1. The u/m material, held at Tortorella Railway Station and at Tortorella Aerodrome (6 miles East of Foggia), is available for disposal.

2. This Aircraft Scrap consists mainly of very large sections of Wellington and miscellaneous German Aircraft, and extensive cutting must be done before most of it can be moved.

3. The Maintenance Officer, 231 Wing, RAF, would loan a crane to assist the loading, but could not assist in the cutting, nor in the provision of transport.

2122

4. In view of these difficulties it is suggested that the release of this material to a local firm would be advantageous in many respects.

5. Will you please submit your requirements to this office when a Release Note will be issued.

6. It is requested that demands or refusals by MMIA be made as early as possible and not later than 14 days from this date, and those by AC within 21 days.

Il Centro Nazionale Reclutamento di Napoli avendo richiesto a questo Ispettorato autorizzazione per l'assunzione in servizio presso il suddetto Centro, in qualità di impiegata civile, della signorina [illegible] nata a [illegible] il [illegible] e residente a [illegible], si fa presente che la predetta signorina è cittadina [illegible] e che, pertanto, per poter essere assunta in servizio presso il Centro Nazionale Reclutamento di Napoli deve essere in possesso del permesso di soggiorno.

Si prega, pertanto, codesto Ufficio di voler disporre affinchè alla predetta signorina [illegible] venga rilasciato il permesso di soggiorno.

Si fa presente che la predetta signorina è stata assunta in servizio con decorrenza [illegible] e che, pertanto, è urgente ottenere il permesso di soggiorno.

Si ringrazia per la cortese collaborazione e si porgono distinti saluti.

IL CAPO DELL'UFFICIO
(Col. [illegible])

Il Capo Ufficio
(Col. [illegible])

Il Centro Regionale Recuperi di Napoli segnala che le ditte autorizzate dal M.M.I.A. I.O. del luogo ad acquistare stracci fuori uso inutilizzabili dall'Amministrazione Militare, non prelevano detti materiali in blocco ma ne scelgono i migliori lasciando nei magazzini gli scarti che alle ditte stesse non conviene di acquistare.

Tale inconveniente, oltre a lasciare inaclusa la questione dello sgombero dei magazzini che continuano a rimanere occupati degli scarti rifiutati dalle ditte acquirenti, porta un danno non indifferente all'Amministrazione Militare per la quasi impossibilità di vendita di tali scarti.

Pertanto, si prega codesta Missione affinchè, come proposto al penultimo capoverso del dispaccio n.1304/I.C./Ord. in data 25 giugno u.s. voglia disporre la cessione di tutti gli stracci fuori uso inutilizzabili dall'Amministrazione Militare a stabilimenti di rigenerazione per l'ottenimento di tessuti, oppure consentire la vendita di detti stracci alle migliori condizioni, in base ad apposite gare che sarebbero indette dalle Direzioni di Commissariato competenti in relazione alle località in cui i materiali fuori uso sono depositati.

Si gradirà un cortese cenno di riscontro.

Subject: Salvage of alluminium cuttings- Pescara.

Ref ;3490/I.C./Ord.

236/11

Further to letterfrom this ministry 3236/I.C./Ord, dated 21/6/45.

Following an inspection of Pescara by one of their officers, the Beni, Mil., Commissariat, Directorate has forwarded detailed information regarding the difficulties encountered in salvaging the alluminium cuttings at the Pescara Airport, the limited quantity of the said material (reduced to 3-4 tons instead of the 15 tons foreseen at first)and the expences that would be incurred in salvaging same.

In view of the above, and the uneconomical aspect of the salvage this ministry thinks it best to abandond the scheme.

However, before issuing instructions to this effect, we await your agreement.

OGGETTO Ricupero rottami di alluminio - Pescara.-

Seguito foglio di questo Ministero n°3238/I.C./Ord. del 20 giugno u.s.=

La Direzione di Commissariato Militare di Bari, in seguito a sopraluogo effettuato da un proprio ufficiale a Pescara, ha riferito dettagliatamente circa la difficoltà del recupero di rottami metallici dall'Aeroporto di Pescara, la limitata entità di esso (ridotto a 3-4 tonnellate rispetto alle 15 circa previste in un primo tempo), la spesa notevole che esso medesimo comporterebbe.

In relazione alle difficoltà prospettate e all'aspetto antieconomico del recupero, questo Ministero è del parere di rinunziarvi.

Prima però di impartire le conseguenti disposizioni in tal senso, gradirà benestare da parte di codesta Missione.-

OGGETTO: Vendita stracci fuori uso

~~~~~~~~~~~~~~~~~~~~~~

Q 1/1.

La ditta Marta FUSI di Firenze ne richiesto a questo Mini= stero la cessione di un quantitativo di stracci che essa utilizzerebbe nella fabbricazione di spazzole di tela per macchine pulitrici.- Tali spazzole vengono adoperate da molte officine e stabilimenti che lavorano direttamente o indirettamente anche per Comandi e truppe militari alleate.=

Dato il limitato quantitativo richiesto e considerato che verrebbero ceduti stracci fuori uso, eccedentanee non più suscettibili di riparazioni o trasformazione in indumenti anche civili, ma solo adatti a rigenerazione tessile, questo Ministero sarebbe favorevole alla cessione suddetta, come anche alle eventuali altre analoghe che dovessero pervenire, tendenti alla ripresa industriale della Nazione.=

Gradirà però il preventivo benestare di codesto A.M.F.A.=

Subject; Military materials stored at the Italian Aeronautic Society of Passignano sul Trasimeno.

No 8 Detachment of Corseti, informed this ministry in the past, of the existance of army materials, in the premises of the Italian Aeronautic Society of Passignano sul Trasimeno.

As a result of this information, the Arty., Directorate of Rome, was entrusted with the carrying out of an inspection, for the purpose of ascertaining the materials existing there, and examining the possibility of salvaging same.

The said Directorate was informed by the Director of the a/m premises, xxxxxxxxxxxxxxxxxx (the only person permitted by the Allied HQ, to enter the premises) that the materials stored (apart from that buried under the wreckage and therefore untraceable) could be considered as approx. the following.

- Field Guns 149.Approx.,	No.	19	
- " " Various Calibres.Approx.	"	57	
- Solid tyres (some with wheels and some with rims only) and less those already mounted on the 149s. Approx.	"	20	
- Gun limbers with wooden wheels Approx	"	14	
- Wooden wheels detached Approx.,	"	12	
- Gun sledges (Large)	"	2	
- Elongated gun barrels. Approx.	"	3	
- Various rifle parts, spare parts for rifles, muzzle covers, gun brakes, revolving chairs, and magazines Approx.	"	6or7	trucks.
- Rifles Various	"	100	Presumably belonging to the Terni Arms Factory R.E.
- L.M.G.s and various arms.		40	
- Rifle cases Approx.		100	

SEE 244

Nothing can be done for the moment regarding the sorting and salvaging of the said materials, because of the ban, placed by the Allied HQ, on the entry of Italian personnel to the premises.

Furthermore, part of the a/m materials eg. (rifle butts) were used by the troops staying in the premises, for making fires, while the remainder was dragged by means of a tractor, to the shores of the lake, dumped there, and in some cases, in the lake itself.

In order to make an inventory of the materials, as ordered by the Cabinet of this Ministry, and with a view to commencing the salvage of same, we beg the MMIA to authorise the salvaging, consequently permitting strictly indespensible personnel, to enter the premises, to carry out the work.
