1. HQ RTC ICF require a monthly allotment of 3-tons of Coal so as to operate Baths and Showers in the Centre.
2. It is considered as most essential that as many washing facilities as possible be made to function in the Camp, if only for hygiene reasons.
3. The facilities here are primitive, and are in great need of improvement.
4. The recruits entering the Centre often come off long Journeys and are not as clean and as hygienic as they should be. Their training is also NOT conducive to cleanliness.
5. Would you please prospect the possibility of acquiring the above amount of Coal for the use of this Centre as soon as possible.

1. It is understood that your Commissariato has inspected a civilian bakery at Cesano which is capable of producing 7000 rations of bread per day. It can be leased to you for 600 (six hundred) lire per day.
2. It is strongly recommended that you agree to take over this bakery. It will be staffed entirely by personnel from 319 Bakery; it will then be possible to use only two Weiss ovens and the remaining three kept in reserve.
3. Please confirm at an early date your agreement to the above.
4. The foregoing to operate only until a proper static Military Bakery is erected at Cesano Reinforcement Training Centre.

1. The Bread making position at the RTC ICF is as follows :-
- (a) At CESANO - strength 10,000. 319 Sez Panettieri is baking bread by means of Weiss mobile ovens. There is no civilian baker at CESANO.
 - (b) At BRACCIANO - strength 3,500. A civilian baker is being employed. He can cope with 6,000 rations a day only. Temporarily there will be some 6-7,000 troops between BRACCIANO and MANZIANA. RTC have to reinforce with soldiers the number of bakers employed.
2. The scarcity of transport precludes the question of having bread made in ROME or at a distance from CESANO.
3. It is recommended that :-
- (a) At CESANO either
 - (i) A proper Military Static bakery be erected to prepare 10,000 rations daily or,
 - (ii) The Weiss ovens be retained to produce this bread and to train the reinforcements for the Sezione Panettieri

Temporarily there will be some 6-7,000 troops between Bataclano and MANGLIANA. HTC have to reinforce with soldiers the number of bakers employed.

2. The scarcity of transport precludes the question of having bread made in HORE or at a distance from GESAHO.

3. It is recommended that :-

(a) At CESANO either

(i) A proper Military Static bakery be erected to prepare 10,000 rations daily or,

(ii) The Weiss ovens be retained to produce this bread and to train the reinforcements for the Sezione Panettieri employed with the Gruppi.

(b) At BRACCIANO - the present system remains.

OGGETTO Panificazione per Centro Addestramento Complementi
di Cesano.

Come è noto il Centro Addestramento Complementi di Cesano sta attualmente provvedendo alla panificazione a mezzo della 319^a Squadra Panettieri con impiego di forni rotabili mod. Weiss.

I forni da campo sono materiali delicati, il cui impiego è previsto nella regolamentazione italiana soltanto nei casi in cui non sia assolutamente possibile provvedere altrimenti alla panificazione.

Tenuto conto sopra questo Ministero sarebbe del parere di affidare la panificazione per le truppe del predetto Centro a panifici privati locali, tenendo in riserva i forni Weiss. Qualora i forni privati locali non abbiano la necessaria potenzialità di produzione, l'eventuale deficienza potrebbe essere fornita dalla Direzione di Commissariato di Roma.

Qualora si voglia mantenere in allenamento i panettieri

sta attualmente provvenuto alla parificazione a mezzo della 319^a Squadra Panettieri con impiego di forni rotabili mod. Weiss.

I forni da campo sono materiali delicati, il cui impiego è previsto nella regolamentazione italiana soltanto nei casi in cui non sia assolutamente possibile provvedere altrimenti alla parificazione.

Premesso quanto sopra questo Ministero sarebbe del parere di affidare la parificazione per le truppe del predetto Centro a panifici privati locali, tenendo in riserva i forni Weiss. Qualora i forni privati locali non abbiano la necessaria potenzialità di produzione, l'eventuale deficienza potrebbe essere fornita dalla Direzione di Commissariato di Roma.

Qualora si voglia mantenere in allenamento i panettieri della 319^a Squadra, potrebbe disporsi il funzionamento a turno soltanto di n.2 forni Weiss.

Si prega far conoscere il parere in merito di cotesta Missione.

1. This matter was taken up with A.D.S.T. H.Q. M.M.I.A. about three weeks ago. It is agreed by all that the Food Store should move from POLIDORO to CESANO as soon as CESANO station is put into service.
2. Up to now Railway authorities would NOT authorise more than one supply train per week to CESANO. This would mean a train carrying at least 80,000 rations which would have been impossible for the following reasons:-
 - (a) Inability of NAPLES to load such a train with facilities available.
 - (b) Lack of accommodation for train of this size in siding at CESANO.
3. An Italian R.T.C. has now been appointed to CESANO station and it is hoped to activate the station fully in the immediate future. As soon as this is done the Supply Pack from NAPLES will be routed to CESANO and the Food Store moved from POLIDORO.

4. Captain Lord Westbury R.E., Movement Officer H.Q. M.M.I.A. is

one supply train per week to CESSANO. This would mean a train carrying at least 80,000 rations which would have been impossible for the following reasons:-

- (a) Inability of RAPIDS to load such a train with facilities available.
- (b) Lack of accommodation for train of this size in siding at CESSANO.

3. an Italian R.T.C. has now been appointed to CESSANO station and it is hoped to activate the station fully in the immediate future. As soon as this is done the Supply Pack from NAPLES will be routed to CESSANO and the Food Store moved from FOLLIDORO.

4. Captain Lord Westbury R.E., Movement Officer H.Q. M.M.I.A. is coming to CESSANO next week (12 - 19 Feb) to inspect siding accommodation and to study the question of completing the siding to the R.T.C. I.C.P. Storehouse.

2/2/1945

ALLA M.M.I.A. - (Major Smith)

Subject:- Daily sendings for Palidoro

Reference to letter of MMIA Naples STN/43 dated Jan 30 1945.

Direction of Military Commissariato of Naples provided for effecting daily the sending of the complete food ration to the Depot of Palidoro (for Combat Group Legnano).

Somedays Olive Oil, Tobacco and Matches were not sent because War Ministry - General Direction of Services of Commissariato with letter No. 14856/S/1 dated 26 Dec 44, assigned directly 70 quintals of Olive Oil (presumably the quantity needed for 2 months) and with letter No. 782/S/1 dated 13 Jan 45 cigarettes and Matches, to the Combat Group Legnano which must provide for withdrawing them, with its own transport, from the Direction of Commissariato of Bari. (We enclose copy of 2 letters).

From 30 Jan 45, as per telephonic instructions of above Ministry the Direction of Military Commissariato of Naples has begun again to send daily to the Depot of Palidoro all the foods composing the foods ration, comprising tobacco, matches and olive oil.

SUBJECT: Initial functioning of Depot. File ST/

We inform you that from today we begin the unloading of rail cars addressed to the "Legnano" Div. and the stocking of goods in the warehouse.

The requisitioned place has been completely cleaned out, holes and cracks have been filled in with cement, windows protected with barbed wire. It has been aerated for 8 days and has lost the stable smell.

The guard is regularly given by the Legnano Div.

We now inform for your attention what follows:

- 1) Transport and Petrol allotment. - At the moment we have at our disposal two SPA 38 lorries arrived from Naples, and a Guzzi motor cycle which is now being repaired.

With the two lorries we must provide to supply food from Rome three times a week, (about 70 km. one way and back each time) and to transport stocks from the marshalling yards to the depot, (1 km one way and back) at a rate of 4-5 journeys per wagon.

Supposing that only 30 wagons a month arrive (this amount is inferior to Allied program) we would have to cover at least 30 km. a month, which would require at least 700 liters of petrol, to be augmented if more wagons arrive.

The War Ministry-Motorisation Direct. - has allotted only 330 kg. of petrol (i.e. about 450 liters) for the month of January, and part of this amount has been used up during the last days of Dec. This allotment must be augmented if you wish the rail cars unloaded, and that the men should not remain without their rations. Would you therefore assign a substantial supplement.

- 2) Rail Cars in arrival-Rail Car with wine unloaded. - We will subsequently forward the list of rail cars that have previously been unloaded by the Legnano Div. and that have already been requested. This morning 5 rail cars of various items have arrived, and the unloading has begun. We inform you that since the 21 Dec. a wagon n. 524.436 P. (that left Naples on the 19 Dec.) is lying in the Falidoro yard, and it has two

fixed casks containing 15065 Kg. of wine. The taps are sealed. There are no tool for the opening and decanting available (pumps, rubber tubes). Neither the Legnano or this Depot can empty these casks for lack of tools and recipients (casks or barrels).

We therefore ask to be supplied as soon as possible with the necessary tools and recipients. The transport of this material must be provided by Rome as we do not have sufficient petrol for it. Unless there to whom this is addressed please that the wine should be sent elsewhere where it will be easier to unload and stock the wine. We await your answer as regards this question.

- 3) - Communications. - For the forwarding of the daily correspondence, we have come to an agreement with the "Pontificio di Torre in Pietra" that will bring the post every morning at the DID Rome in Via del Corso di Bulgaria with the lorry that brings the milk into Rome. Will the Com/ro Directorate be so kind as to forward the post addressed to the MMIA, as Maj. Cann R.A.S.C. instructed. Would the MMIA be so kind as to provide the phone line from this Depot to Rome, as has been promised.

THE C.C. ITALIANO DEPOT
(Capt. E. Mazza)

P.S. We also inform you that the two lorries given to us have no spare tires, and could soon be immediately provided so as to ensure the regular transport of goods.

Si comunica che da oggi questo Deposito inizia lo scarico dei vagoni indirizzati alla Divisione "Lernano" e l'introduzione delle derrate in magazzino.

Il locale requisito è stato completamente ripulito: le crepe e i pozzetti chiusi con cemento e le finestre protette con tili di ferro spinato intrecciato alle inferriate. Il locale è stato aerato per otto giorni consecutivi e ha perso ogni settore di stalla. La guarnigione viene fornita regolarmente dalla "Lernano".

Si segnala ora alla superiore attenzione quanto segue:

I. - Trasporti e rifornimento carburante - Si hanno attualmente a disposizione 2 due Spa 38 giunti: un Napelli e una motocicletta Guzzi in via di riparazione.

Con due autocarri occorre provvedere tre volte al mese al rifornimento viveri da Roma (Km. 70 circa andata e ritorno per ogni volta) e al trasporto derrate dallo scalo ferroviario al magazzino di Palidoro (Km. 7 circa andata e ritorno) in ragione di circa 4/5 viaggi per vagone.

Supposto che giungano anche solo 30 vagoni al mese (calcolo di molto inferiore alle previsioni alluate) si dovrebbero percorrere circa 360 Km. al mese, con un fabbisogno di circa 700 litri, da ~~avere~~ ⁹⁸⁷ ~~pro-~~ porzionalmente con l'aumento dei vagoni.

Il Ministero della Guerra - Diraz. Gen. Motor. - con rone del 27 dicembre ha assegnato sole Kg. 300 di benzina per tutto il mese di gennaio (pari a circa 450 litri) in parte già impiegati negli ultimi

Si comunica che da oggi questo Deposito inizia lo scarico dei vagoni indirizzati alla Divisione "Iannano" e l'introduzione delle derrate in magazzino.

Il locale requisito e stato completamente ripulito; le crepe e i porzetti chiusi con cemento e le finestre protette con filo di ferro spinato introciolato alle inferriate. Il locale e stato aerato per otto giorni consecutivi e ha perso ogni sentore di stalla. La guardia viene fornita regolarmente dalla "Iannano".

Si segnala ora alla superiore attenzione quanto segue:

1.- Trasporti e fabbisogno carburante - Si hanno attualmente a disposizione i due Spa 38 giunti da Napoli e una motocicletta Guzzi in via di riparazione.

Con i due autocarri occorre provvedere tre volte al mese al rifornimento viveri da Roma (Km. 70 circa andata e ritorno per ogni volta) e al trasporto derrate dalle scalo ferroviario al magazzino di Palidoro (Km. 3 circa andata e ritorno) in ragione di circa 4/5 viaggi per vettura. Supposto che giungano anche solo 30 vagoni al mese (calcolo di solito inferiore alle previsioni allivate) si dovrebbero percorrere circa 360 Km. al mese, con un fabbisogno di circa 700 litri, da aggiungere parzialmente con l'aumento dei vagoni.

Il Ministero della Guerra - Dires. Gen. Motor. - con tone del 27 dicembre ha assegnato sole Kg. 350 di benzina per tutto il mese di gennaio (pari a circa 450 litri) in parte già impiegati negli ultimi giorni di dicembre. Questa assegnazione e assolutamente insufficiente e occorre sia aumentata, se non si vuole che a un certo momento le derrate rimangano sui vagoni e la truppa senza viveri.

Prefesi perciò far assegnare un congruo supplemento di carburante.

2.- Vagoni in arrivo - Vagone vago giacente - Si fa riserva di trasmettere l'elenco dei vagoni precedentemente scaricati dalla Iannano, già richieste. Stamenti sono giunti 5 vagoni di derrate varie di cui si inizia lo scarico oggi.

785020

- 2 -

Si informa che dal 21 dicembre è giacente sullo scalo ferroviario di Palidoro il vagone Nv. 524.436 P (partito da Napoli il 19 dicembre) con 2 botti-cisterne lisce contenenti 22.15665 di VINO. Le cisterne hanno i coperchi sigillati a calce. Non vi sono attrezzi per l'apertura dei coperchi né per il travaso del vino (pompe, tubi gomma, ecc.)

Ne le legnano ne questo Deposito possono scaricare il vino per mancanza di attrezzi e di recipienti (rusti o botti)

Chiedesi perciò la pronta assegnazione di un sufficiente numero di rusti e degli attrezzi necessari per l'apertura delle cisterne e il travaso del contenuto. Il tutto dovrebbe essere inviato qui con mezzi provenienti da Roma, non potendosi pensare a ulteriori impieghi del già scarso carturante assegnato. A meno che gli Enti in indirizzo risengano appronto prendere i loro accordi per dirottare il vagone in altra località ove sia più agevole il travaso e l'immagazzinamento del vino.

Si attendono comunicazioni in merito.

3.- Comunicazioni - Per l'invio quotidiano della corrispondenza a Roma si sono presi accordi con la Benetton di Torre in Pietra, che cortesemente provvederà a recapitarla ogni mattina al Magazzino Viveri di via Re Boris col camion che porta il latte alla Centrale del Latte.

Pregasi la Direzione di Commissariato di disporre il pronto smistamento e la consegna alla M.M.I.A. delle copie ad essa indirizzate per conoscenza, come da istruzioni ricevute dal Sig. Maggiore Cann del R.A.S.C.

Pregasi la M.M.I.A. di voler cortesemente disporre il più assicurato collegamento telefonico di questo Deposito con Roma.

BUILDINGS.

The Allied Officers have only requisitioned two barns of the capacity of about 200/250 cubic metres each, and the stall mentioned above.

Bearing in mind the kind of goods which are to arrive daily (about 30 tons a day according to Allied calculations) I think that the above places can be ruled out absolutely. As, furthermore, we should logically be placed in PALIDORO so as to be in the immediate vicinity of the railway station, whereas the above places are about 4 km. away from it and are isolated in open country. I immediately looked for other places in PALIDORO itself which would be better suited to the task in hand.

I visited a private farm situated on the AURELIAN Way about 500 yds. from the station, called OSTERIACCIA, now occupied by some shepherds who could be removed. There are very ample places there, which, suitably cleaned out, could house all the goods which arrive. 50 yards away there is an ex-hospital belonging to the hygiene office of the ROME U.D.C., which can be occupied as offices, officers' mess and cookhouse, which can be put in a garage covered in. The doctor in charge of the little hospital has nothing against this provided there is an authorisation from the U.D.C..

785020

It will therefore to arouse the interest of A.C.C. so that it may send at once an officer with the powers to requisition the two above buildings immediately, informing the U.D.C. as far as the little hospital is concerned, and the few rooms to be occupied in it.
