Reference delivery to 17th Air Army
units to PENBASE under current
all action plan approx 30,000 lbs
transmission for delivery of records and
fill out (estimated number) PENBASE units.
Availability there to come from SARDINIA
but their shipment has been delayed until
delivery of 17,000 set 17000 CONCENTRATED from
for ACC is completed. Present available
transport left and schedule indicates further
delay for PENBASE source type. Such
delay must be avoided. Capability with
which we have (extended?) plus heavy
demand for all services (included?). Also
commitment for ADNAF makes it essential
additional transport be applied for
immediately. When once available and
applied to service functions throughout
ships serve to replace identical number
of U S type. Large summa considerable
