1. Reference your letter Q/15/1, 16 March 1945, subject as above.

2. This matter was duly investigated and the following is submitted in compliance with paragraph 2 above reference.

a. Good -- every package sealed and in order.

b. Boots, trousers, and shirts were baled at depot 591 and sealed. Drawers, wool were in original bales from U.S. sources.

c. Each truck had one armed escort during movement to port. The guards witnessed the unloading of their respective trucks at the ship with two checkers from the depot on the ship. Three escorts guarded the shipment during transit.

d. Leggings were probably in original bales marked as woolen drawers from U.S. sources.

3. Italian Military parties concerned with this shipment were notified of these shortages, our letter AQ/4/SA/1, 14 March 1945 subject: Shortages in Shipment--Sardinia with copy to HQ. MMIA.

SUBJECT: Green Dye for Italian Uniforms.

LAND FORCES SUB COMMISSION
A.C. (M. M. I. A.)
R O M E
Q/15/1
20 March 1945.

TO : MMIA LO 1 District.

1. A complaint has been received that the dye used to dye Allied uniforms green has a tendency to run. It has been suggested that the type of dye be changed.

2. The only green dye available is one type, which comes from the United States, and which cannot, therefore, be changed.

3. It is believed, however, that the matter of obtaining a fast color that will not run is more a question of the proper procedure in dyeing clothes, than the quality of the dye used. The clothing is not always properly washed before dyeing or properly rinsed and dried after it is removed from the dyeing vats. As a result, a surplus of unabsorbed pigment remains in the pores of the cloth. This surplus pigment will stain the body of the wearer or any other thing with which the cloth comes in contact, and such staining will continue until the surplus pigment has been removed. There are also other factors which may be involved such as; mineral salts in the water used, the temperature of the solution at the time the cloth was dyed, texture and ability of the material to absorb dye, etc.

4. There has been a considerable improvement in the dyeing operations as conducted in Italian Repair Shops, and we hope to secure still better results in the future.

SUBJECT: Shortages in Shipment from Naples Warehouse to Sardinia on SS "Samleyte."

LAND FORCES SUB COMMISSION
A.C. (M. M. I. A.)
R O M E
Q/15/1
16 March 1946.

TO : MMIA LO Naples
MMIA LO Sardinia.

1. Please refer to MMIA LO Sardinia letter C/S dated 9 March, in regards to the above subject matter. It appears from the information supplied that the reported loss is due to concealed shortages within unbroken packages. The report of the investigating committee does not, however, completely establish this point, and the losses might have been caused by pilferage or breaking of packages during transit.

2. Will MMIA LO Naples please furnish this Headquarters with all available information regarding:

a. The condition of packages at the time of loading on the vessel.

b. Whether or not packages were made up in the Italian Warehouses, or were original packages received from Allied Sources.

c. The arrangements employed for guarding and protecting shipment during the process of movement to port, during loading, and during transit.

d. Information as to why leggings were included in the shipment.

3. Will MMIA LO Sardinia please furnish this Headquarters with all available information regarding:

704

a. Precautions taken to safeguard shipment during process of off-loading and movement to depots.

b. Whether or not any of the packages showed evidence of having been opened or pilfered during transit.

c. Any additional relevant information which might explain the cause of shortages.

Ref.No. 2/1793/V.E.

Date:5 March 45.

SUBJECT: Organization of Recovery Service.

1. As stated to you verbally, subsequent to a call paid to the High Commissioner for Sardinia by a worker's delegation from the Oschiri Recovery Plant, during which a request was put forward to abandon the plan to transfer the plant elsewhere, the Interior Commanding General of the Island ordered that the transfer plan in question be kept in suspense and that, for the time being, only the workshop be moved; consequently it was not found possible to carry out at once the instructions issued by the Ministry of War with the above mentioned letter.

2. Furthermore, political considerations make it advisable that even the transfer of the workshop be effected with a great deal of caution and secrecy in order to avoid possible opposition and obstruction on the part of either the workers themselves or the local population; accordingly, the transfer will have to be effected by degrees, together with other materials in accordance with the precautions suggested verbally.

3. At the same time, please review the status of female personnel employed at the plant and effect a reduction of its effective strength in keeping with the decreasing amount of work to be done.

1. Reference your AQ/4/SR/2 dated 12 March 1945.

2. The information provided in para. 2 of the above reference letter has been checked with Ordnance Records.

3. Your figures in regard to allotments and issues of boots are correct. A total of 19,000 boots have been allotted from Naples Depot, and a total of 19,000 have been issued. No further boots are due for issue. Ordnance Records failed to credit your depot with Issue Voucher 234, which explains their report that 500 pairs of boots were still due.

4. CCRR still have 1,500 comforters due them against the initial allotment of 5,000 to be issued from Naples Depot. The transfer of 3,000 comforters for issue to CCRR at Rome was made from the allotments of the Bari Depot, and not the Naples Depot. After deducting this quantity from your issues as reported in para. 2 of the above reference letter, the account shows 5,000 comforters allotted, 3,500 comforters issued, and 1,500 still due at Naples. It is, therefore, in order to issue an additional 1,500 comforters from Naples, and CCRR will be instructed to make collection without further delay.

1. This will confirm telephone conversation Lt. Col. Shipley to Capt. Fordyce on 15 March, which you were instructed to cancel the allotment of 5,500 pairs of boots as being due from Bari. These boots were released on AQ/45/ITI/13 dated 8 January 45. The Ministry of War selected Naples as the depot from which the issue was to be made, and the full quantity has already been collected from that Depot.

2. With further reference to telephone conversation Lt. Col. Shipley to Capt. Fordyce on 15 March, it is understood that there are no items due CCRR from Bari Depots against any allotments. All items originally allotted have either been collected or transferred for issue from another depot.

Equipment Depot

Report attesting to the shortage of ~~woollen blankets~~ quilted blankets in packages of Allied origin.

~~[illegible]~~

On this 29th day of January 1945, the undermentioned Board appointed by order of the day No. 354 of January 28, 1945 and consisting of the following members:

Lt. Col.	Cav. Costantino Bellucci	President
Capt.	Enrico Castiglioni	Member
1st Lt.	Gaetano Fabiani	Member and Secretary

met in the premises of the Equipment Depot of the Reinforcements Training Camp at Trani, for the purpose of checking 500 (five hundred) original packages containing ~~woollen blankets~~ quilted blankets of Allied origin dispatched by railroad from Bari - Special Clothing Depot, with dispatch tickets No. 1/87659 - 2/87659 - 3/87659 - 4/87659 dated January 26th and 27th 1945 respectively.

The above mentioned Board, after verifying that all packages forming part of the dispatch were intact - the packing of each consists of white canvas secured fourfold with wire - and that their weight was equal to that indicated in the dispatch ticket, opened said packages and checked their contents, whereupon it was found:

E' nota alla S.V. la questione riguardante la vestizione dei militari italiani che per ferite o malattie si trovano degenti in luoghi di cura, tanto che, per gentile interessamento della V.S. stessa, è stato possibile assegnare agli Ospedali a razionamento militare aliquote di vestiario commisurate al 5% dei posti letto.

Tale interessamento, molto apprezzato dagli organi superiori di questo Ministero e dal personale degli Ospedali medesimi, mi spinge ora a rivolgermi nuovamente alla S.V. per pregarla di voler considerare la particolare condizione in cui vengono a trovarsi i militari (mutilati od invalidi di guerra) ricoverati negli Ospedali, Cliniche od Istituti sanitari a razionamento civile, nonchè la delicata posizione in cui viene a trovarsi questo Ministero nei loro riguardi, non potendo mostrare, per intuitive ragioni, di disinteressarsi di chi ha ben meritato della Patria.

Ove possibile, sarebbe quanto mai opportuno estendere a favore degli enti suddetti il provvedimento relativo alla costituzione di una scorta di vestiario commisurata al 5% dei posti letto;

Ove possibile, sarebbe quanto mai opportuno estendere a favore degli enti suddetti il provvedimento relativo alla costituzione di una scorta di vestiario commisurata al 5% dei posti letto; scorta la quale, per maggiore garanzia, potrebbe essere amministrata direttamente da questo Ministero allo scopo di limitare le distribuzioni solo ai casi di riconosciuta indilogabile necessità.

Dato che la portata del provvedimento proposto rifletterebbe in definitiva circa 15.000 posti letto e quindi un impiego di n.750 serie, opportunamente ridotte, confido che la S.V. vorrà prospettare la questione ai propri superiori per un benevolo esame.

Subject; Manufacture by Arty., Units.

In view of the scarcity of articles of equipment, this General Directorate, has arranged with the Ministry of Arty., for the manufacture of Mess-tins, Mugs, Spoons, Forks, and metal Buttons; This to be effected by Arty., establishments, utilising as raw materials mostly empty tins.

It is therefore neccessary to arrange for the required quantities of tind to carry out the said work.

For that purpose we beg the Command to kindly issue out orders to all Corps, and Units, located in their area, to the effect that they will hand in to the Arty., Directorate of Naples and the Torre Annunziata shell factory, their empty Biscuit, Dehyderated Veg., and Cheese tins; This to be done periodicaly according to the size of the units.

Small and rusty tins will not be used.

The empties will not be damaged, and they will show no traces of food.

The said Command is also requested to issue out orders for a control to be exercised to ensure strict obedience of the a/m orders.

Definate arrangements for the handing in of the tins will be made with the a/m establishments of Naples.

2. The above reference letter reports that the MMIA LO Bari had stopped the repair of mess tins and water bottles at the S. TERESA del MASCHI Work House.

3. This matter was taken up with the MMIA LO Bari who advises that no such orders have been issued by him or any member of his staff. On the other hand, they have been making attempts to accelerate the rate of repair of both mess tins and water bottles at both Bari and Lecce.

4. It appears, therefore, to be some misunderstanding regarding the instructions issued by the MMIA LO Bari, and that your order to continue the repair of mess kits is in complete accord with all concerned.

1. At present men of Italian Combat Group are only issued with one towel. This means that it is very difficult to get towels washed or to let towels dry.

2. This Group is suffering from a fairly high percentage of skin cases, and the doctors consider that the spread of these diseases is aided by the fact that two men usually share their towels in order that one towel may be washed while the other is in use.

3. In order to overcome this difficulty, it is ~~proposed~~ recommended that the personnel of Combat Groups should be issued with two towels instead of one.

OGGETTO Riparazione gavette e borracce presso l'Assistenziario S.Teresa dei Maschi.

Rif. foglio 8/3 Ufficio 1944.

Il Centro Regionale Ricuperi di Bari, riferendosi agli intendimenti del MMIA L.O. di Bari di ridurre al minimo possibile le lavorazioni presso terzi, ha sospeso ogni consegna di gavette e di borracce da riparare all'Assistenziario in oggetto.

In considerazione delle istruzioni date da codesta Missione in materia di approntamento del materiale suddetto, questo Ministero ha ritenuto opportuno di ordinare la continuazione delle lavorazioni presso l'Assistenziario S.Teresa dei Maschi e ciò allo scopo di aumentare la disponibilità del materiale stesso.

1. It has been noted that a large percentage of indents recently received from ITI-ITI Units in the Bari Area are made up in a variety of ways. There is apparently a tendency in that area to disregard the standard pro forma indent, which was specifically provided under MMIA Administrative Instruction No. 11, and previous Administrative Instruction No. 5.

2. An abbreviated form is being used very frequently, omitting essential information.

3. Will you please take this matter up with the Italian Military Headquarters Apulia, and ask them to instruct all units to return to the use of the prescribed form of indent.

2. Attached are copies of Authorization Notices No. AQ/ITI-ITI/344, AQ/ITI-ITI/345, and AQ/45/ITI/200, covering release of materials against above subject indent and telegram.

3. It will be noted that the amounts authorized are at variance in some instances with the amount requested. The quantity of overcoats as requested have been substantially reduced, and reductions have been made in certain other items, such as tent pieces and water bottles. Such reductions were made either because stocks as requested were not available, or because the quantities requested were considered excessive.

4. It will be noted further that certain other items have been disallowed entirely. Items like handkerchiefs and puttees are not available, and at the same time it should be possible to produce them for salvage clothing from your local repair shops. Other items, including cotton shirts and cotton socks are not, at present, available, or should be considered as summer items and not required for issue at this season.

1. Reference your AQ/15/1 same subject as above dated 31 January 1945.

2. The attached indent has just been received from Director Commissary Sicily. The majority of items(checked in red) are on hand at Palermo and need not be considered. It is believed that the demand for fatigue clothing (HBT's) and raincoats should be much greater. However, as raincoats were not normally an item of general issue to troops of the Italian Army (the shelter quarter being used instead) it is believed they were ordered here for solely key personnel. Apparently fatigue clothing was ordered mainly for cooks, mechanics and troops performing manual labor.

3. Information is desired as to whether or not raincoats and fatigue clothing is available in sufficient quantity for general issue.

1. Reference your Signal 9107 dated 28 February 1945.

2. The above reference signal reports items supplied against AQ/ITI-ITI/221 dated 20 February 1945. It is noted that three items

Forks	- 1,345
Haversacks	- 90
Shoe Strings	- 1,345

were omitted from the list of items issued.

a. Undoubtedly, the forks were omitted on account of non-availability, yet Naples reports a substantial stock

b. There is a substantial stock of Italian web equipment, including packs, haversacks, and etc. in Italian stocks, and the reason for leaving this item unfilled is not fully understood.

c. We are producing a substantial quantity of shoe strings from fish cord, and shoe strings should be available. If there are no strings in the 591 Issue Depot, a reasonable supply should be transferred to that Depot from the boot repair operations and made available for issue against indents.

3. It is important, of course, to complete all releases to the fullest extent possible, and to issue substitute items when ever it appears permissable. 693

2. Stocks of grey-green cloth and other textiles which you reported as being available in Sardinia should by all means be moved to the Mainland and made available for the manufacture of uniforms -- especially trousers which are extremely short at the present time.

3. If there are any stocks in Sardinia other than those listed in the above reference letter, they also should be moved to the Mainland. Only the minimum stocks required for repair of clothing for the local garrison should remain in Sardinia.

4. All stores and equipment in Sardinia surplus to maintenance requirements of the local garrison are now being moved to the Mainland under direct supervision of the MMIA LO Sardinia. Undoubtedly, any cloth surplus to local requirements will be shipped along with the other items.

1. In ALLIED FORCE HEADQUARTER LETTER G.1 (B) 1093/66/A.1. dated 12 Mar 44, signed by Lt.Col.Peter HIGGINS (1) sent to this unit, the following is stated. Para 2. PERSONNEL.

Arrangements for the provision of Italian personnel will be made by US Military Mission.

Para.3. CLOTHING EQUIPMENT & TRANSPORT.
ZONE No. 3 District will arrange provision of the following:-
(a) Replacements of clothing necessaries, and personal equipment to scale.
(b) Unit ~~xxx~~ equipment.
(c) Transport to R.E.

2. It is not understood in view of this letter, why demands for clothing should be submitted to MMLA channels, when the only instruction for MMLA is the provision of Italian Personnel.

3. It would also appear that the category of this unit is not III-III but Brit-Italian.

4. The letter quoted above deals with the formation of a new unit, Italian Increment to CSDIC, ~~xxx~~.

5. A request for clothing to D.A.D.O.S. 5A Area was refused and when the matter was placed before A.D.O.S. R.A.A.C. it was decided by them that such a demand should be placed with MMLA. At the same time, it is clear from the above quoted letter that the provision of clothing is made by British ZONES.

6. NO amendment to the above quoted letter has been received by this unit, but if you are in receipt of such an amendment, it would be appreciated if you would inform this office.

1. Reference your 1034/1/Ord dated 26 February 1946.

2. The bid for rail movement of biscuit tins from Bari to Rome for the manufacture of mess tins and cups has been approved. This approval has been granted in order to expedite the production of mess gears. At the same time, it is believed that a supply of scrap tin containers can be made available in the Rome area, or at least in the Naples area, and an effort should be made to secure future requirements for production in Rome from areas that are closer than Bari.

3. A substantial quantity of scrap aluminum has recently been offered to the Italian War Ministry from stocks now held by 3 District (Br) in the Naples area. The use of this material should avoid further movements of scrap aluminum from Bari to Naples for the manufacture of buttons for shelter halves.

4. It is essential that all unnecessary movement of stocks be avoided. The possibility of using local stocks should be thoroughly investigated in each instance, and all available local stocks used to the maximum extent possible.

2. The att. indents are therefore returned, as in every case they show an excess of personnel over the authorised establishment.

3. As all personnel authorised are officers, the following proceedure will be adopted when indenting:-

a) For uniforms, or cloth to make uniforms, a separate indent for each officer, giving name and full particulars.

b) For other items, the normal indent from District HQ. or Depot, showing authorised strength.

Both the above indents will be forwarded to the Ministry of War, through Italian channels.

Q/15/1

FROM: War Ministry
TO: M.M.I.A.

REF: 8203.
DATE: 28 FEB 1946.

Subject: Clothing for servants.

A request has been received from six servants employed here, for obtaining an issue of various U.S. articles of clothing which they would wear, having previously altered them to civilian clothes.

This request has been motivated by the fact that the poor circumstances of the a/m workers, several of whom are refugees and have large families to support, do not permit them to provide themselves with the most indispensable items of clothing.

This Ministry, appreciating the circumstances described by those concerned in view of their low wages and the extremely high prices prevalent in the free market, is inclined to assist in some way the a/m employees. Also because of the fact that, dealing with personnel in the employ of parts of this Ministry, it is as well to have them dressed with a minimum of decency.

We notify the above to M.M.I.A. begging a kind consideration of the a/m request

Declassified E.O. 12356 Section 3.3/NND No. 785020

and putting forward that, in the case of approval, n.o. items of clothing, of no use to troops, would be issued.

No. T.A.636/57.

Headquarters Royal Italian Air Force,
Through Air Forces Sub-Commission, Bari.
(Copy to 1st Balloon Barrage Company, Taranto).

CAPTIVE BALLOONS FOR MINESWEEPING.

It is desired to carry out trials with a "Captive" balloon moored to a suitable craft, for minespotting.

2. I am informed by the Commander-in-Chief, Mediterranean that Italian balloon equipment is available at Taranto for this purpose and that Lieutenant Parolini of "CENTRO SPERIMENTALE AEREO" would be available to carry out the preliminary handling and supply the necessary equipment and personnel.

3. The Italian balloon site at Taranto has been inspected in conjunction with Lieutenant Parolini and was found to be eminently suitable as a base from which to carry out operations. An observation balloon has already been handed over to him for inspection and fitting.

4. It is requested therefore, that Lieutenant Parolini, Captain Dadino and adequate personnel and equipment may be placed at the disposal of the Royal Navy for operational and maintenance duties. Both these officers are experienced balloonists and their services would be of great help to operations of this nature.

Enclosure to letter 1036

(1) Soc. An. Manifatture Cotoniere Meridionali - Naples

The equipment of the Soc. An. Manifatture Cotoniere Meridionale establishments has been partially damaged by through causes of war.

The Nocera thread-making establishment has at present 17.000 serviceable spindles and its monthly productive capacity is about 459.375 kilos of thread.

The Angri and Frattamaggiore textile manufacture establishments have at present 2000 serviceable complete looms and their monthly productive capacity is about 257.731 kilos. of textiles.

(2). Ditta Maglificio Procicchiani e Maccheggiani

- Jesi.

The equipment of the Ditta Maglificio Procicchiani e Maccheggiani has not ~~had any~~ war damage. It consists of 16 rectilinear hand machines and the relative accessory machinery.

The productive capacity of this

Wool-factory is about 350 skeins of wool for pullovers daily, in two shifts.

The afm Wool-factory could also install groups of artisan machines. In this case its productive capacity would be increased appreciably.

3. Ditta Lanificio di Ponte Felcino - Ponte Felcino

The equipment of the Ditta Lanificio di Ponte Felcino has been seriously damaged by charges of explosive placed in the machinery by the retreating Germans.

At present the firm in question has, serviceable, 1200 carding spindles and 10 mechanical looms with the relative finishing machinery.

The productive capacity of this firm is about 600 metres of ~~drapery~~ drapery daily, in two shifts.

La Land Forces Sub Commission A.C. (MMIA), in seguito all'interessamento di questo Ministero, ha autorizzato la distribuzione ai militari detenuti in carcere di n. 500 serie di vestiario composte dei capi essenziali, da distribuire prelevandoli dai materiali italiani scelti fra quelli non più riparabili per scopi militari (berretti, giubbe, pantaloni, scarpe, camicie, mutande, pezzuole da piedi o calze).

Nell'allegato "A" sono riportati gli enti che detengono i militari in parola e la ripartizione delle 500 serie in relazione alla forza di ciascuno di essi.

Non si assegnano le serie al carcere mil. di S.Elmo (Napoli), dato che ad esso vennero assegnati prima del noto blocco da parte degli AA.
