G/97

5 July 45

WO : AFHQ.

Ref your G-5: 3864.52, our G/97 of 30 June 45.

1. From telephone conversation MAC NAMARA - HOWARD 3 July 45 it is understood that the Italian Ministry of War will be charged with Bomb Disposal by AFHQ, and that deficits commitments will be made for allotment of personnel for the task. A letter confirming this understanding is requested.

2. Appendix "A" attached hereto is Ministry of War's proposed T.E. for Bomb Disposal Units as submitted by them 28 June.

3. Present organisational structure provided consists of a small number of trained civilians supervised by artillery personnel in the various territorial commands. Only emergency disposal has been attempted to date, for, because of civilian nature and lack of equipment and transport, organisation is considered inadequate by the War Ministry.

4. AMGA feels that Ministry of War's T.E. is larger than necessary and contrary to present policy of reducing commitments. It is therefore proposed that War Ministry be authorised only to:-

(a) Increase supervisory personnel, i.e. trained artillery personnel, as necessary.

(b) Employ civilians.

(c) Be furnished information, technical help and special equipment by the Allies.

(d) Use transport assigned or to be assigned to Territorial Commands.

III REASONS FOR THE PROPOSAL

(a) There are now 12 Italian Engr Coys employed by the Allies in 1 District Area. A further 4 are to be formed.

(b) These now depend directly on the Adm Div HQ for adm. This is impracticable in view of the larger area over which the coys are spread.

(c) It is therefore essential that an adm HQ be interposed between coys and Adm Div HQs.
The Bn HQ is designed to administer from 6 - 8 coys.

WAR OFFICE (M.I.A.)

6 June 46

TO : MINISTRY OF WAR

Ref your MI6AG/11 of 26 May.

1. Although the proposed War Establishment for the W.A.A.C. attached to your s/m letter shows a split between Army, Navy and Air Force Officers, it does not show a similar split in OMs.

As both Officers and Staffs are to be split between the services and rationed by the services concerned it is important that this split be shown in the WE. Further by dividing the OR personnel between the services more rations will become available for War Ministry over and above 104 for transfer to War Ministry and WAAC.

2. Ref the additional officer for the Frontier Commission, it is not considered desirable that the W.A.A.C. Est should differ from the troops. While it is agreed that an additional Officer may well be necessary, the simplest solution is to attach him from the War Ministry.

3. With regard to the increased strength of Ministry of War and the WAAC, this matter has received full consideration in the light of your remarks. The following decisions are notified:-

(a) The transfer to War Ministry and WAAC of all the Army personnel not incl in new Est of W.A.A.C. is confirmed.

(b) The retention of the 104 and 20 personnel authorised in Est 5(C) for War Ministry and WAAC respectively is agreed until 1 Aug.

4. Please forward an amended Est for W.A.A.C. and any adjustments which may be necessary to the proposed WEs for the War Ministry and WAAC.

2. It is requested that you consider the proposals contained therein and forward your comments to this HQ.

The calculations in para 4 which were not referred specifically to District HQs, were based on the following factors:-

(a) The distribution of Areas, Sub Areas and Town Majors to Districts as given in AFHQ Chart as of May. From this information a rough figure was taken as that area uniform requirement could be assessed.

(b) The necessity to economise as far as possible in Italian & Interpreter personnel.

SUBJECT:- Italian Interpreters - SR-ITI

LAND FORCES SUB COM, AC (MAIA)

SD/22/2

29 May 45

TO :- AFHQ

1. This HQ and Ministry of War are experiencing considerable difficulty in the provision of interpreter personnel for SR-ITI units. Although there is in the Italian Army a reasonable number of officers and ORs suitable for employment as liaison officers and interpreters, very few can now be made available to meet new commitments. This is largely due to :

(a) lack of adequate records of the present whereabouts of these linguists;

(b) unauthorised use of liaison officers and interpreters by formations and units.

It is therefore considered essential to regularise the entitlement of these interpreters so that unauthorised attachments may be terminated and personnel collected and trained to meet authorised commitments.

2. It is recommended, therefore, that the following steps be taken to provide SR cover for the interpreter personnel which are required by British formations and units.

It is fult that requirements can best be considered under the following headings:-

(a) Armies
(b) Static HQs
(c) Individual units

3. ARMIES

The requirements of British troops in Fifth and Eighth Armies are covered by CAS/782/1 - Italian Intelligence Liaison Unit.

4. STATIC HQs

It is recommended that SRI Intelligence Liaison Post be deleted from the Overall Order of Battle - Italian Army (AFHQ/782.6 of 6 May), and an establishment be approved for a new unit to be called "Pool of Italian Liaison Officers", strength 160 Offrs (of which up to 5% may be ORs, if suitable ORs are available), and 40 Interpreters (all ORs), for

4. STATIC HQs

It is recommended that 661 Intelligence Liaison Pool be deleted from the Overall Order of Battle - Italian Army (AMD/788.3 of 6 May), and an establishment be approved for a new unit to be called "Pool of Italian Liaison Officers", strength 165 Offrs (of which up to 50 may be OHs, if suitable OHs are available), i.e. an increase of 65 over the present allocation under 661 Intelligence Liaison Pool.

It is felt that the word "Intelligence" should be omitted from the title of the est as the duties, which will be performed by the personnel, will be on the liaison rather than on the intelligence side.

A proposed HQ is attached as Appendix "A". This HQ is composed of two parts as follows:-

(a) District Pool

As all Districts command a varying number of static HQs an approximate requirement has been calculated. This is based on an average of present District commitments. It is considered that only a nucleus of Italian Army personnel should be employed by static HQs and that the maximum use should be made of civilians. The allocation

P/.....

Declassified E.O. 12356 Section 3.3/NSD No. 785030

per District has been calculated accordingly as follows:-

District HQ	@ 3	-	3
3 Areas	@ 2	each	6
2 Sub Areas	@ 1	each	2
29 Town Majors or Garrisons	@ 1	each	29
			40

This pool would be under control Districts, rather than of Italian who live, as Districts will be more conversant with Br Static HQ requirements and will have full control of the interpreter personnel through the senior MAL LO and the senior Italian LO at District HQ.

(b) Central pool

As the requirements of all Districts are never likely to be the same and as the District Pool has been kept to a minimum of key personnel, it is considered that there will always be a demand from Districts for temporary allocation of additional liaison personnel. A central pool is, therefore, essential, from which allocation to Districts can be made and to provide an act against which liaison officers and interpreters can be held. The allocation is based on a rough average requirement of 15 per District. The pool would remain under control of Land Forces Sub Com. MG (MAL).

(c) Only officers are included in the est, as it is practically impossible to find suitable Italian NCO interpreters, but a note has been added stating that up to 50% of the vacancies may be filled, when possible, by NCOs for interpreter duties.

6. UNITS.

It is recommended that all units which, because of their role, have a universal requirement for liaison officers or interpreters, should have this personnel included in their ME.

It is considered that those static HQs, which have their own specific ME, such as MAAU, should be included in this category.

7. It is requested that an early reply to the above proposals may be given so that steps may be taken by this HQ either to withdraw unauthorised personnel to meet outstanding demands or to arrange to regularise such unauthorised personnel as are indispensable. An up to date return of all Italian personnel now employed as interpreters has been requested from [illegible]

Declassified E.O. 12356 Section 3.3/NND No. 785020

(b) Central Pool

As the requirements of all Districts are never likely to be the same and as the District Pool has been kept to a minimum of key personnel, it is considered that there will always be a demand from Districts for temporary allocation of additional liaison personnel. A central pool is, therefore, essential, from which allocation to Districts can be made and to provide an out against which liaison officers and interpreters can be held. The allocation is based on a rough average requirement of 15 per District. The pool would remain under control of Land Forces Sub Com. at AMGI.).

(c) Only officers are included in the est, as it is practically impossible to find suitable Italian NCO interpreters, but a note has been added stating that up to 50% of the vacancies may be filled, when possible, by NCOs for interpreter duties.

5. Centro.

It is recommended that all units which, because of their role, have a universal requirement for liaison officers or interpreters, should have this personnel included in their WE.

It is considered that those static HQs, which have their own specific WE, such as Naval, should be included in this category.

6. It is requested that an early reply to the above proposals may be given so that steps may be taken by this HQ either to withdraw unauthorised personnel to meet outstanding demands or to arrange to regularise such unauthorised personnel as are indispensable. An up to date return of all Italian personnel now employed as interpreters has been requested from subs HQs through the Ministry of War.

DOCUMENT:- Italian Interpreters - SH-ITI

9/12

LAND FORCES SUB COM, MT (MED.)

MD/12/2

21 May 45

TO :- AFHQ

1. This HQ and Ministry of War are experiencing considerable difficulty in the provision of interpreter personnel for SH-ITI units. Although there is in the Italian army a reasonable number of officers and ORs suitable for employment as liaison officers and interpreters, very few can now be made available to meet new commitments. This is largely due to :

(a) lack of adequate records of the present whereabouts of these linguists;

(b) unauthorised use of liaison officers and interpreters by formations and units.

It is therefore considered essential to regularise the entitlement of these interpreters so that unauthorised attachments may be terminated and personnel collected and trained to meet authorised commitments.

2. It is recommended, therefore, that the following steps be taken to provide HE cover for the interpreter personnel which are required by British formations and units.

It is felt that requirements can best be considered under the following headings:-

(a) Armies
(b) Static HQs
(c) Individual units

3. ARMIES

The requirements of British Troops in Fifth and Eighth Armies are covered by CM/TSF/1 - Italian Intelligence Liaison Unit.

4. STATIC HQs

It is recommended that 661 Intelligence Liaison Pool be deleted from the Over-all Order of Battle - Italian Army (AFHQ/922.3 of 6 May), and an establishment be approved for a new unit to be called "Pool of Italian Liaison Officers", strength 165 OffRs (of which up to [illegible] may be

in the provision of interpreter personnel for SH-ITI units. Although there is in the Italian army a reasonable number of officers and ORs suitable for employment as liaison officers and interpreters, very few can now be made available to meet new commitments. This is largely due to :

(a) lack of adequate records of the present whereabouts of these linguists;
(b) unauthorised use of liaison officers and interpreters by formations and units.

It is therefore considered essential to regularise the entitlement of these interpreters so that unauthorised attachments may be terminated and personnel collected and trained to meet authorised commitments.

2. It is recommended, therefore, that the following steps be taken to provide HQ cover for the interpreter personnel which are required by British formations and units.

It is felt that requirements can best be considered under the following headings:-

(a) Armies
(b) Static HQs
(c) Individual units

3. Armies

The requirements of British Troops in Fifth and Eighth Armies are covered by CX/782/1 - Italian Intelligence Liaison Unit.

4. Static HQs

It is recommended that 661 Intelligence Liaison Pool be deleted from the Overall Order of Battle - Italian Army (AFHQ/922.5 of 6 May), and an establishment be approved for a new unit to be called "Pool of Italian Liaison Officers", strength 165 Offrs (of which up to 50% may be ORs, if suitable ORs are available), i.e. an increase of 65 over the present allocation under 661 Intelligence Liaison Pool.

It is felt that the word "Intelligence" should be omitted from the title of the unit as the duties, which will be performed by the personnel, will be on the liaison rather than on the intelligence side.

A proposed ME is attached as Appendix "A". This ME is composed of two parts as follows:-

(a) District Pool

As all Districts command a varying number of static HQs an approximate requirement has been calculated. This is based on an average of present District commitments. It is considered that only a minimum of Italian Army personnel should be employed by static HQs and that the maximum use should be made of civilians. The allocation

F/.....

Declassified E.O. 12356 Section 3.3/NND No. 785030

per District has been calculated accordingly as follows:-

District HQ	@	3 -	3
3 Areas	@	2 each	6
8 Sub Areas	@	1 each	8
29 Town Majors or Garrisons	@	1 each	29
			46

This pool would be under control Districts, rather than of Italian Adm Divs, as Districts will be more conversant with Br Static HQ requirements and will have full control of the interpreter personnel through the senior BMLO and the senior Italian LO at District HQ.

(b) Central pool

As the requirements of all Districts are never likely to be the same and as the District Pool has been kept to a minimum of key personnel, it is considered that there will always be a demand from Districts for temporary allocation of additional liaison personnel. A central pool is, therefore, essential, from which allocation to Districts can be made and to provide an set against which liaison officers and interpreters can be held. The allocation is based on a rough average requirement of 15 per District. The pool would remain under control of Land Forces Sub Com. AC (BMLO).

(c) Only officers are included in the est, as it is practically impossible to find suitable Italian NCO interpreters, but a note has been added stating that up to 60% of the vacancies may be filled, when possible, by NCOs for interpreter duties.

5. UNITS.

It is recommended that all units which, because of their role, have a cultural requirement for liaison officers or interpreters, should have this personnel included in their WE.

It is considered that those static HQs, which have their own specific WE, such as Naval, should be included in this category.

6. It is requested that an early reply to the above proposals may be given so that steps may be taken by this HQ either to withdraw unauthorised personnel to meet outstanding demands or to arrange to regularise such unauthorised personnel as are indispensable. An up to date return of all Italian personnel now employed as interpreters has been requested from the War HQs through the Ministry of War.

through the senior MGIa LO and the senior Italian LO at District HQ.

(b) Central Pool

As the requirements of all Districts are never likely to be the same and as the District Pool has been kept to a minimum of key personnel, it is considered that there will always be a demand from Districts for temporary allocation of additional liaison personnel. A central pool is, therefore, essential, from which allocation to Districts can be made and to provide an out against which liaison officers and interpreters can be held. The allocation is based on a rough average requirement of 15 per District. The pool would remain under control of Land Forces Sub Com, AC (MGIa).

(c) Only officers are included in the est, as it is practically impossible to find suitable Italian NCO interpreters, but a note has been added stating that up to 50% of the vacancies may be filled, when possible, by NCOs for interpreter duties.

5. Units.

It is recommended that all units which, because of their role, have a universal requirement for liaison officers or interpreters, should have this personnel included in their WE.

It is considered that those static HQs, which have their own specific WE, such as RAMC, should be included in this category.

6. It is requested that an early reply to the above proposals may be given so that steps may be taken by this HQ either to withdraw unauthorised personnel to meet outstanding demands or to arrange to regularise such unauthorised personnel as are indispensable. An up to date return of all Italian personnel now employed as interpreters has been requested from the Div HQs through the Ministry of War.

LAND FORCES SUB COM, AC (MMIA)

24 May 45

TO : AFHQ (3)

Ref your letter AG.091.711/061 GOT-O of 18 May 45.

1. It is agreed that the organization of HR-ITI Reinforcement Depots and Schools should be amended and brought into line with present conditions and requirements.

2. Paragraph 2 of your above quoted letter is agreed in principle. It is considered as a corollary that the distinction between service and combat troops within the HR-ITI Category should be abolished. Certainly it is felt that there should be no difference in the clothing of the two sub-categories from the date the reorganization takes effect; although present orders are to plan on the existing basis until 1st December next.

3. There is every advantage especially on the "Q" side in having only one reinforcement depot and therefore the suggestion to hold the whole of the proposed reinforcement ceiling of 7800 at CREDAIO is welcomed.

4. It is suggested that the present system of RD's will be necessary for a short time as reorganization centres and the undermentioned plan for the closing of RD's is submitted.

(a) 804 RD TRANI move to a suitable location in N. ITALY forthwith coming under 1 District on arrival and become the permanent reinforcement centre as suggested in your para 3.

(b) 808 RD CERVETO to close one month after the establishment of 804 RD in new location vide 4(a) above.

(c) 803 RD RAVISCANINA to close one month after the closing of 808 RD vide 4(b) above.

5. Ref your para 4. It is considered that the Tank Tgt Training 5349
FOGGIA/SAVONE should be closed forthwith on CERVETO preparatory to being closed completely vide 4(b) above.

Certainly it is felt that there should be no difference in the clothing of the two sub-categories from the date the reorganisation takes effect; although present orders are to plan on the existing basis until incl December next.

3. There is every advantage especially on the "Q" side in having only one reinforcement depot and therefore the suggestion to hold the whole of the proposed reinforcement ceiling of 7500 at CREMO is welcomed.

4. It is suggested that the present system of SD's still be necessary for a short time as reorganisation centres and the undermentioned plan for the closing of SD's is submitted.

(a) 804 SD TRANI move to a suitable location in S. ITALY forthwith coming under 1 District on arrival and become the permanent reinforcement centre as suggested in your para 3.

(b) 802 SD CERVETO to close one month after the establishment of 804 SD in new location vide 4(a) above.

(c) 803 SD RAVISCANINA to close one month after the closing of 802 SD vide 4(b) above.

5. Ref your Para 4. It is considered that the Rock Cat Training 5519
FORSCHUNGEN should be closed forthwith on CERVETO preparatory to being closed completely vide 4(b) above.

6. The disbandment of 280 Driving and Maintenance School and the transfer of its commitments to 182 D & M School CREMO is agreed.

7. As soon as approval is given, a revised ES for CERMO will be prepared and submitted on the basis of a holding of 7800 reinf reinforcements. SEE 158.

8. It is considered that it will be necessary to have approval of holdings against present demobilisation programme. Will you please say if this is agreed.

9. It is submitted that all the above is merely an interim measure pending the establishment of Italian peace-time procedure.

Q/92

Ref your 209765/11 of 28 April 1945.

1. It is noted that the WE for the S.M.O. forwarded under your M/0030/11 of 1 May does not agree in the following respects with the instructions laid down in your proposed decree.

(a) Navy, Army and Air Force Officers and ORs are shown together when they should be shown separately.

(b) 4 Officers are shown for the Frontier Commission when only 3 were permitted by the decree.

2. It is considered important that the S.M.O. War Establishment should be framed in accordance with the decree and the following readjustments are therefore necessary:-

(a) The est will be divided into Army, Navy and Air Force personnel. The Navy and Air Force personnel will be shown as attached and will not count against the Army ceiling.

(b) The Frontier Commission must be reduced to 3 Officers.

Otherwise the size of the est is agreed.

3. It is further agreed that the difference in ceiling between the present S.M.O. Est (150) and the new est for the Army section of the S.M.O. (figure dependent on para 2 above) can be distributed between the War Ministry and SHAEF at the discretion of War Ministry, providing none are assigned to IAI Units, HQ, or IAI duty. 5540

4. As this will mean that the War Ministry and SHAEF staffs will be increased by over 104 personnel you are required to reconsider the need for the 104 and 30 extra personnel attached to War Ministry and SHAEF respectively and held in category A(c).

It is considered that certain of the duties to be performed by the personnel now being allotted will overlap with those for which the
