The POL issues referred to were in effect regular even though the work ticket was not correctly stamped.

Col. ROSSI-PASSAVANTI is Welfare officer at HQ 228 Div and was at the time engaged on a tour of inspection of Italian War Cemeteries. His vehicle was a Fiat 626 which would account for the high petrol consumption.

Dear, Hand

Many thanks for your letter. The gentleman in question must be old Colonello ROSSI-PASSAVANTI (Medaglia d'Oro and bar, med. d'Argento and two bars, many bronzes and six wound stripes) who is TOMASELLI'S Welfare man. He was apparently pottering around that area last month, quite legitimately, I believe, in connection with the Italian Military Cemetery, in a Fiat 626 (which would account for the high consumption).

I am in the midst of issuing a sort of "circolare" to 228 Div on the use of veh passes and the necessity of having "ENTITLED TO DRAW P.O.L. ETC." stamped on them when going out of Army Area. There has been a bit of delay I am afraid.

Since you base-wallahs seem to live in ignorance of what goes on in the fighting zone, I had better tell you that I.F.A. HQ was the old term for 228 Div (Italian Force Adm H.Q.).

Yours

Dear V

There is little information to be gathered from the attached correspondence except for the words "HQ 223 Div." For this reason I'm passing the correspondence to you for the necessary investigation, and if you could send me a report on the results I should be most grateful.

IEA HQ sounds an interesting body - speculation here is rife as to what its functions might be. I personnally think it is the result of a Cockney clerk trying to say AFHQ over the telephone.

And what could "Colonel Bain Parasitante" be but the OC of a mobile Bath Unit?

Yours,

H

1. During the recent disturbances in Sicily numerous requests were received from AG by 204 Sub Area for tpt to assist in emergency movement of Italian tps.
2. After investigation it was found that Italian Army tpt was not available due to shortage of petrol.
3. It will be appreciated if you will investigate this matter and take such steps as may be necessary to ensure that CIP are in a position to meet the Italian Army requirements of P.O.L.
4. Your comments on the case in point are requested.

1. In regard to the attached copy letter the following points are brought to your notice:-

- (a) The driver was in possession of a work ticket but it was not correctly stamped with the words "Entitled to draw from Allied Stocks".
- (b) The authority produced was in the form of a letter signed by a liaison officer of IRA HQ.

2. As this matter requires investigation it is understood that you will communicate with the Division concerned in order to confirm the authenticity of this authority and to regularise the procedure in future cases.

3. Please advise this Branch of the results of your investigations in order that the vouchers may be cleared from our files.

Herewith summary of issues made by this Depot under category 'b' of Appendix 'B' to AFHQ POL Instruction No 7, during the month of January 45.

Commando 228 Division 1560 132 gallons

Authority British L/Officer IFA HQ

This issue was made under para 5 of 5 District letter 1532/ST2 dated 9 November 44. The lorry was carrying a "Colonel Balu Passitante", whose duty included visiting several units in the neighbourhood of SPALANISE before continuing his journey. The driver was in possession of a letter signed by a Liaison Officer, requesting that any petrol necessary for their journey be issued. He was also carrying a form of trip ticket in both Italian and English but it was not stamped "Entitled to draw from allied Stocks". He was carrying three barrels because the vehicle had a very high rate of consumption.

1. Effective inclusive the POL bid to be submitted to this HQ by 16 October 1944, for consumption during period November 1944, a revised form for submission of bids will be taken into use.

A specimen copy of the new form is attached.

2. The following points are called to your attention:-

- (a) The number of vehicles in operation will be those that are road-worthy at the time the bid is compiled.
- (b) The scales of allotment have been found by experience to be a reasonable minimum, but you will understand strict conservation is essential.
- (c).i. The actual bid, that is "Required per vehicle state", in Part 2 of the form is calculated on the numbers of vehicles times the appropriate scales of allotment shown in Part I of the form.  
ii. Stock balances are offset against these requirements, thus leaving a net requirement, representing the final bid.  
iii. Stock balances will include stocks actually on hand from previous allocations, plus all stocks of Italian POL belonging to the War Ministry.  
iv. Any portions of previous Allied allocations which have NOT been withdrawn from C.I.P. installations will NOT be included in stock balances, as all such uncollected portions automatically lapse at the end of a period.  
v. It is essential you arrange for stock figures to reach you in time to complete the form by the due date, as no allocations will be made if stock figures are not included in the form.  
From this it follows that NIL stocks must be shown, otherwise confusion may arise.
- (d) The bid for CC.RR use will be based ONLY on the "Normal Use" scale of allotment.
