19 Oct 44.

On instructions Distone signal QI7 and 6I Area signal 2/QI supervised the entrainment of the animals of the CIL. The first party arrived at JBSI on 14 Oct 44 at 1600 hrs. and entrainment was completed by 2300 hrs. The animals were in a very poor condition. Of the 42I only 35I were loaded and 69 were admitted to Hospital as advanced cases of debility. Of the 69 animals admitted 14 were of the Mountain Artillery Class and 55 Animals Transport. 1 mule escaped in the dark.

The Italian Military had only one man per 8 mules available and in consequence a loading party was provided by the Unit.

The mules arrived without, in many cases, any headgear and were secured by string, cable, wire or rope. 150 headcollars and 200 chains were supplied by the Unit as it was out of the question to send animals on the journey without adequate means of securing them in the trucks.

Forage and rations were loaded and divided as follows:-

13 trucks with 10 mules in each, a total of 130.

2 trucks with forage and 1 truck with personnel.

In addition 4 bales of Tibetan were placed in each mule truck with an escort of one man per truck. The second train of 27 trucks was composed of 23 box vans containing a total of 221 mules, 2 trucks for forage and 2 for personnel.

The second party arrived at JBSI on the 16th Oct at 1000 hrs.

dated 28 Aug 44.

1. A further examination has now been made of the necessity for retaining Italian Alpine units and it has been decided that

- (a) Italian Alpine tps are NOT required
- (b) The units at para 5(a) of the above Instruction, less 250 Pack Tpt Coy, will be withdrawn with the remainder of the CIL
- (c) 250 Pack Tpt Coy will pass to under cmd Fifth Army temporarily (see my SD 1482 dated 4 Sep, NOT to all) and will remain organised as at present until further orders are issued.
- (d) The animals of units other than 250 Pack Tpt Coy will be concentrated under orders 1 District together with sufficient Italian personnel, to be detailed by CIL, to maintain them. 1 District will notify to AAI the concentration area selected, which should preferably be close to railroad, and the date when concentration will be complete. AAI will then arrange for the inspection of the animals and their subsequent disposal to US and British remount depots.
