SUBJECT: Request for the Assignment of a Liaison Officer.

To : Army Sub-Commission.

1. Our Fisheries Division requests the assignment of Lt. Ferraro Francesco, Italian Army, Field Artillery (Deposito 11th Regt. Artillery, Naples) as a liaison officer.

2. Lt. Ferraro was assigned to the 6th Port HQ, Naples, from 2 October 1943 to June 30, 1944. In civilian life he has had many years of experience in shipping and in salvage. While in the Italian Army, prior to his duties with HQ 6th Port, he was cargo security officer on board Italian transport vessels.

3. The Fisheries Division, which is charged with the task of rehabilitating fishing in Italy, is in need of personnel with such a background, as it is composed of only one officer. The Division must maintain close contacts with military and naval authorities but cannot entrust such duties to persons with a civilian status.

4. It will be appreciated if this request is given immediate consideration.

1. Above letter addressed to AFHQ has been referred to this Headquarters for such action as necessary.

2. Your letter AGB/507.6 of 23 September addressed to Army Sub-Commission referred to the same subject. On 26 September a Staff Officer of this Headquarters verbally informed Colonel Hartman that requests for Army personnel must come through the Establishments Branch, ACC, in accordance with your published Instructions. The Establishments Branch, ACC is familiar with the fact that Army personnel cannot be assigned to duties, which are not military in fact. If it is desired to use Army Officers on civil work, such officers must be demobilized from the Army and revert to civilian status.

A SUMMARY OF THE ATTACHED REPORT ON LT PIETRO BIONDO, TRANSLATED INTO ENGLISH.

I inform you that Lt. Pietro Biondo of the Gen. Duty Co., A.C.C., has, in a conversation with me on the 26th of October, made very serious accusations against Capt. Portulano, Commanding Officer of that Co., in relation to a so-called administrative irregularity.

The undersigned ordered the Lt. to write a detailed report on these accusations but the officer refused to do so.

Besides that, Capt. Portulano has noticed that Lt. Biondo has failed to distribute food, cigarettes, wine and soap to his men.

Disciplinary action is being taken against this officer by competent Italian Military authorities.

The undersigned requests that Lt. Biondo should be removed immediately from the Allied Commission.

Per i provvedimenti che codesto Comando riterrà opportuno adottare, redigo il seguente rapporto disciplinare a carico dell'Ufficiale in oggetto, avuto il 20/9/1944 effettivo dall'8 Raggruppamento Autieri in Roma.

"" Assegnato alla 2 Sezione Autieri di questa Compagnia, sita al Supergarage in Piazza Verdi, il S.Ten. Biondo chiese ed ottenne dal sottoscritto che il rancio confezionato degli autieri del suo plotone venisse portato sul luogo o a cura sua sarebbe stato distribuito.
Autorizzazione piu loggica, perche gli autieri in maggior parte al servizio degli alleati, rientravano al Garage nelle ore piu disparate. Ma dopo giorni ho avuto delle lamentele: Autisti che rientravano la sera e non trovavano il rancio.
2653
Chiamato il S.Ten. Biondo e fatto noto tale lamentele, si giustificava che i militari del suo plotone erano di comune accordo se, degli autieri non rientravano per una certa ora, allo scopo di non fare andare a male il rancio, lo stesso veniva consumato dai commilitoni presenti.
Intanto gli autieri DI CARLO - GIACCARI e DONATIELLO mi riferivano che il rancio, contrariamente a quanto asseriva il S.Ten. Biondo veniva da questo portato a casa.
Ordinai perciò che tutti gli autisti venissero a consumare il rancio in Caserma - ordine che il S.Ten. Biondo accetto con molto rincrescimento.
Dagli autieri summenzionati ho ricevuto ieri ancora delle lamentele, ho ordinato perciò agli stessi di metterlo per iscritto, cosa che hanno fatto. (Allego copia).-
Da queste dichiarazioni ho con profonda meraviglia appreso che il S.Ten. Biondo ha ricevuto una cassa di sapone, da me richiesta tempo fa, dall'Ufficiale Americano dirigente il garage.
Ho interrogato in merito il S.Ten. Biondo e da questo ho avuto la seguente risposta " Il sapone e del plotone e non della Compagnia"

Gli ho fatto comprendere la sua asserzione era errata ed ho indagato sul criterio della distribuzione - solo 4 o 5 autisti ne hanno ricevuto un pezzo ciascuno.-
Ho contestato le asserzioni degli autisti di cui alle allegate dichiarazioni, e il S.Ten. Biondo si e giusticato asserendo che i viveri portati a casa erano le sue spettanze giornaliere.
Il sapone lo avrebbe distribuito.
Gli ordinai di far portare il sapone al reparto ed egli invece ha, da informazioni assunte, continuata la distribuzione stamattina ai militari della sua sezione.
All'Ufficiale, in attesa dei provvedimenti che codesto Comando vorra adottare, gli ordinato il rientro in sede sostituendolo con il S.Ten. Nichele Settimo.

(T R A N S L A T I O N)

For the necessary actions, I am obliged to inform this Command that lt.. Biondo, in charge to the 2nd Drivers Section of this Company (Super Garage Verdi square.) obteined, after his request, to distibute necessary food in the place where his soldiers were in service. But, after few days, I have had some complaints: drivers who had not, in several evenings, their food. Called Lt. Biondo, this Officer justified himself telling that the soldiers of his platoon were agreed to eat the food if, after a certain hour, someone was not came.
Moreover, the drivers DI CARLO, GIACCARI, e DONATIELLO said that the rest of the food of the platoon was brought in the house of the officer. For this reason, I ordered to all the drivers to come and eat the food to the Company Gen. Duty. (Caserma Macao.) From the drivers above named, I have received, yesterday, other wailments. So I have ordered them to do their relations on the paper. By these relations I have known that Lt. Biondo has received a box of soap from the American Commandant of the Garage, box that I have requested several days ago. I have asked about this box the Lt. who has replied: "The soap is for the platoon and not for the Company." I have said to him, that was mistaken, and then, I informed myself about the distribution-only four or five drivers had received the soap.
I have spoken to him of the relations of the drivers and the Lt. justified himself telling that the food which he had brought in his house, was of his property. The soap, he said, would have been distributed.
To this Officer, waiting the actions of this Command, I have ordered to re-enter in the Company and I have put to his charge, Lt. Michele Settimo.

e per conoscenza:

AL SIG. COMANDANTE DELLA CAP. SERVIZI GEN.LI ACC
(Cap.PORTULANO)
S E D E

OGGETTO: Rapporto a carico del S.Ten. BIONDO Pietro.

Per i provvedimenti che codesto Comando riterrà opportuno adottare, comunico quanto segue:

1) Il giorno 26 Ottobre 1944, ore 11 circa, il S.Ten. BIONDO Pietro della Cmp. Servizi Generali ACC-Super Garage si è presentato allo scrivente, nel suo Ufficio, e lo ha informato di un rapporto che il Cap. Portulano Raffaele- Com.te della predetta Compagnia- starebbe per avanzare a carico del predetto S.Tenente.
Di questo rapporto non ancora pervenuto sarà trattato, se del caso, in separata sede.

2) Durante il corso del medesimo colloquio, il S.Ten. BIONDO ha fatto [illegible] generiche ad una pretesa cattiva amministrazione del Reparto comandato dal Cap. Portulano e, invitato ad essere specifico, in concreto ha precisato che i Sottufficiali addetti al Comando menano un tenore di vita dispendiosissimo, che per mantenerlo ricorrono a mezzi illeciti (il che è a conoscenza - sempre secondo la versione del S.Ten. BIONDO- del Cap. Portulano, che li favorisce e protegge) e che varie altre irregolarità di ben grave rilevanza potrebbero venire annotate in seguito ad una rigorosa inchiesta sull'operato del Com.te della Cap. Serv.Gen.

3) Invitato il S.Ten. BIONDO a porre per iscritto le gravi asserzioni a carico del suo Superiore diretto, l'Ufficiale si è rifiutato di farlo.

4) Richiesto dei motivi che poteva addurre a giustificazione di questo suo atteggiamento, che è in contrasto con i suoi doveri, il S.Ten.Biondo ha eccepito di voler seguire un proprio convincimento personale, che gli consiglia di non immischiarsi in qualsivoglia questione, se non per suo diretto discarico qualora chiamato personalmente in causa.

...opportuno adottare, comunico

1) Il giorno 26 Ottobre 1944, ore 11 circa, il S.Ten. BIONDO Pietro della Cmp. Servizi Generali AOC-Super Garage si è presentato allo scrivente, nel suo Ufficio, e lo ha informato di un rapporto che il Cap. Portulano Raffaele- Com.te della predetta Compagnia- starebbe per avanzare a carico del predetto S.Tenente. Di questo rapporto non ancora pervenuto sarà trattato, se del caso, in separata sede.

2) Durante il corso del medesimo colloquio, il S.Ten. BIONDO ha fatto [illegible] generiche ad una pretesa cattiva amministrazione del Reparto comandato dal Cap. Portulano e, invitato ad essere specifico, in concreto ha precisato che i Sottufficiali addetti al Comando menano un tenore di vita dispendiosissimo, che per mantenerlo ricorrono a mezzi illeciti (il che è a conoscenza - sempre secondo la versione del S.Ten. Portulano, che li favorisce e protegge) e che varie altre irregolarità di ben grave rilevanza potrebbero venire arrestate in seguito ad una rigorosa inchiesta sull'operato del Com.te della Cmp. Serv.Gen.

3) Invitato il S.Ten. BIONDO a porre per iscritto le gravi asserzioni a carico del suo Superiore diretto, l'Ufficiale si è rifiutato di farlo.

4) Richiesto dei motivi che poteva addurre a giustificazione di questo suo atteggiamento, che è in contrasto con i suoi doveri, il S.Ten.Biondo ha eccepito di voler seguire un proprio convincimento personale, che gli consiglia di non immischiarsi in qualsivoglia questione, se non per suo diretto discarico qualora chiamato personalmente in causa.

5) Lo scrivnte ha ben chiarito all'Ufficiale che i suoi convincimenti intimi e personali non hanno ragion d'essere di fronte a quistioni inerenti al servizio e gli ha ribadito il principio disciplinare secondo il quale egli è obbligato a sottoscrivere le proprie dichiarazioni ed assumerne in pieno la responsabilità.

6) Al che il S.Ten.BIONDO ha confermato il precedente rifiuto, allegando a giustificazione il fatto che egli aveva inteso riferire ed informare in via privata e non ufficiale e di servizio, e dicendosi disposto a sopportare le eventuali conseguenze disciplinari di questo suo errore.

7) Il sottoscritto, a questo punto, ha impartito al Subalterno l'ordine formale di redigere un rapporto dettagliato e il S.Ten.BIONDO ha espresso un categorico rifiuto.

8) Il S.Ten. BIONDO ha dunque formulato nel modo su detto accuse gravissime a carico del proprio superiore diretto.

Due sono i casi:

a) esse sono fondate; e il S.Ten.BIONDO deve rispondere di non aver aderito all'ordine ricevuto di avanzarne regolare denuncia ai suoi Superiori;

b) esse sono infondate; e il S.Ten.BIONDO deve rispondere di calunnia ai danni del Cap. Portulano Raffaele.

In ogni caso, qualunque sia l'esito degli eventuali accertamenti che codesto Comando riterrà opportuno di dover disporre, lo scrivente resta in attesa di conoscere i provvedimenti adottati a carico del S.Ten. BIONDO, colpevole nei confronti dello scrivente di essersi rifiutato di redigere una dichiarazione per iscritto fedele a quella che è stato l'oggetto del riferito colloquio, così come gli era stato ordinato di fare.

TO: Commanding General, AFHQ.

1. Present policy is that Liaison Officers are only attached to Allied formations when such formations have Italian units under their command, and the Liaison Officer is a member of the Italian unit.

2. RAAC has no Italian units under command to which Colonel Della Rocca could be attached.

3. Since RAAC is an Allied Headquarters and obviously has a need for a Liaison Officer, recommend that Colonel Della Rocca be authorized and be carried in the ITI-ITI category (reinforcements).

4. Pending decision, the Ministry has been instructed to have Colonel Della Rocca remain on duty with RAAC.

Subject: Liaison officer, Italian Army, with Headquarters, Rome Allied Area Command.

Through: Commissioner, Allied Control Commission, APO #394, US Army.
(Attention: Army Sub-Commission)

To : Commanding General, Army, APO #512, US Army.

1. I have been informed by the Italian War Department in a letter dated the 26th of September 1944, and signed by General Oxilia, that pursuant to instructions received by the Italian War Department from the Army Sub-Commission, Allied Control Commission, it will be necessary to withdraw the Liaison Officer from the Italian Army now on duty with this headquarters.

2. The services of an Italian Liaison Officer with this Headquarters I consider as indispensable, and I urgently request that the necessary action be taken to retain Lt. Colonel Count G. Della Rocca in this capacity. The Commanding General and all Staff Sections of this Headquarters have daily contacts with Italian officials, both civil and military, as well as many civilians. Lt. Colonel Count Della Rocca's wide acquaintance in the city of Rome, and his loyalty to the cause of the Allies, make him of invaluable aid in this connection.

2. [illegible] OF INTEREST ON ARRIVAL.

The general mentality of officers and NCOs who attended these courses differed noticeably from that of the previous series. Whilst the students on the first courses were visibly enthusiastic and were eager to see and learn everything, those of this second series had an appreciably better all round military knowledge, were more self assured, no doubt borne of their past ambitious experience in the forward areas, and although attentive and working well, did not display the effervescence of their predecessors. Nevertheless they were collectively a stouter type, of better physique, and higher mentality, as a result of which it is forecasted they should make more suitable Instructors and organisers of Weapon Training.

If the responsibility of their role in relation to the new Italian Army is brought repeatedly home to them, they should produce satisfactory results within the Units to which they are posted. They will however need this urge.

2. GENERAL STANDARD OF STUDENTS AT COURSES.

The general mentality of Officers and NCOs who attended these courses differed noticeably from that of the previous series. Whilst the students on the first courses were visibly enthusiastic and were eager to see and learn everything, those of this second series had an appreciably better all round military knowledge, were more self assured, no doubt some of their past ardutious experience in the forward areas, and although attentive and working well, did not display the effervescence of their predecessors. Nevertheless they were collectively a stouter type, of better physique, and higher mentality, as a result of which it is forecasted they would make more reliable Instructors and organisers of Weapon training.

If the responsibility of their role in relation to the new Italian Army is brought repeatedly home to them, they should produce satisfactory results within the units to which they are posted. They will however need this urge.

So far as Platoon Weapons were concerned, previous knowledge of British Infantry Weapons was almost nil, although in a few cases the NCO had been familiar.

As regards the 3" Mortar courses, these students had a very fair general Mortar knowledge, a high percentage of the students having used the 81 mm. Italian Mortar in action.

Finally, it seemed obvious that much care and forethought had been given in the selection of the students for these courses.

3. RESULTS OF TRAINING.

The results of this second series of courses may be discussed as follows:-

(i) The large majority showed sustained interest throughout the courses and were keen to acquire detailed knowledge of the weapons. This both should prove to be more capable Instructors than those who attended the previous courses.

(ii) The standard of shooting with British Weapons was good, in some cases very good, the average results were considerably higher than for the first courses held.

Declassified E.O. 12356 Section 3.3/NND No. 785020

(iii) Technical knowledge and handling of the various weapons was good, it must however be emphasised that much practice in handling is still necessary before the majority of the students can consider themselves anything approaching "Instructor Number" in this respect. Every opportunity should be taken to give as much practice as is possible before these Potential Instructors handle their allotted squads.

(iv) As was the case with the students on the previous courses, these Officers and NCOs appeared to experience considerable difficulty in grasping the sequence of the various lessons, and the organised and methodical system of British Weapon Training. The only answer here is a constant study of the translated manuals until the sequence and system is thoroughly grasped. This I consider is a point which should receive primary attention by those directing training in these Italian Units. The issue of translated W.T. pamphlets to each Italian Instructor is not merely necessary, it is very essential.

(v) It will be appreciated that owing to language limitations it was somewhat difficult to classify these Italian Officers and NCOs on the usual "Instructors Grading". With the aid of the Interpreters however, the adjudged ability of all Officers and NCOs is assessed as is shown in Appendix "A" attached.

4. GENERAL REMARKS.

(i) When these Italian Officers and NCOs(who were type selections known to have a high opinion of their own prowess) arrived, [illegible] little behind as to how they would apply themselves to the course. The solution appeared to be a firm handling, and a strict adherence to a tight discipline from the start. This policy paid a handsome dividend and it was most noticeable how all students responded and quickly found their true level.

(ii) I am not only of the opinion that these Officers and NCOs generally speaking have absorbed sufficient knowledge to be effective W.I. Instructors to Italian Units equipped with British Weapons, but I feel safe in making the prophecy that they should prove to be considerably better qualified than those Officers and NCOs who attended the previous courses.

It must be explained however that supervision to ensure that they adhere to the principles laid down in W.I.T. manuals, and as explained during the course, will be very necessary.

(iii) It cannot be too forcibly stressed that much of the value of these courses will be entirely lost unless there is an adequate supply of translated W.I.T. pamphlets to guide them. These pamphlets are not only essential for Officers and NCOs who have attended courses at this School, but are equally necessary for the Officers and NCOs in Units who are to attend the training courses operated by students who have attended this School.

4. [illegible]

(i) When these Italian officers and NCOs(who were from formations known to have a high opinion of their own prowess) arrived, [illegible] little notion as to how they would apply themselves to the course. The solution appeared to be a firm handling, and a strict adherence to a tight discipline from the start. This policy paid a handsome dividend and it was most noticeable how all students responded and quickly found their true level.

(ii) I am not only of the opinion that these Officers and NCOs generally speaking have absorbed sufficient knowledge to be effective W.T. The Printing output to date does not appear to be meeting even present requirements, it should therefore be expedited by every possible means.

(iv) The loss of Potential Instructors on this second series of courses, through sickness and other wastage causes was considerably less than on the previous courses, only 5 Officers and 3 NCOs failed to complete the course.

(v) The Lessons The lessons given by the Italian Officer Interpreters recorded in the report of the first series of courses has been fully maintained during this series. They applied themselves 100% to their task. It is very strongly recommended that these Officers, who have fully absorbed the British System of Weapon Training, should not be allowed to be re-lost in some other employment. They should certainly be allotted special establishments on Divisional HQ Staffs in a Weapon Training Supervisory Capacity within the respective Divisions.

NOTE. This recommendation is made now on the assumption that further Italian courses are not required. If on the other hand more courses are needed, then these Interpreters must be made available to attend such courses as hitherto.

0703

Declassified E.O. 12356 Section 3.3/NND No. 785020

(vi) At the commencement of this period certain of course, no Italian Senior Officers were detailed to attend in the role of Supervisors. The services of Lt. Angiolelli were however secured, and this Officer's assistance proved invaluable and added greatly to the smooth running of the courses, and the ironing out of various small problems as invariably arise with regard to work and discipline.

(vii) The general behaviour and discipline of the Officers and NCOs who attended the courses was exceedingly satisfactory. They are without doubt a very good type and given proper handling and encouragement should do well. There were no incidents of any kind.

To Hq. MAIA.

A few weeks ago I mentioned to Lt. Col NOAHES that I thought my interpreter, 2/L Ricci, was not sufficiently experienced in his command of English adequately to carry out the job.

He is a cheerful and resourceful person, but his English is still very limited, and his extreme youth makes him 2387 try and get hold of points without listening to what is said to him. I am thus left in the position of not knowing whether the information I am giving a receiving, is right, and in some cases (reported to you) shown it to have been wrong.

I realise that good interpreters are hard to find, but as I am pretty well on my own here, with a Commissariato who seem always to be making mistakes, I find it a great handicap to be without one. I wish to stress that there is in no way an adverse report on Ricci : he always tries to give helps in all my work at all times.

I hope you will be able to do something for me.

Yours Faithfully Capt RASC.

1. Above letter addressed to AFHQ has been referred to this Headquarters for such action as necessary.

2. Your letter AGP/307.5 of 23 September addressed to Army Sub-Commission referred to the same subject. On 26 September a Staff Officer of this Headquarters verbally informed Colonel Hartman that requests for Army personnel must come through the Establishments Branch, ACC, in accordance with your published instructions. The Establishments Branch, ACC is familiar with the fact that Army personnel cannot be assigned to duties, which are not military in fact. If it is desired to use Army officers on civil work, such officers must be demobilized from the Army and revert to civilian status.

1. Authority is requested, please, for the above named officer of the Italian Army, Field Artillery (Deposito 11th Regt. Artillery, Naples), to be posted to this Formation as a liaison officer for the Fisheries Division of the Agriculture Sub-Commission.

2. Lt. Ferraro was assigned to the 6th Port HQ, Naples from 2 Oct 43 to 30 Jun 44. In civilian life he has had many years of experience in shipping and in salvage. While in the Italian Army, prior to his duties with 6th Port HQ, he was cargo security officer on board Italian transport vessels.

3. The Fisheries Division, which is charged with the task of rehabilitating fishing in Italy, is in need of personnel with such a background, as it is composed of only one officer. The Division must maintain close contacts with military and naval authorities, but cannot entrust such duties to persons with a civilian status.

To : H. E. General Oxilia, Undersecretary of State for War.

Your Excellency:

1. Your letter R50-0X of 26 September addressed to Brigadier General Brown, Commanding General of the Rome Allied Area Command, on the retention of Italian Army Officers as Liaison Officers with the RAAC has been brought to the attention of this headquarters.

2. General Brown desires to retain the services of Colonel Della Rocca as Liaison Officer with Headquarters RAAC. General Brown states that this officer is most valuable to him.

3. Please, therefore, assign Colonel Della Rocca as the Italian Army Liaison Officer with RAAC, and carry him in category 6 for the time being.

4. It is understood that another Officer is also on duty with RAAC at this time, but this other Officer will be withdrawn by you as his services are no longer desired by General Brown.

SUBJECT: Request for the Assignment of a Liaison Officer.

To : Army Sub-Commission.

1. Our Fisheries Division requests the assignment of Lt. Ferraro Francesco, Italian Army, Field Artillery (Deposito 11th Regt.Artillery, Naples) as a liaison officer.

2. Lt.Ferraro was assigned to the 6th Port HQ, Naples, from 2 October 1943 to June 30,1944. In civilian life he has had many years of experience in shipping and in salvage. While in the Italian Army, prior to his duties with HQ 6th Port, he was cargo security officer on board Italian transport vessels.

3. The Fisheries Division, which is charged with the task of rehabilitating fishing in Italy, is in need of personnel with such a background, as it is composed of only one officer. The Division must maintain close contacts with military and naval authorities but cannot entrust such duties to persons with a civilian status.

4. It will be appreciated if this request is given immediate consideration.

Lt SIVANO, the Italian LO att this HQ is anxious to join "Nucleo 1" but has been told that he cannot do so as this Div is NOT in EIGHT Army at present.

The conditions under which the offr is serving at present are very unsatisfactory. In order to draw his pay he has to go to an Italian unit to which he is attached, often involving a journey of over 100 miles.

It would be appreciated if arrangements could be made for this offr to join "Nucleo 1", and I am prepared to release him from his present duties as LO.

1. Capt GARRETT Evaristo, selected by you to be attached to 2909 Civil Labour Unit Bari, is quite unsuited for Civil Labour duties, owing to his age.

2. The type of officer required is a young, energetic man capable of selecting civil labour and of dealing with local authorities.

3. Will you please find a substitute for Capt GARRETT and make all necessary arrangements for his pay with the Comando Militare at Bari.

4. Please forward the name of the officer selected to replace Capt GARRETT to us and state when he will report to 2909 Civil Labour Unit.

I enclose copy of a report on the above officer.

You will note that he is 60 years of age and has been retired for many years and that no arrangements have been made for his pay.

While a charming man, he is quite unsuitable for the work intended and the method in which he has been called up and no proper arrangements made for his pay is, to say the least of it, most callous.

May it be put strongly to the Italian authorities, please, that this is not the type of man required, who should be young and energetic.

1. As mentioned in conversation yesterday (Col.HOWARD - Col.BLANCHARD) it is desirable that a good type English-speaking Italian Officer should be attached for liaison duties in the Headquarters of I9 and 87 Groups PC now at ANCONA.

2. There is no Establishment for such officers in the Group Headquarters, but it is suggested that this difficulty might be overcome by posting suitable officers to regimental or Italian Headquarters of Regts. under command of these Groups and detaching them for liaison work.

AAI

Ref telephone conversation Lt Col [illegible] MMIA - (HQ) AAI - subject: "Returns by Allied units showing Italian LO's and Interpreters doing duty with them".

1. There are still many Italian interpreters and LO's attached to Allied formations and units not carried on PWB, whose position has not been regularized by the Ministry of War owing to the fact that the Ministry has no knowledge of the names and particulars of these officers.

2. Nominal rolls have been submitted by PWB but these do not present the true position owing to the fact that Allied Units have picked up Italian LO's and interpreters during their advance north.

3. May we please be informed when returns from Allied Units showing Italian LO's and interpreters attached can be expected, in order that the position of these personnel may be regularized.

Reference your G/7/I of 5 Aug 44.

1. The position of these Italian officers is perfectly regular from the Italian side. They are administered from this HQ by Nucleo "I", and receive regular Italian pay and allowances thereby.

2. It is difficult to form an establishment for these officers at the moment, since units are requesting them in increasing numbers and we intend to supply all demands as we find officers of the right quality. Since your letter, the strength of the Nucleo has gone up to 96, and there are still outstanding demands for another 40. We are, however, putting up an establishment through G(SD) of this Army for a maximum of 250 Officers and 300 ORs.

Lieut. COMEZA Carlo, formerly Italian liaison officer attached to 10 Corps, was arrested last May and detained pending investigation of his possible implication in an important case of espionage and subversion. He was known to be on friendly terms with the principle persons involved in the case.

The investigations have now been completed, and it has been ascertained that Lt. COMEZA did not wilfully or knowingly participate in the anti-Allied plans or actions of his friends.

He is therefore to be released forthwith.

It is considered, however, that his discretion was at fault in certain respects, and that he should NOT be employed any further as a liaison officer with the Allied Forces.

suddenly reversed.

On 6 Aug I discussed with my Staff the whole matter of economy in the use of the Italian Army. We have had various indications that there is still a large number of officers and men who are attached all over the place, doing unauthorised jobs. So I gave instructions for a letter to be prepared for me saying that unauthorised attachments will be rescinded. As a result of this our letter of 6 Aug was reversed on the 7th.

Frankly the procedure in this case of Lt. MODIANO has been quite irregular. He is an officer in a Division in SARDINIA and there is no authority for him ever to have been attached to A.C.C. We certainly did not know he was. Apparently there has been correspondence on a private basis between your department and Major GREGSON, MMIA, who is one of my Ordnance officers and has nothing whatever to do with posting or transfer of Italian officers. This is borne out by your letter to Major GREGSON dated 3 Aug.

Apart from this it is most inadvisable that anyone except MMIA should ask for an Italian officer by name as this opens up possibilities of favouritism and other unsavoury things which we discussed yesterday.

I can quite understand SPICER saying that he needs an officer in uniform for various tasks but I can hardly agree that the spasmodic escorting of prefects to forward areas comes into the category of priority one. Moreover we all need Italian personnel. H.Q. AAI want 375,000 but they are only getting 309,000 ! Everyone has got to cut their coat according to their cloth and obviously military considerations must come first. With the formation of 6 new Combat Divisions, within the reduced ceiling mentioned above, we shall be frightfully short of Italian Army personnel. You can, of course, like everyone else, apply for the attachment of an Italian officer to your section but I feel pretty sure that AAI would not authorise this. Nor could I honestly recommend it in view of all the above.

Incidentally if Lt. MODIANO is on leave in ROME he is disobeying orders. Leave from SARDINIA is strictly forbidden.

So there it is. I am sorry for the abruptness of our letter of 7 Aug but I must let things stand as they are.

I write this to you D.C. as you came personally to see me about it.

Yours

L.B.

Reference your 5334/Ord of 25 July.

1. A list of Italian Interpreters and LO's serving with HQ EIGHTH Army and with formations under their command has been submitted to us. A study of this list shows that there are thirty Interpreters and Liaison Officers with EIGHTH Army who are not shown on the list forwarded by you in your letter under reference.

2. It appears that the position of these officers has not been regularised and it is felt that there are others serving with Allied units in a similar position.

3. Your list is neither accurate nor up to date, for instance many officers are shown as working for 15 Army Group without any detail as to what unit they are with. You are therefore requested to issue instructions to all Italian Headquarters to submit to you the names of all Interpreters and Liaison Officers working for the Allies (excluding those carried on War Establishments of units under command of the Allies) so that an accurate list can be compiled. At the same time Allied HQs are being asked to forward names and it is hoped as a result that a proper roll of Interpreters and Liaison Officers will be able to be maintained and the position of the personnel regularised.

4. Please treat as urgent as this matter was raised by this HQ nearly 2nd months ago.

Ref your M500/1 of 24 Jul addressed to our Liaison officer.

1. It is confirmed that no action can be taken to regularise the position and adm of the 43 offrs until authority hasbeen given by AAI for their attachment.

2. It is known that authority has been given in some individual cases, but in the majority, the officers are not even carried on the strength of the Italian Army.

3. Our Liaison officer has stated that he advised that an application should be made to AAI submitting a WE (making provision for the extra required) and requesting that the unit be placed under comd of EIGHTH ARMY. This would be the correct procedure. The Ministry of War will then be asked to regularise the position of the officers and men concerned.

4. Would you please submit to this HQ a nominal roll of any further officers that are taken on and of all Italian other ranks in the unit.

Italian capacities. These officers, who now total 48 with outstanding requests for another 10, are proving themselves very valuable to forward troops. A list of them to date is on Appx "A".

2. All these officers have been carefully selected and checked: almost all are volunteers. We have had excellent reports of their work from many units and formations to which they have been attached, incl Comd 13 Corps. Since Oct, when the first of these officers volunteered for this service, immediately after the armistice, two have been killed in action at ANZIO, and one wounded and mentioned in Brigade orders.

3. Their duties and the chain of their command and administration are as in Appx "B".

4. Lt Col di Villanova, the Italian CO of Nucleo I on whom these officers depend administratively, has done all in his power to help them. Italian procedure is, however, extremely slow, and there are various officers among these who have earned the praise of the British units with which they have worked, and yet have been waiting sometimes for eight months for their position to be regularised by the Italian Military authorities.

5. It is requested, in view of the important work these officers are doing, that the matters still outstanding listed at Appx "C" be resolved as soon as possible.

O.H. Prater
Brigadier,
General Staff.

To all Officers of the 'Nucleo'

Subject :- Employment and Administration

The intention of this circular is to make contact with the Italian officers who work under GSI (Civil Liaison) of the Eighth Army, and explain to them their duties and their position so that they may be helped to carry out the tasks which they have been assigned.

1. DUTIES which officers may be called on to perform on orders of the British HQ to which they are attached -

a) Gathering information by the interrogation of Italians, following the instructions laid down by GSI (Civil Liaison) HQ Eighth Army. 14

b) Liaison between the British unit to which the officer is attached, and Italian units who may be in the same area. This will often include partisans.

c) Liaison with the civil authorities and, if necessary, population of the area.

d) Acting as guides in the zone of operations, or finding suitable guides if the area is not known. Care must be taken to check the credentials and knowledge of the area of any guides found. Italian officers will be held responsible for them to the British unit who have asked for the guides.

c) Administration - On this 'Nucleo', which depends on I.F.A.H.Q. (Administration HQ for Italian Forces), Eighth Army.

3. PAY

This paragraph gives details of the pay and allowances of officers and their servants.

Pay and allowances will be sent by me at the end of each month to GSI(CL) of each Corps or direct to officers in other units.

Every officer must draw pay also for his servant.

4. NOTES

I remind officers that the Army is non-political. Whoever has taken part in the fight against the Germans should be supported whatever party he belongs to; political discussions must be left to when officers return to civilian life.

Instructions for the interrogation of all personnel coming from enemy territory except German PW; and for the compiling of reports thereon.

1. INTERROGATION.

(a) General.

Interrogation of refugees is an entirely different business from interrogating Prisoners of War. It is never a question of breaking the interogee down, as he is always, once interested, only too willing to give all the information he knows. The difficulty is to coax the right stuff out of him, and to suppress digressions and irrelevancies without discouraging him. It is thus a question of stimulating his interest, as he usually has no idea what information he has, or what would be of value to us. The right background must be informal: a chair, a full tummy, cigarettes and the avoiding of any impression that he is being persecuted.

If he turns out to be an enemy agent this first impression can easily be effaced.

In general it has been found that the most useful type of information to be got from these sources is location of mines, defences, dumps, and topographical data. This does not mean that they never have information of value on e.g. vehicle signs or concentrations, but the latter tends to be inaccurate and out of date.

(b) Hints for interrogation.

The following principles are distilled from experience over the last six months:-

(i) Interrogate a few people thoroughly rather than a lot skimpily.

(ii) Generalisations made by Italians are usually false, e.g. 'a defence line from.....to.....' or 'a division passed through.....yesterday'. Make them say exactly what they saw and nothing else.

(iii) Refugees nearly always have useful information on dumps and the enemy supply system, but they must be specific.

(iii) Refugees nearly always have useful information on dumps and the enemy supply system, but they must be specific, i.e. it is no use knowing that an 'ammunition dump' is in an area, as this may mean anything from a large railhead dump to a few boxes of SAA piled along a road.

(iv) Do not expect Italian officers to be more observant or accurate because they are military. Even when they have worked for some time with the German Army they have a surprisingly inaccurate idea of it. This applies to all ranks, including Generals.

(v) Anyone who has worked for the Germans is worth interrogating, especially -

Interpreters, who know officers' names and who travel round with them.

Men who have worked on construction of defences. These have usually got exact but limited knowledge.

(vi) German officers' names are very useful.

/2.....

Declassified E.O. 12356 Section 3.3/NND No. 785020

(vii) Pinpointing for defences and dumps. This takes time, but must be done if information is to be useful; air photos are enormous help.

(viii) Never allow the interrogee to look at the map until you have already pinpointed his information from his descriptions. Italians are apt to meet the interrogator more than half way, and choose a pinpoint location from the map at random.

(ix) Italians say 'Panzers' when they mean any kind of tank, SP, or half-tracked armoured vehicle. Try to make them describe exactly any AFV which they claim to have seen.

(x) Note the difference between MT parked in a permanent leaguer and MT parked temporarily. Italians describe them as if they were the same thing, unless carefully cross-examined.

(xi) Note the difference between <u>mines</u> (A.Tk or A.per) and prepared demolitions. Italians always say a bridge is mined, meaning it is prepared for demolition.

(xii) The vehicle signs described by refugees may appear at first to be complete rubbish, and to correspond with no known formations. They are, however, worth recording, and may crop up subsequently.

(xiii) Italians often know the recent movements of a local German unit when they do not know its name, e.g. ' a unit or formation was in Corsica, then Rome, then came here'. This is a help in identifying it.

(xiv) Refugees often know of tracks and roads which are not marked on the map.

(xv) Information on which roads are being used is most useful. Since most German movement is by night this is a good supplement to Tac R.

(xvi) Pinpointed de-bussing points and concentration areas in the forward areas make good targets for harassing fire.

(xvii) Look out for any photographs refugees might possess of enemy territory, and attach them to your report to this HQ. Photographs, including picture postcards, of bridges, rivers, roads, and even general landscape are most useful.

(c) Miscellaneous.

(i) Get GSI, CE and CDO to keep you posted as to their requirements. Engineers may often want description of roads, rivers or specific areas of country.

(ii) If you get information about escaped Allied prisoners, tell the local "A" Force man, who may want to contact your informant. This in addition to inclusion in your report.

(iii) Find out which local residents have good topographical knowledge. Even if you do not need to interrogate them, it is worth having them on tap. The most valuable people from this point of view are surveyors, local road engineers, railway officials, employees of the various land reclamation organisations, gamekeepers, managers of large estates, and anyone who has worked on roads, bridges, dams, canals and sluices.

2. COMPILING OF REPORT.

(a) The pro forma at Appendix A must be followed at all times, although in addition a narrative may be added, e.g. of an escape; and new sub-sections created for particular cases, e.g. economic. The reason for this is that refugees' and agents' information is necessarily so jumpy that a layout to assist the reader is all-important.

(b) When a heading does not apply, numbering and lettering will continue consecutively according to the headings that do apply.

(c) Source, exact location, date of information, and, where possible, degree of reliability, to be stated.

(d) In complicated descriptions, e.g. of large minefields or spread-out dumps, factories or HQs in towns, try if possible to get the information in the form of a sketch.

(e) Same sub-headings to be used in each section.

(f) Information to be laid out according to the example below:-

Information	Location	Date
(b) Defences (incl OPs, gun posns, mines).	(for example see next para)	5 Feb
An A.tk ditch running North for 400 yds from the rd CHIETI - GUARDIAGRELE.	2412	

(g) Under 'Location' in your report put the name of the nearest village or town, and include grid letter before the map reference. It will NOT then be necessary to put the scale and number of map. An example would read:-

Per gli ufficiali Italiani presso i Comandi di Divisione o Brigata o reparti minori:-

Istruzioni per l'interrogatorio delle persone che provengono dal territorio nemico (eccettuati i prigionieri di guerra), e modalita per compilare i conseguenti rapporti.

---

1. INTERROGATORIO.

(a) Istruzioni Generiche.

L'interrogatorio dei civili si svolge in modo diverso dall'interrogatorio dei prigionieri di guerra. Si deve rifuggire dal metodo di costrizione, dato che il Rifugiato, se convenientemente abbordato, e solo troppo volenteroso di dare tutte le informazioni che sono a sua conoscenza. La difficolta consiste nell' ottenere le informazioni utili, e nell' evitare le digressioni ed i fatti estranei senza percio scoraggiarlo. Si tratta quindi di suscitare il suo interessamento, perchè, in genere, egli non sa quali fatti possano interessare l'interrogatore ne conosce quale valore abbiano le sue informazioni. L'ambiente in cui si svolge l'interrogatorio deve essere confidenziale: si avra cura di far mangiare l'interrogato, farlo sedere a suo agio, e nel mentre fuma una sigaretta rompere il ghiaccio, facendolo prendere confidenza e rendendogli chiaro che egli non avra da temere metodi coercitivi. E consigliabile di iniziare l'interrogatorio vero e proprio solo dopo che abbia smesso di fumare.

Se l'interrogatore si accorgera che il Rifugiato e un agente nemico, sara facile fargli intendere quale trattamento diverso lo aspetta.

L'esperienza ha mostrato che le informazioni piu utili ottenute dai Rifugiati riguardano: ubicazione di campi minati, opere defensive, depositi di ogni genere, dati topografici. Oltre queste informazioni e possibile che il Rifugiato abbia altre importanti dati circa, per esempio, contrassegni di automezzi, concentramenti di truppe ecc; questi ultimi pero sono spesso inesatti e superati da

(b) Suggerimenti sul modo di interrogare.

Dall' esperienza raccolta si indicano le direttive seguenti:-

(i) Interrogare compiutamente pochi rifugiati anziche molti superficialmente. Nel caso di un gruppo di rifugiati, separarli secondo i luoghi di proven-

/2.....

Declassified E.O. 12356 Section 3.3/NND No. 785020

ienza, e interrogare i risultanti gruppetti in modo che il piu zelante ed intelligente dia le informazioni alla presenza dei suoi compagni, i quali potranno dare una conferma o contradizione di queste.

(ii) Le generalizzazioni fatte dai rifugiati sono per lo piu inesatte. E importante quello che hanno visto con i loro occhi. Nel caso di quanto hanno sentito dire, bisogna stabilire la sorgente della notizia e riferirla nel rapporto.

(iii) I rifugiati hanno per lo piu informazioni utili su i depositi ed il sistema logistico nemico; ma queste devono essere specificate. Per esempio, e inutile sapere che c'e un deposito di munizioni in una regione, senza sapere se questa informazione si riferisce ad un deposito importante presso una ferrovia, oppure semplicemente a poche cassette di proiettili accatastate lungo la strada.

(iv) Anche quelle informazioni date da personale militare devono essere vagliate prima di trasmetterle, poichè la loro accuratezza puo andare soggetta ai travagli del viaggio compiuto dal interrogato.

(v) Valè la pena di interrogare tutti coloro che hanno comunque lavorato con i nemici, specialmente: (a) interpreti, che conoscono i nomi degli ufficiali e che viaggiano con loro; (b) personale adibito dal nemico ad opere militari.

(vi) I nomi degli ufficiali nemici sono utilissimi.

(vii) Determinare il piu esattamente possibile le posizioni di opere militari e di depositi. E necessario tempo e pazienza per ottenere dati precisi, ma cio deve essere fatto, perchè l'informazione sia valida. Le fotografie aeree sono di grande aiuto.

(viii) E importante che il rifugiato non guardi la carta topografica, finche non sia determinata esattamente su questa la informazione data.

(ix) I rifugiati chiamano qualsiasi carro armato, cannone semovente, o autoblindata cingolata, un "Tigre".

(vii) Determinare il piu esattamente possibile le posizioni di opere militari e di depositi. E necessario tempo e pazienza per ottenere dati precisi, ma cio deve essere fatto, perchè l'informazione sia valida. Le fotografie aeree sono di grande aiuto.

(viii) E importante che il rifugiato non guardi la carta topografica, finche non sia determinata esattamente su questa la informazione data.

(ix) I rifugiati chiamano qualsiasi carro armato, cannone semovente, o autoblindata cingolata, un "Tigre". Sara percio necessario, con opportune domande, stabilire esattamente di quale tipo si tratta. A tale scopo l'interrogatore dovra impratichirsi dei vari tipi di carri armati nemici.

(x) Bisogna distinguere tra un autoparco stabile e un autoparco di sosta.

(xi) Notare la differenza tra mine anticarro ed esplosivi per demolizioni.

(xii) Anche se i contrassegni degli automezzi descritti dai rifugiati sembrassero erronei, tenerne conto.

(xiii) I rifugiati, pur non sapendo come si chiami un reparto nemico, sanno sovente gli ultimi spostamenti dello stesso. L'informazione circa essi puo contribuire ad identificarlo.

(xiv) Spesso i rifugiati conoscono mulattiere e sentieri che non sono segnati sulle carte topografiche.

(xv) E di essenziale importanza conoscere le vie adoperate dal nemico; cio perchè molto del movimento e notturno, sottraendosi alla ricognizione aerea.

(xvi) Luoghi di concentramento, di smistamento, di scarico viveri, esattamente determinati, costituiscono ottimi bersagli per l'artiglieria.

(xvii) Tener presente che le fotografie portate dal rifugiato specialmente quelle concernenti strade, ponti, e fiumi, possono essere di grande utilita, e devono quindi essere alligate al rapporto.

(xviii) Poichè quasi tutti i rifugiati non distinguono i punti cardinali e dicono abitualmente "a destra (sinistra)", acciochè l'interrogatore possa determinare il punto esatto sulla carta topografica, dovrà aver chiara la direzione verso la quale il rifugiato si dirigeva.

(xix) Quando un rifugiato menziona un osservatorio, si deve domandare da quanti fili telefonici esso sia collegato e da quale direzione essi provengano.

(xx) Non si deve confondere sentinelle o vedette con osservatori. Informarsi dove il rifugiato ha visto il posto o sentinella nemica piu avanzata, e come ha fatto a superarla.

(xxi) Per non essere ingannato da un troppo zelante informatore o da un agente nemico accuratamente istruito, e necessario che l'interrogatore sia al corrente della situazione del proprio settore, sia aggiornando i suoi dati (ivi compresi carte topografiche opportunamente segnate) che integrando nella propria scheda le informazioni che a tale scopo gli perverranno dal suo Comando.

(xxii) Anzitutto si tratta, per l'interrogatore, di limitarsi ai fatti, evitando ogni deduzione personale e guardandosi bene dal constringere il rifugiato a dire una cosa che l'interrogatore, per confermare una sua teoria, vorrebbe sentire.

(c) Varie.

(i) Far si che l'Ufficiale Informazioni ("G.S.I."), il Comandante del Genio ("C.R.E.") tengano l'interrogatore informato delle notizie loro necessarie. Interessa il Genio la descrizione accurata di strade, fiumi, ponti, e specifiche localita.

(ii) Informarsi quali degli abitanti locali siano pratici della zona. Anche se non per interrogarli, e necessario averli a disposizione; a tale scopo bisognera informare la polizia militare che tale individuo e di interesse militare e che percio non puo allontanarsi dal luogo senza permesso speciale. Da questo punto di vista le persone piu utili sono: ufficiali catastali, geometri, ingegneri stradali, impiegati ferroviari, impiegati delle opere di bonifica, guardiani, proprietari latifondisti, e chiunque abbia lavorato a strade, ponti, dighe, canali, e forne.

2. COMPILAZIONE DEL RAPPORTO.

(a) Il formulario allegato deve essere sempre seguito, per ragioni dettate dall' esperienza.

(b) Fa d'uopo che la segnalazione dei vari paragrafi nel rapporto si svolga sempre in modo consecutivo; cioe, quando cadra un paragrafo per mancanza di informazione, si applica il numero o la lettera logicamente necessaria senza attenersi a quella data alla materia nel formulario.

(c) Riferire con esattezza la fonte dell' informazione, la data a cui essa si riferisce, e quando possibile l'attendibilita dell' informatore.

(d) In caso di informazioni complesse, per esempio grandi campi minati, estesi depositi, cercare di ottenere uno schizzo.

TRANSLATION

Appendix "C"

Matters relating to Italian Officers attached to Eighth Army units, which are still outstanding.

1. N. 1591 of 2/4/44 of the Liaison Mission at AAI to the Ministry of War (Gabinetto) requesting a special allowance for these officers to bring their total monthly salaries up to Lt. 6,000.

As the officers and their batmen were not able to meet their expenses with the salary and allowances they had, Lt Colonel di Villanova paid them the allowance mentioned in item (a) of circular 5800 of the Ministry of War, wef the day of their joining their units. Now the Ministry with its n. 10317/1 of 10 July 44 orders that the mess expenses are to be reimbursed to the officers of the Nucleo I who operate at the front line with British units, and does not give any order about the batmen who are in the front line as well.

And so, as the officers will be treated according to the Ministry of War letter 10317/1 wef 1 July, the Ministry is requested -

a) To approve what was already done by the Nucleo, that is the payment up to 30 June of the allowances mentioned in the circular 5800 to the officers and other ranks, because their salary is usually less than their mess expenses, deducted the daily amount of 15 lire.

b) To give to Italian other ranks in the Nucleo I an allowance as laid down for all the Italian soldiers who are in fighting units. 2407

2. N. 2364 of 30/5/44 of the Italian Military Mission to the Ministry of War (Gabinetto) asking for the grant of the medal and and certificate of volunteer to 12 officers and other ranks who, since last Autumn, are attached to British fighting units. No answer.

Pratiche concernenti ufficiali Italiani in servizio al Nucleo I presso 8 Armata che non sono state portate a termine.

I°) Con n. 1591 in data 2/4/4 la Missione di Collegamento presso l'A.A.I. ha interessato il Ministero Guerra-Gabinetto- per assegnare agli ufficiali un'indennità integrativa per raggugliare il complesso degli assegni a L. 6000 mensili. In attesa delle risposte poichè gli ufficiali ed i loro attendenti non avevano la possibilità di far fronte alle spese con il solo stipendio ed indennità, il Nucleo ha corrisposto loro dal giorno che sono entrati in linea l'indennità di cui alla lettera a) della Circ. 5800 del Ministero. Il Ministero adesso con N. 10317/I del 10/7/4 dispone che agli ufficiali del Nucleo I (che prestano servizio in linea con reparti Britannici) venga corrisposto il risborso delle spese a pi' di lista, e non prende alcuna disposizione in merito agli attendenti, che, come i primi sono in linea.

Perciò mentre sarà provveduto per gli ufficiali nel senso specificato dal 2406 10317/I del Ministero a decorrere dal I° luglio si prega:

1°) sanzionare quanto già fatto dal nucleo, ossia corresponsione fino al 30 giugno delle indennità di cui alla lettera a) della Circ. 5800 ed ufficiali e truppa dipendenti, tanto più che la somma corrisposta in generale è inferiore alle spese sostenute, detratta la quota giornaliera di L.15.-

2°) provvedere ad assegnare ai militari del Nucleo una indennità com'è prevista per tutti i soldati Italiani che sono, ripeto in reparti operanti, e meno di non corrispondere ad essi l'indennità di missione.

April 1944.

Notes for the use of Italian Officers attached to the British Army

The following suggestions on the best way to establish cordial relations with British officers are compiled by an Italian officer who has been attached to various British units during the last six months.

---

1. Some basic points.

a. The British are profoundly observant, however much their composure and self-possession may give the opposite impression.

b. The British pay the greatest attention to personal appearance and ease of manner. Some hints as to dress will be found in part 2; ease of manner is important because our manners are the expression of ourselves.

c. It should be made clear that these notes are NOT designed to suggest that you should imitate British manners; this, like any other imitation, would be ridiculous and undignified.

d. You should try, instead, to be natural, avoiding only the exaggerations of the Latin temperament, which, systematically applied to public and private life in recent years, have so tragically ruined our country. Be yourself, open and natural, as befits a man who has a useful job to do, and not mentally on the defensive as if feeling that you must justify or explain recent political and military events.

Avoid political discussion: remember that the ordinary British officer has little or no interest in politics, particularly past Italian politics.

e. The British attitude to life is largely influenced by their sense of humour. It is difficult to give an adequate definition of this quality: but a sense of humour, in part, consists of regarding oneself and one's conduct as critically and as severely as one regards the failings and weaknesses of others.

f. Adapt yourself cheerfully to unpleasant physical conditions or mental strain: try to see the comic aspects, and don't grumble. Remember that a large number of people who in peacetime are accustomed to live like us, or in some cases better than us, have been compelled through no fault of their own to live in dangerous and uncomfortable surroundings. Another reason for never complaining is that Italian officers

are, from the nature of events, the guests of British units.

2. Practical hints.

a. Dress. The simplest uniform practicable; no jack-boots, leggings, or gold braid. In this connection arrangements have been agreed to between the British and Italian authorities for the simplifying of Italian uniform for officers attached to British units. It is a good thing to have a change of uniform (khaki tunic and long trousers), to change into for dinner, where possible.

b. Always shave before breakfast, however uncomfortable the conditions.

c. To begin with, you will find that British officers will go out of their way to make you feel at home, and to explain your duties to you. Then will follow a period which you will not expect and which may puzzle you; after the formalities of the first few days, British officers will expect the new arrival to look after himself, find his feet, and generally prove his value. This does not imply any unfriendliness, but is only the usual practice in the British Army. Once past this stage, when he is, as it were, under observation, the Italian officer who passes the test will find that he is completely at his ease.

d. It will, therefore, make an excellent impression if, as far as his duties permit, the Italian officer uses his own initiative without running for help in any difficulty to the nearest British officer.

e. When meeting a British officer the Italian officer should introduce himself, stating his surname and adding "I am an Italian officer". Then shake hands without hesitation. In everyday life in the British Army you do not shake hands, but only give a verbal greeting.

f. Remember that British officers are not, and do not want to

f. Remember that British officers are not, and do not want to be, militaristic: do not indulge in any excessive saluting, and avoid standing stiffly to attention or heel-clicking. All this makes a bad impression, as savouring of Prussianism.

g. Get up whenever the C.O. approaches you or enters the tent or room where you may be.

h. Don't be surprised or embarrassed if conversation flags, or if there are any general or individual silences. The British are by nature taciturn, especially in the morning.

i. Acknowledge salutes from the other ranks cheerfully and with a smile. In the case of troops of your own unit add a "Good morning etc".

j. Remember that British officers have the greatest concern for their men. It is inconceivable for them to think of their own comfort without having personally assured themselves of the comfort of the men under their command. Remember this particularly when you are out with a British driver.

/3...

k. If there are guests in the Mess, do not leave before the last guest. If called away by duty, make your excuses to the senior officer present.

l. Reduce to the minimum the Latin habit of exaggerated courtesies. For example, when going through a door make only a slight indication to anyone with you that he should precede you: if the officer returns the compliment, go through first without making a fuss.

3. Conclusion.

Italian officers will ~~soon~~ realise that the British Army fights a war with the skill and cheerfulness of a football team, trained to work together and keyed up to win.

It will be the task of Italian officers attached to British units to prove that they can do an efficient and useful job, as well as showing that, contrary to the grotesque assertion "Less monuments and more flags", the Italians are still a people who cultivate and respect those civilised values in which our country has excelled.

1. Large numbers of English-speaking Italian Army personnel will be required shortly to assist in the reorganisation of combat troops.

2. The SMRE, owing to a variety of causes, have lost track of a great number of Italian Army LOs and interpreters employed by the Allies.

3. In order to be able to redistribute LOs and interpreters economically will you please obtain, from Armies and Districts, nominal rolls of all Italian Army LOs and interpreters held, other than those held on authorised WEs.

4. The nominal rolls, which are required as early as possible, should be sent direct to MMIA, copy to this branch.

for Brigadier,

Ref: your signal 647I of 29 June re. Maggiore GIAMMINOLA.

1. A liaison party including Maggiore Giamminola, a lieutenant, and four men arrived from BARI at VASTO on 21 July.

2. Area was considerably surprised to hear of this number, and after consideration all were returned except Magg Giamminola and his batman.

3. The problem of finding work for this Italian liaison officer has been difficult. His value without means of transport is very small. He has no hopes of getting any vehicle.

4. Area has decided to station him at CH IETI, where there are most Italian troops. There he can hold a watching brief on behalf of Area and supply them and me with any information we may require.
