EQUIPMENT AUGMENTATION #7

Project U-15-44

Equipment in addition to T/E is authorized as follows:

For : 3298th Quartermaster Service Company.

Authority : Letter AG 400 (4 Aug 44) OB-S-SPDDL-M, War Department, dated 4 August 1944, Subject, "Project U-15-44, Equipment for Italian Military Service units in the North African Theater of Operations," and Inclosure #1 thereto.

Purpose : For loan on hand receipt to 20th Italian Pack Mule Group for use in operations with Fifth Army.

Rescinds : SA #176, dated 1 January 1945.

Expires : When unit ceases to be the parent unit of above cited Italian unit or upon notification by this Headquarters.

Special Instructions:

1. The 20th Mule Pack Group will be responsible for equitable distribution of this equipment among its subordinate units.

2. This equipment will be entered on the MATERIEL IN HANDS OF TROOPS REPORT of the 3298th Quartermaster Service Company quoting "Equipment Augmentation #7 Fifth Army," as authority to retain (See S.O.S. Instructions, SECTION G-100).

3. See S.O.S. Instructions SECTION L-1216 and L-1220 for procedure in loading equipment to Italian units.

4. A copy of this authority will be retained as an integral part of the "Company Property Book" of the U.S. unit concerned.

P.M. 179.

2/1468

Jan 28 - 45

Subject : Status report N°6 - Assigned, Present and Ration Strength.

To : Italian Liaison G-4, Fifth Army.

Attached is status report as on 24th inst., concerning all units u.c.. Request you forward it to Fifth Army HQs Sections concerned.

It is pointed out that the excess of the assigned strength of 2IO Engr and 20 Pack Mule Groups units comparatively with T/O strength is due to :

a) Engr units : Personnel suitable to be trained as Specialised Personnel and Technicians have been sent to these units. Excess Personnel will be transferred to units short of men.

b) Pack Mule units : Replacements have been sent for operational needs to actually employed Cos in substitution of E.Men hospitalised or sent on leave, owing to the fact that the planned new Cos were not yet established. Very soon these replacements will be given to the units in formation.

By order :

Biagio NINI,
Maj.,C. of S.

Drives truck in addition to other duties.

Function: Provides military personnel for general labor. This personnel may be used in a supervisory capacity in the event the operation requires the use of civilian labor.

Capacity: Can handle approximately 800 tons of assorted supplies per day.

For specification serial numbers for enlisted men shown in Column 2, see AR 615-26; for officers, see TM 12-406 and 12-407.

Subject: Reorganization of Italian Units -- Supplement.

Through: Commanding General, MTOUSA, A. F. O. #512, U. S. Army

To: Allied Force Headquarters, A. F. O. #512, U. S. Army

1. References:

a. Letter, this Headquarters, AG 320-Z dated 24 December 1944, subject, "Reorganization of Italian Units."

b. Cable, AFHQ, Ref. No. 85176, dated 15 January 1945, granting authority to reorganize requested in letter, Paragraph 1 a, above.

c. Cable, this Headquarters, Ref. No. 4275, dated 22 January 1945, requesting redesignation of Veterinary Hospitals as V3-FTI.

2. As was indicated in Paragraph 6 of letter cited in Paragraph 1 a, above, equipment requirements for units the T/O and E's of which were not included at that time are submitted herewith as Inclosures 1 to 12. Additional equipment needed for these units is shown on chart attached as Inclosure 13.

3. Due to changing conditions several items of equipment approved on project U-15-44 are in excess of the quantities required for the reorganization of units in the previous reorganization letter. Shown in column "N" of Inclosure 13 hereto, this excess is credited before arriving at the quantity, "Total Required", in column "O".

4. The functions of the several units concerned herein are as presented in Inclosure 16 to Annex 2 of letter cited in Paragraph 1 a, above, except as follows:

a. To effect certain economies in housekeeping equipment and to insure efficient use of transportation, the "Italian Ordnance Platoon" proposed in Paragraph 4 of that inclosure is presented in Inclosure 3 herein, as a "Transport Company, Italian Infantry Division (ADM)", pooling and controlling all division headquarters vehicles.

b. The "Italian Liaison Detachment, Fifth Army," shown in Paragraph 5 of the Inclosure is to come from personnel in the Headquarters, Italian Infantry Division (ADM).

SECRET

0326

Declassified E.O. 12356 Section 3.3/NND No. 785020

5. Cable cited in Paragraph 1 c; above, requests the Italian Veterinary Hospitals with Fifth Army be redesignated as US-ITI and assigned to Fifth Army, over and above the present ceiling of 14,000. Proposed T/O and E is included as Inclosure 12 hereto. These four units care for evacuated animals of 15 Italian pack mule companies and will aid other Fifth Army units using pack animals.

6. In addition to equipment requested in letter cited Paragraph 1 a, above, request that equipment shown as "Total Required", column "O", Inclosure 13, be authorized as a supplement to Project U-15-44 to be furnished from U.S. sources (except where Italian items are specified).

For the ARMY COMMANDER:

Warren A. Thrasher
WARREN A. THRASHER,
Major, A. G. D.,
Asst. Adjutant General

INTEROFFICE REFERENCE SHEET

HEADQUARTERS FIFTH ARMY

Subject: Status Report

RCV/jad

IND. NO.	FROM	TO	DATE	
	Sr MMIA LO	LFSCAC (MMIA) Att. Col. Kerr	31 Jan 1945	

In accordance with Col. Kerr's oral request of 21 January 1945, attached is status report furnished me by 210 Division for U.S-Itis. This is dated 24 January 1945 and will probably be the last one I get in before the 1st of the month although I have asked the 210 Division for one up to midright tonight. It is suggested that if I get a new one, it will not vary much from this one. Under the remarks column, am showing the proposed T/O strength of these units as completely as I have them to date.

Reference AWOLs and desertions, have just learned that the 210 Division has been striking men off the assigned list when they are absent without leave 5 days instead of 30 days as provided in Paragraphs 13 and 14, AFHQ letter AG 091.711/169 GCT-O dated 16 November 1944 and Paragraphs 13 and 14, MMIA Administrative Instructions No. 18 of 1 December 1944. When asked for an explanation by me personally, the Italian L.O. told me the 210 Division said they had instructions from the Ministry of War to do it that way. Attached is copy of my Buck Slip to 210 Division pointing out this discrepancy.

INTEROFFICE REFERENCE SHEET

HEADQUARTERS FIFTH ARMY

Subject: AWOLs

RCV/jad

IND. NO.	FROM	TO	DATE	
	Sr MMIA LO	CG 210 Div	31 Jan 1945	Am advised that upon authority of the Italian War Ministry, you are now dropping men from the assigned strength of your units after 5 days AWOL or in desertion instead of 30 as provided by Paragraphs 13 and 14 AFHQ letter AG 091.711/169 GCT-O dated 16 November 1944 and Paragraphs 13 and 14, MMIA Administrative Instruction No. 18 of 1 December 1944. Striking these men off after 5 days instead of 30 is as I see it, a direct violation of these directives and should be discontinued since MMIA can't figure the percentage of AWOLs in various Italian units, as they are now attempting to do, when one unit is using a 5 day period and another 30 days.

R.C.VAN KIRK,
Major, Infantry,

Subject: Reorganization of 210th Italian Engineer Combat Group.

To: Commanding General, 210th Infantry Division (Italian).

1. The unit listed below will be reorganized without delay by the Commanding General, 210th Infantry Division (Italian) under T/O & E designated:

UNIT

Hq & Hq Company, 210th Italian Engineer Combat Group

T/O and E

Hq and Hq Company ____* Italian Engineer Combat Group, T/O and E 5-192, Modified Italian, dated 16 December 1944 (attached).

2. Personnel will be obtained from the following sources:

a. By utilizing personnel in the unit to be reorganized.

b. By utilizing personnel being made available as general replacements

3. Equipment will be obtained as follows:

a. Individual clothing and equipment - S.A.E. Instructions SECTION L-1212.

b. Authorized organizational equipment.

(1) Italian sources through Italian channels.

(2) U.S. sources as made available to the U.S. parent unit (for loan to the subject Italian unit) on Equipment Augmentation #16, Fifth Army. (See S.A.E. Instructions SECTIONS L-1216A and L-1220).

4. The 1168th Engineer Combat Group has been designated as the U.S. parent unit of the 210th Italian Engineer Combat Group as defined in S.A.E. Instructions SECTION L-1210.

5. The Army Engineer, through the U.S. parent unit, will supervise the reorganization of this unit in coordination with the Commanding General, 210th Infantry Division (Italian).

Declassified E.O. 12356 Section 3.3/NND No. 785020

6. A report giving the place and date of completion of reorganization of the unit will be submitted to this Headquarters in writing.

By command of Lieutenant General TRUSCOTT:

Warren A. Thrasher
WARREN A. THRASHER,
Major, A. G. D.,
Asst. Adjutant General

FROM 5 ARMY 251928

TO MAIA, INFO CG MTOUSA, CG 15 ARMY GROUP, CG PBS

2322 30 2 SECRET

Ref MAIA Cable SD/2212, time dated 21 MST. Para 1. Proposed reorganisation letter, file AG320/2 of 24 Dec was not based on disbendment or reconversion in order to organise the 5 Pack Mule Coys. FIFTH ARMY ceiling was increased appropriately "from 12000 to 14000" when authorization for first few coys was made.

Para 2. Strength of 12361 on 18 Jan is correct as stated in MAIA cable. However, the impression that 1000 persons are actual under 210 Div in forward staging areas must be based on a miscomprehension due to our feeding PBS US-ITI troops in army area. These 1000 persons are not in Army area. PARA 3. Schedule of shipments requested in our 7485, dated 202046 still applies. PARA 4.A Regarding February requirements, assuming all shortages of muleteer and other services are filled by 1 Feb, requirements will be 45 per day for muleteers and 10 per day all others. PARA 5. Every man physically fit for muleteer duty is being used as such regardless of qualifications ref para 7 MAIA cable.

INTEROFFICE REFERENCE SHEET - FIFTH ARMY

OFFICE G-4 Rear FILE NO. SUSPEND DATE

Subject: Order of Battle

RCV/jad 21

Ind. No.	From	To	Date
	~~Asst~~ Sr MMIA LO	LFSCAC (MMIA)	13 Jan 1945

1. Reference your G 11 of 27 December 1944 and telephone conversation strength of U.S-Itis in this area.

2. Attached as appendix A is a comparison of our figures with yours as near the date you indicate as possible. You will note that generally speaking, the grand totals agree fairly well. Suggest you correct the designation of the engineer units in accordance with our designations which has been approved.

3. Enclosed as per your request, is a copy of the last report that the Italians made to you of strengths.

R.C.VAN KIRK,
Major, Infantry,
Sr. (MMIA) L.O.,
5th Army

2 Inc
This does not affect the "hidden" figures.

24 December 1944

AG 320-Z

Subject: Reorganization of Italian Units.

Through: Commanding General, MTOUSA, A. P. O. #512, U. S. Army.

To: Allied Force Headquarters, A. P. O. #512, U. S. Army.

1. Reference the following communications:

a. Letter, AFHQ, file AG 091.711/169 GCT-O, dated 16 November 1944, subject "Command and Administration of Italian Army".

b. Cable, Hq. MTOUSA, Ref. No. FX 55496, dated 16 November 1944, requesting list of Italian units in Fifth Army area and authorized strengths.

c. Cable, Hq. MTOUSA, Ref. No. FX 55440, dated 21 November 1944, stating request of cable cited above was for authorized rather than actual strengths.

d. Letter, this Headquarters, AG 323.7-Z, dated 20 November 1944, subject, "List of Italian Units Assigned to Fifth Army".

e. Cable, this Headquarters, Ref. No. 2445, dated 24 November 1944, in answer to second cable cited above, stating that the only official authorized strength figure is ceiling of 14,000.

f. Letter, War Department, AG 400 (4 Aug 44) OB-S-SPDDL-M, dated 4 August 1944, subject: "Project U-15-44, Equipment for Italian Military Service Units in the North African Theater of Operations".

2. In compliance with the provisions of Paragraphs 5. and 20. b. of letter cited in Paragraph 1 a, above, it is requested that authority be granted to reorganize and equip operationally Italian troops (US-ITI) under the jurisdiction of this command (shown in letter, "Status of Italian Troops as of 14 December 1944" enclosed as Annex #1):

a. The proposed organization of US-ITI's with T/O and E designation and strengths are shown in Annex #2.

b. Provisional T/O and E's desired to be used are included as Inclosures 1 to 15 incl. of Annex #2.

05281

Declassified E.O. 12356 Section 3.3/NND No. 785020

c. Attached as Inclosure #16 to Annex #2 is a detailed explanation of the T/O's and T/E's submitted.

3. In brief, the Fifth Army plan to utilize assigned Italian army units is to organize functional service units along the lines of U.S. T/O's and modified T/E's for the following reasons:

a. When Italian army units were placed under command of this Headquarters in 1943-44 there were no tables of organization or authorized strengths established. In order to have a firm basis upon which to operate, representatives of this Headquarters and the 210th Italian Division mutually agreed on "Authorized" strengths to be used. These strengths were adopted in Incl. #1 to Administrative Directive #44, this Headquarters, 13 July 1944, a copy of which is attached hereto as Annex #3 ("Assignment of Italian Military Units"). These strengths are no longer effective, however, due to changes in employment and the addition and deletion of units.

b. Other headquarters have occasionally adopted the agreed strengths referred to above in the case of Pack Mule Companies, but no other official recognition by higher Headquarters has been given.

c. The organization of units under present strengths and designations is confusing and does not fit their operational employment. Infantry, Artillery and Engineer units are all employed as labor; and most effective use of personnel is not obtained by the use of tactical-type organizations for the performance of service duties.

d. Proposed organization will further increase the efficiency of units by the reduction in "overhead" personnel, at present not controlled. In general, Italian units have double the necessary amount of overhead. Reorganization will remove this objection and conserve personnel.

4. ITI-ITI units and BR-ITI units under command of this Headquarters (as shown on letter, Annex #1) have not been considered in this study due to their separate status. Attention is invited to the fact that these units are not included in Fifth Army US-ITI strength for ceiling purposes.

a. Authorized ceiling for US-ITI's is 14,000. Though T/O strength of requested units exceeds this figure, it is not intended that this limit be passed at any time by the actual strength of the units listed.

b. Additional personnel to increase US-ITI strength to that authorized is being requisitioned through regular channels.

5. Equipment requested on T/E's in each case is the minimum nec-

0529

Declassified E.O. 12356 Section 3.3/NND No. 785020

essary for housekeeping and to enable the unit to perform its service mission. Distribution of Italian units within the Army has been based on relative need of the various Services. All possible employment is on work requiring little or no equipment and the smallest amount absolutely necessary to do the job is asked for. However, due to the shortage or non-availability of certain types of U.S. units, it has been found necessary to employ Italian units in separate roles requiring certain technical equipment to permit operation independent of U.S. units. In all such instances, equipment asked for is the bare minimum required to enable Italian units to perform essential work that cannot be done by available U.S. units.

6. Much of the equipment required to make the Italian units operational will be supplied from Project U-15-44. Additional equipment needed is shown on the chart attached as Annex #4. This chart gives the amount of equipment required by type of unit and totally, showing also equipment on hand and equipment authorized on Project U-15-44. It is requested that equipment shown in column "Total Now Required" be authorized as a supplement to U-15-44 for supply, and furnished from U.S. sources (except where Italian items are specified). Equipment requirements for units the T/O and E's of which are not included at this time will be forwarded shortly.

7. Project U-15-44 includes some items of equipment requested for units that are now ITI-ITI, a classification not in effect at the time request was made. The operation of certain ITI-ITI units is vitally essential to the continued efficiency of many US-ITI and even U.S. units. An example is the importance of the Veterinary Hospitals to the Pack Mule units. These hospitals will also meet part of the requirements of the 10th Mountain Division units when equipped with animal transport. This headquarters is therefore studying needs of ITI-ITI units with the view of submitting equipment requirements for them in the near future. Ambulances for Italian Field Hospitals (ITI-ITI) and vehicles for Italian Veterinarian Hospitals (ITI-ITI) are included in this request because of their current importance.

8. The importance of the need for equipment of service units serving with Fifth Army cannot be overstressed. With the inadequate equipment they now have their services are of immeasurable benefit to the Army. With the present constant strain on both personnel and equipment, it is vital that these units operate as efficiently as possible - a condition requiring both functional reorganization and the minimum of essential equipment requested.

For the ARMY COMMANDER:

481

WARREN A. THRASHER,
Major, A. G. D.,
Asst. Adjutant General.

*Drives truck in addition to other duties.

Function: Provides military personnel for general labor. This personnel may be used in a supervisory capacity in the event the operation requires the use of civilian labor.

Capacity: Can handle approximately 800 tons of assorted supplies per day.

For specification serial numbers for enlisted men shown in Column 2, see AR 615-26; for officers, see TM 12-406 and 12-407.

Declassified E.O. 12356 Section 3.3/NND No. 785020

Declassified E.O. 12356 Section 3.3/NND No. 785020

BASIS OF T/O AND E'S SUBMITTED

A. Attention is invited to the following factors concerning the composition of the units listed.

1. Hq. and Hq. Co., 210th Inf. Div. (It): "Overhead personnel" will be restricted and given complete administrative responsibility for all US-ITI and ITI-ITI units in Fifth Army. All problems of personnel and payment of troops will be handled by the headquarters. Operational control of units will be slight, being primarily the responsibilty of the U.S. "parent" unit to which ITI unit is attached.

2. 525th Ital. Replacement Trg Regt: This unit, to be commanded by a colonel with a small staff, will be divided into companies each of which will have an assigned task, among which are the following:

a. Operate staging area for replacements.

b. Operate Muleteer replacement training center.

c. Operate a specialist training center, to train combat engineers, drivers, clerks, etc.

d. Operate convalescent center to collect, receive and distribute returnees from hospitals.

e. Operate a rest, training and rehabilitation camp, primarily for pack mule unit personnel.

3. 210th Italian Ration and Clothing Platoon: Unit will operate depots to issue Italian components of the ration (Class #I) and all clothing and individual equipment to US-ITI's and ITI-ITI's.

4. 210th Italian Ordnance Platoon: To perform all 2nd echelon maintenance on captured and Italian materiel used by US-ITI and ITI-ITI units. Work will be done in conjunction with a U.S. Ordnance Medium Maintenance Company.

5. Italian Liaison Detachment, Fifth Army: To consist of officers now present at this Headquarters, with others required for liaison between the general and special staff sections and Italian units. Officers now on duty are from Hq. 210th Inf. Div.. The detachment should all be from a higher headquarters so that effective liaison may be maintained with both the 210th Inf. Div. (Ital) (US-ITI and ITI-ITI) and the 231st Inf. Div. (Ital) (BR-ITI).

478-

6. Engineer Units: Although T/E's submitted are scaled down very considerably from the U.S. equivalent, T/O's are not changed. Personnel in the organizations normally required for the operation and maintenance of equipment not asked for are, however, still required:

Declassified E.O. 12356 Section 3.3/NND No. 785020

a. They are needed for labor, as tasks assigned are those requiring a high proportion of labor to equipment.

b. Personnel will be trained whenever possible on equipment of the U.S. unit with which they operate.

7. Italian Wire Recovery Companies: These units assist the Army in the recovery of cable and wire as advances are made. The impossibility of combat units recovering the lines theylay, and the shortage of Signal Corps personnel who could do the job make this work one of the most important tasks performed by the US-ITI's.

8. Pack Mule Units: For over 9 months these units have functioned in a manner that has made possible operations the Fifth Army could not have undertaken or maintained without them. Their work is indispensable in the present period of operations. Battalion Headquarters serve as both operational and administrative headquarters. Liaison is maintained at this level with the U.S. unit with whom they are working. Group Headquarters, also with Administrative responsibilities, maintains liaison with the Fifth Army Quartermaster on pack mule operations.

9. 1st Italian Medical Collecting Company: This unit operates with an Italian T/O and E as a regimental aid station for Pack Mule Units. Many of the personnel are litter bearers who will be used both within Italian units and with adjacent U.S. combat units as needed.

10. Italian Field Hospitals: Similar in plan to a small U.S. Field Hospital, it is planned to increase their normal capacity from 50 to 70 patients. Nurses in these units are professionally trained but are volunteers.

11. Quartermaster Units: These service units replace an equal number of U.S. units and speed up tremendously the supply system of the Army. Two Group Headquarters are required, as these units are administrative as well as operational and their subordinate units are located throughout the whole Army area. Personnel have been added to Group Headquarters for clerical and messing requirements, the latter due to the fact that they must be more centrally located for proper functioning than is normal for one of their operating companies. Battalion Headquarters are attached to one of their companies for housekeeping purposes.

12. 1022 Italian QM Truck Company and Driver Augmentation Team: The only Truck Company in Fifth Army with 1 1/2 ton, 4x4, Cargo trucks, this company fills a real need for light, short distance, miscellaneous hauling that does not require a regular 2 1/2 ton, 6x6, truck. The unit is constantly engaged to capacity.

13. 210th Italian Inf. Div. Band: Unit was organized and operative with Italian Troops furnished Fifth Army last year. It fills a need for a Special Service Unit. The presentation of music and shows in their own language boosts morale.

Declassified E.O. 12356 Section 3.3/NND No. 785020

B. Equipment lists for the units included have been made with the following factors considered:

1. Units are normally employed with their "parent" U.S. unit. Equipment is required to supplement U.S. equipment provided on regular T/E's to U.S. unit.

2. T/E's are based on U.S. tables, but following have been eliminated:

a. "Luxury items".

b. Items that can be furnished form U.S. parent unit.

c. Items that can't be furnished as above, but are too technical for the Italian units to use at this time.

3. Attention is invited to the more complete equipment included in T/E's of Pack Mule and Engineer Combat Units. Pack Mule Units, being the only units of this type in Fifth Army and actually in combat, must be equipped for independent operation. Combat Engineer Units, though not in combat, will be assigned independent work of necessity, due to the great need for the work they do and the shortage of U.S. Troops.

4. In compliance with current directives, equipment furnished Italian Units will be issued to the U.S. "parent unit", who will be responsible for it.
