Subject:- Issuing of forage to animals.

In the months of Sept and Oct 1943, units of 5 U.S. Army passing through Persano, drew large amounts of Oats from the Centre for their animals, while what was left of the above stores - in the centre - was used by HQ, U.S. Remount Depot at Persano for the maintenance of its own animals, during the time that "Energon" did not arrive from Maddaloni.

The above Centre thus released to the U.S. Army about 1900 quintals of Oats - including those waiting for growing - which for that reason was not done.

After correspondence, carried out by HQ (Ital) Campania, the U.S. HQ, having realised the above, and seeing the impossibility for the Persano Centre to feed its own animals, allowed the U.S. Remount Depot to issue to the said Centre - with regular indents - the necessary forage for the fertile mares, colts and duty horses of the Centre itself.

As owing to the great number of animals in the U.S. Army, practically no pasture remains for the Centre's animals, please authorise the Remount Depot Persano to continue the issue of forage ('Energene' Barley) to the animals of the Persano Centre, as before.

1. In accordance with our phone conversation relative to supplying forage to the Italians at Persano, Lt. Hunter of AAI advised that on 27 July a radio No. S/T 1396 was forwarded to this office covering forage requirements for 27 July to 2 August of 17 tons of grain and 28 tons of Tibben. There is no record of this radio having been received but Lt. Hunter confirmed it by phone.

2. The Italians should submit their forage requirements to Army Sub Commission of ACC. Lt. Hunter stated they were late in furnishing their requirements from 3 August to 10 August. Please continue to issue forage from your stock and offset these issues against Shipping tickets that will be forwarded in the near future.

We enclose in duplicate copy the  
request for period July 1, 73 and  
the notation of the availability of such  
forage in Station warehouse as June 12.

The request is made on the basis  
of the strength of animals in the notation  
in June 1973 by S.M.B.E.

The difference which is not in  
accord to strength reported in previous record  
is due for the first part to the issue  
of animals of the MISA/ST/74. In view of the  
Bureau of Agriculture units.

It is recommended that for above  
mentioned dead no replacement of  
cows will be made, as the supplies  
existing in Station warehouse are  
sufficient.

We request the quantity 6642 forage

ALLA SOTTOCOMMISSIONE PER L'ESERCIZIO DELLA D.C.O.

- COMANDO PRINCIPALE -

I E Q U I E

Si rammettono, in duplice esemplare, la richiesta 20-  
pagati per il periodo deceduto 4 - 12 luglio e la situazione  
alla disponibilità degli stessi nei magazzini italiani alla  
data del 12 giugno. -

La richiesta è fatta sulla base della corsa quadrupla  
seguita dalle situazioni al 5 giugno pervenute dallo Stato Ma-  
giore R. Decreto. -

La differenza che si riscontra, rispetto alla corsa so-  
guale nella decisa precedente, è dovuta nella sua quasi to-  
talità a cessioni a reparti anglo-americani di quadrupla della  
Divisione "LIVORNA". -

Resta inteso che per la suddetta decisa nessun rifo-  
rimento di granaglie verrà fatto essendo sufficienti le scorte  
esistenti nei magazzini italiani. -

Si richiede poi di seguire il quantitativo di foraggi  
occorrente nello stesso periodo per i quadrupli del Centro  
Rifornimento di Perano. -

regali per il personale eccedente 1 - 13 luglio e la distribuzione della disponibilità degli stessi nei magazzini italiani alla data del 12 giugno.

La richiesta è fatta sulla base della forza quadrupedi desunta dalla situazione al 5 giugno pervenuta dallo Stato Maggiore Esercito.

La differenza che si riscontra, rispetto alla forza se-  
gnalata nella decade precedente, è dovuta nella sua quasi to-  
talità a variazioni e repenti anglo-americani di quadrupedi della  
Divisione "LIVIGNO".

Senza inteso che per la suddetta decade non si riferi-  
mento di un'aggiunta verrà fatto avendo sufficienti le scorte  
esistenti nei magazzini italiani.

Si richiede qui di seguito il quantitativo di foraggi  
occorrente nello stesso periodo per i quadrupedi del Centro  
Rifornimento di Ferrara:

Subject: Reduction in Animal Strength.

To: War Min.

Reference your 5818/S dated 10 Jun 44.

I. Your explanation with regard to the decrease in animals strength for the period 14 to 23 June is <sup>not entirely satisfactory</sup> ~~considered not~~ ~~entirely satisfactory~~.

~~unsatisfactory.~~

2. You state that owing to frequent movements of Units it may have been that some animals were reported in the reports at the new location while they had already been lost to the strength of the Units from which they came. Consequently, it is probable that in the next reports there will be a corresponding increase.

3. ~~It appears from the XXXXX these remarks that you have~~ neither the knowledge of the actual animal strength or the movement of Animal Units under your Command.

3. 4. <sup>to obviate these difficulties,</sup> In future, when submitting forage demands you will forward to this Sub Commission an Animal Strength statement showing:-

- Nº of Animals, and Units they are with.
- Name and location of Units in each of the four Provinces.
- Date on which a & b are based.

SUBJECT: FILE - Damage requirement for period 24/6/44

We enclose in duplicate copy, the forage request for period 24/6 to 3/7 and the return on availability of same in Italian warehouses on June 2.

The request is made on the basis of the strength of animals, taken from the May 25 returns from SMRE, which has informed us that the ~~decrease~~ ^{reduction} encountered in the strength, in regard to previous ten day period, is almost entirely due to the fact that the following units were transferred to operating zone.

- 68th Mixed Rft Bn
- V/55 Group - 75/13 sum.
- "MONTEGRANERO" Alpini Bn
- "PERSANO" Cavalry Squadron
- 9th Park Train unit

From the forage returns taken from Table of Movement of Foodstuffs and Forage for period 24 May - 2 June, which is sent to MMSA, we have discovered a considerable excess of corn.

Si trasmettono, in duplice esemplare, la richiesta foraggi per il periodo decennale 24 giugno - 3 luglio 1944 e la situazione delle disponibilità degli stessi nei magazzini italiani, alla data del 2 giugno.

La richiesta è fatta sulla base della foraa quadrupoli desunta dalla situazione al 25 maggio pervenuta dallo Stato Maggiore R. Esercito, il quale ha informato che la diminuzione che si riscontra nella foraa, rispetto alla decade precedente, è dovuta nella sua quasi totalità al trasferimento in zona di operazioni dei seguenti reparti:

- 68° Reg. misto complementi;
- V/58 Gruppo da 75/13 m/m;
- Reg. alpini "MONTENAPOLITANO";
- Squadrone Cavalleria "Persone";

Si trasmettono, in duplice esemplare, la richiesta fornita per il periodo decennale 24 giugno - 3 luglio 1944 e la situazione delle disponibilità degli stessi nei magazzini italiani, alla data del 3 giugno.

La richiesta è fatta sulla base della forza quadrupedi desunta dalla situazione al 25 maggio pervenuta dallo Stato Maggiore A. Esercito, il quale ha informato che la diminuzione che si riscontra nella forza, rispetto alla decade precedente, è dovuta nella sua quasi totalità al trasferimento in zona di operazioni dei seguenti reparti:

- 63° Raggruppamento complementi;
- V/58 Gruppo da 75/13 mm;
- Reg. Alpini "MONTENAPOLITANO";
- Squadrone Cavalleria "Percane";
- 90 Reparto Salmeggia.

Dalla situazione fornita, desunta dalla Tabella Movimenti Denari e Denari relative alla decade 24 maggio - 2 giugno 1944 che viene trasmessa a cedente Settecommissione, si rileva un'esistenza rilevante di granaglie.

Per tale motivo, questo Ministero ritiene che per la decade in questione non occorre il rifornimento di granaglie.

Si richiede qui di seguito il quantitativo di foraggi corrente nello stesso periodo per i quadrupedi del Centro Rifornimento di Percane:

SUBJECT Reduction in animal strength
 Ref 57/74 dated June 5, 1944. (1)

- (2) We have requested the SMRE for an explanation of the reasons for ~~caused~~ the reduction of 210 animals encountered by MMSA in its strength reported with the Ministry's 5577/5 of June 1, in regard to the previous ten day period.

The SMRE stated that during said period, frequent movements of units were verified, and it may have been that some animals were reported in the reports at the new location which they had already been lost to the strength of the units from which they came.

6623

Consequently, it is probable that in the next reports there will be a corresponding increase.

785020

In regard to its classification
requested in paragraph three of said
letter, concerning the existence of forage,
we have already referred to letter
5586/S of June 6.

We are returning the list
of the forage history on May 20.
