1. The Mobile Mine Museum at present held by Polish SME Capua is now available for transfer to the Italian War Ministry with the exception of the vehicle on which the museum is mounted.
2. The museum fittings can be removed and as most of the exhibits are loose no trouble should be experienced in stripping.
3. In order to avoid further delay it is suggested the Italian War Ministry provide their own transport for the museum.
4. If this arrangement is agreeable the museum can be collected at Polish SME Capua, providing Engineer Branch GHQ CMF are informed of the proposed date and time of collection.

Ref Appx 'A', Serial No.10 to this Directorate's DMT/SS/4/MT.1 dated 2 Feb '45.

1. Authority is requested for the release of a further 25 Lorries 3 Ton or Trucks 15 cwt, Class 5 to 'G' Trg Unit to the Italian Army for use of the D & M School at the Rft Trg Centre - Italian Combat Force at CESANO.

2. The position at present is that out of the 70 vchs now held by this school only 20 are available for driving instr. This is due to the fact that the only repair facilities at CESANO consist of one L.A.D. who are unable to cope with the constant repairs necessary to class 5 vchs used for driving instr. The position is unlikely to improve since RAAC Wkaps are unable to accept any more repairs.

3. The matter is urgent since courses at the D & M School are being protracted through lack of vchs.

4. In order to meet this demand it is suggested that authority be granted for the transfer of qty 25 vchs from Dvrs Trg School, Allied Commission at TRANI who are disbanding with effect from 31 May 45 under authority G-1(Br) 1066/A1 (Ser.2204) dated 11 May 45, and who hold approx 60 dvr trg vchs.
