TRANSLATION

From : M of War

Ref : 21437/DM

017182

To : MMIA

Dtd : 3 Oct 45

1.- After the assignment of Oxygen for the month of July, made in MMIA's letter No. EME/1511 dtd 3 July 45, the Repair Units under command have received no further assignment. *see 44 + 28*

2.- The Ministry of Industry and Commerce has been approached on the subject, but up to the present, no authorisation for withdrawal has been issued.

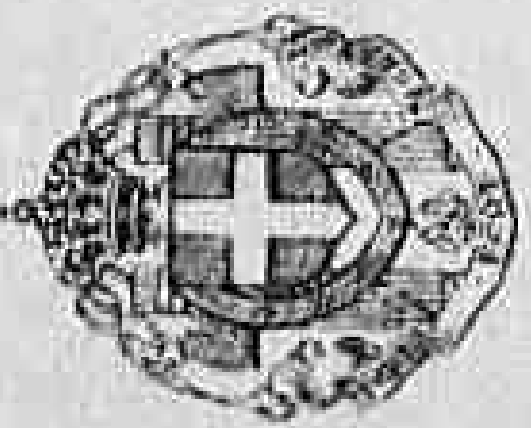

3.- Since, in the above-mentioned letter, MMIA has asked us to inform them of any difficulties which may have arisen over the drawing of oxygen, we beg to point out the above in order that MMIA may kindly order the assignment of a quantity of oxygen, detailed below, absolutely necessary to render the Repair Units in a position to continue their activities.

4.- Oxygen Requirements :

8th Repair Unit	ROME	cu Mtrs	49150

1. At Appendices A & B are detailed the allocations of Oxygen & Acetylene to British Ordnance made at the last AMPS Industrial Gases Sub Committee held 19 June, 1945.
2. It will be noted that Plants in North Italy have not been included and that requirements in those areas have been bid on San Donino, Falcemara, Ancona and Terni. As soon as it is known that the Northern areas are self supporting, 'covering bids' will no longer be placed on plants in the Florence, Ancona and Terni areas. Will all action addressees please advise when such 'covering bids' are no longer required.
3. Release notes for the allocations of Industrial Gases to the U.S. Forces and Royal Navy from British operated plants are being forwarded to plant operators separately.

Reference DCS Circular No. 204.

1. Herewith at Appendices A & B are details of allocations of Oxygen and Acetylene made from plants affecting Ordnance British at the AFHQ Industrial Gases Sub-Committee Meeting held on 14 April.
2. It will be noted that a production of only 200,000 cu ft Oxygen has been declared in respect of ASA CASTELLANARE. At the date of the Meeting the plant was still undergoing tests and its output for May somewhat problematical. It has since been reported that the plant is once again in production, so that the 650,000 cu.ft. allocated to Ord Brit from SAN WAFES will not be required in full.
3. To meet the deficits of Oxygen and Acetylene at ANCONA the following transfers are necessary:-

OXYGEN	190,000 cu.ft. from TERNI to ANCONA.
ACETYLENE	32,000 cu.ft. from ROME to ANCONA.

Will DDOS 1 District and ADOS RAC please arrange.

4. At the AFHQ Engineering Materials Committee Meeting (parent Committee of the AFHQ Industrial Gases Sub-Committee) held on 11 April '45, all Services were requested to issue Official Release Notes for the allocation of production from plants under their control. Accordingly, the necessary Release Notes are being forwarded under separate cover to all concerned.
5. It was ruled also that AC should be allowed to obtain any required portion of theatre surplus production of Oxygen and Acetylene, as declared monthly by the AFHQ Industrial Gases Sub-Committee. Accordingly, the latter Committee declared surplus production of Oxygen only for May (see Column II of Appendix 'A') and that this would be subject to unforeseen Services needs in excess of stated requirements. AC are advising AFHQ, P of the 'sub-allocations' made by them to their local representatives and Release Notes will be forwarded to all concerned.

487

1. Herewith at Appendices A & B are details of allocations of Oxygen and Acetylene made from plants affecting Ordnance British at the AFPS Industrial Gases Sub-Committee Meeting held on 14 April.
2. It will be noted that a production of only 200,000 cu ft Oxygen has been declared in respect of ASA CASTELLUMWARE. At the date of the Meeting the plant was still undergoing tests and its output for say somewhat problematical. It has since been reported that the plant is once again in production, so that the 650,000 cu.ft. allocated to Ord Brit from SCW HAPLUS will not be required in full.

3. To meet the deficits of Oxygen and Acetylene at AFPSMA the following transfers are necessary:-

OXYGEN	190,000 cu.ft. from TERNI to AFPSMA.
ACETYLENE	30,000 cu.ft. from IOM to AFPSMA.

Will EDOS 1 District and ADOS REAC please arrange.

4. At the AFPS Engineering Materials Committee Meeting (parent Committee of the AFPS Industrial Gases Sub-Committee) held on 11 April 45, all Services were requested to issue Official Release Notes for the allocation of production from plants under their control. Accordingly, the necessary Release Notes are being forwarded under separate cover to all concerned.

5. It was ruled also that AC should be allowed to obtain any required portion of theatre surplus production of Oxygen and Acetylene, as declared monthly by the AFPS Industrial Gases Sub-Committee. Accordingly, the latter Committee declared surplus production of Oxygen only for May (see Column 11 of Appendix 'A') and that this would be subject to unforeseen Services needs in excess of stated requirements. AC are advising ADOS, P of the 'sub-allocations' made by them to their local representatives and Release Notes will be forwarded to all concerned.

4873

6. Included in the bin for Ordnance British are the requirements of Land Forces Sub-Commission (LAFIA), details are shown in attached copy of the ST/1511 of 16 April. Similarly, include are the RAF requirements which are normally satisfied and met from Ordnance installations, details are given in Appendix 'C'.
7. Any observations on these allocations should be made by return, in order that present declared surpluses may be corrected before Release Notes are passed to AC for the full quantity.

W. B. Newman
Major,
for Lt. Colonel,
A.D.C. S. P.

LA LAND FORCES SUB
COMMISSION (M.M.I.A.)
= R O M A =

Oggetto: Richiesta materiale del C.I.L.

La Sezione Lavorazioni esterne del 8° Centro Riparazioni e Ricuperi ha chiesto a questo Ministero le seguenti parti di ricambio per Spa L 39:

- n° 4 pistoni completi di anelli
- " 4 spinotti per detti
- " 4 candele per accensione
- " 1 guarnitura testa cilindri

Poichè detto materiale deve essere prelevato da quello proveniente dal disciolto C.I.L., pregasi codesta Sottocommissione volerne autorizzare il movimento.

LAND FORCES SUB COM-
MISSION A.C. (MMIA)
Roma

Divisione 3^a 4^a
Det. V. 2^a 3^a 4^a

Risposta al f. del
Dir. 1^a

Oggetto = corrente elettrica per riparazione
automezzi del R.E. =

La Ditta I.A.S.A. con officina in via
Casal Bruciato n.35 - Roma - è impegnata in
lavori di riparazione di numerosi automezzi
appartenenti all'Esercito Italiano.-

Poiché la ditta stessa dispone di ener-
gia elettrica quasi esclusivamente, ed in limi-
tata quantità, nelle ore notturne, il che vie-
ne ad incidere fortemente nella sua capacità
produttiva, si prega codesta MMIA di volersi
cortesemente interessare, perché l'erogazio-
ne della corrente venga concessa nelle ore
diurne in considerazione soprattutto dell'ur-
genza delle riparazioni degli autoveicoli af-
fidatele (autoambulanze).-

A tale scopo si fa presente che:

- alla ditta occorrono 1750 KWO mensili;
- l'erogazione dovrebbe essere effettuata
dalle 7,30 alle ore 16 di ogni giorno;

Ad G. T. MMIA.

From: Ministry of War

Ref: 26402

To : M. M. I. A.

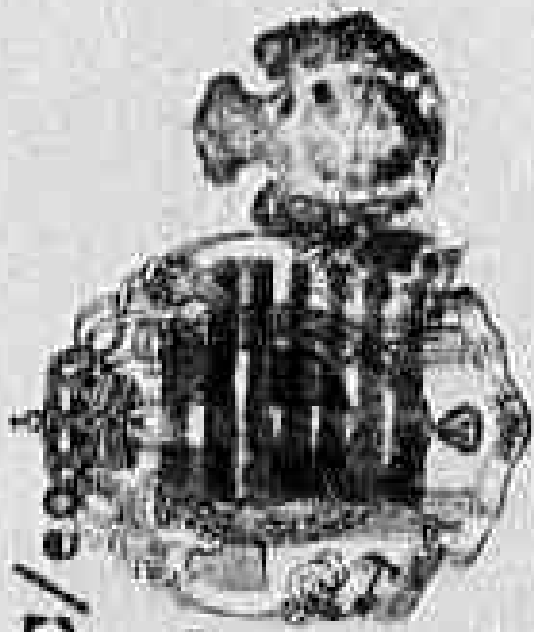

Date: 29 Dec 1944.

Subject: Request for Acetylene.

1. Ref to letter AQ/54 dated 19 Dec 44, this Ministry points out that all the requests for assignment of Acetylene and Oxygen, materials which are under the control of the Allies, made to the competent units according to the directions issued by MMIA, have not yet been complied with.
2. On the other hand the continual requests for these gasses cannot be satisfied by any other means, either due to non availability in distribution depots, or to lack of refurnishment from the production plants.
3. Therefore since the end of August 1944 with letter 15020/2 and also in further letters, we have pointed out the necessity of allotting a reasonable quantity of said material to face the increasing demands for repairs of vehicles, and since no assignments have been made, we renew our request to MMIA to contact the competent units of the Allied forces to obtain the assignment of the minimum of Acetylene and Oxygen bottles needed to meet the most pressing requirements of the moment.
