With reference to your SD/1/2 dated 3 June 1944, the application made in this office letter 14613/3/PS of 23 May 1944, was for arms for P.S. Agents in Italian Government territory and the Province of Foggia.

It has been ascertained that the request made by the Intendenza of HQ Italian Armed Force which was not referred to this Sub-Commission is for agents in the Province of Naples, Campobasso, Avellino and Benevento. **651**

In order to prevent the risk of duplication in the future arrangements have been made for all requisitions for weapons and ammunition be consolidated by the Minister of Interior and forwarded to Italian General Staff.

1. A report has been received by the War Commissariat, General Staff of the French High Command that important quantities of French arms are at present located in the arsenal at TARANTO and representations have been made to this headquarters to obtain the transfer of this material to the French Army.

2. The French High Command point out that great advantage could be made of these arms in substitution for the out of date or much used equipment at present in service in their formations. In the event of concurrence in the transfer, they suggest sending a French technical specialist to TARANTO to carry out an inspection of the equipment in question and to make arrangements for it's shipment to NORTH AFRICA.

3. It is desired that investigation be made of the quantities and types of French arms at present in the TARANTO Arsenal and a statement made as to what objections, if any, there are to it's transfer to the French Army.

With reference to your letter SD/1/2 dated 15 May 44 concerning supply of ammunition for captured enemy weapons held by 7 Polish Reserve Div.

This has been investigated at this HQ, and it is regretted that it is not possible to issue the ammunition required. In these circumstances it is considered there is little point in 7 Polish Reserve Div retaining the weapons listed in para 2 of your above-quoted letter, and that they should be handed in.

2. The shortage of this type of gun is realized. The above quantity is, however, required for operations. Perhaps the LACOS Depot, which has 1,00 rds, can supply.

3. For S.G.M. Availability of this type of case on the Mainland is only 400 rds. Arrangements are being made to ship further stocks from HAWAII.
