Headquarters A.A.I.
ALLIED CONTROL COMMISSION
Army Sub Commission
A.P.O. 509, U.S. Army

23 July 1944

SUBJECT: For Information as Regards the Animal Situation in
Sardinia (II).

TO : Colonel F. L. Simmons.

1. As mentioned in para 5 of my report of 8 July 1944, Major Cremonesi and Lieut Mc Crea have made a complete inspection and classification of all Italian Army animals in Sardinia. This was done during 8 July-22 July. Further animals are rationed by the Italian Army, working for services such as: Hospitali di Campo, Finanza, Marina, Dicat, Centio Raulta Notizzia, and various Magazzini Commissariat. These animals are widely scattered and their number is estimated at 50-100.

2. In each case the H.Q. of the Division or unit was visited first to ascertain the location of the animals. In some cases this information was exact, in others the individual visits showed a wide divergence in numbers and location of animals. In many cases owing to the departure of the units, there is great dislocation of the animals and variations in the amount of work they are doing. For example horses at Maddalena are hard worked; at Tempio there is a surplus.

Owing to this scattering of the animals there is a lack of veterinary attention and three (3) animals were found to be moribund from Equine Protoplasmia at the time of our visits - a horse and a mule at Tiesi and a horse at Paulau. These animals were receiving no attention and if Major Cremonesi had not given orders for their immediate destruction, they would have been left on the ground to die. A large number of the horses destroyed were on account of this disease (Appendix 3). Many other latent cases were seen and at this season more cases will occur.

3. During the inspection units at the following places were visited:

Sassari district (11)
Alghero district (6)
Tiesi (2)
Pattada (1)
Iglesias district (4)

Porto Torres (2)
Ossilo (1)
Caprera (1)
Pantitativo (3)
Carbonia (2)

Oristano district (5)
 Tempio (2)
 Olbia district (3)
 Villacidro (1)
 Quartu (2)
 Telti (1)
 Ozieri district (4)
 Pirri (1)
 Sinai (1)

Sorso (1)
 Cusione (1)
 Seneghe (1)
 Senori (1)
 Palau (2)
 Bonarcado (1)
 Baka Abbas (1)
 Pozzomaggiore (1)

4. During the inspection the criteria of rejection was (i) over 15 years old and (ii) unsuitable for active service (details in Appendix 3). Of the 772 animals inspected 84% (650) were considered suitable for retention by the Italian Army; 13% (99) were rejected but suitable for farm work and 3% (23) were destroyed.

5. In the case of animals to be destroyed Major Cremonesi gave orders for their immediate destruction and the meat; if suitable, to be salvaged and given to soldiers or the civilian population. In several cases units were revisited on our return journey and it was found that the orders had been carried out.

In the case of animals found suitable only for farm work, orders were given for their transit to Oristano where they will form Group III (Appendix 2, column C). Their location at time of inspection is shown in Appendix 3.

When all the animals are assembled at Oristano, there will be a total of 320 horses and 130 mules for distribution. On 22 July 225 horses and 130 mules were present at Oristano.

6. Since the last shipment of mules on 24 June further mules have been discovered at: Cagliari (one - accepted), Poetto (one - reject), Thiesi (one - dead), Ozieri (one - accepted), Ossilo (one - accepted), Olbia (six - rejects), Sassari (five - rejects), a total of 16.

7. There are 650 sound horses on the island with the Italian Army, this includes the 120 saddle horses. No attempt was made to classify the horses into draught and saddle groups as with few exceptions they are all being used as draught animals. Of these 650 horses 70% are in good condition and less than 10 years old. The remainder still show varying degrees of emaciation but should recover.

8. During the tour a Stallion Depot at Ozieri was visited. It is run by the Ministry of Agriculture but has Army Personnel, a Colonel being in charge. Fifty (50) stallions were inspected, there being a further 80 at outstations in the island. The breeds represented are English thoroughbreds, Arab, Sardinian, and crosses. The depot is well organized and the animals are in excellent condition.

9. Twelve (12) saddle horses have been handed over on loan to the 74th AAA from the 40 riding horses at S. Bartolomeo. Major Freund of the 74th AAA and Major Gutierrez of the Italian Army are in charge of the riding school.

10. Throughout this work Major G. Cremonesi of the Italian Army Veterinary Service has been cooperative and helpful to the highest degree.

Conclusions

40 saddle horses and 10 mules are the final figures for animals awaiting shipment.

320 saddle horses and 136 mules will be the number of animals available for distribution to farmers.

650 horses remain on the ration strength of the Italian Army. A further 50-100 are distributed throughout the island and are rationed from Italian Army warehouses.

Appendices are attached:

1. Summary of the ^{four} ~~time~~ of inspection.
2. Summary of animal position since June 1st.
3. Details of animals rejected.

Amended.

644 horses instead of 650
 216 " distributed through island

SITUATION REPORT HORSES AND MULES.

(as given by DC/S, C.M.S. on 21 June 44)

HORSES (Saddle)

Assembling at ORISTANO by 23 June, discarded	99 -
Sick, at IGLESIAS (20) and CAGLIARI (7)	27 -
Good horses awaiting shipment to mainland	263
Dead	22
Marked for Sardinia	120
Total	531

(N.B. 12 riding horses could possibly be selected for 74th Group Rest Camp out of those from Oristano)

Sick horses from Iglesias and Cagliari will be cured by about 15 July.

MULES.

Already sent to Mainland	632
Assembled here ready for mainland	764
Discarded, and going to Oristano	101 -
In hospital at Sassari	5 -
Dead	12
As yet untraced, but 30 known to be at Villacidra	70 -
Total	1584

(N.B. Originally 340 were discarded, but since then more have been accepted for the mainland.)

DRAUGHT HORSES.

Original total earmarked for Oristano was 207, but of these 23 have since deceased and some have already been allotted to farmers. The amended number to go to Oristano has yet to be assessed.

Complete list will be forthcoming on 23 June.

30 May 1944

SUBJECT: Request for Animals.

TO : Commanding General, Comando Militare della Sardegna.

1. Pursuant to the provisions of paragraph 1 (b), letter A.A.I. dated 23 May 1944, copy inclosed, the number of saddle horses required for shipment to Italy is two hundred and eighty-five (285) instead of two hundred and thirty-five (235), as was previously stated in paragraph 3, our letter of 19 May 1944.

2. The animals which are due for delivery 1 June 1944 (612 mules and 285 horses) should be assembled at St. Bartholomae and delivered to the supervision of Captain Frank E. Stancil, Q.M.C., pending arrival of ship to transport them to the continent.

Ref para 5 of your AFHQ/3310/Q(Maint) of 17 May 44.

1. Colonel SIMMONS visited this Hq on 22 May 44 and gave the following position in regard to animals in SARDINIA. These figures differ from those given in para 4(d) of this Hq letter 1046/1/Q1 of 13 May 44 and para 3 of 1046/1/Q1 of 12 May 44. The figures refer to the positions as at 22 May and therefore supercede all figures previously given:

(a) Retained by Italian Army in SARDINIA:

Draught Horses	1081	
Riding Horses	120	1201

(b) Available for shipment to Mainland:

Mules	612	897
Riding Horses	285	

(c) Awaiting destruction or handing over to farmers

Overage animals	673
-----------------	-----

2. All of the animals at sub-para 2(b) above will be fit for shipment from 1 June 44 onwards.

3. It was agreed with Colonel SIMMONS that forage would be issued as follows:

(a) Animals retained by Italian Army in SARDINIA:

800	Full scale
401	2/3rds scale

(b) Animals awaiting shipment to mainland: 1201

All full scale i.e. 897 animals

(c) Animals awaiting destruction or handing over to farmers:

All on 2/3rd scale i.e. 673 animals

Immediate steps must be taken to dispose of these animals. Will Colonel SIMMONS please contact Capt ABBOTT, RAVC attached to 13 Field Butchery which is located near CAGLIARI. Capt ABBOTT will advise which animals should be destroyed and which should be handed over to farmer.

4. It is understood that it has been decided that AAI should be responsible for the supply of forage to SARDINIA and that detailed instructions will shortly be issued by AFHQ

MAY 19 1941

HINDUSTAN
ALLIED ARMY IN ITALY
1046/3/41

13 MAY 41

AETH

Further to your R 30165 of 10 and this HQ letter reference 1046/3/41 of 16 Apr 41.

1. The only horses from which it was expected L.D. horses might have become available was the Italian Army on the Monte Rosa and MONTENA.

2. In both cases it has now been arranged that all serviceable L.D. horses will be utilized by the Italian Garrison to replace mules which will then become available for the Allied armies.

3. It is regretted it will therefore not be possible to supply HINDUSTAN with any L.D. horses.

4. This does not apply to the 125 horses committed for HINDA, the despatch of which is already set up.

It will also be possible to keep HINDA supplied with the small number of requirements that they might require from time to time.

Ref your 1046/1/Q1 of 19 April and our SD657 of to-days date.

1. Att is a copy of Col SIMMONS report on which the above signal was based.

2. Ref para 3, it has been decided

(a) that no animals need be retained for the Arty of the 204 and 226 Divs or Grenadiers Group, which are all earmarked for eventual employment as Internal Security Divs.

(b) that the Italian Army should make up its minimum requirement of 800 animals by selecting 219 from the 673 which would otherwise be handed over to farmers or destroyed (see para 2(f)).

3. The Italian Gen Staff have been ordered to issue the necessary instructions to the ~~Dev~~ HQ in SARDINIA and it has been emphasized that the 454 which will remain in para 2(f) will NOT be foraged from Allied sources.

4. Will you please confirm that the personnel requested in para 4 are being despatched.

 ALLIED CONTROL COMMISSION
 Army Sub Commission
 A.P.O. 509, U.S. Army

15 May 1944

SUBJECT: Additional Horses and Mules

TO : Commanding General, Italian Forces in Sardinia

1. In accordance with your estimate of 4 May 1944 and instructions contained in letter from Commanding General, Army Sub Commission, A.C.C. 7 May 1944, additional animals required are listed as follows:

<u>a</u>	Mules	612	This figure includes all mules remaining in Sardinia except 340 reported unserviceable.
<u>b</u>	Saddle Horses	405	This figure includes all saddle horses remaining in Sardinia except 125 reported unserviceable.
<u>c</u>	Draft Horses	500	This figure includes all draft horses remaining in Sardinia except 581 to be used by Comando Militare della Sardegna and 207 reported unserviceable.

2. It should be noted that no animals are to be retained for the Artillery of the 204 or 226 Divisions or the Grenadiers Group, which organizations are to be employed as Internal Security Divisions.

3. It should be noted further that the 800 animals reported in paragraph 2 of your estimate of 4 May 1944 must be obtained from the 581 draft horses remaining after subtracting 500 draft horses for shipment plus 219 animals to be selected from those reported as unsuitable for field service because of being over age, etc.

4. From the above, it is concluded that 454 animals, (mules, saddle horses and draft horses) will remain to be handed over to farmers or be destroyed.

5. A recapitulation indicating the disposition to be made of Italian Army animals in Sardinia is as follows: 4155

- a 612 Mules
405 Saddle Horses
600 Draft Horses
1617 Total Animals to be assembled for shipment and fed on full Field Scale Ration.
- b 581 Draft Horses
219 Overage Animals
800 Total animals to be retained by Comando Militare della Sardegna and fed on 2/3 Field Scale Ration.
- c 126 Saddle Horses
231 Pack Mules
97 Draft Horses or Mules
454 Total Animals to be handed over to farmers or destroyed--UNDER NO CIRCUMSTANCES TO BE FED FROM ALLIED OR ITALIAN ARMY RATIONS

d. Information is requested as to earliest date by which the disposition of animals outlined in paragraph 5, above, will be accomplished. At the same time request this office be informed as to location of various groups of animals to be assembled. Bidding for shipping will be based upon this report which is requested at once. In the event that later information disclose the existence of more animals than reported in your memorandum of 4 May; such additional animals should be included in the information hereby requested.

ALLIED FORCE HEADQUARTERS
ALLIED CONTROL COMMISSION
Army Sub Commission
A.P.O. 509, U.S. Army

5 May 1944

SUBJECT: Animals, Italian Forces in Sardinia.

TO : Commanding General, Army Sub Commission, A.C.C., Leghio (LEOCH)

1. In accordance with the provisions of letter, HQ A.A.I., 1044/1/21 dated 19 April 1944 and letter Army Sub Commission, A.C.C., 6/1/6 dated 25 April 1944, the requisitioning of all serviceable mules, all serviceable riding horses under fifteen years of age and five hundred (500) draft horses has been initiated with Comando Militare della Sardegna.

2. In a report rendered by the Commanding General, Comando Militare della Sardegna as of 1 May 1944, the data relative to numbers of animals in various categories, as indicated in the table below, was submitted:

	HORSES		MULES		TOTAL
	Saddle	Draft	Pack	Draft	
(a) No. of animals available to the Allies	805	500	792	482	3,549
(b) No. of animals to be fed on full service ration scale	805	500	792	482	2,349
(c) No. horses remaining with Italian Army		581			581
(d) No. of animals to be fed on 2/3 service ration scale		581			581
(e) No. of animals to be destroyed or handed over to farmers	126	207	231	109	673

The above data include three hundred and forty five (345) of the four hundred (400) saddle horses previously ordered requisitioned from Comando Militare della Sardegna by A.P.H.Q. 9 February 1944 and three hundred and thirty nine (339) mules already allocated to Allies, held here awaiting shipment.

3. The actual availability of animals reported above is qualified in the report of the Commanding General, Italian Forces in Sardinia due to necessities for local use which he outlines as follows:

"OUR NEEDS"

a. Requirement of animals in order to assure a minimum of operation of service for the units left on the island.
(Detailed sheet is attached) 800
Even conforming with the above minimum a shortage of (800 less 581) 210 animals will occur.

b. In case that the needs of the 100/22 horse-drawn groups of the 204th and 220th Division and of the Grenadiers Groups were taken into account, the needs would be as follows:

HORSES	SADDLE	DRAFT
204th Division	40	112
220th Division	40	112
Grenadiers Group	40	112
TOTALS	120	336

c. The 203rd and 208th Divisions have not been considered, since the two above Divisions will be disbanded after the formation of the battalions for the guard service and laborers.

CONCLUSION:

As has been said in the preceding paragraph, for our needs, we would require 120 saddle horses and 1,136 draft horses (800 + 336). If that were granted, the following animals could be released to the Allies:

1,244 Mules (including the 339 already released and awaiting embarkation)

585 Saddle Horses (including the 345 already released and awaiting embarkation)

Draft Horses None (there is already a shortage of 55 draft horses, on the basis of our requirements (1,136 less 1,081).

In the case that the sending of the 500 draft horses to the Middle-East be found necessary, it will be necessary that they should be replaced by an equal number of mules, which would then be reduced to 744 (1,244 less 500)."

4. With reference to paragraph 4, letter Army Sub Commission referred to above, the following list includes the minimum personnel necessary to place in effect the requisitioning, classification, feeding, and shipment of animals required.

- 1 - Officer in charge (with resort or similar experience)
- 1 - Veterinary Officer
- 4 - N.C.O.s with animal management experience
- 4 - Privates with animal management experience
- 1 - N.C.O. with veterinary technician qualifications

5. It is requested that instructions be issued to Italian Command and this office simultaneously as soon as final decision is reached. Copy of breakdown of eight hundred (800) animals for local administrative use inclosed. Also inclosed is copy of signal from this office concerning allotment of shipping space for animals.

THE MILITARY HQS OF SARDINIA (XIII A. C.)
Organization Section

SUBJECT: Release of Animals from Sardinia to the Allies.

MEMO

Results of an investigation of the matter made on May 1st and 3rd.

1. In compliance with your request the animal situation appears as follows:

MULES

Mules at present in Sardinia		1,584
Mules to be killed on account of emaciation	234)	
Mules absent from the units on account to their being interned in the infirmary or from other causes.	46)	340
Mules to be released in compliance with the Allied request.		<u>1,244</u>

Note. The 1,244 mules are also inclusive of the 339 mules already released by the Allied Hq and awaiting embarkation.

HORSES

a. Saddle-horses:

--Saddle-horses at present in Sardinia		951
--Saddle horses to be killed on account of their being more than 15 years old and for emaciation	94)	
--Saddle horses absent from their units on account of their being interned in the infirmary or from other causes	32)	126
--horses to be released in compliance with request.....		<u>805</u>

NOTE. Bear in mind that the 805 horses are also inclusive of the 345 saddle-horses released to the Allied Hq and ready to be embarked.

b. Draft Horses:

--Draft horses at present in Sardinia		1,238
--Draft horses to be killed on account of their being more than 15 years old and for emaciation		

89

--Draft horses absent from the units on account of their being interned in the infirmary or from other causes	118	}	207
--Draft horses fit, at present in Sardinia			1,081

--Draft horses, to be released for the Middle-East	500
--Draft horses, remaining in Sardinia	581

Ultimately, upon completion of the above release, 581 draft horses would be left for needs in the island.

2. OUR Needs:

a. Requirement of animals in order to assure a minimum of operation of services for the units left in the island.
(Detailed sheet is attached)

Even conforming with the above minimum a shortage of (500 less 581) = 219 animals will occur.

b. In case that the needs of the 100/22 horse-drawn groups of the 204th and 226th Division and of the Grenadiers Groups were taken into account, the needs would be as follows:

	<u>HORSES</u>	<u>Saddle</u>	<u>Draft</u>
204th Division		40	112
226th Division		40	112
Grenadiers Group		40	112
TOTALS		<u>120</u>	<u>336</u>

c. The 203rd and 205th Divisions have not been considered, since the two above divisions will be disbanded after the formation of the battalions for the guard service and laborers.

3. Conclusion:

According to the preceding paragraph (No. 2), for our needs, we would require 120 saddle horses and 1,136 draft horses (500 + 336). If that were granted, the following animals could be released to the Allies:

--Mules: 1,244 (including the 339 already released and awaiting embarkation)
 --Saddle horses: 625 (including the 345 already released and awaiting embarkation)
 --Draft horses: None (there is already a shortage of 55 draft horses, on the basis of our requirements, 1,136 less 1,081)

In the case that the sending of the 500 draft horses to the Middle-East be found necessary, it will be necessary that they should be replaced by an equal number of mules, which would then be reduced to 124 (1,244 less 500).

4. Some reduction of our needs to assure the operation of the service units will possibly be secured upon disbandment of the 203rd and 205th Divisions (probably at the end of July) and upon the departure for Sicily of the "Pari" and 226 Divisions (probably within the month of June) only in the case that the above

2 divisions could rely for their requirements upon the animals existing on that island (Sicily) and leave here those assigned to them in Sardinia.

Altogether it is a question of 200 animals to be recovered on behalf of the Allied Hq.

May 4th, 1944.

ALLIED CONTROL COMMISSION
REGION VI

Cagliari, 22 September 1944

TO: Army Sub-Commission Representative in Sardinia

SUBJECT: Disposal of Horses and Mules to Farmers

REFERENCE: HQ/1010

1. Reference your letter of 13 Sep 44, subject "Disposal of Horses and Mules to Farmers.
2. A total of 283 horses and 124 mules were distributed to farmers beginning 15 Aug 44 and completed 19 Aug 44. Distribution was made at ORISTANO under supervision of the Italian Ispettorato Agrario Compartamentale.
3. Applications from farmers for the animals were screened by the Ispettorato Agrario.
4. Conditions for giving the animals to farmers included an agreement on the part of the farmer to properly feed and care for the animals and not to sell, give away, trade, slaughter or otherwise dispose of the animals within a period of one year.
5. Carabinieri were authorized to inspect and report on all cases where animals died to determine if improper care was the cause, and were also authorized to permit slaughter if the animals were useless and did not respond to reasonable treatment.
6. At least one horse has died and in this case the Carabinieri report absolved the farmer from negligence. Other animals seen since distribution have visibly improved in condition.
