Present strengths are 4440 US-ITI and 3100 BR-ITI (.) FIRST (.) Request that
the 600 BR-ITI surplus to authorized ceiling be transferred to US-ITI ceiling
and count towards completing US-ITI ceiling of 6900 (.) SECOND (.) 765 Italian
Army pers have recently been transferred to Italian Air Force vide your
letter 1605/50/36/G(SB1) of 19 Aug 44 (.) These 765 BR-ITI (which are NOT rpt
NOT included in 3100 BR-ITI referred to above) would cause new surplus in
2500 BR-ITI ceiling assuming it to have been adjusted to 2500 by FIRST above (.)

It is therefore requested that a compensatory number (765) of other BR-ITI be
physically transferred to US-ITI (.) THIRD (.) FIRST and SECOND above if agreed
will give correct BR-ITI ceiling of 2500 and will reduce 2060 deficit on 6900
US-ITI ceiling to 695

ALLIED CONTROL COMMISSION
Army Sub Commission
A.P.O. 534, U.S. Army

23 September 1944

SUBJECT: Miscellaneous.

TO : Commanding General, Army Sub Commission, ACC
(Attention Colonel C. P. Kerr, Infantry).

1. With reference to inclosed copy of cable from Major Thrupp, our O.P. cable, copy of which also inclosed, cleared local radio at 1838 hours 17 September. Personnel was discharged at Duko just before noon 19 September. Receiving and delivery at destination doubtless are unsatisfactory. However, we cannot, as a rule, announce shipments with accuracy more than twenty four hours in advance of sailing time. Thrupp's reference to British signal communications not understood here. Suggest he arrange to keep in touch with our MMIA IO who, I believe, is receiving our signals promptly through P.B.S.

2. Your action with regard to Italian military personnel travelling to Sardinia on leave has had effect finally. The most recent cruisers to arrive have carried no unauthorized leave personnel.

3. IMPORTANT. Colonel C. K. Harding, formerly A.G.S. G-4, is about to succeed General Webster as A.G.S. Commander. He has been given to understand by S.O.S. (his immediate superior) that the 205th Division is to be moved to mainland piecemeal, as its various elements become surplus here, for use by S.O.S. Request early confirmation of this plan if it has your approval, giving as much detail as possible with regard to shipping priorities, etc. Most important of all, however, is the question "Is this a part of an approved plan?"

4. Reference your S.D. 1475 dated 22 September, I am asking C.M.S. for an official explanation and will forward same to you upon receipt. However, with the number of available personnel reduced to a few thousand troops scattered in small groups and detachments all over the Island, the breakdown in their organizing machinery was not entirely unexpected.

On 10 September, the approximate number of Italian troops remaining here for shipment was thirty thousand (30,000). Since that date approximately eleven thousand (11,000) have been shipped. The amount of shipping now providing the ferry service would have been ideal a few weeks or months ago when there were thousands awaiting transport. However, under present condition, with the bottom of the barrel in sight, one or two cruisers would be entirely adequate. Of course it is realized that the present schedule must be met and every effort will be made to cause no delay on part of ships at this end. The present instance is the first of its kind. But it consumes much more time for the Italian staff to prepare one thousand (1000) now than was required for ten thousand (10,000) three months ago.

5. We are still expecting Kessner's return for the purpose of gathering his kit.

6. Your cable (Rome area 8031 dated 22 September) requesting sizes of clothing for E.M. just received. This information will have to be obtained through the good offices of Hq & Hq Company 6732 (OVHD) from which our men were just relieved of attachment for administration. This garrison goes into wool 25 September. This is another example of the desirability of having all personnel here attached to a local parent organization
