REF: 2106/Ord./II

TO: M.M.I.A.

DATE: 2 April 1945.

SUBJECT: Employment as civilians in territorial units of military personnel on unlimited or renewable leave due to being in excess of M/L.

- 1) - As is known, because of the appreciable reductions made in the war establishments of territorial units, a certain number of military personnel are in excess of present requirements.

Therefore, while waiting for the putting into effect of the legal measures under study which are intended to equalise the personnel in service with the maximum limit of strength now permitted, the excess personnel are being sent on unlimited or renewable leave.

- 2) - The territorial units, especially the depots ~~xxxxxxx~~ and districts, are at present faced with a serious crisis in their functioning because of the difficulties which are met with in finding fit and trustworthy civilian personnel in replacement of the discharged military personnel.

In order to resolve this situation it is my intention to authorise the territorial units to employ as civilians the personnel referred to in para. 1) above, personnel who, being for the largest part already perfectly trained for the work to be carried out due to long practice, would be of immediate and great advantage to the service.

- 3) - I await the approval of M.M.I.A. for the putting into effect of this measure.

OGGETTO: Impiego come civili presso enti territoriali di personale militare in licenza rinnovabile od illimitata perchè esuberante agli organici.-

ALLA LAND FORCES SUB COMMISSION A.C. (MMIA)

ROMA

1°)- Come è noto, causa le notevoli riduzioni apportate agli organici degli enti territoriali, una aliquota di personale militare viene ad essere esuberante all'attuale fabbisogno.-

Pertanto, in attesa dell'attuazione dei provvedimenti di legge allo studio intesi ad adeguare il personale in servizio ai limiti di forza massima ora consentiti, il personale esuberante viene inviato in licenza rinnovabile od illimitata.-

2°)- Gli enti territoriali, specie i depositi ed i distretti, sono attualmente in una seria crisi di funzionamento per la difficoltà che si incontra a trovare personale civile idoneo e fidato in sostituzione degli elementi militari allontanati.-

Per risolvere tale situazione, sarebbe mio intendimento autorizzare gli enti territoriali ad assumere come civile il personale di cui al precedente capo 1°), personale che, per essere in massima parte già perfettamente orientato per lunga pratica, sul lavoro da compiere, sarebbe di immediato e grande giovamento al servizio.-

3°)- Attendo benestare da codesta M.M.I.A., per dar corso a tale provvedimento.-

1. No increase in the Artillery ceiling can be authorised over and above 693, vide SD/94 of 22 Feb as altered by Addl No 5 dated 5 March 45.
2. A readjustment of personnel should be made by the Italian authorities within this ceiling to ensure that:-
 - (a) Military personnel is used to the utmost to supervise civilian guards.
 - (b) Maximum military personnel is used on the most important depots. To facilitate this, ammunition should already have been graded, and the natives most susceptible to pilfering concentrated.
3. This matter has already been raised by War Ministry, to whom we have replied in the above sense.

Please amend as follows the list of units composing the Territorial organization of the Italian Army forwarded together with letter referred to above.

1) Amendment.

a) Appendix 'B' - column a1 - n^o 43 - in column c Potenza District should be marked n^o 38 instead of n^o 58 which is the number for Areoli Piceno District. (App. A. column a 4:37).

b) Appendix 'B' column a1 n^os 25, 26, 27, 28, 29, 30.

Parma, Reggio Emilia, Modena Ferrara, Forli and Ancona Districts in column b are marked shown for II class while in fact they are of III class. Data shown in columns f/g/h are correct because these refer to III class Districts.

It has come the notice of this HQ that the establishment of the Director of Artillery (Italian) TARANTO^u to be reduced drastically.

As the Director of Artillery is responsible for the security and protection of large stores of arms and ammunition, it is imperative that he is allowed sufficient resources to fulfil his obligations.

It is understood that as a result of the proposed reduction of establishment, sworn civilian guards are to replace the existing military personnel who are even now too weak in numbers for their commitments. Because of the importance of these stores from the aspect of maintenance of public order, it is not considered advisable to have any type of guard other than purely military responsible for their security.

You are therefore, requested to obtain permission from the appropriate authorities, for the Director of Artillery to have such military personnel as he may require for his commitments.

1. May we please have your comments. The following points occur to us.

2. Para 2(a) - Guards for Ammunition Depots

(a) It would be useful to determine what really needs to be guarded and to ensure that any/over in RUC tied up looking after material which can no longer serve any useful purpose.

(b) We suggest that material in the Italian Depots can be divided into three categories:-

(i) Amm required by the Allied Forces A.S. (1cm mortar and certain arty unit.

(ii) Amm, weapons and stores required by the present Italian Army.

(iii) Amm, weapons and stores RUC required by the present Italian Army.

(c) Of the above

(i) a proportion of (b) (i) could perhaps be turned over to allied army

(ii) (b) (iii) should be disposed of

(iii) (b) (ii) would remain as the primary commitment of the arty depots.

(d) You are therefore requested to go into this question with O.A. AFHQ and decide a policy which can be transmitted in the form of a directive to the War Ministry.

- (a) It is recommended that material that is no longer needed for any purpose, after material which can no longer serve any useful purpose.
- (b) We suggest that material in the Italian Depots can be divided into three categories:-
- (i) Artillery required by the Allied Forces E.G. 81 cm mortar and certain heavy guns.
 - (ii) Artillery weapons and stores required by the present Italian Army.
 - (iii) Artillery weapons and stores not required by the present Italian Army.
- (c) Of the above
- (i) a proportion of (b) (i) could perhaps be turned over to allied forces.
 - (ii) (b) (ii) should be disposed of.
 - (iii) (b) (iii) would remain as the primary commitment of the Army Depots.
- (d) You are therefore requested to go into this question with G.A. AFHQ and decide a policy which can be transmitted in the form of a directive to the War Ministry.
- (e) Regarding the guards at MARLBOROUGH already have a Guard of 54 all ranks and have recently increased the Labour Coy at MARLBOROUGH by 144 all ranks which was intended to cover certain escort commitments.

Para 2(b) & (c) - Line of course

5. This appears to be an inter commitment. Could you please indicate what it amounts to, so that G.A. can make suggestions for meeting it.

4. Para 2(d) - RUMS production 1/1. Do you support this?

5. Para 3 - There are only 234 unallocated personnel at serial No 27 of Category 1(G) (v) (Annex 1 to 11/94 of 22 Feb 45.)

Subject: Territorial organization of Arty. Services units.

① - Proposals regarding the re-distribution of the authorised strength for territorial services were contained in AMR the M. of W.'s letter to you No. 202800/II dated Feb. 1st. last.

An essential minimum requirement of 1620 units was asked for for the Arty. services for the whole of the National territory as against the 1500 units at the time allowed for the liberated territory only. Later MMIA in their SD/94 of Feb. 22nd. reduced the strength allowed for the Arty. to only 635 units for the whole of the national territory. The major part of the reduction became an increase in the strength of the Equine and Veterinary services which were increased from 300 to 600 units.

② - When it has come to carrying out the above instructions very serious drawbacks have been reported as resulting from the reduction in strength of the Arty. services, drawbacks which seriously affect the safety of State Property and even Public Security.

I therefore consider it my duty to report the main requirements which should be met:

a) Guard service for ammo. depots: In this respect the following should be born in mind:

- the formation of said depots in which quantities, often considerable, of explosives and ammunition easily carried away (powder, hand grenades, rounds for portable arms) are stored;
- the fact that said depots are difficult to guard and offer little security. They lack proper enclosures and can be got into from almost anywhere. Proper guarding is made impossible by the lack of the necessary number of men to appoint for these duties.
- the necessity of in view of the above of establishing a suitable defense system in the depots a service which can only be entrusted to military personnel.

It does not appear to be advisable to entrust the guard service of ammunition depots to sworn guards either from a public safety point of view from that of collective security, both due to the nature and procedure of the service and to the impossibility of finding suitable personnel.

To ensure this service with a minimum of efficiency it would be necessary to allot 200 men distributed in Guard Platoons among the Ammo. depots of the Directorates of Arty. of Rome, Florence, Taranto and Naples. The service would be provisional and would only last until the work now being carried out to render these depots safer has been completed, as well as the work being done to reorganise and recover the ammunition. It must also be born in mind that the Naples Arty. Directorate, for example, must provide armed escorts for the Arty. material arriving at that port by sea, a service which was asked for by MMIA, Naples. Said Directorate has had to, furthermore, form a

detachment in the 'to' of 20 men and 2 NCOs as well as to place 3 Junior officers at the disposal for a 24 hour shift at the port, ordered by MMIA so that there is constantly one responsible officer for the goods unloaded from the ships. Said detachment would be included in the 200 men.

b) mine clearing units to be provided by the Arty. Directorates with a total strength of 280 men. Experience has shown that it is absolutely essential that this work be done by specialised personnel, particularly in order to avoid regrettable incidents.

c) Rome Arty. Directorate must arrange courses for the training of specialists for the mine clearing units, such courses to be held at the units, bases or front line units. It would therefore be necessary to increase the W/E by 10 units including Officer and NCO instructors.

d) Rome Precision W/S has now taken over the optical laboratory and therefore requires 4 more specialised units in addition to the 3 already allotted to the W/S.

③- In consideration of all the above I propose that these requirements be met in the following manner:

- As regards a): with the provisional formation of "Guard Platoons" with a total strength of 200 units to be included in Cat. 5 over and above the strength already authorised under said category.

- As regards b), c) and d): with a total increase of 294 units in the Arty. services and an equal reduction of the surplus strength of the Equine and Veterinary Services. (SD/94 dated 22.2.45 - Cat. 1(c) Section (v) - Serial No. 27)

OGGETTO: Organizzazione territoriale degli enti del servizio di artiglieria.-

ALLA LAND FORCES SUB COMMISSION AC. (M.M.I.A.)

R O M A

1. - Con lettera del Ministero della Guerra - Gabinetto - Nº 202800/II del 1º febbraio c.a. venivano inoltrate proposte a codesta M.M.I.A. circa la nuova ripartizione della forza stabilita per il funzionamento dei servizi territoriali.-

Per il servizio di artiglieria veniva richiesto, per tutto il territorio nazionale, un fabbisogno minimo indispensabile di 1.620 unità, contro le 1.500 di cui in atto fruiva il servizio nel territorio già liberato.- Codesta M.M.I.A. con successiva SD/94 del 22 febbraio, riduceva la forza stabilita per il servizio di artiglieria a sole 675 unità per tutto il territorio nazionale; gran parte della decurtazione veniva passata in aumento al servizio ippico e veterinario, che veniva portato da 300 a 606 unità.-

2. - In sede di applicazione delle disposizioni di cui sopra, vengono ora segnalati i gravi inconvenienti ai quali danno luogo i provvedimenti di riduzione in atto del servizio di artiglieria, inconvenienti che incidono seriamente sulla conservazione del patrimonio dello Stato e, soprattutto, sulla stessa sicurezza pubblica.-

Ritengo, pertanto, mio dovere mettere in evidenza le principali esigenze che occorrerebbe soddisfare:

a) - servizio di guardia a depositi munizioni: in merito è da tener presente:

Ritengo, pertanto, mio dovere mettere in evidenza le principali esigenze che occorrerebbe soddisfare:

- a) - servizio di guardia a depositi munizioni: in merito è da tener presente:
 - la costituzione di detti depositi nei quali sono accatastati quantitativi talvolta ingenti di esplosivi e munizioni facilmente asportabili (polveri, bombe a mano, ecc.);
 - le cattive condizioni di sorveglianza e sicurezza dei depositi stessi, mancanti di recinzione che li rendono accessibili da qualunque punto e che non consentono una vigilanza rigorosa per mancanza degli individui da adibire alla vigilanza stessa;

MMIA-G

FILE: 54712

DATE: 2/3

- la necessità, per quanto precede, di stabilire nei depositi munizioni un particolare servizio di difesa da affidarsi a personale militare.-

Non sembra che sia possibile né opportuno dal punto di vista dell'ordine pubblico e della sicurezza collettiva, affidare il servizio vigilanza dei depositi munizioni a guardie giurate, sia per la natura e modalità dei servizi da compiere, sia per la impossibilità di trovare elementi idonei.-

Per assicurare con un minimo di efficacia tale servizio, occorrono 200 u., ripartiti in "plotoni guardia" tra i depositi munizioni dipendenti dalle direzioni di artiglieria di Roma, Firenze, Taranto e Napoli.- Il servizio avrebbe carattere provvisorio, fino al momento in cui saranno portati a termine i lavori di sicurezza dei depositi, nonché le operazioni di riordino e ricupero delle munizioni. Giova anche ricordare che la direzione artiglieria di Napoli, ad esempio, deve provvedere inoltre ai servizi di scorta armata dei materiali di artiglieria provenienti, via mare, al locale porto, servizi voluti dalla M.M.I.A. di Napoli; a tale scopo la predetta direzione artiglieria ha dovuto costituire nella città un distaccamento di 20 u. e 2 sottufficiali, nonché mettere a disposizione 3 ufficiali subalterni per la permanenza continua (24 ore sulle 24) al porto - ordinata dalla M.M.I.A.-di 1 ufficiale responsabile delle merci scaricate dai piroscafi.- Il predetto distaccamento sarebbe inglobato nelle 200 unità.

b) - nuclei rastrellatori per la bonifica del territorio, ripartiti fra le varie direzioni di artiglieria, con una forza complessiva di 280 u.- L'esperienza ha dimostrato l'assoluta necessità di poter disporre di tali elementi specializzati, specialmente onde prevenire dolorosi incidenti.

c) - direzione artiglieria di Roma dovrebbe svolgere corsi per la formazione di artiglieri da assegnare sia ai nuclei di rastrellamento e bonifica del territorio, sia alle unità, enti e reparti in linea; occorrerebbe perciò un aumento di organico di 10 unità tra ufficiali e sottufficiali istruttori.

d) - laboratorio di precisione di Roma, ha assorbito la vetreria di ottica per la quale necessita personale specializzato in misurazioni, in aggiunta alle 3 già assegnate al laboratorio.

PROVVISORIA
i lavori di sicurezza dei depositi, nonché le operazioni di riordino e ricupero delle munizioni. 3. - In considerazione di quanto sopra propongo di provvedere:
- per quanto in a): con la costituzione provvisoria di "plotoni guardia" la cui forza complessiva di 200 unità dovrebbe essere posta a carico della 5ª categoria in aumento di quella attualmente stabilita per la categoria stessa;

./.

- per quanto in b), c) e d): con l'aumento complessivo di 294 unità al servizio di artiglieria e conseguente riduzione di un numero corrispondente delle unità esuberanti al servizio ippica e veterinaria (SD/94 del 22.2.45 - categoria I^a (c) - sezione (v) - n° di serie 27).-

TO : MINISTER OF WAR.

.....

Ref MIA letter TS/G/12 dated 26 Dec 44: -

1. The matter of earmarking the personnel to fill the staffs concerned north of the existing line has been reconsidered by this HQ.
2. (a) It would obviously be an advantage if we could earmark now the complete actual staff to go forward and take over the various Regional HQ etc without delay as North ITALY is liberated.

(b) This, however, would allow for no absorption of the many officers who are now controlling and fighting with the partisans in the North, and whose local knowledge and authority would be of great value.

(c) To impose complete control by Officers from the South can only lead to friction or worse. Yet it is necessary to establish the authority of the Ministry of War by means of officers nominated by the latter whom it trusts and of whom it knows the capabilities.

(d) The answer is to coalesce the North and the South by having a combined staff drawn from both.

3. (a) To do this, it is possible to earmark a proportion of the staffs now from the South.

(b) The general earmarking of personnel now in the North for these staffs does not seem to be a feasible proposition as:

- (i) they may be killed or captured before we get there.
- (ii) we have not sufficiently full information to be sure they are suitable.
- (iii) it might cause jealousy and friction among the staffs themselves.

4. (a) It has therefore been decided that you will: -

(i) nominate the commander and one-third of the staff

complete actual staff to go forward and take over the various Regional HQ etc without delay as North Italy is liberated.

- (b) This, however, would allow for no absorption of the army officers who are now controlling and fighting with the partisans in the North, and whose local knowledge and authority would be of great value.
- (c) To impose complete control by Officers from the South can only lead to friction or worse. Yet it is necessary to establish the authority of the Ministry of War by means of officers nominated by the latter whom it trusts and of whom it knows the capabilities.
- (d) The answer is to coalesce the North and the South by having a combined staff drawn from both.
- (a) To do this, it is possible to earmark a proportion of the staffs now from the South.
- (b) The general earmarking of personnel now in the North for these staffs does not seem to be a feasible proposition as:
- (i) they may be killed or captured before we get there.
 - (ii) we have not sufficiently full information to be sure they are suitable.
 - (iii) it might cause jealousy and friction among the bands themselves.
- (a) It has therefore been decided that you will:
- (i) nominate the commander and one-third of the staff from the South now.
 - (ii) leave the post of 2nd-in-command vacant for a local appointee from the North.
 - (iii) leave two-thirds of the staff vacancies unfilled till the new Regional HQ is set up.
 - (iv) delegate to the commander, under authority of M of W the power to fill all vacancies in conjunction with the local army leaders in the partisan organisations.
- (b) The action as in 4 (a) will apply to Regional HQ, Districts and Depots only. The IVI-ITI ceiling now being full, a reduction in this will be made forthwith in accordance with Annex "A", in order to create the requisite vacancies within the IVI-ITI ceiling.
- (c) The action as in 4 (a) will NOT apply to CEMETI detachments or Services, which will be filled now by personnel available in liberated Italy.

Sheet 2.

4. (Contd.)

(d) The above permits of a staff being sent forward to take charge immediately and start the business. It will give effect to local aspirations, while still producing an organisation with knowledge of Allied orders and procedure and under control of H of W.

(e) The scheme is intended to be flexible and can be adjusted to suit local conditions and the variations of personnel forthcoming in the North e.g. in filling the unallotted two-third vacancies.

(f) For security reasons and because it is not possible completely to anticipate the actual state of affairs that we shall discover in the North, you will consider this scheme as SECRET. This letter is thus sent to you as a policy to work to secretly for the time being.

Subject: Depot 226th Inf. Regt. at Molfetta.

As a consequence of the reduction in the number of depots, this S. M. has ordered the ~~reorganization~~ of the depot of the 226th Inf. Regt. with the depot of the 215th Inf. Regt. at Molfetta.

Accordingly, the depot of the 226th Inf. Regt. will have to be discontinued.

The political and civil local authorities in consideration of:-

- military traditions of the depot in question, the units of which have - during September 1943 - participated of their own accord in actions against the Germans,
- the fact that the citizens of Molfetta - bound as they are by traditional ties of friendship to the only military organization in their town - have contributed heavily towards providing the equipment needed to operate said depot,

~~local political and civil authorities~~ have sent an appeal to the Ministry of War to cancel the order discontinuing the depot in question.

May we therefore request that you look into this matter and authorize us to keep the 226th Inf. Regt. depot over and above those previously authorized.

ALLA LAND FORCES SUP COMMISSION AG. (M.M.I.A.)

R. C. A. A.

In seguito alle note riduzione dei depositi, questo S.M. ha disposto la fusione del deposito 2250 rgt. fanteria con il deposito 2250 rgt. fanteria di Volfetta.-

In conseguenza il deposito 2250 rgt. fanteria dovrà essere sciolto.-

Le autorità politiche e civili locali, in considera-

sione:

- delle tradizioni militari del deposito in oggetto, i cui re-
 parti hanno - nel settembre 1943 - partecipato d'indis-
 va alle operazioni contro i tedeschi;

- del fatto che la cittadinanza di Volfetta - legata da vic-
 coli - i simpatie tradizionali all'unico ente militare di
 cui dispone - ha contribuito con spese non indifferenti al
 l'apprestamento di quanto necessario al funzionamento del
 deposito.

Hanno rivolto istanze al Ministero della Guerra perché il prov-
 vedimento di soppressione del deposito venga sospeso.-

Si prega pertanto codesta M.M.I.A. di prendere in e-
 same la questione e autorizzare che il deposito 2250 rgt. ftr.
 venga mantenuto in soprannumero su quelli precedentemente sta-
 biliti.-

My dear General.

Thank you for your DC letter S/G/12 of 10 March.

I agree with the policy outlined in your letter to the Minister of War. I would suggest that there may be exceptional cases where it may become desirable to replace a commander nominated from the South by some outstanding military personality in the North, but that could be settled when the time comes.

Yours sincerely

Dear

1. We spoke re attached on 8 Mar.
2. I discussed the matter fully with the Minister of War yesterday and, as you see, he is in full agreement.
3. Actually it is no new policy. For some time we have been absorbing into the Army officers and CRS who come through the line or whom we picked up, as we advanced to the COMINT Line. The whole scheme is covered by the authority of existing regulations. All I am doing is to clarify the details of the plan; in view of the fact that I have been ordered to produce these military organizations as North ITALY is freed.
4. I therefore intend to send attached to Minister of War, copy to you for information.
5. Do you agree ? May I have your answer urgently.

1. The matter of earmarking the personnel to fill the staffs concerned north of the existing line has been reconsidered by this HQ.

2. (a) It would obviously be an advantage if we could earmark now the complete actual staff to go forward and take over the various Regional HQ etc without delay as North Italy is liber-

-ated.

(b) This, however, would allow for no absorption of the many officers who are now controlling and fighting with the partisans in the North, and whose local knowledge and authority would be of great value.

(c) To impose complete control by Officers from the South can only lead to friction or worse. Yet it is necessary to establish the authority of the Ministry of War by means of officers nominated by the latter whom it trusts and of whom it knows the capabilities.

 - (d) The answer is to coalesce the North and the South ~~by~~ ^{by} a combined staff drawn from both.
 - (e) To do this, it is possible to earmark a proportion of the staffs now from the South.
 - (b) The general earmarking of personnel now in the North for these staffs does not seem to be a feasible proposition as:
 - (i) they may be killed or captured before we get there.
 - (ii) we have not sufficiently full information to be sure they are suitable.
 - (iii) it might cause jealousy and friction among the bands themselves.
- 3.

Sheet 2.

4. (a) It has therefore been decided that you will:-
- (i) nominate the commander and one-third of the staff from the South now.
- (ii) leave the post of 2nd-in-command vacant for a local appointee from the North.
- (iii) leave two-thirds of the staff vacancies unfilled till the new Regional HQ is set up.
- (iv) delegate to the commander, under authority of M of W, the power to fill all vacancies in conjunction with the local army leaders in the partisan organisations.
- (b) The action as in 4 (a) will apply to Regional HQ, Districts and Depots only. The IRI-IRI ceiling now being full, a reduction in this will be made forthwith in accordance with APP "A", in order to create the requisite vacancies within the IRI-IRI ceiling.
- (c) The action as in 4 (a) will NOT apply to CMBMT detachments or Services, which will be filled now by personnel available in liberated ITALY.
- (d) The above permits of a staff being sent forward to take charge immediately and start the business. It will give effect to local aspirations, while still producing an organisation with knowledge of Allied orders and procedure and under control of MoF W.

Ref MMIA TS/G/12 dated 26 Dec 44. 18/2

1. Territorial HQ have asked me to put up to HQ MMIA the proposal that they should be class 'A' and NOT class 'B' type of HQ. I have told them to put their case to the War Ministry.
2. The reasons advanced are that APULIA and LUCANIA is the area into which all ex PW are to be received, and will be the area in which all Allied tps will concentrate prior to departure. Their reasons are many, and complex, but mainly irrelevant. My personal opinion is that they have difficulty in cutting down to their authorised ceiling particularly in senior officers.
3. The above is forwarded as indication of local "difficulties".

SUBJECT : Territorial reorganisation of Tuscany in 5th Army Area.

To : G.C. 5th ARMY

~~~~~

Following conversation about the above mentioned subject I  
notify you that Cabinet - Ministry of War - circular 300450/C.A. -  
317.II.24 of 13 January has communicated this HQ the general instruc-  
tions about the reorganisation of HQs concerned.

These instructions are in accordance with DIA letter TS/5/12  
dated 26 December 1944 - subject: Command and Administration Italian  
Army.

1. According to that letter, this Delegation should constitute the  
following HQs:

a) Territorial HQ - Florence.

b) Military Districts :

2. The above mentioned reorganisation should be limited, at the present time, to those HQs located south Rear Army Bdys, so this HQ could only provide for Grosseto, Siena, Arezzo, Pisa Military Districts and for 22nd Infantry Regiment (Pisa) and 8th Field Artillery Regiment (Pisa) Depots.
- Still, in order to arrive at a definitive settlement of all military matters, what would greatly facilitate military administration and reorganisation of Tuscany, I suggest not to limit the reorganisation south of the Rear Army Bdys but to extend it to the whole Region under 5th Army Command, excluding, for logical military secrets, areas under advanced Divisional HQs.
- The above mentioned enlargement would require the constitution of Territorial HQ in Florence, which S.M.P.E. thinks to realize transforming this Delegation.
- Undoubtedly the transformation would greatly facilitate in their functions all the Italian military authorities in Tuscany.
- In this case, the functions of this Delegation would become easier either transformed in Territorial HQ or not.
- In fact:
- a) if Delegation "T" will be changed in Territorial HQ will require the new WE: 232 all ranks in opposition to 75 all ranks at the present time, which would mean the acquirement of all Services Branches, at the present time on embryonal phase; in this way this HQ will be able to properly carry out its disciplinary, administrative and logistics duties.
- b) on the contrary, if Delegation "T" will remain such as it is, the constitution of Territorial HQ in Florence, with personnel drawn from other sources, will anyhow improve its work, for the Territorial HQ should undertake all the organisation and administration matters in Tuscany. Still, in order to arrive at a definitive settlement of all military matters, what would greatly facilitate military administration and reorganization of Tuscany, I suggest not to extend it to the whole Region under 9th Army Bays but to HQs.

The above mentioned enlargement would require the constitution of Territorial HQ in Florence, which S.M.R.B. thinks to realize transforming this Delegation.

Undoubtedly the transformation would greatly facilitate in their functions all the Italian military authorities in Tuscany.

In this case, the functions of this Delegation would become easier either transformed in Territorial HQ or not.

In fact:

a) if Delegation "TM" will be changed in Territorial HQ will require the new WT: 232 all ranks in opposition to 75 all ranks at the present time, which would mean the acquirement of its disciplinary, administrative and logistics duties.

b) on the contrary, if Delegation "TM" will remain such as it is, the constitution of Territorial HQ in Florence, with personnel drawn from other sources, will anyhow improve its work, for the Territorial HQ should undertake all the organizational and administrative matters in Tuscany. In this way the Delegation could easily and more directly assist its own Divisions and mobilized troops presently under its disciplinary and administrative dependence.

3. Supposing Delegation "TM" will continue its actual functions, even without a Territorial HQ in Florence (though this HQ, at the present time, represents a necessity of no delay), the

MINISTER OF WAR.  
-----

1. The Regional organisation for all ITALY came into force on 1 Jan 45 and has been implemented in liberated ITALY up to Rear Army boundaries.

2. I feel that we must look ahead and make plans to establish the organisation quickly in NORTH ITALY if the Germans make a sudden withdrawal.

3. To do this, commanders and staffs who will take charge north of the present fighting line should be nominated now, as well as the source from which the authorised personnel to complete the various HQ will be drawn.

4. I shall be glad to receive from you at an early date your complete plan for the above.

5. Please treat this matter as URGENT.
