On 11 July 45 Unit Commander visited C.O. Ospedale Miracoli asking that all personnel to be sent on convalescent leave should be returned to the camp for examination before proceeding on leave. This was agreed to by C.O. Ospedale dei Miracoli, and in spite of this agreement (1), (L) 5938 and (O) were sent on leave the very next day.

A British corporal from this unit has been sent with signals and letters to the C.O. of the hospital four times but Ten. Col. SQUILLACIOTTI was absent on each occasion.

12 July 45	at 1500 hours
13 July 45	" 0830 - 1030 hours
14 July 45	" 1030 - 1115 hours
15 July 45	" 0900 - 1150 hours

The unit M.O.'s explanation for excessive hospitalisation is at Appendix 'O' but does not coincide with the treatment the men received. The M.O. said that all cases required medical treatment, yet the majority were sent on leave after only a day or so in hospital. It would appear from the general conduct of the Ospedale dei Miracoli that the efficiency and good faith of the Commandant and his staff leave much to be desired.

After extensive search this unit has been unable to locate four men who were sent to the Ospedale dei Miracoli from whence they were sent to other hospitals."

- 2 -

The following extract of a report has been received from O.G.
15 Base APO.

" By the 4 July 45, 28 of our total strength of 79 BR-ITIs were admitted to military hospitals "Albergo Poveri" and "Belle Arti" (Naples). Many of these cases were minor complaints and would never have merited admission to a British hospital. Nevertheless they were allowed to languish in the hospital for 7 - 8 days. Eventually, through our own efforts, most of them were taken back on to the working strength of the unit.

Since 4 July 45 arrangements have been made through the Commanding Officer 513 Italian Administration Group for an Italian unit medical officer to inspect these BR-ITIs of this unit wishing to report sick. This has minimised the number of admissions to hospital. Of the original 28 men admitted to hospital, 4 of them have been given long periods of sick leave, ref. App. 'D'.

Yet another was recommended for 60 days leave and no doubt would have proceeded had he not been detained by the unit. The men themselves report on their return that they receive practically no treatment and after 2 - 3 days they are given this option of leave".

Copy of an instruction issued by Il Col. Med. Direttore di Sanita (Guido Ferri) is attached Appendix 'E'.

These serious complaints require immediate and thorough investigation. Disciplinary action should be taken where necessary and a detailed report furnished to this H.Q. as soon as possible.

1. CARBONI Maglio 29.

Diagnosed as Chronic suppurative otitis media. Even discharge for 6/52 started by a cold. Previously got ear ache. Has been treated with spirit by an ear specialist at St Maria Hospital. Reduced hearing in left ear.

On examination old perforated rt ear drum, no discharge.

Chronic suppurative otitis media of left ear. This should respond favourably to correct treatment. In my opinion, 60 days convalescence would tend to increase liability to a permanent otitis media without further treatment which I understand he would only get at his own expense while on leave.

2. ROSSI Actaerese 30.

Diag. Chronic gastritis and oliguria. In hospital 3 days. History of malaria. Had gastric trouble for a year and urine trouble for one month. Pain in epigastric region about 1 hour after feeding. Occasionally vomited. Not relieved by taking further food.

Does not urinate more than 2/3 times a day. Passes plenty of urine when he does.

Urine examination. Normal appearance. No albumen. Gets pain in R.I.F. started after returning from leave.

Examination T 99.2. Abdomen. No abnormality or palpitation. No rigidity.

I would suggest a thorough abdominal investigation is required, if not previously done, which would mean more than 3 days attendance at hospital. He has a temperature of 99.2 which should be against undertaking a long train journey for convalescence.

NT
Your letter Div. III Gen. II. 452 M.L. of 9 March 45 laid down rules for strict compliance as regards the granting of periods of "sick" leave.

Several cases have come to light of flagrant disobedience of this directive (especially in the Naples Territorial Command.) In some cases as much as 60 days convalescent leave having been illegally granted for the most trivial complaints.

This has naturally had the effect of increasing the number of men reporting sick threefold.

You will please:-

1. Send out a new directive on the subject.
2. Carry out a complete investigation in the Naples Territorial Command, take disciplinary action where necessary and send a report to this H.Q. as to action taken.

1. The incidence of excessive hospitalization has ceased, at any rate temporarily, following measures taken in the above quoted letter.
 2. After a personal visit by D.C. Unit and sending two letters and two signals a reply has been received from the C.O., Ten. Col. SQUILLACIOTI of the Ospedale Principe Miracoli, to which all personnel of this Unit are sent initially for hospitalization - copy of reply and translation is attached appendices A and B. - it will be seen that personnel have been given convalescence at home for the following ill.

might not aggravate the various ill.

5. On 11 Jul 45, Unit Commander visited C.O. of Ospedale del Miracoli with request, which was agreed by C.O., that all personnel sent on convalescent leave be returned to the Camp first for examination - see letter attached to this Unit's 39 dated 12 Jul 45. In spite of this agreement (I) (U) (H) (M) and (O) were sent on leave the very next day. The writer has reason to suspect that they were sent even a day later as two of them returned to the Unit for their kit on 13 Jul 45.

7. The Unit M.O. of this Unit, S/Ten MAZZARO, has been returned to the
C.O. 407 Regt. Pionieri for disciplinary action in another matter. His
explanation for excessive hospitalisation - attached Appx C - does not
coincide with the treatment the men received. The M.O. stated that all
patients required medical attention, yet the majority were sent on leave
after only a day or so in hospital.

8. It would appear from the general conduct of the Ospedale dei
Miracoli that the efficiency and good faith of the Commandant and his
staff leave much to be desired. The above report is forwarded to you
for what action you consider necessary. Originals of all
correspondence, sick reports etc., are being retained at this Office.

It is respectfully submitted that all those sent on convalescence
without apparent good cause, should be recalled forthwith for further
medical examination by a competent doctor.

9. After extensive search this Unit has been unable to locate four men
who were sent to the Ospedale dei Miracoli, from whence they were
directed to other hospitals. It is felt that this leaves too easy
a loophole for personnel wishing to take "French leave". Further
details of this can be forwarded if required.

RELAZIONE

Come da ordine ricevuto.-

Si rende noto a Codesto Comando quanto segue:

Per l'avvenuto cambiamento d'autorita' Militare del nostro Reparto, s'e' creata pertanto la possibilita', da parte degli Ospedali Militari Italiani, di prendere a carico degli ammalati, dei provvedimenti Medico-Legali, provvedimenti, che l'autorita' Medica Inglese, per ovvie circostanze, non era in grado di svolgere.

Quest'Infermeria inviera' all'Ospedale Militare, tutti coloro passibili di provvedimenti Medico-Legali.

Per quanto concerne la lista degli Ospedalizzati ed i rispettivi dati, vedi rapportino ammalati giornaliero.

Se Codesto Comando abbisogna di elenco a parte dei casi sopra menzionati, quest'Infermeria attendera' ordini in proposito.-

EXPLANATION

Appendix "C"

In accordance with orders received I notify to your command the following.

After the change of status of our unit it was possible ⁱⁿ Italian Military Hospitals to make new provisions for men going into hospital. Such provisions were not possible before the change of status, as at that time men were admitted to British Military Hospitals.

This unit M I Room sent to hospital all men who required medical attention.

For particulars of all men in hospital reference is made to the daily Sick Report.

If your command requires more particulars and complete lists of the above mentioned cases, this M I Room await your further orders.

Ref the att copies of correspondence received during the last two days from ex-cooperator units under second 3 DISTRICT (Appendices 'A' to 'F').

1. The reports are self explanatory and it is evident that the Italian CAC of the MIRACOLI, ALBERTO DEI ROVERI and RAJANI Hoops in NAPLES are engaged on a 'racket' with the purpose of releasing a s many ex-cooperators as possible.

2. No complaints were ever received on this account from original BR-ITI Units before the conversion of recuperators to BR-ITI Category.

3. It is, of course, realised that OC Brit Cadre 761 (It) ST Coy RASC was not acting within his rights in requesting OC MIRAGOLI Hosp to carry out the instns contained in his letter (Appx 'B') but nevertheless the action has been supported in this instance by this office in view of the serious effects upon the efficiency of the unit should this indiscriminate granting of unnecessary convalescent leave be allowed to continue.

During the last two days from ex-cooperator units under command 3 DISTRICT (Appendices 'A' to 'F').

1. The reports are self explanatory and it is evident that the Italian OAC of the MINACOLI, ALBERTO DEI ROVERI and PAGANI Hosps in MARLES are engaged on a 'racket' with the purpose of releasing a s many ex-cooperators as possible.

2. No complaints were ever received on this account from original BR-III Units before the conversion of cooperator to BR-III Category.

3. It is, of course, realised that CC Brit Oadra 751 (It) GT Coy RASC was not acting within his rights in requesting CC MINACOLI Hosp to carry out the insurs contained in his letter (Appx '3') but nevertheless the action has been supported in this instance by this office in view of the serious effects upon the efficiency of the unit should this indiscriminate granting of unnecessary convalescent leave be allowed to continue.

5911

4. Verbal report has been received by this office from a Brit rep from 416 and 411 (ex-coop) Ven Rhs RASC, that the same 'racket' is being worked with these units. Out of each unit 12 to 15 men now report sick daily as against 5 or 6 who used to report before the conversion of the unit to BR-III status. Of these 80 per cent - 90 per cent are sent direct to the MINACOLI Hosp whence an appreciable proportion are given 60 day's convalescent leave for the most trifling complaints.

5. Major THURUP will visit Col PERRI (DMS Comando Militare Territoriale NAPOLI) to day and instruct him to put an immediate stop to this practice. It is suggested for consideration, however, that supplementary action by you at a higher level would be of great assistance with a view, also, to preventing this practice from spreading to other areas.

1. In the a/q conversation it was reported that BR-ITI' being admitted to the hospital ALBERGO DI POVERI, Naples were being given long periods of sick leave after only two or three days in hospital.
2. Attached is an original leave pass in respect of Sold NAPOLI, of this unit, directing that he reports back to his unit to proceed on 60 days leave at his home.
3. Napoli contracted malaria about a year ago in N.Africa and it was a further attack that caused him to report sick on 4 July 45. He was discharged 11 July 45.
4. It is thought that this kind of leave is irregular and unnecessary. Your advise is sought please.

May authority be given for your M.O. to visit this Unit once weekly, when necessary, at time convenient to him for the purpose of making solely an examination of the convalescent.
2. This matter has already been discussed with Lt. Cole who knows all the circumstances of the situation.
3. It is hereby reported that until 30 June when British Medical Service were responsible for the Italian personnel of this Unit there were never more than 5 or 6 in hospital at a time, a considerable majority of whom had V.D.
From 5th July to date 18 have been sent to hospital (exclusive of V.D.). As far as can be found out all of these are suffering from ailments which they have had for a considerable time. As far as could be found out they have been put in the observation ward of the hospital (Ospedale dei Miracoli).
Unfortunately, the Commandant of the hospital, Ten. Colonnello Squillacicli, was unable to find any of them -- after 14 hrs search -- when the writer visited the hospital in company with your M.O. yesterday afternoon. (One Unit patient was, however, encountered accidentally in a courtyard).
4. The reason for this excessive hospitalization is that the Italian Medical Authorities are giving home convalescence for all types of complaints. If this continues, this Unit will soon be unable to function. It is hoped that the attached letter will have the desired effect and that this necessary action will have your approval.
5. It is requested that this matter be taken up on **5908** level with all Italian Military Hospitals concerned before it is too late. Otherwise it will doubtless affect other units as well as this one.
6. The M.O. of this Unit is today being sent, under close escort, to the Italian Colonel of the Regiment for disapproval.

Ref this Branch letter of even number dated
14 Feb 45.

1. The DAFM of 94 Sub Area, together with the DADL
2904 CLU and Lieut DEVIO (Italian Liaison) visited the
Italian Military Hospital PAGANI on the 22 Feb 45.

2. Nothing conclusive resulted from the visit, but
it has been arranged that the next case of concrete allegation
by an Italian soldier will be reported to the DAFM who will
have the SIB investigate it.

1. Unofficial reports have been made to OSG Br Cadres and to this Office regarding a matter which MMIA or other authority may wish to investigate.
 2. It appears that Italian Army personnel (Officers and ORs) are being required to pay for medicines when in hospital. So far as can be gathered, payment is exacted by the hospital orderlies, who do not administer or deliver the medicine if the patient does not make it worth their while.
 3. Such reports are very difficult to substantiate. Both Italian officers and ORs have talked when off their guard but the moment they sense they are being deliberately questioned they desist. One man has offered to make a statement in writing but as he is a mental syphilitic his evidence would not be worth very much.
 4. It has been stated that Italian hospital drugs have been purchased on the black market. It is not known however how they have been recognised as such.
 5. One OR suffering from malaria, on being questioned how he was getting on, stated he had been lucky as he had had sufficient cash to "obtain" a bottle of drugs to bring away from hospital with him. The majority of ORs of course cannot afford to bribe hospital attendants out of their nine lire a day. To be able to do so, they require another source of income, which provides a further incentive to pilfer.
 6. If the situation described above exists, it affects IP Coys in that
5383
(a) sick men are not cured and the sick rate remains high, and
(b) morale is by no means enhanced.
 7. Investigations cannot be carried further locally and it is suggested that it may be useful to continue them at a higher level. The majority of hospital cases from IP Coys here go to the Italian Military Hospital at Paganà.

Ref your Pro 431/5 of 16 Feb 45

1. Investigations have been made and it has been found that in this area there is no witness who can give any useful evidence on which to commence enquiries.

2. In company with the DADL 94 Sub Area and a representative from the Italian Liaison Section a visit was made to the Military Hospital PAGANI and the following facts were obtained:-

The capacity of the hospital is 600 but at present only approx 200 beds are occupied and of these only some 40 are occupied by personnel from the Italian Pioneer Coys in this area; the hospital is a general one with a large number of convalescent cases all special treatment, ENT, VD etc being treated in NAPLES or CASERTA. The majority of the patients admitted from I.P.Coys in this area suffer from malaria the personnel being mostly Sicilians or Calabrians who are especially prone to recurrent malaria, and PONTECAGNANO where these companies operate, being a highly malarious area. The staff employed includes 7 doctors and is entirely military except the nurses who are nuns, and a few girls employed in cleaning. Except for salts of calcium there is no shortage and never has been any shortage of drugs and quinine for malaria cases has always been plentiful. Soldiers receive full pay and normal Army rations while in hospital unless admitted with injuries received other than in the course of their duties when ORs receive only half-pay and officers and NCOs pay hospital fees. It is not possible for a soldier to pay for special treatment.

3. The DADL spoke privately with one of the patients well known to him and this soldier had no complaints and was most emphatic that he was receiving all the treatment necessary, including quinine, to cure his malaria; this soldier knew many of the other Pioneers in the hospital and stated that they had no complaints.

4. In the circumstances it does not seem that any further investigations can be carried out at this stage. In conjunction with the Os C Br Cadres, DADL has promised to pass the first reliable witness to the SIS so that a full enquiry can then be made.
