No. 5644/AUT. Cagliari, 25 October 1945

SUBJECT: Empty Petrol Drums.

TO : MMIA - CAGLIARI

1. As MMIA knows the Army Petrol Dumps have about 65000 empty drums available.

Except for 5000 which are needed for monthly allotments of petrol to units, same are in excess of Army needs.

The CIP, which lost practically all its drums during the war, wants to buy 20 or 30 thousand drums.

Therefore, considering that:

- this release is made to a public utility organization.
- the drums are in excessof Army needs.
- personnel used to guard this material could be employed otherwise.
- Major Martin was in favor of releasing empty Army petrol drums.

We also favor this release for which the Army Administration will not lose time nor waste equipment.

Before requesting authorization to Central authorities, request MMIA consent to release and also inform us of the price at which these drums must be sold per ton.

N° 5644/int. di prot.

Cagliari, 25 Ottobre 1943.-

OGGETTO: Fusti vuoti per carburanti.-

ALLA M . M . I . A .

CAGLIARI

Come è noto a codesta M.M.I.A. i Depositi Carburanti del R.E. in Sardegna, hanno una disponibilità di circa 65.000 fusti vuoti per carburanti e lubrificanti.-

Detti fusti sono esuberanti alle necessità militari, fatta eccezione di una piccola aliquota di 5000 circa, la quale è indispensabile per il movimento mensile dei prodotti assegnati e da assegnare ai Reparti dipendenti.-

In data 17 Ottobre u.s. la Filiale del U.I.P. di Cagliari (Comitato Italiano Petroli), propone a questo Ufficio la cessione a pagamento di 20 ÷ 30.000 fusti di nostra proprietà, precisando che tale acquisto si rende più che necessario per ricostituire il proprio patrimonio di fustame, andato perduto per eventi bellici.-

Pertanto, considerando che :

- tale cessione verrebbe fatta ad un Ente che esplica attività pubblica ,
- il fustame da cedere è esuberante alle necessità dei Reparti del R.E. in Sardegna,
- per custodire detto materiale viene impiegato personale che potrebbe essere altrimenti sfruttato,
- il Maggiore MARTIN, si era già espresso favorevolmente per sgravare di fusti vuoti i depositi militari in Sardegna,

si è del parere di procedere all'anzidetta cessione, per la quale però l'Amministrazione Militare non dovrà sciupare né tempo né denari.-

Prima di chiedere l'autorizzazione alle competenti Autorità Centrali, prego codesta M.M.I.A. di voler dare il proprio benestare e precisarne il prezzo per ogni fusto.-

SUBJECT : Sale of Empty Metalic Fuel Drums.

TO : M.M.L.A. (Colonel Albert) Cagliari.

1. The Provincial Administration of Cagliari has requested this office both directly and through the High Commissioner, 30 empty metallic drums for tar.

2. Other drums always through the High Commissioner were requested by the Administration of the Mines of Seddan Moddizzis for the sale of which the Allied Commission gave its approval and expressed themselves favourably on the matter.

3. The issue of the materials in paragraph 1 and 2 would be of public utility and in Ozzolo (Province of Cagliari) there are at present 170 empty metallic drums from German sources (for the transportation to Cagliari and guard of this material there is no means or personnel). These drums are not needed by the Army and therefore you are requested to issue the drums in the following way:

30 drums to the Provincial Administration of Cagliari
100 drums to the Administration of the Mines of Seddan Moddizzis.
40 drums to other units that have requested them.

4. Since these are captured enemy drums and belong to the Allied authorities, if the issue is authorised I would like to know the prices.

5. The drums will be drawn directly by the buyers so that the Army will not use transportation or personnel.

OGGETTO: Cessione fusti metallici vuoti per carburanti.-

ALLA M . M . I . A . (Col.ALBERT) CAGLIARI

****

1.- Sia direttamente che tramite l'Alto Commissariato per la Sardegna, l'Amministrazione Provinciale di Cagliari ha chiesto a questo ufficio la cessione di nº 30 fusti vuoti metallici per il prelievo di catrame.

2.- Altri fusti, sempre tramite l'Alto Commissariato per la Sardegna, vennero pure richiesti dall'Amministrazione della Miniera di Seddas Moddizzis per la cessione dei quali la Commissione Alleata di controllo, con lettera che allego in copia, si era espressa favorevolmente.

3.- Nella considerazione che la cessione dei materiali indicati ai paragrafi 1 e 2 tornerebbe di utilità pubblica e tenuto conto che a Gesico (Provincia di Cagliari) attualmente trovansi dislocati 170 fusti metallici vuoti per carburanti di provenienza ex tedesca (sia per la sorveglianza che per il trasporto a Cagliari di questi 170 fusti mancano mezzi e personale) ed esuberanti ai bisogni dell'Esercito, prego voler cortesemente autorizzare la cessione dei fusti in parola suddividendoli nel modo seguente :-

nº 30 all'Amministrazione Provinciale di Cagliari -
" 100 all'Amministratore della Miniera di Seddas Moddizzis -
" 40 ad altri Enti che ne hanno egualmente fatto richiesta -

4.- Trattandosi di materiali di preda bellica e di pertinenza delle Autorità Alleate, ove venisse concessa l'autorizzazione per la cessione, gradirei conoscere il prezzo.

5.- Al ritiro dei fusti suddetti da Gesico provvederanno gli interessati per cui il R.Esercito non impiegherà per la consegna nè mezzi nè personale.=

APO 534

4 June 1944

SUBJECT: Sardinian Requirements for Imported Coal.

TO : Commanding General, AFHQ, (Attention: Coal Section)
APO 512, U.S. Army

1. In accordance with the responsibilities of the Allied Garrison Commander, Sardinia, as set forth in paragraphs 2 e (2) and 2 f, Section II, AFHQ Administrative Memorandum No. 16, 1 April, 1944, the following information relative to the monthly requirements of Sardinia for imported coal is submitted:

a Railroad Requirements:

(1) These railroads are used principally for movement of Allied military supplies:

Ferrovie della Stato	1600	tons monthly
Soc. Strade Ferrate Sarde	400	" "
Total	2000	" "

(2) These railroads are used principally for the movement of civilian supplies and in connection with certain industries:

Ferrovie Complementari	300	tons monthly
Ferrovie Meridionali	400	" "
Total	700	" "

b Civilian Requirements: The following are civilian activities exclusive of the railroads listed in paragraph 1 a (2) above, requiring imported coal:

Sassari Gas Works	150	tons monthly
Cagliari Gas Works	150	" "
Miscellaneous Key Industries	300	" "
Agricultural Blacksmiths	100	" "
Brick Manufacture	50	" "
Total	900	" "

2. The requirements listed in paragraphs 1 a (2) and b above have been screened by the Regional Commissioner, Allied Control Commission, Sardinia, and are reported by him to be the critical users of imported coal in Sardinia.

3. Coal imported into Sardinia has been used exclusively for railroad operation in Allied interests. Present stock on hand will operate the railroads for the movement of Allied military supplies until 31 August, 1944. It is considered desirable that at least a 60-day level of supply be maintained in Sardinia for use in operation of railroads transporting Allied military supplies, and a 30-day level for civilian use , and it is so recommended.

1. Attached Appendix 'A' shows P.O.L. products authorised for release to Italian Army Combat Divisions and ITI-ITI commands for November 45, under authority AFHQ Pet Sec letter PET 30/S/18 dated 16 October 45.

2. Owing to limited stocks, it will be noted that AFHQ Pet Sec have effected considerable reductions over the quantities made available in October. In the case of ITI-ITI Units, Pet Sec allocation has been based on 1/2, 2½ and 4½ U.S. gallons per Motorcycle, car and load carrier respectively instead of 1, 5½ and 6 U.S. gallons as formerly. In the case of Combat divisions, an overall reduction was made, and has been evenly distributed over the divisions concerned.

3. The following points should be noted in connection with the ITI-ITI allocations :-

(a) In Sardinia, Kerosene, SAE 10 and 30, Motor Oils and C 600 and in Puglia and Lazio, AGO, Kerosene, SAE 10, 30, 40 and Motor Oils are to be drawn from Italian Army Dumps.

(b) Requirements in respect of detachments of 3 G.T.company, have been included in the ITI-ITI allocations at Genoa, Naples and Leghorn.

(c) Sub-allocations to ITI-ITI Units should be supervised by MTLA LO's, in accordance with this office letter ST/1602 of 24 July, but taking into account the new reduced factors notified in para 2

(c) Sub-allocations to ITI-ITI Units should be supervised by [illegible] LO's, in accordance with this office letter ST/1602 of 24 July, but taking into account the new reduced factors notified in para 2 above.

4. Arrangements have been made with the Ministry of War and HQ C.[illegible] whereby Combat Divisions will not be required to pay cash for P.O.L. products, such payment being made on their behalf by the appropriate Territorial Commands. Instructions to this effect are being issued by the War Ministry through Italian channels; copies of these instructions will be forwarded by this office to all addressees shortly. The system outlined above is designed to become operative w.e.f. 1 Nov 45.

1. Stocks of certain grades of lubricating oils are at present in very short supply and C.I.P. are in urgent need to meet pressing commitments.

2. In view of the fact that the Italian Army stocks hold the grades required and that allocations are made monthly to the Italian Army through C.I.P. of grades the Army require but do not stock, AFHQ Pet Sec have asked that the following transfers be made :

	From Army Dumps in Sardinia to C.I.P. Sardinia.	From Army Dumps in Puglie and Lazio to C.I.P. Bari.
SAE 10	600 bbls	350 bbls
SAE 30	330 "	800 "
SAE 40	-	400 "

3. The above transfers should be carried out as soon as possible by arrangements with the C.I.P. representatives at Bari and Sardinia.

4. Receipts should be obtained from C.I.P. and forwarded to this H.Q. for onward transmission to AFHQ Pet Sec, who will credit the Army account accordingly.

1. In order to overcome difficulties in the supply of P.O.L. to vehicles on long journeys belonging to the ITI-ITI or Combat Divisions category, a system of petrol coupons is being brought into operation w.e.f. 1st November 45.

2. The system will operate as follows :-

(a) Stocks of coupons (as per samples attached) will be held by each of the following C.I.P. depots :-

Naples	Florence	Turin	Piacenza.
Bari	Bologna	Udine	Bolzano
Catanzaro	Milan	Leghorn	
Rome	Genoa	Verona	

(b) On receipt of the usual schedule setting out the quantities of P.O.L. allocated monthly, to the Italian Army, Combat Divisions and Territorial Commands will be allowed to draw a portion of their allocation in the form of coupons, the balance being drawn in barrels as formerly. In order to limit movement of stocks between C.I.P. depots, not more than 10% of the monthly allocation may be drawn in coupon form.

(c) Coupons drawn in accordance with sub-para 'b' above will be valid at any C.I.P. depot throughout the mainland, but only for the month

(c) Coupons drawn in accordance with sub-para 'b' above will be valid at any C.I.P. depot throughout the mainland, but only for the month in which they were issued, providing that they comply with the following conditions :-

7355

(i) They must bear the stamp of the C.I.P. depot which issued them, and the date of such issue.

(ii) They must be endorsed, by the appropriate Italian Command or Division, with the name of the unit to which they have been issued.

(iii) When presented to the C.I.P. depot they must be accompanied by the work tickets of the vehicles requiring to be supplied.

(d) For purposes of accounting, coupons will be considered as actual stocks - i.e. in cases where cash payment is required by C.I.P. for stocks, payment will also be demanded for coupons. Any coupons not used will be redeemable at the C.I.P. depot from which they were issued, if presented before the end of the month.

(c) Initial stocks of coupons have already been supplied to H.Q. C.I.P. Road, who are arranging for their immediate distribution to the depots nominated in sub-para 'a' above. It will be the responsibility of C.I.P. to arrange the printing and distribution of further supplies as required, and to debit the War Ministry with the cost of such printing.

3. It is emphasised that the above system is only designed to cover the operation of vehicles on long journeys; in cases where it is known that detachments of vehicles will be operating for long periods in areas where P.C.L. supplies have not formerly been made available, requests for P.C.L. to be made available from the nearest C.I.P. depot should be made when the monthly bid is submitted.

1. It is observed that the Stock State for Army dumps in Sardinia as at 31 Aug 45 shows an increase in quantities of benzine and gasoil. It would seem therefore that these products have been withdrawn from OIP and deposited in the Army dumps. This is contrary to present policy which is to reduce the quantities in these dumps.

2. No change is shown in quantities of oils since the previous month and kerosene shows a reduction of only 1 barrel. AFHQ Pet Sec P.O.L. allocation for August attached to our ST/1602 of 23 July 45 allots to Sardinia 27.2 barrels Motor Oil, 3.9 barrels 0600 and 5 barrels kerosene to be drawn from military dumps (para 2).

A decorrere dal 1° Novembre p.v., il prelevamento ed il pagamento del c. e l. assegnato da questo S.M. ai Comandi Militari Territoriali, alle Divisioni di Fanteria "Cremona" -"Folgore" - "Friuli" -"Legnano" - "Mantova" e"Piceno" e a tutti gli altri enti e reparti autonomi, è regolato dalle norme di cui appresso.

Il prelevamento del carburante, sulla base delle assegnazioni mensili, sarà effettuato mediante buoni. Al relativo pagamento provvederanno esclusivamente i Comandi Militari Territoriali con le modalità precisate al paragrafo VI).-

./.

Declassified E.O. 12356 Section 3.3/NND No. 785020

I) - PRELEVAMENTO

a) - Allo scopo di facilitare il rifornimento degli automezzi in servizio isolato, il 10% del c. e l. assegnato mensilmente a ciascuno dei Comandi di cui sopra, può essere prelevato in cedole presso i depositi C.I.P. sottoindicati:

- Torino	- Udine	- Roma	- Catanzaro
- Genova	- Bologna	- Napoli	- Livorno
- Milano	- Firenze	- Bari	- Piacenza
- Bolzano			- Verona

Dette cedole sono commutabili in effettivo c.e l. presso qualsiasi deposito C.I.P. dislocato nel territorio nazionale, previa esibizione del foglio di marcia dell'automezzo da rifornire. (La dislocazione dei depositi C.I.P. risulta dell'allegato 1).-

b) - La validità delle cedole è limitata al solo mese per il quale sono state emesse e devono perciò essere in ogni caso tramutate in c. e l. entro il mese cui si riferiscono.-

c) - Le cedole non utilizzate nel mese per il quale sono state emesse, devono essere, entro il 30 e 31 del mese stesso restituite al deposito C.I.P. emittente, ovvero consegnate ad altro deposito C.I.P. per essere tramutate in c. e l.-

d) - Gli automezzi che iniziano il servizio - per altra sede - verso gli ultimi giorni del mese, devono, prima di iniziare il viaggio stesso, munirsi di cedole valide per il mese successivo.-

Modalità di prelevamento

Il prelevamento del c. e l. presso i depositi C.I.P. dislocati nella giurisdizione territoriale dei Comandi Militari Territoriali, verrà effettuato dagli enti e reparti senza alcun pagamento.

All'uopo:

d) - Gli automezzi che iniziano il servizio - per altra sede - verso gli ultimi giorni del mese, devono, prima di iniziare il viaggio stesso, munirsi di cedole valide per il mese successivo.-

Modalità di prelevamento

Il prelevamento del c. e l. presso i depositi C.I.P. dislocati nella giurisdizione territoriale dei Comandi Militari Territoriali, verrà effettuato dagli enti e reparti senza alcun pagamento.

All'uopo:

a) - ciascun reparto dovrà essere munito di:

- buono di prelevamento, costituito da tre parti (modello allegato 2)

- parte 1^ "A" - matrice - da custodire 7832 che emette il buono;

- parte 2^ "B" - contromatrice - da presentarsi al deposito C.I.P. all'atto del prelevamento. Detta parte, riempita dai quantitativi di c. e l. (come presi quelli in cedole) effettivamente consegnati e firmata dal capo deposito C.I.P., verrà restituita all'ente interessato;

./.

Declassified E.O. 12356 Section 3.3/NND No. 785020

- parte 3ª "C" - figlia - da lasciare al deposito C.I.P., munita della dichiarazione relative al carburante prelevato e sottoscritta dall'ente che effettua il ritiro;

b) - il C.I.P. interessato compilerà apposita "nota peso e di consegna" in triplice copia, nella quale dovranno essere posti in evidenza gli estremi del buono di prelevamento ed i quantitativi effettivamente prelevati.

Di dette note, firmate dal capo deposito C.I.P. e dalla persona delegata al prelevamento:

- una verrà allegata alla fattura di pagamento insieme al la parte 3ª "C" del buono di prelevamento;
- le altre rimarranno al C.I.P. per esigenze contabili;

c) - i buoni di prelevamento di cui al paragrafo a), dovranno essere firmati dai comandanti degli enti e reparti interessati, ai quali è fatto obbligo - sotto la loro personale responsabilità - di contenere i prelevamenti di c. e l. entro i limiti delle assegnazioni mensili stabilite dai rispettivi Comandi Militari Territoriali o da questo S.M. per gli enti direttamente dipendenti;

d) - orario di massima di prelevamento presso i C.I.P.:

- giorni feriali ore 8 - 12 e 13 - 17
- Sabato " 8 - 13

Nessun prelevamento potrà essere affettuato nei giorni festivi.

Modalità di addebito

Le consegne di c. e l. effettuate agli enti e reparti in base ai buoni di prelevamento rilasciati secondo le indicazioni di cui al n. 1), lett.c), verranno contabilizzate dal C.I.P. con fatture intestate agli enti che hanno effettuato i prelevamenti.

Ad ogni fattura dovranno essere allegati: la parte 3ª "C" del buono di prelevamento e un esemplare della "nota peso e di consegna" come dianzi detto.

1. It is anticipated that effective the 1st Oct Gruppi ER-ITIS and US-ITIS will ceage to draw P.O.L. from Allied Dumps but will be supplied by C.I.P. in the same manner as ITI-ITIS.

2. AFHQ are asking all British and American Formations with Italian Army Units under their command for their estimated requirements of P.O.L. for October for these Units.

3. This estimation is required to be given in Barrels (42 US Gallons) and grease in lbs, (35 Imperial galls = 42 US galls).

4. Each Formation's estimated requirements should be broken down to show quantities to be made available at each Regional C.I.P.

5. (a) If the above comes into operation on October 1st, all formations will be informed of their bulk allocations.

(b) The Formation concerned should then liaise with the appropriate Terr Command so that the Command can arrange with the Regional C.I.P. at which Provincial C.I.P. the various parts of their allotment should be made available. See Appx 'A'.

6. Once the monthly allotment has been notified, no supplementary allocations can be made unless a special task has to be performed in which case full details with supporting facts and figures, will be required by AFHQ Pet Sec. The channels through which such applications are to be made will be notified later.

7. W. e. f. from the date on which the new system is introduced all Italian Army Units will change to ITI-ITI category as far as P.O.L. is concerned, and work tickets will no longer be ordered to permit

To :- All MLIA LOs. - S.I.R.E.

1. Attached AFHQ Pet Sec letter shows quantities of P.O.L. authorised for release to ITI-ITI units for the month of August.

2. Sub-allocation to units should be supervised by MLIA LO's on the lines set out in this office letter ST/1602 dated 24 July 45. In this connection, it is notified that AFHQ Pet Sec is now basing its releases on the following daily consumption figures :-

Type of Vehicle.	U.S. Gallons per day.
Motorcycle	1
Passenger Vehicles	3 ½
Load Carriers	6

and, in view of this reduction, it may be advisable for LO's to restrict initial allotments to individual units to lower figures than those notified in our above quoted letter.

3. A proportion of the total allocation in the case of Bologna, Milan, Genoa and Turin should remain undrawn in the possession of the S.I.L. depot concerned as shown hereunder. These reserves should not be used without prior reference to this HQ.

1. Under present rules vehicles belonging to BR-ITI and US-ITI Units requiring to be re-fuelled at Allied Petrol Points must have their work tickets endorsed with the words "Entitled to draw P.O.L. from Allied Military Sources" and signed by the responsible Allied officer. The endorsement should preferably be by means of a rubber stamp, in the absence of which, it should be made in red ink.

2. During recent months, numbers of vehicles belonging to BR-ITI and US-ITI Units have been sent on journeys, which necessitated their re-fuelling before returning to their parent units, without having their work tickets endorsed by the Allied formation or unit for whom they were operating. As a result, they have been refused petrol, and told to apply to the nearest MMIA LO, or to HQ MMIA, for the necessary endorsement. This causes delay and also this HQ and the various MMIA LO's concerned are not in a position to judge the necessity for the journeys concerned, and are forced to endorse the work tickets in order that the vehicles may be able to return to their units.

3. It would therefore be appreciated if you would issue orders making it clear that the responsibility for endorsing work tickets in the manner described above lies with the Allied formation or unit sponsoring the journey, that failure to do this will result in vehicles being unable to obtain P.O.L. and that Allied formations or individuals [illegible]

Reference your 6/4177/Serv of 19 May.

1. The P.O.L. dumps in Sardinia are being gradually reduced, since a portion of each monthly allocation of P.O.L. to the Italian Army in Sardinia is drawn from them.

2. According to the return submitted by your office on 22 May 45, the total quantities held were as shown on the attached Appendix 'A'.

3. Since it is the policy to close down these dumps as soon as all stocks have been used up, and in view of the comparatively small quantity of P.O.L. held, authority cannot be given for the formation of any new Italian Army unit to administer them. Civilians should be employed as far as possible, and any military personnel considered essential should be found from within the authorised WE/TO of the Calabria Internal Security Division.

TO : MMIA - CAGLIARI.

Following MMIA order to transport tanks from Guspini and Dolianova to Cagliari, the 1st Mobile Park has requested to this office an extraordinary request for 10,000 litros of gasoline.

This service was not foreseen and therefore this office has not been able to satisfy the request because the monthly allocation has been consumed for:

1) The normal necessities of the units.

2) Repair of vehicles at Abbasanta.

3) Shipment to the mainland of 2nd Section of 1st Mobile Park.

4) Shipment to the mainland of the remainder of 1st Mobile Park.

In the depots there is only the necessary quantity to meet the normal needs for the present month. Please authorize 85 barrels of gasoline..

In seguito all'ordine di trasferimento - da parte di codesta M.M.I.A. - a Cagliari dei carri armati di Guspini e Dolianova, la Direzione del 1° Parco Mobile ha richiesto a questo Ufficio una assegnazione straordinaria, pari a :

- litri 10.000 di benzina.-

Non essendo stato previsto tale servizio nel fabbisogno mensile, questo Ufficio non è in grado di far fronte alla richiesta del Parco stesso, in quanto la maggior parte dell'assegnazione mensile è stata assorbita per :

1°)- le necessità normali dei reparti dipendenti ;

2°)- la riparazione degli automotomezzi del Parco di Abbasanta ;

3°)- l'avviamento in Continente della 2^ Sezione del 1° Parco Mobile ;

4°)- l'avviamento in Continente (e 1/2 serbatoi) delle rimanenti unità del 1° Parco Mobile.-

Non rimanendo disponibile, presso i depositi dipendenti, che lo strettissimo quantitativo necessario per far fronte alle necessità normali per questo scorcio di mese, prego vivamente codesta M.M. ^^^^^^^^^^^^^^^^^^^^

Seguito conversazione telefonica di ieri faccio presente a codesto Ufficio le necessità del Parco in ordine alle necessità dei carburanti.-

D'ordine della M.M.I.A. tutti i carri armati attualmente riparati e parcati sia a Guspini nome a Dolia nova debbono essere trasferiti a Cagliari per il giorno 22 c.m..-

Sono 46 carri che richiedono per il loro trasporto 12 viaggi per ciascuno dei quali occorrono circa 800 litri di benzina e quindi in totale litri 9.600.-

Dei 20 mila litri assegnati al Parco col fono nº2873 del 4/5 oltre dodicimila sono stati consumati per trasporto dei carri, mentre i 4 mila assegnati col fono 3127 del 14 corrente sono appena sufficienti per il trasferimento a Cagliari della 1^ Sezione del 1° Parco Mobile prevista per il giorno 22 c.m..-

Si prega perciò codesto Comando di voler assegnare con cortese urgenza 10 mila litri di benzina per poter far fronte agli ordini ricevuti ed alle necessità del servizio.-

MEMO: To Colonel F. L. Simmons.

1. I checked the POL situation and find the following:

(a) Sgt Lupacchino, U. S. Army, is to remain and handle the POL in Sardinia.

(b) In the event Sgt Lupacchino should leave, we will be able to draw gasoline and oil from CIP (Committee Italian Petroleum) by signing a receipt.

(c) No authorization is required from the mainland to draw this Petroleum. Any Allied representative is authorized to draw upon signing a receipt.

(d) We can also draw motor oil from Elmas. There is sufficient Allied motor oil at Elmas to meet our needs.

(e) The POL situation on the island is excellent. Sgt Lu-Pacchino estimates that there is enough to last for 1½ years.

1. As a result of discussion between AMMG Petroleum Section, Commerce Sub Commission and this HQ, it has been ruled that no further issues of POL will be made from Allied Military or Italian Military stocks to Civilian Contractors working for the Italian Military Authorities. The requirements of all such parties should be met from the civil allocation made to the Italian Government.

2. The Procedure for advance bidding for quantities in respect of such contractors will henceforward be as follows:-

(a) In the case of Italian Government Territory, the War Ministry to notify estimated total requirements by regions for this purpose by the 10th of each month prior to requirements in advance to the Ministry of Industry Commerce and Labour (Liquid Fuels Office), who will add them to their bulk demands.

(b) In the case of AMG Territory, the local Italian Military branch employing the contractor should be instructed to notify the appropriate AMG Regional Supply Officer of quantities required and contractors concerned, giving details of the Nos of vehicles involved and the work to be performed. Such notification should be given by the first of each month in respect of quantities required the following month.

3. Petrol will be actually drawn by the contractors as follows:-

(a) In Italian Army Territory. The contractor should first apply to the local Italian Military employing him who will screen his demand and certify, if appropriate, that the contractor is employed on bona fide work for the Italian Military Authorities. The contractor will then apply to the local ENAC or UPIC for the quantities required.

(b) In AMG Territory. Contractors will apply direct to UPIC, who are responsible for detailed distribution between contractors and will already have received their instructions as a result of para 2 (b) above. The Italian Military authority concerned will if necessary in particular cases intervene with the local ENAC or UPIC to ensure that essential work for the Italian Army is accorded appropriate priority by the Italian distributing authority.

SUBJECT: Extraordinary Request for Diesel Oil.

TO : M.M.I.A.

1. Reference paragraph 2 of letter CLF/roz dated 5 March, your MMIA, you are informed that the diesel oil reserves existing with the dependent units and depots are about exhausted.

2. The availability of said product as of today is represented by 4,676 litres only.

3. Since it is anticipated that the allotment for the month of April can be drawn only after the first week of said month, and in consideration that the present availability is enough to ensure the service only up to 2 April, you are requested to consider the possibility of granting a supplemental allotment of at least:

100 barrels of diesel oil

4. The inclosed chart showing distribution of diesel oil for period 23-30 March is herewith forwarded to justify the allotment made.

MILITARY COMMAND OF SAEDINIA
MOTOR DIRECTION

N.1709 /Aut 3 March 1945

SUBJECT: Extraordinary request of fuel

TO:M.M.I.A.

The 13th. Autoparco Direction has requested our Hqs the extraordinary assignment of:

20.000 Kgs of gasoline
20.000 Kgs of diesel oil

needed to repair the 220 tanks located in the area of Guspini.

The W/M has given instructions that no extraordinary request of fuel can be made without the previous authorization and signature of the lo. liason Officer.

Therefore we request you to assent the present request of fuel , considering that the above quantaties are necessary to:

Repair the tanks
Try and test them
Run them to Cagliari

The request is very small if you consider that the tanks in question are stoped for over 18 months and in very bad mecanic order.

When the tanks have been repaired a detailled chart showing what has been used will be made out.

The present request is urgent .

La Direzione del 13° Parco Automobilistico ha richiesto a questo Comando l'assegnzione straordinaria di :

- Kg. 20.000 di benzina,
- Kg. 20.000 di gasolio,

occorrenti per la riparazione dei noti 220 carri armati dislocati nella zona di Guspini.-

Il Ministero della Guerra, ha disposto che nessuna richiesta straordinaria di carburanti potrà essere avanzata, senza la preventiva autorizzazione e controfirma dell'Ufficiale di collegamento di codesta M.M.I.A..-

Pertanto, si prega di voler concedere benestare di tale richiesta, tenendo presente che i quantitativi suddetti necessitano per :

- riparazione dei carri,
- loro rodaggio e collaudo,
- loro trasferimento a Cagliari.-

La richiesta è più che minima se si considera che i mezzi in parola, sono da oltre 18 mesi inattivi, e nel massimo disordine meccanico.-

Al termine delle riparazioni sarà compilato un dettagliato specchio consumi.-

La richiesta riveste carattere d'urgenza.-

3. On receipt of this letter MMIA LOs named will exercise supervision of those supplies as follows:-

(a) arrange for Italian Command concerned to furnish to LO concerned list of proposed sub-allocations to branches and units 7251

(b) scrutinise such list and approve (with amendments as necessary) before individual branches and units are authorised to collect from CIP

(c) arrange that a proportion of the total assignment (say 15% - 20%) is held unallotted against release by MMIA for special purposes and/or release against routine requirements not earlier than the last ten days of the month.

4. Individual LOs are requested to note the following points:-

Sicily. POL assigned for Sicily Call-up in this HQ letter ST/1037 of 7 Dec 44 is independent of the routine allotments for December and January respectively. If more POL is eventually required for the Call-up and MMIA LO Sicily is satisfied it cannot be obtained by squeezing January allotment now notified, he will inform MMIA HQ accordingly.

Naples. MMIA LO will ensure that sufficient POL is held in reserve to deal with discharge of Sardinia vehicles ex ship and onward despatch from Naples to other destinations.

Florence allotment requested by War Ministry on behalf of Italian Military Mission to 15 Army Group, Comando Delegazione T, Corsoti Florence, Corsoti Detachment No 3, Corsoti Arezzo,- Livorno - Lucca - Pisa - Pistoia, Siena Distretto Militare. MMIA LO Brit Incr Rear 5 Army is requested to keep rough check (so far as his other duties permit) of sub-allocations to these elements and their justifiability or otherwise.

5. By means of the foregoing supervisory arrangements it is intended to ensure to a greater extent than formerly that available ITI-ITI POL as assigned by Pet Sec AFHQ is utilised by the Italian Army on the basis of determination of relative priority and urgency of the various operations calling for transport, and by this means to eliminate the necessity for supplementary demands for POL whenever an unexpected operation has to be carried out. Where on the other hand the MMIA LO concerned is satisfied that the allotment of a particular product to a particular area is genuinely insufficient for the performance of essential services (after all possible economies and adjustments have been made locally) MMIA LO will render report accordingly with supporting data. This will enable MMIA HQ to approach AFHQ Pet Sec with more solid evidence than is provided by a unilateral demand forwarded through Italian Army channels alone. MMIA LOs are requested to approach the problem with such general considerations in mind, to review the existing arrangements in the area concerned for withdrawal and distribution of ITI-ITI POL, and in due course furnish reports and comments to this HQ on practical methods of increasing efficiency in the utilisation of these POL supplies.

COMANDO MILITARE DELLA SARDEGNA
Automotive Directorate

No. 2064/AUT. AFO 75/A, 18 March 1945

SUBJECT: Extraordinary Request for Diesel Oil.

TO : M.M.I.A. - Colonel Simmons.

Reference conversation of 17 March.

1. With the remaining 10,000 litres of diesel oil stated the evening of 23 February 45, it has not been possible to cover the needs of dependent units up to the end of February.

In effect during the month of February, for which 65,000 litres were allocated for the sole normal needs, the consumption has been largely increased as a consequence of needs concerning the recall Collecting Centers and since the armored cars and trucks were shipped to the mainland with half full tanks as per instructions of your MMIA.

2. This Hq was, therefore, forced to meet such new needs with the normal allocation for March (65,000).

3. Consequently, beginning 15 March the dependent F.O.L. dumps will have no diesel oil available.

4. In accordance with the above and in order to enable us to carry out the program for the repairing of armored cars located at Guspini Zone and to ensure the continuation of the normal services during the current month which were to be discontinued the morning of 16 March, you are kindly requested to authorize an extraordinary allocation of at least:

35 tons of diesel oil.

5. Said quantity would be distributed as follows:
25 tons for 13th Park (armored cars and workshops)
10 tons for the continuation of the normal services.

6. Attached herewith is a chart showing the consumption to justify the allocations made during the period 24 February - 15 March.

7. Your MMIA is kindly requested to expedite the allotment in question.

8. The quantity of gasoline is at the moment sufficient to cover the present needs. You will be informed of the existence and the consumption of gasoline.

COMANDO MILITARE DELLA SARDEGNA

N° 2064/Aut. di prot. P.M. 75/A, li 18 marzo 1945

OGGETTO: Richiesta straordinaria gasolio.-

ALLA M.M.I.A. = S E D E =
(Col. Simmons)

Riferimento conversazione giorno 17 corrente.-

1.- Con la rimanenza di litri 10.000 di gasolio, denunciata la sera del 23 febbraio u.s. , non è stato possibile soddisfare le necessità dei reparti dipendenti fino a fine febbraio.

In effetti, nel mese di febbraio, per il quale si è avuta l'assegnazione di litri 65.000 (per i soli bisogni normali), si è avuta una notevole maggiorazione nei consumi, in conseguenza delle necessità relative ai Centri Raccolta richiamati, e perchè i mezzi corazzati e autocarri avviati in continente, per disposizioni di codesta M.M.I.A., sono stati imbarcati con mezzo serbatoio.

2.- Questo Comando si è trovato quindi costretto a far fronte a tali nuove necessità, con le assegnazioni normali del mese di marzo (litri 65.000).

3.- Pertanto, a far data dal 15 corrente, i dipendenti depositi carburanti sono totalmente sprovvisti di gasolio.

4.- Per quanto sopra, allo scopo di poter effettuare la **periodiche revisioni** per la rimessa in efficienza dei carri armati dislocati nella zona di Guspini,ed assicurare la **prosecuzione** dei servizi normali per il mese in corso, servizi che si sono dovuti fermare dalla mattina del 16 corrente, pregasi voler concedere un'assegnazione straordinaria di almeno:

- tonn. 35 di gasolio.

5.- Il quantitativo richiesto verrebbe così suddiviso: [illegible]

4.- Per quanto sopra, allo scopo di poter effettuare la serie di lavorazioni per la rimessa in efficienza dei carri armati dislocati nella zona di Ouspini, ed assicurare la prosecuzione dei servizi normali per il mese in corso, servizi che si sono dovuti fermare dalla mattina del 16 corrente, pregasi voler concedere un'assegnazione straordinaria di almeno:

- tonn. 35 di gasolio.

5.- Il quantitativo richiesto verrebbe così suddiviso: 7289

- tonn. 25 per il 13° Parco (carri armati e officine)
- tonn. 10 per la prosecuzione dei servizi normali.

6.- Si allega alla presente uno specchio consumi, a dimostrazione delle erogazioni effettuate durante il periodo ~~dal~~ 24 febbraio - 15 Marzo; le maggiori erogazioni (litri 11.000) rappresentano impegni di quantitativi non ancora introdotti.

7.- Si prega codesta M.M.I.A. di voler compiacersi dar corso all'assegnazione con cortese urgenza.

8.- Il quantitativo di benzina - per ora - è sufficiente a far fronte alle necessità in corso.
Riserva di riferire poi, con foglio a parte, la consistenza e consumi benzina.

N.1709/Aut 3 March 1945
SUBJECT: Extraordinary request of fuel

TO:M.M.I.A.
The 13th. Autoparco Direction has requested our Hqs the extraordinary assignment of:

20.000 Kgs of gasoline
20.000 Kgs of diesel oil

needed to repair the 220 tanks located in the area of Guspini.

The M/M has given instructions that no extraordinary request of fuel can be made without the previous authorization and signature of the lo. liason Officer.

Therefore we request you to assent the present request of fuel , considering that the above quantities are necessary to:

Repair the tanks
Try and test them
Run them to Cagliari

The request is very small if you consider that the tanks in question are stoped for over 18 months and in very bad mechanic order.

When the tanks have been repaired a detailled chart showing what has been used will be made out.

The present request is urgent .

At present there is on hand
25 February: 33,000 litres of gasoline
23 February: 10,000 litres of diesel oil
Estimate that diesel oil will just last until 1 March.

Plenty of gasoline on hand.

New allotment effective 1 March, shows:
65,000 litres of gasoline
65,000 litres of diesel oil

Therefore, I believe there is enough fuel (P.O.L.) available and supplementary request should be disapproved.

926/AUT APO 75/A, 3 February 1945

SUBJECT: RECRUITING CENTERS - Allotment of P.O.L. Products.

TO: MINISTRY OF WAR
Automobile Directorate
2nd Div. III Section ROME

In order to facilitate the reporting of the recalled men, various recruiting centers have been formed and administered by automobilistic units.

Said centers, together with the railroad centers, are in charge of transporting the recalled men and recruits from depots to the railroad stations and assembling points.

38 heavy trucks are now being used for the aforesaid service; each truck has to cover a daily distance of 100 or 200 kilometers.

It is probable that other services will be added for the same purpose and new routes added to the existing ones. Therefore, in view that the present available quantities of POL products are not sufficient to cover all these new needs and that the quantities needed are a large part of the monthly allocation made by the Allies, this Headquarters requests the emergency allotment of 20,000 kgs. gasoline, 45,000 diesel oil.

On completion a detailed report will be forwarded to your Hq, showing the various routes and quantities consumed.

Allo scopo di poter meglio regolare l'afflusso dei richiamati; sono stati costituiti veri centri di raccolta gestiti da unità automobilistiche.-

Detti centri, oltre ad integrare la funzione di quelli ferroviari, hanno il compito di trasportare i richiamati e le nuove reclute, dai centri di mobilitazione, alle stazioni ferroviarie e ai centri di affluenza.-

Per detto servizio sono attualmente impiegati 38 autocarri del tipo pesante; ogni autocarro deve percorrere giornalmente un itinerario che varia dai 100 ai 200 km..-

E' probabile che altri servizi si dovranno verificare sempre per lo stesso scopo, e che nuovi itinerari dovranno aggiungersi a quelli or previsti.-

Ciò stante, premesso che, le attuali disponibilità di c. e l. non consentono di poter far fronte a questa nuova esigenza, e che i quantitativi occorrenti rappresentano buona parte delle assegnazioni mensili concesse agli Alleati, questo Comando richiede a codesto Ministero l'assegnazione straordinaria di :

- Kg. 20.000 di benzina,
- Kg. 45.000 di gasolio.-

22 Sep 44.

1. Effective inclusive the POL bid to be submitted to this Hq by 16 October 1944, for consumption during period November 1944, a revised form for submission of bids will be taken into use.
A specimen copy of the new form is attached.

2. The following points are called to your attention:-

(a) The number of vehicles in operation will be those that are roadworthy at the time the bid is compiled.
(b) The scales of allotment have been found by experience to be a reasonable minimum, but you will understand strict conservation is essential.
(c) i. The actual bid, that is "Required per vehicle state", in Part 2 of the form is calculated on the numbers of vehicles times the appropriate scales of allotment shown in Part I of the form.
ii. Stock balances are offset against these requirements, thus having a net requirement, representing the final bid.
iii. Stock balances will include stocks actually on hand from previous allocations, plus all stocks of Italian POL belonging to the War Ministry.
iv. Any portions of previous Allied allocations which have NOT been withdrawn from C.I.P. installations will NOT be included in stock balances, as all such uncollected portions automatically lapse at the end of a period.
v. It is essential you arrange for stock figures to reach you in time to complete the form by the due date, as no allocations will be made if stock figures are not included in the form.
From this it follows the NIL stocks must be shown, otherwise confusion may arise.
(d) The bid for CC.RR use will be based ONLY on the "Normal Use" scale of allotment.

No. 7487/AUT

A. P. O. 50, 23 April 1944

SUBJECT: Allotment grease and lubricants for the vehicles of the Royal Army

TO : Allied Force Headquarters, Allied Control Commission, Army Sub Commission

In accordance with paragraph 7 of letter Adv. AFHQ - Petroleum Section, APO 400, dated 31 March 1944, this Intendance informs you as follows:

1. The actual availability of grease and lubricants for transmission and differentials existing in our warehouses, is as follows:

Item	Quantity in Kg.	Quantity in Barrels
GS grease	1346	10.45
WB grease No. 3	1012	7
GP grease No. 1	500	3.61

2. In order to assure the normal greasing and lubrication for transmission and rear differentials of vehicles and tanks, the dependent motorized and armored units require more than twice the quantity that this Intendance has available.

The lack of the items in question, paralize the movements of the armored vehicles and endanger the preservation of the materiel and the possibility of any movements.

3. You are, therefore, informed of the necessity of the immediate supply in the following quantities:

GS grease	20 barrels
WB grease No. 3	23 "
GP grease No. 1	27 "

Only with the availability of the above mentioned items can convenient maintenance of the vehicles be assured and reliance placed in their use.

No. 7467/AUT A. P. O. 50, 23 April 1944

SUBJECT: Allotment grease and lubricants for the vehicles of the Royal Army

TO : Allied Force Headquarters, Allied Control Commission, Army Sub Commission

In accordance with paragraph 7 of letter Adv. AFHQ - Petroleum Section, APO 400, dated 31 March 1944, this Intendance informs you as follows:

1. The actual availability of grease and lubricants for transmission and differentials existing in our warehouses, is as follows:

Item	Quantity in Kg.	Quantity in Barrels
GS grease	1346	10.46
WB grease No. 3	1012	7
GP grease No. 1	500	5.61

2. In order to assure the normal greasing and lubrication for transmission and rear differentials of vehicles and tanks, the dependent motorized and armored units require more than twice the quantity that this Intendance has available.

The lack of the items in question, paralise the movements of the armored vehicles and endanger the preservation of the material and the possibility of any movements.

3. You are, therefore, informed of the necessity of the immediate supply in the following quantities:

GS grease	20 barrels
WB grease No. 3	25 "
GP grease No. 1	27 "

Only with the availability of the above mentioned items can convenient maintenance of the vehicles be assured and reliance placed in their use.

1. It is noted that issues of 170 barrels of benzine and 556 barrels of gasolio have been made to civilian users from stocks allocated to the Italian Armed Forces in SARDINIA.

2. It is not clear why this should have been done as, under the terms of AFHQ Administrative Instruction No.11 of 28 Feb 1944, petroleum products required for civilian use in SARDINIA are submitted by the Italian Government, through the Allied Control Commission, to the Petroleum Section of AFHQ.

3. This Administrative memorandum further atates that in no instances will petroleum products held by the Italian Armed Forces be released to civilian contractors, unless prior authority has been obtained from Petroleum Section AFHQ, as a result of application made by the Italian War Ministry to Hq MMIA.

4. The Italian Government is preparing its estimates of civil requirements for SARDINIA, should take into account the requirements of civilian contractors working for Italian military account.

5. In the case of civilian contractors working for Allied military account, requirements of petroleum products will be drawn from C.I.P. on authority given by Petroleum Section AFHQ.

TRANSLATION GD/rrc

MEMORANDUM FOR COLONEL SIMMONS

The Italian Oil Board received from the Military Intendanza (Quartermaster) the letter dated 24 May 1944, copy of which is hereto attached (inclosure No. 1), concerning directions by the War Ministry whereby all the goods distributed by the Military Headquarters Sardinia to provide for the several activities are to be intended as lent to the AGIP and then to the CIP, and it is directed that CIP (Italian Oil Board) should return an equal quantity of U.S. products at the same release price.

The above direction was carried out immediately and the Parco Automobilistico has returned the invoices issued by the CIP for the supplies in the month of May. (See inclosure No. 2).

In regard to the above initiative some considerations have been made which clearly show the irregularity of the provision affecting the CIP.

Exposition of Previous Facts

The former Ministry of Corporations, in accordance with the Supreme Command and Army General Staff, used to import and distribute all oil products in war time through the Azienda Generale Italiana Petroli (Italian General Oil Co), which also provided for the conveying of the goods to Sardinia and for the consignment of the same (on the basis of ministerial allotments) to civilian and military organizations, and secured payment on the basis of a fixed price. Such price was ordered by the government in order not to cause the cost of living to increase more than necessary.

The Army, with the AGIP supply, had established in Sardinia a remarkable stock, which was to form its self-sufficiency for several months. Since, at a certain moment, due to war offences, flow of P.O.L. products to this island was irregular and insufficient to the needs, the Supreme Command ordered (May, 1943) that all incoming products be put at the disposal of the Army, which according to the availability should provide for distribution to the other Armed Forces and to the civilians on the island (See inclosure No. 3).

The AGIP was then to consign the products on the basis of orders reaching it from the Army Intendance (Quartermaster) and no longer from the Ministry of Corporations. The distribution actually occurred that way and settlement with the Army, for the several quanitities released to the AGIP for the purpose, was made:

-thru a compensation with quantities previously consigned to the Army itself and which has not been paid for yet.

7194

Declassified E.O.. 12356 Section 3.3/NND No. 785020

-thru a clearance sale of the remaining quantities of goods, on the basis of the price previously paid by the Army to the AGIP (until 31 March 1944).

In the period of time subsequent to the Armistice, when no more supplies arrived from Italy, the Military Headquarters of Sardinia. in accord with the civilian authorities of the island, following the above directions, practically replaced the Ministry of Corporations and the Supreme Command in guaranteeing with the available products (self-sufficiency), the military and civilian life of the island.

Therefore, the Intendance, upon its own judgment, released products either directly or thru the AGIP:

-to the several civilian organizations on the island.
-to the Navy and Air Force.
-to the contracting firms executing military works.

The AGIP and then the CIP have simply settled the administrative part, for the direct consignments by the Army by settling with the 13th Parco Automobilistico and by being paid by the organizations which withdrew goods.

They also have stored and distributed the goods intended for the civilians as per orders by the Intendance and the High Commissioner's Office.

Remarks:

The aforesaid clearly shows that both the CIP and the AGIP have only as administrative and distribution instruments of the oil products which the Intendance, for the above reasons, deemed it proper to put at the disposal of the various Sardinian activities in order to guarantee their working out.

Nor had the AGIP from such activity made any profit, but it was a loss instead, as it may be easily shown.

The Intendance, however, never informed the AGIP that distributed goods were to be intended as lent and therefore they should in due time be restored or compensated by other supplies under the same conditions. At the time, that would be considered utterly absurb and the AGIP would surely not have taken an obligation of that kind, since it had neither any stocks of the products nor did it know how to get some and therefore it was in no position to restore the said products.

All the correspondence clearly shows, moreover, that it was not the Intendance's intention to have the good restored; on the other hand it would have been absurb to think that the Supreme

7193

Declassified E.O.. 12356 Section 3.3/NND No. 785020

Military Authorities on the island, while taking exceptional measures (distribution of oil products drawn from the stocks) would thus indirectly and without any previous agreement bind the AGIP and subsequently the CIP, placing the consequences of its initiative on the above.

As a proof of the aforesaid, the Parco Automobilistico, which practically consigned the goods, has debited the AGIP and then the CIP, until March 31, 1944, for the P.O.L. supplied at the same quotation previously paid by the above Parco itself, without any reference to restitution of any sort. (See inclosures No. 4 and 5).

Now, since the CIP which replaced the AGIP, on the basis of the directions issued by the A.F.H.Q. and with the goods put at the disposal of the same is in a position to supply U.S. oil products which, owing to their high cost, transportation, etc. are quoted at a much higher price than the fixed release price, the Intendance, with the above letter, requests that the quantity of products actually distributed by itself or ordered to be distributed by restored to it.

The above request appears the more absurb when one takes into consideration the fact that having the Military Authorities brought a heavy loss on the AGIP, by enjoining it to sell at the fixed purchasing price without any compensation for the heavier transportation and distribution expenses (they intended keeping the existing condition, that is to say, not to in crease the transportation expenses), now they intend that the CIP should restore the received quantities by U.S. goods, which cost about three tines as much.

Conclusions:

-The CIP requests that a settlement of all the debts with the Army until April 30, 1944 be arrived at, on the basis of the old price and in conformity with the charges by the Parco Automobilistico. (See inclosures 4 and 5);

-Also that, starting from the 1st of May, on which date the U.S. supply of goods began, a compensation of products between those withdrawn by the Army at Cagliari and those consigned to the CIP in North Sardinia be carried out. The surplus difference withdrawn by the Army shall, of course, be paid on the basis of the new terms

-Also that the Intendance made the matter clear directly to the War Ministry in such a way as to bring about the cancellation of the directions contained in the above letter.

N.B. The present sale conditions to the Army are as follows:
(cost of services exclusive of value of goods)

gasoline	lire 1082.20 per quintal
diesel oil	lire 845.25 per quintal

The release prices mentioned in the text of the above memorandum are instead as follows: (inclusive of cost of goods)

gasoline	lire 702.67 per quintal
diesel oil	lire 497.73 per quintal

PROMEMORIA PER IL COLONNELLO SIMONS

Il Comitato Italiano Petroli ha ricevuto dall'Intendenza militare la lettera 24 Maggio I944,che qui si allega in copia, all.N.I) concernente disposizioni del Ministero della Guerra in base alle quali si considera ceduto in prestito all'AGIP e poi al CIP tutta la merce distribuita dal Comando militare in Sardegna per sopperire alle varie attività e si pretende che il CIP restituisca pari quantitativi di prodotti U.S.A. al medesimo prezzo di cessione (politico) .

Tale disposizione è stata messa immediatamente in atto tanto che il Parco Automobilistico ha rimandato le fatture emesse dal CIP per rifornimenti del mese di maggio (vedi all. N.2).

A proposito di tale iniziativa si fanno qui sotto alcune considerazioni dalle quali appare del tutto irregolare il provvedimento che viene a colpire il Comitato Italiano Petroli.

Premesse:

L'ex Ministero delle Corporazioni, in accordo con il Comando Supremo e lo Stato maggiore dell'Esercito, importava e distribuiva i prodotti petroliferi nel periodo bellico a mezzo dell'Azienda Generale Italiana Petroli la quale quindi provvedeva a far arrivare anche in Sardegna la merce che poi, in base ad assegnazioni ministeriali,consegnava ad Enti militari e civili facendosi pagare,in base ad un prezzo bloccato (politico) .Tale prezzo era stato imposto dal governo per far sì che il costo della vita non aumentasse più del necessario.

L'Esercito,con i rifornimenti dell' AGIP,aveva costituito in Sardegna delle scorte notevoli che dovevavno formare la sua autosufficienza per parecchi mesi.

Poichè, in un certo momento, l'afflusso dei P.O.L. nell'isola,a seguito di offese belliche, avveniva irregolarmente ed in misura inadeguata ai bisogni, il Comando Supremo ordinò (Maggio I943)che tutti i prodotti che giungevano fossero messi a disposizione dell' Esercito il quale, a seconda delle disponibilità, doveva provvedere alla distribuzione alle altre Forze Armate ed ai civili dell'isola(vedi allegato N.3) .

L'Agip doveva quindi consegnare i prodotti in base ad ordini che le pervenivano dall'Intendenza dell' Esercito e non più dal Ministero

L'Agip doveva quindi consegnare i prodotti in base ad ordini che le pervenivano dall'Intendenza dell' Esercito e non più dal Ministero delle Corporazioni. La distribuzione infatti è avvenuta in tal senso ed il regolamento con l'Esercito delle varie partite cedute all'Agip a tale scopo è avvenuto:

- mediante compensazione con quantita in precedenza consegnate all'Esercito stesso e che non erano ancora state pagate;
- mediante liquidazione dei restanti quantitativi di merce in base al prezzo a suo tempo pagato dall'Esercito all' AGIP (fino al 31/3/1944)

7191

Nel periodo susseguente l'armistizio e nel quale, dal continente, non arrivavano più rifornimenti, il Comando Militare della Sardegna, d'accordo con le Autorità civili dell'isola, seguendo le direttive di cui sopra, si è praticamente sostituito al Ministero delle Corporazioni ed al Comando Supremo nel garantire con i prodotti a sua disposizione

Declassified E.O. 12356 Section 3.3/NND No. 785020

(autosufficenza) la vita militare e civile dell'isola.

L'Intendenza ha così dato a suo insindacabile giudizio direttamente od a tramite dell' AGIP prodotti:

- Alla Marina ed alla Aeronautica,
- ad Imprese che eseguivano lavori militari,
- ai vari Enti civili dell'isola.

L'Agip e poi il Cip hanno semplicemente sanato contabilmente la parte amministrativa per le consegne dirette eseguite dall'Esercito liquidando il I3 Parco Automobilistico e facendosi pagare dagli Enti prelevatari;

immagazzinato e distribuito la merce destinata ai civili come da ordini dell'Intendenza e dell'Alto Commissariato.

Considerazioni:

Da quanto sopra appare evidente che l'Agip e poi il Cip non sono stati altro che strumenti amministrativi e di distribuzione dei prodottti petroliferi che l'Intendenza , per le ragioni predette, ha creduto opportuno mettere a disposizione delle varie attività dell'isola per garantirne il funzionamento . Nè da tale attività l'Agip ha avuto un beneficio bensì una perdita effettiva come facilmente è dismostrabile.

L'Intendenza, comunque, non ha mai comunicato all'Agip che la merce costì distribuita doveva intendersi ceduta a titolo di prestito e quindi avrebbe dovuto a suo tempo essere restituita o compensata con altre forniture alle medesima condizioni. Ciò allora sarebbe stato assurdo sotto tutti i punti di vista e l'Agip certo non si sarebbe assunta un impegno di tale genere dato che non aveva nè scorte di prodotti nè il modo di procurarne e quindi si trovava nella impossibilità di effettuare alcuna restituzione.

Che poi non fosse nelle intenzioni dell'Intendenza di farsi restituire la merce appare evidente da tutta la corrispondenza ; d'altra parte sarebbe stato fuori luogo il pensare che la Suprema Autorità militare dell'isola, nel prendere un provvedimento di carattere eccezionale (distribuzione prodotti petroliferi dalle sue scorte) intendesse così indirettamente impegnare, senza preventivi accordi, l'Azienda Generale Italiana Petroli e successivamente il CIP, facendo gravare

dotti petroliferi che l'Intendenza , per le ragioni predette, ha creduto opportuno mettere a disposizione delle varie attività dell'isola per garantirne il funzionamento . Nè da tale attività l'Agip ha avuto un beneficio bensì una perdita effettiva come facilmente è dimostrabile.

L'Intendenza, comunque, non ha mai comunicato all'Agip che la merce così distribuita doveva intendersi ceduta a titolo di prestito e quindi avrebbe dovuto a suo tempo essere restituita o compensata con altre forniture alle medesima condizioni. Ciò allora sarebbe stato assurdo sotto tutti i punti di vista e l'Agip certo non si sarebbe assunta un impegno di tale genere dato che non aveva nè scorte di prodotti nè il modo di procurarne e quindi si trovava nella impossibilità di effettuare alcuna restituzione.

Che poi non fosse nelle intenzioni dell'Intendenza di farsi restituire la merce appare evidente da tutta la corrispondenza ; d'altra parte sarebbe stato fuori luogo il pensare che la Suprema Autorità militare dell'isola, nel prendere un provvedimento di carattere eccezionale (distribuzione prodotti petroliferi dalle sue scorte) intendesse così indirettamente impegnare, senza preventivi accordi, l'Azienda Generale Italiana Petroli e successivamente il CIP, facendo gravare sugli stessi le conseguenze della sua iniziativa.

A comprova di quanto detto sta il fatto che il Parco Automobilistico che praticamente ha consegnato la merce, ha elevato addebito alla Agip, e poi al Cip, fino al 31 Marzo 1944 per i P.O.L. forniti alla medesima quotazione a suo tempo pagata dal Parco stesso, senza parlare di restituzione od altro (vedi allegati N.4 e 5)

Ora che il CIP, subentrato all'Agip, in base alle direttive impartite dalla A.F.H.Q. e con la merce messa a disposizione dalla stessa è in grado di fornire prodotti petroliferi americani, che per l'alto costo, trasporti ecc. , vengono quotati ad un prezzo molto superiore a quello politico, l'Intendenza , con la lettera sopra menzionata,

Declassified E.O. 12356 Section 3.3/NND No. 785020

chiede che le venga restituita la quantità di prodotti da essa stes_ sa distribuiti o fatti distribuire.

L'assurdità della richiesta di cui trattasi appare più evidente se si considera il fatto che, avendo l'Autorità militare obbligata l'Agip ad una ingente perdita, ingiungendo di continuare a vendere al prezzo politico di acquisto, senza alcun compenso per le maggiori spese di trasporto e di distribuzione (si voleva mantenere lo stato quo e cioè non aumentare il costo dei trasporti) ora si pretende che il CIP restituisca i quantitativi avuti con merce americana che costa all'incirca tre volte tanto .

Conclusioni:

- Il CIP chiede: che si addivenga alla liquidazione di tutte le pen= denze con l'Esercito fino al 30 Aprile 1944 in base al vecchio prezzo ed in conformità agli addebiti elevati dal Parco Automobilistico (vedi allegati 4 e 5);
- che solo col I° Maggio, data dalla quale sono state iniziati i rifor_ nimenti di merce U.S.A. si effetuino compensazione di prodotti fra quelli ritirati dall'Esercito a Cagliari e quelli consegnati al CIP al nord dell'isola. La differenza ritirata in più dall'Esercito do_ vrà venire, naturalmente, pagata in base alle nuove condizioni ;
- che l'Intendenza chiarisca lei stessa direttamente col Ministero della Guerra la questione così da provocare l'annullamento delle di_ sposizioni contenute nella lettera menzionata .

NB. Le attuali condizioni di vendita all'Esercito sono le seguenti: (Costo servizi escluso valore merci):

The noted difficulties of transportation does not permit always to guarantee a regular trade of fuel separate by quantitatives destined to the Army and quantitatives for civilians assignments. To make a right apportionment of the discharged goods for military and civilian use, with special reference to the good reserved for agriculture and mines, we beg this H.Q. to centralize and dispose, in connection with the High Civil Commissioner for the part of his competence, the assignments of fuel, according the availability.

This C.H.Q. will provide to signal to this H.Q. the fuel quantitatives assigned for the different armed forces and civilian uses.

With our letter n. 0405,date May 22nd inst.,we have notified the modalities established for the apportionment-between the military and civilian beings in the Island-of fuel quantities available about the Sardinian supplies of the AGIP.
We think that it is necessary to specify that,in consideration of the military requirements and the insufficient availability of the material,the apportionment of any other fuel quantitative should be discharged in Sardinia more than the regular assignment of the AGIP,it is always in the line of this H.Q.
We confirm the rules specified in the above mentioned letter and particularly the necessity that each society to which this letter is addressed will signalize to us the assignments of gasoline and diesel oil received from the qualified organizations,the quantitatives retired and the quantities still to deduct to balance the assignments.
The assignments made by the civilians corporations,notified by the C.I.P. to the High Civil Commissariat and successively recapitulated and sent to us.

MEMORANDUM FOR COLONEL SIRACUSA

The Italian Oil Board received from the Military Intendency (Quartermaster) the letter dated 24 May 1944, copy of which is hereto attached (Inclosure No. 1), concerning directions by the War Ministry whereby all the goods distributed by the Military Headquarters Sardinia to provide for the several activities are to be intended as lent to the AOIP and them to the OIP, and it is directed that OIP (Italian Oil Board) should return an equal quantity of U.S. products at the same release price.

The above direction was carried out immediately and the Piano Autoscobilistico has returned the invoices issued by the OIP for the supplies in the month of May. (See Inclosure No. 2).

In regard to the above initiative some considerations have been made which clearly show the irregularity of the provision affecting the OIP.

Exposition of Previous Facts

The former Ministry of Corporations, in accordance with the Supreme Command and Army General Staff, used to import and distribute all oil products in war time through the Azienda Generale Italiana Petroli (Italian General Oil Co), which also provided for the conveying of the goods to Sardinia and for the consignment of the same (on the basis of ministerial allotments) to civilian and military organizations, and secured payment on the basis of a fixed price. Such price was ordered by the government in order not to cause the cost of living to increase more than necessary.

The Army, with the AOIP supply, had established in Sardinia a remarkable stock, which was to form its self-sufficiency for several months. Since, at a certain moment, due to war offences, flow of P.O.L. products to this island was irregular and insufficient to the needs, the Supreme Command ordered (May, 1943) that all incoming products be put at the disposal of the Army, which according to the availability should provide for distribution to the other Armed Forces and to the civilians on the island (See Inclosure No. 3).

The AOIP was then to consign the products on the basis of orders reaching it from the Army Intendence (Quartermaster) and no longer from the Ministry of Corporations. The distribution actually occurred that way and settlement with the Army, for the several quantities released to the AOIP for the purpose, was made:

-thru a compensation with quantities previously consigned to the Army itself and which has not been paid for yet.

7-81

Declassified E.O. 12356 Section 3.3/NND No. 785020

-thru a clearance sale of the remaining quantities of goods, on the basis of the price previously paid by the Army to the AGIP (until 31 March 1944).

In the period of time subsequent to the Armistice, when no more supplies arrived from Italy, the Military Headquarters of Sardinia, in accord with the civilian authorities of the island, following the above directions, practically replaced the Ministry of Corporations and the Supreme Command in guaranteeing with the available products (self-sufficiency), the military and civilian life of the island.

Therefore, the Intendance, upon its own judgment, released products either directly or thru the AGIP:

-to the several civilian organizations on the island.
-to the Navy and Air Force.
-to the contracting firms executing military works.

The AGIP and then the CIP have simply settled the administrative part, for the direct consignments by the Army by settling with the 13th Force Autoreabilitation and by being paid by the organizations which withdrew goods.

They also have stored and distributed the goods intended for the civilians as per orders by the Intendance and the High Commissioner's office.

Remarks:

The aforesaid clearly shows that both the CIP and the AGIP have only as administrative and distribution instruments of the all products which the Intendance, for the above reasons, deemed it proper to put at the disposal of the various Sardinian activities in order to guarantee their working out.

Nor had the AGIP from such activity made any profit, but it was a loss instead, as it may be easily shown.

The Intendance, however, never informed the AGIP that distributed goods were to be intended as lent and therefore they should in due time be restored or compensated by other supplies under the same conditions. At the time, that would be considered utterly absurb and the AGIP would surely not have taken an obligation of that kind, since it had neither any stocks of the products nor did it know how to get some and therefore it was in no position to restore the said products.

All the correspondence clearly shows, moreover, that it was not the Intendance's intention to have the good restored; on the other hand it would have been absurb to think that the Supreme

7.39

Declassified E.O.. 12356 Section 3.3/NND No. 785020

Military Authorities on the island, while taking exceptional measures (distribution of oil products drawn from the stocks) would thus indirectly and without any previous agreement bind the AGIP and subsequently the CIP, placing the consequences of its initiative on the above.

As a proof of the aforesaid, the Petco Autosbillitico, which practically consigned the goods, has debited the AGIP and then the CIP, until March 31, 1944, for the P.O.L. supplied at the same quotation previously paid by the above Petco itself, without any reference to restitution of any sort. (See inclosures No. 4 and 5).

Now, since the CIP which replaced the AGIP, on the basis of the directions issued by the A.F.H.Q. and with the goods put at the disposal of the same is in a position to supply U.S. oil products which, owing to their high cost, transportation, etc. are quoted at a much higher price than the fixed release price, the Intendence, with the above letter, requests that the quantity of products actually distributed by itself or ordered to be distributed by restored to it.

The above request appears the more absurd when one takes into consideration the fact that having the Military Authorities brought a heavy loss on the AGIP, by enjoining it to sell at the fixed purchasing price without any compensation for the heavier transportation and distribution expenses (they intended keeping the existing condition, that is to say, not to increase the transportation expenses), now they intend that the CIP should restore the received quantities by U.S. goods, which cost about three times as much.

Conclusions:

-The CIP requests that a settlement of all the debts with the Army until April 30, 1944 be arrived at, on the basis of the old price and in conformity with the charges by the Petco Autosbillitico. (See inclosures 4 and 5);

-Also that, starting from the 1st of May, on which date the U.S. supply of goods began, a compensation of products between those withdrawn by the Army at Cagliari and those consigned to the CIP in North Sardinia be carried out. The surplus difference withdrawn by the Army shall, of course, be paid on the basis of the new terms

-Also that the Intendence rule the matter alone directly to the War Ministry in such a way as to bring about the execution of the directions contained in the above letter.

N.B. The present sale conditions to the army are as follows:
(cost of services exclusive of value of goods)

gasoline	lire 1082.20 per quintal
diesel oil	lire 845.25 per quintal

The release prices mentioned in the text of the above memorandum are instead as follows: (inclusive of cost of goods)

gasoline	lire 702.67 per quintal
diesel oil	lire 497.73 per quintal

Motor Directorate

No. 11398/Aut. APO 50, 26 June 1944

SUBJECT: Fuel

TO : Allied Garrison Headquarters, Allied Control Commission, Land Forces Sub Commission APO 509, U.S. Army

To Colonel Simmons.

In reference to the conferences held at your Headquarters, concerning the monthly allotments of fuel and relative supplies made by the Allied Headquarters, I wish to make the following items clear.

1. Monthly information sent to your headquarters, as requested, show consumption each month.
Since such schedules, referring to the end of the month, shall be drawn from the 20th to the 25th, consumption for the last 10 days is approximate since it is reckoned on the estimate of probable consumption.
Anyway the rationally determined estimate is so near to the actual consumption as to exclude every remarkable difference.
Morever, when they asked for inventory of stocks stored in the Italian Army warehouses, the actual existent quantity were communicated.

2. The Italian Military Administration lately salvaged some fuel containers out of the S/S "Paolo", which was sunk near Cagliari harbor on February 1943.
Salvage operations of the usable fuel are about to be completed and the relative quantities will be forthwith taken in charge, in surplus to the existent stock.
Salvageable fuel is reckoned to amount to about 50 tons.

3. Only empty containers (1787) were salvaged out of the steamer "Nirvo", which was sunk at Olbia.

(5) 4. The ex-German containers, which were thrown by the sea on the Orosei beach, has been salvaged and decantation operations of the fuel have given 19,627 liters of gasoline and 450 liters of semi-thick fluid.
The above stuff has been regularly taken in charge and recorded in the fuel report.

5. This Headquarters, which acted fairly in regard to the Allied Headquarters and fully cooperated in every sector of activity in order to avoid dangerous and useless delays in the services and supplies, wished that the agreements made with the 310th Service Group be sanctioned and actuated as follows:

a. Allow that at the Italian Military depots, located in the Island, the following total quantity of fuel be constantly stored for any emergency:
- 300 tons of gasoline
- 400 tons of diesel

b. Allotment and release by the Allied Headquarters of a monthly quantity necessary for the normal requirements of the units. Such quantity amounts to about
- 210 tons of gasoline, equal to 1750 barrels
- 310 tons of diesel, equal to 228 barrels

The above quantities will decrease by the diminishing of troops in Sardinia;

c. Eventual replacement of the larger consumption due to reasons of an operative and logistic character upon request from your Headquarters.

- Movements of units for the embarkation and shifting of organic units (personnel and equipment) on the island, - searchlight, - road works.

It is to be intended that such replacements will take place only if they cannot be limited to the normal monthly allotments, whose use is inspired to the most severe economy criterion, upon which a serious control is exercised.

(Attention Colonel SIMMONS)

You are kindly requested to consider the possibility of releasing the following to the Pietro Cidonio Commercial House in Alghero:

100 Kg of oil for transformers to be released by the Petroleum Italian Committee.

Your attention is called to the fact that the Cidonio Firm performs road-work requested by the Allied Headquarters in the Sassari - Fertilia Airdrome road.

Such oil for transformers is to be used for the electric motors which provide the necessary power to operate the rock-crushers. Till this date the rock-crushers were operated by diesel motors which now are to be substituted because they are unserviceable.

The use of the rock-crushers is essential for the continuation of road-work.

Memorandum

FUEL AND LUBRICANTS.

Tenente BEZZI visited Army Sub-Commission on 22 June 44 and discussed the POL situation as it affects the Italian Army in Sardinia.

He stated :

1. A monthly NORMAL allotment of fuel is made by the Allies, to cover the normal requirements of units.

2. In addition, there are SPECIAL requirements, e.g. road work by Labour Bns., transport of troops and stores to Cagliari for shipment to the mainland, etc. No allotment is made to cover these SPECIAL duties.

3. Major SHAW instructed him to keep 300 tons of Benzina and 400 tons Gasolio in stock in Italian dumps (which are at TEMPIO and other depots in the North) and to draw on these stocks for the SPECIAL duties. This has been done and the stock is nearly depleted and needs re-stocking.

4. In the past the Italian Army in Sardinia has always exceeded its monthly allowance as it was able to draw on local resources, which are now finished.

5. This month (June) all Special and Normal needs have been carried out by using the Stock, as the full normal allotment was not received.

6. Unless the balance of the normal allotment for the month is received, they will not be able to carry out their commitments.

7. Ten. Bezzi then submitted an estimate of the amount of Benzina and Gasolio required for special commitments during June. (Attached). He stated that Major Shaw was in agreement with this, and that it would be necessary to receive the amount shown in the estimate plus the balance of the normal allotment in order to carry on.

Ten. Bezzi was then informed that Major Shaw was not convinced that the returns submitted by the Italian Army were accurate. Rumours and reports had been received that the Army has had access to more fuel than they have reported. As an instance, it was known that the Army had obtained certain quantities of fuel from two ships which had been sunk, one at Cagliari and the other off the East coast of the island.

Army Sub-Commission has no official information on the matter, and only receive the monthly fuel state report from General Magli. There is no reason to suppose that these are falsely represented by him, but the information supplied to him may not be entirely accurate.

The proposal is to issue the normal requirements only, until such time as any undeclared stock is consumed.

(5)

7167

Declassified E.O. 12356 Section 3.3/NND No. 785020

Ten.Bezzi replied that the ship sunk in Cagliari harbour was on fire for eight days, and the amount of serviceable fuel that was salvaged was not much. Such as there was went to the 13th Autieri Regt. and had to be sorted out ; the process is still going on and up to date the exact amount has not been notified, consequently it has not been taken on as stock in their books.

Everything else is correctly shown on their books, but there may be some inaccuracy in their estimates of requirements, which they compile about the 20th of the month.

Ten.Bezzi stated that if no reserve stock was maintained, the Army would have to draw from Allied sources for any sudden requirements, such as movements of units and stores down to Cagliari. Fuel would then have to be transported to the North in order to bring back personnel, etc. to the South. One truck carried 17 barrels, but the journey would use up 2 barrels, whereas if the stock was already in the North, fuel would be saved.

Would it not be better to keep the stock in the depot in the North and to cut down the monthly normal allotment if considered necessary ?

Ten.Bezzi had understood that Major Shaw was in agreement with his estimates.

As regards the second ship, i.e. the one sunk off the coast, Tenente Bezzi stated that the Army received none of the salvaged fuel.

THE INTENDANCE OF THE MILITARY HEADQUARTERS SARDINIA
Motor Directorate
-----ooo-----

File No. 7390 APO 50, 20 April 1944

SUBJECT: Allotment of fuel to Italian Army, Navy and Air Force, and for civilian consumption in Sardinia - April 1944.-

TO: ALLIED GARRISON HEADQUARTERS
Allied Control Commission
Land Force Sub-Commission APO 509 U. S. Army

TO: Col. SIMMONS,

In conformity with directions by letter from your Allied Control Commission dated 12 April 1944, a plan for distribution of supplies for this month is hereby forwarded in triplicate.

Besides data described in the attached schedules, issued as per the past months, you must take into account the quantities to be allotted during this month to the Italian Navy and Air Force, in conformity with allotments made by Paragraph 1 of letter dated 31 March 1944 from the A.F.H.R. Petroleum Section.-

Brought to the attention of your Commission for directions relative to future allotments, are the following:

1. The Army motor vehicles consume fuel in the following ratio:
   gasoline 1
   Diesel oil 1.50

2. The average monthly fuel requirement for Italian Army needs is the following:
   gasoline 210 tons equal to 1750 barrels
   Diesel oil 310 tons equal to 2280 barrels.-

3. The stock of fuel, after deducting the consumption for the month of April, amounts to the following:
   gasoline 424 tons
   Diesel oil 296 tons

which are wholly stored in Northern Sardinia.

In order to avoid a useless consumption of fuel and of means of transportation of the said fuel to the Southern depots - Sanluri, Siliqua, Cagliari - and of a consequent consumption to supply the Northern depots, when, as will happen in a short time, their stock will be exhausted, it is hereby requested that your headquarters consider the possibility of having the Southern depots supplied by the Allied Headquarters as of the present.

The present stock of fuel will be used in supplying the units located in Northern Sardinia.

The monthly stock needed to supply the Southern depots would be as follows: 716

gasoline 105 tons equal to 882 barrels
Diesel oil 155 tons equal to 1502 barrels

OGGETTO: Assegnazione carburanti all'Esercito, Marina, Aviazione Italiani e per uso civile Sardegna - Aprile 1944.-

AL COMANDO FORZE ALLEATE
Commissione Alleata di Controllo
Sottocommissione Forze di Terra

P.M. 509 V.S. Armj

Al Signor Colonnello Simmons,

In conformità a quanto prescritto dal foglio di cotesta Commissione Alleata di Controllo in data 12 aprile 1944, si trasmette in triplice copia il progetto di distribuzione dei rifornimenti riferentesi al mese in corso.-

Oltre ai dati descritti nei prospetti allegati, compilati analogamente a quelli degli scorsi mesi, si deve tener conto dei quantitativi da cedersi durante il corrente aprile alla R.Marina e alla R. Areonautica conformemente alle assegnazioni fatte al paragrafo 1° del foglio in data 31 marzo 1944 del A.F.H.R. - Petroleum Section. -

Si fa presente a cotesta Commissione per le disposizioni che vorrà dare in relazione alle future assegnazioni, quanto segue:

1° - gli automezzi dell'Esercito consumano carburanti nella seguente proporzione:

benzina 1
gasolio 1,50.-

2° - Il fabbisogno mensile medio carburanti per le necessità del R.E. é il seguente:

benzina tonn. 210 pari a barrels 1750
gasolio tonn. 310 pari a barrels 2280.-

3° - Le scorte di carburanti, dedotti i consumi del mese corrente ammontano approssimativamente ai seguenti quantitativi:

benzina tonn. 424
gasolio tonn. 296,

corso.-

Oltre ai dati descritti nei prospetti allegati, compilati analogamente a quelli degli scorsi mesi, si deve tener conto dei quantitativi da cedersi durante il corrente aprile alla R.Marina e alla R. Aeronautica conformemente alle assegnazioni fatte al paragrafo 1° del foglio in data 31 marzo 1944 del A.P.H.R. - Petroleum Section. -

Si fa presente a cotesta Commissione per le disposizioni che vorrà dare in relazione alle future assegnazioni, quanto segue:

benzina tonn. 424
gasolio tonn. 296,

sono accantonate interamente in depositi situati nell'estremo Nord della Sardegna.-

Per evitare un inutile consumo di carburante di mezzi per trasportare i carburanti stessi ai depositi del Sud - Sanluri, Siliqua, Cagliari - ed un conseguente consumo per rifornire i depositi del Nord, quando essi fra breve tempo saranno esauriti, si propone a cotesto Comando di esaminare la possibilità di concedere sin d'ora il rifornimento da parte del Comando Alleato per i depositi del Sud dell'Isola.-

Le attuali consistenze di carburanti dovranno pertanto servire a rifornire i reparti dislocati nel Nord della Sardegna.-

Per alimentare i depositi situati nel Sud dell'Isola occorre una disponibilità mensile:

benzina tonn.105 pari barrels 882
gasolio tonn.155 pari barrels 1302
~~Tonn. 105 - barrels 882 -~~
~~Tonn. 155 - barrels 1302 -~~ L'INTENDENTE

1. Army Sub-Commission ACC advise under date of 5 April 144 that the Italian Army stocks of gasoline and A.G.O. in Sardinian dumps will be exhausted by 20 April 1944. This forecast is based on the assumption that average daily requirements is 13 tons of gasoline and 10 tons of AGO.

2. D.A.D.S.M.E. of the Army Sub-Commission recently returned from Sardinia and reported to this office that the total number of vehicles of all types Italian Army owned is 3,786, of which he estimated 2000 are in condition to, or are running. This total is 237 higher than the previous report. Assuming the estimated total consumption at 23 tons per day as being correct, and 2000 vehicles operating, this would mean approximately 2.75 gal/vehicle/day. The April allotment is then insufficient and should be increased to the figures shown below:-

Product	U.S. Bbls. Army
80 Oct.	3200
AGO	2200
Kerosene	40
SAE 30	25
SAE 50	65
Grease N°1	5
" N°3	9

3. No change appears to be indicated for Navy, Air Force or Essential Civilian at this time. If the above assumptions prove correct and you are called upon to supply Allied POL, this letter is your authority to issue.

4. Check of the consumption figures is requested as this office feels Italian Army requirements should be reversed and the greater consumption should be in AGO. Check is also requested of actual stocks in Italian Army dumps as this expiration date is forecasted from assumed daily consumption figures.

SUBJECT: Fuel and lubricant needs.

TO : ALLIED FORCE HEADQUARTERS

A.P.O. 509, U.S. Army

Colonel SIMMONS

In reference to letter dated 7 January 1944, you are informed that the amount of fuel existing at the dumps as of 31 March 1944, is approximately as follows:

676 Tons of gasoline
833 Tons of diesel

Attached herewith are the tables showing the amount of fuel consumed during the month of March 1944.

It was foreseen , during the conversations held the biginning of January, that the supply of petroleum existing on the Island, would allow self-sufficiency until the month of March.

Thanks to the severe control and to the reduction of all fuel allotments, it as been possible to assure the self-sufficiency not only for the month of March, but also for the entire month of April and for a part of May.

You are requested to consider the need of the petroleum supply, beginning the second half of May.

OGGETTO: Fabbisogno di carburanti e lubrificanti.-

AL COMANDO FORZE ALLEATE
Commissione Alleata di Controllo
Sottocommissione Forze di Terra

L.M. 509 U.S. Army

Al Signor Colonnello Simmons,

In riferimento al foglio 7 gennaio 1944, si comunica che i quantitativi di carburanti esistenti presso i dipendenti depositi alla data del 31-3-44, sono approssimativamente i seguenti:

Tonn. 676 di benzina

Tonn. 813 di gasolio

Si trasmettono gli specchi riguardanti il carburante consumato durante il mese di marzo u.s.

Nel corso delle conversazioni avute nei primi giorni dello scorso mese di gennaio si prevedeva che le scorte di carburanti esistenti nell'isola, avrebbero consentito un'autosufficienza sino al mese di marzo.

Grazie al severo controllo e alle riduzioni di tutti i consumi, si è potuto assicurare l'autosufficienza non solo per il mese di marzo ma anche per l'intero mese di aprile e per una parte del mese di maggio.

Propost pertanto di voler considerare la necessità dei rifornimenti di carburanti a cominciare dalla seconda metà del prossimo mese di maggio.-

In reference to memorandum 7 January 1944, I inform you that the amount of fuel existing in the dumps as of 29 February is approximately as follows:

904 tons of gasoline
1,283 tons of diesel
8 tons of petroleum

The amount of petroleum is barely sufficient to take care of the most vital needs of the Ordinance and Medical Departments for the month of March . There will be no supply of petroleum for the month of April.

Attached herewith is a table showing the amount of fuel consumed during the month of February.

P.M.509 U.S. Army

Al Signor Colonnello Simmons,

In riferimento al foglio 7 gennaio 1944, comunico che i quantitativi di carburanti esistenti presso i dipendenti depositi dalla data del 29/2/944, sono approssimativamente i seguenti:

Tonn. 904 di benzina
Tonn. 1283 di gasolio
Ton. 6,8 di petrolio

La consistenza del petrolio, è appena sufficente per far fronte ad una parte delle più vitali necessità dei servizi di Artiglieria e di Sanità, per il solo mese di Marzo. Per il mese di Aprile, non esisterà più alcuna scorta di tale materia.

Inoltre si trasmette lo specchio riguardante il carburante consumato durante il mese di febbraio u.s.-

Subject: Estimate of P.O.L. needs

To : Commanding General, Italian Forces in Sardinia

1. According to information provided this date by your Intendent, Ten. Colonnello Capello, the amount of gasoline and diesel oil now in the possession of the Italian Forces in Sardinia is approximately 1100 tons and 2000 tons respectively. It was further estimated by Ten. Colonnello Capello that the above amounts were sufficient to maintain the motor transportation operated by the Italian Forces, both for military and civilian purposes, until approximately the middle of April 1944.

2. It is understood that the above data are based upon a hasty estimate and may be subjected to necessary revision. Therefore it is requested that a similar report be rendered as of the last day of each month in order that the supply agencies of the Allied Forces may be able to anticipate in due time any shortages which may become apparent between this date and 31 March 1944.

Call from Lt. Col. Capello, Santa Lucia, at 1800. He made the following report on the fuel situation

	ON HAND, TONS	EXPECTED DATE OF EXHAUSTION
Gasoline	1100	15 APR 44
Diesel Oil	3000	20 APR 44

The above is based upon the rate of consumption as shown by the number of vehicles and mileage reported on report that submitted to Allied Hqrs.

The above figures represent the consumption data for military and civilian needs, exclusive of Air Force and Navy requirements.

ALLIED GARRISON OF SARDINIA

APO 520

30 December 1943

SUBJECT: Allocation of gasoline, lubricants, etc., to Italian Army in SARDINIA.

TO : The Commanding General, Italian Army in SARDINIA.

1. Receipt is acknowledged of the statement of the monthly needs of your forces in gasoline, lubricants, etc, furnished this headquarters by Colonel CALAMEO of your headquarters.

2. The statement of your needs is far in excess of the amount of these supplies allocated to this headquarters for issue to your forces and is not in sufficient detail to permit of intelligent review.

3. It will be necessary that you carefully review the statement and resubmit it, indicating therein in full detail your minimum essential needs. The latter are considered to include only those quantities consumed in the supply and administration of your units and the minimum necessary for messenger service, liaison and the like. The minimum required for the distribution by you of grain, flour and other supplies imported into the island by the Allied Powers for civilian consumption should be included.

4. It is requested that one or more representatives of your headquarters confer with the Air Service Commander of this headquarters at 10:00 AM, 3 January, 1944, at Headquarters 310th Service Group, VIALI TRENTO, CAGLIARI, with a view to explaining your revised requirements. The revised statement can be submitted at that time.

Petroleum Bulliten No. 1

SUBJECT: Italian Civilian Petroleum Organization.

1. As of November 4, 1943, a group was formed by members of the Italian petroleum industry to represent that industry collectively vis-a-vis military or other recognised authorities. It is called the Comitato Italiano Petroli (short name C.I.P.).

2. The C.I.P. has constituted itself so as to be able to contract on behalf of its members for services rendered to military organizations, as well as to receive and account for the disposition of products placed at its disposal to meet Italian civilian requirements. As Italian petroleum personnel and property are increased by the further occupation of territory, their inclusion in C.I.P. becomes automatic.

3. The organisation of C.I.P. consists of a Board of Directors of five persons by whom Dott. G. Cola of Naples has been elected president. Functional duties have been divided into five sub-groups dealing specifically with (a) general administration, (b) technical distribution and refining administration, (c) lubricants, asphalts, waxes and specialties, (d) motor fuels and fuel oils, (e) accounting and auditing. The headquarters of C.I.P. are at Via del Chiostro,9, Napoli.

4. To facilitate field contacts and operations, the Directors of C.I.P. have divided the area presently under control into three zones. Zone A covers Sicily with headquarters at Palermo, manager to be announced. Zone B with headquarters at Bari covers Puglie and Matera, manager Mr. L. Margherita. Zone C with headquarters at Naples covers Campania, Calabria, Molise, and Potenza, manager Dott. G. Cola. For the time being the C.I.P. representative on Sardinia will report direct to the Board. As territorial or operational circumstances warrant additional zones will be established and delegates for C.I.P. named.

5. C.I.P. is generally prepared to represent the interests of its members on any matter affecting the petroleum field of endeavor. Attention invited to Administrative Instruction No. 6 dated 10 November, 1943 this headquarters as paragraph 1, wherein Petroleum Section, AFHQ Advance Administrative Echelon is designated as the coordinating office for contact with C.I.P.
