 NAPLES SECTOR
 Ref: 3TR/5

11 September, 44

To: MMIA HQ (3 copies) ←Copy to: Direzione di Commissariato di Napoli

ADST 8

DADST 16

1. An appreciation of the supply position in the Naples Bulk Depot for fifteen days wef 8 September 44 has been drawn up in this office.

2. The assets and liabilities are as follows:

Assets wef 8 September 44(a) Already Reliable

Ground Stocks at close 7 September 44, Santa Ines now discharging, withdrawals of Flour-Macaroni-Sugar from PPS already duly authorised and now being collected, shortages on UGS-45 against which withdrawals from PPS already authorised.

(b) Not Yet Reliable

Withdrawals from PPS against ITI Rations diverted in convoys UGS 48-50 inclusive (authorisation expected but not yet received).

Benjamin R Miles (position uncertain)

ACC Flour (your reply to our 3TR/3 dated 10 August 44 awaited)

ITI Rations on convoys UGS-51 and UGS-52 (which will either be discharged in part in Naples or if diverted in total will presumably entitle Naples to a payback from PPS).

Liabilities wef 8 September 44

105,000 Rations for Civitavecchia (PPS Italian Troops)
 300,000 Rations for Piombino (PPS Italian Troops)
 400,000 approx Rations for Shingle (requisitions outstanding JB 21 - 22 - 23 5 Army Italian Troops)
 15 Days' Maintenance for Penovento and Sparenise
 15 Days' Maintenance for Naples Sector "normal" feeding strength.

3. The detailed figures constituting the foregoing balance - sheet will be handed to Asst-2-4 Rations in Naples office on 11 September 44. The position is that "Reliable Assets" are deficient against "Liabilities" in respect of Flour-Pulses-Past/Fish-Tomato Preserve-Matches-Wine-Salt-Tobacco.

4. Action is therefore required as follows:

5298

170

785020

- 2 -

(a) in respect of prospectively deficient items from Allied Sources (Flour, Pulses, Meat/Fish, Tomato Preserve, Matches) it is urgently necessary to obtain authority to draw on some or all of the "Assets Not Yet Reliable"; Asst G-4 Rations will be requested to take up with SOS NATOUSA the position on diversions UCS 46-50 inclusive, and eventually on UCS 51-52 when berthings are known; will NMIA HQ please take up the question of ACC Flour?

*Done**St/60 Refers
dealt with*

(b) in respect of prospectively deficient items from Italian Sources (Wine-Salt-Tobacco), will NMIA HQ please arrange in conjunction with Ministry of War to accelerate the provision of these items to Naples Commissariato? (In the case of Wine and Salt, supplies in Eastern Italy are believed to be ample and the question is solely one of assisting the Italian Military ^{to get} acceptance of their outstanding bids for rail space for these items).

STW/9

5 September, 44

To: MMIA
(Original for ADST; ←
copy for AI & QIC)

1. This is to confirm that 10 lists were handed to AI & MMIA in Naples on 5 September 44 of:

- (a) Naples Main Depot Stocks as at close 3 September 44;
- (b) Transactions on which Naples Commissariato is owed subsistence by ACC (sugar only), and by PPS, presumptively against shortages on out-turn (1922 45) and against SPI cargoes diverted from Naples and believed delivered U.S. Quartermaster dumps further north (1922 46 - 47 - 48 - 50).

2. *Unchanged* → AI & QIC asked to request you to obtain authority for Sugar - Tomato Preserve - Pepper to be collected urgently from PPS by Naples Commissariato on basis of foregoing stocks and dues position. *N.T.*

3. *Informed by them that rail transport continues as usual.* *Rationing* → Meanwhile we are holding up releases on Picotino Special (300,000 rations for PPS Italians based on Picotino) except local items pending your reply to our signal 2797 of 1 September, and on JP 21 - 22 - 23 pending further information of the Nations "New Deal" and in view of the fact that JP 19 - 20 have only just been collected by PPS.

4. *sent forward* → You will note that the Naples Main Depot Stock position does not allow at present of any further large bulk issues covering all items. This was the situation forecast in my STW/1 of 21 August 44 para 9 of attachment.

will be absorbed with 5th Army stocks & deployment made in Naples Area

SUBJECT: - Rations in Italian Depots.

ARMY SUB COMMISSION ACC
HQ (MMIA)
ROME
AG/2/13
16 August 1944.

TO : - Liaison Officer, Naples.

1. In comparing the items turned in to P.B.S. QM. with the items shown in your letter 28 July 1944, Subject: "QM. Rations in Italian Army Depots", we find there is a wide discrepancy.
2. Request you review this matter taking into consideration;
 - a. Correct nomenclature of items turned in.
 - b. Support your recapitulation with signatures from P.B.S. depot. (Tally in)
 - c. Ascertain if all food not on Italian ration scale has been turned back to P.B.S. Any difference in items reported received and items turned in to P.B.S. QM. will be charged to Italian Military. (Obtain acceptance note).
3. One of the outstanding differences is the item of lard. You list on your letter of 28 July, Lard, salted 5,600 lbs. Your list showing what was turned back to P.B.S. list, lard, War style -11, (Is this cases, or pounds?)
4. In the future when items are received in Italian depots, which are not on rations scale, a Tally in will be obtained from the depot, to be used as a debit voucher against the Italian Military, if the items shown there on are not turned back to Allied depots. Italian depots will also receive tally in from Allied depots for all items turned in to them. If the Tally in received from Italian depots and the tally in, the Italian depots received from Allied depots balance, the two documents will not be used as an accountable vouchers but only for information and record.
5. Your prompt attention to this matter will be appreciated.

MS & T. MMIA.

1. Attached at Appendix A is Food Stocks Report as at close 9 August 1944 forwarded in accordance with MMIA S & T operating instruction No. 1.

2. Appendix B contains an appreciation of the supply position represented by these stocks in relation to (a) new Single Ration Scale (b) present Naples Sector feeding strength (c) possible nett increase in feeding strength as result of Benevento arrangements.

3. Penultimate column of Appendix B shews days cover on each item represented by 9 August 1944 stocks for present Naples Sector feeding strength (approx 75000). Ultimate column shews same stocks expressed in days on hypothetical total feeding strength of 100,000 (representing estimate of total nett increase at Benevento peak period).

4. It should be noted in respect of both columns that they afford an over favourable assessment of the position in so far as Naples stocks have to be used not only for Naples Sector maintenance but also for meeting variable demands for maintenance of 5th Army ITI Troops and for eventual transfers to other Sectors.

5. The action indicated as necessary from the assessment in Appendix B is as follows.

1. Benevento - (a) build up Meat Fish stocks as quickly as possible (it is appreciated overall supply position for this item)

Action at (1)

instruction No. 1.

2. Appendix B contains an appreciation of the supply position represented by these stocks in relation to (a) new Single Ration Scale (b) present Naples Sector feeding strength (c) possible nett increase in feeding strength as result of Benevento arrangements.

3. Penultimate column of Appendix B shews days cover on each item represented by 9 August 1944 stocks for present Naples Sector feeding strength (approx 75000). Ultimate column shews same stocks expressed in days on hypothetical total feeding strength of 100,000 (representing estimate of total nett increase at Benevento peak period).

4. It should be noted in respect of both columns that they afford an over favourable assessment of the position in so far as Naples stocks have to be used not only for Naples Sector maintenance but also for meeting variable demands for maintenance of 5th Army ITI Troops and for eventual transfers to other Sectors.

5. The action indicated as necessary from the assessment in Appendix B is as follows.

1/ Benevento
Office
(a) build up Meat Fish stocks as quickly as possible (it is appreciated ^{this depends on} overall supply position for this item).

(b) accelerate transfers of Salt from eastern Italy to Naples (this is mainly a question of getting acceptance of transport bids).

(c) accelerate Olive Oil provision.

(d) investigate Wine position (moderate quantities have arrived since the stock report under review was tabulated).

6. It should further be noted that intake into Naples is now becoming less regular and substantial than formerly (due to tendency of convoys to go further north for discharge). This in turn means that it is advisable as far as possible to limit off take from Naples to other Sectors (Rome and elsewhere) in respect of items of which Naples Sector holdings are already approaching modest levels. This applies (see Appendix B) to Macaroni and Spaghetti, Pulses, Tomato Preserve, Sugar, Pepper, Tobacco and

- 2 -

Matches in addition to the items noted as definitely short in para 5.

7. If you agree with the conclusions of paras 5 and 6 please take action as necessary via War Ministry and otherwise.
