Ref. letter No. EME/1529 of August 14, 1945

Date: Sept. 15, 1945

Subject: Stock of tires.

1. In pursuance of letter No. 17737 of August 24, 1945 we are informed by the 2nd Repair Unit of Naples that even though a certain number of tires were used during July, the respective movements do not appear in the return - form A - for said month, because the supporting documents to be attached to the weekly changes were missing.
2. The receipt entry for the tires, ordered with letter form "D" EME 1529/16 of June 30, 1945 has been reported by means of the weekly change form August 16th to 12th. (?)
3. The dispatched entry for 15 tires and 15 tubes size 3.25 x 19 and 5 tires size 350 x 19 was not reported because the signature of the Allied MMIA Officer was missing on forms "C".

As soon as this signature was affixed, the movement of form "B" for the week from August 16th was reported.

(2)
In this connection the 2nd Repair Unit points out that on several occasions, although the order for the replacement of tires was received from MMIA, it does not immediately obtain the Allied Liaison Officer's signature on form "C", and therefore does not report the movement.

5.

The 2nd Repair Unit has been requested by this Ministry to ask that "C" forms be signed by the MMIALO upon receipt of the order to issue tires to motor vehicles.

Further to our remarks, 3 Repairs Unit of Bari ~~xx~~ states that the diffiencex found in 32 x 6 tyres and 525 x 17 inner tubes on the return dated the 29 JULY 45 is due to a typing error.

Therefore, we confirm that the existing numbers are 32 x6 new tyres 49, and that of the repairable inner tubes ~~XXXXXXXXXX~~ 525 x 17 was 8.

A seguito nostro rilievo, il 3° Reparto
Riparaz. di Bari precisa che la differenza
riscontrata nelle coperture 32 x 6 e nelle
camere d'aria 525 x 17 sulla situazione del
29 luglio u.s. è dovuta ad un errore di scrit-

Pertanto, conferma che l'esistenza effettiva
delle coperture nuove 32 x 6 di 49 unità,
e quella delle camere d'aria riparabili 525
per 17 era di 8 unità.-

With the aim of decreasing the ponderous work of compiling, monthly, the returns (form 5) showing the general situations of the unserviceable vehicle parks, we would suggest it, advisable that the returns were compiled three-monthly rather than monthly: the weekly return (form 5) showing the increases and decreases in strengths would remain in force.

We beg MIA to inform us ^{whether this} ~~whether it~~ ^{any} ~~has any~~ ^{no} objections to the above.

Subject : Tyre Stocks.

EME/1529 (58)

1.- The 2nd Repair Unit has been asked - in a letter, copy of which attached - to render explanation for the absence of changes in stocks, which should be shown in the returns.

2.- Because of observations made in para. 3 of letter No. EME/1529 dtd 30 June 45, the 2nd Repair Unit, Naples has recommended the sending of forms "B".

Forms "B" for the month of July have been duly

3.- received and forwarded to MIA. The transfer of tyres has also been requested, in spite of the small stocks, in order to render the 2nd Repair Unit capable of meeting any necessity which might arise from the particular situation of transport services in the Naples area.

These eventual needs have been recognised also by MIA (para 3 letter No EME/1529 dtd 30 June 45).

The delay in the drawing of the tyres has been due to the order issued by this Ministry to employ for drawing them a vehicle which had come to Rome for other reasons.

- 1 - E' stato invitato - col foglio che si allega in copia - a dare spiegazioni per le mancate variazioni nelle situazioni.
 - 2 - In base al rilievo fatto al paragr. 3 della lettera EME/1529 del 30/6/45 il 2° Reparto Riparazioni di Napoli ha ripreso la regolare trasmissione dei mod. "B".
I mod. "B" del mese di luglio sono regolarmente pervenuti e trasmessi a codesto Ufficio.
 - 3 - E' stata inoltrata richiesta di trasferimento gomme malgrado una piccola giacenza, per mettere in grado il 2° Reparto Riparazioni di soddisfare a necessità urgenti che potevano sorgere, data la particolare situazione del servizio trasporti nel territorio di Napoli.
Queste eventuali necessità sono state riconosciute anche da codesto Ufficio (paragr. 3 del foglio EME/1529 del 30/6/1945).
Il ritardo nel prelevamento delle gomme é dovuto, all'ordine impartito da questo Ministero, di impiegare per il prelevamento un automezzo che si fosse recato a Roma per altri motivi.
 - 4 - Date le difficoltà di trasporto, propongo che una piccola scorta di gomme per autocarri medi sia lasciata al 2° Rep. Rip. per i motivi di cui al paragr. 3.-

Subject : Tyre Return.

From examination of the tyre returns dated 30 June and 31 July 1945, the following observations are made:

- 1) The two returns are identical;
- 2) The transfer ordered on the 7th July in letter No 14076 (ref. form "D" EME/1529/16 dtd. 30 June 45) and which was effected on the 27 July 45, is not shown;

3) There is not shown the movement, effected on the 2 July 45 of :

15 covers, outer and 15 tubes, inner size 3.25 x 19 and 5 Covers, outer, size 3.50 x 19 and which, instead appear in a return given by hand to Major Baker of MMIA, Rome.

5. The new policy in this letter and your letter 17367/012711 dated 20 August 45 of asking to earmark repairable tyres for transfer after repair is not in our opinion one which should be continued. For one reason it is bound to lead to over allotting of stocks and, for another, a tyre should not be reckoned as stock for transfer, until it is useable when the latest stock position can be reviewed.

1. Reference letter EME/1529 dated 30th June 45..  
According to the stock state of tyres and tubes as at 30 July for No2 Repairs Unit, no tyres and tubes have been used.
2. Please inform us whether you have had a reply from Director of Repairs RAPIDS regarding para 3 of our letter.
3. We wish to know why a demand should have been placed for further tyres when those already in stock have not even yet been used. We also wish to know why there should have been such a delay in collection.
4. As you will know, small lorry and motor cycle sizes of tyres and tubes are in very short supply and holding of these sizes in any quantity without real need cannot be permitted.
5. If a satisfactory explanation is not received, the tyres and tubes of sizes in short supply should be returned to ROME.
6. Please treat as urgent.

1. Reference your MT/1 dated 19 July 45 forwarding copies of indents for tyres.

2. We have recently made two allotments of tyres from the Central Stores ROME (see our BME/1529/1 and BME/1529/13). One of these has already been received and many of the tyres used. There are however, according to returns rendered by Palermo Territorial Headquarters, still many tyres in stock of sizes, or alternative sizes, which have been asked for in this indent. Please make sure that use is made of all tyres held in stock at present.

3. The position regarding further releases is that our stock of tyres and tubes is much lower and no new supplies have yet been obtained. We can, therefore, only release the few tyres as per the attached.

4. Your demands will be taken into account if our efforts to obtain further tyres are successful.

5. The War Ministry have received in addition to the request forwarded by Territorial HQ, a large request from CC.RR at Palermo and Messina. They have replied in the same strain as this letter.

Further to today's telegram N° 10576/03.-

With ~~these~~ ^{their} small allocation of vehicles, nearly all ex salvaged, this Hq. over and above carrying out the normal services of the corp, and of the dependant units, must also provide for the exigencies involving the services of Public Order on the Island; and also the moving of ammunition depots, and the clearing of mine fields entrusted to the dependant Arty., HQ.

The latter two important activities, absorb almost 2/3 of the vehicles allocated, and imposes on the vehicles a continuous use which is brought about by the long journeys taken in the service of Public Order, on the Sicilian roads, in bad ~~conditions~~ and difficult conditions, and also the special conditions under which above service "B" must be carried out.

In fact the moving of ammunition depots, at present numerous on the Island, necessitates the use of vehicles off the road, on cross country, or country covered with sharp stones, that ~~helps~~ wears out tyres; also the carrying of heavy shells is an exceptional service in itself.

Apart from the mechanical conditions of the vehicles, and the question of the supply of spare parts, the problem of keeping in running order the vehicles used in the above services, is rendered impossible by the continual puncturing of tyres, which by now are unservicable due to excessive rep. ing.

It is added also that due ^{to} the warm summer, the maximum tear and wear of the tyres is caused.

Regarding the service of the moving of ammunition depots, and the danger of keeping the ammunition in the open air, its being subject to mishandling, and stealing, this work should not be carried out slowly, and in the interest of the population of the Island, should be carried out as quickly as possible.

In view of the above points, I am forced to send this request to the Ministry, for the assignment of the U/M quantities of tyres absolutely indispensable for the continued use of the vehicle mentioned above, and partly for those allotted.

I would also like to point out that the above request has been kept within the limits indispensable, and that the authorisation to purchase tyres from the market, issued by the ministry with letter 9850 dated 14/5/45, ~~xxxxxxxx~~ had a negative result, as it was impossible to purchase on the market, even at real black market price, the 1/m type of tyres.

COMANDO MILITARE TERRITORIALE DI PALERMO
Ufficio Servizi

M.10588/03 di prot.

P.N.72, li 9 luglio 1945

AL MINISTERO DELLA GUERRA-Direz.Gen.Art.
e Motorizzaz.Div.Motorizzazione.

POSTA MILITARE 3800

OCCORRENZA : Richiesta di gomme.-

Seguito teletestato odierno n.10576/03.-

Con gli scarsi automezzi di dotazione,quasi tutti provenienti dai recuperi, questo comando oltre a provvedere ai normali servizi dei corpi e degli enti dipendenti deve,per di più,fronteggiare:
a) le esigenze derivanti dai servizi di O.P. nell'Isola;
b) lo sgombero dei depositi munizioni e la bonifica dei campi minati affidati al dipendente comando artiglieria.-

Tali due importantissime attività assorbono quasi i 2/3 degli automezzi di dotazione ed impongono al materiale un'usura continua che deriva dai lunghi percorsi che gli automezzi in servizio di O.P. debbono coprire sulle strade della Sicilia in condizioni di fondo oltremodo difficili e dalle particolari condizioni in cui si svolge il servizio di cui a b).-

Infatti lo sgombero dei depositi munizioni tuttora sparsi numerosi sul territorio dell'Isola,costringe all'impiego di automezzi anche fuori strada, su terreno naturale o su percorsi lrti di pietre aguzze o spuntoni,che imprimono a tutto il materiale,anche a causa dei grossi proietti trasportati,un'usura veramente eccezionale.

A parte il logorio degli organi meccanici e la questione del rifornimento dei pezzi di ricambio,il problema di mantenere in efficienza gli automezzi così impiegati,si dimostra veramente insolubile per la falcidia continua delle gommature ormai fuori uso dopo i tanti rappazzi applicativi.-

Si aggiunga a tutto ciò la stagione calda che impone al materiale, quasi sempre rigenerato,maggiore tormento.-

Di riflesso il servizio di sgombero dei depositi munizioni,con i pericoli insiti nell'esistenza tuttora di rilevanti quantitativi di esplosivi all'aria aperta e soggetti a manomissioni e furti,non può subire rallentamenti e dev'esser portato a compimento al più presto possibile nell'interesse della popolazione tutta dell'Isola.-

Per tale considerazione mi vedo costretto ad inoltrare a cotesto Ministero la richiesta di assegnazione dei sottoelocati quantitativi di gomme assolutamente indispensabili per consentire la continuità di impiego degli automezzi ora accennati e di parte di quelli di dotazione:

- 3.50 x 19.....	n° 135	coperture e camere d'aria
- 5.00 x 15.....	40	" " "
- 5.00 x 18.....	23	" " "

- 30 x 20.....n° 42 coperture e 100 camere d'aria
- 32 x 6....." 42 " " 100 " "

Rappresento che la richiesta di gomme è stata contenuta nei limiti di indispensabilità e che l'autorizzazione all'acquisto dal commercio data da cotesto Ministero col dispaccio 9850 del 14 maggio u.s. non ha avuto ~~nessun pratico risultato, data l'impossibilità di trovare al libero commercio,~~ nessun pratico risultato, data l'impossibilità di trovare al libero commercio, neanche a prezzi di vero mercato nero, i tipi di gomme più sopra menzionati.-

1. Reference your 13378 dated 28 June 45.
2. We authorise the transfer of tyres and tubes only as per attached appendix 'D'. We have not authorised all the request because stocks of those sizes are still shown as held at Rtd Repairs Unit and no notice of any issues has been received. The same remarks apply to the 24 tyres and tubes size 270 x 20, but the transfer of these has been authorised as it thought they may be urgently required to relieve the present difficult transport situation in the area.
3. Please inform Director of Repair Naples that returns are required to show how present stocks have been used thus necessitating this further demand. The last Mod 'B' received was as at June 9.
4. Transfer should be arranged immediately.

Mr. T. E. Motorisation
Ministry of War.

1. Further to our letter 10/1/45 dated 14 June 45 regarding tyres is finally.
2. It is noted from a survey of tyre returns over the last two months that very few tyres are being used by the Repair Units except in the case of 501. Repair Unit Rome. Each have had small stocks to use and any demand has been promptly met if the sizes have been available.
3. It is essential that no vehicles are kept off the road for want of tyres if the required, or an equivalent, size is in stock at the Repair Unit or the Central Stores.
4. Will you please ensure that all units are conversant with the system of release of tyres to vehicles as laid down in our letter 1/5 dated 11 March and also that Repair Units demand to you promptly for sizes required which they do not hold.
5. Any releases made should show on the Weekly Appendix B, whether made to vehicles on unit charge or to vehicles being repaired for the efficient Vehicle Park.
6. The aim must always be to keep the maximum number of vehicles on the road and make most use of stocks which exist.

Subject : Transfer of tires.

Ref. : 9212  
Date : 2 May 45

Ref. R.M.E. 1529 dated April 26, 1945.

In order to store available tires at the Spare Parts Depot, MMIA has authorized the transfer of the tires listed in the appendix to the enclosed form D.

You will order the transfer by rail immediately, sending the request for cars to the Transport Delegation concerned.

The quantities to be transferred are those shown on the return sent on April 16 with Form A.

Said materials are to be considered as unavailable while waiting to be delivered.

You are responsible for said materials up to the moment of delivery in Rome. Therefore, you will order a consignee officer and some men to guard said materials during the transfer.

The Units concerned will take care of the bookkeeping and the registration of said tires, complying with the orders issued with circular 7300 dated April 6, 1945.

Please let us know when the movement has been effected.

Subject : Transfer of tires. *flag*

Reply to letter ST/1522 dated April 3, 1945.

In confirmation of orders issued to the Bari Repair Directorate by phone.

MMIA has authorized the transfer of the tires listed on the enclosed form "D" lists.

The 1st Repair Unit will send two trucks to Bari immediately in order to draw said tires from the 3rd Unit, with priority being given to the types and sizes required very urgently.

The 3rd Repair Unit will order immediately the transfer by rail of all of the other efficient tires (new and used) existing in the warehouse, sending the request for the ~~same~~ *wagons* to the Transport Delegation concerned.

All of the tires (tires and inner tubes) which are to be transferred must be considered as being unavailable.

The 1st Repair Unit assumes responsibility for said materials as soon as they have been handed over by the 3rd Unit. Therefore, the 1st Unit, in agreement with the 3rd Unit, will send an officer to supervise the drawing of said materials, and will see that the materials are guarded during the transfer by truck and by rail.

The Units concerned will take care of the accounts and the registration of said tires, according to the orders issued with circular 730 dated April 6, 1945.

Please inform us when movements have been completed.

LORD STOOD SUB COM A.C. (1945)  
1945  
301. 1. APR 45 PM 10.00To: Rev. Sec. Administration,  
Ministry of War.

1. Reference the attached authorization for transfer of stocks of types and values from No 3 Repaire Unit number 32/132/3 to Central RE Repaire Depot, and number 32/132/4 to No 2 Repaire Unit.
2. No 3 Repaire Unit will ensure the prohibition shown immediately pending their collection and will on no account loan these stocks locally.
3. No 1 and No 2 Repaire Unit will collect these stocks with their own transport as soon as possible making as many journeys as necessary to clear the total number involved.
4. The Repaire Units can decide themselves which items are collected first according to their requirements.
5. Nos 1 and 2 Repaire Unit will be responsible for the safeguarding of these stocks whilst in transit and will provide an officer to supervise the collection and in event to guard the stocks. Please issue all necessary instructions to them to this effect.
6. The Repaire Units involved will accept strictly for these stocks and orders for the necessary accounting and documentation will be issued to them by you.
7. As the stocks are issued by No 3 Repaire Unit, these receipts and issues will be reported in accordance with instructions in our letter 4/3 dated 22 March 45.

Ref : Rome 489061 Ext 322To :- LG. Land Forces Sub Com A.C. (MIA)  
Sardinia (for the attention of the Transport Liaison Officer).

1. Ref attached Transfer Note.
2. Considerable stocks of repairable tyres and tubes are held in Sardinia, for which no repair facilities exist locally.
3. Small quantities are being repaired at present on the mainland and it is hoped that these will increase considerably in the near future.
4. It is requested, therefore, that arrangements be made to ship your stocks of repairable tyres consigned to the Central MT Spare Parts Depot. The following should be given priority of movement :
  - (a) All Motor Cycle Tyres and Tubes 300, 3.25, or 3.50 x 19.
  - (b) All Car Tyres and Tubes especially the following sizes:-  
5.00 x 15 - 5.50 x 15 - 6.00 x 16 - 5.00 x 18 - 5.25 x 18.
5. If possible, those requiring small repairs, as opposed to retreads, should be consigned first.
6. Please advise this HQ details of each shipment (stating numbers of each size).
