SUBJECT: Forage for Horses.

TO : M.M.I.A. (Thru Navy). Cagliari / Cagliari

URGENT

1. This Headquarters has 3 horses purchased on the market and put on the regular strength records. These horses are essential in this period of lack of transportation, for light transportation to far away units (transportation of rations, wood etc.). It would be very difficult also for motor transportation to reach these units because of the bad conditions of the roads and would use up tires.

2. These horses were attached to the local Infantry Battalion which provided forage for them. Recently the Battalion Headquarters has notified us that it could no longer feed the horses because instructions had been received from MMIA to feed only the number of horses of the Army. This number was in accordance with the service.

3. We call to your attention the absolute impossibility to purchase forage on the market and therefore request you to assign the number of rations for the above horses.

4. Please expedite the matter because the horses have not received the rations for many days and do not get sufficient nutrition. Their forage is provided at present by pasture, small quantities of straw bought on the market.

ARGOMENTO: Foraggiamento quadrupedi.=
URGENTE.

1°) - Questo Comando è in possesso di numero 3 cavalli, a suo tempo acquistati dal commercio e regolarmente a carico, che, in questo periodo di definitiva ed avanzata, si sono resi particolarmente utili per trasporti leggeri alle opere distaccate(specie viveri-provvedimenti periodici-rifornimento di legna ecc.) tanto più che le Opere stesse sarebbero difficilmente accessibili con automezzi per le pessime condizioni di viabilità che, in ogni caso, impiegherebbero una forte aliquota di pneumatici.

2°) - I suddetti quadrupedi sono stati finora aggregati al locale Btg. di Fanteria che provvedeva al loro foraggiamento.

Recentemente il Comando Btg. ha, però, comunicato di non poter continuare tale aggregazione avendo ricevuto autorizzazione da codesto M.M.T.A. a prelevare solo il numero di razioni strettamente corrispondente al numero dei quadrupedi in forza(circa da proposta del R.E.) stabilito in relazione alle esigenze di servizio.

3°) - In considerazione della quasi assoluta impossibilità di approvvigionare il foraggio direttamente dal mercato, prego codesto M.M.T.A. di concedere l'assegnazione delle razioni necessarie per i suddetti quadrupedi.

4°) - Prego altresì di considerare alla pratica carattere di urgenza; infatti presente che i tre cavalli, privi della razione normale di mantenimento, vengono alimentati esclusivamente con espedienti vari(pascolo precario quando ne passa acquedotto ecc.).=

SUBJECT: Foraging of Carabinieri horses.

TO : Commanding General, Italian Army in Sardinia.

1. Receipt is acknowledged of letter from your headquarters signed by Lt. Col. Mario Capello, dated 6 July, 1944, file 21797, in which it is requested that barley be furnished from Allied stocks for the daily feeding of 526 horses belonging to the Carabinieri Reali.

2. This headquarters has no authority to issue the necessary barley to these animals. The Allied High Command agreed several months ago to furnish forage for the maintenance of the Italian Army's animals in Sardinia. At the time, this headquarters requested of you a statement as to animals under your control, which statement you furnished in your letter dated 4 May, 1944, file 4535/5/ord. di prot. The Carabinieri horses were not included in the foregoing statement and therefore, when the numbers reported in you were furnished the Allied High Command, the Carabinieri animals were not included among the animals authorized to be fed.

3. Your request is being communicated to the Allied High Command for decision.

4. Meanwhile, it is suggested that the furnishing of barley for the Carabinieri horses be discussed with the High Commissioner with a view to his releasing the necessary grain to sustain these animals.
