Q.207

25 Jan.46.

To : 10 BLU.

Ref your ORD/1 dated the 14th Jan with the attached Bill of Lading for WD Stores (Consigners reference AT/457).

It is understood from the Ministry of War that the ship "East Gate"which,coming from Alexandria, landed at Naples on the 2nd Jan, is at present unloading MT spares of 486 Tons.

It seems extremely likly that these are the ones referred to in the above Bill of Lading(AT/457) and in AT/456. Both are concerned purely with Italian MT Spares, the respective dead-weights being 42 Tons 5 Cwt and 443 Tons 17 Cwt giving a total of 486 Tons 2 Cwt.

The Ministry of War are giving disposal instructions for all these spares to be sent to the MT Stores Depot,Piacenza.

Can you please check wether the Stores being unloaded are in fact the ones referred to in the Bill of Lading, and if so, wether there are any discrepancies in the quantities stated.

In case you did not receive the second Bill of Lading (AT/456) here are the relevant details.

P/A Spares for A.C.

EME/1531

This Association, which, as known, is concerned with the co-ordination and discipline of motor transport services, has, for some time, brought its attention to bear upon the necessity of ensuring to the transport services a supply of spare parts in good condition, also with the intention of reducing the illicit traffic in such goods.

To this end, E.N.A.C has made agreements with the major Italian automobile manufacturing firms (which have pledged themselves to supply spare parts for vehicles devoted to transport services, under the direct control of E.N.A.C.), both regarding consignment and price.

E.N.A.C. has also approached the Allies in order to ensure to the motor transport services a regular supply of spare parts, to be distributed, always under control of the said E.N.A.C.

For the realisation of such a programme, E.N.A.C. intends also to take advantage of the collaboration of the P.N.A. Co. Ltd. (Production of Vehicle Spare Parts) which, without having special need of them for itself has declared itself willing to make its spare parts available, under the direction of E.N.A.C.

The P.N.A. applying to the C.A. (A.C.?) under the auspices of E.N.A.C. has, in turn, at the invitation of the C.A. (A.C.?) contacted the M. of War . (See MMIA letter dtd 8 Aug 45).

Therefore the E.N.A.C. in presenting the above to the M of War,

Therefore the U.N.A.C. in presenting the above to the H of War, relies upon the Ministry's doing everything possible on behalf of the R.R.A., whether regarding containment or vetting-plans, in order to enable the R.R.A. to place its spare parts on the market, and to make them available to the Ministry, as authorised by the Allied H.Q.

OGGETTO: Parti di ricambio per autoveicoli =

Questo Ente, che, come noto, si interessa del coordinamento e della disciplina degli autotrasporti di cose, ha portato da tempo la sua particolare attenzione sulla necessità di assicurare agli autotrasportatori un fifornimento di pezzi di ricambio a buone condizioni, allo scopo anche di porre un freno all'illecito traffico di tali prodotti.

A tale scopo questo Ente ha preso degli accordi con le maggiori fabbriche italiane di automobili, le quali si sono impegnate ad effettuare forniture di pezzi di ricambio per autoveicoli destinati al trasporto di cose, sotto il diretto controllo dell'E.N.A.C., sia agli effetti dell'assegnazione, sia agli effetti del prezzo.

Questo Ente si è anche interessato presso gli Alleati onde assicurare agli autotrasportatori un regolare rifornimento di pezzi di ricambio da distribuirsi, sempre sotto il controllo dell'Ente stesso.

Per la realizzazione di tale programma l'E.N.A.C. intende valersi anche della collaborazione della Società a Garanzia Limitata P.R.A. (Produzione Ricambi Automezzi) la quale, senza un particolare utile per sè stessa, si è dichiarata disposta ad effettuare il collocamento dei pezzi di ricambio secondo le direttive dell'E.N.A.C.

A tal fine questo Ente ha preso degli accordi con le maggiori fabbriche italiane di automobili, le quali si sono impegnate ad effettuare forniture di pezzi di ricambio per autoveicoli destinati al trasporto di cose, sotto il diretto controllo dell'E.N.A.C., sia agli effetti dell'assegnazione, sia agli effetti del prezzo.

Questo Ente si è anche interessato presso gli Alleati onde assicurare agli autotrasportatori un regolare rifornimento di pezzi di ricambio da distribuirsi, sempre sotto il controllo dell'Ente stesso.

Per la realizzazione di tale programma l'E.N.A.C. intende valersi anche della collaborazione della Società a Garanzia Limitata P.R.A. (Produzione Ricambi Automezzi) la quale, senza un particolare utile per sè stessa, si è dichiarata disposta ad effettuare il collocamento dei pezzi di ricambio secondo le direttive dell'E.N.A.C.

Il P.R.A., rivoltosi alla C.A. sotto gli auspici dell'E.N.A.C., si è messo a sua volta a contatto con codesto Ministero dietro preciso invito della C.A., come da lettera M.M.I.A., in data 8 agosto 45.

L'E.N.A.C. pertanto nel far presente quanto precede a codesto Dicastero, conta che per parte del Ministero della Guerra verrà fatto tutto il possibile per favorire, sia come consegna, sia come prezzi di vendita, il P.R.A. onde mettere quest'ultimo in grado di porre sul mercato i pezzi di ricambio di cui codesto Ministero potrà disporre in seguito alla cessione a lui fatta dal Comando Alleato.

Per quanto concerne il prezzo di collocamento di tali pezzi di ricambio, si fa presente che le fabbriche italiane hanno preso l'impegno di cederli al consumatore sulla base di un prezzo particolarmente interessante e che rappresenta, all'incirca, cinque volte quello del listino1939

Se i trasporti non sono regolati da una tariffa tipo i prezzi raggiungeranno un livello sempre maggiore.

Il Committente deve:

Rivolgersi per ogni e qualsiasi trasporto esclusivamente agli uffici ENAC.

Presentare le richieste di trasporto direttamente alle stazioni, per trasporti urgenti e urgentissimi (generi di prima necessità, materiale da costruzione, ecc.) alle Direzioni Provinciali per trasporti normali o differibili.

Documentare le richieste compilate su modulo ENAC, dei relativi permessi (SEPRAL, ASA, ecc.) se necessari.

Versare il deposito cauzionale nella misura stabilita dagli uffici dell'ENAC.

Evitare ogni ritardo nella effettuazione del carico e dello scarico.

Allegare i documenti necessari alle operazioni doganali, daziarie o di polizia.

Essere a conoscenza delle condizioni di trasporto.

Imballare la merce in modo da permettere il carico, il trasporto e lo scarico.

Far caricare esclusivamente la merce di cui è stato autorizzato il trasporto.

Evitare ogni forma di sopraprezzo con premi, gratifiche, indennità, ecc.

Rispettare la tariffa Nazionale.

L'insufficienza di autotrasporti, la mancanza di pezzi di ricambio, la penuria di carburante e di gomme impone un adeguato ed efficace sfruttamento dei mezzi.

Quando la richiesta supera l'offerta è necessaria una nuova disciplina.

Gli Uffici ENAC devono:

Assistere ed agevolare committenti e trasportatori nel disbrigo delle loro pratiche.

Fornire loro cortesemente tutte le notizie che eventualmente chiedessero.

Evitare ogni inutile ritardo ed ogni complicazione burocratica; rendere il lavoro semplice e sbrigativo.

Esaminare le richieste di trasporto ed i relativi documenti sollecitamente e scrupolosamente.

Giustificare sempre con motivi ben chiari la mancata accettazione in modo che non si possa attribuire ad arbitrio il rifiuto.

Compilare i fogli di viaggio in modo indelebile, chiaramente ed esattamente.

Rilasciare i fogli di viaggio nel minimo tempo possibile.

Evitare quanto è più possibile i viaggi a vuoto.

Adeguare il mezzo al trasporto, scegliere il mezzo più rispondente per portata ed efficienza.

Tenere aggiornato lo schedario del movimento degli autotrasporti ed evitare disparità nella distribuzione del lavoro.

Prendere nota degli automezzi che si presentano ogni mattina a chiedere il lavoro.

Fissare le partenze con la precedenza stabilita nei fogli di viaggio.

Rilasciare il buono carburante in base al tipo del veicolo e calcolando le distanze come prescritto.

Ritirare i fogli di viaggio dei trasporti effettuati.

Liquidare al più presto le competenze ai trasportatori in base alla tariffa ENAC e svincolare il deposito cauzione del committente.

L'eccessivo costo dei trasporti scaturisce dal rapporto diretto tra committente e trasportatore.

Declassified E.O. 12356 Section 3.3/NND No. 785020

Quando la richiesta supera l'offerta è necessaria una nuova disciplina.

Gli Uffici ENAC devono:

Assistere ed agevolare committenti e trasportatori nel disbrigo delle loro pratiche.

Fornire loro cortesemente tutte le notizie che eventualmente chiedessero.

Evitare ogni inutile ritardo ed ogni complicazione burocratica; rendere il lavoro semplice e sbrigativo.

Esaminare le richieste di trasporto ed i relativi documenti sollecitamente e scrupolosamente.

Giustificare sempre con motivi ben chiari la mancata accettazione in modo che non si possa attribuire ad arbitrio il rifiuto.

Compilare i fogli di viaggio in modo indelebile, chiaramente ed esattamente.

Rilasciare i fogli di viaggio nel minimo tempo possibile.

Evitare quanto è più possibile i viaggi a vuoto.

Adeguare il mezzo al trasporto, scegliere il mezzo più rispondente per portata ed efficienza.

Tenere aggiornato lo schedario del movimento degli autotrasporti ed evitare disparità nella distribuzione del lavoro.

Prendere nota degli automezzi che si presentano ogni mattina a chiedere il lavoro.

Fissare le partenze con la precedenza stabilita nei fogli di viaggio.

Rilasciare il buono carburante in base al tipo del veicolo e calcolando le distanze come prescritto.

Ritirare i fogli di viaggio dei trasporti effettuati.

Liquidare al più presto le competenze ai trasportatori in base alla tariffa ENAC e svincolare il deposito cauzione del committente.

L'eccessivo costo dei trasporti scaturisce dal rapporto diretto tra committente e trasportatore.

Stabilire una precedenza nei trasporti è difendere l'alimentazione del popolo.

Il Trasportatore deve:

Essere in regola con il libretto di circolazione e tenere affisso al parabrezza il permesso.

Tenersi a disposizione della Stazione ENAC a cui è assegnato.

Dare comunicazione alla Stazione ENAC dei guasti dei propri autoveicoli e del tempo occorrente per rimetterli in esercizio.

Tenere il mezzo nella massima efficienza.

Ridurre al minimo il tempo per il rifornimento carburante ed essere puntuale per il carico.

Essere a conoscenza delle condizioni di trasporto.

Controllare che la merce sia imballata bene ed in caso di deficienze farsi fare una dichiarazione scritta dal mittente.

Assicurarsi che la merce caricata per qualità e quantità sia quella di cui è autorizzato il trasporto.

Osservare scrupolosamente l'itinerario prescritto.

Assicurarsi che il foglio di viaggio sia perfettamente in regola, non abbia abrasature, cancellazioni o modifiche non approvate.

Consegnare la merce soltanto al destinatario o ad un suo legittimo rappresentante (familiare, socio, commesso).

Fare accertare gli eventuali danni con la compilazione del verbale previsto dalle condizioni di trasporto.

Prendere nota delle operazioni di carico e scarico sia per la durata sia per le modalità.

Presentarsi all'ufficio ENAC del luogo di arrivo per ottenere il carico di ritorno e la relativa annotazione sul documento di viaggio.

Esibire ai controlli ed ispezioni i documenti in regola.

Restituire alla stazione, appena rientrato, il foglio del viaggio effettuato con le debite annotazioni circa i pernottamenti, la durata del carico e scarico, ecc.

Non accettare ad alcun titolo somme dal committente o dal destinatario.

Rispettare la tariffa Nazionale.

Il mercato nero nasce dagli abusi nei trasporti.

Declassified E.O. 12356 Section 3.3/NND No. 785020

Solo i documenti ENAC autorizzano la circolazione degli autotrasporti di cose.

Gli addetti al controllo devono

Vigilare che gli automezzi siano muniti della licenza e del permesso di circolazione e di uno dei quattro documenti ENAC (foglio di viaggio, libretto di viaggio trasporti conto proprio, libretto di viaggio automezzi addetti trasporti enti, carta d'autorizzazione a circolare senza foglio di viaggio).

Controllare che il numero di targa e gli altri dati caratteristici corrispondano a quelli del libretto e del permesso di circolazione e del documento ENAC.

Verificare che i documenti di viaggio non siano scaduti o alterati.

Assicurarsi che la merce trasportata corrisponda a quella indicata sul documento ENAC.

Accertare che l'itinerario seguito sia quello prescritto dal foglio di viaggio.

Apporre per ogni controllo eseguito la firma ed il timbro sul foglio di viaggio.

Prendere nota di tutti gli automezzi in transito (esclusi quelli con targhe speciali) sugli appositi registri d'entrata e di uscita.

Elevare le contravvenzioni per le diverse infrazioni, ritirare il libretto ed il permesso di circolazione quando l'infrazione lo richiede.

Prendere, nella loro qualità di ufficiali od agenti di polizia, quelle altre misure previste dalle vigenti leggi, qualora, oltre alle infrazioni alla disciplina dell'ENAC, ne ricorrano altre di diversa natura.

Il vostro dovere è di rispettare e far rispettare la legge; ma è anche di agevolare ed assistere i trasportatori.

Il rispetto della tariffa è un obbligo, ma è anche un dovere.

Committenti presentate le vostre richieste esclusivamente all'ENAC

Il sopraprezzo è un reato di cui risponde chi lo percepisce e chi lo paga.

TO : A.F.L.R.S., R.A.A.C., C.M.F. (Attention: Maj. Braham)

1. Telephone conversation of even date Maj.Braham/ Capt. Macdonald refers.

2. This Headquarters has received a request for assistance from the above named organisation, which has a programme for the manufacture and distribution of automotive materials to the automobile industry under the supervision of the Comitato Esperti Italiano.

3. Among the problems which require solution is the procurement of the items listed hereunder for which there is no local source of production, and which require to be brought into Italy from Allied sources.

4. In view of the length of time required to bring forward such imports, it has been suggested by this organisation that surplus supplies may exist in Allied military stocks in Italy, from which a part, at least, of the requirements might be filled while awaiting the arrival of imported Materials.

5. Any assistance which can be given by your Section in discovering whether surplus stocks among the Services would be greatly appreciated.

Spare Parts arriving from Middle East are going into Central Stores Depot , Rome whence they will be issued as required.

We are pledged to provide some for A.C. and the question arises as to accounting.

The stores originally are "captured enemy equipment". Are they now Italian War Ministry - property? Originally some may have been Italian Civilian property. Is the War Ministry to supply gratis to Italian Civilians through A.C.?

Read Q2.

28/May. Q 2

1. Captured enemy equipment is at full disposal of Allies.
2. This has been handled by MMLA for 1st Army and we are ordered to hand some to A.C. on behalf of AFHQ.
3. All we need is a receipt from A.C., Requisition covers them just 6507 would if shipped direct to A.C.

Ref. No. 17596/DM
Date: August 22, 1945

Subject: Cases of M.T. materials.

Att: Major Taylor

The following information was received from the Repair Directorate at Naples:

1) At the present time no parcels or cases containing spare parts are laying in Naples at the Repair Directorate in that city.

2) A check of the cargo of the S/S "Rubicone" and "Atlantic" showed the following result:

S/S "Rubicone" = it is confirmed that the cases and parcels delivered to the 2nd Serviceable M.T. Park totalled 1182, which number is shown also in the "outgoing" slips at the port.
The surplus with respect to the 800 shown on MMIA's records may be due to the fact that, several cases having been broken upon unloading, the personnel in charge of loading operations figured the loose items as individual parcels.
According to the Bill of

(2)

Lading, the s/s "Rubicone" sailed from Alexandria (Egypt)

s/s "Atlantic" = We confirm that 677 cases and parcels were unloaded, as is confirmed by the "outgoing" slip at the port. It would seem that several cases unloaded from the "Atlantic" were erroneously routed to another depot. In fact, a few days after arrival of the steamer, the Allied Depot No. 862 sent an additional 67 parcels to the 2nd Servicable M.T. Park, which (parcels) are believed to have been received by mistake by the aforementioned Depot No. 862.

There is no Bill of Lading to show conclusively where the steamer is coming from.

3) It was found that the second copy of the Bill of Lading is being sent to MMiA of Naples. These (Bs/L) relating to the s/s "Rubicone" and "Lawson" (likewise shown to have sailed from El Shatt, Alexandria, Egypt), were located, and are being held here. Instead, the B/L of the s/s "Atlantic" was not found.

4) The Naples Directrate is continuing the search

Declassified E.O. 12356 Section 3.3/NND No. 785020

for the missing cases, which were presumably misdirected.

The officer especially charged with the handling of spare parts is 2nd Lt. D'Aquino (Capt Rizzo was transfered elsewhere). 2nd Lt. D'Aquino has already contacted Maj. L.O. Cann.

5) We have received a notice of arrival at Naples of s/s "Baron Cawdor" with 1962 parcels, between cases and parcels.
Unloading operations are now in progress.

Il maggior numero, rispetto alle 800 risultanti alla M.M.I.A., può dipendere dal fatto che essendosi rotte diverse casse allo sbarco il personale addetto al carico calcolò i pezzi sfusi come colli.-

Dal Bill of Lading il "Rubicone" risulta provenire da Alessandria (Egitto).-

p/s "Atlantic" = Si conferma il numero di 677 casse e colli sbarcati, confermato dalla bolletta di uscita del materiale dal porto.-
Risulterebbe che parecchie casse di materiali scaricate dall' "Atlantic" siano state smistate erroneamente al altro deposito.-
Infatti, pochi giorni dopo l'arrivo del piroscafo, il deposito Alleato n°862 inviò altri 67 colli al 2° Parco Veicoli Efficienti, che si presume incamerati erroneamente dal deposito 862 predetto.-
Manca il Bill of Lading per determinare con sicurezza la provenienza del piroscafo.-

Subject : SHORTAGE of M.T. material belonging to the Military Admin.

1° Waggons Nos. 302408 - 230522 - 156563 - 771997003 and 74070, containing M.T. materials consigned to the Central Spares Stores, Rome, dispatched by the 2nd Serviceable Vehicle Park, Naples and leaving the Flegrei Camps, Naples on the 28 June 45, were sealed with the prescribed iron wire of 5 mm thickness supplied by the H.Q. Military Station, Naples Central. This is also confirmed by the Central Spares Stores' letter No. 1080/MG dtd 27 Jul 45, a copy of which is addressed to the H of War.

2° The seals of the Railway Administration were not applied, it having been considered that the sealing made by the Military Administration was sufficient.

3° The railway authority concerned has been approached to see that, waggons containing material belonging to the Military Administration, the seal of the Railway Administration should always be applied - as prescribed - irrespective of the sealing which is carried out by the Military H.Q.'s of Stations.

Colonel, Chief of Transport Delegation,

SUBJECT: spare parts for motorvehicles

1. Ci riferiamo alla nostra 2T. 42/14263 del 7 corr. per far presente che questa Direzione Generale ha preso accordi con la Società a gar.lim. P.R.A. (Produzione Ricambi Automezzi) affinchè questa ritiri dalla C. A. o dalla M.M.I.A. i pezzi di ricambio, provveda alla loro cernita ed eventuale ripulitura ed alla loro distribuzione ai consumatori.

1. - With reference to our letter 2T. 42/14263 of the 7Th July, it is informed that agreements have been made by this HQ. with the P.R.A. Society (Produzione Ricambi Automezzi), so that the latter will take care of withdrawing the spare parts from A.C. or from M.M.I.A., of revising them, if necessary of cleaning them and of distribution them to the consumers.

2. - La distribuzione ai consumatori avverrà sotto il controllo dell' ENAC, secondo le norme già stabilite con varie fabbriche italiane per i pezzi di ricambio nuovi di fabbrica da esse forniti.

2. - The distribution to the consumers will be effected under ENAC's control and in accordance with the rules already fixed with various Italian factories for the new spare parts furnished by them.

Da ulteriori accertamenti effettuati è risultato quanto segue, circa

Materiali giunti a Napoli

col piroscafo Lawson casse 1300
" " Sanloialn " 56

Materiali ricevuti dal Magazzino Parti di Ricambio a Roma, spediti da Napoli

4 giugno - 9 vagoni - casse 1225
8 " - 2 " - " 500

Il maggior numero di casse, ricevute dal M.C.R. di Roma, si spiega col fatto che essendosi rotte allo sbarco alcune grosse casse esse furono ricostruite con altre più piccole, aumentando quindi il numero e restando invariato il materiale.-

Risultano altresì giunti a Napoli, con i piroscafi indicati, i seguenti quantitativi di casse.- La provenienza è però specificata dalla Sardegna.-

From : Naples Mil. Terr. Command Ref. : DA/5557/M/S
To : MOW Date : June 16, 1945
Subject : Vehicles and materials which have arrived from Sardinia on the "Carlton".

1. The 79 vehicles which were embarked on the "Carlton" were drawn directly by the 1st Mobile Park, which has been transferred to Bari.

2. The 40 tanks were drawn by the 2nd Repair Unit. 38 of these were inspected and turned in to the 2nd Efficient Vehicles Park, while the two which required repairs, were sent to the Inefficient Vehicles Park at Agnano, while waiting to be repaired.

3. 533 cases of meteriels, which were unloaded from the the "Carlton", have arrived at the 2nd Efficient Vehicles Park. 282 of these cases had their casings broken, while another part of the material was wrongfully sent to the Engineer Park at Bagnoli: they are now being drawn from said Park. We are awaiting assignment of railway cars for forwarding said meteriels/ to Rome.
