SUBJECT: Priority of Italian Units

TO : Commanding General, Military Mission to the Italian Army

89
1. Confirming my cable AGS Yoke 550 dated 15 September 1944 you are advised that the Italian troops for whom priority has been assigned on list seven are too nearly exhausted to permit convenient shipping schedules. Much more time is required by Italian Headquarters to organize and assemble personnel to fill various serials than formerly when there were large numbers from which to draw.

2. In view of the above it is suggested that the entire remainder of Italian personnel in Sardinia which it is intended to transport to the mainland be included in a comprehensive list from which Comando Militare della Sardegna can plan their final evacuation. A tentative sailing list is inclosed which provides for over sixteen thousand troops to be transported during the remainder of September. If these vessels are to be loaded without delay, as has always been done in the past, it is necessary that the information requested above be provided as soon as practicable.
