FROM: ADV AAI

REFERENCE No: NONE

DATE AND TIME OF ORIGIN: AUG 28/1000 OFFICE OF ORIGIN: CITE: DC39 277

SIGNAL MESSAGE CENTER No: 73/20

CLASSIFICATION: TOP SECRET

PRECEDENCE: OPERATIONAL PRIORITY

IT IS EXPECTED THAT ALLIED AIR ACTIVITIES IN SARDINIA WILL BE CLOSED OUT IN NEAR FUTURE. ITALIAN AIR AND ARMY OFFICER PERSONNEL NOW ASSOCIATED WITH THOSE ACTIVITIES ARE GIVING EXCELLENT COOPERATION AND SERVICE DISCHARGE, TRANSFER OR OTHERWISE REPLACING THIS PERSONNEL IS HIGHLY UNDESIRABLE AT THIS TIME SINCE ALLIED COMMANDERS WILL NOT HAVE TIME TO BECOME ACQUAINTED WITH NEW PERSONALITIES WHO WOULD THEMSELVES NOT HAVE TIME TO BECOME FAMILIAR WITH NEW ASSIGNMENTS. IN ANY EVENT NO ITALIAN AIR OR ARMY OFFICER NOW KEPT IN WORK PRIMARILY ASSOCIATED WITH ALLIED ACTIVITIES IN SARDINIA SHOULD BE RELIEVED OR DISCHARGED FROM HIS PRESENT ASSIGNMENT TO DUTY WITHOUT FIRST OBTAINING CONCURRENCE OF GENERAL WEGGNER, ALLIED GARRISON COMMANDER IN SARDINIA. IT IS DESIRED THAT YOU ISSUE APPROPRIATE INSTRUCTIONS TO THAT EFFECT TO ITALIAN AIR AND WAR MINISTRIES EARLIEST

16 Oct 44

SD/22/1

Reg 16/10

Ministry of War,  
Direzione Gen. di San. Mil.

76%

Reference IMIA letter SD/22/1 of 15 Oct 44.

1. Please arrange for the following units recently arrived from Sardinia, to be accommodated in Caspelle, but not in the concentration areas of the combat groups.

113 Ambulanza Radiologica  
133 Ambulanza Radiologica  
150 Regio Chirurgica  
25 Regio Chirurgica

1338

2. These units will be required for the combat groups probably by late November or early December. They should meanwhile be completely overhauled, equipped and brought up to F.S. strength.

3. 113 Ambulanza Odontoiatrica should visit divisional areas in turn and provide necessary dental attention as required.

1332

2. 113 Mobile Dental Unit is to be moved forthwith to Piedimonte d'Alife.

3. Units marked \* will be required for the combat groups during December. Until such time S.M.A.F. are responsible for their administration and accommodation. These units will not be moved to the combat group concentration area until orders are issued by this HQ, but must be found a suitable area in the vicinity of MARI.

4. Units from the MARI DIV are to be moved to the MARI DIV in Sicily as soon as possible. This HQ will arrange tpt on receipt of transportation request, from S.M.A.F. by airtransport.

5. 84 Ambulance Car Sec will remain at AFASCHA until the arrival of its 20 ambulances from MARI. On arrival of vehicles the unit will relieve 1800 Ambulance Sec at MARI, which unit after relief will proceed to Piedimonte d'Alife for combat groups.

6. The 43 CHASCHA Div: Specialists will be dispatched forthwith to join the CHASCHA Div.

7. 47 Telradio Coy and Mobile Radio Repair Sec will remain at AFASCHA until disposal instructions are issued by this HQ.

8. Guardia Fuiana personnel to be disposed of under your arrangements.

SUBJECTS: Arrivals from Sardinia 28 September.  
(Telephone conversation Capt. Fox-Maj. Smith)

LIAISON OFFICER  
M.M.I.A.  
NAPLES SECTOR  
G/13/SP  
1 October 1944.

TO: Military Mission Italian Army  
Rome

1. Attached is copy of our Signal #8006 dated 28 September which definitely indicates that we notified your Headquarters of the arrival of all units, which included the 127 Forestry Coy, composed of 2 officers and 58 O/R's.
2. It is quite evident that during the course of the transmission of this signal, that the personnel concerned accidentally deleted the 127 Coy.

                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                           | Allegation.<br>Offrs. | P.R.S. |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                          | 5                     | 150    | 2 Dist.
