SUBJECT: Decried items of substance unloaded from the SS "Howard A. Kelly".

TO : M.M.I.A.

1. Reference is made to conversation between Captain DeStefano of M.M.I.A., and Captain Zucchi of our Board.

2. We requested, in our letter No. 799/18 dated 3 November 1944, which is enclosed, to cancel off our records the below supplies that the Commission had judged not eatable and, therefore, not to be issued to the Armed Forces.

Flour	200 lbs.
Cheese	42 lbs.
Tomato Paste	1,940 lbs. and 2 oz.

3. The above items after being examined by the Commission have been destroyed by order of the same Commission.

4. We have not yet received the approved forms so we request you to look over the matter.

MILITARY COMMAND OF SARDINIA
DIRECTION OF COMMISSARY

No. 1/14219

20 November 1944

SUBJECT: Conflagration.

TO : M.M.I.A.

As you already know on 9 November there has been in the Special Depot of Cagliari a conflagration which destroyed about 10 cases of heavy pointers which were stacked in the yard of the depot.

As the conflagration, due only to combustion because the fire started inside the stack, we request the authorization to issue first the pointers to avoid other conflagrations. The piles in the open in fact, promote, especially in the rainy season, the combustion.

COMANDO MILITARE DELLA SARDEGNA
COMMISSARIATO MILITARE
Sezione Prima

N° 1/ 14219 / di prot.
OGGETTO: Incendio.

Cagliari, 28/11/44

AL COMANDO M.M.I.A.
CAGLIARI

Come già a conoscenza di Codesto Comando "in data 9 corrente si è sviluppato presso il Deposito Speciale Viveri di Cagliari un incendio" il quale portava di conseguenza la inutilizzabilità di una diecina di casse di patate deidrate le quali trovavansi accantonate all'aperto nel piazzale del suddetto Deposito.

Poiché tale incendio si desume dovuto unicamente ad un fenomeno di autocombustione, dato che il fuoco si è sviluppato dall'interno della stiva, sarebbe opportuno che Codesto Comando esaminasse la possibilità di autorizzare il consumo, con precedenza sulle altre verdure, delle patate per evitare che tale incidente abbia ancora a verificarsi, favorendo la sistemazione all'aperto, specie nella stagione piovosa, i fenomeni di autocom-
bustione. 749

TO A. G. S. HQS.

- 1.- We have stocked in the Depot of the Committee on 3/5/1944 #3.667 barrels of sardines unloaded from the s/s Gipp. The amount in lbs is 807.266 lbs
- 2.- When unloaded many barrels were damaged, and in many barrels the boards allowed, the souse to run out. These barrels had been left for a long time in the open weather.
- 3.- The Committee issued the sardines in the following periods:

|              |               |        |             |
|--------------|---------------|--------|-------------|
| 2nd. 10 days | period of May | 5 days | 324.838 lbs |
| 3rd 10 days  | " "           | " "    | 286.514 "   |
| 1st. " "     | " " "         | 3 "    | 171.907 "   |
- 4.- A large quantaty of sardines have been stocked in the depot for about a month.
- 5.- When the is ues to the 4 med foeces were completed we noted that 24.007 lbs were mi missing.  
The cause of this deficit are in the bad conditions of the barrels . 702
- 6.- In the Italian army the regulations give an allowance in this case of 2,97 %
- 7.- We request therefore your hqs to applicate to the Committee what is said above and give us in this way he possibility to rub out from our records 24.007 lbs of sardines on the whole amount of 807.266 lbs

1.- Provenienti dal Pignone "Giro" sono stati introdotti nel Deposito Fiere del Comitato Mixto Sindacalisti in data il giorno 2/5/1944 per 807 metri di legno contanti sardine sotto sale per un peso netto complessivo di 807.266 lbs.

2.- All'atto della introduzione, molti fusti si presentavano in condizioni: in alcuni le logge non avevano più di cerchi, in altri, di preparazione forse più recente, il legno essiccato, lasciava fuoriuscire il resino di sale. Tale cattivo stato di conservazione dei fusti in alcuni casi era tale che i medesimi erano rimasti per molto tempo esposti all'aria.

3.- Il Comitato dispose di inviare subito il rimanente alle tre Forze Armate e l'avvicinamento si effettuò in base al seguente criterio di distribuzione:

- 2° decade Maggio	giornata 5	lbs. 324.836
- 3° decade Maggio	giornata 5	lbs. 285.514
- 4° decade Maggio	giornata 1	lbs. 171.907

4.- Ne è derivato che un forte quantitativo di sardine ha scattato nel Deposito del Comitato per circa un mese.

5.- Il termine della consegna alle tre Forze Armate delle sardine, si riscontrò una deficienza di lbs. 24.007 di spettò al quantitativo di cui al § 1.

Tale deficienza si ha da ritenere originata dal ritardo stato in conservazione dei fusti che hanno perpe-

1.- Provenienti dal Pescecazo "Girra" sono stati in origine
nel Deposito Viceré del Comitato Misto Rifornimenti di
litari il giorno 3/5/1944 N°3.687 etti di legno conte-
nenti sardine sotto sale per un peso netto complessivo
di 807.266 lbs.

2.- All'atto delle introduzione, molti etti si presentava-
no sconzionati: in taluni le doghe non aderivano più
ai cerchi, in altri, la preparazione forse più recente, il
legno essiccato, lasciava fuoriuscire il residuo di sale
mole. Tale cattivo stato di conservazione dei fusti la-
sciava temere che i medesimi erano rimasti per molto
tempo esposti all'aria.

3.- Il Comitato dispone di iniziare subito il rifornimento
alle tre Forze Armate e l'avviamento si effettua in ba-
se al seguente criterio di distribuzione:

- 2 ^a Decade Maggio	giornate 5	lbs. 324.838
- 1 ^a Decade Maggio	giornate 5	lbs. 286.514
- 1 ^a Decade Giugno	giornate 3	lbs. 171.907

4.- Ne è derivato che un forte quantitativo di sardine ha
sostato nel Deposito del Comitato per circa un mese.

5.- Al termine della cessione alle tre Forze Armate della
Sardagna, si riscontrò una deficienza di lbs. 24.907 ri-
spetto al quantitativo di cui al § 1.

Tale deficienza si ha da ritenere originata dal pre-
cario stato di conservazione dei fusti che hanno permea-
so la fuoriuscita di alta percentuale di salamoia e con-
seguentemente l'essiccamento del pesce ivi contenuto.

- 6.- Le norme amministrativo-contabili vigenti secondo il regolamento amministrativo N. 1260/10, prescrivono la concessione di un esito di licenza di macchinario, che nel caso considerato e per la specie la dervata (sardine) è del 2,57%.
- 7.- Si prega vivamente questo Comando di esaminare la possibilità di applicare al Comitato il caso di licenza ammesso dal regolamento amministrativo del N. 1260/10 e di concedere lo scarto di 24.007 libbre, che rappresentano il caso di cui al paragrafo precedente (2,57%) sul complessivo quantitativo di sardine di lbs. 807.266.-

Subject: Procedure for dealing with Italian rations unfit for consumption.

Military Mission Italian Army,

ROME.

ST/77

Direz. Gen. Commissariato,
Italian War Ministry.

2 Oct 44.

These instructions are based on MHA Administrative Instruction No. 3 issued 4 June 44, but should there be any points of difference between these instructions and Adm. Instruction No. 3 it is notified for the information of all concerned that these present instructions will constitute the governing document. Any necessary amendments to Adm. Instruction No. 3 will be made and issued in due course.

1. When rations delivered to the Italian Armed Forces by the Allied Military forces are suspected to be unfit for human consumption, at the time of hand-over, the Italian Port Detachment taking delivery will immediately report the fact to the Direzione Commissariato concerned. Officers Commanding Italian Army Food Depots will similarly so report any foodstuffs held by them in their depots which are suspected as unfit for consumption.

2. In all instances where food supplies are reported to the Direzione Commissariato as unfit for consumption, a short "Unfit Subsistence" report will immediately be forwarded to HQ MHA by the MHA Sector Liaison Officer.

See Appendix 'A' for proforma to be used.

3. The Direzione Commissariato, on receipt of such reports from Port Detachments or Ca. C. Depots will, by arrangement with the MHA Sector Liaison Officer concerned, convene an Analysis Commission to examine and adjudicate upon the supplies in question.

Analysis Commissions will comprise-

An officer representative of MHA.

An Italian officer representing the Divisione Commissariato.

An Italian Officer qualified as a chemist or food analyst.

Where necessary an additional independent analyst's report may be obtained.

4. Analysis Commissions will record facts and record action taken, in accordance with the Analysis Report, pro-forma for which is attached at Appendix 'B'.

This report is required in sextuplicate, copies disposed:-

(one) 1 copy retained by MHA Sector Liaison Officer
(one) 1 copy retained by the concerned Direzione Commissariato.
(Four) 4 copies forwarded to HQ MHA.

Notes accompanied by Analysis Commissions, vide para H of the Analysis

Army Food Depots will similarly so report any foodstuffs held by them in their depots which are suspected as unfit for consumption.

2. In all instances where food supplies are reported to the Direzione Commissariato as unfit for consumption, a short "Unit Subistence" report will immediately be forwarded to HQ MIIA by the MIIA Sector Liaison Officer.

See Appendix 'A' for proforma to be used.

3. The Direzione Commissariato, on receipt of such reports from Port Detachments or Ca. C. Depots will, by arrangement with the MIIA Sector Liaison Officer concerned, convene an Analysis Commission to examine and adjudicate upon the supplies in question.

Analysis Commissions will comprise-

An officer representative of MIIA.

An Italian officer representing the Divisione Commissariato.

An Italian Officer qualified as a chemist or food analyst.

Where necessary an additional independent analyst's report may be obtained.

4. Analysis Commissions will record facts and record action taken, in accordance with the Analysis Report, pro-forma for which is attached at Appendix 'B'.

This report is required in sextuplicate, copies disposed:-

7. Destruction of foodstuffs as a result of the recommendations of Analysis Commissions will be witnessed by an Allied Commissioned Officer, normally the MIA Sector Liaison Officer, and Destruction Certificate completed accordingly.

8. In cases where it is a matter of urgent necessity to destroy foodstuffs to ensure the safe keeping of other commodities, or in cases where destruction is so urgently required that the Analysis Commission procedure is impracticable Officers Commanding Italian Army Depots will so inform the MIA Sector Liaison Officer concerned.

The latter will authorize and witness any such destruction and will ensure that Analysis Reports and Destruction Certificates are completed as to relevant entries and disposed as stated in para 1 above. The O.C. Italian Army Depot will submit a report in writing to the Direzione Commissariato, giving the full circumstances.

9. Foodstuffs found unfit for consumption in Italian Army units and formations will normally be returned to Distribution Depots for replacement in kind. Thereafter they will be dealt with by the concerned Distribution Depot in accordance with these instructions.

10. Foodstuffs unfit for human consumption may be suitable for animal consumption or may contain recoverable fats or other recoverable by products or components. Analysis Commissions will pay particular regard to this point and will recommend disposal to ensure the maximum benefit accrues to Italian and Allied Armed Forces.

11. In NO instance will foodstuffs found unfit for human consumption be replaced in kind to the Italian Armed Forces.

12. The foregoing instructions become effective immediately and you are requested to issue your own instructions accordingly without delay, forwarding a copy to this Headquarters for information.

SUBJECT: Decayed Rice

TO : Allied Garrison, Sardinia

1. The Commission of the Board appointed with letter dated 15 June 1944 file #533/4, has taken careful examination the lot of rice of 339,536 lbs unloaded from the Steamship Kelly in the period covering 26 July 44 to 31 July 44 incl.

2. The rice as shown on the sacks was packed in May 1944 and contains insects. Feeding an average strength of 60,000 men (all 3 armed forces incld) It will take about 60 days to consume all the 339,536 lbs of the rice containing insects.

3. It is possible that during this season the rice might decay and be no longer edible.

4. We, therefore, suggest to give a certain amount of it to the ACC for the civilian population.

606

5. We request your Headquarters send a delegate to examine the rice and give us instructions.

The President Of The Committee,
Col Borda

Nº 008/48 di prot.

R.M. 30, li 11 Settembre 1944

OGGETTO: Riso svariato.

AL COMANDO GUARNIGIONE ALLIATA DELLA SIRDENNA

CAGLIARI

1.- La Commissione Interna del Comitato Riso Riformamenti Militari costituita con foglio n. 533/4 del 15/6/1944, ha preso in esame accuratamente l'intera partita di riso scaricata dal Farscavo "Meliey" tra il giorno 26 e 31 Maggio, corrispondente a libbre 339,536.

2.- Il risultato che il riso stesso che (secondo quanto appare dalle diciture impresse sui sacchi) è stato insaccato nel mese di Maggio 1944 contiene zori.

3.- Tenuto conto che il Comitato vettovalia una forma media complessiva per le 3 FF. AA. di 60.000 unità, si deve prevedere che occorre un periodo di circa 90 giorni per esaurire le 339.536 di riso infestato dai parassiti.

4.- Vi è da tenere che, data la stagione, il riso in questa ne possa subire, a causa dei parassiti stessi, deprezzamento in misura tale da comprometterne la commestibilità.

5.- All'esopo di preservare dalla distruzione un alimento così prezioso, si segnala il fatto a codeste Comande e si propone che il riso di cui trattasi venga, in parte almeno, ceduto subito alla Commissione Allenti Centrale, per essere distribuito alla popolazione civile.

6.- Si prega cedente Comande di voler fare esaminare la partita di riso da appalto incaricato, per le decisioni che ver-

1. Il quantitativo di farina avariata di cui all'allegato No 1) è contenuto in sacchi esteriormente cosparsi di macchie verdastre ed emanano caratteristico odore di muffa. In tutti i sacchi il contenuto è quasi integralmente costituito da grumi ammuffiti.
2. I No 160 sacchi di zucchero di cui all'allegato N.1) sono giunti al Deposito del Comitato Misto Rifornimenti Militari con l'intero quantitativo imbevuto di acqua di mare.
3. Appare evidente che detti colli si trovavano giacenti a fondo stiva, poichè gli involucri sono pervasi in tutta la superficie di acqua. Il contenuto è in parte solidificato per assorbimento, in parte è fuoriuscito in seguito a fusione.
3. Le No 74 tele contenenti i piselli, si presentano impregnate di umidità, un'alta percentuale del contenuto si può finora ritenere non commestibile.
4. I generi di sussistenza di cui ai precedenti paragrafi, verranno sottoposti ad esame merceologico di parte dell'organo tecnico della Commissione che ne determinerà la possibilità di ricupero.
5. Il Comitato Misto Rifornimenti Militari si riserva di comunicare in proseguo di tempo gli eventuali quantitativi che risulteranno commestibili e quelli che si riterranno inalibili.

COMMITTEE FOR MILITARY SUPPLYS

7 August 1944

SUBJECT: DAMAGED FOODSTUFF UNLOADED FROM THE S/S "LUCRETIA MOTT"

TO A. G. S HQS

Col Borda ask instructions

- 1.- With reference to our letter N.648/18 dated 1944 at the same subject.
- 2.- The flour in the quantaty of 54.700 lbs. has been in part sieved.
The Committee will notefy you when the work is finished.
- 3.- The sugar -9.600 lbs- is not eatable at all. The salt water of the sea has given a salt taste to the sugar so that it is not eatable at all .
- 4.- The pulses -7.400 lbs are not eatable because the mosty clots have given the mosty taste to the whole bulk.
The technician of the Committe decides therefore that the whole quantaty is not eatable and the best thing to do is to turn it over for animal feeding. Therefore the whole quantaty will be issued to the "Magazzino foraggi in Cagliari" for animal feeding & exactly for the horses of the Army on the Island.
- 5.- In the 5 cans of tomatoe paste - 34lbs and 11 Oz. the rust that was on the cans outside has penetrated also inside and the tomatoe paste can not be used because completly damaged.
The cans will be buried

COMMITTEE FOR MILITARY SUPPLYS

8 August 1944

Subject: Damaged foodstuff unloaded from the s/s "Concrest"

- 1.- A first examination of the foodstuff on the Concrest, has revealed that many of the cases are damaged, as they have been for a long time in the open weather.
- 2The cans in the cases are nearly all rusty.
- 3.-A first examination of the damaged foodstuff has been made, but as we have unloaded the supplies in a hurry and some during the night, we will examine the supplies again and notify you the cans that can not be issued because damaged.

- 1.- Un primo, superficiale esame delle derrate scaricate dal Piroscopo "Corcorrest", ha messo in evidenza come la maggior parte delle casse sia scondizionata, per essere stata esposta lungamente all'aperto all'azione degli agenti atmosferici.
- 2.- I barattoli contenuti nelle casse stesse sono in gran parte intascati dalla ruggine.
- 3.- Un primo quantitativo di derrate avariate è stato scovato durante lo scarico: ma poiché lo scarico è avvenuto molto spesso con urgenza, ed inoltre nella ore notturne, si fa riserva di effettuare, appena possibile, gli accertamenti necessari e di comunicare i quantitativi di scatole che non potranno essere messi in distribuzione perché avariate.

3.3.2 BRANCH OPERATING INSTRUCTIONS.

This instruction applies to Italian Army Bulk Depôts only.

1. Considerable quantities of foodstuffs received from the U.S.A. by the Italian Armed Forces are NOT marked with a manufacturer's warranty period or packing date.

2. To ensure uniformity of practice in Italian Army Depôts and to ensure maximum conservation of foodstuffs by reducing to a minimum losses due to deterioration in stock, a list is attached at Appendix "A" showing "Life Expectations" of various food commodities.

3. Directive the date of this instruction. Officers Commanding Italian ~~Army~~ Depôts will be instructed to put the following procedure into **575** operation. -

A. Foodstuffs received direct from the USA - Unmarked.

Any such foodstuffs received without warranty period or packing date marks will be sterilized, on receipt into the Depôt, with a Provisional Warranty Expiry date, based on the "Life Expectations" at Appendix "A" and calculated from the date of receipt of such supplies into the Depôt.

B. Foodstuffs received direct from the USA - Marked with packing date only.

Any such foodstuffs similarly will have applied to them a Provisional Warranty Expiry date based on the "Life Expectations" at Appendix "A" and calculated from the packing date shown on the boxes, etc.

C. Foodstuffs received from US Army or Allied Army Depôts.

i. All such foodstuffs will be carefully scrutinized by US Italian ~~Army~~ Depôts to see whether a Provisional Warranty Expiry date has already been applied to them.  
Such Warranty Expiry dates may appear on such foodstuffs in any of the forms shown in the following examples, viz:

3. Effective the date of this instruction Officers Commanding Italian Army Depôts will be instructed to put the following procedure into operation. -

A. Foodstuffs received direct from the USA - Unmarked.

Any such foodstuffs received without warranty period or packing date marks will be stencilled, on receipt into the Depôt, with a Provisional Warranty Expiry date, based on the "Life Expectations" at Appendix "A" and calculated from the date of receipt of such supplies into the Depôt.

B. Foodstuffs received direct from the USA - Marked with packing date only.

Any such foodstuffs similarly will have applied to them a Provisional Warranty Expiry date based on the "Life Expectations" at Appendix "A" and calculated from the packing date shown on the boxes, etc.

C. Foodstuffs received from US Army or Allied Army Depôts.

i. All such foodstuffs will be carefully scrutinized by OSC Italian Army Depôts to see whether a Provisional Warranty Expiry date has already been applied to them. Such Warranty Expiry dates may appear on such foodstuffs in any of the forms shown in the following examples, viz:

W/E Mar. '44 or 5/44.  
PROV W/E Apr. '45 or 4/45.  
Warranty Expiry Jun. '46 or 6/46.

Other methods may be used. In cases of doubt MILA Sector Liaison Officers will advise.

ii. If Provisional Warranty Expiry dates have been applied such dates will stand effective and OSC Italian Army Depôts need take no action to apply new dates.

/2 ....

2.

## 3. C. (continued).

iii. If Provisional Warranty Expiry dates have NOT been so applied, OSC Italian Army Depôts will act as in "A" or "E" above, whichever is applicable, and themselves apply Provisional Warranty Expiry Dates.

iv. If foodstuffs received under this paragraph are clearly old stock (i.e. weathered, damaged cases, and other indications) OSC Italian Army Depôts will apply to such foodstuffs a Provisional Warranty Expiry date based on 2/3.rds. of the "Life Expectations" shown at Appendix "A" and calculated from date of receipt into the Depôts.

Normally, MMIA Sector Liaison Officers will be called in to give their advice in such cases.

D. All Provisional Warranty Expiry dates applied in Italian Army Depôts will be so applied with a bold, clear cut stencil, using a prominent paint colour and will take the form shown in the following example:

**A.F.D.G. Lug.45.**

representing 'Alia Fine della Garanzia - Luglio 1945'.

4. The Provisional Warranty Expiry stencil will be applied to each individual box, crate, case, barrel, etc., and it will usually be necessary to apply it to one side and one end, so that the stencil is visible when foodstuffs are stacked in the Depôts.

5. Care must be exercised in the case of sacked goods (i.e. flour, sugar, etc) to ensure that the paint does not penetrate the sacks and contaminate the contents.

It may be necessary to stack sacked goods in accordance with the Warranty Expiry dates (i.e. all stock having the same Warranty Expiry date stacked in the same stack) and to mark each of such stacks with a single board showing the Warranty Expiry date.

6. Officers Commanding Italian Army Depôts will be instructed that the principle of stacking foodstuffs in Depôts is so to stack that the goods most near to Warranty Expiry can be issued first, thus ensuring prompt and regular turnover.

OSC Depôts must bear this in mind at all times and be constantly

OSC Depôts must bear this in mind at all times and be constantly alert to ensure that the storemen and issuing clerks are carrying this principle into effect.

7. Immediate action is necessary in all Italian Army Depôts to have stocks checked for Warranty Expiry and stencilled in accordance with these instructions.

- 1.- Nel rimuovere i colli dalle stive per lo svolgimento delle operazioni di carico e spedizione, sono venute alla luce talune casse di carne emananti il caratteristico odore di sostanze albuminoidi in putrefazione.
- 2.- Si è tosto proceduto all'apertura dei colli madesimi e si è accertato che alcuni barattoli presentano tracce evidenti di avaria.

Infatti, la maggior parte di questi, presentano macchie di ruggine e lasciano fuoriuscire il liquido in putrefazione.

- 3.- Pertanto il quantitativo che deve essere ritenere inabibile, e di cui si chiede lo scarico, è costituito dai tipi di carne di cui all'allegato N°1).
- 4.- I generi di sussistenza in questione restano accantonati nel Deposito Viveri del Comitato Misto Rifornimenti Militari, in attesa delle decisioni che codesto Comando crederà opportuno adottare al riguardo. -

1.- Come noto, la procedura seguita dal Comitato nei riguardi delle denunce che risultano evasive e perciò non adibili all'atto della loro introduzione nel Deposito, oppure durante la distribuzione presso i singoli magazzini delle tre Forze Armate dell'Isola, ha prevede l'accantonamento e l'esame da parte della Commissione interna, segnalata con il foglio n°33/4 del 15/6/1944 e il controllo da parte di incaricato di questo Comando per le definitive decisioni da prendere circa l'utilizzazione o distruzione.

2.- Sulla base di questa procedura, i magazzini delle tre Forze Armate della Sardegna fanno arrivare periodicamente a Cagliari al Deposito del Comitato, le derrate risultate deteriorate e che pertanto non possono essere cedute ai reparti.

3.- Il Comando Marina ha fatto presente al Ministero della Marina Italiana, la difficoltà che incontra nell'ottenere alle disposizioni impartite dal Comitato per ciò che concerne il magazzino di distribuzione della Maddalena.

4.- Il Ministero della Guerra ha interessato il Comitato perchè esamini la possibilità di nominare una Commissione locale periodica per l'esame in posto alla Maddalena delle derrate dvariate.

- 1.- Come noto, la procedura seguita dal Comitato nei riguardi delle Avarie che risultano evasate e perciò non adibili all'atto della loro introduzione nei Depositi, oppure durante la distribuzione presso i singoli magazzini delle tre Forze Armate dell'Italia, ne prevede l'accantonamento e l'esame da parte della Commissione interna, peraltro con il foglio n° 533/4 del 15/6/1944 e il controllo da parte del Comandante di codesto Comando per le definitive decisioni da prendere circa l'utilizzazione e distribuzione.
- 2.- Sulla base di questa procedura, i Magazzini delle tre Forze Armate della Sardegna fanno affluire periodicamente i Coglioni al Deposito del Comitato, le derrate risultate deteriorate e che pertanto non possono essere cedute ai reparti.
- 3.- Il Comando Marina ha fatto presente al Ministero della Marina Italiana, la difficoltà che incontra nell'ottenere alle disposizioni impartite dal Comitato per ciò che concerne il magazzino di distribuzione dell' Maddalena.
- 4.- Il Ministero della Guerra ha interessato il Comitato perché esamini la possibilità di nominare una Commissione locale periodica per l'esame in posto alle Magazzine delle derrate avariate.
- 5.- Il Comitato, concordando, in quanto rappresentato dal Comando Marina Italiano della Maddalena, trasmette l'ultima lettera del Ministero Marina Italiana per le decisioni che codesto Comando vorrà prendere al riguardo.

1. In reference to paragraph 3 of 1st Indorsement, the following information is submitted:

The flour containers had been broken in transit and in handling both locally and prior to arrival. Although the flour was repacked, it was found, on inspection, to be unfit for human consumption because of the introduction of foreign matter. The figure of 34,800 lbs is an accumulation of contaminated flour received at Cagliari in various shipments since February, 1944 and represents approximately two tenths of one percent of the total flour received as of the date of basic communication. Every effort is being made to minimize such loss locally.

MEMORANDUM:

SUBJECT: Damaged Ration Items in Italian Hands.

TO : Chief of Staff, Allied Garrison of Sardinia.

1. Attached are two requests from the Italian Armed Forces Food Committee that they be permitted to dispose of and drop from their Stock Records certain ration items received by them in a condition "not fit for human consumption". They are not trying to get out of accepting the charge for these items against the Italian government account; they wish to dispose of the items for sanitary reasons, to utilize space now occupied by them and to reduce their ration component status records to that which they are actually in a position to issue.

2. If the spoiled items were in one of our army dumps, a Survey would be necessary before the commander thereof would be relieved of the responsibility but in this case a Survey is unnecessary. 549

3. Capt. Sachs has seen some of these items. In his opinion, from limited observation, the Italian contention is correct. The flour is all repackaged stuff that contains dirt, straw, insects, etc. The meat items are definitely spoiled as indicated by odors.

4. It might be desirable to have all items examined by a Veterinary Officer and have the stocks approved as condemned but unsuited for that is not available. The stuff does have some value, part of it can be used as hog and animal feed, etc. It is possible that if approval is given to the Italians to dispose of it that some of the proceeds of disposal may wind up in wrong pockets. Any such loss is that of the Italian government, not of our government, though shipping space to replace spoiled items will be our loss.

5. It is recommended that approval be given to the Italians to:

- a. Dispose of the spoiled foodstuffs through means at their disposal.
- b. Reduce their stock records accordingly.

Spoiled food - The CIAFSB will absorb cost. We want figures in order to keep stocks up to proper level.

Some arrangement must be made to compute requirements of subsistence based on strengths and inventories in order to place requisition for same. SOS is now ordering. Should our request go to SOS thru MMIA for approval?

A similar arrangement should be made for clothing, clothing repair items & equipment, malaria control items, medical supplies. All of this is a function of G-4. Medical supplies should pass thru hands of Surgeon AGS for approval. 548

~~No~~ Col Pidsley will take up matter of use of flour bags to ~~make~~ make underclothing for Italian Troops. Bags are now claimed by AGC.

The CIAFSB can set up a workshop for the repair of clothing and agree that the shipment of repairing materials would be of great assistance.

Col Borda agreed that the best policy on issue of our clothing, was to give it to non-combatant troops and give combat troops Italian uniforms. He agreed that troops working under our supervision should have 1st call on all clothing.
