The President of the Council of Ministers.

347

Rome, 25 April 1945.

My dear Admiral,

The maintenance of public order represents one of the most important problems for the interior safety of the State.

I therefore take the liberty of drawing your attention on the enclosed memorandum of the Minister of War and especially on paras 1 and 2 of the said memorandum.

The urgency to increase the numeric number of the Carabinieri is quite obvious. North Italy having to be garrisoned with about 10 thousand Carabinieri, it is natural that the Corps should have to be increased of identical forces.

This request No. 2 is particularly important. We haven't enough safety troops, in Rome especially. Here, there is one battalion only, which, employed in guard service, can dispose of a few score of men only.

I trust that you, an old and trusted friend of Italy, will speak in favour of our request to the Allied Commission in which you have such an important situation.

Yours very truly,

(sgd) I. BONOMI.

Admiral Ellery W. STONE,
Chief Commissioner,
Allied Commission,

SUBJECT: Military questions requiring urgent solution.

I expound to your Excellency, to have them forwarded to the Allies, some of the main questions of a military character which require an urgent solution.

1). INCREASE OF 10,000 CARABINIERE.

The force of the corps at present allowed by A.F.H.C. is of 55,000 men (of whom 1,865 are employed out of the corps in military commands or organisations).

To face the military police requirements of the Regions which are being liberated and dispose of the necessary mobile police forces in the Kingdom (10 battalions arranged in 4 groupments). It is necessary and urgent to bring the organisation to 65 thousand men.

Without the required regulation, when the North will be liberated, the carabinieri scattered all over the kingdom will be very scarce for the requirements of local security, and quite insufficient for the interregional mobile ones.

This is particularly serious because of the impossibility to dispose of safety troops on the whole continent.

2). SAFETY TROOPS IN THE CAPITAL.

On the continent, except for the royal carabinieri, no army troops are available for interior safety. The three divisions for interior safety ("Calabria", "Aoste", "Sabaude" Divisions - 15 thousand men) are stationed in Sicily and Sardinia (only 800 men in Calabria to watch the plants).

It would be necessary to dispose of safety troops on the continent also, and particularly in the capital. To obtain this, the contingent which, for this category, is at present fixed to 15 thousand men, would have to be adequately increased by A.F.H.C., and above all the formation of a safety division in Lazio would have to be authorized.

3). GREATER CONSISTENCY OF THE TERRITORIAL MILITARY ORGANISATION.

1427

55,000 men (of whom 1,865 are employed out of the corps in military commands or organisations).

To face the military police requirements of the Regions which are being liberated and dispose of the necessary mobile police forces in the Kingdom (12 battalions arranged in 4 groups), it is necessary and urgent to bring the organisation to 65 thousand men.

Without the required regulation, when the North will be liberated, the carabinieri scattered all over the kingdom will be very scarce for the requirements of local security, and quite insufficient for the interregional mobile ones.

This is particularly serious because of the impossibility to dispose of safety troops on the whole continent.

2). SAFETY TROOPS IN THE CAPITAL.

On the continent, except for the royal carabinieri, no army troops are available for interior safety. The three divisions for interior safety ("Calabria", "Aoste", "Sabaude" Divisions - 15 thousand men) are stationed in Sicily and Sardinia (only 800 men in Calabria to watch the plants).

It would be necessary to dispose of safety troops on the continent also, and particularly in the capital. To obtain this, the contingent which, for this category, is at present fixed to 15 thousand men, would have to be adequately increased by A.F.H.O., and above all formation of a safety division in Lazio would have to be authorized.

3). GREATER CONSISTENCE OF THE TERRITORIAL MILITARY ORGANISATION.

The organs of the territorial, district and depot military commands fixed by A.F.H.O., are inadequate for the numerous, delicate and urgent functions which the said organs have to fulfil.

For instance, the districts can have an average of five men only; the organisation is completed with civilian personnel exclusively; in such conditions, all these organs cannot function well.

It must be remembered that many districts are also centres of mobilisation for the units and are therefore burdened with the work which such a function implies.

A.F.M.C. would have to increase adequately the number of the personnel of the central and peripheral administration which is at present fixed to 27 thousand men (1st category).

4). MILITARY RATIONS.

The Allied Control organs allot foodstuff rations according to the authorized forces and won't admit derogations for any motive whatever.

There are however, special situations which would require derogations, for instance:

- in favour of repatriated prisoners or interned soldiers, or soldiers who come back from other States, as long as they haven't been discharged;
- in favour of sick or wounded soldiers who stay over 60 days in hospital (from the 61st day on, they get civilian rations);
- in favour of travelling soldiers (those who start on a journey according to allied orders are only allowed to take two days' rations, while the journey - because of the means of communications - often lasts several days);
- in favour of draftees and soldiers called under arms for the day on which they present themselves to the districts (army rations are only given to those who have been incorporated);
- etc.

In the cases we have mentioned the soldiers are considered as civilians by the Allies and treated as such. The system must be revised; the motives are obvious and come from humanitarian considerations and from an understanding of reality; they do not need to be explained.

5). AVAILABLE BILKETS.

It would be necessary to dispose of a larger number of military buildings. To be able to receive and house the draftees adequately would have a good moral effect on the Country and for the Government.

It would also make it possible to separate - as it is obviously necessary - the draftees from senior soldiers and soldiers who have been called under arms during the first period of their trainings.

Only the allied side can solve this problem and leave at our disposal the necessary minimum of military building.

6). REPATRIATION ELEMENTS "COMBAT" & "REGINA" ELEMENTS EMPLOYED IN EGYPT AS AUXILIARIES.

2919

soldiers who come back from other States, as long as they haven't been discharged;

Only the allied side can solve this problem and leave at our disposal the necessary minimum of military buildings.

6). REPARTRITION ELEMENTS "CUNEO" & "REGINA" ELEMENTS EMPLOYED IN EGYPT AS AUXILIARIES.

2919

The troops of these two divisions, stationed in the Aegean islands at the time of the armistice, did hard fighting against the Germans ever since September 9th, 1943, at the side of the Allies for the defence of these islands (the "Cuneo" alone had about 400 dead and wounded in these actions). Overnumbered by the enemy, instead of surrendering, in agreement with the allied authorities, they reached Egypt through Turkey and Palestine; they were not allowed to carry on their fight against the Germans in other sectors and are being employed as auxiliary units in the dependence of the local English commands.

1430

Declassified E.O. 12356 Section 3.3/NND No.

But, after having been at first considered as "co-belligerents", the soldiers of the "Gueco" and of the "Regime" (about 6,500) were then to all effects placed by the British commands in the category of "Co-operating prisoners", though there had been nothing to cause such action to be taken.

It is necessary to:

- revoke this regulation, placing again these troops in the "Co-belligerent" category.
- repatriate them without delay.

I have expounded all these facts, for I know of your Excellency's wish to reconstruct the army, and I am sure you will intervene in favour of the solution of the above mentioned questions which are all of a fundamental and moral interest.

The MINISTER,

(Sgt.) CASSETT.

1. OBJECT

In ASD 922.5 of 4 Feb 45, copy attached at Appendix "A", AFHQ asked for the publication of a full Order of Battle of Carabinieri Units "indicating chain of command down to units". Copy of this letter was handed to your Capt DALRY by Capt YEARSLEY of this HQ about 10 Feb, with a request for the necessary information.

2. ALLOCATION OF CEILING

(a) Of the total ceiling of 55,000, it has been agreed that 1665 are authorised for employment on military duty i.e. prevent duty within the Italian Armed Forces (SL/28 of 5 Jan 45 refers).

(b) At Appendix "B" is a list of the units earmarked for this purpose showing HQ and location. This has been agreed with the War Ministry.

(c) It should be noted that there are certain other units which are "mobilized" for employment with the Allied Armies, with the Italian Navy and Air Force and for certain duties with civilians.
The organisation and allocation of these units is NOT the concern of L.M.I.

3. ORDER OF BATTLE

(a) In order to comply with the instructions of AFHQ, you are requested to forward to this HQ on a proforma similar to Appendix "B" a complete list of the units which it is intended the 53,175 (i.e. 55,000 less 1665) should comprise.

(b) The list should

(i) group the various units, e.g. Legion HQ and Coys, in such a way as to show the chain of command.
