INFO : LECCE BULK DEPOT (Your 2545 of 24/10 refers)

SUBJECT: Report on analysis and destruction of bad rations compiled on the 10th of July by the English Captain K. FREELAND

LECCE Bulk Depot informs us that they have not received MMIA's approval on the above report, in regard to the following rations: -

Allied minced meat	52.548 kgs
" meat & vegetables	30.804 kgs
" tinned meat	190.260 kgs
" ground coffee	13.500 kgs
" dried meat	56.625 kgs
" flour	3455.031 kgs

Since this document is indispensable for the final closing of the accounts of the LECCE Bulk Depot, we ask MMIA to let us know their decisions if it is accepted.

SE/77/31

49
23 Jan 45.

1. In reply to your 250/S/2 dated 20 Jan 45: our Liaison Officer at TARANTO has hitherto arranged with your Commissariati at TARANTO and CATANZARO as follows:-

- (1) Food for condemnation at BRINDISI DD be brought to LEGGE DD for condemnation.
- (2) Food at TARANTO (including R.I.N. Depot) be examined at MONTECATINI Depot.
- (3) Food at COSENZA be brought to CATANZARO SALA for condemnation.

2. It is suggested that the above arrangements continue, provided it meets with the approval of our Liaison officer.

3. Alterations to this programme can be settled locally by him with the Commissariati concerned.

4. This HQ's letter dated 18 Dec 44 (same reference) ⁵⁵⁶⁸ suggested one commission be held at TARANTO, because our Liaison Officer was at the time without transport.

Ref No: 980/S/2

Date: 20 JAN. 45.

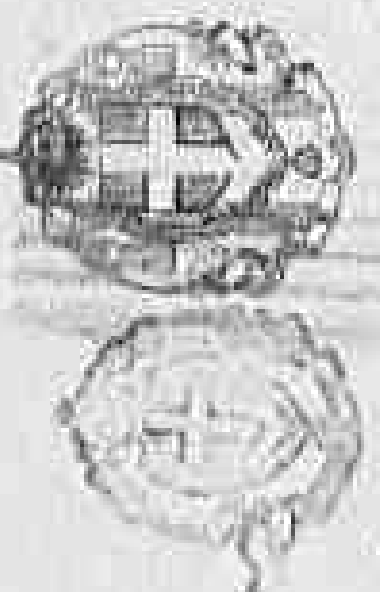

In reply to: ST/77/3 of 18 Dec. 44.

SUBJECT: Foodstuffs not fitted for consumption.

TARANTO Autonomous Comm/to. Office, ~~xxxxxx~~ to whom this Ministry, in accordance with what was proposed by you in your above-mentioned letter, has given instructions to the effect that the goods shown by that same Office as unfit for consumption be collected at TARANTO for examination by a single Commission, in its letter No 124 of 7 Jan. 45., has informed us that the goods themselves, lying in the establishments under its command and in the R.I.N. Depots of the Sector, had already been examined by the Analytical Commissions of the TARANTO Central Depot and of the Presidial Food Depot at LECCE, on 30 Dec. 44. and 1 Jan. 45. respectively, that is to say before they received the above instructions.

As this Office has asked to know, whether, in the future, it must carry out the proposals put forward by you and ~~ST/77/3~~ is to collect all the goods unfit for consumption at TARANTO always, to be examined by one Commission only, will you please inform us what instructions you wish to be issued in answer to that question.

To Chief Clerk:- NOT REGISTERED.

Subject: Flour gone bad in LECCE Bulk Depot.

Ref your ST/77/3 of 23 Aug. 44.
Attached is the report of the Commissariat Officer charged by W/M to ascertain the state of preservation of the 18,000 lbs. of flour which had gone bad, referred to in your letter quoted above.

Instructions have been given that 7627 lbs. of flour be passed over for the consumption by animals. The remaining 10,375 lbs. have been destroyed, as they were incapable of being used for anything else.

NOTE.

The report consists of a lengthy dissertation on how the Officer concerned thought that the flour had got into the state it had, and a repetition of the facts set out in G. N. PELLIGRA's covering letter. The Officer carrying out the inspection was Capt. CILLO Antonio.

Lt.
Oldstream Guard.

DEPOSITO SPECIALE V.E. LABORATORIO

RECUPERI DIREZIONE

Lecco, Li 31.8.1944

N° 2983 di pro. llo

O G G E T T O: Partite farina avariata.

AL COMANDO MILITARE DELLA PUGLIA E LUCANIA

DIREZIONE DI COMISSARIATO

= B A R I =

Il sottoscritto per quanto non compreso fra i componenti della Commissione permanente costituita presso il Deposito Speciale V.E. di Lecco per lo accertamento delle avarie delle cernate di provenienza alleate, ebbe ad eseguire accertamenti sulla nota partita di libbre 18.000 di farina avariata.

Tale indagine disposta verbalmente dalla Divisione Sussistenze del Ministero della Guerra doveva accertare se la parte di farina della commissione dichiarata non alibile per i quadrupedi, doveva considerarsi assolutamente inutilizzabile.

Esaminata l'intera partita il sottoscritto riscontrò che parte della farina, e precisamente le libbre 7627 dichiarata dalla ripetuta commissione alibile per i quadrupedi era costituita per intero da farina aggrumata per umidità, annaffiata e tal punto da non potersi più utilizzare, neanche con la bonifica, per l'alimentazione umana. Il rimanente quantitativo costituito da libbre 10375 che la detta commissione aveva deliberato di distruggere, era invece costituito da qualche sacco di farina compressa in blocchi, fortemente alterata ed emanante pessimo odore e ciò a causa di umidità assorbita probabilmente per essere i sacchi rimasti esposti alla pioggia, e per la maggior parte di sacchi di farina trummiata a terra - tanto che il contenuto di essi sacchi era di colore decisamente grigio e ad altri elementi come pezzi di legno, fili di juta, parti di scatolette di latta ex carne del tipo alleato, ecc.

La commissione ha pertanto fatto distruggere il detto quantitativo di libbre 10375.

Le cause dell'avaria dovrebbero quindi ricercarsi per la parte di farina aggrumata all'umidità assorbita dalla stessa probabilmente per essere stata trasportata sotto la pioggia e per la restante parte per essere stata la farina, fuori uscita dai sacchi per cause varie, spazzata unitamente al terriccio ed altri elementi sparsi sulle petone e sui pavimenti e così insaccata.

mente costituita presso il Deposito Speciale V.A. di Lecce per lo accertamento delle avarie delle derrate di provenienza alleate, ebbe ad eseguire accertamenti sulle note partita di libbre 18.000 di farina avariata.

Tale indagine disposta verbalmente dalla Divisione Assistenza del Ministero della Guerra doveva accertare se la parte di farina della commissione di farina non alibile per i quadrupedi, doveva considerarsi assolutamente inutilizzabile.

Esaminata l'intera partita il sottoscritto riscontrò che parte della farina, e precisamente le libbre 7627 dichiarate dalla ripetuta commissione alibile per i quadrupedi era costituita per intero da farina aggrumata per umidità, ammassata e tal punto da non poterla più utilizzare, neanche con la bonifica, per l'alimentazione umana. Il rimanente quantitativo costituito da libbre 10375 che la detta commissione aveva deliberato di distruggere, era invece costituito da quello sacco di farina compresa in blocco, fortemente alterata ed emanante pessimo odore e ciò a causa di umidità assorbita probabilmente per essere i sacchi rimasti esposti alla pioggia, e per la maggior parte da sacchi di farina tramistata a terra - tanto che il contenuto di essi sacchi era di colore decisamente grigio-nero ed altri elementi come pezzetti di legno, fili di juta, parti di scatolette di latte ex carne del tipo alleato, ecc. =

La commissione ha pertanto fatto distruggere il detto quantitativo di libbre 10375. =

Le cause dell'avaria dovrebbero quindi ricercarsi per la parte di farina aggrumata all'umidità assorbita dalla stessa probabilmente per essere stata trasportata sotto la pioggia e per la restante parte per essere stata fuori uscita dai sacchi per cause varie, spiegate unitamente al terriccio ed altri elementi sparsi sulle persone e sui pavimenti e così innescata. =

Il consegnatario del magazzino viveri di Lecce, che ebbe a versare parte della farina in questione al deposito V.A. per la dichiarazione di avaria da parte dell'apposita commissione, assicurò a suo tempo il sottoscritto che i sacchi di farina in questione pervennero da Brindisi verso la fine del 1943 nelle condizioni in cui li ha trovati la ripetuta commissione. La commissione da Brindisi si era stata fatta da quell'Ufficio di commissariato contemporaneamente, senza alcun prelevamento effettuato dai depositi alleati in quella sede.

26 July 44.

Direz. Gen. Commissariato,
Italian War Ministry.

1. An amount of 18,002 lbs of flour at the Lecce Bulk Depot is presently the subject of an Analysis Commission with a view to its disposal.
2. The Commission have recommended that due to the peculiar state of this flour a representative of the Ministry (Divisione Commissariato) should be instructed to carry out an inspection before any further action is taken to dispose of this commodity.
3. It is understood that the majority of the flour in question was received from the Lecce Distribution Depot.
4. Please arrange for this inspection to be carried out and advise this HQ of the result and action taken by you.

4° - Biscuits	"	12
5° - Canned Beans - 11969 tins 1 lb each (Allied sources)	"	27,200
6° - Meat and vegetables (Allied sources)	"	439,538
1 tin - 6 lb & 12 oz	"	
3 tins - 30 oz each	"	
7° - Tinned cheese - 9 tins, 12 oz each	"	5,613
8° - Canned meat - 7 tins, 16 oz each	"	3,061
	"	3,175

The officers of the board examined carefully all the supplies and ascertained that:

1° - The tins of Italian canned meat represented the remnant of a stock of 274,259 issued to the units and they had been rejected by the same units as being blown or with holes in them. The meat had been tinned in 1943 and as the tins had always been kept in the proper premises, the decomposition of the meat was probably due to faulty production.

2° - The Canadian Flour (182 Kil) was greenish, ash coloured, mouldy; consequently, it was judged to be unfit for human consumption. This flour arrived from the Italian Depot - Brindisi - in March 1944; it was contained into 200 sacks and most of them had absorbed dampness in transit.

3° - The rice (12 Kil) was green coloured and mouldy; it was judged to be unfit for any consumption.

4° - The biscuits (Kil. 27,200) were also mouldy and unfit for any consumption. They arrived from the Italian Depot - Brindisi - in March 1944, into three tins which did not close properly, as it was stated.

It was removed into other sacks the quantity mentioned above, ^{UNFIT} already damaged, could not be issued.

The board judged the 182 Kil. to be suitable for animals.

The members of the Board ascertained that 200 sacks of Canadian flour, owing to dampness absorbed during the transportation, were invaded with flour that could not be removed and weighed 145 Kil. instead of 100 Kil; thereon it was judged that the consignee should be discharged for the 45 Kil. lost in transit for the reasons already mentioned.

5° - The rice (12 Kil) was green coloured and mouldy; it was judged to be unfit for any consumption.

6° - It was received from the Italian Depot - Bari - in April 1944 and alleged to be already in the condition mentioned above.

7° - The biscuits (Kil. 27,200) were also mouldy and unfit for any consumption. They arrived from the Italian Depot - Brindisi - in March 1944, into three tins which did not close properly, as it was stated.

./.

785020

50 - Of the 969 tins of canned beans, 879 were blown or with holes in them caused by rust or transportation and 90 were sub-ones as partially blown. The board unanimously judged that 879 tins were unfit for any consumption and some of the remnant lot of 90 tins should be examined by the Provincial analyst in order to establish whether the lot should be condemned. These tins were included in a stock that arrived from the Italian Depot - Crotona - at the beginning of April 1944 and were already damaged when received.

60 - 70 - 80 - The tins of meat and vegetables (1 tin of 5 lb & 12 oz; 3 tins of 30 oz each) cheese (9 tins 12 oz each) and meat (7 tins 16 oz each) were blown or with holes in them and the content was judged to be unfit for any consumption.

The tins were included in a stock received from the Italian Depot - Bari - in April 1944 and already damaged.

On the statements mentioned above, the Board concluded unanimously that: a) - damages and losses are due to unavoidable accidents and - consequently - the consignee is to be discharged for the following supplies:

Flour - W/A - Unknown	net weight Kil.	237
Rice "	"	12
Biscuits " 12/43	"	27,20
Canned beans W.S. varying between 1944/45	"	398,71
Canned cheese W.S. unknown	"	3,06
Canned meat " "	"	3,17
Meat and vegetables W.S. unknown	"	5,51
Italian canned meat tins packed 1943	"	962,72

The same consignee is to be charged for Kil. 192 of Canadian flour, judged to be issued for animals;

- * b) - Damaged supplies, unfit for any consumption to be burnt and successively buried;
- c) - for burning the supplies the consignee was authorized to use 1.200 Kil of wood for which he shall be discharged;
- d) - the present report to be submitted to the Army Sub Commission of A.C. Leguile - for approval.
