Copy to: S & T

Owing to the delay both in drawing and shipment of disinfectants during the months of May, June and July it has been agreed with S & T WNA that all outstanding balances which have not been drawn up to 25 Aug 44 will be ignored.

Requirements for September will be allocated on the basis of your return due on 5 September showing stocks in Depots as at 25 August 44.

Your STN/13 of 22 August 44 refers.

1. Your paras 6 & 7

Noted and agreed. Medical also agree. We will issue amended instructions through "Q" staff.

Your paras 8 & 9

Ignore May/June/July undrawn balances and work on August programme as suggested. Only exception to this is methylated spirits, of which none has been drawn against May/June/July allocations and none has been allocated for August. Therefore Italians will presumably need the back allocations made over to them.

This agreed Medical here.

Your para 10

Withdrawal of August programme to Garibaldi noted.

2. Full report much appreciated and helpful.

 14 CRASC (Supply Units)
 DIREZIONE SANITA' COMANDO CAMPANIA.

1. The Disinfectants position in this Sector is now partially cleared up. Appendix A sets out the position to date.
2. Columns 2 - 4 of the Appendix are the amounts originally authorised for withdrawal by the Italian medical service.
3. Column 5 shows the amounts actually withdrawn by Comando Campania to end August. (A cross-check of these figures is being prepared by 14 CRASC and will be forwarded when received). It will be noted the figures correspond fairly closely with the amounts originally authorised for Sardinia for May/June. The reason is that these quantities were actually withdrawn from the British depot concerned with a view to shipment to Sardinia and were transported directly from depot to dockside (this occurred in the latter part of June). However with the exception of the small amounts marked with an asterisk in Column 6 the whole consignment was shut out owing to higher priority cargo. In the event the balance shut out was back-hauled to Caserma Garibaldi in Naples. The multiple handling thus incurred reduced a large part of the Stock to poor condition.
4. At Caserma Garibaldi the stock was partly used for Naples Sector issues (particularly the damaged portions). When first inspected some three weeks ago, the Caserma Garibaldi depot was in a disorderly condition. Possible lines of improvement were indicated to the officer in charge (a pharmacist not a warehouse manager) and in a relatively short time he secured considerable improvement. The Garibaldi premises though not ideal are reasonably suitable for a Disinfectants store when allowance is made for the difficulty of securing premises in Naples, including a fair space of covered outdoor accommodation suitable for liquids.
5. Meanwhile attempts to secure shipping space to Sardinia continued. The Caleb Strong was promised but nothing resulted. Eventually on the evening of 16 August 44 the consignment was called forward by PBS Water Division for immediate loading on S.S. Joseph Hollister. Labour and transport arrangements were

7484
 Replied 11/8

- 2 -

made (not without difficulty) and the British ORs of MMIA Port Detachment screened the stock refitness for shipment on withdrawal from Caserma Garibaldi while at the same time endeavouring to get as much as possible of the important items actually shipped to Sardinia, Quantities shipped to Sardinia as a result are the non asterisk figures in Column 6.

6. For future reference the question of ^{the} drill for obtaining shipping space for Disinfectants to Sardinia requires further consideration. Paras 6 - 7 - 8 - 9 - 10 of attachment to your AQ/2/2 of 12 August 44 do not entirely cover the position since Medical Ministry of War and for SMRE have no means of readily ascertaining for each consignment the number and type of packages and the cubage. Moreover the definition of agencies who will act in paras 8 - 9 quoted is not precise and it was due to this that the procedure broke down formerly. (Freight Form S undated reference file S/A/1 created by Movements MMIA HQ for the last consignment and forwarded to Mov Naples copy to Mov AAI was in itself not sufficient to secure shipment).

7. It is therefore recommended that the procedure in future should be for MMIA Naples to advise nett weights, gross weights, no. of packages, cubage and location where lying to MMIA HQ after ~~the~~ consignment for Sardinia has been completely with-drawn by the Italians from ~~the~~ British depot. MMIA HQ (Movements LO) then arranges for Movements AAI to request SOS Natoussa for corresponding shipping space and latter in turn instruct PBS Transportation (Water Division) PBS Transportation call forward the cargo by communicating with MMIA Naples.

8. It will finally be noted that there is at present a balance undrawn by the Italians against previous authorities (May/June/July) corresponding to the amounts in Column 2 and in addition a programme for August withdrawals has been issued under date 18 August 44 (MMIA HQ letter ST/17/1).

9. In order to square up the position in a practical manner, it is recommended that the undrawn balances as at end August (approximately Column 2) be wiped out and the August programmes as per ST/17/1 of 18 August 44 be re-named the September programmes (which in present transport conditions here they are bound in any case to become). As soon as transport conditions allow the next Sardinia parcel (Column 9) to be transported completely to Caserma Garibaldi, details as per para 7 foregoing will be communicated to you.

10. Your instructions in reply to paras 7 and 9 are awaited. Meanwhile withdrawal of the August programmes will be inaugurated for storage in Caserma Garibaldi.

1. Inspection shows, and personal Conversation with Capt. Beery (B) 23BSD, confirms that the disinfectants have been exposed to the weather for extended periods of time.

- (a) The cardboard containers in which the large size cans of Anti Mosquito cream are packed are badly deteriorated.
- (b) The wooden cases in which the small sized anti-mosquito cream and water sterilization powder is packed are badly broken up as a result of weather deterioration and poor handling.
- (c) The five gallon metal tins which contain Malarial, Flysol and Paris green are badly rusted and in many cases leaking.
- (d) In one instance a 50 gallon drum of Malarial had apparently been dropped from a truck, as one of the seams had been split open.
- (e) The fly catchers and AL 63 were in comparatively good condition, but were not shipped for lack of space.

2. The repeated and apparently careless handling of the supplies while loading and unloading are partly responsible for their present condition.

3. The Italian authorities do not have the figures on the amounts shipped to Sardinia, as the entire shipment was off loaded from the trucks on to the dock at shipside, and then later a portion of it was loaded on board ship as space became available after higher priority cargo had been loaded.

4. The remainder of supplies at 23 BSD are ready for delivery. A small quantity of stores now in Naples could be shipped. We are now waiting for water transportation, and for the Italians to complete their inventory of supplies in Naples to determine how much has been shipped to Sardinia.

1)- Si conclude uno schema di distribuzione per i disinfettanti occorrenti per le M.A.A. italiane nel mese di luglio 1944.

2)- Poiché non sono stati ricevuti e distribuiti quantitativi assegnati per i mesi di maggio e giugno 1944, non è possibile fare un esatto calcolo delle riserve esistenti.

3)- Si ritiene che il quantitativo assegnato per il mese di maggio 1944 verrà interamente distribuito, pertanto si può far conto su una riserva pari al fabbisogno di un mese, ossia ai quantitativi assegnati per il mese di giugno 1944.

4)- I quantitativi indicati nelle prime tre colonne dovrebbero essere resi disponibili a Bari (cfr. la colonna riassuntiva n°4), i quantitativi delle colonne n°5 e n°6 a Napoli, e quelli della colonna n°7 a Palermo.

4)- I quantitativi indicati nelle prime tre colonne dovrebbero essere resi disponibili a Bari (cfr. la colonna riassuntiva n°4), i quantitativi delle colonne n°5 e n°6 a Napoli, e quelli della colonna n°7 a Palermo.

1. Enclosed distribution schedule for disinfectants required by U.S. Armed Forces for the month of July.

2. Since quantities planned for the summer of May & June have not all been delivered or distributed yet it is impossible to state exactly what the reserves may be.

3. It is believed that quantities assigned (V. Savino) for May will all be used and therefore it is estimated that the present reserve will equal one month's requirements, i.e. the quantity assigned for June.

4. Quantities shown in first 3 columns (or recapitulated in Col. 4) should be made available at Bari. Quantities shown in columns 5 & 6 at Naples and quantities shown in column 7 at Palermo.

FROM: Min of War. Med. Dir. Gen. ST

TO: M.M.I.A. for info

Subject: Trans. of disinfectants for the Mont. of MAY 44

Further to our 61919/MT. dated 12.I.44

We beg to confirm that the following items are available

The items will be available at BARI for the 9 & 31 Corps, at NAPLES for CAMPANIA & SARDINIA, at CATANIA for the 12 Corps.

Representatives of the Med. Dir. of 9 Corps, HQ FEA CAMPANIA & 12 Corps will contact respectively the following

1° at BARI - the HQ 22 C.R.A.S. C. (Supply units)

2° at NAPLES - the IN CRASC (" ")

3° at CATANIA - the DDST of HQ 1 district.

Tpt. office of the SMRE is requested to order for 2 Tps. orders to the M.M.I.A. referring to their ST/17 dated 21.I.44 for the stores to be sent to the SAMARSI stores (col. 4) SARDINIA. The stores for SARDINIA are at NAPLES and will be dispatched to the island after agreements with the IN CRASC (supply units). Tpt. office is also to arrange despatch of stores as in col. 2 from BARI to the M.C. Hosp. CATANZARO.

Re use of disinfectants. We are enclosing herewith instructions for the use of the Ad. 63. The debrated tablets are to be used to neutralise the excess of chlorine in the sterilized water with the sterilizing powder, which has to be kept chlorinated before the use of the tablets for at least half an hour to allow proper effects.

Malarial is an anti. larva liquid. It will be sprayed on the ponds with sprays as those used for the sulphate of copper. 1 liter of Malarial is to be used for each 100 m².

the SAMASSI stores (col. 4) SARDINIA. The stores for SARDINIA are at NAPLES and will be dispatched to the island after agreement with the INCRASS (supply units). Tpt. office is also to arrange dispatch of stores as in col. 2 from BARI to the MIL. Hqrs. CATANZARO.

Re use of disinfectants. We are enclosing herewith instructions for the use of the A.L. 63. The decontaminated tablets are to be used to neutralize the excess of chlorine in the sterilized water with the sterilizing powder, which has to be kept chlorinated before the use of the tablets for at least half an hour to allow proper effect.

Malaxol is an anti-larva liquid. It will be sprayed natural on the ponds with sprays as those used for the sulphate of copper. 1 litre of Malaxol is to be used for each 15 square metres and sprayed once a week. Further instructions will be sent soon.

We auth. issue of the opm. items to the various units within the limits of their requirements. Now on you can rely on a regular supply on the same quantity as above and/or in connection with requirements.

Returns and requests for disinfectants must be sent to the War Min together with those for drugs (see our 65/Jan. 63). The request must not exceed the quantities issued for May (maximum quantity with for a 30 days period). Stocks will be deducted from the request for the following month which will request for the difference only.

You are requested to check accurately the proper use of disinfectants by your dependent units.

Col. SAVINO.

Si prega l'Ufficio Trasporti dello S.M.R.E. di voler inviare una richiesta di movimento alla Sottocommissione per l'Esercito della A.C.C., facendo riferimento al foglio ST/17 del 21/5/44, per i materiali da inviare in Sardegna alla farmacia di Samassi (colonna 4), i materiali per la Sardegna si trovano a Napoli e dovranno essere ritirati e inviati in Sardegna previo accordo con il 14 CRASC (Supply Units).

Si prega altresì l'Ufficio Trasporti dello S.M.R.E. di disporre per l'invio dei materiali di cui alla colonna seconda da invi all'Ospedale Militare di Catanzaro.

Per quanto riguarda l'impiego dei disinfettanti, si allega per le Direzioni di Sanità una istruzione sull'uso della polvere antiparassitaria A.I. 63. Le tavolette per togliere il cattivo sapore vanno impiegate per neutralizzare l'eccesso di cloro libero residuo presente nell'acqua sterilizzata con la polvere per la sterilizzazione dell'acqua; questa deve peraltro aver esercitato la propria azione per un tempo non inferiore a mezz'ora.

Il malarisol è un liquido larvicida: esso va spruzzato senza diluizione sugli stagni e mezzo di spruzzatori del tipo di quelli usati per il solfato di rame. Si tenga presente che il malarisol va impiegato in ragione di litri 1 per 15 metri quadrati, e che lo spruzzamento va ripetuto una volta alla settimana.

Istruzioni più dettagliate verranno inviate al più presto.

Si autorizza la distribuzione dei materiali in oggetto, nei limiti del bisogno, agli Enti Sanitari dipendenti. E' ora innanzi, sarà possibile far conto su un regolare rifornimento mensile dei materiali stessi, in misura equivalente per il consumo mensile.

Le situazioni e richieste dei disinfettanti dovranno pervenire a questo Ministero con le situazioni e richieste dei medicinali (foglio 65/Gen. Sez. 6.): le richieste non debbono superare i quantitativi assegnati per il presente mese (quantitativi massimi autorizzati per un periodo di 30 giorni). Le rimanenze del mese precedente dovranno essere detratte dai quantitativi da richiedere, e dovrà essere richiesta solo la differenza.

Si raccomanda di controllare accuratamente l'appropriato impiego dei disinfettanti da parte degli Enti dipendenti.

30 April 1944

SUBJECT: Anti-Malarial Supplies to the ITALIAN Army.

TO : All Concerned.

1. The following instructions will govern the issue of Anti-Mosquito Stores and Malaria Suppressive drugs to the ITALIAN Army, in anticipation of approval by the Combined Chiefs of Staff.

2. Responsibility for supplies, as coming within the category of Medical Supplies, is primarily British. Provision will therefore be undertaken by the Supply Service British in respect of those items for which they are normally responsible.

3. Anti-Mosquito Supplies

a. These will be provided by D.S.T., this headquarters, in accordance with the following scales:

|                     |   |         |   |          |

| Malariol            | - | 30 gals | ) | per      |
| Paris Green         | - | 14 lbs  | ) | month    |

b. In the case of Anti-Mosquito spray, Malariol and Paris Green, allocations to ITALIAN Army areas will be subject to prior satisfaction of Allied requirements in case of any shortage pending further provision.

c. A special surplus stock of Anti-Mosquito cream is available with D.S.T. and no further provision will be made.

4. Mepacrine for Suppressive Treatment. This will be issued by Surgeon, D.M.S. Present stocks are only adequate for 150,000 ITALIAN troops, on a scale of one per man per day. It is the intention in future to make provision for all personnel of the ITALIAN Army and Air Force who may be situated in areas where other measures of malaria control cannot be made effective.

5. No spraying pump is at present available for issue to ITALIAN Forces. The Director of Ordnance Services, this headquarters, will arrange for provision of 100 such pumps for the ITALIAN Army, and for the minimum essential additional number which Headquarters, AAI, may require for ITALIAN Army use in SICILY.

2. Please advise this headquarters as soon as possible of the areas in which you require these stores to be released.

3. It had been hoped that it would be possible to release a quantity of Methylated Spirits. However, stocks of this item are dependant upon available local resources and it is regretted that the position at the moment is such, that none can be released to you. Should the position improve you will be advised.

4. Future releases will be based upon demands to be submitted by you in accordance with para 2, of AFHQ letter Ref AFHQ/64/2/ST dated 25 April 44. It is essential that your demand should reach this office by the 12th of the month preceding that in which the supplies are required.

1. Attached at Appx 'A' are proposals forwarded by the Italian Ministry of War to amend the procedure for issuing A.L. 63. They are designed both to employ their own medical branches and remove the onus of making demands upon the Allies, from units and sub-units of the Italian Army.
2. The administration of units in LUCANIA and APULIA is under 9 and 51 Italian Corps; in CALABRIA, under 31 Italian Corps. The preparation of demands and subsequent issue would be the responsibility of the medical branches in those Corps, and the safeguards against excessive demands and issues seem adequate.
3. May consideration please be given to these proposals, and this H.Q. informed of your decision.

4. We suggest that the units of 9 and 51 Corps send their monthly requests to the Medical Directorate of 9 Corps before the end of each month. The Medical Directorate will prepare a list of requests, and the issue suggested. All requests considered excessive will be reduced and unnecessary ones cancelled.....

.....Complete lists of requests will be forwarded for control to HQ No. 2 District through the Liaison Officer (Italian.)

5. The same procedure can be applied to CALABRIA where the Medical Directorate, 31 Italian Corps will forward requests to H.Q. 52 Area.

6. The vouchers will be issued by 2 District and 52 Area for the total requirements of each Army Corps. 9 and 31 Corps Medical Directorates will arrange distribution, in accordance with the lists approved by the Allied H.Q.

7. These amendments will ensure control of the issue of A.L. 63 both by the Allied authorities and a responsible Italian administration (Medical Directorate.)

Reference your 712Q of 24 Feb.

Army Sub Commission, ACC(MMIA) does not have Liaison British or US Officers at Area and Sub Area HQ's.

It is therefore suggested that this HQ instructs the Italian Forces to apply to the ITALIAN LO who is attached to the Area and Sub Area HQ's and who can ensure that the request is passed to the Area or Sub Area HQ.

If the issue is approved the Italian Forces LO can ensure that the unit draws from the correct D.I.D.

Ref:- 22/San di prot.

15th. February 44.

Subject:- Typhus among Italian Troops - Montenegro.

1. Italian G.H.Q. has informed this office that cases of typhus have been found among the troops of the Garibaldi Division.

2. The strength of the Garibaldi Division operating in Montenegro is approx. 8,000.

3. It is desired to supply the following materials to the Garibaldi Division :-

|                                    |              |
|------------------------------------|--------------|
| (a) Anti-typhus vaccine            | 25,000 c.c.  |
| (b) Anti-louse powder              | 8,000 boxes. |
| (c) Sprays for above (or syringes) | 100          |

Since Italian depots do not hold these products, they can only be supplied from Allied sources.

4. If these supplies could be delivered to the Stores of the "Bonomo" Military Hospital, Bari they could be sent to Galatina Airport and flown to Montenegro.

5. As this is an operational formation in the field, may this request please be treated as urgent.
