Prot. No 21623/DI

SUBJECT: Light Plants at the disposal of the Allied Headquarters for the lighting of the port of Cagliari.

MEMO TO: HEADQUARTERS A.A.I. ALLIED CONTROL COMMISSION - ARMY SUBCOMMISSION
A.P.O. 509, U.S. Army

ITALIAN SUPPLY OFFICE AT THE ALLIED HEADQUARTERS
PERSONNEL OFFICE

As per order of the Commanding General and in compliance with a similar request by the Allied Headquarters to which this letter is addressed for information, your Depot will provide for the transfer to the port of Cagliari of the following Light Plants and personnel as indicated for each:

-Light Plant No R.A. 3830

Serg.Magg.	Bigazzi,Virgilio	176th R.A. Depot
I Aviere	Muru,Ugo	Capoterra Airport
Av.scelto	Bortoletto,Mario	176th R.A. Depot
Av.autista	Di Lorenzo,Giovanni	176th R.A. Depot
Av.governo	Goletti,Aldo	Capoterra Airport

-Light Plant No R.A. 3248

Serg.Magg.	Tinelli,Amato	176th R.A. Depot
I Aviere	Zoppi,Paride	Services Unit
Av.scelto	Maffezzoni,Guido	Decimo Airport
Av.sc.aut.	Arosio,Giovanni	176th R.A. Depot
Av.governo	Manenti,Rino	176th R.A. Depot

-Light Plant No R.A. 3305

Sergente	Marano,Antonio	176th R.A. Depot
I Aviere	Murgano,Michele	Capoterra Airport
Av.scelto	Arro',Filippo	Olbia Airport
Av.scelto	Simone,Vittorio	176th R.A. Depot
Av.governo	Morelli,Sabadino	Capoterra Airport

The personnel office is kindly requested to provide for the immediate transfer of the listed personnel from the location indicated for each to the 176th R.A. Depot; such personnel together with materiel will be at the disposal of the Allied Headquarters until such time as their services are no longer required.

APO 534

27 July 1944

MEMO TO: ACC (ASC)
Thru: A/C of S, G-4, AGS

SUBJECT: Portable Light Plants

1. Request three portable light plants of the following specifications be made available to the port commander for use in Cagliari port:

Sezione Luce
Mottore 50 Cavalli
Ampre Continua 600, Volta 32
Ampre Alternata 300, Volta 250

2. Several of these units are in Cagliari under the control of Col. Amadio, 176 Deposito, R.A., Cagliari.

3. It would be desirable to have these plants available to the port commander complete with crews. The port commander would be responsible to give twelve hours notice to Col. Amadio (or some designated person) giving him the number of units needed for that night.

DRAFT

ALLIED GARRISON OF SARDINIA
OFFICE OF THE ENGINEER
APO 534

6 April 1944

MEMORANDUM TO: Col. Simmons, Army Sub-Commission, ACC.

SUBJECT: Italian personnel required for road survey in Sardinia.

Recently received correspondence from ACMF requested a road classification map which requires a very though reconnaissance of roads throughout the Island.

In order to comply with the request and because of very limited personnel in this office, it will be necessary to obtain the services of Italian Army officers with civil engineering experience.

Generally, the information required as taken from FM, 5-10 Para. 14 (Paul Armstrong's ref.) is as follows: ~~road reconnaissance~~-- " Reconnaissance to obtain technical data to be used as the basis of engineering road operations" and involves "geographical location of routes, general character of roads within the area including specific data as to widths, existing conditions, loads which may be safely sustained and in certain situations, the location of any critical points at which enemy activity against the roads might vitally affect operations." In addition also required are data on grades; the location, condition and capacity of all bridges and culverts; statements as to kinds of road surfaces; dimensions including width and thickness of pavements and curvature; and actual locations of men, materials and time required to effect them.-(information to include locations of all possible local materials which might be used for the repairs.)

In addition, a map or an overlay of an aerial photograph is required marked with colored pencils showing, for example, the general overall situation including perhaps such information as designation of suitable roads for two way traffic; indication of the availability of loops; statements of damage to roads at specific places and locations and conditions of stream crossings including possible locations of temporary bridges and fords.

0375

0376

Declassified E.O. 12356 Section 3.3/NND No. 785020

Supplementing the sketches, full detailed information is to be tabulated in accordance with the attached sample form.

The above outlines the work required and it is desired that if at all possible the full information be obtained thrpugh Italian Army channels, possibly under the immediate direction of Col. Marseguerra, the Engineer.

FRED W. ROUMAGE

ALLIED CONTROL OF SARDINIA 3-1-1
APO 534

3 May, 1944.

SUBJECT: Movement of Radio Equipment From Sardinia to Italian Mainland.

TO : Commanding General, Allied Armies in Italy, APO 650, U.S. Army.
Commanding General, 5OS, NATOUSA, APO 750, U.S. Army.
Commanding General, Allied Force Headquarters, APO 512, U.S. Army.
Allied Control Commission, APO 394, U.S. Army. (ATT: Army Sub-commission and Air Force Sub-commission.)

1. For your information, the following chronological data is furnished on the movement of Italian radio equipment from Sardinia to Italian mainland.

2. The paraphrased extracts of messages pertaining to above equipment are as follows:

a. This headquarters was advised by AFHQ that nine (9) Italian Air force transmitters were being released by FATIMA, cite message AFHQ to FANUM and FATIMA, 13 February 1944. (Exhibit 1).

b. Information on storage points, time required for shipment and following type Italian Air Force sets available was furnished AFHQ and info FATIMA by our message ACS JIC 49, dated 25 February. Sets were one each RT-1000, three each RT-800 and five each A-350/1. (350 watt). (Exhibit 2).

c. Message ACS JIC 58, dated 10 March, advised FATIMA that Col. Elliot, Air Force Sub-commission on 9 March, verbally informed this headquarters that release for the equipment had been sent, but that release for sets had not been received. (Exhibit 3).

d. Instructions for the shipment of the transmitters were received from ACS NATOUSA on 14 March, cite ACS-214. (exhibit 4).

e. Further instructions from ACS NATOUSA in message dated 15 March, cite TUW 254 stated that if transportation were not available to ship equipment was to be loaded on first available transportation to North Africa for trans-shipment to Italy. (Exhibit 5).

f. FATIMA again was informed by this headquarters on 16 March, cite ACS JIC 67, that release on transmitters had not been received. (Exhibit 6).

g. AFHQ message to FATIMA info FALCON, 19 March requested the release of one additional RT-1000. (Exhibit 7).

0409

Declassified E.O. 12356 Section 3.3/NND No. 785020

"Movement of Radio Equipment from Sardinia to Italian Mainland, Par. 2. (cont'd).

h. Release on the original nine transmitters plus the additional RT-1000 was received from FATIMA on 25 March, cite Air Force Sub-commission, Bari, SUGAR 49. (Exhibit 8).

i. On 28 March, when Italian Air Force transmitters were being prepared for shipment, it was learned that the five A-350/1 sets were only 100 watt sets. However, transmitters A-350/1 but 300 watt type were located in Italian Army stores. These sets were requested of the Italian Army by AGS to permit compliance with wishes of AFHQ and were being prepared for shipment.

j. On 5 April, AFHQ was informed that the five Italian Air Force sets and the five Italian Army sets would be shipped to Oran in near future, cite AGS JIG 79. (Exhibit 9).

k. Shipping instructions were again changed and equipment was to be sent direct to Italy. Since a release had been received for the five A-350/1 form Italian Air Force and not from the Italian Army and the five A-350/1 were army equipment, Col. Simmons, AGO, Army Sub-commission informed us that these sets would not be shipped without authority from AAI. Message 10 April, to MEDIA, FATIMA, FLAMBO and AFHQ from Col. Simmons at FALCON, cite AGS YOKE 83 requested permission to substitute the five A-350/1 for the Air Corps sets. (Exhibit 10).

l. Col. Simmons was advised by AAI by message 10 April, cite XRAY 1466, that the five A-350/1 sets would not be obtained from the Italian Army. (Exhibit 11).

3. When the ship left Sardinia27 April, only the five Italian Air Force sets were aboard and the five Italian Army sets are now stored in an Allied warehouse. No further action will be taken on Army sets until receipt of further instructions.

For the Commanding General:

AUGUSTUS F. VITALI,
Capt., Field Artillery,
Actg. Adjutant General.

Incls: Paraphrased Messages,
Exhibit 1 to 11, inclusive.

THE MILITARY HEADQUARTERS OF SARDINIA (XIII A.C.)
STAFF - OPERATIONS OFFICE

No. 5137/1/5

APO 50, 18 April 1944

SUBJECT: Materials and personnel requested by the Italian General Headquarters.

TO : Allied Garrison Headquarters, Elmas.

1. It is hereby advised that the Italian Supreme Command, while urging for the sending to Italy of the material and personnel forming the Radio Group of the Royal Army General Staff (and to which your headquarters has already granted authority for transfer), has specified that the two RN5 radio stations, being part of the above material, should be sent complete.

Therefore, while this headquarters had first specified, by letter 2214/op dated 15 February 1944, that only the two RN5 receivers were to be sent to Italy, now also the two RN5 transmitters are to be sent, which were previously consigned to the Allied Warehouse, Cagliari, where they still are.

You are therefore requested to kindly direct that the two above transmitters be withdrawn from the above warehouse.

2. It is hereby also advised that the above Italian Supreme Command has requested the sending to Italy of the following material, needed for the installation of a communication center of major importance, in accord with the Allied Intelligence Service:

--extra radio equipment (tubes, measuring instruments, tube-tester, tools, resistances, condensors, and so on);
--miscellaneous telephone equipment.

While the dependent Engineers Headquarters is directed to assign forthwith the above material, your headquarters is requested to kindly authorize the transportation to Italy by the ships which are now transferring the Italian units.

The data, referring to weight and size of the parcels containing the above material, will be forwarded as soon as possible.

E L M A S

1.- Si comunica che il Comando Supremo Italiano, nel sollecitare lo invio in Continente del materiale e del personale costituenti il Nucleo Radio dello S.M.R.E. (e per il quale codesto comando ha già concesso l'autorizzazione al trasferimento), ha precisato che le due stazioni radio RN5 facenti parte del materiale predetto devono essere inviate al completo.

Pertanto, mentre in un primo tempo, questo comando, con foglio 2214/op del 15 febbraio c.a. aveva specificato che si dovevano inviare in Continente soltanto i due ricevitori RN5, occorre ora provvedere all'invio anche dei due trasmettitori RN5 che furono a suo tempo versati presso il magazzino alleato in Cagliari, viale Trieste, ove trovasi tuttora.

Si prega quindi di voler, con cortese sollecitudine, autorizzare il ritiro dal nominato magazzino dei due trasmettitori in parola.

2.- Si informa inoltre che lo stesso Comando Supremo Italiano ha richiesto l'invio in Continente del seguente altro materiale, occorrente per l'impianto di una centrale di collegamento di notevole importanza, in accordo con il servizio informazioni alleato:
- materiale radio complementare (valvole, strumenti di misura, prova valvole, attrezzi, resistenze, condensatori, ecc.);
- materiale vario telefonico.

Mentre si dà ordine al dipendente Comando Genio di disporre senz'altro per l'assegnazione di detto materiale, si prega codesto comando di volerne cortesemente autorizzare il trasporto in

THE MILITARY HEADQUARTERS OF SARDINIA (XIII A.C.)
STAFF - OPERATIONS SECTION

File No. 5581/1/5

APO 50, April 27, 1944

SUBJECT: Engineers material for the Royal Italian Army Staff.

TO : Allied Garrison Headquarters, Elmas.

1. The Royal Italian Army Staff, in view of the probable formation in Italy of mechanics and telegraphists units or of the completion of assignments to the already existing units, has requested this headquarters that numerous Engineers material, not available in the warehouses located in Puglie and Calabria territory, be sent to Italy.

2. The above material has already been stored with the 13th Engineers Regiment, Cagliari, contained in about 200 boxes, weighing a total of about 30 tons and ready to be forwarded.

3. As for the transportation of the above material, Major PHILIPS on behalf of the Allied Sub Commission for the Army, suggested that the same means be used that have been put at the disposal for the transfer of the Italian units to Italy.

4. Your headquarters is therefore requested to kindly grant authority for the forwarding of the above material, specifying which means of transportation may be used, if necessary.

We await your kind reply.

SUBJECT: Request for Italian Switchboard

TO : Commanding General, Italian Forces in Sardinia

1. There is an urgent need for an additional switchboard consisting of fourteen (14) cord circuits and eighty (80) drops. Neither a British nor an American switchboard of this size is available, and, if possible, we would like to obtain an Italian switchboard to meet the requirements.

2. The switchboard will be used at the Alghero Airfield. Please advise if equipment is available and where it may be obtained.

ALLIED GARRISON OF SARDINIA, Office of the Signals Officer, APO 534, U.S. Army.
1 May 1944.

TO: Allied Control Commission, Army Sub-commission, APO 534, U.S. Army.

1. The need mentioned in basic communication is becoming urgent with the increasing number of circuits this organization is expected to handle.

2. An Italian switchboard consisting of fourteen (14) cord circuits and eighty (80) drops would meet the need if it is possible to obtain same.

3. Neither a British nor American switchboard of this size is available.

WILLIAM H. LYLE,
Lt. Colonel, Signal Corps,
Signal Officer, AGS.

FILE: SIGNAL

Declassified E.O. 12356 Section 3.3/NND No. 785020

To:- Allied [illegible]rison of Sardinia (atte[illegible]on of Signals Officer)

From:- O.C. 33 Wing Section, 2 Air Formation Signals.

Date:- 29 Apr 44.

Ref:- 33/6/18

APR 30 1944

Subject:- TELEPHONE COMMUNICATIONS ALGHERO AIRFIELD.

This station is at present served by a 40-line British E & F switchboard with an additional unit or 20 lines.

All these lines are being used and there is no room for any desired expansion. Moreover the board is too busy for one operator to cope with all calls as expertly as is desirable.

Is it possible to obtain from Italian supplies a two position 80 or 100 line board?

Apart from the above, my unit could use the present board to advantage in Italy.

O.C.
33 Wing Section.

SUBJECT: Shipment of Italian Air Force Communications Equipment to Italy.

TO : Commanding General, Italian Air Force in Sardinia.

1. Letter from this headquarters, dated 7 June 1944, subject as above is superseded by this letter.

2. The Air Forces Sub-Commission, Allied Control Commission has instructed this headquarters to make arrangements with your headquarters to ship the following Italian Air Force Radio equipment to Italy via available shipping of Allies or Italians for use by Italian Air Force there:

a. Four (4) each Receiving and Transmitting Van "1030".

b. One (1) each Transmitting Trailer "300".

c. Five (5) each Receiving Trailer "300".

d. Five (5) each Transmitting and Receiving Trailer "310".

e. Seven (7) each D/F Trailers, low frequency.

f. Four (4) each Fixed Radio Station "300" & AC "309".

g. Six (6) each ENCA, 20W Installation.

h. Three (3) each D/F Stations, Fixed.

3. Since the Air Forces Sub-Commission had authorized the shipment of four (4) each Receiving and Transmitting trucks on 1 Feb. 1944 and shipment has not been made, these sets should be added to that listed in par. 2 above.

4. The equipment listed above should be prepared for shipment by you and should be ready to leave on 20 June 1944.

5. Minimum number of necessary maintenance personnel will accompany equipment. Request this headquarters be notified as to total number of personnel that will leave with above equipment.

G-1-1

19 May, 1944.

SUBJECT: Shipment of IAF Communication Equipment to Italy.

TO : Commander-in-Chief, Allied Armies in Italy, APO 650, U.S. Army.

1. Reference is made to attached copy of letter from Air Force Sub-Commission, Allied Control Commission, dated 21 April 1944, subject: "Shipment of Italian Air Force Communications Equipment to Italy".

2. Reference is also made to attached copy of letter from Headquarters, Allied Armies in Italy, dated 30 April 1944, subject: "Italian Radio Equipment".

3. No action to ship equipment is being taken until it is directly indicated that such action has emanated from or are approved by Br. Adl or Br. MAAF, respectively. However the Italian Air Force Signal Officer has been contacted in regard to radio equipment requested and attached is the status of subject equipment.

4. Some of the equipment requested is at present being used by Allied organizations as listed in column "In use by Allies". Reference is made to attached copy of letter addressed to Commander-in-Chief, Allied Armies in Italy, 19 April 1944, subject: "Italian Radio Equipment", and to attached copy of letter of reply received from Br. Adl, dated 22 April 1944, subject: "Italian Radio Equipment". To date no reply has been received from MAAF.

5. The Radio Intelligence unit of this headquarters is at present using four (4) each Trailers (Highland type) Vibarte (receive only), one (1) each low frequency mobile D/F trailer and one (1) each fixed long range Adcock. The use of this equipment is essential to present Radio Intelligence operations and if this equipment were to be withdrawn from Sardinia, Radio Intelligence operations would cease.

6. Request that use of additional equipment listed in par. 5 above, none of which has not previously been requested, be confirmed.

7. Status of equipment listed under item "8" in Inclosure #1 is not clear. The Italian Air Force informs us that this equipment has been waiting shipment to Italy for past four or five months. No information relative to this shipment has been received. Request this headquarters be advised as to disposition of this equipment.

ALLIED GARRISON OF SARDINIA
APO 534

J-1-i

19 April 1944.

SUBJECT: Italian Radio Equipment.

TO : Commander-in-Chief, Allied Armies in Italy.

1. Attached is a list of Italian Radio Equipment which is being used by this headquarters on the Island of Sardinia.

2. This equipment as shown on attached list, is used for three purposes: Administrative net for the Island of Sardinia, Radar reporting channels and Point-to-point communication from the Island to higher headquarters.

3. The Island net is an emergency net to supplement the wire system of the Island. The Radar reporting nets were established in the absence of necessary T/E& equipment for the 62nd Fighter Sector. The Fonopolo radio station was requested by this headquarters in order to obtain the use of fixed station equipment and improve our antenna system. This has improved our transmission and further given us the opportunity to return borrowed equipment and re-work our assigned equipment in preparation for future operations.

4. The attached list of equipment has been obtained through established Allied Garrison channels from the Italian Air Force and proper accounting has been made. Each installation uses the services of Italian radio mechanics to maintain the equipment.

5. It is requested that the use of this equipment be confirmed by your headquarters.

For the Commanding General:

/s/ Augustus F. Vitali,
/t/ AUGUSTUS F. VITALI,

SUBJECT: Italian Radio Equipment.

TO : Commander-in-Chief, Allied Armies in Italy.

1. Reference message DBAS, 551 s/4, "SECRET", copy attached.

2. A copy of this letter is being sent to Air Forces Sub-Commission since it not definitely known whether they or AAI (Administrative Vessels) originated the attached message.

3. This message states that, "This connection FW467 from Supreme Command and March 16, 1944 requests AI transmitter RT on 100 sheets A-20 and various spare parts for vitally important Allied Intelligence Service". Neither the above quoted message nor any other message has been received by this headquarters concerning the above-mentioned sets and spare parts. Also, the Italian Air Force in Sardinia has informed this headquarters that they never received any communication on above equipment.

4. This headquarters is making use of Italian radio equipment when absolutely essential to operations and when Allied equipment is not available. In all cases proper requisitioning and accounting has been made to the Italian authorities. In addition thereto ten (10) sets requested by Allied Force Headquarters have been prepared for shipment and are awaiting transportation to Naples.

5. Delays have been experienced in the procurement of equipment and in the granting of approved Italian radio channels. This has been due to instructions reaching us through Italian instead of through regular channels. We do not consider instructions through Italian channels as authority for action by this headquarters and therefore have not acted until such authority was received direct from your headquarters. In order to expedite the fulfillment of your wishes it is necessary that we be furnished a copy of all directives on Italian communications which affect Sardinia and that we be advised of all changes concerning Italian communications in Sardinia.

27 April 1945

ENG.

SUBJECT: Preparation of Special Material for Shipment.

TO : Commanding General, Territorial Office for Sardinia.
Attention: Head of Engineer Section.

1. This office has been instructed to ship the following supplies to the mainland by an Allied courier:

a. From Depot at Siliqua
33 Binoculars

b. From Depot at Ploaghe
37 Binoculars
2 Watches

c. From Depot at Abbasanta
24 Watches

d. From Depot at Cagliari
50 Binoculars
49 Watches
01 Compasses (Direction Finding Instruments)

2. In conversation with Lt. Colonel Trau, Engineer Material Office, Cagliari today, he stated that depots had recently notified War Ministry directly, that above items were on hand in respective depots.

3. Request that a qualified officer be detailed to ensure that the above material is properly packed and in Cagliari ready for shipment not later than 1200 hours on 30 April. This letter is authority to you to require that transportation necessary to accomplish this, is furnished by Territorial Office for Sardinia.

4. Request that this office be notified name of officer so detailed and that we be kept informed of the progress on this matter.

SUBJECT: Telephone and Telegraph Circuits

TO : Allied Control Commission, Army Sub Commission

INFO : Engineer Headquarters of Sardinia
(reference letter 676/C dated 2 September 1944)

Your Sub Commission is informed that Allied units have used the conductors of Italian telephone circuits - of Dicat and telegraph circuits of the Royal Air Corps, to support American lines.

The use of above mentioned conductors, verifiable at the road crossing at Decimo Airport - impedes the functioning of the Italian circuit.

We would be grateful to your Sub Commission if you would kindly issue instructions which would eliminate the inconvenience mentioned above.

THE HIGH COMMISSIONER OF SARDINIA

File No. 0267-S Cagliari, 3 June 1944.

SUBJECT: Release of Civilian Telephone Circuits.

TO : The Military Headquarters of Sardinia, APO 50, (Staff - Operations Section)

By letter No. 7203/1/5, dated May 30, your headquarters informed the Allied Garrison Headquarters that, complying with instructions received by the Ministry for Communications, it will not grant any future request for civilian telephone circuits without a previous authorization by the above Ministry.

While forwarding copy of the letter dated June the 1st, concerning the above matter, received from the Allied Garrison Headquarters, I hereby order that any request for civilian and military telephone circuits from the Allied Headquarters be granted forthwith.

I deem it necessary, in order to give the Allies the due unrestricted assistance and cooperation in their war effort.

I request your headquarters to kindly inform the Ministry of Communications of contents of the present letter.

The High Commissioner
Gen. Pietro Pinna.

ALLIED GARRISON OF SARDINIA
APO 534 G-3

1 June 1944

SUBJECT: Control of Communications.

TO : Italian High Commissioner for Sardinia.

1. The inclosed letter was received from the Headquarters XIII C.A.

2. The following paragraph from a directive issued by the Commander in Chief, AFHQ, is quoted for your information:

> "7. COMMUNICATIONS. The Allied Garrison Commander will control and coordinate the installation, operation and maintenance of all communications systems, civil and military, in SARDINIA, for the purpose of insuring that they render the maximum assistance to the military effort. Otherwise, civil communication will be under the supervision of the Allied Control Commission."

3. In view of the foregoing we have no doubt that the policy of prompt cooperation that has always existed between the Italian signal agencies and this headquarters will remain unchanged. As you know we have, in the past, avoided disturbing Italian communications wherever possible. We intend to continue this policy but it is obvious that we cannot accept delay in the delivery of wire lines when and if they are needed.

4. It is requested that you inform the Headquarters XIII C.A., that such lines as may be requested will be turned over without delay. It is further requested that this headquarters be furnished a copy of your instructions.

THE MILITARY HEADQUARTERS OF SARDINIA (XIII ARMY CORPS)
Staff — Operations Section

File No. 7203/1/5 APO 50, 30 May 1944

SUBJECT: Release of civilian telephone circuits.

TO : Allied Garrison of Sardinia, Elmas.

1. It is hereby brought to the knowledge of your headquarters that the Italian Army General Staff, with letter No. R/1-6/1936, dated 19 March, directed that any release of civilian telephone circuits used at present by the Italian Armed Forces must be previously authorized by the Ministry of Communications, since the above installations are property of the said Administration and of its dependent companies.

2. You are therefore advised that this headquarters will not, in the future, immediately grant the request for release coming from your headquarters, as has been done in the past but, each time, an authorization will be requested from the above Ministry.

The Chief of Staff
Colonel GAVINO LEDDA

Declassified E.O. 12356 Section 3.3/NND No. 785020

Lo Stato Maggiore del Regio Esercito Italiano ha richiesto a questo Comando, per l'Ufficio Informazioni del Comando Supremo Italiano, il seguente materiale radio che trovasi depositato presso Radio Sardegna :

I) - R6/OC completa (autostazione) .....N° I
2)-- Autocarro di scorta Fiat 626 .....N° I
3) - R.F. 250 .....N° I
4) - O C 9 .....N° I
5) - Ricevitore R N 5 .....N° 2
6) - O C 7 .....N° I
7) - A R I8 .....N° I
8) - O M 8 .....N° I
9) - Tutte le serie di valvole e materiale radio di scorta esistente .-

Pregasi la cortesia di Codesta Guarnigione di voler autorizzare il trasporto in continente del suddetto materiale , che dovrebbe essere avviato per via aerea , ad eccezione di quello indicato ai n° I,2,3, che dovrebbe essere avviato via mare.

Subject: Impounded Radio Transmission Sets

To : Commanding General, Italian Forces in Sardinia

1. Reference our letter, same subject, dated 26 January 1944; addressed to the Signal Officer, A.F.H.Q., of which a copy was sent to you.

2. The four radio transmitters referred to therein may be selected from those impounded in the Signal Warehouse in Cagliari.

3. It is requested that, at your convenience, you appoint an officer and one or more radio mechanic who may go to the warehouse to select these radios, check them for serviceability and tag them so that they may be identified easily at some future date when they may be available to you.

4. Since, by order of the Allied Force Headquarters, these radios cannot be withdrawn from their present storage place, you must advise this office of the time and date when you want to select and check them and one radio mechanic from this headquarters will be sent to accompany your men.

THE MILITARY HQS OF SARDINIA (XIII ARMY CORPS)

TO : ALLIED HQS SARDINIA.

SUBIECT : WITHDRAWAL OF RADIO EQUIPMENT.

JANUARY, 5, 1944.

On Dec.6th 1943 your Hqs requested the handing over, in the warehouse at 68, Viale Trieste, Cagliari, of all Radio equipment in the Island.

Such handing over has been completed in the last few days.

Successively, on Dec.21st 1943, following a request by the Allied Commission, the Italian Army Staff directed that all Radio transmitting and receiving stations and spare parts distributed to Organizations located in the Island be handed over to the depending Engineer Corps warehouses.

The above Radio equipment is being withdrawn from all localities.

In reference to the aforesaid and in order to allow the depending units to hand over to the Engineer Corps Warehouses all Radio transmitting and receiving stations and spare parts, we ask your Hqs to direct the withdrawal from the Cagliari warehouse of all the Radio transmitters already handed over.

The Engineer Corps warehouses prepared by this Hqs for the withdrawal of all Radio equipment may be supervised and controlled by your Hqs' personnel.

We await your decision on the matter.

Col. G.LEDDA,
Chief of Staff.

O G G E T T O : ritiro materiali radio .-

AL COMANDO ALLEATO DELLA SARDEGNA E L M A S

^^^^^^^^^^^^^^

Codesto comando in data 6 dicembre 1943 chiedeva il versamento, presso il magazzino allestito in Cagliari - Viale Trieste 68 - del materiale radio trasmittente esistente nell'Isola.

Le operazioni di versamento sono state ultimate in questi giorni.

Successivamente lo S.M.R.E. in data 21 dicembre 1943, in seguito a richiesta della Missione Alleata, disponeva il ritiro e versamento nei dipendenti magazzini genio di tutti gli apparecchi radio trasmittenti e riceventi e pezzi di ricambio comunque in distribuzione ad enti dislocati nell'Isola.

Le operazioni per il completo ritiro dei materiali radio sono in corso.

In relazione a quanto sopra e al fine di consentire ai reparti dipendenti il versamento presso i magazzini genio delle stazioni radio al completo di parte ricevente e trasmittente, accessori e parti di ricambio, si interessa codesto comando affinchè voglia autorizzare il ritiro dal magazzino di Cagliari delle stazioni radio trasmittenti già versate.

I magazzini genio allestiti da questo comando per il ritiro di tutto il materiale radio potranno essere ispezionati e controllati da personale di codesto comando.

Si rimane in attesa delle decisioni che verranno prese al riguardo.-

A.P.O. 509, U.S. Army

li 20 dicembre 1943

Al : Intendenza Militare, Mccaser, Sardegna

Attenzione: Capitano PETRA

Per chiarificare le rechieste fatte telefonicamente li 18 e li 19 corrente si chiedono, per il piu presto possibile, le seguenti:

(1) Elenco indicando il numero, la forza e dislocazione di tutti i Reparti Servizi nella SARDEGNA.

(2) Lista indicando la quantita e dislocazione, nei magazini e presso i reparti, specificandoli, di ogni tipo di apparecchio radio, specialmente i tipi RF3C, RF3A, BC-4 e BC-3.

(3) Dislocazione dei 382 muli (del 6 Reparto Salmeria?), che sono oltre i 4 gruppi gia partiti. Che sia avvertito per immediata partenza; come anche 65 cavalli da sella, completi con redini e sella per cavalcatura a ORISTANO. Prego che si faccia sapere quando saranno pronti di modo che io possa mandarli a prendere col treno per portarli a CAGLIARI. Si prepara anche una lista del minimo personale che accompagneranno questi animali, per essere presentata al Comandante Americano del Porto di CAGLIARI.

(4) Prego che mi avvertiate quando i 2800 basti a TELTI ed i 3200 basti a OZIENI saranno pronti, in cassette per essere spediti a CAGLIARI di modo che possa mandarli a prendere col treno.

INTENDENZA FF. AA. SARDEGNA
UFFICIO S. M.

Colonnello Simone
Rappresentante in SARDEGNA

Mi fai presto fare avere le notizie richieste.
