3. War Ministry will be given specific instructions by this HQ as to when each Serial will be filled, and from what source.

4. The requirements of MMIA Priority List No 2 are in addition to the personnel required to replace men due for demobilisation in existing Italian service units under Allied command.

The above replacements are the responsibility of the Italian War Ministry, who will notify this HQ of the exact Nos involved, so that replacement requirements of existing units may be co-ordinated with the requirements of MMIA Priority List No 2.

5. The information in the following paras is given for your guidance in the provision of personnel against the serials set out in List No 2.

6. ENGINEERS (Serials 10, 100 and 200)

When personnel become available for these serials this HQ will give instructions for them to pass through the Italian Engr Depot at SANTA MARIA CAPUA VETERE for documentation, equipping and allotting to under Command Allied units.

7. TRANSPORTATION

(a) Docks Operating Coys (Serials 105, 205 and 300)

Tradesmen for each are required, if possible, as follows :-

Carpenters and Joiners	3
Checkers	52
Clerks	14
Crane Drivers	27

It is realised that it will be difficult to find the required number of checkers and Stevedores and that a considerable amount of training will be necessary after the formation of the units.

(b) Rfts for Railway Engineer Bns (Serial 80)

Personnel can be accepted in existing units as soon as they become available. The other ranks need not necessarily be tradesmen, but if any men with experience in railway construction are available they should be earmarked for Serial 80. Officers should all have some engineering qualification - railway construction if possible.

8. SIGNALS (Serials 20, 25, 110, 210, 300 and 400)

It is proposed to utilise the personnel of the signal element of 210 Mista Genio Coy as rfts for existing Italian Line Construction Secs and, together with the output from the Italian Linesmen's Training School at FRANCAVILLA, to make up the balance of the nine Line Construction Secs which are still due to be formed.

Personnel to meet deficiencies in other than Line Construction Secs can be accepted immediately. Only trained linesmen can be accepted for the Line Construction Secs.

9. ORDNANCE (Serials 60, 135, 230, 320 and 415)

This HQ signal SD1340 of 25 Aug 44 shows the type of personnel which are to be provided if possible.

10. Call-up of Specialists

Priority is at present authorised for provision of specialist personnel for combat ops from the call-up in RCM. Should it be necessary to provide further specialists for the combat ops from personnel to be called up elsewhere, this HQ will consider authorising the necessary precedence over personnel required for Italian Service units for British formations on MIA Priority List No 2.
