TRANSLATION

From M.O.W.

To : M.M.I.A.

Ref : I3423/VC

Date: 28/8/45

Subject :- Salvage of Barracks Materials in TRIESTE Area.

The Military Territorial Command of UDINE has pointed out that ~~the~~ the Public Assistance Society of TRIESTE ^{hold} the following materials ~~can be found~~, consigned ^{by} the barrack stores ^{to} said society about the middle of Sept 43 in order to avoid their ^{being} being carried away by the Germans.

Sheets 15, 298.

Bks Blankets 11, 790.

Bath Towels 1, 325.

Speaking of the large quantities already belonging to this Admin, ^{and} ~~they are~~ now necessary for the Units dependant on the said H.Q. , we beg you to kindly consider their recovery, and subsequent issue to the Commisariat Directorate of UDINE.

Thanking You,

Signed PELLIGRA.

Oggetto: Materiali di casermaggio da recuperare nella zona di Trieste.

e, per conoscenza:

AL COMANDO MILITARE TERR/LE DI

UDINE

- Uff. Servizi -

(Rif.f.n° 823/5/3/5 del 23-7-45)

ALLA DIREZIONE DI COMM/TO DEL COM.MIL.TERR/LE DI UDINE

E' stato segnalato dal Comando Militare Territoriale di Udine che presso l'Ente Comunale di Assistenza di Trieste risultano trovarsi i seguenti materiali, consegnati dal locale Magazzino Casermaggio all'ente medesimo verso la metà del settembre 1943 per evitarne l'asportazione da parte dei tedeschi:

lenzuola	n°	15.298
coperte da casermaggio	"	11.790
asciugatoi da bagno	"	1.323

Trattandosi di elevati quantitativi di materiali già appartenenti a quest'Ama/ne ed ora necessari per i reparti della circoscrizione del citato Comando, si prega di voler esaminare la possibilità di disporre il recupero e la successiva assegnazione alla Direzione di Comm/to di Udine.

Si ringrazia.

P. IL MINISTRO 02251

317/11

1. On 31 July I offered you Lots ID/1596 - 1607, and on 3 August Lots ID/1616 - 1622, all lying at Castiglione Fiorentino, near Arezzo.
2. In pursuance of instructions from A.D. Salvage, AFHQ, (in order to clear the ground) these lots have been concentrated and certain further material made available.
3. I propose therefore to cancel the above lots, and offer instead the following:

<u>Lot No.</u>	<u>Material</u>	<u>Qty.</u>	<u>Price</u>	<u>Remarks</u>
ID/1635.	Vehicle Cabs.	400	5/0 each.	3 more than previous total
ID/1636	Lorry Bodies	400	£2.10.0 each.	156 less than previous total.
ID/1637	Jesp and Utility Bodies.	131	10/- each	9 less than previous total
ID/1638	Staff Car Bodies.	33	10/- each	7 more than previous total.
ID/1639	Light Scrap	190 tons.	£2.10.0 per ton.	
ID/1640	Armour Plating (Misc)	300 tons	£3.15.0 per ton.	
ID/1641	Armour Plating	275 tons approx.	£3.15.0 per ton.	
ID/1642	Light AFV hulks.	1127 tons approx.	£3.15.0 per ton	
ID/1643	Armour Plating Heavy AFV hulks.	80 tons	£3.15.0 per ton	
ID/1644	Tank Track	2½ tons	£15 per ton.	

4. If the material is required, weights will be agreed and signature given by 4 Sep 45, after which date no personnel will be available at the depot, and the material will be available for local sale.

Q/25

315/2

Subject : Organisation of Collecting and Salvage service.

The initial period essentially devoted to the re-storing of Italian and Allied materials having passed, it is necessary that the salvage service, with the extension of its activities to Northern Italy, must be assured of an organisation more suitable to the changed situation.

Therefore, in agreement with MMIA, we order the following:

1) - The Detached Salvage Department, Clothing and Equipment, at present located at Naples will be transferred to Bologna.

2) - At each Military Territorial H.Q. and at the Territorial Office of Sardinia, there will be formed a "Clothing and Equipment Collecting and Salvage Centre", which will comprise stores and workshops necessary to meet the needs of each administrative area.

3) - The Collecting and Salvage Service will perform the following essential tasks:

---the search for, and collection of ~~the~~ cooperation with the Commissariat Directorate ~~for~~ all the ~~recovered~~ recoverable clothing and equipment material in the area;

---the selection, classification and repair of the said material;

---the alteration, and manufacturing "ex novo" of articles of uniform;

---the preparation of cutting-up and the work to be entrusted to the manufacturers;

---the handing-over of finished materials to the distributing stores of the Directorate.

4) -

The Chief of the Detached Salvage Service

- 1) - The Detached Salvage Department, Clothing and Equipment, at present located at Naples will be transferred to Bologna.
 - 2) - At each Military Territorial H.Q. and at the Territorial Office of Sardinia, there will be formed a "Clothing and Equipment Collecting and Salvage Centre", which will comprise stores and workshops necessary to meet the needs of each administrative area.
 - 3) - The Collecting and Salvage Service will perform the following essential tasks:
 - the search for, and collection of ~~in~~ cooperation with the Commissariat Directorate ~~for~~ all the ~~recovered~~ recoverable clothing and equipment material in the area;
 - the selection, classification and repair of the said material;
 - the alteration, and manufacturing "ex novo" of articles of uniform;
 - the preparation of cutting-up and the work to be entrusted to the manufacturers;
 - the handing-over of finished materials to the distributing stores of the Directorate.
 - 4) - The Chief of the Detached Salvage Department and the Chiefs of the Collecting and Salvage Centres will have direct correspondence with this Ministry; they will, however, keep the Commissariat Directorates of their respective areas informed of the most salient facts concerning their own work.
- Information must be given to the Detached Salvage Department, of communications held between the Centres and: the Ministry, Military Territorial H.Q.s, Commissariat Directorates and other Centres.

5)- The Collecting and Salvage Centres will be under the direct command of the M. of War - D.G.S.C.A.-Commissariat Inspectorate General; their functioning, however, will be coordinated, (in compliance with the orders and circulars of the Ministry) by the Detached Salvage Department.

Therefore, service will be under the control of the Commissariat Directorates (with the exception of technical employment), who will moreover exercise disciplinary and administrative functions, over all personnel - civilians and military - on duty, likewise over the material (acquisitions, unloading, reports on alterations, etc.).

6)- Locations, War establishments and commands of the units ~~are~~ shown on the attached sheet.

7)- The new organization will take effect from the 1st Sep. 45.

For the Minister,
sgd. Pelligra

TRANSLATION (attached to letter No :4800/IC/Ord.)

NOTES

The Chief of the Detached Salvage Department, and the officer on duty, are on the strength of the M of War and administered by the Department for the Administration of Various Military Personnel.

The Centre Chief and the civilian and military personnel on duty with that department are on the strength, of and administered by, one of the stores under command.

The stores for the re-sorting of materials and the repair workshops have independent administration.

In cases where stores and workshops are split up, the most important nucleus will assume the role of chief stores and the others, those of detached.

The "Resorting stores for Italian material" absorb the activities of the "Resorting stores for Allied materials" and modify their designation to "Resorting stores for clothing and equipment";

The 12th Resorting stores for Italian materials and the 12th

Repair Workshops ~~will be~~ disbanded, and their personnel employed :

- in forming the 2nd, 4th and 5th Repair Workshops, Clothing & Equipment.
- in increasing the personnel of the 8th Repair Workshops for Clothing and Equipment and the 10th Resorting Stores for clothing and Equipment.

have independent administration.

OGGETTO : Organizzazione servizio raccolta e ricupero v.e.-
.....

Superato il periodo iniziale basato essenzialmente sullo sfruttamento dei materiali italiani ed Alleati da riattare, occorre che il servizio ricupero, con l'estendere la sua azione al Nord Italia, assicuri una organizzazione più propria alla mutata situazione.

Pertanto, servite in MILIA, si dispone quanto appresso:

1°)- L'Ufficio staccato ricupero v.e. in atto dislocato a Napoli, si trasferirà a Bologna.

2°)- Lo stesso Comando militare territoriale e presso l'ufficio territoriale della Sardegna verrà istituito un "Centro raccolta e ricupero v.e." che comprenderà magazzini di deposito e laboratori nel numero necessario per far fronte alle esigenze di ciascuna circoscrizione.

3°)- Il servizio raccolta e ricupero avrà per compiti essenziali:

- la ricerca, in cooperazione con la Direzione di commissariato, e raccolta di tutto il materiale v.e. recuperabile in zona;

- la selezione, classificazione e riparazione del materiale stesso;

- la trasformazione e confezione ex novo di oggetti di recupero.

- la preparazione dei trasferimenti e delle lavorazioni da affidarsi a concessionari;
- il versamento dei materiali approntati agli stabilimenti direzionali di distribuzione.

4°)-Il capo dell'Ufficio staccato ricuperi ed i capi dei centri raccolta e ricupero avranno corrispondenza diretta con questo Ministero; daranno però conoscenza alla Direzione di commissariato del rispettivo territorio dei fatti più salienti relativi alla propria attività.

Delle comunicazioni fatte dai centri al Ministero, ai Comandi militari territoriali, alle Direzioni di commissariato ed agli altri Centri dovrà essere data conoscenza all'Ufficio staccato ricuperi.

5°)-I centri raccolta e ricuperi saranno alle dipendenze dirette del Ministero Guerra - D.G.S.C.A. - Ispettorato Generale Commissariato - il loro funzionamento sarà, però, coordinato, secondo ordini e direttive ministeriali, dall'Ufficio staccato ricuperi.

Il servizio si svolgerà pertanto all'infuori dell'azione peraltro tecnico delle direzioni di commissariato, le quali tiva, nei confronti del personale tutto - civile e militare - addetti, come pure del materiale (acquisti, scarichi, verbali - di trasformazione, ecc.).

6°)-La dislocazione, gli organici e le dipendenze degli enti del servizio risultano dall'allegato.

7°)-La nuova organizzazione entrerà in vigore il 1° settembre 1945.

vi una propria attività.

Delle comunicazioni fatte dai centri al Ministero, ai Comandi di militari territoriali, alle Direzioni di commissariato ed agli altri Centri dovrà essere data conoscenza all'Ufficio staccato ricuperi.

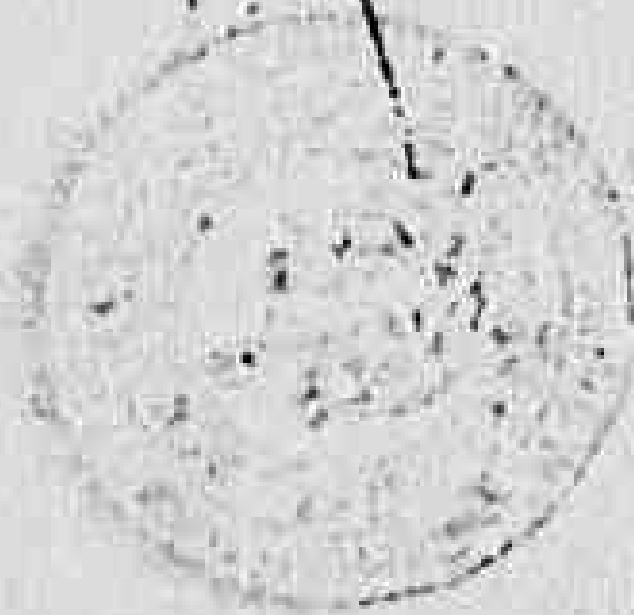

5°)-I centri raccolta e ricuperi saranno alle dipendenze dirette del Ministero Guerra - D.G.S.C.A. - Ispettorato Generale Commissariato - il loro funzionamento sarà, però, coordinato, secondo ordini e direttive ministeriali, dall'Ufficio staccato ricuperi.

Il servizio si svolgerà pertanto all'infuori dell'azione di impiego tecnico delle direzioni di commissariato, le quali peraltro avranno su di esso azione disciplinare e amministrativa, nei confronti del personale tutto - civile e militare - addetti, come pure del materiale (acquisti, scarichi, verbali di trasformazione, ecc.).

6°)-La dislocazione, gli organici e le dipendenze degli enti del servizio risultano dall'allegato.

7°)-La nuova organizzazione entrerà in vigore il 1° settembre 1945.

PRO-MEMORIA

TRANSLATION

MILITARY MATERIAL OUT OF USE

A circular of 23/11/44 of the Ministry of Industry, Commerce and Work established the opportunity that all the Military Material which is no more used by military administrations would be passed on to the Workers' Organisations in order to be employed by the same workers.

While negotiations to this end were carried out with the Direction of Bari Military Commissariat, for the purchase of q/11 2000 of used shoes stored in Via Re David di Bari, the Military Commissariat informed us that the above said material could not be delivered to us owing to dispositions of the Land Force Sub-Commission A.C. (M.M.I.A.) which intended to take it for its own necessity.

Same communication was confirmed by the Ministry of war with note n°15536/VC of 17/4/45.

In spite of our many requests to M.M.I.A. it is not yet been possible to get those shoes unblocked and meanwhile they are kept in an open space, exposed to all the inclemencies of the weather.

MATERIALE MILITARE FUORI USO

Con circolare n.2 del 23/11/1944, il Ministero dell'Industria Commercio e Lavoro stabiliva l'opportunità che il materiale fuori uso delle Amministrazioni Militari Italiane fosse ceduto alle organizzazioni dei lavoratori per essere dalle stesse utilizzato per il fabbisogno dei lavoratori.

In seguito a ciò, mentre si era in trattative con la Direzione di Commissariato Militare di Bari per l'acquisto di q/li 2.000 (duemila) di scarpe fuori uso, giacenti presso il magazzino di via Re David di Bari, il Commissariato Militare faceva conoscere di non poter più procedere ad alcuna cessione in quanto il materiale era a disposizione della Land Force sub-Commission A.C. (M.M.I.A.), la quale si riservava di fare eseguire apposita cernita dai propri organi locali per accertare i quantitativi utilizzabili per le proprie necessità.

Di tanto dava conferma il Ministero della Guerra con nota n.15536/VC del 17/4/1945.

Malgrado l'interessamento esplicito presso la locale M.M.I.A., non si è potuto ancora ottenere lo sblocco delle scarpe in parola, le quali, malamente ammassate ed esposte ad intemperie, vanno soggette a furti e ad ulteriori deterioramenti.

HEADQUARTERS
MEDITERRANEAN THEATER OF OPERATIONS
UNITED STATES ARMY
APO 512

LAND FORCES

CIRCULAR)

NUMBER 104)

21 August 1945

RECOVERY AND EVACUATION OF SALVAGE

Circular Number 18, this headquarters, 1944, is rescinded and the following substituted therefor:

1. Purpose - The purpose of this circular is to establish a procedure in the Mediterranean Theater of Operations for the recovery and evacuation of salvage and implement the information contained in Circular Number 92, this headquarters, 1945.

2. Definitions - For the purpose of this circular:

a. Salvage is condemned, discarded, abandoned, or captured property, and includes scrap and waste material, irreparable property, and abandoned private property.

b. Waste is abandoned property unfit for reclamation, bones, fat, grease, egg crates, waste paper, wooden fruit baskets, tin cans, glass bottles, jugs, and other similar containers. The term "waste" does not imply that the property is necessarily without value.

c. Scrap is any property having no value except for use as raw material.

d. Irreparable property is property which cannot, in the best interests of the War Department, be restored to serviceability.

3. Only by the prompt, efficient collection of salvage within this theater; the receipt and classification of salvage at salvage collecting points, salvage dumps, and railheads; and the speedy evacuation thereof to the appropriate supply and repair installations of the various arms and services, can maximum recovery of material be obtained.

4. Responsibility

a. Routine salvage - All abandoned property, however worthless it may appear, has some value. Routine salvage operations are carried on in all areas occupied by troops in this theater. The collection of salvage does not rest entirely on Salvage Collecting Companies, but is the responsibility of all unit commanders.

b. Army area salvage - Commanders of Army, Corps, and smaller units, when operating independently, are responsible for the collection, utilization, and evacuation of salvage to Base Sections and similar commands.

RESTRICTED

Hq HROUSA Circular #104 (cont'd)

c. The commanders of Base Sections and similar commands are responsible for the reception of salvage from Army areas and for the recovery, collection, classification, reclamation, and final disposition of all United States salvage received in their own areas.

d. The commanders of Base Sections and similar commands are further responsible for the proper disposal of all scrap materials and irreparable property. All articles of irreparable property, including scrap materials, will be turned over to the Quartermaster Corps with proper certificates for salvage, except explosives, abandoned ammunition and weapons containing explosives, and salvageable ammunition components. The excepted property will be disposed of through ammunition supply channels in accordance with existing theater instructions.

5. All salvaged material except as hereinafter indicated, will be returned to Base Section depots. Maximum use will be made of otherwise empty transportation moving to Base Section depots. Salvage Collecting Companies, when available, will evacuate all salvage except explosives, ammunition, scrap combat tanks, and scrap heavy artillery; all other abandoned or otherwise unserviceable military property of any kind, including marine salvage will promptly be recovered from former battlefields.

6. Classification Depots - There will be established in each Base Section or similar command one or more classification depot to receive, segregate, and classify all salvage collected in the several areas of the theater. All salvage will be segregated and classified as follows:

a. Enemy serviceable and repairable property will be processed and disposed of in accordance with current instructions of this headquarters. Irreparable property, scrap, and waste materials from enemy salvage in the possession of the United States will be treated in the same manner as United States salvage.

b. British property

(1) Property pertaining to the British Army will be turned over to the nearest British salvage collecting installation. Reciprocal Aid property of British origin will not be disposed of without obtaining the prior consent of the supplying government.

(2) Liaison will be maintained with British salvage officers to facilitate handling of salvage problems.

c. United States property

(1) Serviceable property will be returned to the arm or service to which it pertains.

(2) Unserviceable property, suitable for repair and further use in the manner for which it was designed, will be returned to the arm or service to which it pertains.

(3) Unserviceable property which cannot be repaired and which has been declared as scrap will be:

RESTRICTED

Hq MTOUSA Circular #104 (cont'd)

(a) Used to the fullest extent in the repair of other articles of a similar nature, and in the manufacture of new articles.

(b) Issued to organizations for operational use (such as wiping rags) and for manufacture of comfort items (such as canvas for buildings, mosquito bars for windows, cans for waste baskets, etc.).

(c) Returned to the United States in accordance with War Department Memorandum Number 700-45, subject, "Disposition of Scrap Overseas", 29 May 1945, and changes thereto; or disposed of locally in accordance with Circular Number 92, this headquarters, 1945.

(4) Material may only be declared scrap by trained personnel, named by proper representative of commanders of Base Sections or similar commands, who should be of the arm or service to which items pertain. This should be done prior to delivery to Quartermaster Salvage Depots. However, items of other branches of service will accumulate at Quartermaster Salvage Depots. To provide for proper disposition of material, authorized representatives of all services will periodically visit Quartermaster Salvage Depots and arrange for movement of repairable items and certify balance as scrap.

(5) Instructions contained in War Department Memorandum Number 700-45, subject, "Disposal of Property Overseas", 9 May 1945; War Department Memorandum 700-45, subject, "Disposition of Scrap Overseas", 29 May 1945; War Department Supply Bulletin of the SB-38-1 series; Circular Number 92, this headquarters, 1945; and supplements thereto, will govern the return to the United States of the following material:

(a) Repairable property which cannot be repaired or reclaimed with local facilities.

(b) Scrap metals.

(c) Fired brass artillery shell cases.

(d) Small arms fired cases.

(e) Serviceable and scrap rubber, including battery cases, not required by theater ordnance maintenance organizations.

(f) Articles of individual clothing and equipment.

7. Empty Gas and Oxygen Cylinders - Empty gas and oxygen cylinders will be returned to the Engineer Supply Officer at the nearest supply point in the theater.

8. Unserviceable Tires - All salvage tires will be turned over to a tire reconditioning company for inspection, classification, and reconditioning. Only when a tire reconditioning company or other repair facility is not available will they be returned to the United States. Should the tire reconditioning company classify tires as Class "C-1", they are to be packed, so marked, and returned to Ordnance stocks. Tires declared salvage by tire reconditioning company on the Base Section Ordnance Officer, will be turned over to Quartermaster Salvage Installations, for return to the United States as scrap material.

Declassified E.O. 12356 Section 3.3/NND No. 785020

RESTRICTED

Hq AFMSS. Circular #104 (cont'd)

9. Safety Measures to Prevent Loss of Life and Property - Some shipments of overseas scrap received in the United States from this theater have contained material of an explosive nature. Unless extreme caution is exercised in this theater in the handling of these shipments, the inclusion of such materials will result in the loss of life, property, and production. All materials such as ammunition, booby traps, bombs, mines (in all instances whether or not neutralized), sealed gas cylinders, sealed gasoline drums, sealed fuel tanks, and any other similar sealed, hollow items containing or not containing explosive items are nevertheless explosive in nature when the containers are being melted or prepared with a cutting torch. Therefore classification of scrap will be made in accordance with War Department Memorandum Number 700-45, subject, "Classification of Supplies by Classes of Storage and Stowage", 19 May 1945. No shipments of scrap will be made on the same vessel upon which ammunition is being loaded. Upon completion of loading scrap material on any vessel a certificate will be furnished to the Transportation Officer by the Quartermaster or Ordnance Officer concerned, stating that the provisions of this directive, relative to the elimination of explosives and all materials of an explosive nature from the shipment of scrap material, have been complied with.

10. Consignment of Shipment to the United States

a. Repairable property will not be combined with scrap material, but will be consigned as repairable property in accordance with TM 38-413, Theater Shipping Document.

b. Classes of property will be packed in separate containers and marked in accordance with marking instructions in TM 38-413. Serviceable, repairable, and irreparable property and scrap will be segregated in loading. Scrap will be further segregated by classification, including segregation of ferrous from nonferrous metals when practicable.

c. The provisions of War Department Memorandum 700-45, subject, "Overseas Preparation and Shipment of Property", 8 May 1945, will govern the movement of all property to the United States.

1. Thank you for your Q/25 enclosing L.S. 16 Voucher 26/BSU/1002, original of which is now returned to you to hold.
 2. Although your letter refers to 2 tons of boots and 4 of canvas, the L.S. 16 refers to blankets and canvas.
 3. There should be a further L.S. 16 in respect of lots 71/1001, 2 and 3, canvas, groundsheet and boots, despatched to you from Arezzo. I should be grateful if you could trace these and let me have the 2 carbon copies.

To : HQ MMIA Rome ✓
Att: Q(AE)

1. There is at present a large quantity of clothing for Alcom(Salvage) which they have accepted in our Depots here in Bari. Alcom sold the salvage to civilian firms who came to the Depots and selected only those items which they were interested in, leaving the residue. We have stopped this practice, but still have on hand large quantities of the residue. Is there anything you can do to have these lifted? All of our efforts have failed.

IRA V. FORDYCE, Captain
for Major General
Land Forces Sub Commission.

Declassified E.O. 12356 Section 3.3/NND No. 785020

Translation

From : MOW
To : MMIA
Subject : Sale of unserviceable materials.

Ref. : 4170/I.O/Ord.
Date : July 31, 1945

Further to letter No. 3916/IC/ORD dated 17th inst., we beg to report that the Castaldi Bros. Firm of Grosinone, to which 150 quintals of leather pieces were assigned with the War Materials Disposal and Italian Prisoners of War Sub Commission-SPC 394 letter WMD/71/199 dated May 1, has also refused to draw the materials assigned to it.

9/15/44. The military depots, therefore, continue to be occupied by materials which have been placed on sale and which, owing to their condition and to the excessive summer heat, easily become combustible with the consequent constant danger of fire.

In regard to this, we wish to point out that on the 20th inst., a small fire broke out among the unserviceable materials at Depot No. 1 at S. Giovanni e Teduccio, owing to combustion.

The immediate intervention of the personnel and the preventive measures which had been ordered some time before permitted the extinguishing of the various fires before any important damage was done.

We beg MMIA, therefore, to kindly issue the necessary orders for the quick sale of all of the unserviceable materials; reported as being available by this Ministry, which could be carried out by means of the National Institute for Foreign Trade in Rome, or if deemed advisable, directly by the Military Commissariat Directorates at the best conditions obtainable.

We await the decisions that MMIA may care to communicate.

2. Will you please instruct your representatives to inspect it and submit your requirements to this office when a Release Note will be issued.
3. The material will only be handed over to your authorized representative on presentation of the Release Note.
4. All material selected by you will be removed before the clearance date given on the Release Note. The normal time allowed for collection being 21 days for releases to M.M.I.A. and 28 days for releases to A.C.
5. It is requested that demands or refusals by MIA be made as early as possible and not later than 14 days from this date and those by AC within 21 days. If no acceptance or refusal is received by this office within these periods the materials may then be sold by competitive tender on the open market.
6. Advice of all MIA acceptances and refusals will be sent by this office to AC.
