that you had instructed that it should be submitted by the Gruppo through the BLU to the next higher fm.
4. Since handkerchiefs are NOT issued to the British Army personnel this case would appear to fall into the category of purely Italian Adm and therefore NOT submissable through normal channels of comm.
5. It would seem that the Ministry of War have misinformed the Gruppo and since it is desired to give a definite ruling as to the method of procuring the handkerchiefs will you please define the policy.

In answer to letter A.Q. 15/1 Dated 20 Jan 1944

To: M.M.I.A.

Subject: Transferring of Italian Barrack material from Sardinia

In relation to the A.Q. letter it is communicated for your information that the Barrack accommodation stores surplus to requirements are in course of transfer, and one load has already arrived at Naples and Palermo.

It is thought necessary to point out that the SMRE has requested that bedding material should be left on the Island for 22000 men.

From figures we have arrived at, it results that the dispatch of the following has been effected.

Blankets	No	1782
BATH TOWELS	"	76
COVERS FOR STRAW MATTRESSES & PILLOWS	"	468
IRON TRESTLES	"	594
SHEETS	"	3295
MATTRESS SUPPORTS	"	176
SMALL BOARDS	"	61
STOOLS	"	3800
STUFFED PILLOWS	"	35600

It is further noted that we are waiting on the lists of material that has already arrived at Naples central dump, ~~and at Palermo~~, this being due to lack of space at their disposal, as already referred to in letter No 748/C. Dated 27 Jan 1944.

It has been communicated that a quick dispatch of the remaining material is desired, and also that the lists of material that has arrived in Naples and Palermo be forwarded as soon as possible.

Dai dati finora qui pervenuti risultano effettuate le seguenti spedizioni:

1. Reference your 7138/V of 10 Feb.
2. Although the target figure for this call up is 16,000, it is considered unnecessary at this stage to plan or move material to meet the requirements of more than 8,000 personnel.
3. Authority is, therefore, given to move the following items from Naples to augment stocks in Calabria.
 - a. Blankets -- 6,000
 - b. Spoons -- 4,500
4. Authority cannot at present be given to move mess tins in view of the fact that local manufacture in Calabria will probably meet the full requirement, and as 2,872 large type are reported in the Catanzaro depot.

(148/1)

Subject: Manufacture of uniforms for Carabinieri.

We have received a request to authorize the Carabinieri Legion Command of Abruzzi to tailor 4 uniforms for soldiers of exceptional size, by using 8 cloaks recovered by said Command.

This Ministry favors the request because these cloaks cannot be used as such - since they are no longer regulation clothing - and the General Carabinieri Command may find it difficult to provide uniforms for the 4 over-sized soldiers, since only normal-size uniforms are available.

In any case, these uniforms will be deducted from the amounts to be delivered to the above-mentioned General Command.

Please let us know whether the foregoing meets with your approval.

Clothing and Equipment for Officers.

The well known difficulties encountered by the officers to clothe and equip themselves have caused, as it is known, the adoption of arrangements to ease and overcome, at least partially the difficulties encountered in withdrawal on repayment of Clothing and equipment articles from Military Depots

Such arrangements have been helped, as far as uniforms and overcoats are concerned, as there is an availability of cloth of a special type, in the Military Depot, this cloth while not being adequate for the requirement of the troops, afford, on the other hand, the possibility to provide the officers with a cloth to make an uniform befitting their rank.

however this cloth is nearly exhausted, while the demands to be satisfied are numerous ^{as it has} ~~it will~~ not been possible to provide with clothing articles all the officers requiring them. more over as the comes up ⁶⁷³⁵ to this date have been made to officers having lost their personal belongings while the same arrangement also applies to categories which up to ~~the~~ day have been excluded from the scheme.

This ministry therefore consider to use for clothing of officers, together, with other known articles, the Grey Green cloth normally used for clothing of troops, as it was done in the past.

Considering that, out of the number of officers in service, many are being employed by the Allies, who provide for their clothing. Others, have already been granted issue and thus their need have been satisfied, ^{may} there is a number of about 3000 officers which ~~would~~ be in a position to request clothing articles.

We therefore beg M.M.A. to authorize as far as it is possible for this ministry to use the Grey Green cloth for the clothing of officers. retaining the ruling that a separate request will be made to M.M.A. for each officer.

Should the cloth not be available, ready made uniforms ^{in exceptional cases} could ~~exceptionally~~ be issued in lieu.

Div. V/2

1.2.1945 7063/V

Risposta al T. 4.2

OGGETTO Oggetti di v.e. per ufficiali.-

Le notevoli difficoltà che gli ufficiali incontro-
no per provvedere alla loro vestizione hanno, com'è noto, imposto l'a-
dozione di provvedimenti intesi a superare, almeno in parte, le diffi-
coltà stesse mediante il prelevamento a pagamento di oggetti di v.e.
presso i magazzini militari.

Tali provvedimenti, per quanto riguarda le divise
ed i cappotti, sono stati agevolati dalla circostanza che presso i ma-
gazzini esistevano tessuti di tipo speciale, che, mentre non erano uti-
lizzabili per le comuni esigenze della truppa, offrivano, d'altra par-
te, la possibilità di dotare gli ufficiali di capi di corredo adatti
per la loro decorosa vestizione.

Tali tessuti sono però pressochè esauriti mentre
numerosi sono ancora le esigenze da soddisfare, non essendo stato pos-
sibile provvedere degli oggetti di corredo tutti gli ufficiali abbiso-
gnevoli; tanto più che le concessioni fino ad ora accordate ^{7.11.45} sono sta-
te riferite ai soli casi di perdita del bagaglio personale, mentre ana-
loghe necessità sussistono anche per le categorie fino ad ora escluse

Le notevoli difficoltà che gli ufficiali incontrano per provvedere alla loro vestizione hanno, com'è noto, imposto l'adozione di provvedimenti intesi a superare, almeno in parte, le difficoltà stesse mediante il prelevamento a pagamento di oggetti di v.e. presso i magazzini militari.

Tali provvedimenti, per quanto riguarda le divise ed i cappotti, sono stati agevolati dalla circostanza che presso i magazzini esistevano tessuti di tipo speciale, che, mentre non erano utilizzabili per le comuni esigenze della truppa, offrivano, d'altra parte, la possibilità di dotare gli ufficiali di capi di corredo adatti per la loro decorosa vestizione.

Tali tessuti sono però pressoché esauriti mentre numerose sono ancora le esigenze da soddisfare, non essendo stato possibile provvedere degli oggetti di corredo tutti gli ufficiali abbisognevoli; tanto più che le concessioni fino ad ora accordate ^{67/10} hanno state riferite ai soli casi di perdita del bagaglio personale, mentre analoghe necessità sussistono anche per le categorie fino ad ora escluse dal provvedimento.

Questo Ministero è pertanto del parere di utilizzare per la vestizione degli ufficiali, unitamente agli altri noti oggetti, anche il tessuto di panno g.v. usato per il confezionamento delle uniformi della truppa, già impiegato in passato per la stessa esigenza.

Considerato che, della massa degli ufficiali in servizio, molti sono impiegati direttamente dagli Alleati, che provvedo

.../...

no direttamente alla loro vestizione, altri hanno già fruito della concessione e sono quindi da ritenersi soddisfatti, rimane un contingente di circa 3 mila ufficiali che potrebbe trovarsi in condizione di richiedere il prelevamento degli oggetti di v.e.

Si prega pertanto codesta M.M.I.A. di voler autorizzare, in via di massima, questo Ministero a destinare per la vestizione degli ufficiali il tessuto di panno G.V., fermo restando la specifica autorizzazione da richiedere di volta in volta a codesta M.M.I.A. per i singoli ufficiali.

In caso di mancanza di stoffa potrebbero essere ceduti, in via di eccezione, oggetti confezionati.-

TO : Colonel Kerr

1. Attached is a copy of the stock state on gas clothing called for from the Ministry of War.

2. They show 466 serviceable suits at the Acquaviva delle Fonti Depot, which is the depot Capt. Pacini originally inspected. I spoke to Capt. Pacini on the phone to-day. He is sending the results of his second inspection by letter. However, he gave me the following figures on gas clothing at Acquaviva Depot:

250	Serviceable uniforms "Sardinia" type
214	" " Model 30
464	" " Total-as against- 466 reported by

The Ministry of War. Capt. Pacini also said there were 164 useless and 136 unclassified suits on hand at the Depot. These figures are not shown on the War Ministry's return.

3. A surprise to me was the disclosure on the heading of the letter from the War Ministry that the anti-gas equipment in the Italian Army is the concern of the Direzione di Sanita.

Mess tin and spoon for the recalled and recruits of
PUGLIA and LUCANIA.

to confirm verbal communication. we advise that:

The number of spoons at the NAPLES Communist Directorate is
12,000 and the number of mess tins is 20,000.

The arrangements taken by the manufacturers and the Directorate
reveal that:

SAFOR firm will assign 10,000 spoons on the 14 inst.
and a further assignment of 10,000 spoons weekly until the quota
of 60,000 spoon is reached.

GOVERNAL firm will assign 3,000 mess tins weekly as
done actually now.

This above allows us to look upon the supply of
said material with a certain tranquility of mind and therefore
we beg MMIA to authorize the shipment from NAPLES to
BARI of the 12,000 spoons to comply with the assignment already
made. 6719

It is not possible to assign any mess tins for the moment
on a scale larger than that of the spoons and however think it
possible to sent to Bari the 3,000 mess tins still needed to
face the requirements of troops arriving in PUGLIA and LUCANIA.

Two Italian Coys have been allocated for Train Guard duties by No 3 District. Considerable difficulty has been experienced in the past owing to these Italian units being deficient in clothing and boots, and vehicles. Will you please represent to MIA that the units recently allocated must be properly equipped and that each has at least 2 vehicles with the necessary authority to draw POL.

There have recently been added to the administrative strength of 231 Div. the 502, 503 and 519 Guard Battalions (category III-III), total strength approx 1,500 for the moment - which will increase to 2,000 when they are at full strength.

The policy for clothing such battalions has been declared in MIA Signal AQ 2675 of 27 Jan (Copy attached for 'Q').

Therefore I propose - with your approval - to include these battalions in the next clothing allocation from 231 Div. Clothing Depot. Their inclusion in subsequent allocations should, I suggest, be made to depend on whether or not the previous issue has been made good to the 231 Div Depot in the meantime.

In this way, the just priority of BRITIS employed by Brit. Iner. will be adequately safeguarded.

Herewith 5 copies of an indent for stores submitted to War Ministry by H.Q. 1 Gd Regt on 11 Jan 45.

This indent was returned to the unit on 9 Feb by the War Ministry with instructions that all such indents should be submitted through this office to MMIA only.

This is not the first occasion upon which indents of this nature have been returned though nothing is known in this office of any change in the system of indenting for stores from Italian stocks.

The indent is therefore sent to you herewith for forwarding to War Ministry and to avoid any further delays since the unit is scheduled to leave this area as soon as it is properly equipped.

As regards clothing, the unit was yesterday equipped from 227 Sub Depot in accordance with the instructions contained in your AQ/15/1 of 4 Feb.

MEMORANDUM TO: Col. Clayton B. Kerr, Land Forces Sub-Commission,
APO 394, U. S. Army.

SUBJECT : Liaison at AFHQ.

1. Inclosure No. 1 is a copy of the supplemental project for equipping the US-ITI's with the Fifth Army as submitted to the War Department. You will note that MMIA was not put on distribution and I have again emphasized the necessity for including MMIA on distribution of all matters in which they are interested.

2. MMIA message, file M/4/439, dated 3 February 1945, was discussed with Lt. Col. Williams of the Medical Supply Section. Col. Williams has sent a reply to the message stating that the items were not wanted by the U.S. military and suggesting that they be made available to the AC for Italian civilians. This is just about as broad as it is long because the Public Health Sub-Commission of AC is placing requisitions on the U.S. for similar materiel for Italian civilians. It ~~seemed~~ desirable to release this Italian materiel for Italian civilian use and let the U.S. soldier continue to receive the benefit of U.S. materiel. Col. Griffin of the Public Health Sub-Commission happened to be in Lt. Col. Williams office while I was there and he said that he would come in and discuss the matter with you.

3. I have run down copy number 1 of FAN 355, which established the Italian ~~military~~ ration and this definitely states 1/2 ounce of nuts. In Col. Lock's file there is also a copy of the CCS Staff Study, dated 4 April 1944 which also states 1/2 ounce of nuts. I will refer the letter from the International Division back to them and let them worry about where the difference between 1/2 ounce and 1 ounce crept in. As a practical matter, FAN 355 authorizes SACMED to increase the local resource portion of the Italian military ration at his discretion. If any of the local resource items are in ample supply, this might be an acceptable way of meeting the requests for increase in the Italian military ration. 6693

(110)

5 Feb 45.

From: Medical

To: A/Q

1. Several inquiries have been received concerning the clothing of patients (due for discharge from hospital) who have lost their clothes, boots or kit at the time of admission.
2. It is suggested that all IHL-DH Territorial hospitals be authorized to hold a small stock of Italian clothing to meet this need. There to be 5% of beds equipped. (It is 10% in R.A.M.C.) Items to be held by hospital as per basic clothing and individual equipment scale given in Annex 'B' to AFHQ AG/400.105 D.C. of 22 Sept. 44. Issues made by the hospital to the individual man will however always be restricted to USE of such items required. Sufficient to enable the soldier to return to his unit.
3. What about patients transferred to 'over 60 day' hospitals or Convalescent Depots? Will they be entitled to them?
4. At 5% the number of items involved would be 750 sets as per basic clothing list.
