INTER-OFFICE MEMORANDUM

LAND FORCES SUB COMMISSION
A.C. (ADL)

FILE NO: SD/43/1 DATE: 6 March 45

SUBJECT: Major Van Kirk

TO :

Reference your No. 17 of 3 March 45.

1. Personnel will be available to replace men of the older classes who will be discharged when Northern Italy is liberated.

2. It is obvious that Northern Italy will not be liberated all at one time, therefore, all of the men listed as necessary to be sent on leave will not be sent at one time, and only those men whose homes have been liberated will be sent. These men should return and then another bunch should be sent if more territory has been liberated.

3. Under the present instructions, 5,000 is the maximum that can go on leave, and that if some go without leave they will simply be AWOL.

File Ref. 01/625 P.M. 179 - 28 February 45

Subject : Requirement of replacements in view of liberation of Northern Italy.-

To : C.G. Fifth Army (action)

Delegation "T" of S.M.R.E. (info)

Italian Liaison Office G-4 Fifth Army (info)

Already sometime ago I have pointed out to you the necessity to providing proper measures for the needs of replacements for 210th Division as soon as Northern Italy will be liberated.-

Therefore I emphasise the necessity to prepare as soon as possible adeguate echelons of replacements to be allocated as follows:

a) replacements for personnel of liberated territory to be discharged because belonging to older classes,

b) replacements for further personnel of liberated territories who altough belonging to classes still under arms, must be sent on leave (on the purpose it is pointed out that the present pergentage -5%- allowed for personnel on leave is not sufficient for the needs as, owing to the anxiety of soldiers for their families still in occupied territory, it is impossible to delay granting of leaves when country will be liberated).

As attached figures show, the number of military personnel under command living in northern Italy is as follows:-

- 1) to be discharged : Officers 28, EM 1198
- 2) to be sent on leave : Officers 287, EM 5466

Therefore a total of 4000 men is required as follows:

- 2000 men for replacing personnel to be discharged
- 2000 men for replacement of personnel to be sent on leave.

This personnel will be able to be divided in three batches (first

This personnel will be able to be divided in three batches (first batches of personnel sent on leave should return before departure of following batches).
Allotment of personnel for replacing men to be sent on leave must be foreseen.
Request you consider above in order to take proper action.

Subject: Strength of US-ITI's With Fifth Army.

To: Allied Force Headquarters, A. P. O. #512, U. S. Army.

Commanding General, MTOUSA, A. P. O. #512, U. S. Army.

Land Forces Sub Commission, AC (MMIA), A. P. O. #394, U.S. Army.

1. An information copy of letter, Land Forces Sub Commission, AC (MMIA), file SD/43/1, 7 February 1945, subject, "Strength, Fifth Army," has been received by this Headquarters. It is desired to make the following comments in connection with the recommendations contained in paragraph 3 of this letter.

2. Fifth Army concurs in principle that rations should be issued to the 210th Division based on the actual strength present in units assigned or attached by competent orders. This is the present policy of Fifth Army, with the following exceptions:

a. In order to keep operative an essential hospital, certain civilian medical employees are authorized to be rationed. Verbal approval of this arrangement has been received from MMIA.

b. Italian military personnel who belong to units appearing on the Order of Battle of the Italian Ministry of War are rationed on a transient basis in Florence, whether or not the units concerned are assigned or attached to the 210th Division.

(1) See paragraph 3 below for nature of and need for Division Staging Area in Florence.

(2) It is understood that the accounting procedure in effect at MMIA Headquarters can make adjustments in ration returns made necessary by this practice. Complete records are available if desired.

3. The Staging Area operated by the 210th Italian Infantry Division is performing essential functions without which the division could not efficiently operate. A similar Staging Area was established in Rome after that city fell and was in operation until present one opened at its present location.

a. All replacements received for the division are staged through the 4680 Staging Area. It is required that an installation be operative in which personnel can be received and held while equipment and records are checked, and pending assignment to a unit.

AG 336.2-Z Strength of US-TTI's with
Fifth Army (cont'd).

b. The Staging Area functions as a control point for former hospital patients who are to be returned to their proper units. Checking of records and equipment, and the fact that transportation is not always available for immediate delivery of personnel to units, requires that a central collection and holding point be maintained.

c. Personnel departing on and returning from leave are cleared through the Staging Area due to dispersion of division units throughout the Army Area and a policy of centralized administration.

d. Personnel travelling in the Combat Zone (the Army Area) going to and coming from leave are not considered as on leave until they have been processed by Division Headquarters at the Staging Area. Meals eaten during this process or during delays awaiting transportation are not considered as having been consumed "on leave."

4. Paragraph 2 b, letter cited in paragraph 1 above indicates that the 210th Division will be 460 over-strength on 1 March due to receipt of 2855 replacements.

a. Of the 2855 replacements scheduled, only 2427 arrived at the 210th Division Staging Area, a loss enroute of 15%. Of these 122 were considered "unfit for any military duty" and have been hospitalized for examination. Usable replacements total 2305, which is 550 short of the expected number. MT

b. Paragraph 21, letter, Allied Force Headquarters, AG 091.711/169 GCT-O, 16 November 1944, subject, "Command and Administration of Italian Army," states that the holding of replacements for Service Units is limited to 5% of the total authorized service units maintained by the Allies. With a ceiling of 14,000, this allows Fifth Army a replacement over-strength of not over 700. Using attrition figures of letter cited in paragraph 1, above, 210th Division will be 90 understrength (based on 14,000) on 1 March 1945 instead of 460 over-strength; it will be 790 under the total figure allowable (including 5% replacements to be held in addition to the ceiling).

5. Due to the continued loss of replacement personnel between point of origin and Fifth Army Area (an example of which is given in paragraph 4, a, above), the inclusion of personnel "enroute" in the aggregate assigned strength figure used in computing personnel requirements is considered inadvisable and is not concurred in by this Headquarters as being good practice.

Reference your SD2325 of 21 Feb 1945, Subject: Staging Area, Rome. Attached is 210 Division's explanation for the necessity of its existence. It appears that this staging area is a necessary agency in coordinating the movement of Italian officers, men and supplies forward and to the rear. The officers and men are carried on 210 Division's strength. The establishment of this staging area in Rome was originally approved by 5th Army and its continuance is approved.

Subject: Continuation of the "Staging Area, 210th Division"

No.	FROM	TO	DATE	
1	G-4 Rear.	MMIA LO (Major VanKirk)	23 Feb 1945	1. The continuation of the "Staging Area, 210th Division" in Rome is of paramount importance to Fifth Army. The set-up there provides many facilities necessary to the proper functioning of the 210th Division, most of which are covered in the attached letter from the Chief of Staff, 210th Infantry Division (Italian). 2. Additionally, it is felt here that a great disservice would be done Fifth Army if the discontinuance were ordered as it is felt the Staging Area more than earns its keep because of the Italian soldier leave personnel returned to Army who would not return unless these facilities were provided. 3. The Camp was originally organized on the expressed desires of this Headquarters and its continuance has like approval. For the A. C. of S., G-4: EHW EDMUND R. WALKER, Lt. Col., G.S.C., Executive Officer.

Subject : Staging area of Rome.

To : Italian Liaison Office - Fifth Army.

As required following are the tasks of the Rome Staging Area and the considerations about the necessity of not disbanding it :

1. Tasks of the Rome Staging area

a. To provide reception , assistance, billeting and supply of personnel (officers and E.M.) of 210 and 231 Divisions coming from units and going , on duty or on leave, in Lazio and other regions southward of Rome

b. To provide same facilities for personnel coming from Lazio and other regions south of Rome and going to 210 and 231 Divisions units, preparing the necessary means of travel (by road or by rail transport).

c. To act as logistic base for relations between 210th Division and Ministry of War and other agencies located in Rome, particularly by drawing supplies from the dumps of Rome and of southern Italy.

d. To provide purchase of additional items for units u.c. from resources of Lazio and southern Italy.

2. Considerations.

a. An eventual disbandment of the Staging Area of Rome would give rise to a very great desease to soldiers in transit through Rome.
It must be considered on the purpose that the military territorial services of Rome are granting italian military personnel in transit only 24 lire, which are absolutely not sufficients for the needs of life.
Particularly, desease would be very hard for the officers owing to the difficulty of finding a billet.
In regard to such conditions the Staging area of Rome rises

Particularly, desease would be very hard for the officers owing to the difficulty of finding a billet.
In regard to such conditions the Staging area of Rome rises to a providential institution in giving to Officers and E.M. the necessary comfort both for supplies (as it is impossible to fill up the military personnel starting from units with th complete rations for journey) and for billeting.

b. The efficiency and the good results obtained by the Staging Area of Rome are reccgnized by all military personnel who would not be able to find whatever else agency in Rome from which to receive so much assistance.
Particularly nowadays it is necessary not to suspend soldiers the facilities which they have still been granted : if an institution organized by so many efforts and activity is already efficient it is dutiful not to disband it.
It is to be reminded that the good results attained by the Division and for which the Allied Commanders have repeteadly declared their appreciation are for a good share due to the many helpful initiatives of the Division among which are the Staging Areas organized successively at Caserta, Rome and Florence.

c. It is to be considered that if the Staging Area of Rome should be disbanded , 210th Division ought to keep anyhow an envoy at Rome for dealing with the Ministry of War and other agencies , for drawing supplies from Italian Dumps and for purchasing various items from local resources.

d. In order to ,obtain an exact valutation of the matter you are requested to beg Major Van Kirk, before taking any definite actions, to visit the Staging Area of Rome in order ~~to~~ he may personally be acquainted with its efficiency and activity and we deem that , after having done so, he will agree with the necessity of advising the continuation of the Staging Area for the benefit of the Division and of the service.

Chief of Staff.

1. An information (1) copy of letter, Land Forces Sub Commission, AC (MMIA), file SD/ 43/1, 7 February 1945, subject, "Strength, Fifth Army," has been received by this Headquarters. It is desired to make the following comments in connection with the recommendations contained in paragraph 3 of this letter.

2. Fifth Army concurs in principle that rations should be issued to the 210th Division based on the actual strength present in units assigned or attached by competent orders. This is the present policy of Fifth Army, with the following exceptions.

a. In order to keep operative an essential hospital, certain civilian medical employees are authorized to be rationed. Verbal approval of this arrangement has been received from MMIA.

b. Italian military personnel who belong to units appearing on the Order of Battle of the Italian Ministry of War are rationed on a transient basis in Florence, whether or not the units concerned are assigned or attached to the 210th Division.

(1) See paragraph 3 below for nature of and need for Division Staging Area in Florence.

(2) It is understood that the accounting procedure in effect at MMIA Headquarters can make adjustments in ration returns made necessary by this practice. Complete records are available if desired.

3. The Staging Area operated by the 210th Italian Infantry Division is performing essential functions without which the division could not efficiently operate. A similar Staging Area was established in Rome after that city fell and was in operation until present one opened at its present location.

a. All replacements received for the division are staged through the Staging Area. It is required that an installation be operative in which personnel can be received and held while equipment and records are checked, and pending assignment to a unit.

Fifth Army (cont'd).

b. The Staging Area functions as a control point for former hospital patients who are to be returned to their proper units. Checking of records and equipment, and the fact that transportation is not always available for immedi te delivery of personnel to units, requires that a central collection and holding point be maintained.

c. Personnel departing on and returning from leave are cleared through the Staging Area due to dispersion of division units throughout the Army Area and a policy of centralized administration.

d. Personnel traveling in the Combat Zone (the Army Area) going to and coming from leave are not considered as on leave until they have been processed by Division Headquarters at the Staging Area. Meals eaten during this process or during delays awaiting transportation are not considered as having been consumed "on leave."

4. Paragraph 2 b, letter cited in paragraph 1 above indicates that the 210th Division will be 460 over-strength on 1 March due to receipt of 2855 replacements.

a. Of the 2855 replacements scheduled, only 2427 arrived at the 210th Division Staging Area, a loss enroute of 15%. Of these 122 were considered "unfit for any military duty" and have been hospitalized for examination. Usable replacements total 2305, which is 500 short of the expected number.

b. Paragraph 21, letter Allied Force Headquarters, AG 091.711/169 GCT-O, 16 November 1944, subject, "Command and Administration of Italian Army," states that the holding of replacements for Service Units is limited to 5% of the total authorized service units maintained by the Allies. With a ceiling of 14,000, this allows Fifth Army a replacement over-strength of not over 700. Using attrition figures of letter cited in paragraph 1, above, 210th Division will be 90 understrength (based on 14,000) on 1 March 1945 instead of 460 over-strength; it will be 790 under the total figure allowable (including 5% replacements to be held in addition to the ceiling).

5. Due to the continued loss of replacement personnel between point of origin and Fifth Army Area (an example of which is given in paragraph 4, a, above), the inclusion of personnel "enroute" in the aggregate assigned strength figure used in computing personnel requirements is considered inadvisable and is not concurred in by this Headquarters as being good practice.

Referring to the actual strength of US-ITI units with Fifth Army:

1. It had been assumed that personnel carried under the heading "Attached for Rations in Staging Area 210 Division" was personnel which had been sent to the Division but had not been assigned by the Division to units. Fifth Army stated that this was not the case. Therefore, an officer from this headquarters made an investigation in Florence and the following facts developed:

a. The personnel carried under the heading "Attached for Rations in Staging Area" are, with the exception of some odd units, actually personnel in a transit camp. On 24 January this transient personnel numbered 159 officers and 536 men, from all categories of the Italian Army. This personnel is fed US rations and housed in this transient camp simply on presentation of evidence that they are members of the Italian Army, and regardless of category.

b. The net result of this system is (based on strength return of 24 January):

Assigned strength, 210 Division	12,998
Strength present, 210 Division	12,366
US rations drawn, including charge back for men in ITI-ITI hosp	13,394

2. a. The visit to Headquarters, Fifth Army developed that on 31 January 1945 the assigned strength, 210 Division was 610 officers, 12,535 men, aggregate 13,145.

b. The following personnel has been assigned to 210 Division, but is not included in the strength figure (Par 2a, above):

1878 replacements, general (enroute, PBS signal 1930, 27 Jan)
56 replacements, Engineer(enroute, PBS signal 1930, 27 Jan)
11 replacements, Engr Specialists (enroute, PBS signal 1930, 27 Jan)
610 replacements, (enroute, PENSOUTH signal 2232)
300 replacements, (enroute, PENSOUTH signal 2232)

2855 TOTAL

c. Therefore, as of 1 Feb, the total assigned to 210 Division is 16,000. February wastage is estimated by Fifth Army at 55 per day or a total of 1,540 (Fifth Army signal No. 2322). The assigned strength of 210 Division on 1 March 1945 will therefore be 14,460.

d. The replacements in sub-paragraph b, above, were ordered to Fifth Army on the basis of the assigned strength shown in Fifth Army signal NR 2076 of 10 January, which did not include all personnel actually assigned to and enroute to Fifth Army, all of whom must be counted in the aggregate assigned strength.

3. Recommendations:

a. That Fifth Army issue to 210 Division rations based on the actual strength present in units assigned or attached to 210 Division by competent orders.

b. That the transit camps be abolished (Par 11f, AFHQ letter, file AG 091.711/169 GCT-0, dated 16 Nov 1944).

c. That Fifth Army direct 210 Division to transfer to 212 Division (PBS) 460 men, which leaves the 210 Division at authorized strength on 1 March 1945, after allowing for all estimated attrition.

d. That Fifth Army requests based on MTOUSA letter, file AG 322.96/774 A-0 dated 20 Dec 1944 include, in the aggregate assigned strength figure required, all personnel assigned to, or enroute to 210 Division as advised by MMIA signals to Fifth Army regardless of where located.
