ITALIAN TROOP ORGANIZATION

1. All Italian troop units hitherto placed under command of Commanding General, Peninsular Base Section, are reorganized and redesignated, effective 1 May 1944, as indicated in the enclosed tabulation.

2. This tabulation indicates: the new designation under which the units will hereafter be known; the former Italian designation; the Italian organization for administrative, disciplinary and supply control; the U.S. unit to which attached for training and operational control; and the authorized strength to which the unit will be brought as fillers become available. Also indicated are the units yet to be received, as further Italian troops become available for Peninsular Base Section utilization.

3. All Italian headquarters units, including battalion headquarters, will be reserved to the Italian command for overhead and administrative purposes.

4. All "Service Battalions" will be used as guard or labor forces under operational control as indicated (Reference Standard Operating Procedure on "Italian Army Unit Utilization", Peninsular Base Section, 20 April 1944).

5. All other units will be trained and operated by the U.S. counterpart unit to which attached, to the end that they might eventually fully replace the U.S. unit, (same reference as 4 above).

6. Hereafter these units will be designated by the new titles shown, as: "3rd Port Battalion, (Italian)", except that the Group Headquarters will also carry the old Italian designation as: "Headquarters, 1st Provisional Group, Italian (Headquarters, 512th Fanteria)". (AG 322 SPGCT)

GENERAL ORDERS)
NO.....96)

27 May 1944

PBS 40299

ITALIAN TROOP ORGANIZATION

1. General Orders No. 79, this Headquarters, dated 3 May 1944, above subject, is hereby rescinded and the following substituted therefor.

2. The urgent need for clarifying and re-establishing the military chain of command amongst those Italian Army units, placed by AAI under the command of PBS, necessitates a reorganization of those units at this time. The changed requirements of Communication Zone activities now necessitate redesignating many of these units, so that they may be specifically trained (as Class "B" units) for specialized functions, by the U.S. units to which they are attached for operational control.

3. Effective 31 May 1944, each Italian Army unit listed in the enclosed tabulation will be redesignated as indicated, and will thereafter be officially referred to by the designation only, followed by the word (Italian) in parenthesis.

4. The tabulation indicates for each unit: the new provisional designation; the former Italian designation; the "class" of the unit; the authorized strength; the organization for Italian administrative control; the U.S. unit to which attached for operational control; and the new location to which the unit is to be moved.

5. Each unit so indicated will be moved, to the new location designated, prior to 31 May 1944. The moves will be mutually arranged for by the U.S. commanders involved. The Transportation Section will arrange for such transportation as cannot be provided by either of such U.S. units.

6. All adjustments and rearrangements of duties necessitated by these changes, are to be made by the U.S. units involved, so as to free the units necessary to be moved at this time. The detachment or release of any small detachments, groups, or parts of units, necessary for compliance with these plans, are hereby ordered.

7. These Italian units will be handled in strict conformance with "S.O.P. for Italian Army Unit Utilization," PBS, 20 April 44. All matters of their supply will be governed by PBS Circular No. 56 (Revised) 24 May 44. No variations in these procedures are authorized, and no exemptions can be granted to the reorganization here ordered. Particular attention is directed to the widely different status in, and U.S. commander's responsibility toward, Class "A" and Class "B" units, as defined in the SOP above referred to. (AG 322 BPINO)

Ref Appendix "B" to your SD/33/1 of 23 March HH.

1. Attached Order of Battle of to-day's date shows the Italian units actually with 5 Corps

2. Further, Gen PROPERZI has requested that his Main HQ be moved from FURCI to somewhere inside the Corps area nearer Corps H.Q. Corps is in agreement.

3. Should this move be authorised, Rear I.F.H.Q would, I understand, be brought nearer to HQ 60 Sub Area.
