1. A thorough investigation has been made and no Italian Army deserters were found. To eliminate the possibility that Italian deserters do exist in this organization it is requested that representatives of the Italian War Ministry be sent to this Group to conduct a thorough investigation on their own behalf. They will be accorded the maximum of cooperation by this Headquarters.

Approximately two months ago an Italian Lieutenant visited this field accompanied by an American Staff Sergeant, at the time each squadron was called and told to have their Italian laborers stand by. Shortly thereafter the Lieutenant left without checking the squadrons or reporting to the undersigned.

To: AFHQ

1. In the past there has been considerable difficulty over the employment of Italian soldiers in civilian capacity by Allied units. This has been the subject of several memorandums from Headquarters AAI, a copy of the basic memorandum being attached as inclosure 1.
2. Enticed by the high rate of pay, good treatment, and good food given by the Allies, these Italian soldiers desert from the Italian Army and take this employment. In some cases the Allied unit knows that the Italian soldier is a deserter and even when so informed, refuse to release the soldier back to the Italian authorities. Clearly, this undermines the authority of the Italian Army and creates a serious problem.
3. Attention is invited to translation of letter from SMRE, and a copy of a letter from the 325th Fighter Group with reference to Italian deserters employed by the U. S. Air Forces in the Foggia Area.
4. Request that the U. S. Air Forces be directed to release these Italian deserters to the Italian Army, and that orders be issued to all units in Italy that no Italian soldiers who are in fact deserters will be employed by Allied units.

SUBJECT: Italian Military Assistance for Harvesting.  
TO : HQ. AAI (9).

1. Attached is copy of a report from the Provincial Commissioner  
FOGGIA. 2340
2. We are very conscious of the assistance you have rendered in  
providing the Italian Army personnel for harvesting and as this report  
sets out the whole process of their employment very clearly it is thought  
that you might like to see a copy.
3. It is too early to have complete figures in the FOGGIA harvest  
but present indications are that it will be a record in the history of the  
Province.

SUBJECT : POGGIA HARVEST.

20 July 44.

227a

TO : HQ ACC (RC &amp; MG Sec.)

FROM : ACC, POGGIA PROVINCE.

1. The following is a brief summary of the operation of Italian Military Harvesters in this Province :-

2. In past years the Italian Government organised the immigration of Harvest workers into this Province on a large scale. The total numbers imported each year varied from 18 - 25,000. In 1943 it was 19,000.

3. This year's Harvest prospects were good (calling for more work), and it was known that the Allied Forces were employing up to 10,000 Harvest labourers on the Airfields. It looked as if there would be a shortage of at least 25,000 Harvest labourers this year. If this shortage were not met the effect would be to drive illegal wages to a high level and to drain the Allied Military Forces of their labour.

4. It was considered that the best solution would be to import Italian soldiers as agricultural harvesters and this procedure was in due course approved by A.A.I. and A.O.C.

5. The intention was to import serving soldiers, but at the last minute it was laid down that Congedanti (Time-expired soldiers), who were waiting at SARDINIA for return to their homes, should be used in the first place. It was realised that these men might be unwilling workers and that desertions might take place. But this had to be accepted.

6. A.A.I.A. supplied a staff and equipment for a "Military Harvest workers' Centre" in POGGIA to arrange dispersal to farms and the complete procedure was laid on whereby the soldiers would be sent to their work and supplied with the proper documents for pay and rations.

7. It soon became obvious to civilian labour, farmers and political agitators in POGGIA that the arrival of the soldiers was depressing wage levels. Political resistance began to make itself felt. For fear of the political consequences, farmers were inclined to refuse soldiers.

4. It was considered that the best solution would be to import Italian soldiers as agricultural harvesters and this procedure was in due course approved by A.A.I. and A.C.C.

5. The intention was to import serving soldiers, but at the last minute it was laid down that Congedanti (Time-expired soldiers), who were waiting at SARDINIA for return to their homes, should be used in the first place. It was realised that these men might be unwilling workers and that desertions might take place. But this had to be accepted.

6. M.A.I.A. supplied a staff and equipment for a "Military Harvest Workers' Centre" in POGGIA to arrange dispersal to farms and the complete procedure was laid on whereby the soldiers would be sent to their work and supplied with the proper documents for pay and rations.

7. It soon became obvious to civilian labour, farmers and political agitators in POGGIA that the arrival of the soldiers was depressing wage levels. Political resistance began to make itself felt. For fear of the political consequences, farmers were inclined to refuse soldiers. Accordingly, Provincial Orders were issued compelling Communes to accommodate and support soldiers before they went to work and compelling all farmers to accept a minimum of 1 soldier per 10 Hectares for a period of 30 days. These Orders had the desired effect. Farmers had an alibi to cover them from political criticism and the soldiers were steadily absorbed.

8. It is estimated that at least 60% of the soldiers were placed at work at their farms within 24 hours of their arrival and, (with a few minor exceptions), the remaining 40% within a day or two.

9. The presence of the soldiers had a most marked and immediate effect. Farmers, who, a few days before, had come to AMG to complain that workmen were demanding Lit. 200 and Lit. 300 per day for the Harvest, returned to report that the same men had come back offering to work for the legal wage. It is believed that some 80% of the sol-

diers had agricultural experience and generally speaking, the farmers were well pleased with them. The D.A.D.L. of the Province reports that there has been practically no important drain on Military labour so far during the Harvest.

10. The soldiers have done good work and their importation has been a marked success. The Italian Officers supplied by S.M.R.E. were first-class; they knew their jobs and got on with it.

11. The estimated requirements of soldiers was based on actual day to day figures for previous years. Normally, Harvest collection reaches a high peak at the end of July and the beginning of August, calling for a corresponding high peak in imported labour. This year ripening has not been accelerated by hot winds and progress has been much steadier. The peak in Harvest has not occurred, and the peak in labour requirements is also absent. Accordingly, it was possible to reduce the total requirements from 25,000 to 20,000 and to hold in reserve a Bn of 900 men at the POGGIA Centre against emergencies. It can be said, therefore, that 95% of the soldiers actually imported found employment in the Province.

12. The problem of dispersal after Harvest work is proving complicated. This Headquarters understood that Harvest workers were to serve a fixed period and accordingly arranged for their concentration and disposal in the order of arrival. This scheme had to be abandoned when A.A.I. ruled that all Congedanti should be kept to last. A new scheme has been prepared, however, and provided that rail transport can be made available the concentration and movement of the serving soldiers should proceed without hitch. If there is any delay in providing transport there may be some difficulty in feeding and accommodating a great mass of idle soldiers without camping and cooking equipment.

-----000-----

This Provincial A.C.C. and the Provincial Civil Administration are most grateful for the Military Harvest workers. They have solved a difficult problem; worked hard at getting the Harvest in; dammed back civil labour on the Airfields, and kept down wage rates in a most satisfactory manner.

N° 2495 di prot.

P.M. 151, 29 giugno 1944  
OGGETTO: Partenza dal Foggiano della truppa impiegata nei lavori di  
mietitura.

*Partenza di lavoratori from FG G/A*

ALLA SOTTOCOMMISSIONE PER L' ESERCITO A. C. C.

Lequile

E' noto a codesta Sottocommissione che i 25.000 uomini previsti dall'ANGOT di Foggia per i lavori di mietitura nel Foggiano sono risultati all'atto pratico esuberanti, tanto che l'ANGOT stesso, con telegramma PR/1 del 23 c.m. diretto all'A.C.C. (brigadiere Lush) e alla MMIA, ha chiesto di non fare più affluire i cinque battaglioni della divisione "Bari". Dato poi l'andamento dei lavori, non è da escludere che la mano d'opera occorra per un periodo più breve di quello previsto e che pertanto sorga a breve scadenza la necessità di far ripartire le varie unità.

Ciò premesso, allo scopo di evitare i gravissimi inconvenienti che verificherebbero nel caso in cui così ingente massa di lavoratori dovesse restare a Foggia in attesa di partenza, è stato chiesto all'Ufficio Provinciale del Lavoro di Foggia di comunicare con almeno 20 giorni di anticipo la data in cui ciascun battaglione potrà essere disimpegnato dai lavori. In tal modo si avrà il tempo indispensabile per far affluire i quadri dei singoli reparti e preordinare i trasporti ferroviari occorrenti. tenendo presente che ciascun battaglione non può restare presso il campo appoggio di Foggia, ove è possibile alloggiare fino a un massimo di 2 mila uomini, più di uno o due giorni al massimo.

Per l'afflusso dei quadri e la predisposizione dei trasporti questo Stato Maggiore si riserva di comunicare, appena possibile, ~~22 giugno~~ questa Sottocommissione le date sotto cui i vari scaglioni potranno essere pronti in base alle comunicazioni che farà l'Ufficio Provinciale predetto.

Per quanto riguarda in particolare i battaglioni della divisione "Principali" - con riferimento alla richiesta verbale già fatta fin dal 16 corrente al maggiore Bauman - si prega far conoscere se detti reparti debbono ritornare in Sardegna o restare in continente. In quest'ultimo caso si potrebbero fin d'ora far affluire dalla Sardegna i materiali di reparto (cucine,

Dato poi l'andamento dei lavori, non è da escludere che la mano d'opera occorra per un periodo più breve di quello previsto e che pertanto sorga a breve scadenza la necessità di far ripartire le varie unità.

Ciò premesso, allo scopo di evitare i gravissimi inconvenienti che verificherebbero nel caso in cui così ingente massa di lavoratori dovessero sostare a Foggia in attesa di partenza, è stato chiesto all'Ufficio Provinciale del Lavoro di Foggia di comunicare con almeno 20 giorni di anticipo la data in cui ciascun battaglione potrà essere disimpegnato dai lavori. In tal modo si avrà il tempo indispensabile per far affluire i quadri dei singoli reparti e preordinare i trasporti ferroviari occorrenti - tenendo presente che ciascun battaglione non può restare presso il campo appoggio di Foggia, ove è possibile alloggiare fino a un massimo di 2 mila uomini, più di uno o due giorni al massimo.

Per l'afflusso dei quadri e la predisposizione dei trasporti questo Stato Maggiore si riserva di comunicare, appena possibile, ~~per~~ questa Sotto-commissione le date sotto cui i vari scaglioni potranno essere pronti in base alle comunicazioni che farà l'Ufficio Provinciale predetto.

Per quanto riguarda in particolare i battaglioni della divisione "Friuli" - con riferimento alla richiesta verbale già fatta fin del 16 corrente al maggiore Bauman - si prega far conoscere se detti reparti debbono ritornare in Sardegna o restare in continente. In quest'ultimo caso si potrebbero fin d'ora far affluire dalla Sardegna i materiali di reparto (cucine, mezzi di trasporto, armi, materiali vari, ecc) per non incontrare al termine dei lavori agricoli difficoltà per la vita della truppa, che come è noto è perfino sprovvista di telo da tenda.

*Agricultural Labour in Foggia*  
ALLA SOTTOCOMMISSIONE PER L'ESERCITO A.C.C.

151  
Come risulta dal messaggio PP./10 dell'AMG di Foggia in data 23 corrente i 17.000 uomini circa giunti fino a tale data, più i duemila della divisione "Friuli" in previsto arrivo, sono ritenuti sufficienti per i lavori di mietitura. Dato ciò non si ritiene più necessario fare affluire nel Foggiano i 650 uomini della divisione "Piceno" messi a disposizione della Prefettura di Brindisi per lavori agricoli; e pertanto si propone che al termine dei lavori nel brindisino detta truppa rientri alla sede dei propri reparti.

1. It has been reported by A.M.C. Foggia Province that owing to very favourable weather, the usual end of June peak in cutting and threshing has been largely avoided. In consequence of this 20,000 harvesters will suffice instead of the original estimate of 25,000. The effect of this is the last 5,000 will not be required from Sardinia.
2. The co-operation of S.D. and 'Q' in providing these harvesters in the allotted time is very much appreciated.
