MEMO TO: Colonel F. L. SIMMONS

In order to comply with instructions contained in letter Headquarters Army Sub-commission, ACC, subject clothing of Italian personnel, dated 8 June, a board of three (3) Officers was formed by Colonel F. L. SIMMONS, Army Sub-commission Representative in Sardinia, for the purpose of organizing into self-controlled and self-administered Italian units which are to be retained in Sardinia under the Allied command. The board consisted of the following officers: Lieut Col. CLARKE, CAC, Assistant G-3 Allied Garrison of Sardinia; Captain CERUTTI, Cavalry, Army Sub-commission Sardinia; Lieut Col. COSTANTINO, Deputy Chief of Staff, Italian Army in Sardinia. The board met on 15 June and daily subsequently and the following points were discussed and agreed upon.

The Italian units to be formed under the Allied Command are to be organized into Provisional Groups according to the nature of work to be performed. They will be reinforced by separate companies of specialists as the geographical location and particular conditions demand. The following are the main types of work being performed which were taken into consideration in organizing the Italian Units:

51st Provisional Group	Radar, Guard, Airfield Defense, North
52nd Provisional Group	Radar, Guard, Airfield Defense, South
53rd Provisional Group	Port Defense
54th Provisional Group	Transportation
55th Provisional Group	Service Troops
56th Provisional Group	Highway Maintenance, Malaria Control (South)
57th Provisional Group	Highway Maintenance, Malaria Control (North)
58th Provisional Group	Salvage

(5)

The board decided to number the Provisional Groups beginning with fifty one (51). This number was chosen in view of the fact that similar Italian Units are now probably being organized under the Allied Command on the continent, in Sicily and in Africa.

AGS MEMO

Declassified E.O. 12356 Section 3.3/NND No. 785020

Commencing with this number would avoid confusion as to the identity of the units, and would give a clue as to the origin of the unit in the geographical sense. The sequence of numbers from fifty one (51) upwards, however, is arbitrary and tentative subject to coordination by higher authorities.

It was also agreed to conform as strictly as possible to the Tables of Organization of the Italian Army. It was felt that in this way the Italian Units would function properly and harmoniously.

Lieut Col. DE GUIDICI, Italian Liaison Officer, G-3 section, Allied Garrison of Sardinia, served as ex-officio member on the Board. He is a Regular Italian Army officer with over thirty (30) years service. He is a native Sardinian and is thoroughly acquainted with the Island and our problems here. His advice and suggestions were exceedingly helpful.

GEORGE L. CLARKE,
Lt. Colonel, CAC,

DESCRIPTION OF MEMORANDUMS

1. This headquarters will issue Memorandums from time to time. These Memorandums have as their purpose the compilation of the reports, policies and procedures to be followed by the organizations of this command. They will provide up-to-date statements of the standing policies and directives of this headquarters and those of the higher echelons of command. They will not supercede the directives of high headquarters; rather they are intended to supplement and clarify such directives.

2. As it becomes necessary, Memorandums will be revised and supplemented so as to accurately reflect and state all published directives on the particular subject matter. Ultimately these Memorandums will form a complete and unified compendium of policy.

3. Each Memorandum will be given a base number denoting the subject classification according to Memorandum 0-1 followed by the serial number specifically identifying the particular Memorandum.

4. Memorandum 0-2 is the index of all Memorandums issued to date. Space is provided so that later Memorandums may be entered therein, thereby keeping it up-to-date. Periodically a cumulative index will be issued incorporating the recent additions.

5. Revision by reissue. Issues of any numbered Memorandums after the first will have statement of rescission under the title. Superseded Memorandums will be removed from the file.

By command of Brigadier General WEBSTER:

JOHN P. DOYLE,
Colonel, Air Corps,
Chief of Staff.

ADMINISTRATION

GENERAL ADMINISTRATIVE POLICY

1. General Policy Statement.

a. It is a policy of this headquarters that a minimum amount of routine administration be handled through this headquarters. All lower headquarters will continue to use their normal channels of administration to their next higher headquarters and will include this headquarters as a channel only on administrative matters as prescribed herein.

b. Administrative matters not to be forwarded through this headquarters include:

(1) Decorations, citations, honors and awards.
(2) Promotions.
(3) Transfer and procurement of personnel.
(4) Leaves of absence, and furloughs.
(5) Rest Camps.

c. The following administrative matters will be forwarded through this Headquarters:

(1) All police matters covering relations between this headquarters and Allied or Italian units on Sardinia.
(2) All correspondence relating to directives and responsibilities of this headquarters.

2. Administrative Reports.

a. This headquarters will require periodic reports as a matter of information for the Commanding General. Whenever possible such reports will be information copies of already existing reports which contain the information required. Every effort will be made by this headquarters to eliminate the necessity for "extra" and "special" reports.

b. All routine reports required from units of the Allied Garrison will be covered by numbered memoranda, AGS. Special reports may be required from time to time.

3. Court-Martial Jurisdiction. - See Allied Garrison of Sardinia, Memorandum Number 10-3, dated February 5, 1944.

c. All American units on Maddalena Island whose Commanding Officers do not have special court martial jurisdiction are attached to the 3[illegible] Brigade for Special court-martial jurisdiction.

d. Trial by Special court-martial may become necessary within other American units whose Commanding Officers do not exercise Special court-martial jurisdiction and over whom there is no commander in their immediate chain of command in Sardinia exercising such jurisdiction. When such cases arise they will be referred by the Commanding Officer concerned to the Commanding Officer, 310th Service Group for trial.

3. Summary Court-Martial Jurisdiction.

a. Those commanders not having Summary court-martial jurisdiction and over whom there is no commander in their immediate chain of command in Sardinia exercising such jurisdiction will refer cases for trial by Summary court-martial to the nearest commander having such jurisdiction. Commanders to whom Summary court-martial cases are referred will try them at the earliest practicable date.

PROCESSING COURT-MARTIAL CASES

1. Court Martial records submitted through these headquarters indicate that there has been undue delay in the processing of Court Martial cases. The following are noted among the causes of delays:

a. Charges not preferred within one day after an accused is confined or restrained.

b. Delay by Investigating Officer in making his investigation and making his report.

c. Delay in referring case to trial and in the trial thereof.

d. Delay in preparation of the record of trial for action by the Reviewing Authority.

2. The 70th Article of War provides that when any person subject to Military Law is placed in arrest or confinement, immediate steps will be taken to try the person accused or to dismiss the charges and release him. In no case, should a person be confined in a guardhouse longer than 48 hours without having charges preferred against him. The same Article of War subjects to punishment any officer responsible for unnecessary delay in investigating or carrying the case to a final conclusion.

3. The commanding officer of an accused has the primary responsibility for the preferment of charges. Ordinarily, charges will be preferred and forwarded within one day of the commission of the offense (or the discovery of the offender). The investigation of serious cases will be thorough and ordinarily will be completed within three days, and where such action is necessary, forwarded to the officer exercising general court-martial jurisdiction over the accused, within one day thereafter. Each intervening commanding officer will immediately act upon and forward the charges, together with his recommendation as to the action to be taken thereon.

4. Summary court cases should be tried and the record completed within one day after the offense. Trial by special court-martial (if charges are not forwarded to the officer exercising general court-martial jurisdiction) should [illegible] investigation, within six days of

4. Summary court cases should be tried and the record completed within one day after the offense. Trial by special court-martial (if charges are not forwarded to the officer exercising general court-martial jurisdiction) should ordinarily be effected, if there has been an investigation, within six days of the commission of the offense; if the case involves no investigation, three days should be sufficient. The record in the case should be completed and forwarded within two days after trial. The record of trial by general court-martial should, in practically all instances, be completed within seven days after the trail and forwarded within twenty-four hours thereafter to the officer exercising general court-martial jurisdiction.

5. Delays in excess of those noted above will be explained by each officer concerned in the time data sheet accompanying the charges.

6. Disciplinary action, to be most effective, must be prompt, and unnecessary delays will be avoided in this command.

Medical Care of Troops other than American----VI

I - HYGIENE AND SANITATION

1. Existing Army Regulations and other directives for sanitation will be enforced by all unit commanders and medical officers whose responsibility for the health of the command is prescribed in paragraphs 2a. and 2b., AR 40-205 and paragraphs 5a. and 5b., FM 21-10.

2. a. Malaria is the largest single medical problem on the Island of Sardinia where its incidence is said to be the third highest in the world. Mosquito control measures will be promptly carried out as directed by par. 20e and f, AR 40-205; pars. 35 and 43, FM 21-10, and by subsequent directives from this and higher headquarters. Malaria occurs to some extent throughout the year.

b. Typhoid fever, and to a lesser extent, Undulant fever, are endemic in Sardinia. Troops will be strictly prohibited from the use of unauthorized drinking water. Foods of any kind other than those prepared and served in supervised army or navy messes shall be considered unauthorized. Permanent food handlers from attached Italian units will be examined carefully before being employed in Allied messes. Typhoid carrier suspects should be relieved from food handler's duties of any kind.

c. Respiratory disease incidence is normally seasonal, but a high incidence of Diphtheria occurs among children and young adults in Sardinia. Special care should be paid to all cases of nasopharyngitis or laryngitis, and diphtheria borne in mind in making each diagnosis.

d. Venereal disease control measures are the responsibility of organization commanders (Par 1, AR 40-435), and will be strictly enforced in all phases, including instruction of troops, semi-monthly physical inspections, use of mechanical and chemical prophylactic units, and maintainance of unit prophylactic stations. Prophylactic stations will be operated and maintained in town areas which are frequented by Allied troops. These stations will be operated by Allied medical personnel and are the responsibility of those unit commanders whose troops frequent, and are located near, the area in question.

3. Vaccinations and inoculations of all personnel will be kept current at all times, records being maintained to show that this has been done.

Memo. No. 20-1. (Cont'd).

II - HOSPITALIZATION

1. a. Two American hospitals are established for the care of Allied troops on Sardinia. The 60th Station Hospital is located at Cagliari; the 15th Field Hospital is located at Alghero.

b. Limited hospitalization facilities are available in the British naval hospital at La Maddalena. All patients from this area should be hospitalized at Alghero or Cagliari unless the condition of the patient prohibits further evacuation. Such cases which are evacuated to British hospital facilities will be accompanied by a properly filled out Emergency Medical Tag. The hospital authorities will enter the diagnosis on the back of the tag, which will accompany the patient back to U.S. control (duty or further hospitalization). Additional forms and clinical records may accompany the patient to duty or to an American hospital. For patients returned to duty, the unit surgeon will enter a final note on the back of the EMT, attach any other records received from the hospital, and forward with the sick and wounded report for the month in which the patient returned to duty.

c. Italian military and civil hospitals are in many localities of the island, but will be used only in emergencies when time and transportation does not permit use of Allied hospital facilities.

2. Because of the limited number of hospital beds and the difficulties of evacuation and return of patients, it is desired that the unit surgeon treat as many minor cases on a quarters status as his professional judgement will allow. Where equipment and personnel permit, small dispensaries should be operated for the care of patients carried on quarters status.

3. a. Outpatient laboratory facilities are available at 60th Station Hospital on Sunday, Monday, Wednesday and Friday ONLY. Darkfield examinations will be done only in the mornings of the same days.

b. The 15th Field Hospital outpatient laboratory will be available on Monday, Wednesday, and Friday. Darkfield examinations are not available.

4. Hospital dental clinics will accept patients only by appointment, except those cases classed as emergencies and sent in with an EMT.

5. Ambulance service, in emergencies, can be furnished by the American hospitals at the discretion of the hospital commanding officer or his designated representative.

III - MEDICAL SUPPLIES

1. Medical supplies will be procured in accordance with directives issued by the Commanding Officer, 310th Service Group.

Declassified E.O. 12356 Section 3.3/NND No. 785020

Memo. No. 20-1. (Cont'd).

IV - SUBMISSION OF MEDICAL REPORTS AND RECORDS

1. General. Reports will be submitted by unit surgeons and hospitals in compliance with existing air force and ground force directives. Consolidation of reports by higher echelons will conform to standard procedures. Units giving medical service to other organizations not having medical personnel will include such organizations in their reports. All reports giving name and strength of organizations will be classified 'SECRET' and will be so handled.

a. Patients admitted to dispensaries maintained by UNIT surgeons, will be carried on quarters status and may be admitted from other units having medical personnel, accompanied by an ET. Patients arriving from such units without an ET will be tagged by the dispensary and the carbon copy returned to the unit surgeon concerned. If patient is later hospitalized, the ET will accompany him and the unit will be notified of such disposition. THE DISPENSARY SURGEON WILL CARRY, ON HIS REPORTS, AS QUARTERS CASES, ONLY THOSE PATIENTS OF HIS OWN UNIT AND THOSE UNITS NOT HAVING MEDICAL PERSONNEL.

2. Reports to Allied Garrison of Sardinia

a. Information copies of the following reports will be submitted to the Surgeon, Allied Garrison of Sardinia:

(1) Weekly Statistical Telegraphic Report
(2) Monthly Report on WD AGO Form 8G at
(3) Monthly Report on WD AGO Form 8G c
(4) Monthly Report of Venereal Disease
(Colored personnel will be shown separately in the report, and separate rates will be computed for colored and white troops).

b. Special Reports. The following will be submitted direct to the Surgeon, Allied Garrison of Sardinia:

(1) Individual Report of Venereal Disease Case and Contact. (Two copies)
(2) Special Report of Epidemic disease. (Submit by telephone, radio, or special courier)

c. Hospitals will submit usual reports through normal channels except for desired information copies and special reports listed above.

d. Prompt submission of accurate reports will be of much assistance in the control of venereal and epidemic diseases. Careful questioning of new venereal disease cases when preparing the special Venereal Disease Report will aid in apprehension of diseased prostitutes.

V - DEATHS

1. Upon occurrence of death of Allied Military personnel, the Q.M. Graves Registration Office, Headquarters 310th Service Group, in Cagliari, will be notified at once.

- - MEDICAL CARE OF TROOPS OTHER THAN AMERICAN

1. British troops who have no unit medical personnel will be cared for by the nearest Allied medical service. Hospitalization will be in Allied hospitals except as directed in Section II paragraph 1, this memorandum.

2. Italian troops under operational control of the Allied Garrison of Sardinia will, insofar as possible, have their own medical establishments and personnel. Those small units who have no organization dispensary will be cared for by Allied dispensaries. Hospital cases will be referred, or, in emergencies, transported to the nearest Italian military hospital.

VENEREAL DISEASE CONTROL

1. Attention invited to Par. 2-c, Circular Letter No. 10, Office of the Surgeon, NATOUSA, dated 10 April, 1943, entitled "Diagnosis, Treatment and Hospitalization of the Venereal Diseases", as amended by par. 1, (1) Section I, Circular Letter No. 28, same office, dated 20 August 1943.

2. With the increasing venereal disease rate and the increasing number of gonorrhea patients on this Island that are found to be resistant to the usual course of sulfa drug therapy and the resultant number of days lost by required hospitalization, it is directed that all cases of acute uncomplicated gonorrhea in this Command be treated as "quarters" cases.

3. Personnel who have had uncomplicated acute gonorrhea will be restricted to their bivouac area for a period of two weeks following completion of treatment to guard against transmission of disease to the Civilian population.

4. Par. I, 1 (1), Circular Letter No. 28, Office of the Surgeon, Hq., NATOUSA, dated 20 August 1943, directs that patients who fail to show satisfactory response to one course of sulfathiazole or sulfadiazine will be hospitalized not later than the fifth day following completion of the course. Several instances in which this Directive has not been followed in this Command have been brought to the attention of this Headquarters. LARVICIDING EQUIPMENT FOR MALARIA CONTROL

1. Diesel Oil.

Diesel oil for use in sprayers as a larvicide against mosquito larvae is available to U.S. Army organizations at the Bulk V-80 Dump in Cagliari. Except in unusual cases each issue of diesel oil will be at the rate of one drum (approximately 50 gallons) of oil per company, squadron, or similar size organization.

2. Sprayers for applying Oil Larvicide.

Sprayers, cylinder type, 2½ gallon capacity are available at the Engineer Supply Depot, 310th Service Group and will be issued at the rate of two (2) per company, squadron, or similar size organization.

3. Requisitioning.

a. Unit commanders who require diesel oil and sprayers in carrying out their responsibilities in mosquito control will submit requisitions for their requirements to the 310th Service Group in the normal manner. Requisitions for diesel oil for this purpose will bear the certificate "This oil will be used for mosquito control purpose only".

b. Requisitions for malaria control material will be marked at the top with the words "MALARIA CONTROL" in red pencil or red ink to insure expeditious handling.

CHECK-LIST FOR CONTROL OF DIARRHEAL DISEASES

The following check-list is prepared for unit commanders to insure maintenance of sanitary conditions for fly control and control of diarrheal diseases:

1. Construction and care of latrines

a. Pits should be deep and be closed within 2 feet of the surface.
b. Construction should follow procedure outlined in FM 21-10, Section IV, Par 24 (2) c.
c. Fly proofing must be complete in box construction. Cracks will be carefully closed.
d. In all types of latrines, serviceable self closing hinged seat covers are essential. Several types of improvised hinges can be made which are extremely efficient in operation.
e. Liberal use of oil in pits will be made as necessary. Pits will not be burned out. Pits must stay as evidenced.
f. Fly traps will be placed near each latrine. FM 21-10, Par 35 c (5).
g. A fly control structure will be built around each pit-type latrine.
h. Sub-soil fly proofing six (6) inches deep and for an area of four (4) feet over ending the pit-latrine.
i. The oil filled entrance and seepage or garbage pits should be periodically inspected and steps taken to prevent their becoming fly-breeding areas.

2. Care of Kitchen. Extreme care will have to be exercised in prevention of food contamination by flies.

a. All kitchens will be carefully fly-proofed by the use of screens, salvaged netting, or other available materials.
b. Special emphasis should be given to the closing of all small cracks, holes, etc., along eaves and in the side walls.
c. Screen doors must be made self closing, and refitted to close tightly and eliminate cracks around edges.
d. Mess personnel must exercise constant vigilance in keeping screen doors tightly closed.
e. Liberal use of fly paper tape is recommended, and same should be frequently changed.
f. Kitchens will be sprayed with Freon bombs or spray at frequent intervals during the day in the fly season.

3. Care of Kitchen Area.

A. Ground contamination with food and wash water must be eliminated. Contamination is most prevalent in the vicinity of garbage racks and mess kit washing area.
b. Garbage racks are to be kept free of dropped garbage at all times, and will not be screened.
c. Garbage cans should be washed daily both inside and out. The use of lye is recommended. All cans must have lids which should be tightly closed.
d. Garbage will be satisfactorily disposed of.
e. Mess kit wash water must be kept boiling during time of its use.
f. Mess kits will be sterilized in boiling water before entering mess halls.

Declassified E.O. 12356 Section 3.3/NND No. 785020

g. Fly traps should be constructed, baited and used as prescribed in FM 21-10, Section V, par 35 a (5).
h. Precautions will be taken to keep flies away from meat being thawed, and the drippings therefrom should be promptly removed.
i. Empty tin cans will be carefully washed to remove all food particles.
j. Paper and paper containers which have been in contact with food will be promptly burned or stored in fly-proof containers until removed. Particular attention is called to the wax paper and the cartons in which frozen meat is received.

4. General Measures

a. Great emphasis must be placed on fly-swatting. If issue swatters become unavailable, improvised ones from salvaged tubes, screening, etc., should be made.
b. Personal cleanliness of mess personnel should be stressed, especially frequent hand washing.
c. Periodic inspection, before mealtime, of the hands and fingernails of all the men should be made at least twice weekly.
d. All men should be encouraged to report on sick call for examination, stool culture and treatment at the very beginning of onset of intestinal illness.
e. No food handler will be allowed to work in a kitchen when he is suffering from diarrhea. Periodic check of all permanent food handlers as prescribed by AR 40-205, par 13. should be accomplished. Additional stool and urine examinations of all food handlers during a period of sporadic outbreak is required.

5. Mess Halls and Mess Hall Areas

a. Mess halls and mess hall areas should be kept as free of flies as possible by following preventive measures similar to those outlined above.
b. Mess tables will be kept scrupulously clean. When constructed of wood-en boards, they will be of the "alternate loose board" type so that crevices between may be kept clean.
c. Mess halls will be properly screened.

6. While fly-control constitutes the main campaign, unit commanders are reminded that food and drink must also be protected from dust and carriers.

BIOLOGICAL WARFARE

1. "Biological Warfare" may be broadly defined as the employment of bacterial and toxic chemical agents (other than war gases) to produce death or disease in man, animal or plant (i.e. food crop) population.

2. Attention of all personnel, and in particular Intelligence and Medical Officers, is directed to the possible employment, by the enemy, of biological warfare in this area. Axis Ireland, because of its over-population by an under-nourished people, would be an excellent place for disease propagation by a desperate and unprincipled enemy. Precedents for use of this form of attack exist as indicated by the following:

1916 - Germans attempted to disseminate glanders and anthrax in Roumania.

1917 - Germans attempted same thing on the Western Front.

1941 - Japanese attempted (with some success) to spread bubonic plague among troops in China by dropping packets of rice and fleas, mixed with bits of cotton rag contaminated with the plague microbe, from low-flying aircraft.

8278

3. From the information now available, it appears that the principal types of biological warfare are to be guarded against. One of these is what might be called a mass tactical or external attack, such as the Japanese used in China. The other is sabotage, or attack from within, such as the attempts of the Germans in World War I to spread glanders and anthrax among the horses in France and Roumania. Intelligence officers and others concerned must be alerted for indications of either type of attack.

a. Unusual and otherwise unexplained flights of enemy aircraft.

b. Material dropped or sprayed from aircraft such as smoke or mists, flasks or ampules, gelatinous masses, refuse or food particles, parachutes or other containers for animals or insects.

c. Unusual types of bombs or shells, particularly those containing compressed air cylinders or pistons.

NUMBER 16-1) LOCAL DEFENSE

Responsibility----------I
Employment of Italian Troops----------II
Defense Plans----------III
Anti-aircraft Defense----------IV
Local Defense of Ports----------V
Policies Regarding Local Defense----------VI

I - RESPONSIBILITY

1. The Commanding General, Allied Garrison of Sardinia, is charged with the local defense of Allied airfields and installations and those ports which are being worked in the Allied interest.

2. Local commanders are responsible for the defense of areas occupied by and immediately adjacent to their commands. They will be responsible for the full and effective employment of all means of active and passive defense available to them in the repelling of attacks and to insure security of the troops, equipment and installations in the occupied area.

3. The general defense of Sardinia against attacks by ground forces and against amphibious or naval forces approaching the coast is a responsibility of the Italian Military commander.

II - EMPLOYMENT OF ITALIAN TROOPS

1. Italian units will be assigned by this headquarters to organizations and activities of this command for the purpose of augmenting and extending the local ground defense. Where the troops available to a commander are insufficient to provide for local defense and security a request for additional Italian troops will be made to this headquarters without delay.

2. Tactical command of Italian troops assigned for the defense of Allied installations, except as hereinafter provided, is vested in Air Base commanders and in the senior Allied commander at other activities. Such command will be exercised through the Italian commander. At every installation where Italian troops are assigned for use in local defense there will be a single Italian commander, except for such anti-aircraft troops as may be placed under the command of the local Allied AA commander.

3. All administration and supply of such Italian troops will be through normal Italian channels.

At every installation where Italian troops are assigned for use in local defense there will be a single Italian commander, except for such anti-aircraft troops as may be placed under the command of the local Allied AA commander.

3. All administration and supply of such Italian troops will be through normal Italian channels.

4. Local commanders are responsible that proper instructions are issued to the Italian commander covering the disposition and action of the Italian troops. In each case the Italian commander will be required to dispose troops and weapons in a manner best calculated to provide for effective all-round security. The state of discipline in Italian units and the condition of readiness to perform the assigned role will be equivalent to that degree of excellence expected in trained Allied troops.

5. Local commanders will report to this headquarters promptly any situation where proper control is not being maintained by Italian commanders or where the defense being provided is lax or ineffective.

III - DEFENSE PLANS

1. The following defense plans will be prepared by local commanders to provide for the defense of areas under their control:

Declassified E.O. 12356 Section 3.3/NND No. 785020

Memo. No. 45-1. (Cont'd).

a. Air Attack.

b. Airborne Attack.

c. Chemical Attack.

2. Plan for air attack will provide for the maximum use of active and passive defense measures and will include provisions for neutralizing the use of incendiaries.

3. Plans will be complete in every respect. Sufficient detail will be provided so that each individual understands the particular part he will play in each type of emergency.

4. The mission of the Italian defense forces will be included in defense plans. Local commanders will insure themselves that proper action is being taken by the local Italian commander to carry out the assigned mission.

5. Training for execution of the defense plans is the responsibility of the local commander. He will schedule and supervise such training as he may deem necessary to insure a prompt and adequate defense. Local commanders will make such inspections, tests or hold such exercises that may be necessary to insure themselves that all personnel are thoroughly conversant with their responsibilities and duties and that the local defense is capable of functioning effectively in an emergency. The testing of alarm systems and communications necessary for tactical control of the available forces will be stressed during these inspections and tests.

IV - ANTIAIRCRAFT DEFENSE

1. The Commanding General, 31st CA Brigade (AA), under the operational control of MB, AA and CD, AFHQ, commands all U. S. antiaircraft units in Sardinia and exercises operational control over all Italian AA units in Sardinia. He will appoint a local Antiaircraft Defense Commander (ADC) for each vital area defended, who will control the fire of all AA units assigned to him, subject to such restrictions as may be imposed by the Air Defense Commander (ADC), acting through the Sector Operations Room (SOR).

V - LOCAL DEFENSE OF PORTS

1. The Commanding General, 31st AA Brigade is charged with local defense of ports being operated in the Allied interest. He will designate from personnel under his control Port Defense commanders who will comply with the requirements of this Circular.

VI - POLICIES REGARDING LOCAL DEFENSE

1. Italian outpost lines established as a part of the local defense system will not be crossed by either Allied or Italian personnel due to the danger and difficulty involved in challenging and recognition. Authorized entrances and

IV - ANTIAIRCRAFT DEFENSE

1. The Commanding General, 31st CA Brigade (AA), under the operational control of MG, AA and CD, AFHQ, commands all U. S. antiaircraft units in Sardinia and exercises operational control over all Italian AA units in Sardinia. He will appoint a local Antiaircraft Defense Commander (ADC) for each vital area defended, who will control the fire of all AA units assigned to him, subject to such restrictions as may be imposed by the Air Defense Commander (ADC), acting through the Sector Operations Room (SOR).

V - LOCAL DEFENSE OF PORTS

1. The Commanding General, 31st AA Brigade is charged with local defense of ports being operated in the Allied interest. He will designate from personnel under his control Port Defense Commanders who will comply with the requirements of this Circular.

VI - POLICIES AND PLANS LOCAL DEFENSE

1. Italian outpost lines established as a part of the local defense system will not be crossed by either Allied or Italian personnel due to the language difficulty involved in challenging and recognition. Authorized entrances and exits from the defended area will be established for the use of all personnel. At such points both Allied and Italian guards will be posted for the control of pedestrian and vehicular traffic.

2. Perimeter guards will be instructed to prevent passage of personnel across their posts. Such force as may be available to them will be employed to prevent such passage.

3. The provisions of this Section will be a matter of specific instruction for all Allied personnel to avoid the possibility of misunderstanding and the inevitable tragic consequences.

NUMBER 55-1) RATION ISSUES TO ITALIAN CIVILIAN PERSONNEL

This memorandum supersedes Memorandum No. 55-1, 26 November 1943.

1. The issue of military rations obtained from Allied Powers sources to Italian Civilian Personnel is prohibited, except as follows:

a. Civilians will be furnished rations in emergencies when the interests of the Allied Powers demand and only upon specific authority from this headquarters in each emergency. Requests upon this headquarters for such authority will state the nature of the emergency, its expected duration, the numberof personnel involved, and the type of ration it is proposed to furnish. In general, authority will not be granted to furnish more than one-third (1/3) of a ration per individual per day of work (9-10 hrs.).

b. As a guide only those requests will be approved wherein it is clear that the Allied Powers will realize a return from their investment of food in such cases. As an example, an emergency is deemed to exist at this time in certain instances where circumstances require the employment of civilians at hard labor over periods of a week or more who, because of deficiency in their own resources, require food in order to enable them to expend the energy their employment demands of them.

2. Each headquarters will submit to this headquarters, so as to reach it by 1700 hrs. each Monday, a consolidated report to show for the preceeding period Sunday to Saturday, both inclusive, the number and type of rations furnished to civilians, the activity or installation involved, and the authority for such issue in each case.

MEMORANDUM :

NUMBER 55-2: SUPPLY AND MAINTENANCE

ISSUE OF RATIONS TO ITALIAN FORCES

(This Memorandum rescinds Memorandum No. 55-2, dated 12 March 1944)

1. GENERAL

Effective at once, all existing authorizations granted by this and higher headquarters for the issue of U.S. Army rations to Italian Army, Navy and Air Force personnel are hereby rescinded and the following substituted therefor.

2. LIAISON OFFICERS

In the future, U.S. Army rations may be drawn for preparation and consumption in U.S. organization messes for bona fide liaison officers from the Italian Armed Forces. Such rations will be drawn by means of the unit's daily ration return which will show the Italian personnel separately and specifically as liaison officers.

3. OTHER ITALIAN PERSONNEL

a There is no authority to draw U.S. Army rations for Italian personnel on duty with Allied Forces in Sardinia other than for Italian liaison officers. There is a special ration stocked in Sardinia by the Allied Powers for the feeding of Italian Armed Forces.

b Wherever practicable, Italian personnel on duty with Allied units and agencies will be fed the special Italian ration in Italian messes.

c Where, because of local conditions, it is impracticable to have this personnel fed in Italian messes, commanding officers of the U.S. organizations concerned will draw the necessary special Italian rations, as hereinafter provided, for preparation and consumption in their unit messes.

4. THE SPECIAL ITALIAN RATION

The special Italian ration consists of the following components:

Flour	12 oz.	Rice	1 oz.
Spaghetti or		Sugar	1 oz.
Macaroni	3 oz.	Coffee	1/2 oz.
Beans or Peas	2 oz.	Tomatoe Paste	1/2 oz.

therefor.

2. LIAISON OFFICERS

In the future, U.S. Army rations may be drawn for preparation and consumption in U.S. organization messes for bona fide liaison officers from the Italian Armed Forces. Such rations will be drawn by means of the unit's daily ration return which will show the Italian personnel separately and specifically as liaison officers.

3. OTHER ITALIAN PERSONNEL

a. There is no authority to draw U.S. Army rations for Italian personnel on duty with Allied Forces in Sardinia other than for Italian liaison officers. There is a special ration stocked in Sardinia by the Allied Powers for the feeding of Italian Armed Forces.

b. Wherever practicable, Italian personnel on duty with Allied units and agencies will be fed the special Italian ration in Italian messes.

c. Where, because of local conditions, it is impracticable to have this personnel fed in Italian messes, commanding officers of the U.S. organizations concerned will draw the necessary special Italian rations, as hereinafter provided, for preparation and consumption in their unit messes.

4. THE SPECIAL ITALIAN RATION

The special Italian ration consists of the following components:

Flour	12 oz.	Rice	1 oz.
Spaghetti or Macaroni	3 oz.	Sugar	1 oz.
Beans or Peas	2 oz.	Coffee	1½ oz.
Dehyd. Veg.	1 oz.	Tomatoe Paste	1½ oz.
Meat or Fish	3 oz.	Pepper	1/100 oz.
Cheese	1 oz.	Matches	2/7 bks.

5. DRAWING ITALIAN RATIONS

a. The Quartermaster, 310th Service Group, will procure and maintain a 15-day supply of all components of the Italian ration from the Combined Italian Armed Forces Supply Board at San Bartolomeo for issue to U.S. messes feeding Italian Armed Forces personnel.

b. Initially, commanding officers of U.S. organizations desiring to feed Italian personnel in accordance with the authority contained herein, will immediately submit a request to the depot serving their units for the number of Italian rations necessary to feed their Italian personnel through 14 September, 1944, and draw same without delay. Thereafter, the same procedure will be followed on the 1st and 15th of each month, each issue covering the requirements for the following half-month period. The requests on the depots will be in duplicate, will state the number of Italians to be fed, the period for which required, the nature of their duties with the organization, and in which of the three Italian services (Army, Navy or Air Force) the personnel are serving. This memorandum will be quoted as authority for these issues.

Rec'd 1115 5 Sept

Declassified E.O. 12356 Section 3.3/NND No. 785020

6. STRENGTH VARIATIONS AND ADJUSTMENTS

a The above-mentioned requests upon the Quartermaster for any half-month period will be based upon the predicted strength in Italians for the period, plus or minus rations to cover increases or decreases in Italian strength that occured during the preceding half-month period.

b In the event Italian rations are drawn for a half-month period and prior to the end of that period, all Italians have ceased eating in the unit's mess, the total quantities of unconsumed Italian ration components will be reported to the Quartermaster for proper disposition.

ISSUE OF RATIONS TO ITALIAN FORCES

This memorandum rescinds Memorandum Number 55-2 dated 8 December 1943.

1. The Combined Chiefs of Staff have authorized the issue of a special temporary scale ration to Italian Army, air and Naval Units rendering service in furtherance of Allied operations in Sardinia. The full scale contemplates that certain items (fruit, vegetables, wine etc) will be furnished their troops involved by the Italian authorities from local resources without cost to the Allied Powers.

2. It is directed that only those Italian Units which are engaged under Allied supervision upon duties and activities pertaining to Allied operations in Sardinia be issued that part of the special temporary scale ration to be furnished by the Allied Powers. Supervising Allied Officers (see sub. par. 3 c below) are specifically charged with carrying out the intent of this paragraph.

3. In carrying out the foregoing the following is prescribed with respect to the subsistence furnished from Allied resources:

a. The subsistence stores will be received, distributed to appropriate QM Class I depots, stored and issued by the same agencies handling those imported for consumption by Allied Forces.

b. The exact scale ration to be issued to Italian Units will be determined from time to time by this headquarters upon recommendation of the Air Service Commander.

c. Issue will be made solely to each Allied Officer, or his designated Allied representative, under whose direct supervision the Italian Unit for which the issue is intended is serving. Issue will be made upon a strength return which will bear the following certificate of the same officer: "I certify that this strength return is correct for the period indicated and that the personnel included are rendering services under my supervision to the Allied Powers".

f. ISSUES: (1) Issues for consumption by Italian units rendering continuous services for protracted periods will be made for 10 day periods on the 10th, 20th and last day of each month.

(2) The issuing agency will determine the first issue date and number of days rations to be issued for units entering upon service to the Allied Powers and for units to be employed for comparatively short periods of time.

(3) U. S. Officers concerned will draw subsistence for consumption by Italian Units under their supervision from the same depot from which rations are drawn for the Allied troops with whom the Italian Units are on duty or are stationed.

(4) In the case of British officers whose British troops draw rations from British Demand and Issue Depots, rations for Italian Units under their supervision will be drawn from the QM Class I Depot (USA) nearest the installations or area in which the Italian troops are employed.

4. In order that this headquarters may have a record of Italian Units to be rationed as set forth herein, each allied officer who proposes the use of Italian Units upon Allied operations will submit in advance a request to this headquarters for their rationing, stating the place or area of employment, the operation involved, and the designation of the Italian Unit including strength, of officers and men. Where circumstances will not permit submission of the request in advance, it will be submitted at the earliest opportunity stating the cause for the delay. Ration cards will be honored at branch exchanges and unit exchanges alike.

2. The Ration Schedule will be as given in War Department Circular 245, 1943 as amended by cable on same subject, and by the availability of supplies.

3. In areas where there is a concentration of troops, Branch Exchanges will be opened as rapidly as possible. Unit Exchanges will operate for isolated units. The Army Exchange Service will operate a warehouse in Cagliari from which Unit Exchange Officers may draw supplies on the basis of strength returns from the Unit Commander.

4. Unit Exchanges will sell at cost prices; except that a discount of 2½¢ per carton will be allowed to provide for shrinkage and losses, by the Army Exchange Service. Payment for supplies will be made by Unit Exchange Officers to the Army Exchange Service within twenty-one (21) days after the date of purchase.

5. Ration cards are being issued in bulk to unit commanders for distribution to officer and enlisted personnel of their commands. It is the responsibility of the unit commander to record the numbers on the cards and maintain a record of to whom issued; and to see that cards are issued only to authorized personnel. Ration cards are being sent directly to unit commanders through command channels.

6. Ration cards being issued now are for the seventh (7th) and eighth (8th) weeks ahead. These cards are not good after 25 February 1944. Back rations for the stated period will not be drawn. Ration cards for the week starting 26 February and for eight (8) weeks thereafter will be issued later.

7. Sales of Post Exchange supplies may be made only to the following: 8240

a. Commissioned officers, warrant officers, and enlisted personnel of the United States armed forces.
