2. It will be noted that the terms and conditions governing the grant of permanent Regular Army Commissions to Officers in Group II (i.e. those Officers who were ineligible on grounds of age under AGIs 1696/42 and 2441/42) are explained.

It is the Army Council's intention that only temporary Officers of a very high standard with a war record of proved merit and efficiency shall be chosen, in order that their inclusion in the regular army with seniority comparable to that of pre-war regular Officers of equivalent age may be justified.

4. In their instructions to Regular Commission Boards, the Army Council laid down certain principles for their guidance.

The principles are:-

- (a) The school or family from which a candidate comes is of no importance, but, at the same time, family connections with IM Forces over long periods whether in commissioned or on-commissioned ranks should be given weight as tending to show that the candidate "has soldiering in his blood".

1. Reference GPO 1217/45, and accompanying booklet containing advance copy of an A.O.I., to be published shortly, in respect of Regular Army Commissions (other than of the Quartermaster class).

2. It will be noted that the terms and conditions governing the grant of permanent Regular Army Commissions to Officers in Group II (i.e. those Officers who were ineligible on grounds of age under A.O.Is 169/42 and 244/42) are explained.

It is the Army Council's intention that only temporary Officers of a very high standard with a very record of proved merit and efficiency shall be chosen, in order that their inclusion in the regular army with seniority comparable to that of pre-war regular Officers of equivalent age may be justified.

4. In their instructions to Regular Commission Boards, the Army Council laid down certain principles for their guidance.

The principles are:-

(a) The school or family from which a candidate comes is of no importance, but, at the same time, family connections with HM Forces over long periods whether in commissioned or on-commissioned ranks should be given weight as tending to show that the candidate "has soldiering in his blood".

(b) Lack of private income will not be treated as an adverse factor. It is already abundantly clear that the general economic conditions of the future will be such as to make it well-nigh impossible for any Officers' mess to set a standard of living beyond the reach of an Officer's private means.

(c) Breadth of outlook and wide (and preferably unutilitary) interests in addition to devotion to the Service are of great importance.

(d) Candidates are required for all branches of the Service, each of which has its own special needs. The ideal to be aimed at is that every accepted candidate should have:-

(i) a good general background of adequate education or experience, and the wide interests which will keep him in touch with his fellow citizens;

(ii) powers of leadership adequate for the command or control of men in any situation in which his Corps may be involved, and

(iii) the professional or technical qualifications needed for success in the Corps.
