It is regretted that it is impossible to change the policy of only issuing low grade clothing to Italian Units (apart from Combat Units).

However, it is suggested that when 227 Div submits its bi-monthly report (Stock State), special reference should be made to the quantity of clothing required in especially good condition for Pro-personnel.

informs that the quantity of cuttings, cotton coloured is 988.500 Kg.

We beg you therefore to kindly state exactly also the quantities of
material in respect of comma C of the attached letter N I, stored in

- Cotton Waste Mixed	180 Qt.
- Cuttings Leather	21 "

In fact the doubt arises that this deals in Kg; and not as previously in

Subject: Sundry insignificant material at Bari.

1. Ref. letter Q/15/11 of Sept. 7, 1945
2. An inspection performed at Bari disclosed that lot No. 7/RD/1 contains - beside the things - substantial amounts of webbing and scraps of rubber shoes not susceptible of recovery of any kind. On the whole the material in question is of very little or no value.
3. It would be urgently necessary to know the prices at which this material will be debited to the Italian government.

We wish to point out that, with the aim of expediting the matter, we have today, sent to the firms concerned, the letters of invitation to the inspection.

Ciò non praticato allo scopo di evitare inutili spese che graverebbero di molte e in modo non sopportabile su materiale di per sé già assai povero.
