1. Circular 300/II of M of W dated 15 Dec 1945:

Para 4 section I (allowing discharge of only son of widowed mother over 55 years of age) is suspended.

Para 1 section II (allowing parents to request discharge of 1 son if they have 3 or more sons in the service at the same time) can also be applied when there are only 1 or 2 sons in the service, whenever:-

(a) There are, besides the sons in the service, no other sons over 18 years of age who are able to work.

(b) The parents, or the living parent, undergo an examination by a medical board at the military hospital of the jurisdiction and are found permanently unable to perform remunerative work.

(c) The respective CC RR Headquarters forwards information to the effect that the parents are without means of subsistence.

The discharge proposed in the a/m para 1 section II may also be granted to newly drafted military (in this case provisional unlimited discharge) when the other sons who are considered in the service cannot take advantage of it because they are prisoners or missing in the present war (circumstances to be ascertained through documents issued by the respective military authorities or, if this is not possible, through legal papers - issued by the respective municipal authorities - and information from the respective CC RR H(s).

2. Circular 606/II of M of W dated 31 Dec 1945:

Discharge proposed for military recalled or held in the service who are civil servants can be granted only upon request from the respective administration - to the officials or regular employees of the classes of 1919 and older.

The 90 day renewable leave without pay proposed for military recalled or held in the service who are skilled workers in private industries can be applied only to those skilled workers who are employed in industrial establishments performing important work for the Italian or Allied Armed Forces (this latter condition must be documented by the requesting firm and confirmed by information from the respective CC RR HQ).

4. Circular 9719 of M of W dated 18 July 1944:

Discharge proposed for those who are qualified technicians, agricultural agents or farm managers is limited to NCOs and ORs recalled or held in the service, of the classes of 1918 and older if they are classified as "general assignment", while it can also be granted to those of the classes of 1919-20-21 and 22 if classified as "limited assignment". All renewable discharges and leaves granted since 8 September 1943 and prior to the date of this circular to military who - on the basis of above directives - would no longer be entitled to such grants, remain in force.

All grants made prior to 8 September 1943, however, to military who are no longer in a position to claim a status as per this circular, are revoked. Therefore, the districts must re-examine the status of military who are enjoying renewable discharge or leave on the basis of measures prior to 8 September 1943, and in case the grant has to be revoked because it no longer corresponds to the a/m directives, the military in question must be sent into the service in conformity with the rules which will be published in this respect through recall proclamations or other circulars.

MEETING OF THE COUNCIL OF MINISTERS

The Council of Ministers has among other things concerned itself this morning with measures for the benefit of the combatants, draftees, Patriots and their families.

The Gov't, being certain of expressing the unanimous feeling of solidarity and patriotism towards its fighting sons in the army, the navy and the air force, as well as towards the Patriots who are proudly up in arms for the liberation of the lands still under the invader;

hoping to see new possibilities arise which would allow a greater direct participation in the war effort;

has approved the following measures for the benefit of the military and their families:

1. Setting aside of one billion annually for extraordinary subsidies for the neediest families of the junior NCOs and ORs of the 3 armed forces, to be determined by special communal committees, on which all social elements will be represented in order to guarantee greater impartiality, and according to principles which will be established.

2. Assignment of funds at the disposal of the commanders of operational units to enable them to grant financial aid and premiums to the most deserving military and to their neediest families. 6612

3. Payment of an induction indemnity, beginning Dec 1944, to the needy families of ORs and junior NCOs at the rate of 3,000 lire for re-called men and volunteers and 2,000 lire for newly drafted military, to be paid by the mayors upon presentation of a district commander's certificate attesting that the man reported for induction and was actually assigned.

4. An increase in the amount of extra-ration meal improvement and of the issue of cigarettes to military assigned to operating units of the armed forces.

The Council of Ministers has been confirmed

(b) to recognize the freedom volunteers' ranks (up to the rank of Lt Col) which they held in the patriots' fighting units, at the time of the reorganization of the armed forces, and after due ascertainments.

(c) to extend the granting of compensation for bravery to the patriots under the same principles as those already governing the armed forces.

(d) to establish a "volunteers of liberty" ribbon to be granted to the patriots who have been for 3 months members of a partisan unit, or who have been wounded.

(e) to extend to the patriots and their needy families the same moral and material welfare measures as those already planned for the combatants of the armed forces.

(f) to grant the same kind of pensions due to military also to the fighting patriots and to civilians who were killed or made invalid through enemy violence, and to their families.

Dear General

I quite agree to the contents of your AG/35/1 dated 29 12 44 regarding the problem of the call-up and I have not replied earlier in order to be able to give you more complete information.

1. As regard exemptions the corresponding instrs have already been revised and the right to exemption limited (see letter 207740 dated 31 12 44 incl No. 1).

I have most willingly taken into consideration the suggestions you gave me regarding the org of the call-ups.

In this respect the activities carried out by the Military Terr. HQs of Lazio and Campania as well as the GC RR CCBB are summarized in the incl appx.

2. From a more general point of view and one of greater interest, I have already proposed to the cabinet, who have already approved part of them, a series of measures - both economic and moral - tending to insure the fulfillment of military duties (incl No. 2)

3. I would call your attention however, to an aspect of the problem which I feel sure you have not missed i.e. to the fact that the call-ups could be more successful if aided by complimentary measures to be taken by the Allies.

In essence it would be necessary to:

(a) be allowed more time both to prepare and organise and to actually carry out the call-up operation. Too short a time does not allow for an accurate valuation of all the possible practical difficulties and consequently no preventive measures can be taken in good time.

For example, both in Lazio and in Campania it has been impossible to issue and affix the posters in time in all the townships (Provinces of Avellino and Benevento, internal zone of Lazio) owing to chronological conditions. It can be taken for a fact that the same difficulties will be encountered in order to get the recruits to the distr and in order to send them afterwards to the trg centres.

(b) granting means of transport which are at present absolutely insufficient.

Naples Hq has an absolute of 24 medium or heavy lorries, 7 m/cs and 8 cars yet at present all they can avail themselves of is 16 lorries.

(c) grant of premises, some of them partly occupied by the Allies for example the Regina Margherita barracks in Rome.

(d) A faster drafting of the recruits to units from the camps where (as in Afragola) the recruits remain for long periods without clothing and under very difficult living conditions which obviously have a deleterial effect on their morale and on hygiene.

(e) better equipment of the camps also in order to eliminate that depressing effect on the morale of the personnel.

I feel sure, General, that my having put forward to you quite frankly the requirements of the Italian side will meet with your understanding.

MEASURES FOR THE CALL-UP IN LAZIO AND CAMPANIA

1. Along the general lines issued directly by this Ministry to the two military Territorial Commanders of Rome and Naples in a special meeting with them, these commanders in their turn have laid down the general orders for carrying out the call-up operations in agreement with the district comds.

2. The Territorial Comds. of Rome and Naples have contacted the district comds directly in order to outline, on the spot and for each district, the needs and plans for the various operations.

On these occasions the comds have also contracted the local political authorities, the local CC RR Comds, the party chiefs and the church authorities.

3. The available time for the posting of the proclamations - about 10 days - was not sufficient. Due to the adverse climatic conditions and to the scarcity of MT the proclamations arrived late in the various townships. In several townships in the interior of Lazio and Campania the posting of the proclamations was even definitely belated. Some townships were not even reached due to the interruption of communications.

It is well to assert again how absolutely essential it is that the preparatory period of the operations be given more breathing space and that it be adapted to the pressing conditions of communications and transport.

4. The scarcity of transport has markedly handicapped the development of the operations. The available MT is altogether insufficient for the various requirements: what little was somehow distributed to the districts arrived very late at the place of employment.

Particularly: Rome and Naples still lack passenger cars, their assignment being essential in order to allow the [redacted] offrs to be present often enough at the operations.

Naples needed rfts of 18 medium and heavy trucks of which 12 only were granted.

3.
6603

This problem of MT is particularly important: most of the time one counts on possibilities which in practice do not materialize; thus for Naples, where the help which was expected from the units of the region has shrunk to a few vehs because these units are either engaged in other work or have their vehs deadlined. The same applies to Rome when neither the [redacted] nor the Ministry was able to furnish the MT: not even by requisitioning was it possible to have the necessary MT available. It is evident that in view of the serious contingencies caused by the lack of MT, those few vehs which could be gathered will be strictly employed only for duties directly connected

On these occasions the comds have also contracted the local political authorities, the local CC RR Comds, the party chiefs and the church authorities.

This problem of MT is particularly important: most of the time one counts on possibilities which in practice do not materialize; thus for Naples, where the help which was expected from the units of the region has shrunk to a few vehs because these units are either engaged in other work or have their vehs deadlined. The same applies to Rome when neither the SUBRE nor the Ministry was able to furnish the MT: not even by requisitioning was it possible to have the necessary MT available. It is evident that in view of the serious contingencies caused by the lack of MT, those few vehs which could be gathered will be strictly employed only for duties directly connected with the call-up.

5. To each proclamation has been added an MT service schedule for the transportation of the draftees. A second run has also been planned to gather the stragglers; this however was, for obvious reasons not published on the proclamations.

6. Orders have been issued for a strict control of rations, barracks stores etc. The district commanders will supervise this.

7. The CC RR will collaborate with the districts and will carry out the work of persuasion to keep the called up personnel arriving. It has furthermore been directed that those who do not report are arrested at once. Agreements with the CC RR have also been made regarding the mopping up to be done immediately following the call-up.

8. As regards propaganda the aid of all dailies has been insured: directly for the Ministry and by the respective military comds.

Likewise for radio propaganda; radio addresses on the question were made on the 14th, 16th and 17th inst.

Furthermore in the centre as well as in the various zones the church authorities, the rep of the political parties and the local political authorities have been contacted.

In the collection centres special information offices, meeting rooms, telephone booths and writing rooms have been set up and orders have been issued to enable the draftees to telegraph free of charge.

The Territorial Comds have visited the provinces in their jurisdiction giving the district Comds orders and directives on the organization to be set up.

During these visits the a/m Comds have personally contacted the prefects and the ecclesiastical and civil authorities.

Offrs of the Territorial Bgs have been sent to the districts to control and regulate the development of the call-up operation.

The Minister will see to controls in the various zones during the call up operations.
