TO : AFHQ

1. In order to create 10 I.S. Bdes of an approximate strength of 1,500 each certain units are already being transferred under Italian Op Command to, or formed within, the ITI-III Category. This is likely to cause in the future certain difficulties.

2. At the moment sufficient ceiling can be found to cover these units already transferred. The new layout of ceiling in the ITI-III Category as it will appear in ORBAT 2/13 (at 8 Sep) is attached at Appendix "A".

3. When, however, the number of units created or transferred reaches its peak the present spare ceiling will not be enough, as shown below:-

4. In order to avoid exceeding the III-ITF ceiling it is recommended that the last five Gd Bns to be handed over to the Italian Ministry of War be all counted as III-ITF as they are employed by the British employing agencies until date of their handover. It will be noted that certain III-ITF Guard Battalions have been released, while III-ITF Guard Battalions have been retained under British Command. At the time the

Leave to be a transfer of three 1000-1000
to make the 5 BR-1000.
For BR-1000 units are being used. Suppose the
handover of the Italian Army from 2838
personnel will be necessary to handle that the
piece DR-1000 units for the 1000-1000 carrying is
not exceeded

This for info of my success.
I have read the above comment which I
think is bulls! However the position does
not now arise as new directly clears all
categories. APR 23 Oct.
