I have telephoned AAI regarding the attached but they can only suggest that their personnel are used to man the CAGLIARI broadcasting station. They have no knowledge of any Wireless Unit working to another terminal.

I then tried to telephone Mr. TOPPNER and Mr. Dixon at PWB here in Rome but was informed that they are both away and that no one else could give me any information.

Smith has no knowledge of this either.

Perusal of the nominal roles bears out AAI's guess that their personnel are used for the Radio Broadcast Station. Though why the Italian Army should be used for this purpose I am unable to determine.

Among the officers and men employed

are several days for de-mobilization and
several wireless mechanics who would be
extremely useful to our Combat Groups.

Would you give me your comments
on the following observations:

- (a) All personnel due for de-mob. be de-mobilized
immediately and left in Sabana with PWs.
- (c) All technicians not due for de-mob. be sent
to to Regt Genio immediately.
- (d) Remaining non-technical personnel be
either de-mobbed or attached to Military HQ.

SUBJECT: Personnel, Radio Sardinia

TO : Commanding General, Army Sub Commission, ACC

1. The inclosed correspondence is forwarded with the request for instructions as to disposition desired in the case of personnel concerned.

2. With the drastic reduction in Italian Forces to remain in Sardinia as indicated in MMIA letter G/6/1/F dated 15 August 1944, it is manifestly impossible to incorporate this group in Military Headquarters. On the other hand, the importance of continuing the Radio Station without interruption is without question.

6657

3. This is reported to be the only Radio Station operated with military personnel and until the date of inclosed letter the situation was unknown to this office.

4. Request decision at earliest.

SUBJECT: PERSONNEL (ITALIAN) OF RADIO SARDEGNA.

1. As instructed by you this morning, I attach a list of the minimum Italian personnel needed for the Radio Sardinia station to function. All superfluous names have been erased and should be considered as already having left. 6656
2. The minimum personnel amounts to 5 officers and 45 other ranks.
3. It will be greatly appreciated if an establishment and rations can be granted as it is absolutely essential that the Station should be kept going until such time as it can be completely civilianised.
4. It is also considered most important that the Radio Station should be regarded as a separate establishment so that reductions in General BRUNETTI's staff should not affect the staff of Radio Sardegna.
5. Your assistance will be greatly valued, in helping to bring this matter to the notice of A.A.I..

SUBJECT: Move of 140 Reytni Squadron

HEADQUARTERS
ALLIED ARMIES IN ITALY
1605/50/6/G(SD1)

5 Aug 44

Air Forces Sub-Commission, A.C.C.,
BARIReference Allied Garrison Comd SARDINIA's signal AGS/BU012
dated 28 Jul.

1. AGC SARDINIA has requested that the proposed move of 140 Reytni Squadron be cancelled.

2. In support of his request he gives the following reasons:

(a) The garrison on MADDALENA Island, American Antiaircraft and Navy, and British Navy total 1,700 Allied personnel. To this should be added an indefinite number of transient naval personnel.

(b) For the commitment in 2 (a) above, only minor medical facilities are available. Serious cases have to be evacuated to CAGLIARI and it is believed that several lives have been saved by prompt evacuation.

(c) There is NO airfield operating for land planes nearer than ALGHERO.

(d) For the road journey from MADDALENA to CAGLIARI a full day's fast driving over poor roads is required.

(e) Seaplanes provide the only possible rapid means of travel for administration and unforseeable emergency supply from CAGLIARI. Examples are the use of seaplanes for officer couriers carrying classified documents and a recent emergency supply of serum for gas gangrene.

3. One seaplane is held at the disposal of Allied air-sea rescue authorities. The four CANT aircraft now held are considered necessary to ensure that there is immediate availability at all times.

4. In view of the operational need for the Sqn in SARDINIA as shown above, it is requested that the Sqn should remain on the Island at the disposal of AGC.

2. In support of his request he gives the following reasons:

- (a) The garrison on MADDALENA Island, American Antisubcraft and Navy, and British Navy total 1,700 Allied personnel. To this should be added an indefinite number of transient naval personnel.
 - (b) For the commitment in 2 (a) above, only minor medical facilities are available. Serious cases have to be evacuated to CAGLIARI and it is believed that several lives have been saved by prompt evacuation.

1. In order to reduce the state of confusion existing at present with regard to shipping bids, it is requested that all bids for a given month be submitted to this office by the 15th of the previous month; thus bids for August must be in by July 15th.
 2. To make this possible, branches and services are requested to ensure that the bids in which they are interested are submitted to the Ufficio Trasporti of the S.M.R.L., not later than the 10th of each month.
 3. All shipping bids will, in future be made out on freight form '3', an example of which is attached to this letter. These forms need only be used by the Ufficio Trasporti but must be made out in English and submitted in sextuplicate.
- In this connection it should be explained that once a freight form '3' has been submitted it can not be modified in any way. Any alterations will be treated as new bids and the old freight form will be cancelled.
- It should also be noted that no freight form can be accepted without the name and location of the depot of origin being clearly stated.

Colonel Simmon's Office, - Elmas -

1. In letter 1601/T.M. dated 3 June 1944, S.M.R.E. requested the transfer of 4 salvage trucks to the mainland to be used in the recovery of much abandoned automotive materiel.
2. The above mentioned trucks are already in readiness and are assembled at Selargius (Cagliari) at the II Battalion of the 32nd Tank Regiment; the measurements are as follows: length 7 meters - width 2.30 meters - height 3 meters; total weight is 26 tons.
3. Your Headquarters is kindly requested to authorize transfer to the mainland of the trucks in question, employing the first available vessels departing from Cagliari.

You are informed that S.M.R.E. has presented this case to the Allied Control Commission - Army Sub-Commission on the mainland.

We await your kind reply.

Ref... 1601/T.M. 253

To: M.M.I.A.

File.....

Date .. 3. June ..

Subject... Transfer of 5. Food lorries from Sardinia.....

The Ministry of War — General Directorate M.T. — has agreed with the General Staff to transfer from Sardinia to the Mainland 5 food lorries now held by Armed Forces, Sardinia.

It is intended to allot these lorries as follows:

- 2 to Sicily for H.Q. XII Corps
- 3 to Naples for H.Q. 10^a Raggruppamento Autieri.

Will M.M.I.A. please ask A.A.I. to approve this transfer, and point out that it can be effected by sending the first two lorries direct from Sardinia to Sicily, and the other three from Sardinia to Naples. If there is no shipping space for Sicily, all five food lorries could be transported to Naples and the two allotted to Sicily could be handed over to the care of Delegazione Trasporti di Napoli in agreement with the Allied authorities.

The Delegazione Trasporti at Cyreni will arrange with Comd. Armed Forces in Sardinia for the above lorries to be sent to the port of embarkation indicated by the Allied Control Organisation in Sardinia.

Subject: Movement of Tps and M.T. from SARDINIA to SICILY and MAINLAND.

H.Q. A.A.I.

1. GENERAL

I have been forced to give serious consideration to the factors governing the movement of tps and vehs from SARDINIA to SICILY and MAINLAND. It is clear that a rate of movement must be determined in the light of the present relevant factors and if the means of transport (now ITALIAN cruisers and always unreliable) fails then suitable alternatives must be found.

2. PRESENT STRENGTHS IN SARDINIA AND FUTURE DISPOSITION

(a) Tps at present in SARDINIA 158000

(b) While Allied Air Forces work from SARDINIA the estimated future disposition will be:-

(i) Stay in SARDINIA

CARABINIERI	5000
Two Divs of 10000 each for Internal Security	20000
Working for Allies	20000
Working in Depots, HQs	10000

3. PRESENT RATE OF MOVEMENT

- (a) ..Tps. 3 Italian cruisers with capacity of 1000 men per ship and 3 day turn round:- 30000 per month
- (b) M.T. Tpt for tps already moved to MAINLAND has been left in SARDINIA :- NIL.

4. RELEVANT FACTORS CONCERNING MAINTENANCE OF PRESENT RATE OF TROOP MOVEMENT

- (a) Proper reserve for fulfilment of Allied programme.
- (b) Avoidance of waste of talent if reserve too small.
- (c) Medical reasons: SARDINIA is full of malaria. Bad period June onwards.
- (d) Economy of adm and re-equipment if troops are concentrated on MAINLAND.
- (e) Morale.
- (f) Civil food situation aggravated by large number of tps.
- (g) Get SARDINIA on to final set-up.
- (h) Correct amount of food and clothing cannot be set up unless firm shipping programme is established.

5. MOVEMENT OF M.T.

The shortage of M.T. in the MAINLAND and SICILY is so acute that tps cannot be maintained in a new location unless the tpt is moved at the same time as the tps. Moreover, a large number of troops have already arrived on the MAINLAND from SARDINIA minus their M.T.

6. MOVEMENT MUST TAKE PLACE TO SICILY AND MAINLAND AT THE SAME TIME

... The capacity of NAPLES to absorb and despatch incoming Italian tps is limited. Periods of dispersion of these from NAPLES must be allowed and can be utilised for shipments from SARDINIA to SICILY.

7. CONCLUSION

I therefore urge most strongly that:-

- (a) The movement of tps be maintained at the present rate, and that, if the present shipping books down or is not available, then alternative transportation from SARDINIA be provided at once.
- (b) Sailings be planned on the basis of ONE trip to PALERMO for every TWO made to NAPLES.

- (d) Economy of adm and re-equipment if troops are concentrated on MAINLAND.
 (e) Morale.
 (f) Civil food situation aggravated by large number of tps.
 (g) Get SARDINIA on to final set-up.
 (h) Correct amount of food and clothing cannot be set up unless firm shipping programme is established.

5. MOVEMENT OF M.T.

The shortage of M.T. in the MAINLAND and SICILY is so acute that tps cannot be maintained in a new location unless the tpt is moved at the same time as the tps. Moreover, a large number of troops have already arrived on the MAINLAND from SARDINIA minus their M.T.

6. MOVEMENT MUST TAKE PLACE TO SICILY AND MAINLAND AT THE SAME TIME

The capacity of NAPLES to absorb and despatch incoming Italian tps is limited. Periods of dispersion of these from NAPLES must be allowed and can be utilised for shipments from SARDINIA to SICILY.

7. CONCLUSION

I therefore urge most strongly that:-

(a) The movement of tps be maintained at the present rate, and that, if the present shipping breaks down or is not available, then alternative transportation from SARDINIA be provided at once.

(b) Sailings be planned on the basis of ONE trip to PALERMO for every TWO made to NAPLES.

(c) Sufficient ships or shipping space suitable for M.T. be provided :-

(i) To ship immediately to MAINLAND for troops already there-

140 Load Carriers
 6 Machinery vehicles
 4 Breakdown vehicles
 10 Staff cars
 75 Motorcycles

(ii) To ship in future (at the rate of approximately 13 vehicles for every 1000 men shipped) to either MAINLAND or SICILY -

725 Load Carriers
 15 Machinery vehicles
 12 Breakdown vehicles
 40 Staff cars

Sheet 3/.....

-3-

7. CONCLUSION (Contd)

(c)(iii) To ship in future (at the rate of approximately 10 Motorcycles for every 1000 men shipped) to either MAINLAND or SICILY -

500 Motorcycles

(d) You inform me early what you decide and can do as regards the above, because Italian troops continue to arrive from SARDINIA minus their necessary quota of M.T. and the situation is becoming more and more difficult in consequence.
