14. There is still much that can be done by Services to assist Train Guards and depleted Movement Staffs in their efforts to prevent pilferage of freight traffic.

(a) Wagons are accepted and loaded which are already damaged and unfit to hold stores. Movements personnel are not numerous enough to check every wagon before it is placed on loading.

(c) Sealing and securing of wagons is carried out either imperfectly or not at all.

4. Services are asked to give closer attention to loadings in their installations and at railheads. Shortage of Acme Seals and Stacker wagon sealing should be reported to this Section.
