1. CANTORE SCHOOL.-
A threatened demonstration of women and children outside 2 Territorial Hq. on the 25th Oct was averted in view of the School in Via Cantore occupied by Italian Troops, being evacuated and given back to the Italian Educational Authorities. The new premises for these troops are adequate and suitable. The CC Guard Battalion had a "rough time" in his office on the 23rd Oct but now all is well.-

2. PRINCIPE DI PIEMONTE.-
These premises are still occupied by the the "Albergo dei Poveri" and the alternative accomodation offered at Villa Sanitas is unsuitable. The Prefettura is writing to this office his case for retaining these premises as an orphenages; this will be forwarded as soon received. Other suitable accomodation i.e. Hotels etc. are available in Genoa area. This office is of the opinion that in view of the fact that the Orphanage was founded by Public subscription it is bad policy for the building to be requisitioned by the Italian Military.-

3. Commissariato Recuperi (controlled by the Prefettura) refused to release Italian Army Supplies to 2 Territorial Command saying that such Supplies, Stores etc have been frozen by the Allies. This was checked with AMG Genoa who stated they had frozen stocks etc but only to prevent the Commissariato Recuperi selling same. 1. AMMUNITION & EXPLOSIVES

Owing to the shortage of PCI it has been necessary to stop the transfer of ammunition from the Genoa forts. Territorial Command has been instructed to apply for a supplementary allotment. The Territorial Command used 80 % of its entitlement during the period 1-15 October. The retention of ammunition dumps within the City area is dangerous not only from the point of view of explosions but also encourages unruly elements to loot. It is necessary for Allied Transport to be supplied on an allotment of PCI to be given for the use of ammunition transport.

2. ATTACKS TO DUMPS EX-FORTS

(a) Since our letter GEN/1/G dated 16 Oct informing of the attack on Angeli's Fort that caused the death of a guard on sentry duty we have to lament no further attacks on Forts or Dumps near and round Genoa.

(b) It is however stressed the importance to clears as soon as possible all such Forts or Dumps of all ammunition and explosives.

(c) Obviously until that the Forts are not cleared of all such materials there is a latent danger to life and property. It is evident that there at large a body of men that, for ends difficult to understand, have no respect to life and property.

1. AMMUNITION & EXPLOSIVES

(a) Capt. Armstrong L.O. 2 District has held a conference at the 2 Territorial HQ. with the Artillery Directorate imparting the latest dispositions from A.F.H.Q. for the disposal of all such materials.

(b) Such dispositions are in course of execution.

2. DEMONSTRATION PRO-COSTITUENTE

(a) Yesterday, Sunday 14th inst., a large demonstration has paraded the town's centre pro-costituante. It was evident that all the people were called on by "order" from the Socialist and Communist chiefs, something too much similar to the "commanded" demonstrations of fascist time.

(b) There were the inevitable speeches by the leaders or would-be leaders. However the demonstration was orderly.

(c) 22 years of Fascism has created an habit to such demonstrations by command. Nevertheless not all the common sense has been lost because although expressed in different words many condensed their feelings with remarks that may be traduced with the expression " The words have changed but the music is the same".

3. ATTACKS TO DUMPS, ex-FORTS etc.

(a) There has been lately no further attacks by unknown armed bodies to Dumps and Forts.

(d) It is evident that the object of such attacks is not to get hold of the material. To such end trucks ought to be in the neighbourhood etc.etc.. The object seems to be to keep the population under a state of alarm, and create with the general public the impression of a strength that is not in reality existent.

2. Labour troubles.

a) Rumours of possible disturbances on the 1st October by the labourers owing to the end of employment block caused a conference between General Frattini, Commander 2 Territorial Hq., Genoa and Col. Purves, Commander 60 Sub Area, Genoa. Were also present Col. Purves' Security Officers.

b) No great weight was given to such rumours, all informations obtained by the Security Office pointed out that the labourers, as a class, were quite calm, but, of course, some extremists were trying to excite them to some action.

c) However Col. Purves decided to have here on Sunday a squadron of armoured cars and to parade them on Monday, as a healthy tonic, in town.

d) So far everything is quiet and calm. No disturbances are anticipated, specially that at the eleven hours the block forbidding dismissal of labourers has been extended until 15th October 1945.

3. Explosion at Lagaccio

a) Last night an explosion took place in an ammunition dump controlled by No.2 Territorial Command, Genoa.

b) No loss of life is to be lamented, and no precise informations have been available as to damages to property.

c) This is the second explosion taking place during the last month.

Un'altra polveriera salta all'aria
sulle alture del Lagaccio

Nessuna vittima malgrado la terribile violenza dello scoppio - Le cause del sinistro dovute a dolo - La popolazione di Oregina chiede in una imponente dimostrazione la rimozione di tutti i depositi di esplosivo in prossimità dell'abitato

A breve distanza di tempo dallo scoppio della riservetta detta della Prefettura, che tanto panico aveva gettato nei quartieri di Oregina e del Lagaccio, questa notte verso le quattro un'altra terribile deflagrazione ha nuovamente messo in allarme la popolazione che, destata nel sonno, è stata costretta ad abbandonare le abitazioni per timore di nuove esplosioni.

Questa volta non si hanno fortunatamente a registare vittime umane e neppure feriti. Lo spostamento d'aria non ha infranto gran quantità di vetri, in quanto questi erano già stati rotti dallo scoppio precedente. Sulle cause dello scoppio si hanno fondati motivi per ritenere che sia dovuto a dolo. Tutto il sistema montano adibito a polveriera è guardato notte e giorno da sentinelle.

La riservetta — quella precisamente detta del Lagaccio inferiore — che conteneva proiettili spoletta] e cartucce rastrellate è stata fatta saltare mediante una scarica di fucileria sparata da oltre 500 metri. Le sentinelle accortesi in tempo del pericolo si sono potute riparare nei rifugi sfuggendo così a sicura morte.

Tutta la popolazione di Oregina questa mattina si è recata sotto il balcone della Prefettura per ottenere che tutte le polveriere in prossimità dell'abitato siano sgomberate, che tutti gli abitanti che hanno passato tanto tempo sotto la minaccia dei bombardamenti possano dormire tranquilli senza l'incubo del pericolo tanto vicino.

La giusta richiesta della popolazione è stata accolta e fatta sua dal Sindaco Faralli, che si trovava presso il Prefetto.

Il Sindaco Faralli ha parlato alla folla dimostrante significando che le autorità cittadine avevano già elevato protesta perchè quella militare non aveva ancora provveduto a sgomberare la polveriera del molto materiale esplosivo ivi accumulato e di aver fatto nuovamente presente l'urgente necessità di liberare la Grande Genova di tutti i depositi di munizioni e di esplosivi. Nel tempo stesso ha assicurato gli abitanti di Oregina che sarà fatto tutto il possibile perché al più presto funzioni l'acquedotto e sia rimessa in efficienza la linea della corrente elettrica, gravemente danneggiate dalle due ultime esplosioni.

Nel colloquio avuto poi nel gabinetto del Prefetto fra il sindaco Faralli e il comandante generale d'Artiglieria sono stati presi accordi perchè lo sgombero del materiale esplosivo avvenga nel più breve tempo possibile, chiedendo al comando alleato i necessari mezzi di trasporto.

Il nuovo doloroso episodio dimostra ormai che non è più possibile ritardare ancora la soluzione del problema di trasferire lontano dall'abitato tutti i depositi di esplosivo che — in tragica catena di morte e di distruzione — contornano Genova. Si-no ad ieri si poteva ammettere che le necessità belliche esigessero che polveriere e riservette di munizioni fossero sistemate sulle alture della città in prossimità delle batterie per la difesa antiaerea e costiera. Ora non più. La guerra è finita, e tutta la sua bardatura, specie quella che può ancora significare nuovi lutti e nuove rovine deve essere smobilitata. Per questo non si devono ammettere possibilità di ritardi. Indugiare in questo campo è delitto.

La dichiarazione dell'autorità che l'incidente è dovuto ad azione dolosa non attenua l'urgenza del provvedimento. Se mai c'è solo da aggiungere l'esecrazione nuova per gli ignoti attentatori che non si peritano a mettere in pericolo per le loro inconfessabili ragioni la vita di centinaia di persone

le operazioi di scarico.

Nelle ultime 24 ore ho veduto con i miei occhi tre treni di 60 carri ciascuno partire per l'Austria carichi di benzina e di generi alimentari.

Uno de problemi più ardui che l'amministrazione militare si trova tuttavia a dovere affrontare è quello della disoccupazione. Su circa mezzo milione di lavoratori di Trieste e della Venezia Giulia ventimila circa si trovano senza lavoro. E' stata istituita a Trieste una apposita commissione incaricata di studiare il problema e cercare di procurare nuovi impieghi. Il governo militare alleato ha per il prossimo futuro un piano fondato sui seguenti due punti: primo: opera di recupero delle navi affondate nei porti di Trieste e Pola; secondo: importazione per quanto è possibile di cotone grezzo in modo da rimettere i grandi impianti tessili di Gorizia e di Pola.

Si apprende che sono attesi fra breve i primi arrivi di cotone. Il disagio tuttavia non è grande dato che l'indennità di disoccupazione concessa dagli alleati è superiore perfino a quella proposta dai sindacati.

La situazione alimentare, per quanto desti ancora qualche preoccupazione, è infinitamente migliore di un mese fa. Anche dal punto di vista politico l'atmosfera è calma. Il recente sciopero è avvenuto con ordine e senza episodi di violenza.

I soldati del maresciallo Tito di stanza nella zona di Trieste sono soltanto duemila. Un ufficiale superiore britannico ha dichiarato: «Si comportano benissimo. Non si è verificato alcun incidente degno di nota». Un esempio della collaborazione alleata è fornito da una recente cerimonia

potuto — ha proseguito il Santo Padre — solo col riconoscere la sovranità di Gesù Cristo unicamente entro l'ambito dei suoi comandamenti si potrà godere quella vera libertà, si potrà trovare quella sospirata giustizia sociale, quella indispensabile armonia di aspirazioni e concordia di sentimenti senza le quali mai nessuna pace potrà sussistere. La pace, la carità, la gioia sono frutti esclusivi dello spirito di Dio».

Alfredo Palacios, al suo arrivo a Montevideo ha proclamato che entro due mesi la rivoluzione rovescerà il Governo del generale Adelmiro Farrel. Egli ha dichiarato: «La situazione attuale in Argentina non può durare ancora più di due mesi. Uno sciopero generale paralizzerebbe tutte le attività del paese e la marina si porrebbe poi a capo del movimento che porterebbe alla caduta della dittatura.

Thus, a certain amount of the routine office work cannot be easily carried out by him.

3. I mentioned this point in my letter SLON/A/1 of 18 Sep, in which I requested the appointment of an L.O. for GENOA other than the ST representative.

4. For your information, most out-stations have an Italian L.O. attached from the local Territorial HQ, and their work is invaluable.

a) Provincial Commissioner Lt.Col. McPhee called on the 20th inst. a conference at AMG. Genoa Province Offices to discuss, with the assistence of Allied officers, the above subject betweem the Prefettura (Comitato Ricuperi) and Italian Military Authorities (No.2 Territorial Command).

b) The arguments of Comitato Ricuperi (Mr.Queirolo) were not very constructive. The largest part was personal tending to indicate and justify actions by Comitato Ricuperi and his men as ex Partisans. Lt.Col. McPhee had to call him back two or three times to the subject under discussion.

c) Major Davies(PAB) Mines Offr - 60 Sub Area declared that the collection, handling, storage of ammunitions and explosives done by Comitato Ricuperi was simply bestial. He closed his remarks by saying:" How no more serious accidents did not take place I do not know".

d) After further general exchange of arguments by General Frattini, Commander 2 Territorial, Col. Almici, Avv. Pertusio (Vice-Prefect) the following was agreed upon:
1. Immediate visit by Italian Military Authorities to all dumps at present under Comitato Ricuperi's management and/or control.
2. All Italian Army materials to be handed over to No.2 Territorial Command, Genoa.
3. Civilian material to be dealt with by Comitato Ricuperi.
4. All other materials (American, British, French, German) to be disposed as per Allied's instructions.

e) Port of Genoa. Someone called attention to the vast amount of larceny taking place daily in the Port. Such robberies to run into very high figures. Everybody agreed that more sever control should be exercised, but when it came to indicate the authority to take charge no reply was found. In other words, it was not clear whether it was a matter for the British Navy or Italian Navy, Allied Military Command or Italian Military Command.

2. Load Carriers: 10% of profit if consigned to Cooperative.
3. Horses: from 70 to 150 daily according with the type of animal.

Informations received by the CC.RR. state that the turn-in of profit is carried out by the Prefettura of Savona and not to Intendenza di Finanza.

g) Public opinion: a) The sane part of the public opinion is greatly disturbed by the above facts, that is the attitude of certain bodies manned by Partisans or so called Partisans. Many people point out that it is another form of fascism when "Marcia su Roma" or "Squadrista" were titles to occupy places for which they had neither preparation. nor competence.

b) The Prefect's attitude is often a disturbing factor for the best part of the public, thus it is said that political or party convenience is the dictating factor instead of the public general welfare.

c) Many hope in the Allied intervention to clear away what is only a continuance of older systems, many do not hope any more, some slip on the profiteers lines having lost all faith.

1. On 13th Sept, in Genoa, locality Lagaccio an explosion occurred in an Ammunition dump controlled by the Comitato Ricuperi under the management of the Prefect. The explosion caused the death of three persons, about 100 wounded and damages to nearby buildings.

2. On the following morning General Frattini, Commander No.2 Territorial Hq., had a conference at 60 Sub Area with Major Perry (DAAQMC) and Major Davies (PAD Mines Offr).

3. General Frattini informed:
a) that as far back as July last he wrote to the Prefect pointing out that ammunitions and explosives were handed by a body of incompetent men;
b) the danger to lives and property arising in consequence;
c) that all activity regarding the collection of ammunitions, explosives and Italian Army Material should be handed over to No. 2 Territorial Command;
d) that no reply was given to his letter and a visit made to the Prefect did not give any satisfaction;
e) that Comitato Ricuperi which is the body created by the Prefect of Genoa continued indifferently the collection of ammunitions, explosives and all sort of materials including Italian Army Property;
f) that material was sold to private body.

4. Further General Frattini explained the birth of all such Comitato Ricuperi. The 5th Army, when no Italian Military Commands were on the Zone, gave order to all Prefects to collect materials, especially for public safety, ammunition and explosives. To day such conditions do not any more apply therefore the collections, the dumps etc. should be placed under control of No.2 Territorial Command.

General Frattini went over the same ground as set above. The following measures have been taken and orders issued by A.M.G. HQ. Genoa.

a) Passage of all ammunitions and explosives dumps to No.2 Territorial Command, Genoa;

b) Collection of ammunitions, explosives and Italian Army Property to be done only through No.2 Territorial Command, Genoa. No further interference of Comitato Ricuperi is admitted.

6. Already the Prefect's personnel charged with the collection and storage of ammunitions and explosives has been placed under order of No. 2 Territorial Hq. . In regard to other materials no difficulties are anticipated.

1. Capt. Benetti left for Rome on the 4th Sept., and any normal routine matters are being dealt with by Capt. Cotton, S&T L.C.M.M.Italy. However, the following major matters have arisen and have been passed to Major Bird in Milan.

a) Illegal removal of amn from Portofino(reed this off.7/9/45)
b) Entry into Recruiting Office of Savona Prov. " " do
c) A visit from AMG Education Dept.in connection with the removal of all Italian troops from Schools; it was suggested that AMG communicate direct with Major Bird.

2. S&T Points.

1.Supplies - Supplies for second half of Sept Maintenance are proceeding satisfactorily. Approx. 120-130 Tons are being lifted a day. It is necessary to have a British representative always at the D.S.D. and Railway sidings otherwise the loading would never be completed. The completion of Sept Maintenance is expected by to-night the 8th Sept. Monday the 10th will see the commencement of the distribution of 60,000x30 rations released during the period 6-20 Sept.

2.Visit and Inspections -

a) Col. Landolfi visited Genoa on the 3rd Sept. and requested a visit to a British Installation and a visit was arranged to 42 B.S.D. during which the Col. displayed great interest. Afterwards the Italian Bulk Depot was visited. For about three weeks the Genoa Commissariato have been repeatedly told to look for additional accomodation for the Bulk Depot,but said none was available; however Col. Landolfi and Capt. Cotton located further accomodation at the Mira Lanza Soap Factory, approx. 1/2 mile from present location.

b) An inspection was carried out on Genoa Dist. Depot and various points were brought to the notice of the CO who stated he would rectify asme. It is suggested that Lt. Minarile be found other employment as he has little supply knowledge.

c. Conferences:
Routine conferences, Gen Frattini, Lieut Col Mc Phee, Capt Ducet, Delegation Naval Francaise à Gênes, Major Hepburn, War Disposal.

d. Items of interest:
The City of Genoa in my opinion is another Naples with a little more "refinement". Outside of my office window in front of Columbus' House flourishes the biggest "Black Market" in NW Italy. One can buy almost anything from these "curbstone" merchants. I can see the "light of day" why Columbus went seeking other lands.

"G" Matters

APPX "A"
G/31

1. No "open" French problems.

2. Tho, there are French officers circulating about for the purpose of recovering French materials. On or about the 26th August 1945 I was visited by Captain de Fregate Douet, "Chief d'D.N.F."; he stated to me that he was here in Genoa to collect French equipment etc. and that he was authorized to do so by A.F.H.Q. I expressed my deep regrets to the Capitaine that I could not permit him to make inspections of Italian warehouses, etc. unless I was so ordered by HQ. M.M.I.A. Rome. I took the Capitaine's telephone number and address. (phone 56267 - Navy Home c/o 60 Sub Area). I advised him that he should keep in contact with me for furhter developements. The other Naval Captain working with him is Capitain de Vaisseau Delpouch. I have not seen in AFHQ Directives issued to us where the French were mentioned and it is my understanding that such equipment etc. come under the heading of "CEM".

3. In my liaison log N° 10 dated 25 August 1945, Appx "A"- "G" Matters, I reported facts about discovering an organization recovering abandoned materials. I held a conference with Lieut Col Mc Phee (A), Provincial Commissioner, Genoa; he stated that we could collect the Italian Army Property in the Sestri Depot. I am to contact Mr. Guirolo, Director of the Commissariato Ricuperi di Liguria; he is rather an elusive type "away" most of the time. I know the gentleman and will see him later. In the meantime, Major Hepburn, War Eqpt Disposal, came into the scene and he too had a look, and some of the equipment that General Frattini was "growing" about not being returned to the Italian Army is German or U.S. The Chief warehouseman of the Sestri Depot, belonging to the Commissariato Ricuperi di Liguria stated he had prepared a list of all items stored in this warehouse and that he passed it on to Capt Buckley.

4. In oneof my previous reports I stated that the Italian here could not get information on themselves. Attached hereto letters and documents about "Fratelli Milone" Shoe Factory explains my more seriuos vein.

Declassified E.O. 12356 Section 3.3/NND No. 785020

5. I had no previous knowledge about the shoe Factory. Colonel Giuliani called me and all excited told me about the Questore taking shoes belonging to the Italian Army. The next morning accompanied by Capt Cotton we visited the Shoe Factory. The Milone Brothers, owners, were there. Colonel Giuliani tried to take the remaining shoes finished or unfinished out of factory "by force". I prevented this because had he done so, the prestige of the Italian Army would have been "double zero" as I once stated that it is only being "tolerated" here. A compromise was hastily reached. Attached, see para 3, the Fratelli Milone had offered the shoes for sale to the Questore. The original copy accidentally got mixed up with my papers. The copy of the letter was returned to Mr.Milone with great apologies, he understands now.

Subject: Boots supply.

With reference to your letter 15th inst. n.2640/2b and to verbal agreement with our Director Mr. Milone, we inform you that for the manufacturing of well known 940 pairs of boots we miss of the shoe-edge, of which we did not receive the supply and that consequently we are compelled to purchase on the free market.

Such a purchase involves an increase in the price of 80 Lire per pair and in consequence said 940 pairs of boots will be sold at L. 980 per pair.

We beg you to confirm your agreement to the price in question, and thereafter we shall purchase the shoe-edge and the delivery of the shoes will follow, we hope, in a short time.

We avail ourselves of this occasion to ask you to kindly dispose for the paymont of the 300 pairs of shoes already delivery inasmuch as we cannot keep in suspence such amount which is necessary for the regular course of our business.

Trusting to be favoured, we thank you in advance and remain

S & T POINTS - NW ITALY

a - Transport.

The situation regarding transport is becoming more than critical especially in view of the forthcoming disbandment of 3 G.T. Coy. Twelve 3 Ton lorries will be required daily until 20th October if the plan laid down in HQ. MMIA ST/191 of 27 August 1945 is to be carried out, after that date 8x3 Ton vehicles will be sufficient.

b - Supplies.

1.- Allied Element.

Transfer to all Distribution Depots only commenced on the 30th August, despite the fact that C.S.M. Tudor in the absence of Capt Cotton, informed the Commissariato Genoa on the 26th Aug that September maintenance had been released and loading should commence immediately; loading finally commenced on the 30th after Capt Cotton's visit to the Commissariato Genoa on the 28th Aug 45.

Advance information was received that after released up to the 20th Sept from 42 B.S.D. supplies would be forwarded by rail direct from ANCONA. This change of plan being due to the closure of 42 B.S.D. The Maintenance Plan after that date depends on the location of the Bulk Depot. For economy in rail cars Milan would appear to be best location as the line is ANCONA-VERONA-MILAN-GENOA, but it is certain that Milan can not give such excellent Railway Siding facilities as are available at Genoa Bulk Depot.

2.- Italian Element.

Stock of Italian Provided Items in British Installations are in the progress of being transferred to Italian Depots and it is hoped that this will be completed by the 2nd September.

3.- Visits and Inspections.

a.- Two visits were paid to Colonel Giuliani, Commissariato Genoa, on the 27th and 31st August to discuss despatche to Distribution Depots etc.

b.- Whilst in Milan on the 25th August a visit was paid to the Distribution Depot accompanied by Major Kyle and it was found that an improvement had taken place since his last visit on the 18th August.

Declassified E.O. 12356 Section 3.3/NND No. 785020

c.- A general discussion took place on Supplies with Capt O' Donnel in Turin on 27th August and all appears to be satisfactory in that Territorial Command.

4.- General.

a.- On the night of 28th August 1945 the Distribution Depot of Genoa was broken into and 2000 lbs of tinned cheese was stolen; a full report will be submitted later together with reports from the Commissariato and Italian Police.

"G" Matters.

1. No French problems.

2. Reference list supplied to AMG, Genoa Province, Military Buildings in Genoa Province. At the request of AMG a list of Military Buildings in Genoa was supplied to them (see attached correspondence) as it was considered that it was in conformity with MMIA policy to assist in every way possible AMG even though it does not appear to be their policy to assist us.

3. The Prefect is making no attempt to hand over recaptured Italian equipment to the Italian Army. On 21 August 45 in the company of General Frattini and Colonel Almici we inspected the Depot Sestri (Fontarolo) No. 7 Via Giacomo Puccini, Genoa. This depot is being used by the Commissariato Recuperi di Liguria, Director Pillade Gucirolo, Palazzo Gaslini, No. 7 Via Dante, Genoa. This organization is a C.N.L. outfit and AMG has knowledge of their existence . This is entirely civilian (Italian) recovering all types of abandoned materials, etc. In the Depot Sestri I saw many items of equipment, Italian origin; also, French, German and American equipment lying about this depot; some of the items are: an M-1 U.S. rifle, G-I gas cans, a French Renault car, and Italian SPA 39 made expressly for the Italian Army; other types of vehicles camouflaged for war operations if closely scrutinized perhaps could be classed as Italian Army vehicles. Also, in this Depot were Italian Field phones, meat cases. I made note of the above items because I am of the opinion that no list has ever been delivered to any Allied Authority. I told the Chief warehouseman I was only observing and not "encroaching". General Frattini lacks diplomacy and tact; I had to check the General in his manner of approach. The General asked me if I desired to see their books; I declined because I was only observing and had seen the items physically there. The Commissariato Recuperi di Liguria has several depots filled with recovered property. Also an Ammo Dump under guard by ex partisans, S.Siro, Genoa. I saw the Director Gucirolo, a rather "cunning" individual and I said to him I would hold a conference with him

Declassified E.O. 12356 Section 3.3/NND No. 785020

on a later date. I uncovered the name of Capt Buckly (B), Liaison Officer for AMG Genoa Province for this recovery agency; he was quite perplexed. He agreed that we should have the Italian items but I told him we would later and take those items of Italian origin from them under a gentlemen's agreement. I quoted him para 9 c of Subject Disposition of Captured Enemy Materials in Italy, dated 22 June 1945. He appeared a bit disturbed; I tabled the matter and I am to see Lt Col Mc Phee on Monday for a further discussion on the matter. It is not my aim here to jeopardize my position here or M.M.I.A.'s. I will report about conference with Lt Col Mc Phee, Genoa Provincial Commissioner later.

At these Institutes of SANTA CORONA, Specialized Civil Hospital, First Cathegory, by law dispositions in force at present, there were permanently shelted 1500 bed-ridden people suffering from bones illness, limbs in general, and others from pleuritis, peritonities, tuberculosis etc. with a yearly movement of about 4300 people. During 1943 the inmate, civil and military, have been 4338.

In the actual circumstances and owing to transport difficulty, to shortage of food and sanitation material the inmate in the Civil Section are at the present date N°582 of whom N°374 in the ortho-paedic-Surgery and N°208 in the Medical Section. Furthermore the inmates in the Military Section are 49.

In June 1940 was created the Mutilated Center that has used the Institute's technical-sanitation implements which has worked regularly with good results. At the Ortopaedic workshop have been constructed the prothesis by specialized workmen.

In the Mutilated Center have been received N°1225 Mutilated or Moto-injuried but from July 1944 the activity has been greatly reduced owing to the almost total transfer of the Center.

The proptheeis apparatus furnished to mutikated Officers and soldiers have been N.2558 for the period June 1940 July 1945.

Out of the 49 inmates the military section N° 24 are Partisans, the other 25 are as follows:
N° 10 Officers ex Royal Army
" 13 Soldiers " " "
" 1 N.C.O. " repubblican army
" 1 German soldier prisoner of war.

The expences for all miliatry inmates were account of

The Genoa's Military Sanitation Directorate with letter dated 17th. July last N° SAN 771 M.L. has communicated the disposition dated 13th July 1945 c/o 60 Sub area, Genoa from Allied Control Sub Commission (Land Forces) to the Military Command Territoriale of Genoa were it is stated at paragraph 3° that the Partisans are civilians and therefore must be transferred from the Italian Miliatry Hospital to Civilian Hospitals. Furthermore paragraph N° 4 states that Partisans cannot be accepted any more.

With note dated 27th July last N° 339,1945, enclosure 4, this directorate has addressed to the Prefects of Savona and Imperia giving communication by copy of letter 13th July of this Sub-Section, Genoa, and asking that for the Partisans belonging

in part to Savona Province and in part to Imperia Province a Civil Authority should take on and defray the expences caused to the Institute.

Also the Partisans Associateion of Savona has been notified pointing out that all the Partisans inmates must be considered for all purposes as bed-ridden civilians.

Since that, up to the present, no Civil Authority has assumed the expences of the bed-ridden Partisans this Directorate find itself in the necessity to discharge the Partisans whom would thus be abbandoned to themselves.

It is the case of wounded and traumatics men through partecipation to Partisans'actions, all needing an ortoped c cure in a specialized Institute, some must be furnished with ortopedic apparatus. For all ot is imperative to continue the cure at Santa Corona.

This Directorate makes appeal to the humanitarian sence of the Allied Sub Commission of Control to authorise their permanence in this Civil Hospital remaininh for account of the Italian Militart Administration the expences converning them.

PIO ISTITUTO DI SANTA CORONA
PIETRA LIGURE

n. 339 13 Agosto 1945

Sig. Capitano P. Benatti
M.M.I.A. L.O.
c/o 60 Sub Area GENOVA

Presso questi Istituti di Santa Corona, Ospedale Civile Specializzato di prima categoria, secondo le vigenti disposizioni legislative, erano ricoverati permanentemente 1.500 malati, affetti da malattie delle ossa e delle articolazioni in genere, ed infermi con esiti di pleuriti, periteniti croniche, stati pretubercolari, ecc., con un avvicendamento annuo di circa 4[illegible]300 malati. Nel 1943 i malati accolti, civili e militari sono stati 4.338.

Per le attuali contingenze e date le difficoltà dei mezzi di comunicazione, la mancanza dei generi di vitto e del materiale sanitario, i degenti nella sezione civile sono alla data odierna n°568 di cui nella divisione chirurgico-ortopedica n.374, e nella divisione medica n.208. Inoltre i ricoverati nella sezione militare sono 49.

Nel giugno 1940 venne creato il Centro Mutilati che si é servito dell'attrezzatura tecnico-sanitaria degli Istituti, ed ha funzionato regolarmente con ottimi risultati. Presso l'Officina ortopedica sono state costruite le protesi da parte di personale specializzato.

Nel Centro Mutilati sono stati accoltiN.1.225 Mutilati e Motulesi, mentre dal Luglio 1944 l'attività é stata notevolmente ridotta in seguito al quasi totale trasferimento del Centro.

Gli apparecchi di protesi forniti agli Ufficiali e Militari mutilati, nel periodo dal giugno 1940 al luglio 1945 sono stati n. 2.558.

Dei 49 degenti nella sezione militare, n.24 sono Partigiani.

Gli altri 25 militari appartengono alle seguenti categorie: n. 10 Ufficiali dell'ex Esercito Reale, n.13 Soldati dell'ex Esercito Regio, n.1 sottufficiale dell'ex Esercito Repubblichino, n°1 soldato germanico prigioniero di guerra.

Le spese di spedalità di tutti i ricoverati nella sezione milita e erano a carico della Direzione di Sanità militare di Genova pel tramite dell'Amministrazione Militare di Genova(Sturla: Villa Sanitas).

La Direzione di Sanità di Genova con lettera del 17 luglio u.s. n° SAN 771 M.L. ha comunicato la disposizione del 13/7/45 C/C 60 Sottosezione di Genova della Sottocommissione Alleata di controllo delle forze terrestri, al Comando Militare Territoriale di Genova, dove é stato segnalato al Capo 3° - che i Partigiani sono civili e quindi devono essere trasferiti dagli ospedali militari italiani agli Ospedali civili. Inoltre al capo 4 é prescritto che nessun partigiano deve essere più accettato.

Con foglio del 27/7/45 n.339.1945 all.4 questa Direzione si é rivolta ai Prefetti delle Provincie di Savona e d Imperia comunicando copia della lettera in data 13 luglio di codesta Sottosezione di Genova e chiedendo che per i partigiani, provenienti in parte della Provincia di Savona e parte dalla Provincia di Imperia, un Ente Civile assumesse le spese della spedalità.

E' stata pure interessata l'Ass. partigiani di Savona segnalando che i partigiani ricoverati dovevano essere considerati a tutti gli effetti come malati civili.

Poiché sinora nessun ente civile ha assunto la spesa delle degenze, questa Direzione si trova nella necessità di dover dimettere i partigiani che verrebbero abbandonati a se stessi.

Si tratta di feriti e traumatizzati in seguito alla partecipazione ad azioni partigiane, bisognevoli del trattamento ortopedico presso un Istituto specializzato, ed alcuni devono essere forniti di apparecchi ortopedici. Per tutti é assolutamente indispensabile che continuino la cura a Santa Corona.

Questa Direzione fa appello al senso umanitario della Sottocommissione Alleata di controllo perché autorizzi la continuazione della degenza in queste Ospedale Civile, restando a carico del l'Amministrazione Militare Italiana l'onere relativo alle spese di spedalità.

Si prega di favorire un cenno di risposta. Ringraziando.

S. T. POINTS N.W. ITALY

A - TRANSPORT

An attempt was made to lay a basis for proper organization for 3 Italian G.T. Coy. These arrangements were however aborted by the news that the Company was to disband.
It has had a very unsatisfactory history as far as N.W. Italy is concerned, for neither the Company Commander nor his Hq. have ever arrived here.
Capt. Delia of this Company appears very keen, but is working under difficulties.
The Iti-Iti transport position does not appear to improve. AMG still retain Italian Army vehicles.

B - SUPPLIES

1) Allied Element

Transfer to Distribution Depots, including outlying ones, was completed by 19 August, and distribution has commenced. So far no complaints have been received. Considerable delay in submission of completed ST/8's has been caused by the local Comando Territoriale, who issued instructions to the effect that all units were Iti-Iti as from 6 Aug 45. All completed ST/8's so far passed to this office have been ~~wrongly~~ rightly scrutinised and in every case returned for revision of categories. C.C. Bulk Depot, despite prods by CSM Tudor, is very slow in submitting ST/3's to this office. CSM Tudor however, is clearing up outstanding vouchers, both ST/3's and AF's G1033, since my departure on release is now being effected.

2) Italian Element

Stocks of Italian Elements have been transferred from 42 B.S.D. to Bulk Depot, more are now arriving and will be transferred in due course. It has not been found expedient to unload direct ex ship to Bulk Depot, since the Italian items are discharged mixed with British supplies. All three Commissariati appear to have been quite successful in obtaining supplies of Italian items locally by contract. Complaint has been made by 519 Guard Battalion concerning the quality of the wine and Olive Oil. However samples were obtained which seem fairly reasonable, and no further action in this matter has therefore been taken.

Declassified E.O. 12356 Section 3.3/NND No. 785020

3) Inspections & Visits

Inspection was carried out of 2 Bulk Depot, Rivarolo; report has been submitted to you. It would appear that the floor space is hardly sufficient, but the local Command are unwilling or nervous of requisitioning further floor space.
~~Genoa Distribution Depot was also inspected. Report is being despatched under separate cover.~~

4) General

Milan Distribution Depot again complain of increasing feeding strengths. This caused a check to be made with Major Byrd and recent tentative information shows a probable increase in feeding strengths to 60,000.

To:- Capt. Benatti MMIA.LO. GENOA

Recently unknown persons have made renewed attempts to enter military premises located in the neighbourhood of Saluzzo.

At Savigliano, by the Trossarelli Barracks, attempts have been made to carry away some windows.

At Saluzzo some window-grates have been carried away from large huts located in Piazza d'Armi.

At Saluzzo, in the Vittorio Veneto Barracks, the door of a store has been broken.

In view of these facts, it is necessary a stricter guarding of the military premises which at present, owing to missing military personnel, are guarded by civil personnel, unarmed and insufficient.

I beg you therefore to kindly intervene by MMIA HQ. in order that authorization be granted for the formation of sworn civil guards forthe guarding of military premises. These personnel will be composed by three or four men armed with rifles and with orders like the ones laid down by Rules on the Territorial Service regarding military guards.

The Military Commander

N.09/109< di prot.ord. P.M. 216, 17 Agosto 1945

OGGETTO: Sorveglianza immobili militari.

AL CAPITANO BENATTI
Uff.le di Collegamento con MMIA GENOVA

Recentemente si sono verificati nel circondario di Saluzzo tentativi a più riprese da parte di ignoti, di entrare negli stabilimenti militari.

A Savigliano presso la Caserma Trossarelli é stato tentato di asportare finestre.

A Saluzzo sono state asportate alcune griglie di finestre ai capannoni di Piazza d'Armi.

Nella Caserma Vittorio Veneto di Saluzzo é stata forzata la porta di un magazzino.

Tali fatti rendono necessaria una maggiore sorveglianza degli stabilimenti militari i quali sono ora sorvegliati, in mancanza di personale militare, soltanto da personale civile disarmato, e insufficiente.

Prego pertanto la S.V. voler interessare il Comando della M.M.I.A. affinché autorizzi, per la sorveglianza degli immobili militari, la costituzione di guardie civili giurate, composte di tre-quattro uomini, armati di moschetto, con consegne analoghe a quelle stabilite dal regolamento sul servizio territoriale per le guardie militari.

3 (Italian) G.T. Coy are still employed in ferrying supplies from Leghorn to Genoa. They have also been used for train loading etc. from 42 BSD for next maintenance period. The unit are stated to have moved in to their new location in Genoa, alteugh it appears that only a representation of Company Hq. is here. Major Vincentelli has still not yet arrived; the company lacks organisation and discipline. An effort will be made by myself to provide the basis for some Standing Orders, and internal administration, neither of which at present exist, but in view of my impending departure only a start can possibly be attempted.

B - Supplies

(1) Allied Elements

Arrangements were made to load direct to train the Allied element of the ration for outlying Distribution Depots, the balance for Genoa Depot to be ferried direct by lorry. This was done on a basis of feeding strengths of each Depot and written instructions issued to this effect(STG/4/18 of 14 August 45). The Genoa Commissariate again failed to comply with instructions, and actually drew only sufficient to place in Depots the number of rations equivalent to feeding strengths. Existing stocks were deducted before drawing and accordingly no reserves have been accumulated in Distribution Depots.
Friction has again arisen with 42 B.S.D. owing to the unreasonable attitude of Italian Officers taking over supplies in that Depot. These latter appear to think that supplies signed for and taken over by them at 42 B.S.D. will be replaced by if they are pilfered or damaged after they have left the depot. Andthis after repeated conversations and written instructions on the matter! OC 42 B.S.D. has been very helpful, but is becoming a little tired of these endless disputes. My STG/4/19 of 16 August may ensure a temporary improvement but it is requested that ample time margin be given for future releases for OC 42 B.S.D. may become exasperated, and only agree to one bulk transfer, as opposed to direct loading to train.
All despatches of supplies to outlying Distribution Depots have been completed; the transfer to Genoa is not yet completed. Pepper has not been available from 42 B.S.D. for these loadings.

Declassified E.O. 12356 Section 3.3/NND No. 785020

(2) Italian Elements.
Direttore di Commissariato, Col. Giuliani was notified verbally and in writing that the Italian Army was responsible for the provision and distribution of Italian Items. This was done in implementation of the policy as laid down by ADST on his visit here. The Italian items, sufficient to maintain the feeding strengths of each Depot have been already despatched under these arrangements. Wine is the only item short on delivery. The contract made by Turin Commissariato specified dates of delivery which do not coincide with the needs of N.W.Italy. It is anticipated that with stocks now coming forward from Leghorn, and supplies from British Stocks sufficient will be available for next maintenance period 21 August-5 September.
Some trouble was caused by the fact that Br-Iti officers of 519 Guard Battalion had not acquainted themselves with the local arrangements made for provision of wood for cooking.
No transfers of Stocks of Italian elements in DID's have yet been effected: this is held over pending reply to my query in Liaison Log of last week dated 11 August 45.

(3) Visits & Inspections
On 18th August an inspection was made of Milan Distribution Depot; the report is forwarded to you under separate cover. This depot is the "black-spot" in N.W.Italy, and in view of ADST's remarks regarding the importance of Milan in future policy it is recommended that immediate action be made to provide reasonably efficient officers.
A visit was made to a neighbouring barracks, but owing to the absence of Major Bird in Turin, the future availability of this location for supply storage could not be precisely ascertained. This matter will be cleared as soon as possible.

The 77th Firemen Corp informs in letter No 2371 dated 13 June 45 that, since the emergency reasons which caused the requisitioning of premises, being used as their Hqs. and Central Barracks, no longer exists, the owners of property in question are requisting the restitution of said premises; consequently both the Hq. and Central Barracks should be transferred to the original stations, which was abandoned because unsuitable in regard to the increased number of vehicles and personnel; such insufficiency still exists.

To avoid such inconveniency, 77th Firemen Corps requests that approval be granted to occupy the ex Milizia Barracks located in this Town, Corso Ridoi, partly damaged and not occupied; at present, the Military District of Savona holding it.

Since the request from the Firemen Corps is properly justified, your Hq. is kindly requested to take it into consideration, issuing necessary instructions to the Military District of Savona, in order to enable us to settle such a important service for the Province.

S T POINTS

A - TRANSPORT

Allocations are at present still being made by Sr MMIA.I.O. N.W. Italy; allocations to the Genoa Territorial HQ remain uncollected, due to the existing shortage of M.T. here, and the consequent difficulty found in transporting P.O.L. economically to Milan to withdraw the vehicles.
3 G.T. Company have continued to ferry supplies of the Italian Element; they are being turned round much faster now that it is no longer imperative that these supplies be fed direct to Distribution Depots. Some trouble has already been caused to Italian Depots by shortages on the loads carried on the vehicles of this Company. It is understood that the whole of this Company less 1 Pln and Maintenance Party at Naples will now be based on Genoa and suitable accomodation for them on this basis has been found here (see APPX"C").
Major Vincentelli, OC of the Company, due here 5th August 45 (your signal ST/1803 of 7 August refers) has not arrived. If, as appears probable, this unit is moved to new location before his arrival it would appear that he is not by any means essential to the functions of the Company.
Italian Military vehicles are still retained by AMG. It is requested that orders to hand over these vehicles be issued before AMG leave this area.

B - SUPPLIES

1- Allied Elements.

No movements of Allied elements except detail issues from Distribution Depots have taken place in the period covered.

2- Italian Elements.

Thanks to the fact that Gruppi were rationed up to 8 August from British sources, all Italian Elements, of the ration depots in time for issue, with the exception of wine were available in Distribution
It has not been found possible or practicable to issue 15 days wine in bulk to these Gruppi; in any case, at Milan and Alessandria the wine was not received in time to issue on this basis. This commodity has proved a

difficult/

10104

Declassified E.O. 12356 Section 3.3/NND No. 785020

difficult problem and supply to Distribution Depots has been a hand-to mouth affair. Had it not been that Allied stocks of wine proved locally sufficient at Genoa and Milan, units would have been iqued short on this item as from 6 August.
Stocks of Italian Elements in 42 B.S.D. are being handed over to 2 Bulk Depot. Difficulty has arisen in the transaction in the usual inevitable manner; instructions have been issued verbally in no uncertain terms that Italian Detachments in the B.S.D. will not count every cigarette in sealed boxes, that every sack of macaroni will not be weighed but will be accepted if intact at the marked weight, etc. etc. . It is now hoped that in future a little commonsense may possibly be used by the OC Bulk Depot in these matters.
OC 42 B.S.D. complained that the Italian officers were of the opinion that they had a perfect right to make his depot into one huge broken store! With the assistance of CSM Tudor, who has proved invaluable, these trapsfers are now almost completed with diminished friction.
It is considered essential that an M.M.I.A. representative must be actually present the whole time that such transfers are taking place.

3- Visits and Inspections.

During this week visits have been paid to all Distribution Depots. Formal inspections will begin next week.
2 Bulk Depot, Genoa. Is running smoothly after external difficulties as above have been overcome.
Distribution Depots.
Genoa - After a bad start, the arrival of Capt.Zanelle appeared to cause a marked improvement; and the depot was issuing systematically and smoothly when visited. Various improvements have been suggested and are now being carried out.
Turin - This Distribution Depot was very clean and well organised. It was easily the best depot visited. Major Capuccio of the Commissariate is obviously an efficient, energetic, capable officer, and he has the whole situation well under control.
Alessandria - The location of this depot is very bad, but the depot itself is as clean as possible and well organised. Major Paloski of the Commissariate who supervises the depot, was advised to carry out a reconnaissance with a view to requisition of more suitable premises. A request was received from the Italian Supply Officer of the Cremona Group that one of his two supply platoons feeding 2 Inf.Regts

and/

6663

10105

Declassified E.O. 12356 Section 3.3/NND No. 785020

and other elements from Novara, should draw from Milan. This will be arranged, but since it will reduce the feeding strength of Alessandria depot to

Cremona 4000)
others 1665) 5665 (maximum)

is submitted for consideration that it may be more economical to move this Distribution Depot to Piacenza; existing commitments as above to be fed from Turin; the overload in Milan being relieved by Piacenza feeding all units in that area, at present fed from Milan. It has been found that the estimated figure of 13000 for Alessandria was too high by approximately 3000 and Milan too low by 3000. Adjustment has been effected by immediate transfer.

Milan. Commissariato Representative, Major Cartalisano had had two major problems, one of which was the increased feeding strength, already adjusted by the above transfer from Alessandria. The other was that the wine had failed to materialise. He was fully aware that a consignment intended for Milan D.I.D. was being diverted to him, but had not contacted the D.I.D. when it did not arrive. This problem was cleared, in liaison with Major Bird and Major Muirhead DADST(S) 59 Area, by road transfer from Milan D.I.D. to Distribution Depot of 60,000 litres, now being effected.
The Distribution depot does not appear to be very efficient from a cursory inspection. They seem too preoccupied with the baking of bread in the military bakery attached. OC Depot and Major Cartalisano were warned that a detailed inspection would take place in the near future. In view of the fact that the feeding strength of this Depot will probable increase to the vicinity of 28,000 (see under Alessandria above) and accomodation only exists for 18,000x15 days in the Caserma Besozzi it is proposed that immediate reconnaissance be made for one large depot to replace the two existing small ones.

4- QUERIES

a) May a destination address please be given for consignments of empty barrels direct from outlying distribution depots.

b) Under GRO 842/45 Italian personnel employed in Transit Hotels are fed at the scale applicable to Italian Armed forces. Since it is understood locally that all Italian Elements in Allied Depots were paid for by the Italian Government by AF.G. 1680 on receipt into Allied Depot it would appear

that/

0106

that these personnel have been fed at the expense of the Italian Army. May this please be clarified?; and also the future feeding of these British Employed personnel cleared with AFHQ, since DID's are unwilling to release all stocks of Italian Elements until this is done.

Appendix to letter No. 03/69 dated 1 Aug 45

1. At 0900 hours of 20 July ten French Military under command of a Lieutenant and belonging to an Alpine Unit placed in a locality near the Italian Frontier, arrived, through the Stroppia Pass to the Chiappera Section of Acceglio. After been informed by the local;people that in the Zone there were not Anglo-American Troops, they remained there in friendly conversation with the inhabitants without causing any trouble. After having had lunch in local inn and written some post cards, they went back in French Territory at 1500 hours. They were armed with Remington guns and French guns of unknown makes.

2. At 0900 hours of 26 July 45, 24 French Military under command of two officers (a lieutenant and a 2nd lieutenant) all belonging to an Apine Unit displaced in locality near the Italian Frontier, arrived to the locality named the Chiappera di Acceglio. Said 24 servicemen, 14 armed with "tapun" guns, 6 with pistols and 3 with a weapon of "Stein" type, met with a party of CC.RR. on patrol duty. On seeying our military the French remained at first surprised and then uncertain as to how to act.
In the circumstances the NCO commanding the patrol deemed opportune to inform only that the passage over the frontier was an irregular action and that however would signal their presence to his superiors. At this notification and with a correct attitude toward the carabinieri, the 24 Frenchmen returned immediately at the Frontier and through the Stroppia pass the y went back to French Territory.
From the carabinieri of Acceglio it was ascertained that the French Military come in Italian Territory to sell tobacco and salt to civilians taking Italian money on the basis of 100 Italian lire for 50 French francs.
No violence or propaganda is made by the French Military to the valley people; they only inquire if there are Anglo-American troops by the Frontier.

S T POINTS

a - Transport

Little time has been available for devotion to transport problems during this weekly period. Allocation of 2 motorcycles and 2 Load Carriers to 2 Territorial Command has been received and arrangements made for withdrawal. Vehicles of 3 Italian G.T. Coy are employed in carrying supplies from Leghorn.

b - Supplies

1- Allied Elements

The loading of pack trams to Alessandria and Milan did not run exactly to schedule, due to teething troubles, especially with regard to the placing of Railcars. These difficulties have now been overcome, and the last loading made was carried out with reasonable celerity. Owing to the weakness in arithmetic of the Genoa Commissariato supplementary consignments were found necessary, but all items of the Allied element were transferred to all distribution Depots including Genoa by 4 August 45.

2- Italian Element

Owing to the shortage of time available, recourse was made to diversion to Distribution Depots of vehicles of 3 Italian G.T. Company arriving with consignments of the Italian Element of the ration. By this means all distribution depots were in physical possession of the necessary stocks by 5th August, with the exception of wine, which had not come forward in sufficient quantities.
In conjunction with ST 2 District local transfers of wine from British Stocks were therefore made; from 42 B.S.D. to Genoa Distribution Depot, from DID consignments for Milan and Piacenza to Milan Distribution Depot. It was ascertained that 5500 quintals had been purchased under contract by Direzione Commissariato Turin who were instructed to arrange immediate delivery of 100,000 litres to Alessandria Depot. They were also instructed to increase the stock of Turin Depot to a figure of 50,000 litres, each to be completed by 6 August 45.

3- Inspections & Visits

On 31 August visit was made to DDST 2 District at his request, and many doubtful points cleared with Major Bidwell DADST (Supplies). Agreement was also made on

/principle

Declassified E.O. 12356 Section 3.3/NND No. 785020

to take over all stocks of Italian Element commodities in 2 District Depots. The instructions issued by this office allocating units to Distribution Depots were discussed and agreement made for the issue of instructions through British channels for Bri-Iti units. It was also agreed that D.I.D.'s should warn all units drawing of the arrangements made for drawing from Distribution Depots w.e.f. 6 August 45 (This office letters STG/13a and STG/13b of 26 July 45 refer). MMIA LO,N.W.Italy and Direzione Commissariato Milan were also visited, and the latter informed in detail of these agreements.

On 1st August visit was made to the Distribution Depot Milan, where an unsatisfactory state of affairs was found (This office letter STG/11 of 2 August refers). O.C. Depot and Major Cartalisano of Direzione Commissariato Milan were told that more activity was needed in every direction. MMIA LO N.W. Italy was informed by telephone as to this unsatisfactory state of affairs, and his direct supervision requested to ensure readiness to issue on 6 August 45. ADST MMIA, Lt Col Penrose and Capt Cotton arrived p.m. 3rd August and on 4th August visits were made with them in company with Direttore di Commissariato Col. Giuliani to 2 Bulk Depot and Distribution Depot Genoa. Instructions were afterwards issued to accelerate preparation of this latter.

4-Queries

These were all cleared verbally with ADST, with the exception of those relating to Medical Supplies, Miscellaneous and Disinfectants which are being cleared by Capt Cotton.

b - P.O.L.

Monthly allocation of P.O.L. for Genoa was received here and transmitted to Comando Territoriale (This office letter STG/101 of 30 July 45 refers).

Enquiry was made by Major Peak, Liaison Officer to 509 Guard Battalion regarding the supply of Diesel for cooking purposes for Bri-Iti units. May information please be given as to allocations and supply for this purpose!

"G" Matters

1. No information on French matters in Italy.

2. Brig. Carr wanted to know about the Mantova Div. coming into Liguria. All facts were expalined satisfactorily.

3. No.2 Territorial Hq. wants a portion of buildings in the Sturla Barracks, Caserma Vittorio Veneto; Major Perry said no operational necessity for security troops coming here. This Caserma is also being used by 60 Sub Area as a transient Camp/

4. Conference with Capt Ellis and Capt Tough, Public Safety officer about robbery in Artillery Depot, La Spezia. Particulars turnedover to capt. Zettle, La Spezia. Attached hereto telegram received by No. 2 Territorial Hq.

5. I conferred with Capt. Owen, DAPM, Genoa about Ex-Republican Army Members and he stated that it was purely an Italian matter that he or Army were not concerned. I am awaiting letter that Capt Owen is sending me.

6. In General Frattini's Hq. there is a definite lack of discipline among his officers.

7. Some of the officers are trying to play politics and paying enough attention to the real side of their business.

8. General Frattini is visiting the War Ministry in Rome.

9. General Frattini knows about the partisans having military trucks but if he were to confiscate them, the trucks would disappear. Attached hereto copy of letter.

The Bearer is Engineer MAMMONE, technician of one Cooperative founded by Partisans with the purpose to assist Italian Military Authorities for the recovery of war material still lying in every place in the Liguria Region.

Agreements have already been made between the General Frattini and our Major Ardesio with a view to solve this problem through the work of unemployed partisans and through the institution of one Cooperative which will effect transport partly by carts and vehicles which have already started to work and for which, partly, the necessary had been done for testing and registration.

He is in possession of an approval for the first vehicle but this approval depended from the Allied Authorities so that I beg you to kindly consider this enterprise as an effort to effect a work necessary to our country and also to meet the unemployment problem of partisans.

Will you please give the necessary instructions as to the development of this enterprise.

Il latore della presente é il l'Ing. MAMMONE, tecnico di una Cooperativa promossa da partigiani che si propone l'assistenza alle Forze Armate Italiane per i recupero del materiale bellico ancora giacente in ogni località della Liguria.

Sono stati presi da noi accordi, fra il Gen.Frattini ed il nostro Magg. Ardesio per risolvere questo problema attraverso l'impiego di partigiani disoccupati e con l'istituzione di una Cooperativa che effettuerà i trasporti, in parte con carri a cavallo e veicoli di cui aveva iniziato la messa in funzione e già esperite, in parte, le pratiche di collaudo e di immatricolazione.

Egli infatti é in possesso di un certificato di benestare per un primo veicolo, ma l'approvazione dipendeva dagli Organi Alleati, per cui la prego vivamente di considerare che questa iniziativa é intesa a svolgere un compito necessario al nostro Paese ed a ridurre la maestranza partigiana disoccupata.

Veda Lei che orientamento deve essere dato alla questione e di suggerire quali iniziative ritiene più opportune.

Sentitamente ringraziamo per il suo cortese intervento.

S & T POINTS

a. Trahsport. Italian transport for ITI ITI Units is still in short supply. 2 Guard Companies has arrived from 5th Army with only one vehicle for all domestic purposes and also for changing and feeding scattered guard detachments. This is hopelessly insufficient. There is still only a nucleus of vehicles with 2 Adm. Transport Company as per attached state. A.M.G. are using a number of vehicles with Italian Army markings.

b. Rations.

(1) Allied Element.

Close liaison on a friendly basis has been established with 42 B.S.D., and also liaison with them and O.C. 2 Deposito Speciale Viveri very satisfactorily arranged. A/O.C. 42 B.S.D. has been very helpful despite the fact that he is at present overwhelmed with other work. Liaison has been established between this office and Hq. Movements Genoa, and a very satisfactory working arrangement made with them. Bids for local moves of supplies, to Distribution Depots were not considered necessary by Major Haygreen DAQMG (M), since the majority of the Italian troops are in any case under British Command (i.e. Bri Iti's), and there is no local shortage of rail wagons. A/O.C. 42 B.S.D. has consented to load the initial 15 days consignment of Allied items for Distribution Depots direct to train in their sidings, and the first of such loadings for Turin has been successfully carried out today (28 July). Remainder of loadings are being carried out as speedily as 42 B.S.D. can issue. O.C. RASC 60 Sub Area has provided transport for loading from 42 B.S.D. to train.

236418 lbs flour has been received from Naples Depots (50 & 51 BSD's).

(2) Italian Element.

Consignments have been received by road from Leghorn, and have been diverted direct to Distribution Depots. Lorries are arriving daily and will be sent direct to Distribution Depots until these hold the required figure for 15 days maintenance; the balance will be accepted in the Bulk Depot. No detailed figures are available as this situation is still fluid.

Ten. Col. ROTTURA of the Commissariato who appears impetuous but inaccurate. Capt Banello, O.C. Bulk Depot, however, and Lieut Striglia, i/c movements, appear experienced, effivient and reliable. Some confusion has been caused by the fact that this office was not supplied with an up to-date ratidn scale of Italian Items. May this please be provided ?

Owingto domestic transport being V.O.R. it has not yet been possible to visit Alessandria and Turin. Efforts have been made to secure temporarily the use of an Italian Army vehicle through MMIA LO, NW Italy, since transport is an urgent necessity.

(4) Queries.

a. is there any authorized scale for provision of a midday meal for Italian Civil Labour employed by the Italian Army ?

"G" Matters

1. The French are quiet; they must be watching every step they take.

2. There is still a little bit of uneasiness about the politics here.

3. No. 2 Territorial Hq. is moving an Italian Military Hospital from Savigliano, Italy to Hospital Colonia Bergamassa, 290 beds, Varazze, Italy. The Mantova Division will be staged in this area. Will this Hospital become an authorized Italian Military Installation ?

4. The GOC, 2 Territorial Hq. has asked me the following questions about Nazi-Fascists, Republican Army, also.

a. The GOC, 2 Territorial Hq. is concerned about turning over to the Allies, persons who collaborated with the Germans.

(i) All personnel who sworn allegiance to the Nazi-Fascists combine to be turned over ?

(ii) Or only those who really collaborated with the Germans ?

(iii) Or only those who committed crimes ?

(iv) Who will take care of the turn over ?

(v) Do we have to inform you only ?

5. I took up the above matters with 60 Sub Area about ex-Republicans and they are completely in the dark. District 2 has referred the matter to AFHQ because here in Genoa they have over 500 ex-Republican Army Members in prison and AMG authorities were considering of turning them loose.

6. Is the responsibility of the GOC No. 2 Territorial Hq. become involve in this sort of politics or should be "steer" clear ?

I would be grateful to you if you would kindly give me written informations in regard to the matter that I took up both with Generale Browing and you during conference held 3 July 1945, concerning the turn over to the Allied Agencies of personnel who collaborated with Germans.

The following are the informations required:

- all personnel who swore allegiance to the Nazi-Fascist combined are to be turned over?
- or only those who really collaborated with Germans?
- or only those who committed crimes?
- who will take care of the turn over?
- do we have to inform you only ?

AL COMANDO MILITARE TERRITORIALE (II) = GENOVA

Riferimento foglio N. 566/OL del 18/6/45

1°)- La Land Forces Sub Commission A.C. (MMIA) ha autorizzato per la Liguria la riorganizzazione del solo Ospedale Militare di Genova a razionamento militare;

2°)- L'Ospedale Militare di Savigliano deve essere, quindi, o ripiegato oppure passato a razionamento civile;

3°)- I partigiani, che hanno ricevuto tale qualifica dalle competenti autorità alleate, debbono fruire dello stesso trattamento dei militari del R. Esercito previsto dalla circ. n. 1/3757/San. del 30/12/44 di questo Ministero (D.C.S.M.);

4°)- i militari dell'esercito repubblicano fascista debbono essere consegnati alle autorità alleate, come loro prigionieri o, se ciò non è possibile perchè ancora abbisognevoli di cure ospedaliere, debbono essere trasferiti in ospedali civili, previ accordi da prendere con le autorità militari alleate locali.

SUBJECT: Drawing of rations for Military Hospital.

I am supplying you with requested informations concerning rations drawn by the Military Hospital of Genoa.

Hospital start to draw 9 June 1945 at the 203 DID.

The following are rations drawn from 9 June:

1. 1,740 military rations instead of 1,590, which correspond to the permanent servuce personnel. The 150 overdrawn rations were used by patients under medical examination (erroneously attached to the medical unit) who should have been fed, instead, with civilian rations.

2. 29 overdrawn rations for patients of the Royal Finance Guard and Public Security Agents, who should have been fed with civilian rations.

Hospital assured me that will underdraw above overdrew rations with the next drawing at the 203 DID, covering it with items to be purchased at the "Sepral".

OGGETTO: Prelevamento viveri Ospedale Militare.

^ ^ ^ ^

Fornisco le informazioni chiestemi circa i prelevamenti viveri effettuati dall'Ospedale Militare di Genova.

L'Ospedale ha iniziato i prelevamenti presso il 203 DID il 9 Giugno c.a.

Dal 9 Giugno c.a. ha prelevato:

1°) - N°. 1740 razioni militari, anzicché 1590, corrispondenti alla forza del personale fisso di governo. La differenza di 150 razioni prelevate in più fu consumata da ricoverati in osservazione (passati erroneamente in forza al reparto sanità), i quali avrebbero potuto, invece, essere vettovagliati con approvvigionamenti presso gli organi dell'Alimentazione civile.

2°) - NO. 29 razioni in più per militari ricoverati della R.G. di Finanza ed Agenti di Pubblica Sicurezza, che avrebbero dovuto essere vettovagliati con approvvigionamento presso gli organi dell'Alimentazione civile.

L'Ospedale ha assicurato che conguaglierà le razioni prelevate in più con altrettante che ritirerà in meno nel prossimo prelevamento presso il 203 DID, sopperendo con acquisti presso la "Sopral"

"G" Matters

1. The French problem has eased off and have heard of no further developments.

2. With this new project, granting a special autonomous regime to the Aosta Valley may help tremendously.

3. Hand Bills were thrown about Genoa with a white hand on bill warning the populace of Genoa that something would happen in the near future to take heed.

4. Major General Carten B. Magruden newly appointed Deputy to the Chief Adm. Officer AFHQ will also be interested in the Partisans.

5. Partisan activities are quiet in Genoa but very well "Cliqued".

6. The 34th Division is still bivovached along the Ligurian sea. The 168th Rainbow Regiment, 1st Battalion patrols the International Boundary in the Italian Apls.

7. Hospital, Italian Military in Savigliano all that I have knowledge is the Hospital "Villa Sanitas" in Genoa.

8. The artillery equipment recovered once stored in basement of apartment house, Via Finocaro Aprile, Foce, has been transferred to Fort S. Martino. South Africans and 60 Sub Area assisted with load carriers.

9. Attached hereto messages intercepted by Civil Censorship. One created a bit of s stir, Major Bavone (Pavoni) speaking to Cingolani all matters were straightened out. The General mentioned as high officer inspecting Italian troops is General Cadorna.

EXPLOSIVE USED IN FISHING

Caller: I would like to have an article made out in regard to the explosive that they throw at sea for fishing; authorities' attention is to be called to that fact in order to protect the fishing and fishers as well as people swimming.

Callee: Yes, without delay; I will relay it to the press for tomorrow's newspaper.

HIGH OFFICER INSPECTING ITALIAN TROOPS

Caller: I wanted to know if H.E. is left.
Callee: Yes, he left at 0800 hours for Alessandria. He inspected both the authorities and the battalion and he wants that the latter be fully efficient at earliest possible date. I brought to his attention that we are short of officers. He inspected the men in their quarters, and he spoke to each one of them; he gives consideration to the matter of hair-cut and shaving. I had everything ready for a parade but he didn't want it; he said that this is not a proper moment. He held an half hour conference with the officers insisting very much on the morale and material assistence to the troops. He wanted to quarter and eat with the officers at the barracks; He will be in Turon tomorrow. Usually he lives at 0730 hours in the morning. Now I give you the schedule: Thursday the 12th, he lives for Turin; he will arrives there the 13th. He will lives for Milan the 14th morning, and the 16th from Milan for Verona I think.
Caller: Thank you very much for above informations

HIGH-OFFICER INSPECTING SOLDIERS

Caller: Volevo sapere se l'Eccelenza é partito.
Callee: Si, é partito per Alessandria, alle ore 6. Ha visitato le Autorità ed il battaglione. Vuole che al più presto questo sia in perfetta efficienza. Io gli ho fatto presente che ci sono gli ufficiali. Ha visitato tutti i militari nelle camerate, parlando molto con ciascuno di essi, tiene molto alla questione della barba e dei capelli. Io avevo preparato una rivista ma lui non ha voluto perché ha detto non sono i momenti. Ha tenuti rapporti agli ufficiali per mezz'ora insistendo molto nella assistenza morale e materiale alla truppa. Ha voluto alloggiare e pransare in caserma con gli ufficiali. Domani sarà a Torino. Di solito lui parte alle 7,30 del mattino. Ora ti do il programma: Giovedì 12, parte per Torino, dove arriverà alle 9,30. Vi si tratterrà tutto il 13. Il 14 mattina partirà per Milano. Lunedì lo da Milano credo per Verona.
Caller: Grazie infinite per queste informazioni.

Caller: Yes, you do it together with Petri
Callee: I started to transfer ammunition scattered here in Savona. In the first day I made as much transports for an amount of 76,000 lire, and they want tremendous sums; 22 lire per quintal per each kilometer.
Caller: Ask the Prefettura for authorization. The first trains will arrive the 13th. After you have to make an inspection to the armed train composed of 11 wagons located at Pietra Ligure.
Callee: I will go there tomorrow if I have time
Caller: You go there then, collect the ammunition and load them on two or three rail-cars and give me a ring after that. Be careful and see that no explosive be spread over the tracks and that no accidents happens.
Callee: O.K.
Caller: Be very careful; and you will be short of money send somebody to me and I will send some of the due pays; the worse they can do (laughing) is to shoot me.

1. Inspected the 2nd Auto Trasporti Co. in the Proiettificio at Lagaccio, Genoa. Not much open car space; they do have two very large building, one for a repair shop and another for an indoor car park (garage). The roads and approaches used by thiss unit are very poor. The 304 R.E., 212 Army Truck Co. (B) occupy the main building to the main approach of the building occupied by the 2nd Auto Trasporti Co., Captain Zollen o/c of 212 Army Truck Co.

2. The Italian Military Bakery, civilian, whiwh I inspected has only one oven. The bread was baked very well. The only disadvantage is that the civilian baker, bakes bread for civilian trade.

3. I previously reported the following unit drawing rations from 203 D.I.D. on an MMIA ST/8 form:

Transportation A.M.G.
Polizia Controllo Economico Compartimento della Liguria.

This unit as reported by MMIA, is unknown and does not appear on the order of battle; under this condition should this unit be denied rations, military, from D.I.D.'s ? This unit is under the command of the Ministry of Interior. Shouldn't the employing agency A.M.G. furnish the ration, civilian component ? This unit draws approximately 127 rations daily.

4. Attached hereto list of clothing and individual Equipment existing at the II Special Mixed Clothing Depot of Genoa as of 25 June 1945.

Q1/ Suggest this unit be drawn rations elsewhere forthwith! Rae

SUBJECT: Liaison Report No. 3

TO : Hq. Land Forces Sub Commission
A.C. (M.M.I.A.), APO 394, U.S. Army

1. Herewith is a report of activities of this office for the week commencing 1 July 1945.

a. Movements of Italian Units: None

b. Arrivals and departures: Major General Browning and party.

c. Conferences: Conference with Major Gen. Browning, Gen. Frattini, Col Chiavarino, Brigadier Carr, Col Purves, Major Fairweather, Capt Fear, 503rd Guard Bn, 1st Guard Regiment, Major Archibald, RASC, 60 Sub Area, Major Frost, o/c 877 Co-Operators Art, U.S. Company R.E., Major Perry A/Q 60 Sub Area, Liet Col Bovone, Comando Artiglieria No.2 Territorial Hq. Genoa, and the usual routine conferences.

d. Inspections:

(i) Special Food Depot (Bulk)
Warehouses of the Society "Macinazione Molini Certosa" located at Genoa-Rivarolo, No. 15 Via Pallavicini. Capacity: about 2,000 tons - 7,000 cubic meters.

(ii) Regional Military Food Distribution Depot
"Marabotto" Barracks (Caserma), Via Francesco Rolla. Capacity: about 1,000 tons - 4,000 cubic meters.

MMIA-'G'
FILE: G 12/11
DATE: 2/7

e. Items of general interests:

(i) After conference with Major General Browning, General Frattini, GOC, No. 2 Territorial Hq. was enlightened to many of MMIA's policies and he appreciated the conference.

I brought to light many matters and all were taken under consideration and action was taken.

(ii) I have heard that some of the elements of the 5th Army may move into Genoa. This will be a hardship on Genoa for one thing the water supply is low and they too will want accomodations of some kind or another.

(iii) It is my opinion that these Hqs here are going to "play ball" more as times going on.

(iv) The No.2 Territorial Hq. will have to vacate one of its premises but 60 Sub Area is assisting with trucks, to move some recovered artillery stores. The building that the Italian Command must vacate is the "Magazzino Artiglieria" No. 31, Via Finocchiaria Aprile. It was the basement of an apartment house on the shore Front of Genoa that the Italian Command was using and now will billet South Afrinans. The whole matter was handled amiably and with satisfaction for all concerned.

f. Attached hereto appendixes A-B-C to this report.

"G" Matters

1. The French have encroached on Italian Territory. Attached hereto letter and list of items removed. The C.A.O. of San Remo is Captain Garigne and Val Gavano comes under his jurisdiction. The Provincial Commissioner, Provincia of Imperia is Major H.R.S. Hoddinott.

2. Phase I is not completed yet and the Territorial Hq. has little or no power here. They have a passive position here.

3. The arms which are still in the hand of former partisans are a deep concern to all and all are a bit worried.

4. A strike in Genoa was averted the other day . The populace are getting a little uneasy about the politics being played here.

5. Major Hulme, No. 17 Town Major Genoa with the help of the Italian Army is reconnoitring the Area Monday for suitable billets and bivouac areas for the "Mantova" Division.

6. In Italian Military Hospitals are about 49 ex Republican Army Members. I took this matter up with 60 Sub Area and was told to table the matter until a decision was reached by District ∠ with IV Corps. Awaiting decision.

7. Attached herewith copies of messages intercepted by Civil Censorship.

ARTILLERY DEPOT
ARMA DI TAGGIA

File No. 18 Atma di Taggia, 6 July 1945

Subject: Ammunition dump of Val Gavano.

To : Artillery Detached Section GENOVA

You are informed that today at 1200 hours a French non commissioned officer reported to subject depot stating that he was verbally authorized by the Allied Headquarters to withdraw all the ammunition existing at the depot. Workers of depot in question asked said NCO several times for proper documents without any result.

The non commissioned officer had 105 heavy trucks with him.

One of the two workersreached this depot by bicycle informing us of the above and thereafter the Allied Governor was informed through the local CC.RR.; the containt of letter No. 177 dated 28 June 1945 from the Artillery Headquarters of Genoa was also explained to the Allied Governor.

Since above said Governor could not make any decisions, the matter was brought up to the Governor of S.Remo who answered exactly as follow:" the matter is of a minor importance - it only concerns a few ammunition and of course there will be an agreement between the Allied and French Headquarters ".

Your Section is informed of the above requesting that we be notified, through Serg/Maj Bortolus Gioacchino, if approval is granted; if no, we will comply with all instructions that your Section will deem it necessary to issue.

Loading of materiel started since 1215 hours; the amount of materiel already loaded and removed is not known.

Callee: It would be possible to sell it here in Turin but certainly authorities wouldn't permit it.

Caller: But I don't want to sell it at an exagerated price but at least I would like to make up my expences plus those efforted for the transport.

Caller: Un prezzo di vendita della glicerina distillata ti S.U. é quello che era in vigore nel 1944 cioé L.44; intanto io volevo sapere se a Torino fanno lo stesso prezzo, e più o meno anche se non ammesso il prezzo di borsa nera che non tollerino un aumento. Io credo che il prezzo di borsa nera si avvicini sulle 70 lire.

Callee: Qui a Torino é impossibile venderla ma certo che le autorità si appellano.

Caller: Ma io non voglio fare un prezzo esagerato, almeno da ricavare le spese maggiorate che occorrono per il trasporto.

Callee: Ma sicuro, non vuole mica rimetterci; bisogna che anche lei faccia i suoi interessi; adesso vorrei sapere se potrebbe farmi avere di quella merce.

Caller: Per adesso non é possibile perché stiamo mettendo su lo Stabilimento e poi manca il carbonato.

2°) Da questa data, voi ritornate nuovamente a far parte dell'Esrcito Italiano e sarete da esso amministrati, vestiti, razionati e disciplinarmente controllati.

3°) La Compagnia non sarà sciolta, ma rimarrà quale essa é, e il lavoro dovrà essere portato a termine come prima.

4°) Quì non vi é questione relativa a smobilizzazione, voi ora siete trasferiti nell'Esercito Italiano e vi starete fino a quando la smobilitazione generale sarà iniziata.

5°) Tutto il personale in Firenze continuerà ad essere disciplinarmente controllato dal personale Britannico fino al suo arrivo a Genova.

"G" MATTERS Secret APP. "A"

Sent GOC 12th 6/31 CRS. HQ 12A.

1. There may be some encroachment by the French. No. 2 Territorial Hd. received a telegram from one of their employees at Val Cavano. Telegram attached hereto. I immediately left for this place. The main road and bridges have been "knocked-out". The mountain road is full of obstacles and renders the road impassable. The only way that they could enter this town is from the north. I consulted Capt. Wooten, C.A.C. Taggia and he did not know of any French units in the area. I went as far as San Remo and could not see any units. The C.A.C. was not in. Also that there were no French units in VENTIMIGLIA. I advised No. 2 Terr. Hq. to send a telegram to their employee and get more information i.e. name of French officer encroaching, unit, etc. and to have him send by post a complete list of items at this depot. I a waiting for further information.

2. It may have been only a French "Play-boy" Captain. I am not alarmed by this.

3. The composition of the forces encroaching may be small parties or individuals as this one showed.

4. Fifth Army has a rest Center in this area - Imperia to Ventimiglia. The 34th Div. is staged throughout this area.

5. If there are any French units here they will be "releived" about the 10th of July. The politics about the French are on a "fine line".

6. The 1st Gd. Regt. Genoa, 60 Sub AREA is under-strenght by 35% caused by desertions. From cables received about incoming personnel it will releive this situation.

7. The Territorial Hq. is function on all ITI-ITI matters. This is still a command area. Also, AMG Territory. The Terr. Hq. is working on the problem of depots. The districts are in position: Genoa, Savona, Cuneo, Mondovi.

8. There are no patriot bands rooming in this territory.

9. Many arms or weapons have not been turned in. They have kept small arms, the partisans. It is my opinion that with the coming of winter they may become active. The former, patriot bands may form into "Gangs" and terrorize the country-sides, for "hijacking" trucks . To use the arms against us. To wait until the time is ripe for a revolution. The situation can become extremely sensitive. Hereto attached list showing what is being recovered by AMG. Attached, list showing ammo dumps under allied control, 60 Sub Area.

FILE G/2 DATE 10.7.

./. 6748 Std.

10226

Declassified E.O. 12356 Section 3.3/NND No. 785020

10. Former patriot leaders are cooperating with the Italian command and the allies.

11. It is my opinion that the Italian are not trying to get "I" information on other nations. They cannot even get "I" information on themselves.

12. Coal has not yet arrived in Genoa. The factories are at a stand still. The employees are being paid full time. The employees have little or nothing to do in these idle factories. This gives them plenty of time to discuss politics and other matters. Which tends to make it dangerous. I did see one collier enter Savona.

13. The industrialists and politicians are "sparring" for positions here in their own fields.

14. The population of this city, Genoa, is very calm. Perhaps too calm. The other near by towns are full of communists.

15. Many posters are on walls but nothing detrimental towards the allies; everything not so nice has been removed.

16. The population resents are presences here. Sometime their attitudes towards us does not appear too "friendly".

17. I cannot see where the Italian Army is respected or wanted. They may tolerate its coming here again.

18. My conference with Lt. Col. McPhee, Prov. Comm. Genoa, was to bring about a general undestanding of the Italian Army and the property being retreived by the squads from the Prefettura. He also had knowledge of the prefect selling retreived property, ammo, explosives, etc. . It was agreed upon that a commission be set up or formed for the sole purpose of determining the rightful owners of properties retreived. The practice of selling items retreived would cease forthwith. To plubish a decree for the return of all enemy or State properties in conformity with order plubished by 5th Army AMG. The explosives were needed for demolition work, to keep mines operating, etc. The rightful ownership of the explosives was never determined. This came to my attention after the explosives had been removed. The Prov. Comm. brought out the fact of public safety and where these particular items of explosives were stored was in a tunnel coming away from the Port with railroad connection. Making this a hazard. The No. 2 Terr. Hq. will have to speed operations up a bit. Major Davis, 60 Sub Area is in charge of removing mines in the Port of Genoa.

Declassified E.O. 12356 Section 3.3/NND No. 785020

19. Gen. Frattini GOC No. 2 Terr. Hq. lacks tact and diplomacy. He had a bit of an argument with the Prefect Errico Martino but I believe I smooth the affair over. Prefect Errico Martino is a Liberal.

20. The Port of Genoa is indefinitely closed. A mine-sweeper was blown up killing about 18 aboard the sweeper. Although one quay is working.

21. It is the belief that by the middle of July the railroad will be operating from the south to Milan.

22. Major Bird has full knowledge of the above.

I am not sure I agree Frattini should wait for his reports & has the gate to do so!

1. Recruiting is going very slow here.

2. These ex-patriots do not want the discipline of a regular army. The had it figured out that they would be brought into the army as units and that the leaders would receive army commission.

3. The pick of the partisans are with the S.A.P.

4. It is my opinion that there is a lack of interest on the part of the civilians coming into the Italian Army. They may change their mind when winter comes and they have to tighten their belts a few notches. They want to see a radical change over the Italian Army.

5. They would rather recruit for the Far East than do "Homeguard duty". Attached message intercepted by Civil Censor, for recruiting.

6. Request information as to what category the following come under.

ARMY RECRUITING == FAR EAST

Caller: Si é sparsa la voce quì che c'é un arruolamento volontario per l'Estremo Oriento.

Callee: Anche quì sono venuti vari giovanotti per vedere, ma noi piu dell'arruolamento nell'esercito regolare non abbiamo.

Caller: Anche qui c'é questo. Pare però che questo arruolamento sia stato indetto a Milano, quindi é bene interessarsene.

Callee: Bene, guarderò ed interverrò presso il Comando Generale.

ARMY RECRUITING == FAR EAST

Caller: Rumours spread out here that there is a volunteer recruiting for the Far East.

Callee: Also here some youngmen called and asked about this matter but we are charged only for the enrolment in the Regular Army.

Caller: Just the same, here. It seems however that the enrolment in question be announced in Milan. Hence it is advisable to look after the matter.

Callee: Well, I shall see and will intervene by the General Headquarters.

(vi) "Off Limit signs M.M.I.A." are invalid here. Received instructions from Major Bird as to procedure.

(vii) No. 2 Territorial Hq. is preparing a list of buildings now in use and those anticipated to be used in the near future. Copies will be forwarded.

(viii) The Italian Command here is busy collecting properties and storing it.

(ix) I proposed to Gen. Frattini it was the desire of M.M.I.A. that inventories of all properties under his control be prepared. Upon completion of inventories list will be forwarded.

(x) It appears to me that officers living in or about this area are being transferred illegally. The policy laid down by M.M.I.A. is not being adhered to. The officers in question are seeking rations with orders written by other Commands. The cases I can cite for the present are as follows: Capt. Bruno Ferrati, Comando Genio ? in the employ of Claims and Hirings. Capt. Aldo Mordiglia attached to the Legal Office Liguria Region A.M.G., formerly with Legnano Combat Group. There is still another group to arrive here; they will work with P.W.B. as Military Censors? I believe also that they are being seduced away from their original employment. Major Bird has full details and no unauthorized rations without the knowledge of MMIA.

(xi) I am in contact with Major Bird for policy and complete instructions as to new developments.
